Calendar Production
The Faculty of Graduate Studies extends its gratitude to all those dedicated individuals who contributed time and effort towards this Calendar.

Editor: Ramona Fodchuk    Senior Editor: Lindsey Rose
Production Manager: Tracy Hitchings, Imagine Print Management
Cover Design: Imagine Print Management

The Faculty of Graduate Studies is located at:
Earth Sciences, Room 720
844 Campus Place
2500 University Drive NW
Calgary, Alberta, Canada
T2N 1N4

General Enquiries: (403) 220-4938

Important Notice and Disclaimer
The material and information in this Calendar is compiled from academic and administrative office submissions and are time-sensitive. Every reasonable effort is made to ensure it is correct and accurate at the time of publication, but inaccuracies and errors may occur. If there is an inconsistency or conflict between the general academic regulations and policies published in the Graduate Calendar, and such regulations and policies as established by resolution of a Faculty or of the University General Faculties Council, the regulations and policies version as approved by the Faculty or the University General Faculties Council will prevail.

By the act of registration with the University of Calgary, each student shall be deemed to have agreed to be bound by the regulations and policies of the University and of the program in which that student is enrolled as well as any relevant Faculty policies and regulations.

Students are responsible for familiarizing themselves with the general information, rules and regulations contained in the Calendar, and with the specific information, rules and regulations of the Faculty or Faculties in which they are registered or enrolled or seek registration or enrolment, as well as the specific requirements of each degree, diploma or certificate sought. It is the student’s responsibility to ensure that the courses chosen are appropriate to the program and graduation requirements.

Students should note that not every course listed in the Calendar is offered every year, nor does being admitted into a program guarantee space in any given course.

FACULTY OF GRADUATE STUDIES
Dean: Fred Hall

Associate Deans: Adrienne Kertzer
Brian Macintosh
Michael Sideris (Engineering)
Frans van der Hoorn (Medicine)

Office Staff
Gillian Robinson, Graduate Associate Registrar (Student Services)
Lindsey Rose, Graduate Associate Registrar (Policy and Planning)
Ramona Fodchuk, Graduate Calendar Editor/Administrative Coordinator
Marilyn Mooibroek, Graduate Student Professional Development and Postdoctoral Program Coordinator
Robin Slot, Budget Manager
Erin Coburn, Graduate Scholarship Officer
Brad Drebit, Graduate Scholarship Officer
Cristina Rai, Graduate Scholarship Officer
Cathie Stiven, Graduate Scholarship and Scholarship Team Lead

The University of Calgary has the responsibility and reserves the right to make changes in the information contained in the Calendar, in either its printed or electronic form, and will provide as much notice as administratively possible in effecting such change.

The University of Calgary does not accept, and hereby expressly disclaims, any and all responsibility or liability to any person, persons or group, either direct or indirect, consequential or otherwise, arising out of any one or more of such changes and, specifically, the University hereby disclaims liability to any person who may suffer loss as a result of reliance upon any information contained in this Calendar.

The University of Calgary disclaims all responsibility and liability for loss or damage suffered or incurred by any student or other party as a result of delays in or termination of its services, courses, or classes by reason of force majeure, pandemics, public health emergencies, fire, flood, riots, war, strikes, lock-outs, damage to University property, financial exigency or other events beyond the reasonable control of the University. The University also disclaims any and all liability for damages arising as a result of errors, interruptions or disruptions to operations or connected with its operations or its campuses, arising out of computer failure or non-compliance of its computing systems.

The online Calendar is the official University Calendar. The Graduate Calendar is available online in electronic form on the Faculty of Graduate Studies at: http://www.grad.ucalgary.ca/.

A Message from the Dean

Welcome to the 2009-2010 academic year at the University of Calgary. The on-line Calendar found at http://grad.ucalgary.ca/calendar is now the official version, with this printed version just a snapshot in time of the constantly evolving Graduate Calendar. The on-line version will highlight changes that occur during the year. Any student may choose to remain with the regulations as they were upon her or his entering the program, but we anticipate that changes will always be to improve the graduate program, and therefore to the student's advantage.

This Calendar is meant to serve the needs of three groups of people: current graduate students; the staff and faculty who work with graduate students; and (particularly for the web version of the Calendar) prospective students.

For new and returning students, congratulations on your choice of the University of Calgary, and best wishes for your success here. It is your responsibility to know the regulations of the University and of your program as they are reflected in this Calendar. It is to your advantage because knowing them will assist you in setting a timetable for moving successfully through your program. If you have questions about material in the Calendar, or about any aspect of the graduate enterprise, feel free to come to our offices (Earth Sciences 720) or call (403-220-4938) or e-mail us (graduate@ucalgary.ca). Check our website for useful information (http://www.grad.ucalgary.ca), including especially the Graduate Awards database. Check also the Graduate Students' Association and their website (http://www.ucalgary.ca/GSA) for additional valuable information.

We welcome any comments you may have about the overall structure and presentation of material in this Calendar.

For staff and faculty who rely on this Calendar for your work with graduate students, let me first thank you for your involvement. You are what defines each of the graduate programs for the students, and that is an important responsibility. The organization of the front matter of the Calendar was revised in an effort to make your job easier (as well as to ease navigation of the material for the students). Please let us know what other changes to structure, or to regulations, would help you to make your program and its functioning even better.

And finally, to those prospective students who are far-sighted enough to look into the University's regulations in this Calendar, as well as investigating the website of the particular program that interests you, you are exactly the kind of inquisitive, forward-looking student that we would like at the University of Calgary! We have many sources of support for students, starting with our most prestigious competitive award, the Killam doctoral scholarship. Details of the internal awards are on the Graduate Awards Database at http://www.grad.ucalgary.ca/funding. Almost all students in research-based programs receive financial support, which is competitive with that offered by other Canadian universities. The University of Calgary is an exciting place at which to pursue your education. Let our office know how we can assist you to make an informed choice on your graduate education.

Welcome from the Provost

Welcome to the 2009-2010 academic year at the University of Calgary. Though relatively young in the context of many universities—we celebrated our 40th anniversary only three years ago—we pursue the highest levels of excellence in scholarship, research, and teaching, as is evidenced by our lofty position among the most research-intensive universities in Canada.

Graduate students are important members of the University of Calgary's academic community. As well as taking courses and undertaking research, many of you will be engaged in teaching, either as teaching assistants or as teaching fellows. This experience will be an important element of your academic development, and, additionally, a valuable contribution to undergraduate education.

The Graduate Students' Association (GSA) has become a strong and effective advocate for graduate students at the University of Calgary, and offers a number of opportunities that will expand your horizons and broaden your graduate experience. I encourage you to avail yourself of the services offered by the GSA, and to consider becoming engaged in the Association's many activities.

Good luck for the coming year. May it be both successful and fulfilling.
Graduate Students' Association

The Graduate Students' Association (GSA) was formed in 1967 with the aim of promoting and serving the intellectual, cultural and social interests of graduate students of the University. The GSA advances graduate education through: advocacy, accountability, support, sustainability and integrity. The mission of the GSA is to enable all students to reach the highest possible level of achievement and to support the acquisition of new knowledge and skill. As such, the GSA advocates on behalf of graduate students to the University community, all levels of government as well as the Calgary community as a whole.

GSA Membership

Membership in the GSA consists of active members, associate members and honorary members. All students registered as full or part-time graduate students in the Faculty of Graduate Studies, the Faculty of Environmental Design, and those in Post-Degree Continuous Learning programs are active members. Active members must pay the annual GSA fee and automatically become members of The Last Defence Lounge and Restaurant.

GSA Executive

The affairs of the GSA are managed by an executive body which is elected each spring for a one-year term. The positions include: President, Vice-president Academic, Vice-president Student Life and Vice-president Student Services. The Executive's goals are facilitated by a team of full-time staff members who manage the logistical, day-to-day affairs of the GSA, and report directly to the elected executive.

Graduate Representative Council (GRC)

The Graduate Representative Council (GRC) meets once a month and is the policy-generating and decision-making body of the GSA. Every department in every faculty is guaranteed one or more GRC representatives based on departmental graduate enrollment figures. Representatives are normally elected by their department's graduate students in the fall term to act as liaisons between the GSA and their Departmental Graduate Associations (DGAs). It is the GRC that gives direction to the elected Executive body and, as the governing body, the GRC has the power to modify or review GSA policies.

Departmental Graduate Associations (DGAs)

Through the GSA, each department of the university is able to form a Departmental Graduate Association (DGA). Start-up grants, the ability to apply for group funding, and receiving a discount for GSA functions at The Last Defence Lounge are just some of the benefits for DGAs. Many departments already have DGAs and the GSA encourages you to join yours—not only because it allows you to network within your department, but it fosters a sense of community for graduate students. If your department doesn’t have a DGA and you’d like to form one, the process is quite simple: just stop by the GSA Main Office for more information or visit: http://www.gsa.ucalgary.ca.

Grad 601

Grad 601 is a free orientation session given for new September and January graduate student registrants. While it is not mandatory, the GSA highly recommends that all new graduate students attend—even if they’re U of C undergraduate alumni—in order to learn about the U of C graduate program, the GSA and countless other services/opportunities provided to graduate students. Plus, it gives graduate students a chance to network with other graduate students. For more information on Grad 601, please visit: http://www.ucalgary.ca/osee/grad601.

Graduate Student Representation (External and Internal)

GSA representatives, including both the GSA executive and GRC representatives, sit as full voting members on most major committees of the university. As well, graduate students at the University of Calgary belong to provincial and national student organizations, such as the Alberta Graduate Council and the GG 13.

The GSA Office and The Last Defence Lounge and Restaurant

The GSA main office is located on the third floor of the MacEwan Student Centre (MSC 350) which houses all of the GSA’s operations, including the Health and Dental Plan. Adjacent to the office is The Last Defence Restaurant and Lounge: a members-only lounge to which active graduate students are automatically given a membership. Proof of membership can be obtained from the GSA main office during business hours: it is simply a sticker placed on student ID cards. Recently renovated and with a new menu, The Last Defence offers food and beverage service, a full bar, a patio and hosts special social events and promotions in a modern and chic atmosphere. Undergraduate students are ineligible for memberships, but U of C staff and faculty can purchase memberships for $10 per year. University of Calgary alumni graduate students are given permanent membership upon graduation.

GSA Services

The GSA provides many key services to graduate students, such as offering a Health and Dental Plan for all active members. The plan encompasses a wide variety of coverage at competitive rates and allows students to access critical services—from antibiotics and psychiatry to naturopathy and dental work. The GSA also provides a Career and Mentorship Program to help graduate students attain their desired career goals—whether this means re-entering industry after graduation or continuing on with academe. To contact the Career and Mentorship Coordinator, email: careers@gsa.ucalgary.ca. The GSA also has an Ombudsperson available as a neutral party to help guide students through U of C policy and answer any questions they may have about their rights as students. To contact the GSA Ombudsperson, please email: ombuds@gsa.ucalgary.ca. As well, each spring, the GSA hosts The U of C Graduate Conference: an inter-disciplinary conference for all graduate students in all departments of the university. This is a great way to get involved, get credit for your CV and meet other graduate students. For more information, you can visit: www.gradconference.ca. Through the GSA, graduate students also have access to GSA Bursaries, various academic and professional skills workshops, free sports leagues, a free daytimer and much, much more. To access a complete list of GSA services, visit the GSA website at: http://www.gsa.ucalgary.ca. If you ever have questions or need help, please don’t hesitate to stop by the main office—the GSA is here to help you!

Message from the GSA President

On behalf of the Graduate Students’ Association, I am pleased to welcome you to the University of Calgary. I would like to wish you every success in your graduate work and I hope that you will enjoy a fulfilling experience at one of Canada’s top universities.

Graduate students at the U of C typically lead full and productive lives, both on-campus and in their own personal time. The Graduate Students’ Association, now in its forty-second year of operation, exists to facilitate the needs and concerns of the students it represents. As a student-run organization, the GSA works hard with our full-time staff members to organize a host of activities to entertain and enrich the graduate student experience, including academic and professional skill development workshops, intramurals, and social events (karaoke, dance parties, trivia tournaments, etc.).

Along with all of these services, the GSA is primarily here for you. We represent the interests of graduate students at the University of Calgary to university administration, all levels of government, and the Calgary community. We work closely with our various lobbying groups and other graduate student organizations to ensure your needs and interests are represented. In order to succeed, however, we need your input. There are many ways to get involved: send us an e-mail telling us what you want; participate in one of our campus-wide surveys; volunteer for Grad 601; join or form your own Departmental Graduate Association (DGA); or become your department’s rep to the Graduate Representative Council (GRC). Remember, if your department doesn’t have a rep for GRC or a DGA, it’s easy to sign up—just contact the GSA main office and we’ll guide you through the process.

In addition to services and representation, the Graduate Students’ Association is responsible for The Last Defence Lounge, located on the third floor of the MacEwan Student Centre. It’s a great place to come for a meal, to attend GSA social events or partake in a casual get-together with friends or colleagues.

On behalf of the entire GSA executive, the Graduate Representative Council and all the GSA staff, welcome to the University of Calgary. We hope you have a wonderful and productive year. For more information please check out our website at: http://www.gsa.ucalgary.ca.

Regards,

Véronique Dorais
GSA President 2009-2010
pres@gsa.ucalgary.ca

### ACADEMIC SCHEDULE

#### SEPTEMBER 2010
- **6 Monday**: Labour Day. University closed.
- **7 Tuesday**: Fall Session begins.
- **7-11 Tuesday to Saturday**: Block Week
- **11 Saturday**: Last day to withdraw with permission from Fall Session Block Week course.
- **13 Monday**: FALL SESSION LECTURES BEGIN (except Block Week courses).
- **24 Friday**: Last day for registration and changes of registration for full courses and Fall Session half courses. Last day for change of registration from audit to credit or credit to audit. Fee payment deadline for Fall Session full and half courses. No refunds for withdrawals from full courses (Multi-term) or Fall Session half courses after this date.
- **30 Wednesday**: Last day to submit Application for Degree for all degrees and diplomas to be conferred at Fall Convocation.

#### OCTOBER 2010
- **11 Monday**: Thanksgiving Day. University closed (except MacKimmie, Law, Medical and Gallagher Libraries. No lectures.

#### NOVEMBER 2010
- **11-14 Thursday to Sunday**: Reading Days. No lectures.
- **12 Friday**: Fall Convocation.

#### DECEMBER 2010
- **10 Friday**: FALL SESSION LECTURES END. Last day to withdraw with permission from Fall Session half courses.
- **13-22 Monday to Wednesday**: Fall Session Final Examinations and consolidated end-of-session tests in full courses.
- **25-31 Saturday to Friday**: Holiday observance. Session Break. University closed.

#### JANUARY 2011
- **1 Saturday**: New Year’s Day. University closed.
- **3 Monday**: Winter Session begins. Lectures begin in Block Week courses.
- **3-7 Monday to Friday**: Block Week.
- **7 Friday**: Last day to withdraw with permission from Winter Session Block Week course.
- **10 Monday**: WINTER SESSION LECTURES BEGAIN (except Block Week courses).
- **21 Friday**: Last day for registration and changes of registration for full courses and Winter Session half courses. Last day for change of registration from audit to credit or credit to audit. Fee payment deadline for Winter Session full and half courses. No refunds for withdrawals from Winter Session half courses after this date.

#### FEBRUARY 2011
- **20-27 Sunday to Sunday**: Reading Week. No lectures. University open.
- **21 Monday**: Alberta Family Day. University closed (except MacKimmie, Law, Medical and Gallagher Libraries. No lectures.

#### MARCH 2011
- **31 Thursday**: Last day to submit Application for Degree for all degrees and diplomas to be conferred at May and Spring (June) Convocations.

#### APRIL 2010
- **15 Friday**: WINTER SESSION LECTURES END. (For practicum students, the length of session may be extended.) Last day to withdraw with permission from full-courses or Winter Session half courses (except Weekend University).
- **22 Friday**: Good Friday. University closed (except MacKimmie, Law, Medical and Gallagher Libraries). No lectures.
- **18-29 Monday to Thursday**: Winter Session Final Examinations.
- **30 Saturday**: Winter Session ends.

Note: The dates for the 2010-2011 Academic Year are tentative and subject to review and change.
Faculty of Graduate Studies

General Information

Introduction
The mission of the Faculty of Graduate Studies at the University of Calgary is to work with graduate programs to aid them in attracting well-prepared students, supporting the students while they are here, graduating a high percentage of them in reasonable time, and producing graduate degree holders who are well-respected contributors in their fields wherever they are employed. To achieve this, the Faculty works with programs in setting admission standards and program requirements, and in establishing supervisory and examination committees. The Faculty is also closely involved in the administration of over $35 million annually in financial awards for graduate study.

Contact Information
Location: Earth Sciences 720
Faculty number: (403) 220-4938
Fax: (403) 289-7635
Email address: graduate@ucalgary.ca
Website: http://www.grad.ucalgary.ca

Degrees Offered

Combined Degree Programs
The Faculty of Graduate Studies has approved guidelines for Combined Degree Programs. A Combined Degree Program is a formal arrangement between two units offering programs whereby students may be registered simultaneously in two graduate programs (or in one Master’s program and one professional program such as LLB or MD that normally admits students with undergraduate degrees). The University of Calgary presently offers the following combined degree programs: LLB/MBA, MTB/MBA, MSW/MBA, MSc/MBA, PhD/MBA, MD/Master’s and MD/PhD. Information and application packages are available from the relevant graduate programs.

Post Degree Continuous Learning
In line with the University of Calgary's Strategic Direction, the faculty of Graduate Studies encourages and facilitates the development of new Graduate Certificate and Diploma programs, which provide those who wish to continue their advanced education with an opportunity to acquire additional academic credentials in specific areas. These credentials may be used for credit toward a future degree. The graduate certificate and diploma programs will also be valuable to those who have completed a graduate degree but desire or require further credentials or knowledge and skills beyond their degree. The Post Degree Continuous Learning Calendar is web-based and may be found at http://www.ucalgary.ca/pdcl.

FACULTY OF GRADUATE STUDIES

Summary of Degree Programs
The Faculty of Graduate Studies administers programs leading to the degrees of:
- Doctor of Education (EdD)
- Doctor of Philosophy (PhD)
- Master of Arts (MA)
- Master of Biomedical Technology (MTB)
- Master of Business Administration (MBA)
- Master of Communications Studies (MCS)
- Master of Community and Disability Studies (MCDS)
- Master of Community Medicine (MCM)
- Master of Continuing Education (MCE)
- Master of Counselling (MC) (a Campus Alberta degree offered in conjunction with the University of Lethbridge and Athabasca University)
- Master of Education (Med)
- Master of Engineering (MEng)
- Master of Fine Arts (MFA)
- Master of Geographic Information Systems (MGIS)
- Master of Kinesiology (MKin)
- Master of Laws (LLM)
- Master of Music (MMus)
- Master of Nursing (MN)
- Master of Science (MSc)
- Master of Social Work (MSW)
- Master of Strategic Studies (MSS)

10
Admissions
Qualifications
Applicants must hold or obtain the following minimum qualifications before the Faculty will give consideration to admission:

(a) A four-year baccalaureate degree or its equivalent from the University of Calgary or a recognized institution. Degrees and grades from foreign institutions are evaluated for their equivalency to those of the University of Calgary. A grade point average equivalent to 3.00 or better (on the University of Calgary four-point system) is required. This is based on the last two years of the undergraduate degree consisting of a minimum of 10 full-course equivalents of appropriate content for the graduate program applied for, and adequate senior level courses to ensure preparation for graduate work. Any graduate work is also considered. Individual graduate programs may require a higher admission grade point average.

(b) Proficiency in the English language is essential for the pursuit and successful completion of graduate programs at the University of Calgary. It is the student's responsibility to demonstrate proficiency in English.

There is no general right of admission to Graduate Programs. Each department determines whether to recommend to the Faculty of Graduate Studies the admission of a particular applicant based not only on the applicant's credentials but also on the availability of resources for supervision and research, departmental research objectives, program balance, and other such considerations. Taking these considerations into account, graduate programs are expected to act in an equitable manner in their admission procedures.

Appropriate course content for the graduate program applied for, and adequate senior level courses to ensure preparation for graduate work is taken into consideration. Any previous graduate work is also considered.

Note: In exceptional circumstances, individuals who do not meet formal academic requirements but who have significant life achievements may be considered for admission to some graduate programs. The candidate must provide the relevant graduate program with evidence demonstrating a potential to undertake successfully the proposed program of studies. Such candidates are advised to make early contact with the graduate program. In all such cases, the decision whether or not to admit rests with the Dean of the Faculty of Graduate Studies.

2. Proficiency in the English language is essential for the pursuit and successful completion of graduate programs at the University of Calgary. Prior to admission to the Faculty of Graduate Studies, an applicant whose primary language is not English may fulfill the English language proficiency requirement in one of the following ways:

a) By writing the Test of English as a Foreign Language (TOEFL) and obtaining a score of at least 550 (written test) or 213 (computer-based test) or 80 (internet-based test). Applications may be obtained from TOEFL Services, P.O. Box 6154, Princeton, NJ 08541-6154 USA. Applicants who wish to take the computer-based TOEFL test may schedule an appointment by calling the Sylvan Candidate Services Call Centre at 1-800-468-6335. When requesting that official test results are forwarded to the University of Calgary, indicate the institution code of 9813 and the code appropriate to the graduate program, as listed in the TOEFL bulletin of information.

b) By writing the International English Language Testing System (IELTS) and obtaining a minimum score of 7.0. IELTS materials can be obtained from IELTS Publications, UCLES, 1 Hills Road, Cambridge CB1 2EU, UK.

c) By writing the Michigan English Language Battery (MELAB) test and obtaining a score of 83. The MELAB test includes a written composition, a listening test, and a test of grammar, vocabulary, and reading comprehension. An optional speaking test is also available. The MELAB test is conveniently offered once a month at the University of Calgary by the Effective Writing Program. For test information and test dates, please see the MELAB tab at http://efew.ucalgary.ca.

d) By successful completion of Level 3 of the English for Academic Purposes (EAP) program. For information, see http://www.education.ucalgary.ca/eap/ or contact English for Academic Purposes, University of Calgary, 2500 University Drive NW, Calgary, Alberta, Canada T2N 1N4. Telephone (403) 220-3485; fax (403) 210-8554; e-mail: eapp@ucalgary.ca.

The department or graduate program may waive the English proficiency-testing requirement in certain circumstances, such as the possession of a baccalaureate degree or its academic equivalent from a recognized institution in which the language of instruction is English. Contact the graduate program to which you plan to apply for further information.

Some programs require scores higher than the Faculty of Graduate Studies minima. See program listings for specific details.

3. Endorsement from the Head of the Department - It is the responsibility of the department or graduate program concerned to ensure that the applicant is, in all relevant respects, acceptable to the department and that the student's proposed program is aligned with the availability of resources for adequate supervision and research, with departmental research objectives, and with program balance, as appropriate.

All graduate programs have limited enrollment capacities. Meeting the minimum requirements does not guarantee admission.

If, at any time it is discovered that a student was admitted on the basis of falsified documents or information, the admission will immediately be declared null and void and future admission will be denied.

Students who do not meet admission standards and wish to pursue graduate work are advised to enroll in the equivalent of a full year (a minimum of three graded full-course equivalents) at the senior undergraduate level in order to improve their academic record to acceptable admission standards (a grade of "B" or higher in every course). All such courses represent "make up" work and cannot be used for advanced credit towards a graduate degree program. Successful completion of "make up" work does not guarantee admission to a graduate program. Students are advised to discuss this option with the appropriate graduate program before embarking on such a course.

Application for Admission
Applications for admission to the Faculty should be submitted through the on-line application system, which can be accessed through program websites. No assurance can be given that applications received after the deadlines noted in the "Application Deadline" section of the appropriate program section of this Calendar will be processed in time to permit the applicant to register for the following session. Specific instructions for applicants are included with the application.

All applications to the Faculty of Graduate Studies of the University of Calgary must include the following:

A non-refundable application fee for each application to a graduate degree program. $100 for Canadian citizens or Permanent Residents, $120 for international students with a study permit. Cheques or money orders must be made payable to the University of Calgary. Applications will be processed only if the fee has been paid. Official transcripts from all post-secondary institutions attended

Two appropriate letters of reference dated within twelve months of the date of application

Official MELAB, TOEFL, IELTS, GMAT, GRE scores and/or other requirements of the program for which application is being made

Note: Advanced credit can be applied for only when applying for admission. See “Advanced Credit” below.

Students will not normally be permitted to register in a University of Calgary degree or diploma program while simultaneously working toward another degree or diploma at the University of Calgary or at another institution.

Admission Categories
Graduate students are admitted to the Faculty in one of the following categories:

Regular
Students may be admitted to a program leading to the Master’s or doctoral degree, provided admission qualifications are met.

Interdisciplinary Degree
A student wishing to pursue a thesis-based degree in an area not sufficiently represented by one graduate program may be admitted both to a home program and a conjoint program in an interdisciplinary degree program. The student should submit an application form and fee, along with official transcripts and letters of reference to the intended home graduate program. The prospective home program will liaise with the conjoint program. Contact the prospective home graduate program for further details.

Special Case Admission
Special case admission may be used when resources are available to admit a student to undertake graduate studies, but no appropriate program exists. Contact the relevant department for details.
Qualifying
A student who meets the qualifications for admission but lacks the necessary background for a graduate program in a chosen area of specialization may be admitted as a qualifying graduate student. Upon satisfactory completion of a qualifying year, the student may be transferred to regular student status. Qualifying graduate students must be full-time registrants in either a Master's or a doctoral degree program. Qualifying status will not be granted for a period exceeding one year.

Because a qualifying student is required to take more courses in a degree program than a regular graduate student, a qualifying student in a thesis-based degree program will be assessed an extra year of full program fees. A qualifying student in a course-based program will pay tuition fees for the extra required courses on a per-course basis. Tuition fees for courses taken during the qualifying year will not count toward the tuition fee for the degree program.

Visiting
A student who is registered in a graduate degree program at another university that does not have an exchange agreement with the University of Calgary, and who wishes to engage in course work and research at the graduate level at the University of Calgary for credit at his/her home university may be admitted as a visiting graduate student. A visiting student must submit a completed Visiting Student Application form and the application fee. Visiting students apply to specific graduate programs, and the files are forwarded to the Faculty of Graduate Studies in the normal way. Visiting students pay all applicable general and tuition fees. Visiting students are normally permitted to spend a maximum of one year at the University of Calgary. It should be noted that admission as a visiting student does not guarantee later admission to a graduate program at the University of Calgary.

Exchange
General
The University of Calgary has reciprocal exchange agreements with other institutions. Graduate students from these institutions may engage in course or research work at the University of Calgary for credit at the home institution.

An exchange student must submit the appropriate application/approval form (http://www.grad.ucalgary.ca/forms/registration).

An exchange student pays tuition fees at the home institution when this is written into the specific exchange agreement, and applicable general fees at the University of Calgary.

If there is no reciprocal fee agreement, the exchange student pays applicable tuition and general fees at the University of Calgary.

Exchange student status does not guarantee admission to graduate programs at the University of Calgary. An exchange student who wishes to apply to a graduate program at the University of Calgary must follow the usual manner. No fee credit will be given for work done as an exchange student.

Western Deans’ Agreement
The Western Deans’ Agreement covers graduate students from the following universities:
- Athabasca University
- British Columbia Institute of Technology
- Brandon University
- Concordia University
- University of Calgary
- University of British Columbia
- University of Regina
- University of Saskatchewan
- University of Victoria
- University of Alberta
- Royal Roads University
- Simon Fraser University
- University of Manitoba
- University of Northern British Columbia
- University of Lethbridge
- University of Wisconsin

A graduate student registered in the Faculty of Graduate Studies at one university may apply for student status at a university listed above by completing the appropriate application that requires the approval of the graduate coordinator, and the Faculty of Graduate Studies at both the student’s home and host universities. Applications should be received in the Faculty of Graduate Studies at the host institution three months before the beginning of the term at the University of Calgary.

The student pays tuition and general fees at the home university and applicable general fees at the host institution.

The student is responsible for arranging for an official transcript to be sent from the host institution to the home institution when the course(s) has been completed.

Each home institution has regulations regarding the maximum number of transfer credits permitted. Further information is available at http://www.grad.ucalgary.ca/policies/westerndean.

Canadian Graduate Student Research Mobility Agreement
The Canadian Graduate Student Mobility Agreement, initiated by the Canadian Association of Graduate Schools (CAGS), encourages graduate student mobility within Canada in order to foster the exchange of ideas, specialized training, research collaboration, and interdisciplinarity. Graduate students, who must be registered full-time and paying fees at a participating university, may register as “visiting graduate research students” at another participating university. No tuition fees will be charged to visiting graduate research students, provided they are not taking courses at the host institution. Incidental fees may be charged. A faculty member at the host institution must agree to supervise and take responsibility for the visiting graduate research student during his/her stay. It is recognized that it is the responsibility of the visiting student to find a supervisor at the host institution. For further information, see the Faculty of Graduate Studies website.

Retention of Student Records
Graduate student files are kept electronically in the Faculty of Graduate Studies. All application documents submitted to the Faculty of Graduate Studies become the property of the University of Calgary and cannot be returned to the student.

When applying for admission to another program, an applicant who completed a graduate degree from the University of Calgary more than five years in the past must submit such original transcripts of post-secondary education institutions attended as are required by the program or the Faculty of Graduate Studies, and two appropriate letters of reference.

Offer of Admission
An offer of admission to a graduate program shall specify the program to which the student is admitted in terms of available programs as specified in this Calendar. Any more detailed terms of admission applying to a particular offer shall be specified in the offer. Graduate programs will supply a program specification including the terms of admission to the Faculty of Graduate Studies when recommending that a student be admitted, and will ensure that copies of any documents cited in the specification are lodged with the Faculty of Graduate Studies.

The program specification shall include course requirements, any full-time requirements, and any other relevant program components. It shall also include any offer of funding and any conditions related to that funding, from the program.

An offer of admission to a prospective student who will attend for a qualifying year must include the courses the prospective student is expected to take to upgrade his or her background to enter the program proper. The offer must include the information that these courses, and the tuition paid during the qualifying year, will not count toward the degree program.

If, during a student's program, a change in the program is mutually agreed upon by the student and the graduate program, the program may be changed from that specified as part of the offer of admission, but such variation will not come into effect until it is approved by the Faculty of Graduate Studies.

Advanced Credit
Thesis-based programs: Application for credit should be made to the graduate program at the time of admission, so that the graduate program can take previous work into account when specifying a student’s program.

Course-based programs: The student must request advanced credit in writing at the time of application for admission, endorsed by the graduate coordinator and submitted to the Faculty of Graduate Studies with the admission recommendation.

Courses for which advanced credit is being sought must be from a recognized institution and not have been used for any degree or diploma accreditation. They must be graded, graduate level courses, and the graded level of performance must be equivalent to a “B” grade or higher standing at the University of Calgary.

Advanced credit may not exceed either one-third of the program or two full-course equivalents, whichever is less. The total of advanced credit and transfer credit may not exceed either one-third of the program or two full-course equivalents, whichever is less.

Advanced credit is not normally given for courses taken more than five years before admission to the current graduate degree program or for courses taken for the purposes of qualifying for admission.

No fee credit is given for courses that are used for advanced credit, or for courses taken as an unclassified or qualifying student.
Readmission
A student who has withdrawn from program not more than five years previously and wishes to apply for readmission must submit an updated application form and a $180 fee along with a letter requesting readmission and a time line detailing the remaining program requirements and when each will be completed. If the student has taken courses at any post-secondary institutions since withdrawing from program, updated transcripts and one relevant letter of appraisal must be submitted. Each application for readmission is dealt with individually. There is no guarantee of readmission for any student.

A student who withdrew, or was withdrawn from program, more than five years previously, and wishes to be readmitted to the program must re-apply by following the normal course of application through the graduate program, including the submission of transcripts and appropriate letters of reference, and a fee of $180.

The remaining allowable time in program will be stipulated in the offer of readmission. Previous time in program will be credited.

A fee assessment, taking into account the specific circumstances of the student’s activities during the period of withdrawal, will be made as part of the offer of readmission.

Reactivation
A student who has been withdrawn for failure to register and who wishes to reactivate his/her registration, must submit a Faculty of Graduate Studies Annual Registration form, and a $180 fee. The student's supervisor and graduate coordinator must sign the registration form, indicating their willingness to reinstate the student. Reactivation may only take place within four months of the student's annual registration month, and the student will be responsible for fees for the entire term. If the student wishes to return to program after the four-month period has passed, the student must apply for readmission for the next session to which the program will admit students (see above).
Academic Regulations

The general regulations apply to all graduate students. Regulations specific to particular degree programs are outlined under the heading “Degree Regulations”.

Notices of any changes in regulations are available from the program office. It is the student’s responsibility to be familiar with the regulations and deadlines of the Faculty of Graduate Studies as stated herein, in the Faculty of Graduate Studies Handbook of Supervision and Examination, in the Graduate Student Appointments Schedule and, for thesis-based students, in the Thesis Guidelines (http://www.grad.ucalgary.ca/policies/thesis).

Notes:
Students are advised to consult with their Graduate Coordinator and Program Administrator regarding all aspects of their graduate programs.

All graduate students registering or re-registering must have contacted their supervisors and programs to discuss their programs within the first two weeks of their annual registration month.

All graduate courses listed in this Calendar are tentative and subject to the availability of instructors and student interest and in some instances are only offered in alternate years. Students should consult a current timetable before registering.

Conflict of Interest

There is potential for conflict of interest when a student’s relationship with a supervisor, or with others who are in a position to influence academic decisions, is more than a strictly academic one. There may also be a conflict of interest with implications for a student’s program when a student is at the same time a Board appointee or in a support staff position.

IN ANY CASE WHERE CONFLICT OF INTEREST IS POSSIBLE, THE DEAN OF GRADUATE STUDIES MUST BE NOTIFIED IN WRITING.

Specific measures may be taken to address specific situations; for instance, there may be special requirements for the composition and procedures of examining committees.

For further details regarding the Graduate Studies Policy on Conflict of Interest at: http://www.grad.ucalgary.ca/policies/conflictofinterest

Registration

Each year of the program, no later than the deadline date for the annual registration month, each graduate student must register using the Student Centre, which is accessible through my.ucalgary.ca. Students enrolled in thesis-based Master’s or doctoral programs will be considered full-time.

A student who does not register by the appropriate deadline date will be withdrawn for failure to register.

A complete guide to registration is available online at www.ucalgary.ca/Registrar. Please visit this Web site for detailed system instructions as well as up-to-date course registration information.

Students should always consult with their graduate programs concerning course selection. A Registration Confirmation for First Year Students form or, for continuing students, an Annual Progress Report, must be completed and signed by both the student and supervisor/interim advisor, and endorsed by the graduate coordinator. Refer to the deadlines in the Academic Schedule at the beginning of this Calendar.

Students wishing to audit courses must consult with their graduate program and complete a Change of Course Registration form.

Following registration, it is the student’s responsibility to verify course registration and fee assessment using the Student Centre. Questions regarding registration should be directed to the appropriate graduate program or the Faculty of Graduate Studies.

Students must maintain continuous registration and pay the appropriate fees until all degree requirements have been completed. A student who fails to re-register by the deadline indicated in the Academic Schedule will be withdrawn from the program for failure to register. Information about readmission or reactivation appears above.

Students in course-based programs must take a minimum of one half-course per registration year. If a student in a course-based program does not take a minimum of one half-course during a registration year, the student will be required to withdraw from program. It is expected that students in course-based programs will complete at least half of the required courses in the first two years of the program.

Student Status

Research (Thesis)-Based Programs

Students registered in Master’s Thesis and Doctoral Programs will be considered full-time unless their program formally offers a part-time option, by listing the option under their respective program listing in this calendar and approves the student for a part-time registration status.

It is understood that full-time students will normally work an average of 40 hours per week on program-related activities. Program-related activities include course work, systematic reading, laboratory or other research work related to the production of thesis proposals and/or defence of thesis and proposal field work, and study for candidacy examinations.

A graduate student may arrange to undertake a portion of the full-time requirement at another institution or in the field. Requests for permission to undertake such full-time external student research must be submitted well in advance to the graduate coordinator for approval.

Course-Based Programs

Full-time Students

Students will be considered full-time if they enrol in six or more half-course equivalents per annual registration.

Part-time Students

In order to remain eligible for part-time status, students may enrol in no more than five half-course equivalents per annual registration.

Enrolment in additional courses will require a change in status to full-time enrolment. A change from part-time to full-time status will require program approval indicating satisfactory progress for full-time registration. It will also require that students pay the full-time general fees for the full year retroactive to their anniversary registration date.

Only programs that stipulate a part-time enrolment option under their respective listing in this calendar may approve part-time enrolment requests.

Special Registration Status

Students who must spend a substantial portion of their time on particularly demanding family responsibilities may apply for special registration status. This status enables a student to register full-time but carry an adjusted load to accommodate family responsibilities. As full-time students, they are eligible to hold most types of funding. Program length and maximum time to candidacy may be extended as required. Application is made to the graduate program, which recommends the special registration status to the Faculty of Graduate Studies. Students on Special Registration Status must submit an Annual Progress Report to the Faculty of Graduate Studies.

Change of Registration or Status

Course changes must be done through the online Student Centre at myUofC and will be considered until the deadlines listed in the Academic Schedule of this Calendar.

Course changes after the registration deadline must be done on a Change of Course Registration form and a $60 late registration fee will be charged.

Registration to audit a course must be done on a Change of Course Registration form.

Changes to full-time/part-time status subsequent to the registration deadline must be submitted to the Faculty of Graduate Studies on a Change of Program or Status form.

Forms are available on the Faculty of Graduate Studies website http://www.grad.ucalgary.ca/forms/registration.

Time Limits

Except where noted in the detailed program descriptions, students in thesis-based programs at the Master’s level must complete all degree requirements within four registration years.

Students in course-based Master’s programs must complete all degree requirements within six registration years.

It is expected that students completing a Master’s degree on a full-time basis will complete the degree within half the time allowed.

Students in doctoral programs must complete all degree requirements within six registration years, although it is expected that most candidates will complete requirements within four years.

Transcripts and Statements

A student requiring a transcript of his/her University of Calgary record, for personal use or to be sent to another institution, must request such transcripts in writing by sending a personal letter to the Registrar’s Office, or by completing the appropriate form available from the Registrar’s Office or online at http://www.ucalgary.ca/registrar/order_transcript. The cost of ordering a transcript is noted on the website.
Course Withdrawal
A graduate student may withdraw online from a course in which he/she is registered via My UofC, any time up to and including the deadline dates given in the Academic Schedule section of this Calendar. Students are not permitted to withdraw online more than once from the same course. Tuition fees will be refunded only if the student drops a course before the last day for payment of the appropriate fees.

Note: all withdrawals after the registration deadline will be recorded on the student transcript.

Program Withdrawal
A student wishing to withdraw from the Faculty of Graduate Studies should complete a Graduate Withdrawal form, available at http://www.grad.ucalgary.ca/forms/withdrawal.

Fees for subsequent terms will be cancelled upon withdrawal notification.

A student in a course-based program who withdraws from a program without having taken a course during the year will not be refunded the tuition fee assessment of the equivalent to a graduate half-course fee for the registration year unless the student withdraws from program before the fee payment deadline in his/her annual registration month.

When a student withdraws from the Faculty of Graduate Studies, it is the student’s responsibility to ensure that all outstanding fees are paid.

After a required withdrawal from a graduate program at the University of Calgary, a student may not apply to another graduate program at the University of Calgary until a year after the final decision to require withdrawal has been made.

Students under academic review will not be permitted to withdraw during the review process.

Program Extensions
If a student needs longer than the regulation time allowed to complete a program, an extension to program may be granted on the basis of a recommendation from the graduate coordinator that specifies the grounds for the extension and provides a detailed schedule for the completion of the program.

Leave of Absence
The Leave of Absence policy was created to assist graduate students who require a leave from their program. Effective July 2, 2009 Such leaves are granted for one of the following reasons:

- Bereavement
- Care-giving responsibilities
- Medical requirements
- Military service
- Parental responsibilities
- Political service
- Exceptional circumstances

Leaves of absence may be granted for a minimum of one term and up to one year. They may be renewed so long as the total length of leave time with renewals does not exceed five years. During a leave of absence, students are not expected to work on their graduate programs. The time on leave will not count as time in program, i.e., a doctoral student who completes two years and then takes a one year leave of absence, will still have four years to complete degree requirements.

Application for a leave of absence should be made in advance of the anticipated leave, or as soon as possible after the event necessitating the leave occurs. While it is often difficult to anticipate the need for a leave, it is helpful if the beginning and end of the leave coincide with the beginning and end dates of a term.

During a leave of absence, all University of Calgary funding is cancelled. Students should be aware that supervisory and/or funding arrangements cannot be guaranteed on return from a leave. It is the student’s responsibility to ensure that the proposed leave is compatible with the regulations of any granting agency from which funding would normally be received during the leave period, and that such agencies are informed of the proposed leave.

Students on student loan programs should clarify the consequences that a leave will have on their repayment status http://www.als.gov.ab.ca/phb/studentsfinance/elg-req.html. International students should consult the International Student Centre and immigration authorities regarding their immigration status during the proposed leave.

Leave of Absence Procedure:
1. The student should discuss the leave and its implications with the supervisor and any other appropriate people, e.g., members of the supervisory committee.
2. The student and supervisor seek the recommendation of the graduate coordinator.
3. The completed and signed Application for Leave of Absence form is forwarded to the Faculty of Graduate Studies for approval. (See http://www.grad.ucalgary.ca/forms)

Program Work
Combined Degree Programs
The Faculty of Graduate Studies has approved guidelines for Combined Degree Programs. A Combined Degree Program is a formal arrangement between two units offering programs whereby approved students may be registered simultaneously in two programs. The requirements for both degrees must be completed before the student can graduate. The University of Calgary presently offers the following combined degree programs: LLB/MBA, MSW/MBA, MBT/MBA, MSc/MBA, PhD/MBA, MD/Master’s degree, and MD/PHD. Information and application packages are available from the relevant graduate programs.

Interdisciplinary Degrees
A student wishing to pursue a thesis-based Master’s or doctoral degree in an area not sufficiently represented by one graduate program can request to do an interdisciplinary degree. In an interdisciplinary degree program, the student is admitted to both a home program and a conjoint program. The student submits an application form and fee along with official transcripts and letters of reference to the proposed home program, which will liaise with the proposed conjoint program. Further details regarding the application process to an interdisciplinary degree program are available at http://www.grad.ucalgary.ca/policies/interdisciplinarity.

Transfer Credit
Students currently registered in a graduate degree program at the University of Calgary may receive credit for courses taken at other recognized institutions.
Student Standing

While "B-" is the minimum passing grade in any one course for students in the Faculty of Graduate Studies, a grade point average (GPA) of at least 3.00 must be maintained in each year of program. A student must have a GPA of at least 3.0 in order to graduate.

A student who receives a "B-" or lower in two or more courses whose GPA at the annual registration anniversary falls below 3.00 will be required to withdraw unless the program recommends otherwise. A student who receives a grade of F will normally be required to withdraw unless the program recommends otherwise.

A graduate program may recommend to the Faculty of Graduate Studies that a student be required to withdraw unless the program recommends otherwise.

The Faculty of Graduate Studies, after consultation with the graduate program and/or supervisory committee concerned, may initiate the withdrawal of a student.

Final grades may be accessed through the Student Centre at https://my.ucalgary.ca/.

Examinations

Please refer to the main University of Calgary Calendar for general examination regulations.

In addition to the University of Calgary examination regulations, each student must satisfy all examination requirements, as noted in the Faculty of Graduate Studies Handbook of Supervision and Examination of this Calendar. The handbooks are also available on the Graduate Studies website at http://www.grad.ucalgary.ca/policies/exams.

Supervisors/ Advisors

All students in programs leading to graduate degrees are required to have a supervisor or an advisor. Students arriving on campus may be assigned an interim advisor until they have had an opportunity to become familiar with the Faculty members and their research interests, but must have a permanent supervisor or advisor no later than one year after initial registration.

Students must have an approved supervisor prior to their second annual registration date. No student will be permitted a second annual registration without having an approved supervisor. See Faculty of Graduate Studies Handbook of Supervision and Examination in this calendar.

Annual Reports

Each graduate student must file an annual progress report with his or her graduate program. Consult the program for deadlines. Delinquent students may be denied registration.

Research and Ethics Approval

All research involving human subjects must receive ethics clearance from the appropriate University of Calgary Research Ethics Board. There are two Conjoint Research Ethics Boards, the Conjoint Health Research Ethics Board for the Faculties of Kinesiology, Medicine and Nursing, and the Conjoint Faculties Research Ethics Board for all other Faculties.

The appropriate department or Faculty ethics review committee first reviews research proposals involving human subjects. After the department or Faculty ethics review committee is satisfied, the proposal is sent to the appropriate Conjoint Research Ethics Board with a recommendation for approval.

Graduate students should consult with their departments or graduate programs, and http://www.ucalgary.ca/research/compliance/ethics/info/grad for information about the ethics approval process.

Program Transfers

Program transfers must take place before a student's third annual registration. Students should consult the supervisor and graduate coordinator. Current time in program will be credited; course credit is given at the discretion of the program.

It is the student's responsibility to check the fee implications of the transfer.

Doctoral students who have transferred from another institution must pass a candidacy examination at the University of Calgary. An exception may be made if a candidacy examination equivalent to that at the University of Calgary has been successfully completed at another university.

Language

Except in certain courses in the language departments, the language of instruction at the University of Calgary is English.

Theses must be submitted in English, except in the Department of Germanic, Slavic and East Asian Studies, the Department of French, Italian and Spanish, and in the French Education sub-specialization in the Graduate Division of Educational Research.

There is no Faculty of Graduate Studies requirement for proficiency in any language other than English. Individual graduate programs, however, may have their own requirements as set out in the Programs of Study section in this Calendar.

Thesis

Students must continue to pay the appropriate tuition and general fees until all degree requirements, including the submission of the thesis to the Faculty of Graduate Studies, have been completed.

Once all the examiners have signed the approval pages, the student must submit one unbound copy of the thesis, the signed original approval pages, a Departmental Clearance for Convocation for Thesis Students form that is appropriately signed, a Thesis Distribution form and a University of Calgary Partial Copyright Licence form, to the Faculty of Graduate Studies. The Faculty of Graduate Studies will arrange to have the unbound thesis deposited in the University of Calgary Archives.

A second copy of the thesis, submitted in electronic format or as an unbound printed copy, with a Library and Archives Canada Subject Term Classification form and a Library and Archives Canada Non-Exclusive Licence to Reproduce Theses, will become

The appropriate department or Faculty ethics review committee first reviews research proposals involving human subjects. After the department or Faculty ethics review committee is satisfied, the proposal is sent to the appropriate Conjoint Research Ethics Board with a recommendation for approval.

Graduate students should consult with their departments or graduate programs, and http://www.ucalgary.ca/research/compliance/ethics/info/grad for information about the ethics approval process.

Program Transfers

Program transfers must take place before a student's third annual registration. Students should consult the supervisor and graduate coordinator. Current time in program will be credited; course credit is given at the discretion of the program.

It is the student's responsibility to check the fee implications of the transfer.

Doctoral students who have transferred from another institution must pass a candidacy examination at the University of Calgary. An exception may be made if a candidacy examination equivalent to that at the University of Calgary has been successfully completed at another university.

Language

Except in certain courses in the language departments, the language of instruction at the University of Calgary is English.

Theses must be submitted in English, except in the Department of Germanic, Slavic and East Asian Studies, the Department of French, Italian and Spanish, and in the French Education sub-specialization in the Graduate Division of Educational Research.

There is no Faculty of Graduate Studies requirement for proficiency in any language other than English. Individual graduate programs, however, may have their own requirements as set out in the Programs of Study section in this Calendar.

Thesis

Students must continue to pay the appropriate tuition and general fees until all degree requirements, including the submission of the thesis to the Faculty of Graduate Studies, have been completed.

Once all the examiners have signed the approval pages, the student must submit one unbound copy of the thesis, the signed original approval pages, a Departmental Clearance for Convocation for Thesis Students form that is appropriately signed, a Thesis Distribution form and a University of Calgary Partial Copyright Licence form, to the Faculty of Graduate Studies. The Faculty of Graduate Studies will arrange to have the unbound thesis deposited in the University of Calgary Archives.

A second copy of the thesis, submitted in electronic format or as an unbound printed copy, with a Library and Archives Canada Subject Term Classification form and a Library and Archives Canada Non-Exclusive Licence to Reproduce Theses, will become
part of the national thesis database, and available in microfiche format from the Library and Archives Canada. (See the Thesis Guidelines for further information about the submission format.) The Faculty of Graduate Studies will arrange to have the thesis submitted to the Library and Archives Canada. The compulsory thesis levy collected for the first two years of a thesis program covers Library and Archives Canada microfiche costs.

Note: Copies of the thesis approval or ethics approval pages with signatures should not be included in submissions to the Library and Archives Canada.

The student may decide not to have a copy of the thesis submitted to the Library and Archives Canada. This decision must be made when the thesis is submitted to the Faculty of Graduate Studies. The Faculty of Graduate Studies will not be responsible for later submission of the thesis to the Library and Archives Canada.

The student is responsible for the costs of printing and binding the required number of copies of the thesis, and for having the required number of copies bound.

Graduation

The various deadline dates pertaining to Convocation are set out in the Academic Schedule. Students are strongly advised to acquaint themselves with these dates.

Application for Degree

All students who expect to receive degrees or diplomas at one of the May, Spring (June) or Fall Convocations must complete an online Application for Degree, available through the Student Centre via the Portal at https://my.ucalgary.ca. Students who do not complete an Application for Degree form will not be included in the graduation list. The deadlines for such applications are March 31 for Spring (May and June) Convocations and August 15 for Fall Convocation.

Convocation Requirements

In order to be cleared to graduate, thesis-based students must successfully pass a final thesis oral examination, submit an unbound copy of the thesis, a bound. Final Grade

Students wishing a reappraisal of a final grade should first attempt to have the situation resolved formally. If the student is not satisfied with the decision made, they may request a formal appeal. A student who feels that a piece of graded term work (term paper, essay, test, etc.) has been unfairly graded may have the paper re-graded as follows.

1. Reappraisals of term and final grades occur at the department/Faculty level that originated those decisions, e.g., within the teaching Faculty.
2. Appeals of grade reappraisals and other such academic decisions will be first handled at the level of appeal closest to the level at which the decision was made.
3. Appeals against Faculty of Graduate Studies decisions or regulations will be handled through the Faculty of Graduate Studies.
4. Students must begin the reappraisal/appeal process at the appropriate level and proceed through successive levels of appeal in order, and with no omissions.
5. At every level, students should attempt, to the utmost of their ability, to present their arguments as effectively and as fully as possible. Mere dissatisfaction with a decision is not sufficient grounds for the appeal of a grade or other academic decision.
6. The General Faculties Council’s Committee to Hear and Determine Student Academic Appeals will hear an appeal only if there is a credible allegation of (a) bias, or (b) unfair procedures at a lower level of appeal, or (c) substantial new evidence which could not have been presented at an earlier stage.
7. Students may obtain help in understanding the appeals process and in writing appeal letters from the Graduate Students’ Association.

Reappraisal of Graded Term Work

A student who feels that a piece of graded term work (term paper, essay, test, etc.) has been unfairly graded may have the paper re-graded as follows. The student shall discuss the work with the instructor within fifteen days of being notified about the mark or the item’s return to the class. If not satisfied, the student shall immediately take the matter to the head of the department offering the course who will arrange for a reassessment of the work within the next fifteen days. Students in faculties without a departmental structure should take the matter to the Dean or the appropriate associate/assistant Dean or of the Faculty offering the course. The result of that reassessment should be given to the student in writing.

The reappraisal of term work may cause the grade to be raised, lowered or to remain the same. There is no limit to the number of times that a student may request a reappraisal of term work.

Teaching Faculty Appeals Committee

Reappraisal of term work is generally settled at the departmental level. If the student is not satisfied with the decision and wishes to appeal, the student shall address a letter of appeal to the Dean of the Faculty offering the course within fifteen days of the unfaavourable decision. In the letter, the student must clearly and fully state the decision being appealed, the grounds for appeal and the remedies being sought, along with any special circumstances that warrant an appeal of the reappraisal. The student should include as much written documentation as possible.

At this stage the Dean of the Faculty offering the course, at his or her discretion, may attempt to resolve the situation without proceeding to the Faculty Appeals Committee. If the matter is not resolved to the student’s satisfaction, the appeal letter will be sent to the Faculty Appeals Committee.

The teaching Faculty Appeals Committee will not hear the appeal if the appeal letter does not detail the decision being appealed, grounds for appeal and outcome sought by the student, or if the chair of the Faculty Appeals Committee decides that sufficient grounds do not exist. If the appeal is to be heard and if the student has not already received a copy, the student is advised to request from the Dean’s office, a copy of the principles and procedures that govern the Faculty Appeals Committee for that Faculty.

These procedures will detail the composition of the committee, the right of the student to have an advocate at the hearing, how the hearing will be conducted, and other information.

The Faculty Appeals Committee will report its decision to uphold or deny the appeal in writing to the Dean of the Faculty, the Registrar and the appellant as quickly as possible.

Reappraisal of a Final Grade

In the reappraisal of a final grade, the only elements that will be considered are the grading of the final examination, if any, together with a recalculation of the weighted components that make up the final mark. An exception may occur when an instructor evaluates a piece of graded term work or other component at the end of the session; that grade may also be considered in a reappraisal of final grade. A student wishing a reappraisal of an individual final grade should first attempt to examine the final examination at the department or Faculty office. Then the student shall obtain a Request for Reappraisal of Final Grade form from the Registrar’s Office. On that form the student is required to indicate exactly what error was made in marking the examination and/or in computing the final grade and where the error can be found. The form will not be processed and the reappraisal will not take place unless the student provides a detailed rationale that outlines where and for what reason an error is suspected.

Students wishing a reappraisal of a final grade (excluding Law courses) must submit their request by the following dates: Fall Session - March 1, Winter Session - June 30, Spring Session - August 15, Summer Session - October 15. The reappraisal form shall be sent/brought to the Registrar who shall forward it to the department head or Dean of the Faculty offering the course. Reappraisals of final grades are dealt with by the head of the academic unit in consultation with members of staff. Normally, the department/Faculty will respond to a Request for Reappraisal of Final Grade within thirty days of its initiation. After the reappraisal is completed, the department shall return the form to the Registrar who shall inform the student in writing of the result of any request for reappraisal.

Students should be aware that the grade being reappraised may be raised, lowered or may remain the same. A student may request a reappraisal of final grade only twice in one academic year (July 1 - June 30).
Teaching Faculty Appeals Committee
Procedures for appealing a final grade reappraisal beyond the departmental level are detailed above in Appeals - Faculty Appeals Committee, and are the same for a final grade as for a piece of graded term work.

General Faculties Council's Committee to Hear and Determine Student Academic Appeals
Procedures for appealing a final grade reappraisal beyond the Faculty Appeals Committee level are detailed below in Appeals - General Faculties Council's Committee to Hear and Determine Student Academic Appeals, and are the same for a final grade as for a piece of graded term work.

Appeals Against Faculty of Graduate Studies Rulings
Faculty of Graduate Studies Appeals Committee
If a student wishes to appeal a Faculty of Graduate Studies ruling (e.g., the requirement to withdraw for academic reasons, the denial of continued registration, the denial of the right to graduate, specific requirements by the Faculty for the completion of a degree/course of study), the student shall address a letter of appeal to the Chair of the Graduate Studies Appeals Committee within fifteen days of the unfavourable decision.

In the letter of appeal, the student must clearly and fully state the ruling, decision being appealed, the grounds for appeal and the remedies being sought, together with all supporting evidence or documentation. If any, Mere dissatisfaction with a ruling is not sufficient grounds for an appeal. In the process of deciding to initiate an appeal, the student may seek the assistance of the Graduate Students' Association.

If the appeal letter does not detail the decision being appealed, the grounds for appeal and the outcome sought by the student, or if the Chair of the Faculty Appeals Committee believes that sufficient grounds do not exist, the appeal will not be heard. If the appeal is to be heard and the student has not already received a copy, the student is advised to request from the Dean's office, a copy of the principles and procedures governing the Faculty Appeals Committee. The procedures will detail the composition of the committee, the right of the student to have an advocate, how the hearing will be conducted and other information.

The Faculty Appeals Committee shall report, in writing, its decision to uphold or deny the appeal, to the Dean of Graduate Studies and the appellant as quickly as possible.

Further Information About Other Appeals and Petitions to the University
It is expected that the procedures outlined above will be sufficient to deal with any student appeal. Students should note, however, that the current University Act, Section 45(2) states: "Subsection (1) does not take away or impair the right of any student or group of students to petition any of the governing bodies of the University in respect of any matter, but such petition shall be in writing and shall be transmitted to the governing body through the president of the university."

The Board of Governors has approved principles and procedures to guide its Petitions Committee in considering student petitions. However, the Board of Governors recognizes that the General Faculties Council is the final body of appeal with respect to academic matters including, but not limited to, grades, examinations, refusal of continued registration, or the requirement to withdraw from the University for academic reasons. The Petitions Committee will not attempt to evaluate the merits of any course or program grade, or of any other decision relating to an academic matter. The Board of Governors and the Petitions Committee of the Board of Governors do not have any jurisdiction to determine petitions received from students pursuant to section 45(2) and 42(1)(a) of the Universities Act, where the petitions are in relation to courses offered and marked at an educational institution other than the University of Calgary, notwithstanding that the course may be credited toward a University of Calgary degree program.

A petition to the Board of Governors must be directed in writing to the President. The nature of the petition and the remedies sought by the petitioner(s) shall be clearly stated in a letter, and all supporting evidence or background materials included. If the Petitions Committee finds that the case has merit, the matter may be returned directly to the appropriate jurisdiction for a rehearing. In the case of substantially academic matters, referral will be to General Faculties Council for its determination as to the appropriate level of jurisdiction. The Petitions Committee may allow a hearing if it accepts jurisdiction in the matter and deems the facts to warrant such a hearing.

The Petitions Committee will not hear a petition for any remedy that may be obtained through existing appeal procedures within the University before those appeal procedures have been fully utilized, nor will academic decisions be set aside on the basis of minor irregularities in procedure.

In the case of a petition challenging a decision of the University body on procedural grounds such as breaches of natural justice or fairness, the Petitions Committee will normally refer the issue back to the level of appropriate jurisdiction for a rehearing and new determination of the question. In the case of a petition challenging a decision in which the student is denied permission to register, the student shall not be registered while the petition is before the Board.

For more specific information on the principles and procedures governing student petitions to the Board of Governors, the Secretary to the Board of Governors should be consulted.

Continued Registration While Under Appeal
Students who appeal academic decisions to the teaching Faculty Appeals Committee or the General Faculties Council's Committee to Hear and Determine Student Academic Appeals have the right to continue their registration and to attend classes during the appeal process. The student is required to pay all fees. If the appeal fails, the student's registration will be cancelled, regardless of the date, and all fees refunded in full. Students petitioning the Board of Governors are not permitted to register while under petition.

Statement on Principles of Conduct
Preamble
This statement applies to all members of the University community – including students, faculty, administrators, any category of staff, practicum supervisors, examiners, and volunteers. This statement applies in all situations where the persons are acting in their University capacities, whether or not on the University's property. It also applies to visitors or any other persons on University property, and to persons with whom the University contracts for services.
All members of the University community have a responsibility to familiarize themselves with this Statement on Principles of Conduct and to conduct themselves accordingly.

Statement
The University of Calgary community has undertaken to be guided by the following statements of purpose and values:

- to promote free inquiry and debate
- to act as a community of scholars
- to lead and inspire societal development
- to respect, appreciate, and encourage diversity
- to display care and concern for community

The University seeks to create and maintain a positive and productive learning and working environment, that is, an environment in which there is:

- respect for the dignity of all persons
- fair and equitable treatment of individuals in our diverse community
- personal integrity and trustworthiness
- respect for academic freedom
- respect for personal and University property

Those persons appointed by the University to positions of leadership and authority have particular responsibility, not only for their own conduct, but also for ensuring, to the extent of their authority and ability:

- that a positive and productive learning and working environment is created and maintained
- that conflicts and concerns are addressed in a positive, timely, reasonable, and effective manner
- that persons within their jurisdiction are informed of their rights and responsibilities with respect to conduct

The University undertakes to ensure that its policies, systems, processes, and day-to-day operations foster the goals in #1 and #2 above.

The University encourages and undertakes to support all members of the University community in resolving conflicts and concerns in a positive, timely, reasonable, and effective manner.

The University undertakes to ensure that the protection afforded by the principles of natural justice is extended to all members of the University community.

The University undertakes to provide resources through various offices to generate awareness related to this Statement on Principles of Conduct throughout the University community and to assist in resolving conflict in a positive way.

(Note: The principles of natural justice reflect a concept that ensures fair play. The specific requirements of natural justice will often vary depending on the circumstances but are generally considered to ensure a full and fair consideration of the issue, including consideration in the absence of bias.)

Student Misconduct
A single offence of cheating, plagiarism, or other academic misconduct, on term work, tests, or final examinations, etc., may lead to disciplinary probation or a student’s suspension or expulsion from the Faculty if it is determined that the offence warrants such action.

Statement of Intellectual Honesty
Intellectual honesty is the cornerstone of the development and acquisition of knowledge. Knowledge is cumulative and advances are predicated on the contributions of others. In the normal course of scholarship these contributions are apprehended, critically evaluated, and form a foundation for further inquiry. Intellectual honesty demands that the contribution of others be acknowledged. To do less is to cheat. To pass off contributions and ideas of another as one’s own is to deprive oneself of the opportunity and challenge to learn and to participate in the scholarly process of acquisition and development of knowledge. Not only will the cheater or intellectually dishonest individual be ultimately his/her own victim but also the general quality of scholarly activity will be seriously undermined.

It is for these reasons that the University insists on intellectual honesty in scholarship. The control of intellectual dishonesty begins with the individual’s recognition of standards of honesty expected generally and compliance with those expectations.

With respect to student work in a course, it is the responsibility of the instructor to specify the academic requirements of the course.

Plagiarism/Cheating/Other Academic Misconduct
Definitions
1. Plagiarism - Plagiarism involves submitting or presenting work in a course as if it were the student’s own work done expressly for that particular course when, in fact, it is not. Most commonly plagiarism exists when:

   a. the work submitted or presented was done, in whole or in part, by an individual other than the one submitting or presenting the work (this includes having another impersonate the student or otherwise substituting the work of another for one’s own in an examination or test),
   b. parts of the work are taken from another source without reference to the original author,
   c. the whole work (e.g., an essay) is copied from another source, and/or
   d. a student submits or presents work in one course which has also been submitted in another course (although it may be completely original with that student) without the knowledge of or prior agreement of the instructor involved.

While it is recognized that scholarly work often involves reference to the ideas, data and conclusions of other scholars, intellectual honesty requires that such references be explicit and clearly noted. Plagiarism is an extremely serious academic offence. It is recognized that clause (d) does not prevent a graduate student incorporating work previously done by him or her in a thesis.

2. Cheating is an extremely serious academic offence. Cheating at tests or examinations includes, but is not limited to, dishonest or attempted dishonest conduct such as speaking to other candidates or communicating with them under any circumstances whatsoever, bringing into the examination room any textbook, notebook, memorandum, other written material or mechanical or electronic device not authorized by the examiner; writing an examination or part of it, or consulting any person or materials outside the confines of the examination room without permission to do so, or leaving answer papers exposed to view, or persistent attempts to read other students’ examination papers.

3. Other Academic Misconduct - Other academic misconduct includes, but is not limited to, tampering or attempts to tamper with examination scripts, class work, grades and/or class records; failure to abide by directions from an instructor regarding the individuality of work handed in; the acquisition, attempted acquisition, possession, and/or distribution of examination materials or information not authorized by the instructor; the impersonation of another student in an examination or other class assignment; the falsification or fabrication of clinical or laboratory reports; the non-authorized tape recording of lectures.

4. Any student who voluntarily and consciously aids another student in the commission of one of these offences is also guilty of academic misconduct.

Penalties
1. Failing Grade - A student may be given a failing grade in either an exercise or course in which that student is found guilty of plagiarism, cheating or other academic misconduct. Except in circumstances in which leniency is warranted, this penalty will only be applied in conjunction with one or other of the other penalties mentioned in this section. In situations in which a student is registered in a Faculty other than that in which the course is given, this is the only penalty that shall be applied by the host Faculty.

2. Disciplinary Probation - When a student is placed on disciplinary probation, he or she is entitled to proceed with a degree or other academic program, but only on condition that the registration will be forfeited and the student suspended or expelled, if he or she is found guilty of a further academic offence. A student who is placed on disciplinary probation is eligible to continue in the Faculty in the normal way after the satisfactory completion of his or her probationary period. This penalty shall be applied by the Faculty in which the student is registered at the time of the offence.

3. Suspension - Suspension takes place when a student is denied registration within a degree or other academic program for a specified period of time. A student who has been placed under suspension is conditionally eligible to reapply for admission or registration at either the end of a specified period of time or thereafter. Suspension does not imply automatic readmission; a student must satisfy the Dean and/or the Faculty concerned of his/her eligibility for readmission. This penalty shall be applied by the Faculty in which the student is registered at the time of the offence.

4. Expulsion - A student who is expelled from a Faculty is dismissed permanently from the Faculty with no right to apply for readmission to that Faculty. This penalty shall be applied by the Faculty in which the student is registered at the time of the offence.

5. Effects of Suspension or Expulsion from a Faculty - A student suspended or expelled from a Faculty normally may not apply or be considered for readmission to the University in another Faculty, until at least twelve months after the end of the session in which the academic offence takes place.

6. Expulsion from the University - If, upon suspending or expelling a student from a Faculty, the Dean and/or Faculty determine that the severe sanction of
expulsion from the University is warranted, such a recommendation may be made to the Vice-President (Academic), who may act to expel the student from the University.

Penalties and Their Application

1. In cases in which the Dean and/or Faculty is satisfied that a student is guilty of plagiarism, cheating or other academic misconduct in circumstances which suggest a clear intention to deceive or otherwise commit an academic offence, the normal penalty will be either suspension or expulsion from the Faculty.

2. In cases in which the Dean and/or Faculty is satisfied that an offence has been committed, but doubt is left as to the existence of a clear intention to deceive or otherwise commit an academic offence, the normal penalty will be probation.

3. In cases where a student is found guilty of more than a single offence, the normal penalty will be expulsion from the Faculty, and in the most serious cases, expulsion from the University.

Procedures

1. Identification of Students in Tests or Examinations - Invigilators of any tests or examinations may, when they have reason to believe that there is cause to do so, challenge any candidate to produce proof of identity either in the form of the University I.D. card or of some acceptable equivalent (i.e., one bearing a photograph) such as the Provincial Drivers License, Canadian Citizenship Card, Passport, etc.

If there is clear evidence that impersonation has occurred, the individual shall not be permitted to continue the examination and shall be reported immediately to the Dean of the Faculty in which the course is offered or his/her delegate.

A student who is not able to provide acceptable proof of identity may be permitted to continue the examination provided that he or she undertakes to provide verification of identity later. If verification is not provided, the student will receive an “F” in the examination, and the matter will be referred to the Dean of the Faculty in which the course is offered or his/her delegate for consideration of further disciplinary action.

2. The Responsibility of Instructors in Cases of Plagiarism, Cheating and Other Academic Misconduct - An instructor has the obligation to report immediately all suspected cases of plagiarism, cheating or other academic misconduct in his/her course or courses to the Dean of his/her Faculty, or his/her delegate, and to his/her head of department or equivalent.

3. The Encouragement of the Reporting of Plagiarism, Cheating or Other Academic Misconduct - Students or other persons who consider that they have evidence of conduct which amounts to plagiarism, cheating or other academic misconduct are encouraged to report such conduct to the Dean of the relevant Faculty or his/her delegate. An individual or group of individuals making such a report must be prepared to state the alleged facts and their reasons for suspicion in writing, and to appear before the Dean, his/her delegate, the appropriate Faculty disciplinary body, the Faculty Appeals Committee and the General Faculties Council’s Committee to Hear and Determine Student Academic Appeals.

4. The Responsibility of the Dean of the Faculty in Which the Course is Offered - The initial responsibility for dealing with cases of plagiarism, cheating or other academic misconduct, lies with the Dean of the Faculty offering the course in which the student is enrolled or his/her delegate, subject to structures for advice, recommendation or action devised by that Faculty. Where the student is registered in that particular Faculty, any disciplinary action taken will normally be of concern to any other Faculty.

5. The Relative Responsibilities of the Faculty in Which a Student Takes a Course and the Faculty in Which He/She is Registered at the Time of the Offence - In cases in which a student registered in the Faculty of Graduate Studies is accused of plagiarism, cheating or other academic misconduct, the Dean of Graduate Studies shall be advised of the incident, its circumstances, and its disposition within the host Faculty, and where appropriate shall take disciplinary action within his/her own Faculty subject to structures for advice, recommendation or action devised by that Faculty. This notification shall be the responsibility of the Dean of the host Faculty, or his/her delegate.

6. The Disposition of Cases by the Faculty of Graduate Studies - When a graduate student is found guilty of plagiarism, cheating or other academic misconduct by the teaching Faculty, the student may appeal an unfavourable decision to the General Faculties Council’s Committee to Hear and Determine Student Academic Appeals. When the student accepts the ruling of an appeals committee, or when all avenues of appeal of academic misconduct are exhausted, the Dean of Graduate Studies will make a ruling on the student’s registration in the Faculty of Graduate Studies. The Dean of Graduate Studies or his/her delegate shall place on probation, suspend, or expel from the Faculty of Graduate Studies. The probation, suspension, withdrawal or expulsion will be confirmed in writing to the student, the letter to include reference to Faculty and University appeal procedures. In cases in which the student has admitted the offence reference shall be made to this fact in the letter.

The Registrar will be notified of the action taken by a copy of the letter. On receiving notification the Registrar is empowered to withhold the issuance of a transcript or statement of grades for the student disciplined pending the expiry of the appeal period, or exhaustion of the appeal process allowed for under Appeals below.

Academic Misconduct - Criminal Offence

Where there is a criminal act involved in plagiarism, cheating or other academic misconduct, e.g., theft (taking another student’s paper from his/her possession, or from the possession of a Faculty member without permission), breaking and entering (forcibly entering an office to gain access to papers, grades or records), forgery, impersonation and conspiracy (impersonating another student by agreement with the student’s peer) and other such offences under the Criminal Code of Canada, the University may take legal action on the appropriate response and, where appropriate, refer the matter to the police, in addition to or in substitution for any action taken under these regulations by the University.

ACADEMIC REGULATIONS

Appeals

1. The Appeals Process - In the case of appeal of a grade, the appeal should be to the Appeals Committee of that Faculty offering the course. A student who is placed on probation, suspended, or expelled from the Faculty of Graduate Studies, may appeal that decision, or any other Faculty of Graduate Studies ruling, to the Faculty of Graduate Studies Appeals Committee. The appeal, which must be initiated within fifteen days of the receipt of the letter from the Dean or his/her delegate, shall be in writing, addressed to the chairperson of the appropriate committee, and shall state specifically (a) the decision which is being appealed, (b) the grounds for the appeal, (c) the remedy being sought.

2. Sufficient Grounds - A student must satisfy the Appeals Committee that there are sufficient grounds for appeal. The principles applicable to an appeal to a Faculty Committee are those of fairness as set down in relation to the Committee to Hear and Determine Student Academic Appeals of General Faculties Council that are filed with the Secretary to General Faculties Council. It is recognized that the specific procedures used to attain fairness may vary from one Faculty to another.

3. Appeal from a Faculty Appeals Committee - Where a student is unsuccessful in an appeal to a Faculty Appeals Committee, he/she may appeal that decision to the Committee to Hear and Determine Student Academic Appeals of General Faculties Council, subject to the principles and procedures of the General Faculties Council’s Committee as approved by General Faculties Council and filed with the Secretary to General Faculties Council.

4. Notification to the Registrar - When an appeal has been lodged by a student, the Registrar shall be notified by the chairperson of the Faculty Appeals Committee or General Faculties Council’s Committee, as the case may be, of that fact, and of the disposition of the case by that body.

5. The Position of a Student Launching an Appeal Against Suspension or Expulsion - Where a student’s appeal against suspension or expulsion is accepted for hearing and is under consideration by an appeals committee, a student shall be granted tentative registration and permitted to attend classes. If the appeal succeeds, the student will be officially registered and assessed fees retroactively to the beginning of the session.

6. The Position of a Student Whose Appeal Against Suspension or Expulsion is Unsuccessful - In cases in which the student has been allowed to attend classes pending the disposition of an appeal and the appeal fails, the original date of the suspension or expulsion stands.

7. The Effect on a Student’s Permanent Record - Where a student has been suspended, expelled or placed on disciplinary probation and does not launch an appeal within fifteen days, or his/her appeal is unsuccessful, the notation “suspended or expelled from or placed on disciplinary probation by the Faculty of Graduate Studies, for academic misconduct” will be entered on the student’s permanent record upon receipt of such notice by the Registrar from the Dean of the Faculty.

Where a student is suspended or expelled prior to the completion of the session, the symbols RW (required to withdraw) will be entered in the grade column on
the student’s record in the courses in which he or she was registered for that session except for the course(s) in which an “F” grade has been given as a penalty. Where a student is suspended or expelled after the completion of a session, the final grade will be entered on the student’s record in the courses in which he or she was registered for that session except for the course(s) in which an “F” grade has been given as a penalty.

A student’s record will be cleared of the notation “placed on disciplinary probation for academic misconduct” when the probationary period has been completed, or upon completion of a degree program, or after three years have elapsed, whichever comes first. A student’s record will be cleared of the notation “suspended for academic misconduct” at the time of readmission to the same Faculty, upon readmission to and completion of a degree program in another Faculty, or after three years have elapsed, whichever comes first. At the time the record is cleared of the notation, the RW symbols will be changed to W, but any “F” grades, as given because of plagiarism, cheating or other academic misconduct, will remain “Fs.” A student’s record will not be cleared of the notation “expelled for academic misconduct.” These regulations also apply to students on probation, suspension or expulsion for non-academic misconduct (see below).

Disciplinary Action for Non-Academic Misconduct

1. Definition
The term “non-academic misconduct” includes but is not limited to:
(a) conduct which causes injury to a person and/or damage to University property and/or the property of any member of the University community;
(b) unauthorized removal and/or unauthorized possession of University property;
(c) conduct which seriously disrupts the lawful educational and related activities of other students and/or University staff.

2. Temporary Suspension
(a) Deans have the authority to suspend temporarily any student for alleged non-academic misconduct as defined above. Such suspension shall be effective immediately. The authority to suspend temporarily includes the power to suspend from a course or courses, or from the University, as may be appropriate. Until such time as the Review Committee meets, the Dean may, at his/her discretion, allow a student to continue attending classes and taking examinations. The power to suspend may be exercised either by the Dean in whose Faculty the student is enrolled or by the Dean in whose Faculty the course is being taught. In the absence of an appropriate Dean, the authority to suspend temporarily any student for alleged non-academic misconduct rests with the Vice-President (Academic) or his/her designate.
(b) Where a case of alleged non-academic misconduct is brought to the attention of a Dean, the student shall be requested, as soon as possible, before the Dean to respond to the allegations. If the Dean is not satisfied with the student’s response, or if the student fails to appear before the Dean, the Dean may exercise the power of temporary suspension and in that event convey the decision immediately to the Secretary to General Faculties Council and the Registrar.
(c) Where the severity of misconduct does not warrant suspension, the Dean may place a student on probation for a specified period of time, with conditions attached as deemed necessary. Failure to adhere to conditions of probation may result in suspension. Probation is appealable by the student to the General Faculties Council’s Review Committee, but on the understanding that the Review Committee may change probation to suspension. In this circumstance the Review Committee should discuss the proposed suspension with the Dean before making a final decision.

3. Review Committee
(a) Upon the temporary suspension of a student by a Dean, a Review Committee of the University shall be convened expeditiously by the Secretary to General Faculties Council to determine whether the Dean’s action has been justified and also whether or not other disciplinary action is warranted. Such other disciplinary action may include probation, longer-term suspension or expulsion from the University. It shall also be open to the Review Committee to recommend to the President reference of the case to the law enforcement authorities.
(b) The Dean, or other members of the University community concerned with the alleged misconduct, and the student, shall be called to appear and to give evidence before the Review Committee. The Dean may present all the evidence taken into account in making his/her decision.
(c) The Review Committee’s decision shall be binding and it shall be reported in writing immediately to the student, the Dean, the Registrar, and the Secretary to General Faculties Council.

4. Composition of the Review Committee
A Review Committee panel shall be established annually by the General Faculties Council’s Sticking Committee. The panel shall have twelve members, appointed for two years and representing various faculties and units. Six members of the panel shall retire each year. For any case referred to consideration, a Review Committee of three members of the panel shall be formed, one of whom shall be named as chairperson. The Secretary to General Faculties Council shall be responsible for constituting review committees and providing, where possible, that one member of each committee has served previously at a hearing.

5. Challenges to the Composition of the Committee
A student whose conduct is under review has the right to challenge, for cause, any member of the Review Committee. The validity of the challenge shall be left to the discretion of the chairperson. If the chairperson is challenged, the challenge shall be judged by the Secretary to General Faculties Council. Such cause may include teacher/student relationships, evident or published bias or any other factor likely to prejudice a fair hearing. The student shall inform the chairperson in writing of his or her desire to challenge any member of the Committee within three days of being informed of the composition of the Review Committee. In the event of the temporary unavailability of the chairperson, the Secretary to General Faculties Council shall exercise the chairperson’s responsibilities.

6. Time Limit for Review
The review of disciplinary action for non-academic misconduct shall be carried out expeditiously and, if possible, within fifteen days of the decision by a Dean to suspend a student temporarily.

7. Notice of Hearing
The Secretary to General Faculties Council shall normally give seven days written notice of hearing to the Dean, the student, and other individuals concerned with the alleged misconduct.

8. Effect on a Student’s Permanent Record
The regulations given above for academic misconduct will also apply to non-academic misconduct.

9. Presidential Discretion
The President may, with good and sufficient cause as in cases where members of the University community, the learning environment and/or University property is threatened, exclude the student or students concerned from access to the campus prior to and following the hearing.

Further details may be obtained from the Secretary to General Faculties Council.

Integrity in Scholarly Activity
In addition to its regulations dealing with student academic misconduct, the University has a policy and procedures governing the scholarly integrity of members of the University’s Faculty and persons holding post-doctoral fellowships or their equivalent. The policy and procedures are titled Integrity in Scholarly Activity and apply to both teaching and research.

Policy
The University and its members are committed both institutionally and individually to integrity in scholarly activity. Accordingly, the University has developed and implemented a policy and attendant procedures for handling cases of alleged scholarly misconduct. These are designed to recognize the differences among disciplines, to provide for fair treatment of those whose integrity is brought into question, and to protect those who set the process in motion or otherwise assist in dealing with complaints.

Scholarly Misconduct
The policy defines scholarly misconduct as including: plagiarism; fabrication or falsification of research data; conflict of scholarly interest, including suppressing the publication of the work of another scholar and improper negative reviewing of a research grant application by another scholar; and other practices that deviate significantly from those which are commonly accepted as appropriate within the scholarly communities.

As well, each Faculty has definitions and guidelines that are applicable to those disciplines and activities that characterize scholarly work within the Faculty. In particular, the Faculty guidelines deal with the retention of original data and material products relating to scholarly activity and the authorship of published or presented work.
Sexual Harassment
The University of Calgary recognizes its moral and legal responsibilities to protect its students, staff and faculty against sexual harassment and has established a Sexual Harassment Policy and related procedures to deal with this serious issue.

The simple definition of sexual harassment is "unwanted sexual attention." Any type of conduct that emphasizes the sexuality, gender or sexual orientation of an individual and creates for them an offensive, intimidating or hostile learning, working or living environment is sexual harassment. The harassment is more serious if submission to or acceptance of such behaviours is made either an implicit or explicit condition of an individual's employment or academic status.

Sexual harassment may take various forms. It includes but is not limited to the following: verbal abuse or threats of a sexual nature; unwelcome remarks, jokes, innuendos or taunting about a person's sex (often linked with references to the body, attire, age or marital status of the individual); the display of pornographic, sexually offensive or derogatory pictures; unnecessary and unwelcome physical conduct such as touching, patting, pinching; unwelcome sexual invitations or requests, usually of a persistent nature; sexual assault. Gender harassment or sexism may also be one form of sexual harassment.

Sexual harassment has both males and females as its victims and perpetrators. It can occur between members of the opposite sex or of the same sex. Although sexual harassment often occurs where there is a real or perceived power imbalance, it can also occur amongst peers.

Advice and Information
Individuals with a concern regarding a possible occurrence of sexual harassment have the following mutually non-exclusive alternatives to assist them: (a) If possible, immediate personal strategies should be utilized such as informing the alleged harasser (either in person or by letter) that such behaviour is offensive and requesting an end to the perceived harassment. Frequently, this assertive stance curtails further incidents. (b) If this is not possible or productive, someone who is empowered to investigate allegations of sexual harassment should be contacted: the Sexual Harassment Adviser at 220-4086 or the appropriate Dean or administrative equivalent who supervises the alleged harasser. In cases where physical assault has occurred, the complaint may also be lodged with Calgary Communities Against Sexual Abuse (CCASA) at 237-5888 or the Calgary Police at 266-1234. Whatever routes are taken, every effort should be made to document precisely what has transpired. Complaints of sexual harassment do not have to enter a formal investigative and disciplinary procedure simply because an individual has chosen to speak to the Sexual Harassment Adviser. Individuals are free to simply make a report of the incident to the Adviser. These reports are useful for statistical purposes and assist in directing educational initiatives. Individuals wishing to pursue the matter can file a written complaint with the Adviser who will then attempt to affect an "informal resolution" to the problem. Informal resolutions usually involve the Adviser consulting with the two parties either individually or together. The end result must be satisfactory to all parties. If an informal resolution fails or is inappropriate, a formal hearing may be held on any written complaint of sexual harassment where there is no other negotiated or legislated procedure to pursue a complaint against the alleged offender.

Due to the nature of the issue of sexual harassment, the policy and procedures are regularly revised and updated. Persons seeking information on this issue are therefore encouraged to contact the Sexual Harassment Adviser to obtain a copy of the latest official document. The Adviser is located in MacEwan Student Centre, University Counselling Services, Room 375 and may be reached by telephone at 220-4086.

Additional information is available on the web at www.ucalgary.ca/sexualharassment.

Policy of Support for Persons with Life Threatening Communicable Illnesses
The University recognizes that persons suffering from life threatening communicable illnesses have a right and a responsibility to continue in their regular work or academic pursuits as long as they are capable of carrying out the duties and obligations associated with those pursuits; and recognizes that individuals who contract a life threatening communicable illness, including AIDS, are entitled to continue in their employment or studies provided that the health, safety and well being of others are not endangered.

The University is guided in the application of this policy by current research findings and medical advice relevant to the individual case.

All members of the University community are urged to recognize the responsibility they have for ensuring that those with such illnesses are treated in a caring and supportive manner.
HANDBOOK OF SUPERVISION AND EXAMINATION

Preamble

This handbook contains the rules, guidelines and procedures of the Faculty of Graduate Studies that pertain to the administration of graduate programs and to the appointment of graduate supervisors. While the rules are stated in fixed or absolute terms, it is intended that they be administered with some degree of flexibility and, to that end, the Dean of Graduate Studies and his/her designates are empowered to grant exceptions, extensions and variances, upon written request and explanation. Requests, whether from students or faculty members, should be made over the signature of the Graduate Coordinator of the program concerned. The Head of a Department, Director of an interdisciplinary program or, in the case of non-departmentalized faculties, the Dean of the Faculty, is responsible for graduate programs. However, this responsibility is normally delegated to a Graduate Coordinator. In this document, for the sake of clarity in describing common practice, the Graduate Coordinator is referred to as the person responsible for the graduate program. Please note that in this document "the Dean" refers to the Dean of Graduate Studies unless otherwise noted.

The Handbook of Supervision and Examination is published as part of the Graduate Calendar. Changes made to the regulations during the year are indicated in the official online Calendar.

Part I: Course-based Master's Degree  (Approved by Graduate Council November 9, 2008)

1. Supervision

Although the Faculty of Graduate Studies does not require the formal appointment of a Supervisor, programs may appoint a Faculty Advisor or a Supervisor. The latter must meet Faculty of Graduate Studies requirements for graduate supervision. Those requirements are outlined in Supervisory Policy [http://grad.ucalgary.ca/policies/supervision](http://grad.ucalgary.ca/policies/supervision).

2. Judgement of Student Performance

If a student's grades do not meet the Calendar requirements (see Calendar, Student Standing), the Faculty of Graduate Studies will notify the program of this. In addition, the program may independently judge that a student's performance is not satisfactory. In either case, it is the responsibility of the Graduate Coordinator to promptly notify the student in writing that performance is below an acceptable level. A student will be required to withdraw from the Faculty of Graduate Studies for reasons of unsatisfactory performance unless the program recommends otherwise.

3. Research Component and Exit Requirements

The Campus Alberta Quality Council requires a research component for all Course-based Master's programs, and states that this requirement can be satisfied in a variety of ways, for example, by "one or more research courses in the program," or a capstone course that focuses "on the integration and application of the knowledge acquired." The programs may also "culminate in a comprehensive examination involving an examination committee." The Faculty of Graduate Studies operates in accordance with CAQC guidelines, and requires that the nature of the research component and the form of any comprehensive examination must be identified in program regulations that are approved by the Faculty of Graduate Studies Academic Program Committee.

4. Transfers

4.1 Transfers at the Master's Level

Application for Change of Area of Specialization

A student requires approval of both the Graduate Coordinator and the Dean of the Faculty of Graduate Studies to transfer from one area of specialization to another, while remaining within the degree program.

4.2 Transfers from Course-based Master's Degree to Thesis-based Master's Degree

A student requires approval of both the Graduate Coordinator and the Dean of the Faculty of Graduate Studies to transfer from a Course-based Master's Degree to a Thesis-based Master's Degree.

4.3 Transfers to Doctoral Programs

4.3.1 Transfer from Master's to Doctoral Programs

Program Heads may recommend outstanding Master's students for transfer to the doctoral program. Such recommendations must be endorsed by the proposed doctoral Supervisor and accompanied by the names of members of the proposed doctoral supervisory committee. The transfer must be approved by the Dean of Graduate Studies.

4.3.2 Course and Examination Requirements

Courses credited in the prior Master's program will be taken as fulfilling doctoral requirements where applicable, in accordance with program requirements for required doctoral course work. All students transferring from Master's to doctoral programs will be required to sit the doctoral candidacy examination.

4.3.3 Time Limits on Transfers

Transfers from Master's to doctoral programs must be completed within twenty-four months of the student's initial registration in the Faculty of Graduate Studies. All transfer students must attempt the candidacy examination within thirty-six months of first registration in the Faculty of Graduate Studies.

HANDBOOK OF SUPERVISION AND EXAMINATION

Part II: Thesis-based Master's Degree (Approved by Graduate Council April 2, 2009)

SUPERVISORS AND SUPERVISORY COMMITTEES

1.0 Selection of a Supervisor

1.1 General Advice to Students
All students must have either an interim advisor or an approved Supervisor at the time of initial registration, and a permanent Supervisor no later than the second annual registration. It would help the student in program planning if the selection of a Supervisor were completed as quickly as possible. Students are encouraged to think about and select their areas of specialization as early as possible, and preferably before beginning the program.

1.2 Supervisor Selection
The initial selection of a Supervisor should be by mutual agreement between student and faculty member, and approved by the Graduate Coordinator. Difficulties or conflicts in selecting or recommending a Supervisor should be referred promptly to the Dean by any of the persons involved.

1.2.1 Supervisor Eligibility Requirements
Continuity of supervision throughout a graduate program is important to a student's success. Normally, faculty members with Continuing Board appointments in the professorial ranks are chosen as Supervisors. However, there are occasions when it is to the student's advantage for a program to recommend the appointment of a Supervisor who does not have a Continuing Board appointment. For example, an individual who holds an appointment that is Specific Term (Contingent, Limited Term, Term Certain), Clinical or Adjunct, or Honorary, or has Emeritus status, or is from outside the University, may be appointed Supervisor. In cases such as these, the Faculty of Graduate Studies requires assurance that the proposed Supervisor will be able to provide continuity.

The proposed Supervisor must understand the commitment expected in terms of time and funding and be familiar with current graduate program and Faculty of Graduate Studies regulations. The Graduate Coordinator must ensure that supervision will be provided for the probable time period required for the completion of the degree program.

If the proposed Supervisor is someone from outside the graduate program who does not have a Continuing Board appointment, a Co-supervisor must be appointed. The Supervisor should be currently active in research in an area related to the student's interest. Faculty members working on their own graduate degrees cannot be approved in any supervisory capacity without special dispensation from the Dean. For detailed policy and the required forms, see http://www.grad.ucalgary.ca > Policies and Procedures.

1.2.2 Conflict of Interest
The relationship between Supervisor and student is an academic one. Where other relationships exist or develop that might give the appearance of conflict of interest they must be immediately reported to the Graduate Coordinator who can consult with an Associate Dean or the Dean if the Coordinator is unable to resolve the situation. (See Graduate Studies Conflict of Interest Policy: http://www.grad.ucalgary.ca/policies/conflictofinterest )

1.3 Appointment of Co-supervisor
In addition to those cases noted above in which it is required that a Co-supervisor be appointed, a Co-supervisor may be appointed by the Graduate Coordinator upon the written recommendation of the Supervisor and agreement of the student. A postdoctoral fellow as defined in the Postdoctoral Fellow Policy may be appointed a Co-Supervisor. The role of the Co-supervisor in this case is to provide supplementary guidance, instruction and research stimulation on a regular or extensive basis.

1.4 Supervisor or Co-supervisor from Outside the Department, Program, or Faculty
A Supervisor or Co-supervisor may be from a department, program, or faculty other than the student's home department, program, or faculty. The recommendation must be endorsed by the student. The faculty member's home program should be notified by the relevant Graduate Coordinator whenever the faculty member is asked to supervise or co-supervise outside the home program. Such an “external” Supervisor or Co-supervisor must agree to be responsible to the Graduate Coordinator of the student's home department in all matters related to the supervisory responsibilities.

1.5 Continuity of Supervision
Students are entitled to continuity of supervision. In the case of the resignation from the University, illness or death of the Supervisor, the Graduate Coordinator must make immediate arrangements to provide continuity of supervision pending the appointment of a new Supervisor.

1.6 Supervisor Selection and Approval Deadlines
Regular students are required to have approved Supervisors within twelve months of initial registration. A student admitted as a special case admission must have an approved Supervisor before admission.

2.0 Responsibilities of Supervisors

2.1 Knowledge of Rules and Procedures
Supervisors should be familiar with the rules and procedures of the Faculty of Graduate Studies and program regulations and requirements.

2.2 Meetings between Student and Supervisor
A student and Supervisor have a shared responsibility to meet on a regular basis.

---

2 The Postdoctoral Fellow Policy http://www.ucalgary.ca/postdoc/files/postdoc/University%20Postdoctoral%20Fellow%20Policy.pdf defines a PDF as “An individual, normally within 5 years of completion of a doctoral degree or 10 years of completion of an MD, DDS, DVM or equivalent, who is engaged in a temporary and defined period of mentored advanced training to enhance the professional skills and research independence needed to pursue his or her chosen career path.” The Postdoctoral Fellow Policy mandates that “assistance with the supervision of graduate students” requires “the agreement of the Faculty Supervisor.”
2.3 The Role of the Supervisor

The supervisor should act both as a general academic mentor, with emphasis on guidance, instruction, and encouragement of scholarship and research, and as a judge of the student's performance. Because of their own involvement in research and related professional activities, Supervisors should provide professional guidance and research stimulation to their students. A fundamental duty of the Supervisor is to impart to the student the skills necessary to plan and conduct original research.

Specifically, the Supervisor should:
- Work with the student to establish a realistic timetable for the completion of the various requirements of the program of study; discuss with the student and establish mutual expectations for the student's vacation time;
- Develop a relationship with the student conducive to research and intellectual growth;
- Guide the student in the pursuit of knowledge and provide constructive criticism in support of the highest standards of research and professional development.

2.4 Participation of Supervisor in Thesis Preparation

The Supervisor is expected to provide frequent and prompt comments on drafts of the thesis and should attempt to be critically constructive and encouraging but the thesis must be the creation of the student.

2.5 Supervisory Provision for Leave of Absence

A program and Supervisor must ensure that the student is provided with adequate supervision during a Supervisor's leave, potentially through the appointment of an interim Supervisor. Students should be informed well in advance about the Supervisor's plans for forthcoming leaves of absence. With current means of communication, continued supervision while on a research and scholarship leave is the expectation for faculty members. These arrangements must be communicated in writing to the Graduate Coordinator, who bears the responsibility for ensuring continuity of supervision for students in his/her graduate program.

2.5.1 Interim Supervisory Arrangements

When an interim Supervisor is appointed to cover a period of a Supervisor's absence, the regular Supervisor retains final responsibility for the adequate supervision of the student. Faculty members approved as interim Supervisors must indicate in writing to the Graduate Coordinator their willingness to accept responsibility for the day-to-day supervision of such students.

2.6 The Supervisor and Setting up Examinations

The Supervisor is responsible for scheduling the thesis oral examination.

2.7 Suggested Procedures in the Event of Problems between Graduate Students and Their Supervisors

Students should first try to resolve problems with Supervisors by talking to the Supervisor. Supervisory Committee members might be able to give helpful advice in this situation. Problems that are not resolved in this fashion should be discussed with the Graduate Coordinator, and then the Department Head or equivalent. If it appears that a solution cannot be reached, the student and/or the Graduate Coordinator may consult the Faculty of Graduate Studies for advice about a resolution to the matter.

2.8 Procedures for the Curtailment of Supervisory Duties

The Dean of Graduate Studies approves the initial appointment of a faculty member to supervisory duties. If a complaint is made against a Supervisor, the Dean will first discuss the matter with the Department Head or equivalent, and then with the faculty member concerned. The issue may be resolved informally. If the Dean decides that a more formal approach is needed to resolve the dispute, the Dean will inform both the Head and the faculty member of his/her conclusions in writing. If the result of the Dean's investigation is the curtailing of the supervisory duties of the faculty member, the Dean will inform the faculty member in writing.

2.9 Requirements for a Master's Supervisory Committee

A Supervisory Committee at the Master's level is not normally appointed. The Faculty of Graduate Studies will recognize a formal Supervisory Committee at the Master's level only when program Calendar entries refer to this requirement. When such a committee is required by the program, the program must file an Appointment of Supervisor/Supervisory Committee form with the Faculty of Graduate Studies. A Master's Supervisory Committee will be governed by the rules applying to doctoral Supervisory Committees (see Article 3.0 in Handbook of Supervision and Examination Part III: Doctor of Philosophy / Doctor of Education Degree).

Members of the Supervisory Committee should provide support to both the student and the Supervisor by expanding the range of expertise and experience available to advise and assess the student. Members should provide constructive criticism and discussion of the student's ideas, methods and performance as the program develops; should be accessible to the student for consultation and discussion; should suggest other sources of information to the student; and must participate in examinations and in periodic meetings with the student and provide regular assessment of the student's progress as required by the program regulations.

THE MASTER'S THESIS

3.0 Thesis Quality Requirements

The thesis should demonstrate that the candidate is acquainted with the published literature in the subject of the thesis; that appropriate research methods have been used; and that appropriate levels of critical analysis have been applied. The research embodied in the thesis should make some original contribution to knowledge in the field.

The general form and style of thesis may differ from program to program, but a thesis should be a coherent document. This means that if a thesis contains separate manuscripts, there needs also to be an introductory and concluding chapter that explain how these separate manuscripts fit together into a unified body of research. If previously published materials are included, it should be made clear what exactly is the student's own work and what is the contribution of other researchers.

While it is expected that a portion of the thesis could be the basis for a publication, the Supervisor and examiners should recognize that even an excellent thesis may not be perfect in all respects. "Perfection" is not a prerequisite for acceptance of the thesis as a "partial fulfillment of the requirements for a degree." The thesis may vary in quality from passable to outstanding.

EXAMINING COMMITTEES, EXAMINATIONS AND STANDARDS

4.0 Standards of Performance

4.1 Judgement of Student Performance

Supervisors and Graduate Coordinators must inform students on a regular basis about their academic progress. If a student's performance is judged to be below an acceptable level, this judgement should be expressed to the student formally and in writing at as early a stage in the program as possible. A student may be required to withdraw from the Faculty of Graduate Studies for reasons of "unsatisfactory progress" (see also section 5.3).
4.2 Annual Progress Report
The Supervisor and each continuing student must jointly submit an annual progress report on the student's performance. This form must be signed by the Supervisor, the Graduate Coordinator, and the student, and must be forwarded to the Faculty of Graduate Studies. The student must sign the report after the Supervisor and the Graduate Coordinator have completed their comments to acknowledge that he/she has reviewed these comments.

5.0 Faculty of Graduate Studies Examinations

5.1 Faculty Examination Requirements
Care should be taken to distinguish between Faculty of Graduate Studies examinations and Departmental or Program examinations. The Faculty of Graduate Studies requires a final oral examination of theses. Any requirement for a written comprehensive examination is at the discretion of the department.

5.2 Faculty Regulations for Thesis Examinations
The thesis oral examination is an examination of the Faculty of Graduate Studies. No changes in the composition of examination committees may be introduced without prior approval from an Associate Dean of Graduate Studies or the Dean of Graduate Studies. The Faculty of Graduate Studies must be informed of minor changes in the scheduling of the examination (e.g., for illness or weather). Changes of more than two weeks will need prior approval by the Faculty of Graduate Studies.

5.3 Program Examination Requirements and Standards
Program requirements may include examinations that are in addition to the Faculty of Graduate Studies requirements. Programs are entitled to set their own standards of adequate performance in such examinations, provided these are not in conflict with Faculty of Graduate Studies standards. When a student fails to meet either Faculty or program standards, the program may recommend to the Dean of Graduate Studies that the student be required to withdraw (See also section 4.2).

5.4 Communication of Examination Requirements to Students
Programs should provide their students, as early as possible, with information about the precise nature and form of program examinations and tests.

6.0 Thesis Oral Examinations

6.1 Right of Student to Submit and Defend Thesis
A student who has successfully completed all Faculty of Graduate Studies and program requirements has the right to submit and defend a thesis even if doing so may be contrary to the advice of the Supervisor.

6.2 Composition of the Thesis Oral Examination Committee
The thesis oral examination committee shall consist of the student's Supervisor and at least two other examiners, one of whom shall be external to the student's home department or program. If there is a Co-supervisor but not a formal Supervisory Committee, two other examiners are still required, one of whom shall be external to the program. If there is a formal Supervisory Committee, only one additional examiner external to the program is required. The composition of the committee must be approved by the Graduate Coordinator and approved by the Dean of Graduate Studies.

6.2.1 The External Examiner
The external examiner must meet the following criteria:
- If from within the University of Calgary, must have a Board appointment outside the student's program but within the professorial ranks, and have expertise in the student's research area or a closely related field;
- If external to the University of Calgary, must have a well-established research reputation, expertise in the area of the student's research, and experience in evaluating theses at a graduate level.

In addition, the external examiner must:
- Not have collaborated with the supervisor in the last five years;
- Not be related to the student, nor have worked with the student;
- Not have been a supervisor in the student's department or program for the last three years.

An external examiner who does not meet all the criteria is not necessarily precluded from serving on the examining committee, but the Graduate Coordinator must provide the Dean of Graduate Studies with a memo explaining the circumstances. Non-Board appointees to examination committees may be designated as external examiners with the approval of the Dean of Graduate Studies.

6.2.2 Non-Board Appointees on Examination Committees
Persons who are not Board appointees of the University of Calgary may be approved to serve on thesis oral examination committees. A recommendation to the Dean of Graduate Studies by the Graduate Coordinator for such an appointment must be accompanied by a curriculum vitae.

6.2.3 The Neutral Chair
The examination is chaired by a neutral member of the academic staff appointed by the Graduate Coordinator. He/she is not a member of the examining committee and is non-voting.

6.2.4 Responsibilities of the Supervisor and the Neutral Chair
The Supervisor arranges scheduling of the examination. The Neutral Chair presides over the thesis oral examination and reports the results to the student. The Neutral Chair gives the report to the Graduate Coordinator who ensures that it is submitted to the Faculty of Graduate Studies within 24 hours of the examination.

6.3 Composition of Examination Committee for Re-take of Thesis Oral Examination
Normally, the composition of the examination committee will remain the same. Upon the recommendation of the Graduate Coordinator and approval of the Faculty of Graduate Studies, an examiner may be replaced.

The deadlines for the recommendation of the examination committee are as for the original examination.

7.0 Scheduling the Thesis Oral Examination

7.1 Supervisor Responsibility
The Supervisor is responsible for scheduling the thesis oral examination.

7.2 Notice of Thesis Oral Examination
The official Notice of Thesis Oral Examination form, indicating the title of the thesis, the time and place of the examination, the names of the recommended examiners, and confirming that the candidate has completed all program requirements, endorsed by the Graduate Coordinator, must be received in the Faculty of Graduate Studies office at least four weeks prior to the time of the examination. The membership of the examination committee must be approved by the Faculty of Graduate Studies.
7.2.1 Posting the Notice of Thesis Oral Examination
A Notice of Thesis Oral Examination form, bearing the names, but not signatures of the student, the Supervisor, the Graduate Coordinator and the Dean of Graduate Studies, or designate, must be posted at least two weeks before the date of the examination. The Graduate Coordinator must ensure that copies of the Notice are sent to the student and to members of the examination committee.

7.2.2 Student Approval of Designated Area of Specialization
The format of the University degree parchment presented to successful candidates shows the degree, the department or area of study, and the approved area of specialization. Students should ensure that the approved area of specialization identified on the Notice of Thesis Oral Examination form is correct, before it is sent to the Faculty of Graduate Studies.

7.3 Form of Thesis
The thesis submitted to the members of the examination committee for final examination must be in all respects a final, complete copy and not a draft.

7.4 Thesis to Examiners
The student must ensure that the thesis is in the hands of the examiners at least three weeks prior to the proposed date of the oral examination. The examination begins when the thesis is distributed. The examiners should not discuss the thesis or their evaluation of it with each other (or anyone else) prior to the oral examination. The Examiner’s Report is considered a confidential document and must not be shared with the candidate or the other examining committee members before the final decision of the examining committee.

7.5 Format of Final Thesis Oral Examination
Normally, final thesis oral examinations are open, but only the examiners may question the student.

Examiners’ editorial comments on the thesis should not be discussed at the oral examination. It is recommended that each examiner hand the student a list of any questions to the candidate early in the examination, e.g., by rounds of questioning.

The oral examination should not exceed two hours. This does not include deliberation time of the committee.

8.0 Conduct of Thesis Oral Examination

8.1 Examiner’s Report on Thesis
Before the oral examination, each examiner is required to prepare an assessment of the thesis on the official Examiner’s Report on Thesis form. These assessments are to be submitted to the Neutral Chair of the examination committee before the oral examination begins. The assessments are CONFIDENTIAL: they are not to be made available to the student or to the examination committee before the final recommendation of the examination committee. After the examination, the Neutral Chair should submit the reports to the Graduate Coordinator who ensures that they are forwarded to the Faculty of Graduate Studies.

After the examination, the graduate program must make the Examiners’ Reports available to the student, upon request.

8.2 Examination Regulations

8.2.1 Formal Examination
The oral examination is a formal examination, not an informal discussion with the candidate.

8.2.2 Questioning of the Candidate
No one other than an examiner (as identified on the Notice of Thesis Oral Examination form) is allowed to question the candidate. All examiners must be given an opportunity to question the candidate early in the examination, e.g., by rounds of questioning.

8.2.3 Length of Examination
The oral examination should not exceed two hours. This does not include deliberation time of the committee.

8.2.4 Editorial Comments on Thesis
Examiners’ editorial comments on the thesis should not be discussed at the oral examination. It is recommended that each examiner hand the student a list of any such comments for post-examination final thesis revisions.

8.3 Suggested Examination Procedures

8.3.1 Opening Summary
It is common practice to ask the student to present a brief (up to fifteen minutes) opening summary of the thesis. Although this is not mandatory, students may appreciate the opportunity to introduce their research work and summarize its significance.

8.3.2 Questions to the Candidate
Questions to the candidate should be relevant to the subject matter of the thesis, and should be clearly and succinctly phrased in order to minimize doubt in the candidate's mind as to what is being asked. The student should be given reasonable time to answer. If the student has understood the question but cannot answer, the examiner should pass to another question and not attempt to extract an answer by prolonged interrogation. The Neutral Chair should guard against any tendency of examiners to interact with each other instead of concentrating on the examination of the candidate.

9.0 Post Thesis Oral Examination Procedures

9.1 Provisional Recommendations
At the end of the thesis oral examination, everyone except the Neutral Chair, the members of the examination committee, the Department/Program Head or designate and the Dean of Graduate Studies and/or Dean’s representative, is required to withdraw from the room. Before any discussion of the candidate’s performance, each examiner must identify, by secret ballot, whether he/she favours recommending a pass or fail on each of the thesis and the oral defence. This procedure provides the committee with a frame of opinion upon which a full discussion of the student’s performance may then be based.

9.2 Official Examiners’ Discussion
Following a count of the straw vote the Neutral Chair will facilitate a post-examination discussion in which the Department/Program Head and the Dean of Graduate Studies or their representatives may participate although they have no vote. At the conclusion of the discussion, each examiner must write his/her final recommendation on the official Report of Master’s Thesis Examination form. Unanimous decisions are required for both the thesis and the oral defence. If the examiners are unable to achieve unanimity regarding one or both components, there must be no further discussion regarding that component of the examination and the Neutral Chair must immediately inform the Dean of “lack of unanimity”. The final decision will be at the discretion of the Dean of Graduate Studies.
9.3 Recommendation of Examination Committee

Thesis oral examinations are designed to establish a level of achievement consistent with the standards of the Faculty of Graduate Studies as outlined in section 3, “Thesis Quality Requirements.” The following section (9.4) defines the official Faculty recommendations to the Dean of Graduate Studies respecting outcomes of thesis oral examinations. In each case, the committee recommendation must be reported to the Dean on the official Report of Master's Final Examination form within one working day of the completion of the examination. Immediately following the conclusion of the examination, the Neutral Chair must report the outcome to the student.

9.4 Recommendations

Thesis examinations must be judged to be either acceptable or unacceptable with respect to the thesis itself and, with respect to the oral defence, if the thesis is judged acceptable.

9.4.1 Recommendation for the Thesis

If the examining committee unanimously determines that the underlying research reported in the thesis is judged to be sound, but the presentation of or analysis in the research requires attention that one or more members of the examination committee wish to review personally, then those members will not sign the approval page until they have seen and approved the revisions. Other members of the committee should sign immediately after the examination. The Report of the examination should specify who has withheld his/her signature.

If the examining committee unanimously determines that the thesis conforms to the requirements for a Master's thesis (see section 3) then all members of the examination committee shall sign the signature page except the Supervisor, who will sign after reviewing and approving any necessary minor corrections on behalf of the committee.

If the unanimous final decision is that the examining committee recommends a failed thesis to the Dean of Graduate Studies, the final decision will be at the discretion of the Dean of Graduate Studies. Should the Dean of Graduate Studies uphold the recommendation of “fail”, the candidate will have a second opportunity to present and defend an acceptable thesis. No judgment should be made on the oral defence, because the revised thesis will need to be defended anew.

If examiners fail to arrive at a unanimous final recommendation, the Neutral Chair must adjourn discussion on this component of the examination, and that same day inform the Dean of Graduate Studies of “lack of unanimity.” The final decision will be at the discretion of the Dean of Graduate Studies.

For either a unanimous decision to fail the thesis or a lack of unanimity, within five working days each examiner submit within five working days a confidential written report to the Dean of Graduate Studies, describing the examination procedures and copy it to the Graduate Coordinator. Within five working days, each examination committee member must provide a confidential written report to the Dean of Graduate Studies explaining the reasons for his/her recommendation and copy it to the Graduate Coordinator and the Supervisor. After consultation with the Supervisor, the Graduate Coordinator then summarizes the essential points in a written report to the student, copied to the Supervisor.

In the case of a failed thesis, whether by committee or Dean’s decision, only one re-submission will be allowed and a new defence will be required. In view of the magnitude of the revisions required, a second oral exam must be held no sooner than six months and no later than twelve months from the date of the first examination. This new examination will normally be conducted by the original examination committee.

In reporting the results of the second examination, the committee will be limited to recommending either pass or fail. A recommendation for “fail” requires that each examiner submit within five working days a confidential written report to the Dean of Graduate Studies, copied to the Graduate Coordinator, and the Supervisor detailing the reasons for his/her assessments. Within five working days, the Neutral Chair must also submit a written report of the examination procedures to the Dean of Graduate Studies, copied to the Graduate Coordinator. If the Dean of Graduate Studies upholds the recommendation to fail, the student will be required to withdraw from the Faculty of Graduate Studies.

9.4.2 Recommendation for the Oral Defence

If the examining committee unanimously determines that the oral defence is not acceptable, then the examining committee recommends a failed oral defence to the Dean of Graduate Studies. The final decision will be at the discretion of the Dean of Graduate Studies. Should the Dean of Graduate Studies uphold the recommendation of “fail”, the candidate will be allowed a second, final attempt to present an acceptable oral defence. No judgment should be made on the oral defence, because the revised thesis will need to be defended anew.

If examiners fail to arrive at a unanimous final recommendation, the Neutral Chair must adjourn discussion on this component of the examination, and that same day inform the Dean of Graduate Studies of “lack of unanimity.” The final decision will be at the discretion of the Dean of Graduate Studies.

For either a unanimous decision to fail the oral defence or a lack of unanimity, within five working days the Neutral Chair must submit a written report to the Dean of Graduate Studies, describing the examination procedures and copy it to the Graduate Coordinator. Within five working days, each examination committee member must provide a confidential written report to the Dean of Graduate Studies explaining the reasons for his/her recommendation and copy it to the Graduate Coordinator and the Supervisor. After consultation with the Supervisor, the Graduate Coordinator then summarizes the essential points in a written report to the student, copied to the Supervisor.

In the case of a failed oral defence, whether by committee or Dean’s decision, only one further opportunity to present an acceptable thesis will be given. The second oral examination will be scheduled and normally heard by the original examination committee not later than six months from the date of the first examination. Any necessary revisions to the thesis must be completed by the candidate and approved by the committee before the second oral examination is scheduled.

In reporting the results of the second oral examination, the committee will be limited to recommending either pass or fail. A recommendation for “fail” requires that each examiner submit within five working days a confidential written report to the Dean of Graduate Studies, copied to the Graduate Coordinator, and the Supervisor detailing the reasons for his/her assessments. Within five working days, the Neutral Chair must also submit a written report of the examination procedures to the Dean of Graduate Studies, copied to the Graduate Coordinator. If the Dean of Graduate Studies upholds the recommendation to fail, the student will be required to withdraw from the Faculty of Graduate Studies.
9.5  Dean’s Action in Lack of Unanimity
When the Neutral Chair of a thesis oral examination does not report a unanimous recommendation, the Dean of Graduate Studies may consult with the Graduate Coordinator, the Supervisor, and the examiners before making a decision. At his/her discretion, the Dean of Graduate Studies may consult with the student as well. A decision should normally be made within seven business days of receiving the required post-examination reports, and all persons involved informed in writing of the result of the decision.

9.6  Convocation Clearance
The names of the candidates who have successfully completed the final thesis oral examination will not be added to the convocation list until the Faculty of Graduate Studies receives two unbound copies of the thesis and a Departmental Clearance Form. Students will continue to be assessed continuing fees until cleared for convocation.

TRANSFERS

10.0 Transfers at the Master’s Level

10.1 Application for Change of Area of Specialization
A student requires approval of both the Graduate Coordinator and the Dean of the Faculty of Graduate Studies to transfer from one area of specialization to another, while remaining within the degree program.

10.2 Transfers from Thesis-based Master’s Degree to Course-based Master’s Degree
A student requires approval of both the Graduate Coordinator and the Dean of the Faculty of Graduate Studies to transfer from a Thesis-based Master’s Degree to a Course-based Master’s Degree.

11.0 Transfers to Doctoral Programs

11.1 Transfer from Master’s to Doctoral Programs
Program Heads may recommend outstanding Master’s students for transfer to the doctoral program. Such recommendations must be endorsed by the proposed doctoral Supervisor and accompanied by the names of members of the proposed doctoral supervisory committee. The transfer must be approved by the Dean of Graduate Studies.

11.2 Course and Examination Requirements
Courses credited in the prior Master’s program will be taken as fulfilling doctoral requirements where applicable, in accordance with program requirements for required doctoral course work. All students transferring from Master’s to doctoral programs will be required to sit the doctoral candidacy examination.

11.3 Time Limits on Transfers
Transfers from Master’s to doctoral programs must be completed within 24 months of the student’s initial registration in the Faculty of Graduate Studies. All transfer students must attempt the candidacy examination within 36 months of first registration in the Faculty of Graduate Studies.
SUPERVISORS AND SUPERVisory COMMITTEES

1.0 Selection of a Supervisor

1.1 General Advice to Students
All students must have either an interim advisor or an approved Supervisor at the time of first registration, and a permanent Supervisor no later than the second annual registration. It would help the student in program planning if the selection of a Supervisor were completed as quickly as possible. Students are encouraged to think about and select their areas of specialization as early as possible, and preferably before beginning the program.

1.2 Supervisor Selection
The initial selection of a Supervisor should be by mutual agreement between student and faculty member, and approved by the Graduate Coordinator. Difficulties or conflicts in selecting or recommending a Supervisor should be referred promptly to the Dean by any of the persons involved.

1.2.1 Supervisor Eligibility Requirements
Continuity of supervision throughout a graduate program is important to a student’s success. Normally, faculty members with Continuing Board appointments in the professional ranks are chosen as Supervisors. However, there are occasions when it is to the student’s advantage for a program to recommend the appointment of a Supervisor who does not have a Continuing Board appointment. For example, an individual who holds an appointment that is Specific Term (Contingent, Limited Term, Term Certain), Clinical or Adjunct, or Honorary, or has Emeritus status, or is from outside the University, may be appointed Supervisor. In cases such as these, the Faculty of Graduate Studies requires assurance that the proposed Supervisor will be able to provide continuity.

The proposed Supervisor must understand the commitment expected in terms of time and funding and be familiar with current graduate program and Faculty of Graduate Studies regulations. The Graduate Coordinator must ensure that supervision will be provided for the probable time period required for the completion of the degree program.

If the proposed Supervisor is someone from outside the graduate program who does not have a Continuing Board appointment, or is from outside the University of Calgary, a Co-supervisor must be appointed.

The Supervisor should be currently active in research in an area related to the student’s interest. Faculty members working on their own graduate degrees cannot be approved in any supervisory capacity without special dispensation from the Dean. For detailed policy and the required forms, see http://www.grad.ucalgary.ca Policies and Procedures.

1.2.2 Conflict of Interest
The relationship between Supervisor and student is an academic one. Where other relationships exist or develop that might give the appearance of conflict of interest they must be immediately reported to the Graduate Coordinator who can consult with an Associate Dean or the Dean if the Coordinator is unable to resolve the situation. (See Graduate Studies Conflict of Interest Policy: http://www.grad.ucalgary.ca/policies/conflictofinterest).

1.3 Appointment of Co-supervisor
In addition to those cases noted above in which it is required that a Co-supervisor be appointed, a Co-supervisor may be appointed by the Graduate Coordinator upon the written recommendation of the Supervisor and agreement of the student. The role of the Co-supervisor in this case is to provide supplementary guidance, instruction and research stimulation on a regular or extensive basis.

1.4 Supervisor or Co-supervisor from Outside the Department, Program, or Faculty
A Supervisor or Co-supervisor may be from a department, program, or faculty other than the student’s home department, program, or faculty. The recommendation must be endorsed by the student. The faculty member’s home program should be notified by the relevant Graduate Coordinator whenever the faculty member is asked to supervise or co-supervise outside the home program. Such an “external” Supervisor or Co-Supervisor must agree to be responsible to the Graduate Coordinator of the student’s home department in all matters related to the supervisory responsibilities.

1.5 Continuity of Supervision
Students are entitled to continuity of supervision. In the case of the resignation from the University, illness or death of the Supervisor, the Graduate Coordinator must make immediate arrangements to provide continuity of supervision pending the appointment of a new Supervisor.

1.6 Supervisor Selection and Approval Deadlines
Regular students are required to have approved Supervisors within twelve months of initial registration. Doctoral students admitted as special case admissions must have an approved Supervisor and Supervisory Committee before admission.

2.0 Responsibilities of Supervisors

2.1 Knowledge of Rules and Procedures
Supervisors should be familiar with the rules and procedures of the Faculty of Graduate Studies and program regulations and requirements.

2.2 Meetings between Student and Supervisor
A student and Supervisor have a shared responsibility to meet on a regular basis.
2.3 The Role of the Supervisor
The Supervisor should act both as a general academic mentor, with emphasis on guidance, instruction, and encouragement of scholarship and research, and as a judge of the student's performance. Because of their own involvement in research and related professional activities, Supervisors should provide professional guidance and research stimulation to their students. A fundamental duty of the Supervisor is to impart to the student the skills necessary to plan and conduct original research.

Specifically, the Supervisor should:
- Work with the student to establish a realistic timetable for the completion of the various requirements of the program of study; discuss with the student and establish mutual expectations for the student's vacation time;
- Develop a relationship with the student conducive to research and intellectual growth;
- Guide the student in the pursuit of knowledge and provide constructive criticism in support of the highest standards of research and professional development.

2.4 Participation of Supervisor in Thesis Preparation
The Supervisor is expected to provide frequent and prompt comments on drafts of the thesis and should attempt to be critically constructive and encouraging but the thesis must be the creation of the student.

2.5 Supervisory Provision for Leave of Absence
A program and Supervisor must ensure that the student is provided with adequate supervision during a Supervisor's leave, potentially through the appointment of an interim Supervisor. In doctoral programs, the interim Supervisor should be a member of the Supervisory Committee. Students should be informed well in advance about the Supervisor's plans for forthcoming leaves of absence. With current means of communication, continued supervision while on a research and scholarship leave is the expectation for faculty members. These arrangements must be communicated in writing to the Graduate Coordinator, who bears the responsibility for ensuring continuity of supervision for students in his/her graduate program.

2.5.1 Interim Supervisory Arrangements
When an interim Supervisor is appointed to cover a period of a Supervisor's absence, the regular Supervisor retains final responsibility for the adequate supervision of the student. Faculty members approved as interim Supervisors must indicate in writing to the Graduate Coordinator their willingness to accept responsibility for the day-to-day supervision of such students.

2.6 The Supervisor and Setting up Examinations
The Supervisor is responsible for scheduling the candidacy examination and the thesis oral examination.

2.7 Suggested Procedures in the Event of Problems between Graduate Students and Their Supervisors
Students should first try to resolve problems with Supervisors by talking to the Supervisor. Supervisory Committee members might be able to give helpful advice in this situation. Problems that are not resolved in this fashion should be discussed with the Graduate Coordinator, and then the Department Head or equivalent. If it appears that a solution cannot be reached, the student and/or the Graduate Coordinator may consult the Faculty of Graduate Studies for advice about a resolution of the matter.

2.8 Procedures for the Curtailment of Supervisory Duties
The Dean of Graduate Studies approves the initial appointment of a faculty member to supervisory duties. If a complaint is made against a Supervisor, the Dean will first discuss the matter with the Department Head or equivalent, and then with the faculty member concerned. The issue may be resolved informally. If the Dean decides that a more formal approach is needed to resolve the dispute, the Dean will inform both the Head and the faculty member of his/her conclusions in writing. If the result of the Dean's investigation is curtailment of the supervisory duties of the faculty member, the Dean will inform the faculty member in writing.

3.0 Doctoral Supervisory Committee

3.1 Composition of the Supervisory Committee
The Supervisor and Graduate Coordinator must inform the Faculty of Graduate Studies of the Supervisory Committee composition no later than three months after the appointment of the Supervisor.

The Supervisory Committee should be constituted by the Supervisor in consultation with the student. It will normally consist of the Supervisor and two members, and must be approved by the Graduate Coordinator and sent to the Faculty of Graduate Studies for information. Committee members may be external to the student's program. At least one of the members of the Supervisory Committee should have had supervisory experience at the doctoral level. If a Co-supervisor and a Supervisor are appointed, the Supervisory Committee will require two other members.

3.2 Non-Board Appointees on Supervisory Committee
Persons who are not Board appointees of the University of Calgary may be approved to serve on supervisory committees. A recommendation to the Dean by the Graduate Coordinator for such an appointment must be accompanied by a curriculum vitae.

3.3 Duties of a Supervisory Committee
Members of a doctoral Supervisory Committee should provide support to both the student and the Supervisor by expanding the range of expertise and experience available to advise and assess the student. Members should provide constructive criticism and discussion of the student’s ideas, methods and performance as the program develops; should be accessible to the student for consultation and discussion; should suggest other sources of information to the student; and must participate in examinations and in periodic meetings with the student and provide regular assessment of the student's progress as required by the program regulations.

THE DOCTORAL THESIS

4.0 Thesis Quality Requirements
The doctoral thesis must embody original work conducted while in program, and must constitute a significant contribution to knowledge. It should contain evidence of critical understanding of the relevant literature. The material embodied in the thesis should merit publication.

The general form and style of thesis may differ from program to program but a thesis should be a coherent document. This means that if a thesis contains separate manuscripts, there needs also to be an introductory and concluding chapter that explain how these separate manuscripts fit together into a unified body of research. If previously published materials are included, it should be made clear what exactly is the student's own work and what is the contribution of other researchers. While it is expected that the thesis could be the basis for a publication, the Supervisor and examiners should recognize that even an excellent thesis might not be perfect in all respects. "Perfection" is not a prerequisite for acceptance of the thesis as a "partial fulfilment of the requirements for the degree". The thesis may vary in quality from passable to outstanding.

## EXAMINING COMMITTEES, EXAMINATIONS AND STANDARDS

### 5.0 Standards of Performance

#### 5.1 Judgement of Student Performance

Supervisors and Graduate Coordinators must inform students on a regular basis about their academic progress. If a student's performance is judged to be below an acceptable level, this judgement should be expressed to the student formally and in writing at as early a stage in the program as possible. A student may be required to withdraw from the Faculty of Graduate Studies for reasons of "unsatisfactory progress" (see also section 6.2).

#### 5.2 Annual Progress Report

The Supervisor and each continuing student must jointly submit an annual progress report on the student's performance. This form must be signed by the Supervisor, the Graduate Coordinator, and the student, and must be forwarded to the Faculty of Graduate Studies. The student must sign the report after the Supervisor and the Graduate Coordinator have completed their comments to acknowledge that he/she has reviewed these comments.

### 6.0 Faculty of Graduate Studies Examinations

#### 6.1 Faculty Examination Requirements

The Faculty of Graduate Studies requires that candidates for doctoral degrees sit both an oral candidacy examination and a thesis oral examination.

#### 6.1.1 Faculty Regulations for Candidacy Oral Examinations

Candidacy oral examinations are examinations of the Faculty of Graduate Studies. No changes in the composition of the examination committee may be introduced without prior approval from an Associate Dean of Graduate Studies or the Dean of Graduate Studies. The Faculty of Graduate Studies must be informed of changes in the scheduling of the examination.

#### 6.1.2 Faculty Regulations for Thesis Examinations

Thesis oral examinations are examinations of the Faculty of Graduate Studies. No changes in the composition of the examination committee may be introduced without prior approval from an Associate Dean of Graduate Studies or the Dean of Graduate Studies. The Faculty of Graduate Studies must be informed of minor changes in the scheduling of the examination (e.g., for illness or weather). Changes of more than two weeks will need prior approval by the Faculty of Graduate Studies.

#### 6.2 Program Examination Requirements and Standards

Program requirements may include examinations that are in addition to the Faculty of Graduate Studies requirements. Programs are entitled to set their own standards of adequate performance in such examinations, provided these are not in conflict with Faculty of Graduate Studies standards. When a student fails to meet either Faculty or program standards, the program may recommend to the Dean of Graduate Studies that the student be required to withdraw. (See also section 5.1).

#### 6.3 Communication of Examination Requirements to Students

Programs should provide their students, as early as possible, with information about the precise nature and form of program examinations and tests.

### 7.0 Admission to Candidacy

Admission to candidacy is an acknowledgement that a student is fully prepared to devote his/her full attention to the dissertation research. For admission to candidacy, the Faculty of Graduate Studies requires that (1) all mandatory course work has been completed, (2) an oral candidacy examination has been successfully passed, and (3) a dissertation research proposal has been approved by the student's Supervisory Committee. Programs may require the examination and proposal to be completed in any order, including approval of the proposal within the examination.

Although the oral candidacy examination is the official Faculty of Graduate Studies examination, graduate programs have the option of adding a written component. If there is a written component, the period during which the written examination and the oral examination are conducted must not exceed one month. The written examination should be circulated among the examiners and may serve as a basis for questioning at the oral. If the student fails the written component of the candidacy examination, the oral examination should still go ahead as scheduled in order to give the candidate an opportunity to defend the written answers, as well as deal with other questions.

#### 7.1 Rationale for Candidacy Examinations

The candidacy examination should focus on the background knowledge of students in their discipline, as well as their preparedness to conduct research of high quality in their particular fields of study.

#### 7.2 Program Guidelines and Regulations

Although the candidacy examination is a Faculty of Graduate Studies examination, individual programs determine the precise requirements. All programs must have written guidelines describing the examination regulations and the timing of the dissertation research proposal relative to the candidacy examination. These guidelines and regulations must be given to doctoral students as soon as they enter the program.

#### 7.3 Assessment of the Candidacy Examinations

Assessment of the candidacy examination must take place immediately following the completion of the oral candidacy examination. This assessment should be based on the candidate's overall performance in all components of the examination.

#### 7.4 Candidacy Examination and Course Work

All required course work must have been completed prior to the candidacy examination. No further course work may be required of a student who has successfully completed the candidacy examinations, but a student may elect to complete additional courses subject to approval by the Graduate Coordinator.

#### 7.5 Deadlines for Admission to Candidacy

A student entering a doctoral program with a completed Master's degree must attempt the candidacy examinations and submit a research proposal acceptable to the Supervisory Committee no later than twenty-eight months after initial registration in the doctoral program. A student entering a doctoral program with a bachelor's degree, or transferring into a doctoral program from a Master's program before the Master's program is completed, must attempt the candidacy examinations and submit a research proposal acceptable to the Supervisory Committee no later than thirty-six months after initial registration in the Faculty of Graduate Studies.

---

1 Exceptions apply to students in Clinical Psychology (CPSY) and Applied Psychology (APSY).
2 Exceptions apply to students in Clinical Psychology (CPSY) and Applied Psychology (APSY).

32
7.6 Establishing the Candidacy Examination Committee
A written recommendation to the Dean of Graduate Studies on the composition of the candidacy examination committee must be received in the Faculty of Graduate Studies office at least four weeks before the scheduled date of the examination. The committee will not be approved by the Faculty of Graduate Studies earlier than three months before the planned examination date.

7.7 Composition of the Candidacy Examination Committee
Normally, the Candidacy Examination Committee consists of the Supervisory Committee plus two additional members recommended by the Graduate Coordinator who shall ensure that no conflict of interest exists between the student or the Supervisor and the additional members of the examination committee. [See Graduate Studies Conflict of Interest Policy: http://www.grad.ucalgary.ca/policies/conflictofinterest] Normally, the Supervisor is a voting member, but a graduate program may choose to have the Supervisor attend as a non-voting observer. The Graduate Calendar notes programs that have chosen this option.

7.7.1 Neutral Chair of the Candidacy Examination Committee
The examination is chaired by a member of the academic staff appointed by the Graduate Coordinator. The Neutral Chair is not a member of the examining committee and is non-voting.

7.7.2 Responsibilities of the Supervisor and the Neutral Chair
The Supervisor arranges scheduling of the examination. The Neutral Chair presides over the candidacy examination and reports the results to the student. The Neutral Chair gives the report to the Graduate Coordinator, who ensures that it is submitted to the Faculty of Graduate Studies within 24 hours of the examination. The Neutral Chair must inform the student of the committee's recommendation immediately following the vote of the examination committee. The Neutral Chair will provide a confidential written report to the Dean of Graduate Studies explaining the reasons for his/her vote and copy it to the Graduate Coordinator and the program representative and the Department Head or equivalent, or designate, may attend without prior notice.

7.7.3 Non-Board Appointees on Examination Committee
Persons who are not Board appointees of the University of Calgary may be approved to serve on candidacy examination committees. A recommendation to the Dean by the Graduate Coordinator for such an appointment must be accompanied by a curriculum vitae.

7.8 Notice of Candidacy Oral Examination
The official Notice of Candidacy Oral Examination form must be received in the Faculty of Graduate Studies office at least four weeks before the time of examination. The form identifies the time and place of the examination, the names of the members of the examination committee, and by the signature of the Graduate Coordinator confirms that the candidate has completed course requirements. The membership of the examination committee must be approved by the Faculty of Graduate Studies.

7.9 Attendance at Candidacy Oral Examinations
The candidacy oral examination is a formal examination limited to the examination committee and the student. The Dean of Graduate Studies or Dean's representative and the Department Head or equivalent, or designate, may attend without prior notice.

8.0 Conduct of Candidacy Oral Examination

8.1 Examination Regulations
No one other than a member of the examination committee is allowed to question the candidate. All examiners should be given an opportunity to question the candidate during the early part of the examination, e.g., by rounds of questioning.

8.2 Suggested Examination Procedure
Questions to the candidate should be clear and succinct. The student should be given reasonable time to answer. If the student has understood the question and cannot answer, the examiner should pass to another question and not attempt to extract an answer by prolonged interrogation, or by leading the candidate. The chair should guard against any tendency of examiners to interact with each other instead of concentrating on the examination of the candidate.

8.3 Length of Examination
The candidacy examination should not exceed two hours. This does not include the deliberation time of the Committee.

9.0 Post Candidacy Oral Examination Procedures

9.1 Official Examiners' Discussion
At the end of the candidacy examination, the student is asked to withdraw from the room. If the program has chosen to allow the Supervisor to attend the examination as a non-voting observer, at the end of the candidacy examination the student and the Supervisor are asked to withdraw from the room. Before any discussion of the candidate's performance, each examiner must identify, by secret ballot, which recommendation (pass/fail) he/she favours. This procedure provides the committee with a frame of opinion upon which to base a full discussion of the student's performance. The examiners then conduct a post-examination discussion, in which the Department Head or equivalent, or designate (e.g., Graduate Coordinator), and the Dean of Graduate Studies or the Dean's representative may participate, although they have no vote.

9.2 Recommendation of the Candidacy Examination Committee
After the final vote, each examiner must record a recommendation of pass or fail on the official Faculty of Graduate Studies Report of Candidacy Oral Examination form. Every effort should be made to reach a unanimous recommendation. Should the outcome of the final vote include one negative vote, the candidate will pass. Should the outcome include two or more negative votes, the committee's recommendation to the Dean of Graduate Studies will be "fail".

The final decision will be at the discretion of the Dean of Graduate Studies. Should the Dean of Graduate Studies uphold the recommendation of "fail," the student will be allowed a retake of the examination. Within five working days of the failed examination, the Neutral Chair must submit a written report of the examination procedures to the Dean of Graduate Studies and copy it to the Graduate Coordinator. Within five working days of the examination each committee member must provide a confidential written report to the Dean of Graduate Studies explaining the reasons for his/her vote and copy it to the Graduate Coordinator and the Supervisor. After consultation with the Supervisor, the Graduate Coordinator then summarizes the essential points to the student, copied to the Supervisor. The Neutral Chair must inform the student of the committee's recommendation immediately following the vote of the examination committee. The Neutral Chair will record the final recommendation of pass or fail on the Report of Candidacy Oral Examination form which must be submitted to the Dean of Graduate Studies within one working day of the completion of the examination.

5 Exceptions apply to students in Clinical Psychology (CPSY) and Applied Psychology (APSY).
9.3 Re-take of Candidacy Examination

Only one re-take of a candidacy examination will be permitted. The re-take must take place no sooner than two months and no later than six months from the date of the first examination. Normally the composition of the committee will remain the same. In reporting the results of the second examination, the committee will be limited to recommending either a pass (i.e., no more than one negative vote), or fail. A recommendation of “fail” requires that, within five working days, each examiner submit a confidential written report to the Dean of Graduate Studies, copied to the Graduate Coordinator and the Supervisor, detailing the reasons for his/her vote. Within five working days, the Neutral Chair must also submit a written report of the examination procedures to the Dean of Graduate Studies, copied to the Graduate Coordinator. If the Dean of Graduate Studies upholds the recommendation to fail, the student will be required to withdraw from the Faculty of Graduate Studies.

10.0 Thesis Oral Examinations

10.1 Right of Student to Submit and Defend Thesis

A student who has successfully completed all Faculty of Graduate Studies and program requirements has the right to submit and defend a thesis even if doing so may be contrary to the advice of the Supervisor.

10.2 Composition of the Thesis Oral Examination Committee

The thesis oral examination committee shall consist of the student’s Supervisory Committee and at least two other examiners, one of whom shall be external to the student’s home program and the other external to the University. The composition of the committee must be approved by the Dean, upon the recommendation of the Graduate Coordinator. The Dean may approve a recommendation that the examiner external to the University not attend the thesis oral examination in person, but participate electronically, by teleconference or videoconference. In rare cases, the Dean may approve a recommendation that the examiner external to the University not participate in the oral examination in person, but furnish the examination committee with a list of questions to be put to the candidate together with a detailed appraisal of the thesis. When acting in this capacity, the examiner external to the University is designated the external reader.

10.2.1 Examiner External to the University

The Graduate Coordinator must recommend the examiner external to the University to the Dean at least six weeks before the proposed date of the examination on the form Approval of External Examiner or Reader, accompanied by a curriculum vitae. For further guidelines on external examiners and readers, refer to http://www.grad.ucalgary.ca > Policies and Procedures > Examination.

10.2.2 Relationship of the Examiner External to the University to the Student

In order to ensure impartiality, the proposed Examiner must not be a close personal friend of the candidate’s Supervisor, have collaborated with the Supervisor in the last five years, be closely related to the candidate, nor have worked with the candidate, and must not have been a Supervisor in the candidate’s graduate program for the last three years. If any of the criteria are not met, the proposed Examiner is not necessarily precluded from serving, but the graduate program must clearly explain the circumstances to the Faculty of Graduate Studies.

10.2.3 Non-Board Appointees on Examination Committees

Persons who are not Board appointees of the University of Calgary may be approved to serve on thesis oral examination committees. A recommendation to the Dean of Graduate Studies by the Graduate Coordinator for such an appointment must be accompanied by a curriculum vitae.

10.2.4 The Neutral Chair

The examination is chaired by a neutral member of the academic staff appointed by the Graduate Coordinator. He/she is not a member of the examining committee and is non-voting.

10.2.5 Responsibilities of the Supervisor and the Neutral Chair

The Supervisor arranges scheduling of the examination. The Neutral Chair presides over the thesis oral examination and reports the results to the student. The Neutral Chair gives the report to the Graduate Coordinator who ensures that it is submitted to the Faculty of Graduate Studies within 24 hours of the examination.

10.3 Composition of Examination Committee for Re-take of Thesis Oral Examination

Normally, the composition of the examination committee will remain the same. Upon the recommendation of the Graduate Coordinator and approval of the Faculty of Graduate Studies, an examiner may be replaced.

10.3.1 Appointment of Examination Committee for Re-take of Examination

The Notice of Thesis Oral Examination must be received in the Faculty of Graduate Studies office at least four weeks prior to the time of the examination. Should a new examiner external to the University be recommended, the Faculty of Graduate Studies must receive the recommendation at least six weeks before the proposed date of the examination on the form Approval of External Examiner or Reader, accompanied by a curriculum vitae.

11.0 Scheduling the Thesis Oral Examination

11.1 Supervisor Responsibility

The Supervisor is responsible for all steps in setting up the thesis oral examination.

11.2 Notice of Thesis Oral Examination

The official Notice of Thesis Oral Examination form, indicating the title of the thesis, the time and place of the examination, the names of the recommended members of the examination committee, and confirming that the candidate has completed all program requirements to proceed to oral examination, endorsed by the Graduate Coordinator, must be received in the Faculty of Graduate Studies office at least four weeks prior to the time of the examination. The membership of the examination committee must be approved by the Faculty of Graduate Studies.

11.2.1 Posting the Notice of Thesis Oral Examination

A Notice of the Thesis Oral Examination form, bearing the names, but not signatures of the student, the Supervisor, the Graduate Coordinator and the Dean of Graduate Studies, or designate, must be posted at least two weeks before the date of the examination. The Graduate Coordinator must ensure that copies of the Notice are sent to the student and to members of the examination committee.

11.2.2 Student Approval of Designated Area of Specialization

The format of the University degree parchment presented to successful candidates shows the degree, the department or area of study, and the approved area of specialization. Students should ensure that the approved area of specialization identified on the Notice of the Thesis Oral Examination form is correct, before it is sent to the Faculty of Graduate Studies.

11.3 Form of Thesis

The thesis submitted to the members of the examination committee for final examination must be in all respects a final, complete copy and not a draft.

Exceptions apply to students in Clinical Psychology (CPSY) and Applied Psychology (APSY).
11.4 Thesis to Examiners
The student must ensure that the thesis is in the hands of the examiners (including the examiner external to the University) at least three weeks prior to the proposed date of the oral examination. The examination begins when the thesis is distributed. The examiners should not discuss the thesis or their evaluation of it with each other (or anyone else) prior to the oral examination. The Examiner’s Report is considered a confidential document and must not be shared with the candidate or the other examining committee members before the final decision of the examining committee.

11.5 Format of Final Thesis Oral Examination
Normally, final thesis oral examinations are open, but only the examiners may question the student. The examiners’ deliberations are private and confidential. Only the Neutral Chair, the examining committee, and, if present, the Department/Program Head and the Dean of Graduate Studies or the Dean’s Representative may be present.

12.0 Conduct of Thesis Oral Examination

12.1 Examiner’s Report on Thesis
Before the oral examination, each examiner is required to prepare an assessment of the thesis, on the official Examiner’s Report on Thesis form. These assessments are to be submitted to the Neutral Chair of the examination committee before the oral examination begins. The assessments are CONFIDENTIAL: they are not to be made available to the student or to the examination committee before the final recommendation of the examination committee. After the examination, the Neutral Chair should submit the reports to the Graduate Coordinator who ensures that they are forwarded to the Faculty of Graduate Studies. After the examination, the graduate program must make the Examiners’ Reports available to the student, upon request.

12.2 Examination Regulations

12.2.1 Formal Examination
The oral examination is a formal examination, not an informal discussion with the candidate.

12.2.2 Questioning of the Candidate
No one other than an examiner (as identified on the Notice of Thesis Oral Examination form) is allowed to question the candidate. All examiners must be given an opportunity to question the candidate early in the examination, e.g., by rounds of questioning.

12.2.3 Length of Examination
Ordinarily, the oral examination should not exceed two hours. This does not include deliberation time of the committee.

12.2.4 Editorial Comments on Thesis
Examiners’ editorial comments on the thesis should not be discussed at the oral examination. It is recommended that each examiner hand the student a list of any such comments for post-examination final thesis revisions.

12.3 Suggested Examination Procedures

12.3.1 Opening Summary
It is common practice to ask the student to present a brief (up to fifteen minutes) opening summary of the thesis. Although this is not mandatory, students may appreciate the opportunity to introduce their research work and summarize its significance.

12.3.2 Questions to the Candidate
Questions to the candidate should be relevant to the subject matter of the thesis, and should be clearly and succinctly phrased in order to minimize doubt in the candidate’s mind as to what is being asked. The student should be given reasonable time to answer. If the student has understood the question but cannot answer, the examiner should pass to another question and not attempt to extract an answer by prolonged interrogation. The chair should guard against any tendency of examiners to interact with each other instead of concentrating on the examination of the candidate.

13.0 Post Thesis Oral Examination Procedures

13.1 Provisional Recommendations
At the end of the thesis oral examination, everyone except the Neutral Chair, the members of the examination committee, the Department/Program Head or designate and the Dean of Graduate Studies and/or Dean’s representative, is required to withdraw from the room. Before any discussion of the candidate’s performance, each examiner must be given an opportunity to introduce their research work and summarize its significance. At the conclusion of the discussion, each examiner must write his/her final recommendations on the official Report of Doctoral Thesis Examination form. Unanimous decisions are required for both the thesis and the oral defence. If the examiners are unable to achieve unanimity regarding one or both components, there must be no further discussion regarding that component of the examination and the Neutral Chair must immediately inform the Dean of Graduate Studies of “lack of unanimity.” The final decision will be at the discretion of the Dean of Graduate Studies.

13.2 Official Examiners’ Discussion
Following a count of the straw vote the Neutral Chair will facilitate a post-examination discussion, in which the Department/Program Head and the Dean of Graduate Studies or their representatives may participate, although they have no vote. At the conclusion of the discussion, each examiner must write his/her final recommendations on the official Report of Doctoral Thesis Examination form. Unanimous decisions are required for both the thesis and the oral defence. If the examiners are unable to achieve unanimity regarding one or both components, there must be no further discussion regarding that component of the examination and the Neutral Chair must immediately inform the Dean of Graduate Studies of “lack of unanimity.” The final decision will be at the discretion of the Dean of Graduate Studies.

13.3 Recommendation of Examination Committee
Thesis oral examinations are designed to establish a level of achievement consistent with the standards of the Faculty of Graduate Studies as outlined in section 4, “Thesis Quality Requirements.” The following section (13.4) defines the official Faculty recommendations to the Dean of Graduate Studies respecting outcomes of thesis oral examinations. In each case, the committee recommendations must be reported to the Dean on the official Report of Doctoral Final Examination form within one working day of the completion of the examination. Immediately following the conclusion of the examination, the Neutral Chair must report the outcome to the student.

13.4 Recommendations
Thesis examinations must be judged to be either acceptable or unacceptable with respect to the thesis itself and, with respect to the oral defence, if the thesis is judged acceptable.

13.4.1 Recommendation for the Thesis
If the unanimous final decision is that the thesis conforms to the requirements for a doctoral thesis (see section 4) then all members of the examination committee shall sign the signature page except the Supervisor, who will sign after reviewing and approving any necessary minor corrections on behalf of the committee.

If the unanimous final decision is that the underlying research reported in the thesis is judged to be sound, but the presentation of or analysis in the research
requires attention that one or more members of the examination committee wish to review personally, then those members will not sign the approval page until they have seen and approved the revisions. Other members of the committee should sign immediately after the examination. The Report of the examination should specify who has withheld his/her signature.

If the examining committee unanimously determines that the underlying research is not acceptable, then the examination committee recommends a failed thesis to the Dean of Graduate Studies. The final decision will be at the discretion of the Dean of Graduate Studies. Should the Dean of Graduate Studies uphold the recommendation of “fail”, the candidate will have a second opportunity to present and defend an acceptable thesis. No judgment should be made on the oral defence, because the revised thesis will need to be defended anew.

If the examiners fail to arrive at a unanimous final recommendation, the Neutral Chair must adjourn discussion on this component of the examination, and that same day inform the Dean of Graduate Studies of “lack of unanimity.” The final decision will be at the discretion of the Dean of Graduate Studies.

For either a unanimous decision to fail the thesis or a lack of unanimity, within five working days the Neutral Chair must submit a written report to the Dean of Graduate Studies, describing the examination procedures and copy it to the Graduate Coordinator. Within five working days, each examination committee member must provide a confidential written report to the Dean of Graduate Studies explaining the reasons for his/her assessment and copy it to the Graduate Coordinator and the Supervisor. After consultation with the Supervisor, the Graduate Coordinator then summarizes the essential points in a written report to the student, copied to the Supervisor.

In the case of a failed thesis, whether by committee or Dean’s decision, only one re-submission will be allowed and a new defence will be required. In view of the magnitude of the revisions required, a second oral exam must be held no sooner than six months and no later than twelve months from the date of the first examination. This new examination will normally be conducted by the original examination committee.

In reporting the results of the second examination, the committee will be limited to recommending either pass or fail. A recommendation for “fail” requires that each examiner submit within five working days a confidential written report to the Dean of Graduate Studies, copied to the Graduate Coordinator, and the Supervisor detailing the reasons for his/her assessments. Within five working days, the Neutral Chair must also submit a written report of the examination procedures to the Dean of Graduate Studies, copied to the Graduate Coordinator. If the Dean of Graduate Studies upholds the recommendation to fail, the student will be required to withdraw from the Faculty of Graduate Studies.

13.4.2 Recommendation for the Oral Defence
If the unanimous final decision is that the oral defence is acceptable, the recommendation regarding the oral defence is a pass.

If the examining committee unanimously determines that the oral defence is not acceptable, then the examining committee recommends a failed oral defence to the Dean of Graduate Studies. The final decision will be at the discretion of the Dean of Graduate Studies. Should the Dean of Graduate Studies uphold the recommendation of “fail”, the candidate will be allowed a second, final attempt to present an acceptable oral defence of the thesis.

If the examiners fail to arrive at a unanimous final recommendation, the Neutral Chair must adjourn discussion on this component of the examination, and that same day inform the Dean of Graduate Studies of “lack of unanimity.” The final decision will be at the discretion of the Dean of Graduate Studies.

For either a unanimous decision to fail the oral defence or a lack of unanimity, within five working days the Neutral Chair must submit a written report to the Dean of Graduate Studies, describing the examination procedures and copy it to the Graduate Coordinator. Within five working days, each examination committee member must provide a confidential written report to the Dean of Graduate Studies explaining the reasons for his/her assessment and copy it to the Graduate Coordinator and the Supervisor. After consultation with the Supervisor, the Graduate Coordinator then summarizes the essential points in a written report to the student, copied to the Supervisor.

In the case of a failed oral defence, whether by committee or Dean’s decision, the candidate will be given only one further opportunity to present an acceptable defence. The second oral examination will be scheduled and normally heard by the original examination committee not later than six months from the date of the first examination. Any necessary revisions to the thesis must be completed by the candidate and approved by the committee before the second oral examination is scheduled.

In reporting the results of the second oral examination, the committee will be limited to recommending either pass or fail. A recommendation for “fail” requires that each examiner submit within five working days a confidential written report to the Dean of Graduate Studies, copied to the Graduate Coordinator, and the Supervisor, detailing the reasons for his/her assessments. Within five working days, the Neutral Chair must also submit a written report of the examination procedures to the Dean of Graduate Studies, copied to the Graduate Coordinator. If the Dean of Graduate Studies upholds the recommendation to fail, the student will be required to withdraw from the Faculty of Graduate Studies.

13.5 Dean’s Action in Lack of Unanimity
When the Neutral Chair of a thesis oral examination does not report a unanimous recommendation, the Dean of Graduate Studies may consult with the Graduate Coordinator, the Supervisor, and the examiners before making a decision. At her/his discretion, the Dean of Graduate Studies may consult with the student as well. A decision should normally be made within seven business days of receiving all the required post-examination reports, and all persons involved informed in writing of the result of the decision.

13.6 Convocation Clearance
The names of the candidates who have successfully completed the final thesis oral examination will not be added to the convocation list until the Faculty of Graduate Studies receives two unbound copies of the thesis and a Departmental Clearance Form. Students will continue to be assessed continuing fees until cleared for convocation.

TRANSFERS

14.0 Transfers Within Program

14.1 Application for Change of Area of Specialization

A student may apply through the graduate program to the Dean for permission to transfer from one area of specialization to another while remaining within the degree program. Such application must be made prior to the candidacy examination.
15.0 Transfers to Master’s Programs

15.1 Transfer from Doctoral to Master’s Program
A transfer from a doctoral program to a Master’s program, within closely related areas of specialization, may be recommended where, in the opinion of the Graduate Coordinator and the Supervisor, such a transfer is in the best interest of the student. Such application should normally be made before the candidacy examination. Transfers may be approved if the student is unsuccessful in the candidacy oral examination on the first attempt. The Dean of Graduate Studies and the Graduate Coordinator of the Master’s program to which the student transfers must approve the transfer.

15.2 Course and Examination Requirements
Courses credited to the doctoral program may be accepted as fulfilling Master’s course requirements where applicable, in accordance with program regulations for required Master’s course work. Such a student must complete all requirements for the Master’s degree.

15.3 Time Limits on Transfers
Transfers from a doctoral to a Master’s program should normally be completed no later than the beginning of the student’s third annual registration year. All transfer students must complete the Master’s degree program within their fourth registration year.
HANDBOOK OF SUPERVISION AND EXAMINATION  (May 26, 2009)

Part IV: Policy Governing the Relationship Between Supervisor and Student  (Approved by Graduate Council May 7, 2009)

Introduction
This document addresses the nature of supervisory relationships between graduate students and their Supervisors at the University of Calgary and clarifies the mutual obligations of all parties involved in the graduate supervision process. This document applies to supervisory relationships in both thesis and, where applicable, course-based programs.

This document is divided into two parts. Part One outlines the responsibilities of the Faculty of Graduate Studies (FGS), the graduate program, the Supervisor, and the student. Part Two focuses upon the process that should be followed if conflicts arise between a student and Supervisor.

PART ONE

The Faculty of Graduate Studies
Specific responsibilities of the Faculty of Graduate Studies with regard to graduate supervision are as follows:

(a) to act as an advocate for graduate students and graduate programs within and outside the university, and to seek to establish and maintain a climate which promotes academic excellence and expeditious completion of graduate programs;
(b) to offer mechanisms for the resolution of graduate student/Supervisor disputes and other supervisory issues which cannot be settled at the program level;
(c) to advise regarding intellectual property, publication of materials, equity issues, scholarly integrity and other relevant policies and procedures at the University of Calgary;

The Graduate Program
The role of the graduate program is to create a supportive environment within which scholarly work by graduate students can prosper, to provide available resources to support graduate students, and to resolve problems in an expeditious manner. Specific responsibilities are as follows:

(a) to make available to faculty and students a graduate student handbook or collected documents that include current course information, areas of expertise of faculty members, program requirements, funding policies, teaching assistantships, appeal mechanisms, and procedures for progress and completion of Master's and doctoral programs;
(b) to make available to students relevant non-confidential information on potential Supervisors (e.g., number of current graduate students, funding, time to completion of previous students);
(c) to set up procedures that match students and Supervisors, with the matching to be completed as quickly as possible and in all cases within twelve months of initial registration; a student should not be admitted unless an appropriate Supervisor is available;
(d) to make available a mail delivery point and, wherever possible, desk space;
(e) to monitor progress of the student through ensuring that Annual Progress Reports are completed on time, and to ensure that the student and Supervisor understand that the Annual Progress Report is a critical component of documenting whether the student's performance is satisfactory;
(f) to inform FGS promptly should there be unresolved concerns about either the Supervisor's effectiveness or the student's performance;
(g) to establish clear and fair procedures for such matters as funding, teaching assistantships, and examinations;
(h) to ensure compliance with University of Calgary policies regarding ownership and utilization of data;
(i) to ensure that supervising arrangements are made when research supervisors are absent;
(j) to ensure that the graduate program is free from harassment and discrimination, and that the program's policies and procedures can accommodate diverse student needs and special circumstances;
(k) to ensure that international students and their Supervisors are made aware of current legislative requirements as defined by Citizenship and Immigration Canada (http://www.cic.gc.ca/) so that applicable student visas and employment authorizations are applied for in a timely fashion and maintained throughout the period of registration in the program;
(l) to ensure that current information is made available to eligible students in regard to deadlines and procedures for awarding graduate and postdoctoral fellowships, GAT’s, GTF’s, and other graduate funding;
(m) to encourage the interaction of graduate students with other students and faculty, and the development of a professional identity through research seminars, posting of conferences, and other means;
(n) to maintain an atmosphere conducive to creativity and productivity, and to provide mechanisms for resolving problems which may arise between graduate students and their Supervisors or members of Supervisory Committees;
(o) to provide an avenue whereby students can inform the program of areas where it might be improved.

The Supervisor
The role and responsibilities of the Supervisor are outlined in Article 2 of the Doctoral and Master’s Thesis-based Handbooks. Specific practices constituting good supervision include the following:

(a) to assist the student with the selection and planning of a suitable and manageable research topic with due consideration of the resources necessary for completion of the research project;
(b) to accommodate reasonable demands (e.g., teaching assistantships) or special circumstances or needs of the student that affect the student's progress;
(c) to be accessible to the student for consultation and discussion of the student's academic progress and research. The frequency of the meetings will vary according to the discipline and the nature and stage of the project, but normally interaction, which may be electronic, should occur at least once per month;
(d) to respond in a timely manner to written work submitted by the student with constructive suggestions for improvement. The turnaround time for comments on written work should not normally exceed three weeks;
(e) to achieve consensus and resolve differences when there is conflicting advice or when there are different expectations on the part of co-supervisors or members of the Supervisory Committee;
(f) to be familiar with the rules and procedures of the Faculty of Graduate Studies, and the graduate program, including the chronological sequence of events and deadline dates in a student’s program;
(g) to assist the student to be aware of current program requirements, deadlines, sources of funding, and general expectations of examinations;
ACADEMIC REGULATIONS - Policy Governing the Relationship Between Supervisor and Student

(h) to help ensure that the research environment is safe, healthy and free from harassment, discrimination and conflict;
(i) to encourage the student to make presentations of research results within the University and to outside scholarly or professional bodies as appropriate;
(j) to acknowledge the contributions of the student in presentations and in published material, including joint authorship, if appropriate;
(k) to discuss with the student the Intellectual Property Checklist (available at http://grad.ucalgary.ca/files/gradip_awareness_checklist.pdf) and conform to University and other policies regarding intellectual property, scholarly integrity, and other policies applicable to the research environment.

The Student

In undertaking a graduate program, graduate students make a commitment to devote the time, effort and energy necessary to engage in scholarship. Students should demonstrate initiative in their research, recognize that their Supervisors are responsible for providing guidance as well as evaluating their performance, and be receptive to suggestions and criticisms about their scholarly performance. Whether in a course-based or thesis-based program, students must comply with the rules, procedures and standards in place in the program and at the University and should be familiar with the regulations regarding academic and non-academic matters as per the University Calendars. Specific responsibilities are as follows:

(a) to gain the background knowledge and skills needed to pursue the research project successfully;
(b) to work with the Supervisor on the establishment of a realistic timetable for the completion of the various requirements of the program of study, and to adhere to the timetable and to meet deadlines;
(c) to meet with the Supervisor and Supervisory Committee when requested and to report fully and regularly on progress and on results, and to consider and respond to advice and criticisms received from the Supervisor and the other members of the Supervisory Committee. The frequency of meetings with the Supervisor will vary according to the discipline and the nature and stage of the project, but normally interaction, which may be electronic, should occur at least once per month;
(d) to work with the Supervisor to ensure that appropriate ethics approval is obtained prior to conducting research on animals or humans;
(e) to provide accurate and honest reporting of research results and to uphold ethical norms in research methodology and scholarship;
(f) to discuss with the Supervisor the Intellectual Property Checklist (available at http://grad.ucalgary.ca/files/gradip_awareness_checklist.pdf) and conform to University, and other policies regarding intellectual property, scholarly integrity, and other policies applicable to the research environment;
(g) to discuss with the Supervisor faculty and program requirements, including those related to deadlines, thesis or dissertation style, course requirements, and conflict of interest;
(h) to discuss with the Supervisor the responsible use of resources, and to assist in obtaining additional resources for the research;
(i) to bring to the attention of the Supervisor other responsibilities and the estimated time commitment (e.g., teaching assistantships) or special circumstances or needs that affect program progress;
(j) to bring to the attention of the Supervisor any matters of conflicting advice or expectations on the part of members of the Supervisory Committee;
(k) to recognize that the Supervisor and other members of the Supervisory Committee may have other teaching, research and personal obligations which may preclude immediate responses;
(l) to work with the Supervisor to meet agreed performance standards and deadlines of the funding organization when financing has been provided under a contract or grant;
(m) to acknowledge the contributions of the Supervisor and others in presentations and in published material, including joint authorship, if appropriate;
(n) to help ensure that the research environment is safe, healthy and free from harassment, discrimination and conflict;
(o) to act responsibly upon conclusion of the project by leaving a clean work space, returning borrowed materials, and providing the Supervisor with appropriate information on the use of software, data, experimental procedures so that others may continue the research.

PART TWO

Resolving Problems Between Students and Supervisors

The relationship between the student and Supervisor is central to graduate education, and is normally close and long-lasting. If the relationship between a student and a Supervisor breaks down, the program has a responsibility to mediate. This is more likely to be successful if attended to as early as possible. Since it is the responsibility of the Graduate Coordinator to arrange for the necessary consultation and mediation, the Graduate Coordinator should be consulted as soon as the conflict becomes apparent. If supervision problems cannot be resolved within the graduate program, the relevant Associate Dean and/or Dean of the Faculty of Graduate Studies must work closely with all parties to ensure that the responsibilities are met. If the best arrangements of the graduate program and the Faculty of Graduate Studies fail to meet the expectations of the student, then no more can be done within that graduate program and the student may decide that the supervisory arrangement is untenable. At such time, the option to apply to another graduate program should be explored or, if that fails, the student may choose to withdraw without prejudice.

It may be that the student is unwilling to accept the supervision provided, or wishes to switch topics from that which was originally indicated at the time of admission. The graduate program and the Faculty of Graduate Studies have no responsibility to agree to alternate supervisory arrangements if they cannot reasonably be accommodated. The graduate program should consult with the Faculty of Graduate Studies and then inform the student clearly about what supervisory arrangements will, or will not, be provided. The graduate program should also clarify whether changing the Supervisor requires approval of a new dissertation proposal. If the student disagrees, the option to withdraw or apply to another graduate program without prejudice remains open. If the student chooses to continue but refuses to accept the supervision provided, then the student is not fulfilling the academic requirement of having a Supervisor (or Supervisory Committee).

Therefore, the student may, on academic grounds, be required to withdraw. This is a serious action, and should not be taken unless the graduate program and the Faculty of Graduate Studies have explored with the student all other reasonable solutions. In some cases, there may be no academic reason for requiring a student to withdraw, but the student's actions (e.g., disruptive or abusive behavior) may lead to the breakdown of effective supervision. In such instances, the graduate program shall refer to the University policy on Non-Academic Misconduct or other University policies.

Acknowledgements

This document benefitted significantly from the University of British Columbia document entitled Guidelines for the Various Parties involved in Graduate Student Thesis Research and the University of Alberta’s FGSR Graduate Manual.
# Fees and Expenses

## Fees

All graduate students pay both general and tuition fees each year. The tuition fees listed below are effective 1 May 2009 to 30 April 2010, and are subject to change without notice.

### Tuition Fees

All students are assessed tuition fees. Tuition and general fees must be paid no later than the deadline date indicated for the annual registration month. For information on how to pay your fees, please visit our website at [www.ucalgary.ca/registrar/node/301](http://www.ucalgary.ca/registrar/node/301).

Thesis-based students: All students in the first year of a thesis-based degree (Master’s or doctoral) program are assessed program fees*. Program fees are pro-rated over four terms: one-third in Fall, one-third in Winter, one-sixth in Spring, and one-sixth in Summer.

</tr>
</tbody>
</table>

Visiting Students who take courses are assessed general fees and tuition fees on a per course basis. Visiting students who are doing research but are not taking courses are assessed general fees and continuing fees.

*Note that a student in a thesis-based program may pay program fees for one, two or three years. Refer to the Faculty of Graduate Studies Calendar or contact your department/program for the manner in which your fees will be assessed in subsequent years.

## Course-based students

Students in most course-based Master’s programs pay tuition fees on a per course basis, in the first and in subsequent years. At the time of annual registration, each student is assessed a registration deposit equivalent to the fees for a graduate half-course, whether or not the student has registered in a course. This registration deposit is required to maintain registration in the student’s program and is non-refundable. However, the fee is credited to the first course the student takes in the registration year.

*Must Opt-out in writing through the Faculty of Graduate Studies before the Fee Payment deadline of your Annual Registration.

Late Charges
Students who do not register by the fee payment deadline will be assessed a late registration fee of $60.
Students who make course changes (i.e., additions or substitutions) after the fee payment deadline will be assessed a fee of $60 for each Change of Registration form.

Please note that differential fees are assessed for MBA courses offered by the Haskayne School of Business, for undergraduate courses in the Faculty of Medicine and for undergraduate courses in the Faculty of Law. All students who take these courses are required to pay the differential fee. Students in thesis programs who take courses with differential fee assessments will be required to pay the differential fee assessment in addition to their normal program or continuing fees. Students who audit courses pay half the current course fees. For courses with a differential fee assessment, for example, MBA courses, a student who audits a course pays half the current course fee + half the current differential fee.

Program-Specific Fees
In addition to the program-specific fees listed below, courses offered off-campus or through distance delivery methods may have tuition charges that differ from the normal tuition policy. Check with the graduate program for exceptions to the normal tuition policy.

Doctor of Education (distance delivery)
Please refer to the web for current fee information: [http://www.educ.ucalgary.ca/gder/](http://www.educ.ucalgary.ca/gder/)
DEGREE REGULATIONS SUMMARY

Transfers between Course-based and Thesis-based Master’s Programs
A student transferring from a thesis-based route to a course-based route within a program will be assessed according to the tuition policy for course-based programs from the first term of registration in the course-based program.

A student who has completed five or fewer half-courses or equivalent in a course-based route will be assessed program fees for one year from the date of transfer to a thesis route within the program. Continuing fees will be assessed for subsequent years. A student who has completed six or more half-courses or equivalent in a course-based route will be assessed continuing fees from the date of transfer into a thesis-based route within the program.

Courses taken extra-to-program
A student, in a thesis-based or a course-based program, who wishes to take a course that is extra to his/her degree program, will be assessed extra fees per course in addition to the regular graduate tuition assessment.

Extra-to-program courses will not count toward the current graduate degree, but students should be aware that they will be included in all grade point average calculations on the transcript. Fees paid for extra-to-program courses will not be credited toward payment of full course fees.

Fee credit will not be given for extra-to-program courses that are subsequently used for unclassified studies or in any degree, diploma or certificate program. Registration in any course is subject to departmental approval.

Any appeals regarding fee assessment must be made to the Graduate Associate Registrar (Student Services) within six months of the fee assessment.

Fee Adjustments and Refunds
A student who withdraws from the Faculty of Graduate Studies and subsequently seeks admission into a different program at the University of Calgary will not receive credit for previously paid fees.

Students have until the fee payment deadline for the term to make course additions and deletions without penalty.

Students who make course changes after the fee payment deadline will be assessed a $60 late fee for each Change of Course Registration form processed.

After the fee payment deadline, a student may withdraw from a course up to the last day of lectures, but no refund of any portion of the tuition fees will be made. A course-based student is assessed a minimum tuition fee equivalent to a graduate half-course tuition fee at the time of his/her annual registration. If the student cancels program registration before the fee payment deadline for his/her annual registration term, the tuition fees will be refunded. If the student withdraws from program after the fee payment deadline, the minimum tuition fee will not be refunded whether or not the student has registered in a course for that term. A course-based student who withdraws from a course before the deadline for fee payment will receive a refund of the tuition fees only if he/she has already taken at least one half-course within that registration year.

Thesis-based students who withdraw from individual courses will not have any changes made to their fee assessment for the year.

Thesis-based students who withdraw from a graduate program will have tuition fees pro-rated to the end of the term in which they withdraw. If the student cancels program registration before the fee payment deadline for his/her annual registration term, the tuition fees will be refunded.

General fees are not refunded following the fee payment deadline.

Payment and Collection of Fees
Students may pay their fees by cash, cheque, money order or debit card using the following methods:
Mail a cheque or money order to the Enrolment Services (117 MacKinnie Library Block, University of Calgary, 2500 University Drive N.W., Calgary, Alberta T2N 1N4)
Through Telephone/Internet Banking Services. The University of Calgary is listed with the Canadian Imperial Bank of Commerce, Bank of Montreal, Royal Bank, Scotiabank and TDCanada Trust
In person at the U of C Service Stop (Monday to Friday, 09:30-4:30; Thursday, 10:00-4:30)

If fees are paid from some form of student assistance, it is the responsibility of the student to advise the Fee Advisor and to produce a letter from the source of the assistance as confirmation. This must be done before the fee payment deadline to avoid penalty.

If fees are to be paid from government student loans, application must be made through the University of Calgary Student Awards and Financial Aid Office to ensure automatic deferral of payment of fees. If assistance is being provided from a source other than government loans, a letter from the source concerned must be presented to the U of C Service Stop prior to the prescribed fee deadline date.

Students receiving disbursement of their student loan in one installment will have both Fall and Winter Session fees deducted from the single installment plus any other outstanding debts owing to the University (i.e., room and board, student emergency loans, fines, etc.). Students receiving disbursement of their loan in two installments will have Fall Session fees deducted from the first installment and Winter Session fees deducted from either or both of the installments.

If financial assistance is refused, the fees must be paid within ten days. The letter of refusal from Alberta Learning Student Finance must be produced to avoid the late payment penalty. It should be noted that students will not have their registration cancelled if financial assistance is refused and such students will be liable for tuition and general fees owing for the session.

General fees must be paid no later than the deadline indicated in the Academic Schedule for the student’s annual registration month.

Program and continuing fees are collected as follows:

<table>
<thead>
<tr>
<th>Semester</th>
<th>Program Fees</th>
<th>Continuing Fees</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall 4/12</td>
<td>2/12</td>
<td></td>
</tr>
<tr>
<td>Spring 2/12</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Winter 4/12</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Course-based students’ fees must be paid in full by the deadline in the Academic Schedule for the annual registration semester and for each semester in which courses are being taken.

The last date for the payment for late registrants is 10 days after assessment.

A $60 penalty and an administration fee of $10 may be charged on any payments made or post-marked after the specified deadline. If the fees are not paid by the date specified in the Academic Schedule, registration may be subject to cancellation. Future registration will not be accepted until the account has been settled and the reinstatement fee has been paid. Arrangements can be made with the Fee Office to make fee payments by installments per term.
Delinquent Student Accounts
This policy applies to any student enrolled in a graduate program at the University of Calgary. A student who is having difficulty meeting his/her financial obligations is encouraged to consult with Student Awards and Financial Aid, or the Counselling and Student Development Centre.

Any student with an overdue debt to any unit of the University of Calgary, including any administrative department and the Students' Union or Graduate Students' Association, will not be allowed to register, graduate or receive transcripts of grades, and may be denied access to other University services until the outstanding account is settled in full, or an acceptable arrangement has been made.

Degree Regulations Summary

No more than one-half of a regular graduate student's required program of course work can be at the 500-level. Programs requiring a larger ratio of undergraduate courses must receive approval of the Dean of Graduate Studies at the time of admission. Some programs may not allow any courses at the undergraduate level. For further information, see individual program descriptions.

The various deadline dates pertaining to Oral Examinations are set out in the Academic Schedule and in the Handbook of Supervision and Examination included in this calendar and posted at http://www.grad.ucalgary.ca/policies/handbooks.

Oral candidacy examinations are mandatory in all doctoral programs.

All degree programs have a final oral examination with the exception of the course-based Master of Business Administration program, and, in some cases, the Master of Education program.

Program Details

Combined Programs
A combined degree program enables highly motivated students to complete two complete degree programs simultaneously. A combined program may include a professional undergraduate degree, such as the Bachelor of Laws (LLB) or the Doctor of Medicine (MD), and a graduate degree, such as a Master of Business Administration (MBA) or Master of Science (MSc), or two graduate degrees, such as the Master of Social Work (MWSW) and the Master of Business Administration (MBA).

Interested applicants must apply and be accepted to each individual program separately, then apply to the combined program. Acceptance into both individual programs does not automatically mean acceptance into the combined program. Students must graduate in both degrees simultaneously.

Leaders in Medicine
The Leaders in Medicine program at the University of Calgary offers students the opportunity to earn simultaneously both a Doctor of Medicine (MD) degree and a graduate degree (PhD, MSc, MA, MBA, etc.). The objective of Leaders in Medicine is to train clinicians for a diverse range of careers ranging from academic medical research to the design, management and implementation of health care delivery systems. Individuals trained in Leaders in Medicine can expect to develop a unique academic approach to their clinical experiences as well as bring a clinical perspective to their research.

Students in Leaders in Medicine will be jointly enrolled in the MD program and in any of the graduate programs offered by the Faculty of Graduate Studies. Although the most common graduate programs participating in Leaders in Medicine are the seven offered by the Faculty of Medicine (Biochemistry and Molecular Biology; Cardiovascular/Respiratory Sciences; Community Health Sciences; Gastrointestinal Sciences; Medical Science; Microbiology and Infectious Diseases; Neuroscience), students from other programs, including Philosophy and Engineering, have taken part.

Students wishing to apply to Leaders in Medicine should have an excellent academic record and a strong motivation towards a career in academic medicine. Previous research experience is highly desirable. Applicants must apply only separately to the Faculty of Medicine for the MD program and to the selected graduate program in the Faculty of Graduate Studies, and be recommended for admission by each program. Prospective applicants must also complete a supplemental application for the Leaders in Medicine program: forms may be obtained from the Graduate Sciences Education Office (Faculty of Medicine). Students may also apply for the combined degree program during the first two years of either the MD or the graduate program. Expected completion time is four to five years for the MD/Masters programs and six to seven years for MD/PhD programs. Maximum completion time is six years for the MD/Masters program and eight years for the MD/PhD program.

For more information, contact:
Leaders in Medicine, Health Sciences Centre, Room G329
Telephone: (403) 210-9572 Fax: (403) 210-8109
E-mail: mdgrad@ucalgary.ca or visit the website http://www.ucalgary.ca/education/gse/jointMDPhD.htm

Master of Social Work/Master of Business Administration (MSW/MBA)
The Master of Social Work/Master of Business Administration (MSW/MBA) program is designed to prepare students for competent and visionary management of human service organizations. This program is available only to full-time, course-based Master’s students in the Leadership in the Human Services specialization in the Faculty of Social Work. The combined program shortens the time for completion of the two degrees from three academic years to two 12-month years. See the program descriptions for the Faculty of Social Work and the Haskayne School of Business for further information.

Master of Biomedical Technology/Master of Business Administration (MBT/MBA)
The Master of Biomedical Technology/Master of Business Administration (MBT/MBA) program provides students with managerial skills as well as essential scientific skills and competencies for successful careers in biotechnology business. The combined degree program is targeted at graduate students who are interested in a dual skill set to prepare them for biotechnology jobs in industry, research and government at all levels from the bench to the boardroom. The combined degree allows students to obtain both degrees in a shorter time frame than would be possible taking each degree separately. See the program descriptions for the Master of Biomedical Technology program and the Haskayne School of Business for further information.

Bachelor of Laws/Master of Business Administration (LLB/MBA)
The Bachelor of Laws/Master of Business Administration (LLB/MBA) program enables students to complete an undergraduate degree in law while studying for a graduate degree in business. This program is open only to students enrolled in the Haskayne MBA program on a full-time basis. See the program descriptions for the Faculty of Law and the Haskayne School of Business for further information.

Master of Science/Master of Business Administration (MSc/MBA)
The combined MSc/MBA program offers students a course-based Master's degree that provides a business background with a science degree in which a project with commercial viability is pursued as a thesis project. The program is focused on the education of Life Sciences, Information and Communication Technology (ICT), Energy Sector, Nanotechnology, and other industry-oriented entrepreneurial students in the area of applied research and business development. The program is available to students in the faculties of Kinesiology, Medicine, Science, and the Schulich School of Engineering.

Doctor of Philosophy/Master of Business Administration (PhD/MBA)
The combined PhD/MBA program provides students with a focused, multidisciplinary program that has a solid foundation for their faculty discipline and provides them with the skills and knowledge to bridge the gap between scientific/engineering methods and procedures and the business application of that knowledge. The program is available to students in the faculties of Kinesiology, Medicine, Science, and the Schulich School of Engineering.

INTERDISCIPLINARITY AT UNIVERSITY OF CALGARY

Interdisciplinary Specialization
Most graduate programs include some interdisciplinary work. The following interdisciplinary specializations have been formalized by the programs involved to facilitate the study and research capability:

- Biological Anthropology (Anthropology, Archaeology and Medical Science)
- Clinical Research (Kinesiology, Medicine, Nursing, Social Work)
- Energy and Environmental Systems (Engineering, Environmental Design, Management, Law, Sciences, Social Sciences)
- Engineering, Energy, and the Environment (Engineering, Centre for Environmental Engineering Research and Education)
- Environmental Engineering (Engineering, Centre for Environmental Engineering Research and Education)
- Israel Studies (History, Political Science, English, Religious Studies and Centre for Military and Strategic Studies)
- Reservoir Characterization (Chemical and Petroleum Engineering and Geology and Geophysics)
- Performance Studies (Fine Arts, Humanities, Kinesiology)

Please see the listings in the Programs & Course Descriptions and the Interdisciplinary Specializations sections of this Calendar for more information on programs and specializations in the Faculty of Graduate Studies.
## Courses of Instruction

This section contains the descriptions of courses offered at the University of Calgary. The courses are arranged in alphabetical order by course title and not by abbreviation. In order to better understand the notations used throughout this section, an illustrated example of a course description is provided.

All courses listed are not necessarily offered every year and students should consult the Schedule of Classes for an official listing of those courses that will be offered in a given session.

Since this Calendar is published a considerable time before the opening of the academic year, the University reserves the right to make whatever changes circumstances may require including the cancellation of a particular course.

Note: University of Calgary Undergraduate students are permitted to register in graduate level courses (600-level) only with permission of both their Faculty and the Department offering the course. Undergraduate students are not normally permitted to take courses numbered 700-level or above.

### Medical Science 609  H(3-2T)  (Biochemistry 609)

#### Gene Expression

The flow of genetic information from DNA to final protein product. The subject will be covered in two courses offered in alternating years: gene structure and regulation of transcription, including gene structure and organization, chromatin structure, regulation of transcription and post-translational processing; and the activity of genes during development including stored messenger ribonucleoprotein particles and translational control in gametes, the switch from maternal to zygote genome control of development in early embryos and the molecular basis of morphogenesis and differentiation.

609.01.  Gene Structure and Regulation of Transcription  
609.02.  Genes and Development

Prerequisite:  Medical Science 537 (Biochemistry 537) or equivalent.

Note: Credit for both Medical Science 609.02 and 751.14 will not be allowed.

GRADUATE DEGREE PROGRAMS & COURSES

ANTHROPOLOGY  ANTH

Contact Info
Location: Social Sciences Building, Room 854
Faculty number: (403) 220-6617
Fax: (403) 284-5467
E-mail address: bvgd@ucalgary.ca
Web page URL: http://anth.ucalgary.ca

1. Degrees and Specializations Offered
Doctor of Philosophy (PhD)
Master of Arts (MA), thesis-based

Students in the Departments of Anthropology and Archaeology and the Faculty of Medicine may choose an interdisciplinary specialization in Biological Anthropology. For further information on the Biological Anthropology (Interdisciplinary) specialization, see the separate listing in this Calendar.

2. Admission Requirements
In addition to Faculty requirements, the Department requires:

Master of Arts
a) A minimum grade point average of 3.30 or higher on a four-point scale
b) An example of the applicant's written work: a term paper, research paper or other writing which the applicant considers representative of his or her best work
c) A concise statement outlining the applicant's academic interests and reasons for wishing to pursue graduate work in this Department. The thesis research area should be clearly identified.
d) Completion of Departmental Information form

Doctor of Philosophy
A minimum grade point average of 3.40 or higher on a four-point scale

3. Application Deadline
The deadline for the submission of complete applications is 1 February for September admission.

4. Advanced Credit
The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to the required level for admission.

5. Program/Course Requirements
In addition to the Faculty requirements, the Department requires:

Master of Arts
Candidates for the MA degree are normally required to complete a minimum of two full course equivalents in Anthropology at the 600-level. At the discretion of the Graduate Studies Committee, students with deficient background may be required to take a total of two and one-half course equivalents of course work in Anthropology. The following courses are required of all Master's students: Anthropology 603, 605, 611 or 613, Archaeology 611 or 613, and Geography 619.

Doctor of Philosophy
a) A specialization of either primatology, or social and cultural anthropology
b) Anthropology 701, a reading course in the student’s substantive area. Beyond that, the supervisory committee will individually tailor each student’s course requirements to the student’s particular needs.

9. Supervisory Assignments
A supervisor is assigned to each student upon initial registration. The defence is open to interested students. The Faculty of Medicine may choose to include students in primatology who are approved by the supervisory committee.

10. Required Examinations
The doctoral candidacy examination has a written and an oral component, and examines areas of knowledge determined by the supervisory committee in consultation with the student.

Questions on the research proposal will not be included in the oral candidacy examination.

Final thesis oral examinations are open.

11. Research Proposal Requirements
Students are required to submit and successfully defend a research proposal fourteen months after initial registration. The defence is open to interested faculty members and graduate students of the Anthropology Department.

12. Special Registration Information
None

13. Financial Assistance
Financial assistance in the form of research and teaching assistantships is available to qualified students. Information on awards can be obtained from the Department office or in the Awards and Financial Assistance section of this Calendar.

All students are strongly encouraged to seek external financial assistance for the program, as the Department of Anthropology cannot guarantee the availability of financial assistance.

Students applying for the Open Scholarship Competition must submit their applications to the Department by January 25.

14. Other Information
A complete description of the rules and regulations, and the facilities available to Anthropology graduate students, is available on line at: http://anth.ucalgary.ca/graduate.

15. Faculty Members/Research Interests
Faculty members and their research interests can be found at http://anth.ucalgary.ca/people.

Graduate Courses

Anthropology 501 H(3-0)
Conference Course in Anthropology
Arranged for various topics of anthropology on the basis of special interest and need.
Prerequisite: Anthropology 203 or consent of the Department.
MAY BE REPEATED FOR CREDIT

Anthropology 505 H(3-0)
Conference Course in Primatology
Arranged for various topics of primatology on the basis of special interests and need.
Prerequisites: Anthropology 311 and one additional senior primatology course and consent of the Department.
MAY BE REPEATED FOR CREDIT

Anthropology 523 H(3-0)
Archaeology 523 [Geography 523]
(Anthropology 523)
(formerly Anthropology/Archaeology/Geography 509)

Human Ecological Systems
The development of human ecology, its current directions and application of analytical techniques as they apply to anthropology, archaeology and geography.
Prerequisite: Consent of the Department.
Note: Not open to students with credit in Anthropology 609, Archaeology 609, and Geography 609.

Anthropology 535 H(3-0)
History and Theory in Primatology and Physical Anthropology
Historical and theoretical surveys of ideas about the biological bases of human and non-human primate social behaviour. Impacts of the theoretical models of the modern synthesis, ethology, behavioural ecology, socio-ecology, and sociobiology or the study of human and non-human primates.
Prerequisites: Anthropology 311 plus one of the following: Anthropology 413, 435 or 451.

Anthropology 541 H(3-0)
Field Study in Social and Cultural Anthropology
Research projects carried out off campus, under the supervision of a member of academic staff, and resulting in a graded project report.
Prerequisite: Consent of the Department.

Anthropology 552 F(3-3)
Field Studies in Primatology
Intensive training and practice in field methods of observational primate behaviour or behavioural ecology.
Prerequisites: Anthropology 351 and consent of the Department.
Corequisite: Anthropology 553 or consent of the Department.
Note: Normally offered during Spring Session.
MAY BE REPEATED FOR CREDIT

47
Anthropology 553  H(3-3)

**Primate Behavioural Research Design**
Design of a research project, including the identification and operationalization of a research question and the collection and analysis of data.
**Prerequisite:** Anthropology 552 and consent of the Department.
**Note:** Normally offered during Spring Session. MAY BE REPEATED FOR CREDIT

Anthropology 567  H(3-1T)

*(Communications Studies 567)*

**Anthropology 571  H(3-0)**

**Honours Seminar in Primatology**
Current theoretical and methodological issues will be explored in a discussion based seminar format.
**Prerequisite:** For students enrolled in the BSc Honours program.

Anthropology 573  H(3-0)

**Honours Seminar in Social and Cultural Anthropology**
Current theoretical and methodological issues will be explored in a discussion based seminar format, with the possibility of development of a research project.
**Prerequisite:** For students enrolled in the BA Honours program.

Anthropology 589  H(3-0)

*(Archaeology 589)*

**Nutritional Anthropology**
The study of human dietary practices from biological and cultural perspectives. Subjects covered include the development of nutritional anthropology, principles of nutrition, principles of ecology, diet from an evolutionary, comparative and historic perspective, the impact of undernutrition on human physiology, and behaviour and methods in nutritional anthropology.
**Prerequisite:** Anthropology 201 or Archaeology 203 or Archaeology 305, and consent of the Department.

Graduate Courses
Only where appropriate to a student’s program may graduate credit be received for courses numbered 500-599.

Anthropology 601  H(3-0)

**Conference Course in Anthropology**
A specialized area of Anthropology selected on the basis of particular interest and need.
**Prerequisite:** Consent of the Department.
MAY BE REPEATED FOR CREDIT

Anthropology 603  H(3S-0)

**Thesis Development**
A reading and conference course in the student’s substantive area conducted jointly by at least two faculty members.
**Prerequisite:** Consent of the Department.
MAY BE REPEATED FOR CREDIT

Anthropology 605  H(3-0)

**Professional Skills for Anthropologists**
Training and practice in research/teaching skills: grantsmanship, conference and classroom presentations, academic publishing, job interviews.
**Prerequisite:** Consent of the Department.
**Note:** Not open to students with credit in Anthropology 601.90 or the equivalent.

Anthropology 611  H(3-0)

**Methods in Anthropological Research**
A variety of topics relevant to research and the logic of inquiry in Anthropology.
**Prerequisite:** Consent of the Department.

Anthropology 613  H(3-0)

**Current Issues in Methodology in Primatology**
A variety of topics relating to aspects of data collection and data analysis in primatology, with a focus on ecological and behavioural data.
**Prerequisite:** Consent of the Department.

Anthropology 615  H(3-0)

**Anthropological Theory**
Prerequisite: Consent of the Department.

Anthropology 631  H(3-0)

**Anthropological Theory**
Prerequisite: Consent of the Department.

Anthropology 635  H(3-0)

**Primatological Theory**
Seminar dealing with the theoretical material of primatological and biobehavioural perspectives in Anthropology.
**Prerequisite:** Consent of the Department.

Anthropology 641  H(3-0)

**Graduate Seminar in Civil-Military Relations**
Comparative analysis of relations between civil society and military institutions. While most theories of civil-military relations take the military and civilian sectors as a given, this seminar will adopt a critical approach to analyzing how civil and military institutions mutually constitute each other as distinct forms of society.
**Prerequisite:** Consent of the Department.

Anthropology 659  H(3-3)

**Primatology**
Specialized topics and laboratory training in this field will vary from year to year and may include: behavioural ecology, biomechanics, evolution, biosociality, and field methodology.
**Prerequisite:** Consent of the Department.

Anthropology 701  H(3-0)

**Independent Studies**
**Prerequisite:** Consent of the Department.
MAY BE REPEATED FOR CREDIT

**GRADUATE DEGREE PROGRAMS & COURSES**

**APPLIED PSYCHOLOGY  APSY**

**Contact Info**
Location: Education Tower, Room 302
Faculty number: (403) 220-3985
Fax: (403) 282-9244
E-mail address: apsygrad@ucalgary.ca
Web page URL: http://www.educ.ucalgary.ca/apsy/

1. **Degrees and Specializations Offered**
   - Doctor of Philosophy (PhD)
   - Master of Science (MSc), thesis-based
   - Master of Education (MED), course-based
   - Master of Counselling (MC), course-based

Programs of study:
- School and Applied Child Psychology
- Counselling Psychology
- Inclusive/Special Education – Please contact the Division of Applied Psychology for further information.

2. **Admission Requirements**
   In addition to Faculty requirements, Division requirements include:
   - **Master of Education and Master of Science counselling psychology**

   - ** ordinarily a minimum of three full-course equivalents in applied psychology and/or psychology. This must include:**
     - Two undergraduate statistics courses (Note: For those who completed a psychology degree at the University of Calgary, PSYC 312 acts as an equivalent.)
     - APSY 419 (Communication Skills in Guidance and Counselling) or its equivalent.
     - A senior undergraduate psychology or applied psychology course in each of learning theory, developmental psychology, and personality theory
     - A résumé and a concise rationale for the application (500 words or less)
     - Two letters of reference.

Information on the criteria used for admission decisions can be obtained from the Division website in the document Counselling Psychology Information Booklet and from the Division office.

Note: Although the following is not an admission requirement into the Master’s programs, the College of Alberta Psychologists (i.e., the governing body that licenses psychologists in Alberta) requires that individuals have completed a senior undergraduate or graduate half-course in biological bases of behaviour before licensure as a psychologist. Furthermore, for those planning to eventually seek admission into a CPA accredited doctoral program, several additional undergraduate or graduate level prerequisite courses need to be completed. Please see section on Doctor of Philosophy in Counselling Psychology for additional information.

**School and Applied Child Psychology**
The Master’s programs in School and Applied Child Psychology have been developed in alignment with accreditation and training standards for programs of Psychology. They adhere to the scientist-practitioner model, which emphasizes the interaction of research, theory, and practice. The goal is to develop researchers and professionals who use research to critically inform practice and conduct applied and theoretical research relevant to the practice of School and Applied Child Psychology. Students are expected to gain broad knowledge in the areas
encompassed by school and applied child psychology and develop a firm foundation in the philosophy of science and scientific methodology. Students are taught to critically evaluate and apply research through their substantive courses.

The Master of Science is an on-campus, thesis-based program while the Master of Education is a course-based off-campus program. Detailed information on these programs can be obtained from the Division website.

In addition to Faculty requirements, Divisional entry requirements for these programs include:
- Honours degree in Psychology (or equivalent), with a grade point average of 3.0 (equivalent to a B or 70% in many universities) over the courses taken during the last two years of study
- A typed résumé and statement of research and professional interests including the specification of a prospective research supervisor from among current faculty
- Two letters of reference
- For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 550 (written test) or 237 (computer-based test).
- Prior to admission, the most promising applicants may be interviewed to evaluate their understanding of and motivation for entry into the field of school and applied child psychology.

Inclusive/Special Education
These programs are currently under review. Please contact the Division for further information.

Master of Counselling
The Master of Counselling Program normally requires at least three half-courses in psychology or educational psychology (including one course each in human development and learning). In addition, applicants are required to have a half-course in counselling skills.

As part of the application process, students are required to submit a résumé and a concise rationale for the application. Related volunteer work or paid employment is an asset.

Students who plan to apply for registration as psychologists after completing the program should bear in mind that additional undergraduate and graduate courses in applied psychology and/or psychology may be required. Further information on registering requirements can be obtained from the College of Alberta Psychologists’ website.

Doctor of Philosophy
Counselling Psychology
- A completed Master’s degree in Counselling Psychology or equivalent from an approved university, with a minimum grade point average of 3.5 in the Master’s program. If coursework from an applicant’s Master’s program is not equivalent to courses from the Master of Science in Counselling Psychology at the University of Calgary, the student will be required to take additional courses within the doctoral program to ensure equivalent training.
- A résumé and a concise rationale (500 words or less) for the application
- Two senior undergraduate or one graduate half-course in a) biological bases of behaviour, (b) cognitive-affective bases of behaviour, (c) social bases of behaviour, and (d) individual behaviour.

GRADUATE DEGREE PROGRAMS & COURSES

- One senior undergraduate or one graduate half-course in the historical and scientific foundations of general psychology
- If all of the prerequisite courses for admission to the PhD program in Counselling Psychology have not been completed at the time of application, students who have up to two full-course equivalents in deficiencies may still be admitted, but the prerequisite courses will need to be completed before the doctoral candidacy examination
- A typed résumé and a concise rationale (500 words or less) for the application
- Two letters of reference

In keeping with the seamless model for doctoral studies, potential doctoral students who have completed an undergraduate Honours degree in Psychology may be admitted initially to the Master of Science program in Counselling Psychology. Of these students, those demonstrating outstanding performance in the Master of Science program can apply for transfer to the Doctor of Philosophy program at the end of the first year. Information on the criteria used for admission decisions and on transfer from the Master of Science to the doctoral program can be obtained from the Division website in the document Counselling Psychology Information Booklet and from the Division office.

Note: The Division of Applied Psychology will be applying for accreditation of its doctoral program in Counselling Psychology by the Canadian Psychological Association (CPA) within the next few years.

School and Applied Child Psychology
Specialization
In keeping with the seamless model of doctoral studies, Master of Science students who have a minimum grade point average of 3.5 in their first year of studies can apply to transfer to the doctoral program at the end of their first year. All of the requirements for transfer must be completed:
- successful completion of all first year graduate courses
- approval of a PhD Research Program Proposal by the student’s PhD supervisory committee.
- Detailed information regarding transfer to the doctoral program is available from the Division.

A limited number of outstanding applicants holding equivalent Bachelor’s and Master’s degrees from elsewhere may be considered; however, if the course content of their Master’s program is not equivalent to the Master of Science at the University of Calgary in School and Applied Child Psychology, students will be required to take additional courses within their doctoral program to ensure equivalent training. These additional courses (a maximum of two full courses) must be completed in the first year of study.

Applicants must also have a research advisor selected from among professors in the Division of Applied Psychology upon entry to the program.

3. Application Deadline
On-line applications to the Master of Education, Master of Science, Master of Counselling, and Doctor of Philosophy programs may be accessed through the following link:
https://www.gradapplication.ucalgary.ca/account/instructions.asp.

The deadline for the submission of complete applications is:
15 December for September admission

4. Advanced Credit
The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring grade point average to a required level for admission.

5. Program/Course Requirements
In addition to Faculty of Graduate Studies requirements, the Division requires:

Master of Science - Counselling Psychology
Students will be required to complete:
- eight full-course 600 level equivalents including 500 hours of practicum experience (equivalent to 1.5 full courses)
- a thesis (equivalent to one full course)
- a non-credit research seminar

Course content addresses theory, research, and practice in the domains identified by the CCA Standards for Accreditation of Counsellor Education Programs. Detailed information on core course requirements can be obtained from the Division website. First year students are assigned an interim advisor who will assist with course selection.

Master of Education – Counselling Psychology
Students will be required to complete a course-based program which includes:
- eight full-course 600 level equivalents including 500 hours of practicum experience (equivalent to 1.5 full courses)
- written and oral comprehensive examinations upon the completion of coursework.

Course content addresses theory, research, and practice in the domains identified by the CCA Standards for Accreditation of Counsellor Education Programs. Detailed information on core course requirements can be obtained from the Division website in the document Counselling Psychology Information Booklet and from the Division office. First year students are assigned an interim advisor who will assist with course selection.

Master of Science – School and Applied Child Psychology
Students will be required to complete:
- a) 15 half-courses
- b) a thesis (equivalent to three half-courses)
- c) a 1,200 hour internship (equivalent to two half-courses)
- d) A non-credit research seminar is also required.
- e) Course content addresses theory, research, and practice in the domains identified by NASP Standards for Credentialing of School Psychologists.

Master of Education – School and Applied Child Psychology
The Master of Education will be offered through a distributed learning mode of delivery. Students will be required to complete a course-based program which includes:
- a) 18 half-courses
- b) A comprehensive examination
- c) A 1,200 hour internship (equivalent to 2 half-courses).

Note: Detailed information on core course requirements for each specialization can be obtained from the Division website.
GRADUATE DEGREE PROGRAMS & COURSES

Master of Counselling
The Master of Counselling Program will be offered through a distributed learning mode of delivery. It consists of twelve half-courses plus the completion of a final project. Core courses, required by all students, are listed below. More complete course descriptions, along with learning objectives, and evaluation procedures, are provided on the Division of Applied Psychology website. http://educ.ucalgary.ca/apsy/mc-online

- Campus Alberta Applied Psychology 601: Theories of Counselling and Client Change
- Campus Alberta Applied Psychology 603: Professional Ethics
- Campus Alberta Applied Psychology 605: Developing A Working Alliance
- Campus Alberta Applied Psychology 607: Equity and Diversity Issues In Counselling
- Campus Alberta Applied Psychology 611: General Counselling Practicum
- Campus Alberta Applied Psychology 613: Assessment
- Campus Alberta Applied Psychology 615: Intervening to Facilitate Client Change
- Campus Alberta Applied Psychology 617: Methods of Inquiry
- Campus Alberta Applied Psychology 619: Specialized Practicum

Doctor of Philosophy – Counselling Psychology
Students who have completed the pre-requisites in the areas of (a) biological bases of behaviour, (b) cognitive-affective bases of behaviour, (c) social bases of behaviour, (d) individual behaviour, (e) historical and scientific foundations of general psychology, and (f) the courses required of students on the Master of Science program in Counselling Psychology, will be required to complete:

- a) two doctoral-level full-course equivalents
- b) a non-credit research seminar
- c) a candidacy examination
- d) a dissertation
- e) a twelve-month full-time internship.

Students who are deficient in prerequisites will be required to take additional courses on their programs once admitted. A student may be deficient in up to two full-course equivalents, which must be completed before the PhD candidacy examination.

Doctoral students transferring from the Master of Science program in Counselling Psychology will be required to complete all remaining courses on the Master of Science program in addition to:

- a) two doctoral-level full-course equivalents
- b) a senior undergraduate full course or a graduate half-course in the biological bases of behaviour (if not completed previously)
- c) a senior undergraduate or graduate half-course in the historical and scientific foundations of psychology (if not completed previously)
- d) a non-credit research seminar
- e) a candidacy examination
- f) a dissertation
- g) a twelve-month full-time internship

Detailed information on core course requirements can be obtained from the Division website.

Note: First year students are assigned an interim advisor who will assist with course selection.

Doctor of Philosophy – School and Applied Child Psychology
Master of Science students admitted to the Doctoral program will be required to complete:

- a) all remaining courses (except the thesis and internship) in the Master of Science program;
- b) one doctoral-level full-course equivalent
- c) twelve-month full-time internship
- d) a candidacy examination
- e) a dissertation

Students entering the program following completion of a Master’s degree outside the program may be required to take additional Master’s courses to ensure equivalency to the Master of Science program in School and Applied Child Psychology at the University of Calgary. A student may be deficient in no more than two full courses, which must be completed in the first year of Doctor of Philosophy studies.

6. Additional Requirements
Applied experience is an asset. Applicants to the Master of Counselling and Master of Education in School and Applied Child Psychology should have reasonable computer literacy because portions of the programs are delivered on-line.

7. Credit for Undergraduate Courses
The Division does not normally accept undergraduate courses for credit toward graduate degrees.

8. Time Limit
Counselling Psychology
The Master of Science requires a minimum of two consecutive four-month terms of full-time study and research. Students may complete the degree in a minimum of two years of full-time study. Maximum time allowed for completion of the Master of Science degree is four years. The Master of Education can be completed in two years of full-time study but students may take up to six years to complete the degree on a part-time basis.

The Doctor of Philosophy degree may be completed in three years. Students transferring from the Master of Science into the doctoral program can anticipate five years of full-time study from their initial entry into the Master of Science program to completion of their doctoral program. Maximum completion time allowed for the Doctor of Philosophy degree is six years. Normally, Master of Counselling students will complete their program in three years.

School and Applied Child Psychology
The Master of Science requires three years of full-time study to complete. Maximum completion time is four years. The Master of Education can also be completed in three years of full-time study but students may take up to six years to complete the degree on a part-time basis.

Students transferring from the Master of Science into the doctoral program can anticipate five years of full-time study from their initial entry into the Master of Science program to completion of their doctoral program. Maximum completion time is six years for the Doctor of Philosophy degree.

9. Supervisory Assignments
Counselling Psychology
An interim advisor is assigned to each first-year student. Students are responsible for initiating discussions with potential permanent supervisors and are expected to have finalized supervisory arrangements by their second annual registration.

School and Applied Child Psychology
A mentorship model, which emphasizes the development of knowledge and skills through professional relationships, is utilized. Students will be initially supported in the program by faculty members who share their research interest and agree to function as a program advisor. Students have the opportunity to become involved in their advisor’s research through participating in research groups, graduate assistantships, or externally funded assistantships. It is anticipated that this involvement will lead to development of the dissertation research.

10. Required Examinations
Comprehensive examinations for the Master of Education program and candidacy examinations for the doctoral program both have written and oral components. Information on examinations is provided on the Division website.

11. Research Proposal Requirements
Information on research proposals is available through the interim advisor/supervisor. Ethics approval is needed for all research projects involving the use of human subjects before data collection begins. To initiate the ethics review, the researcher must submit a copy of the application (available on the Research Services website) to the Joint Faculties Research Ethics Board, C/o Associate Dean (Research), Faculty of Education.

12. Special Registration Information
None.

13. Financial Assistance
Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar.

Students applying for scholarships for September admission must submit their scholarship applications to the Division by the preceding 1 February.

The Division also provides assistance for students through teaching assistantships, graduate research scholarships and other Divisional scholarships. Application forms and deadline information for these awards can be obtained from the Division.

14. Other Information
For further information or for copies of the Division brochure, write to the Division of Applied Psychology, University of Calgary, 2500 University Drive NW, Calgary, Alberta, Canada T2N 1N4 or e-mail apsygrad@ucalgary.ca.

Further information on the Master of Counselling may be obtained from the Division website http://educ.ucalgary.ca/apsy/mc-online

15. Faculty Members/Research Interests
Research interests of faculty members and adjunct faculty can be found at: http://www.educ.ucalgary.ca/research/academic/hompages.html and from the Division office.
Graduate Courses

Note: Graduate courses within the Division of Applied Psychology can be taken only with consent of the Division of Applied Psychology and in specific cases additional requirements may be necessary (see below).

Applied Psychology 603 H(3-0)

Ethics in Applied Psychology
Ethical and legal issues in Applied Psychology. Professional issues in practice settings.
Prerequisite: Consent of the Division.

Applied Psychology 605 H(3-2)

Research Design and Statistics in Applied Psychology
Research design and statistics, including methods for research in applied psychology and related laboratory instruction.

Applied Psychology 607 H(3-2)

Research in Applied Psychology - Multivariate Analysis
Research design and statistics in applied psychology, with special reference to large sample techniques.
Prerequisites: Applied Psychology 301 and 303 or equivalents.

Applied Psychology 611 H(3-2)

Qualitative Research Methodologies
Advanced study of qualitative research methods for use in applied psychology and education.
Prerequisites: Applied Psychology 301 and 303 or consent of the Division.

Applied Psychology 615 H(3-0)
(formerly Applied Psychology 693.24)

Theoretical and Clinical Foundations of Assessment
In-depth review of theoretical and clinical foundations of psycho-educational assessment. Focus is on processes of assessment, properties of tests, use and interpretation of tests and clinical diagnosis.

Applied Psychology 617 H(3-3)

Psychological Assessment of Adults
The purpose of this course is to provide students with the knowledge and skills necessary to select, administer, score and interpret formal psychological tests and other assessment instruments commonly used within counselling contexts.
Prerequisite: Applied Psychology 615

Applied Psychology 619 H(3-0)

Counselling Girls and Women
Sex role development; stereotyping and social roles; counselling theories; counselling approaches.

Applied Psychology 621 H(2-2)

Creating a Working Alliance
Theory and practice in developing skills contributing to working alliance and problem clarification. Ethical, legal and professional issues are the context for the application of generic counselling skills in laboratory experiences.
Prerequisite: Applied Psychology 419 or consent of the Division.
Prerequisite or Corequisite: Applied Psychology 623.
Note: Not open to unclassified students.

Applied Psychology 623 H(3-0)

Theory in Counselling
History and systems involved in counselling psychology and client change.
Prerequisite: Consent of the Division.

Applied Psychology 625 H(3-0)

Cultural Influences on Professional Practice
An examination of cultural influences on theory and practice in applied psychology.
Prerequisite: Consent of the Division.

Applied Psychology 627 H(3-1)

Group Processes in Applied Psychology
Theory of group practice in applied psychology, with experiential laboratory.

Applied Psychology 629 H(3S-2)

Theory and Applications: Selected Topics
Prerequisite: Consent of the Division. MAY BE REPEATED FOR CREDIT

Applied Psychology 631 H(3-0)

Theories of Career Development
Study of career development theory and related research; implications for the applied field.

Applied Psychology 633 H(2-2)

Career Counselling
Laboratory and field experiences in career counselling.
Prerequisite: Applied Psychology 631.

Applied Psychology 635 H(3-0)
(formerly Applied Psychology 693.54)

Advanced History, Theory, and Practice in Psychology
Course examines the history of psychological concepts in Western culture, major theoretical systems and research approaches, and the foundational assumptions of contemporary perspectives in psychology.
Prerequisite: Open to students enrolled in the School and Applied Child Psychology program or permission of the Division.
Note: Not open to students with credit in APSY 693.54.

Applied Psychology 637 H(3-0)

Relationship Counselling
Review of theory and systems in marriage and family counselling. Structured observation activities.
Prerequisite or Corequisite: Applied Psychology 640 or consent of the Division.

Applied Psychology 639 H(2-2)

Counselling Interventions
Theory and practice in planning and implementing client change interventions; the application of counselling interventions in laboratory experiences.
Prerequisites: Applied Psychology 621 and 623 or consent of the Division.
NOT INCLUDED IN GPA

Applied Psychology 640 H(3-2)

Counselling Practices
Supervised counselling experience and related seminars.
Prerequisites: Applied Psychology 621, 623, 625 and consent of the Division.

Prerequisites or Corequisites:
Applied Psychology 639 and one of 601, 615, or 685, or equivalent.
Note: Not open to unclassified students.
NOT INCLUDED IN GPA

Applied Psychology 641 H(3-0)

Development, Learning and Cognition - Child and Adolescence
The interactions of development, learning and cognition in childhood and adolescence.

Applied Psychology 643 H(3-0)

Development, Learning and Cognition - Adult
The interactions of development, learning and cognition in adulthood.

Applied Psychology 650 H(3-0)
(formerly Applied Psychology 693.48)

Family and Social Bases of Behaviour
Course explores theoretical perspectives and contemporary research on socialization processes in childhood and adolescence, with particular emphasis on family and peer interpersonal relations.
Note: Not open to students with credit in APSY 693.48.

Applied Psychology 651 H(3-0)
(formerly Applied Psychology 683)

Disorders of Learning and Behaviour
Focuses on childhood and adolescent disorders through an examination of theories, diagnostic and associated features and disorders, prevalence, developmental course, cultural and gender context, and familial patterns.
Prerequisite: Open to students enrolled in the School and Applied Child Psychology program or permission of the Division.
Note: Not open to students with credit in APSY 683.

Applied Psychology 652 H(3-0)

Academic and Language Assessment
Course provides a broad understanding of the standards that guide assessment practices through an examination of assessment of academic areas and language skills.
Prerequisite: Open to students enrolled in the School and Applied Child Psychology program or permission of the Division.
Note: Not open to students with credit in APSY 667.

Applied Psychology 654 H(3-0)

Neurobiological and Developmental Bases of Learning and Behaviour
Course examines the field of cognitive neuroscience from an assessment framework. It explores the evolving understanding of neurobehavioural disorders and new testing techniques and practices.
Prerequisite: Open to students enrolled in the School and Applied Child Psychology program or permission of the Division.

Applied Psychology 656 F(1-14)

Practicum in Academic and Language Assessment and Intervention
This 200-hour practicum provides opportunities to develop competencies in academic and language assessment and interventions within an approved setting.
Prerequisite: Open to students enrolled in the School and Applied Child Psychology program or permission of the Division.
NOT INCLUDED IN GPA

51
Applied Psychology 657 H(3-0)
Cognitive and Neuropsychological Assessment
Focuses on the theory and practice of intellectual, cognitive, memory, and neuropsychological assessment primarily through the use of individually administered standardized tests.
Prerequisite: Open to students enrolled in the School and Applied Child Psychology program or permission of the Division.

Applied Psychology 658 H(3-0)
Interventions to Promote Cognitive, Academic, and Neuropsychological Well-Being
Focuses on evidence-based interventions aimed at promoting cognitive, academic, and neuropsychological development in children and youth.
Prerequisite: Open to students enrolled in the School and Applied Child Psychology program or permission of the Division.

Applied Psychology 660 H(3-0)
Social, Emotional, and Behavioural Assessment
Grounded in biosocial and developmental theories, this course focuses on the comprehensive assessment of children and youth referred for social, emotional, and behavioural concerns.
Prerequisite: Open to students enrolled in the School and Applied Child Psychology program or permission of the Division.

Applied Psychology 661 H(3-0)
Psychological Foundations of Student Exceptionality
Major trends, developments, theoretical foundations, and current practices and challenges relative to the education of students with diverse learning needs.
Prerequisite: Open to students enrolled in APSY programs or permission of the Division.

Applied Psychology 666 H(3-0)
Assessment of Students with Exceptional Learning Needs
Theory and practice in school-based assessment of students with exceptionality, and current practices and challenges relative to the education of students with diverse learning needs. Laboratory and field experiences.
Prerequisite: Open to students enrolled in the School and Applied Child Psychology program or permission of the Division.

Applied Psychology 671 H(1-3)
Practicum in School-based Interventions for Children and Youth with Exceptional Learning Needs: I
Practicum in educational interventions for children and adolescents with special learning needs. Focus on general assessment, analysis, intervention, and strategies in applied settings.
Prerequisite: Applied Psychology 661 or equivalent.

Applied Psychology 673 H(3-3)
Practicum in School-based Interventions for Children and Youth with Exceptional Learning Needs: II
Advanced practicum in educational interventions for children and adolescents with special learning needs. Focus on specialized assessment, analysis, interventions, and strategies in applied settings.

Applied Psychology 674 H(3-0)
Interventions to Promote Socio-emotional and Behavioural Well-being
Courses focuses on strategies to enhance the socio-emotional and psychological well-being of children and youth who exhibit significant socio-emotional and behavioural needs in school and community settings.
Prerequisite: Open to students enrolled in the School and Applied Child Psychology program or permission of the Division.

Applied Psychology 675 F(1-14)
Practicum in Cognitive and Neuropsychological Assessment and Intervention
This 200-hour practicum provides opportunities to develop competencies in cognitive and neuropsychological assessment and interventions within an approved setting.
Prerequisite: Open to students enrolled in the School and Applied Child Psychology program or permission of the Division.

Applied Psychology 676 F(1-14)
Practicum in Social, Emotional, and Behavioural Assessment and Intervention
This 200-hour practicum provides opportunities to develop competencies in social, emotional, and behavioural assessment and intervention within an approved setting.
Prerequisite: Open to students enrolled in the School and Applied Child Psychology program or permission of the Division.

Applied Psychology 677 H(3-0)
Play Therapy Theory and Process
The theoretical foundations and basic orientation necessary to understand and use play as therapy are outlined, along with the developmental underpinnings of play in children and the basic principles upon which child-centered play therapy is built.

Applied Psychology 678 H(3-0)
Fundamentals of Solution-Oriented Therapy
Provides a working knowledge of the theory and practice of solution-oriented therapy and related models.

Applied Psychology 679 H(3-0)
Advanced Seminar in the Domains of School Psychology Leadership and Function in the Schools
This course provides an advanced study of the domains and functions of school psychologists as central to the school psychology profession. Open only to students enrolled in the MEd program in School and Applied Child Psychology or with permission of the Division.

Applied Psychology 684 H(3-0)
Graduate Seminar: Selected Topics
Prerequisite: Consent of the Division.
MAY BE REPEATED FOR CREDIT

Applied Psychology 685 H(3-0)
Graduate Practicum: Selected Topics
Prerequisite: Consent of the Division.
MAY BE REPEATED FOR CREDIT

Applied Psychology 686 F(1S-3)
Pre-Master's Internship in School and Applied Child Psychology
This 1,200 hour internship requires the integration and application of the full range of school psychology competencies and domains within an approved setting.
Prerequisite: Consent of Training Director. Open only to students enrolled in the MEd or MSc in School and Applied Child Psychology.

Applied Psychology 687 H(3-0)
Advanced Seminar in Special Education I
Advanced study of theoretical, empirical, and practical issues affecting individuals with exceptional learning needs.
Prerequisite: Applied Psychology 661 or equivalent.
GRADUATE DEGREE PROGRAMS & COURSES

Applied Psychology 709 H(3-0)

Advanced Seminar in Applied Learning and Developmental Psychology I
Advanced study of theory and practice in human development and learning.

Applied Psychology 731 H(3-0)

Advanced Clinical Supervision in Applied Psychology
This course provides students with formal training in clinical supervision with the intent of raising an awareness of supervision models, as well as a conceptual framework and vocabulary for thinking through their supervision practice.
Prerequisite: Open only to doctoral students in School and Applied Child Psychology and Counselling Psychology or permission of the Division.

Applied Psychology 732 H(3-0)

Advanced Seminar in School and Applied Child Psychology
Seminar series that links theory and research with practice in the school psychology domains of professional competence.
Prerequisite: Open only to doctoral students in School and Applied Child Psychology.

Applied Psychology 741 H(3-2)

Advanced Professional Skills and Issues
This course focuses on providing knowledge and developing skills in the areas of consultation, supervision, and program development and evaluation across the lifespan.

Applied Psychology 742 F(2-7)

Advanced Practicum in Counselling
Advanced practicum in counselling psychology, and related seminars.
NOT INCLUDED IN GPA

Applied Psychology 788 F

Pre-Doctoral Internship in Counselling Psychology
One full calendar year, full-time (or two years, half-time) supervised training experience in an approved clinical setting. Practical application of theories and interventions pertaining to individual and group, couple, or family counselling as well as assessment, consultation, and supervision. Experience in addressing a variety of professional issues.
Note: Open only to students enrolled in the PhD program in Counselling Psychology.
NOT INCLUDED IN GPA

Applied Psychology 792 F(3-0)

Advanced Seminar: Selected Topics
Prerequisite: Consent of the Division.
MAY BE REPEATED FOR CREDIT

Applied Psychology 793 H(3S-0)

Graduate Seminar: Selected Topics
Prerequisite: Consent of the Division.
MAY BE REPEATED FOR CREDIT

Applied Psychology 794 F(1S-3)

Advanced Practicum: Selected Topics
Prerequisite: Consent of the Division.
MAY BE REPEATED FOR CREDIT

Applied Psychology 795 H(1S-3)

Advanced Practicum: Selected Topics
Prerequisite: Consent of the Division.
MAY BE REPEATED FOR CREDIT

Applied Psychology 798 F

Pre-Doctoral Internship in School and Applied Child Psychology
Supervised 1,600 hour pre-doctoral internship in School and Applied Psychology involving the theory and practice of evaluations, consultation, interventions, research, and related activities within an approved school, clinic, or other human service agency.
Prerequisite: Consent of the Training Director. Open only to doctoral students in School and Applied Child Psychology.
NOT INCLUDED IN GPA

In addition to the numbered and titled courses shown above, the Division offers a selection of advanced level graduate courses specifically designed to meet the needs of individuals or small groups of students at the advanced doctoral level. The course listed in the calendar as May Be Repeated for Credit may be decimaized to create these specialized offerings. Such arrangements are, however, contingent upon the availability of staff resources.

Master of Counselling

Graduate Courses
Note: Students not in the Master of Counselling program may take these courses only with consent of the Division of Applied Psychology and in specific cases additional requirements may be necessary (see below).

Campus Alberta Applied Psychology 601 H(3-0)

Theories of Counselling and Client Change
Engages students in a critical evaluation of a range of contemporary counselling theories and helps them begin to develop a description of their own emerging theory.

Campus Alberta Applied Psychology 603 H(3-0)

Professional Ethics
Addresses personal and professional ethical issues in counselling. The perspectives of different professional disciplines will be used to highlight commonalities and differences. Students will reflect critically on both personal and collective worldviews and values as well as explore the impact of those perspectives on counselling processes and contexts.

Campus Alberta Applied Psychology 605 H(2-2)

Intervening to Facilitate Client Change
Combines a theoretical and practical focus to develop a framework from which to plan and implement client change interventions in a variety of contexts.
Prerequisites: Campus Alberta Applied Psychology 601 and 605.

Campus Alberta Applied Psychology 617 H(3-2)

Methods of Inquiry
Helps students critically analyze other research efforts and in the process learn how to think through their own research questions in a critically evaluative manner.

Campus Alberta Applied Psychology 619 H(2-7)

Specialized Practicum
Provides an opportunity for professional development and supervised practice in a specialized counselling context. Students will be involved in direct work with clients under the supervision of a qualified professional. The practicum allows students to actively explore issues encountered in working with a specialized client population or area of practice.
Prerequisites: Campus Alberta Applied Psychology 611, 613 and 615.

NOT INCLUDED IN GPA

Campus Alberta Applied Psychology 621 H(3-0)

Foundations of Career Development
Focuses on major theories and models of career development and related research. Emphasis will be placed on the integration of theory with career counselling practice.

Campus Alberta Applied Psychology 623 H(3-0)

Processes and Resources for Facilitating Career-Life Transitions
Provides knowledge of common issues associated with career-life transitions as they pertain to models of career counselling. Students also acquire knowledge about various types of career development resources and gain critical skills for selecting and using resources to facilitate career-life transitions.

Campus Alberta Applied Psychology 611 H(2-7)

General Counselling Practicum
 Provides an opportunity for professional development and supervised practice in a general counselling setting. Students will be involved in direct work with clients under the supervision of a qualified professional.
Prerequisites: Campus Alberta Applied Psychology 601, 603, 605, 607, 613 and 615 and consent of the Campus Alberta Program.

NOT INCLUDED IN GPA

Campus Alberta Applied Psychology 613 H(2-2)

Assessment
Combines a theoretical and practical focus to develop a framework from which to plan and implement client change interventions in a variety of contexts.
Prerequisites: Campus Alberta Applied Psychology 601 and 605.

Campus Alberta Applied Psychology 615 H(2-2)

Developing a Working Alliance
Focuses on the understanding and acquisition of skills that are essential for the development of working alliances in counselling contexts. Introduces a theoretical framework for the application of counselling skills in addition to providing the opportunity for skill practice.
Prerequisite or Corequisite: Campus Alberta Applied Psychology 601.

Campus Alberta Applied Psychology 607 H(3-0)

Equity and Diversity Issues in Counselling
Focuses on increasing personal awareness, identification of conceptual frameworks, and development of in-depth knowledge of equity and diversity issues in counselling. Students will be expected to examine their own attitudes, behaviours, perceptions and biases.

Campus Alberta Applied Psychology 601 H(2-7)

Foundation of Career Development
Focuses on major theories and models of career development and related research. Emphasis will be placed on the integration of theory with career counselling practice.

Campus Alberta Applied Psychology 603 H(3-0)

Methods of Inquiry
Helps students critically analyze other research efforts and in the process learn how to think through their own research questions in a critically evaluative manner.

Campus Alberta Applied Psychology 605 H(2-2)

Intervening to Facilitate Client Change
Combines a theoretical and practical focus to develop a framework from which to plan and implement client change interventions in a variety of contexts.
Prerequisites: Campus Alberta Applied Psychology 601 and 605.

Campus Alberta Applied Psychology 617 H(3-2)

Specialized Practicum
Provides an opportunity for professional development and supervised practice in a specialized counselling context. Students will be involved in direct work with clients under the supervision of a qualified professional. The practicum allows students to actively explore issues encountered in working with a specialized client population or area of practice.
Prerequisites: Campus Alberta Applied Psychology 611, 613 and 615.

NOT INCLUDED IN GPA

Campus Alberta Applied Psychology 621 H(3-0)

Foundations of Career Development
Focuses on major theories and models of career development and related research. Emphasis will be placed on the integration of theory with career counselling practice.

Campus Alberta Applied Psychology 623 H(3-0)

Processes and Resources for Facilitating Career-Life Transitions
Provides knowledge of common issues associated with career-life transitions as they pertain to models of career counselling. Students also acquire knowledge about various types of career development resources and gain critical skills for selecting and using resources to facilitate career-life transitions.

Campus Alberta Applied Psychology 611 H(2-7)

General Counselling Practicum
Provides an opportunity for professional development and supervised practice in a general counselling setting. Students will be involved in direct work with clients under the supervision of a qualified professional.
Prerequisites: Campus Alberta Applied Psychology 601, 603, 605, 607, 613 and 615 and consent of the Campus Alberta Program.

NOT INCLUDED IN GPA

Campus Alberta Applied Psychology 613 H(2-2)

Assessment
Combines a theoretical and practical focus to develop a framework from which to plan and implement client change interventions in a variety of contexts.
Prerequisites: Campus Alberta Applied Psychology 601 and 605.

Campus Alberta Applied Psychology 615 H(2-2)

Intervening to Facilitate Client Change
Combines a theoretical and practical focus to develop a framework from which to plan and implement client change interventions in a variety of contexts.
Prerequisites: Campus Alberta Applied Psychology 601 and 605.

Campus Alberta Applied Psychology 617 H(3-2)

Methods of Inquiry
Helps students critically analyze other research efforts and in the process learn how to think through their own research questions in a critically evaluative manner.

Campus Alberta Applied Psychology 619 H(2-7)

Specialized Practicum
Provides an opportunity for professional development and supervised practice in a specialized counselling context. Students will be involved in direct work with clients under the supervision of a qualified professional. The practicum allows students to actively explore issues encountered in working with a specialized client population or area of practice.
Prerequisites: Campus Alberta Applied Psychology 611, 613 and 615.

NOT INCLUDED IN GPA

Campus Alberta Applied Psychology 621 H(3-0)

Foundations of Career Development
Focuses on major theories and models of career development and related research. Emphasis will be placed on the integration of theory with career counselling practice.

Campus Alberta Applied Psychology 623 H(3-0)

Processes and Resources for Facilitating Career-Life Transitions
Provides knowledge of common issues associated with career-life transitions as they pertain to models of career counselling. Students also acquire knowledge about various types of career development resources and gain critical skills for selecting and using resources to facilitate career-life transitions.
Prerequisites: Campus Alberta Applied Psychology 605 and 621.

Campus Alberta Applied Psychology 625 H(3-0)

Systemic Community Change: A Comprehensive Approach to Human Service Delivery
Provides students with a theoretical and practical basis to work as effective community change agents in a broad range of sectors. An examination of comprehensive guidance in schools provides a foundation for exploring key concepts pertinent to developing and implementing comprehensive services in a variety of contexts, and in the process, gaining a better understanding of communities, and building their strengths and capacities.

Campus Alberta Applied Psychology 627 H(3-0)

Career Development in Organizational Settings
Designed to combine theoretical and practical concerns regarding applications of career development concepts to human resources contexts in organizations. Concepts will be relevant to counselling and human resources development professionals.
Prerequisites: Campus Alberta Applied Psychology 601, 603, 605 and 607.

Campus Alberta Applied Psychology 629 H(3-0)

Multicultural Issues in Career Development
Increasing cultural diversity requires career development practitioners to examine the ways that their services are designed and delivered. Designed to enable students to deliver culturally responsive career counselling services to diverse populations.
Prerequisites: Campus Alberta Applied Psychology 607 and 621.

Campus Alberta Applied Psychology 631 H(3-0)

Learning Processes
Addresses the essential features of major theories of learning and presents current research in each area of learning. Students will discover how the principles of learning relate to their own learning and behaviour, and how the principles can be used to understand the behaviour of others and enhance counselling practice.

Campus Alberta Applied Psychology 633 H(3-0)

Human Development
Introduces a comprehensive view of human development across the lifespan, drawing on the major theoretical positions. Developmental themes are discussed in terms of their application to typical and atypical human development in children, adolescents and adults.

Campus Alberta Applied Psychology 635 H(3-0)

Health Psychology
Focuses on how human psychology and human health intersect and is organized according to core principles and skills that guide the practice of health psychology. Will orient students to contemporary theories and models of health, illness, and health promotion, and their relevance in a variety of settings.
Prerequisites: Campus Alberta Applied Psychology 604, 607, and 617.

Campus Alberta Applied Psychology 637 H(3-0)

Group Process
Provides a conceptual understanding of group process, applied to a wide range of contexts and clientele. Incorporates various theories of group counselling and group process to develop an overall conceptual framework. Delivery consists of two integrated components: (a) an on-line component focusing on group theories and conceptual aspects of working in group contexts and (b) a face-to-face component delivered during a summer institute.
Prerequisites: Campus Alberta Applied Psychology 601, 603, 605, and 607.

Campus Alberta Applied Psychology 639 H(3-0)

Introductory Data Analysis
An introductory course on descriptive and inferential statistics designed to give students with minimal statistical background sufficient competence to conduct basic statistical procedures. Topics will include: displaying data; measures of central tendency, variability, and correlation; regression analysis and prediction; probability; parameter estimation; and analysis of variance. Emphasis will be on understanding basic concepts, using software to conduct analyses, and interpretation of results.

Campus Alberta Applied Psychology 641 H(3-0)

Exceptional Children
Intended to help students enhance their awareness and understanding of major trends, developments, theoretical foundations, and current practices and challenges in counselling and providing consultation for special needs children and adolescents.

Campus Alberta Applied Psychology 641 H(3-0)

History of Art Therapy
Art therapy is examined from a broad perspective, from its beginnings as a treatment for mentally or emotionally disturbed people, to its development as a distinct profession in North America and Europe. The works of key authors are covered, along with their theoretical approaches and current trends in the field. Students will learn how the foundations of art therapy are incorporated by many disciplines, with applications in many settings.
Prerequisites: Campus Alberta Applied Psychology 611, 613, and 615.

Campus Alberta Applied Psychology 651 H(3-0)

Clinical Supervision
Intended for students to learn the process of clinical supervision and as a result become better consumers of supervision, more effective supervisors, and more able to evaluate their current and future development and involvement in supervisory roles.
Prerequisites: Campus Alberta Applied Psychology 601, 603, 605, and 607.

Campus Alberta Applied Psychology 651 Q(15S-0)

Graduate Seminar: Special Topics
Prerequisite: Consent of the Campus Alberta Program.
MAY BE REPEATED FOR CREDIT

Campus Alberta Applied Psychology 661 H(3-0)

Graduate Practicum: Selected Topics
Prerequisite: Consent of the Campus Alberta Program.
MAY BE REPEATED FOR CREDIT

Campus Alberta Applied Psychology 695 H(1-4)

Graduate Practicum: Selected Topics
Prerequisite: Consent of the Campus Alberta Program.
MAY BE REPEATED FOR CREDIT

ARCHAEOLOGY ARKY

Contact Info
Location: Earth Sciences Bldg., Room 106
Faculty number: (403) 220-5227
Fax: (403) 282-9567
E-mail address: nethier@ucalgary.ca
Web page URL: http://arky.ucalgary.ca

1. Degrees and Specializations Offered
Doctor of Philosophy (PhD)
Master of Arts (MA), thesis-based
Students in the Departments of Archaeology and Anthropology and the Faculty of Medicine may choose an interdisciplinary specialization in Biological Anthropology. For further information on the Biological Anthropology (Interdisciplinary) specialization, see the separate listing in this Calendar.

2. Admission Requirements
In addition to Faculty of Graduate Studies requirements, the Department requires:

a) A specimen of relevant written work (an honours essay, term paper, or seminar essay bearing the grade and initials of the supervising professor, the analysis chapter of a Master of Arts thesis or a published article where the applicant is the sole or senior author)

b) A concise statement setting forth the reasons for wishing to pursue graduate work in this department

c) An up-to-date curriculum vitae

d) A 3.3 grade point average in the last two years of program or over the last ten full course equivalents

3. Application Deadline
The deadline for the submission of complete applications is 15 January for September admission.

4. Advanced Credit
The Department does not normally give advanced credit.

5. Program/Course Requirements
In addition to the Faculty of Graduate Studies requirements, the Department requires:

Master of Arts

a) Normally, three full-course equivalents including Archaeology 601 and one of the following, as determined by the student's evaluation committee: Archaeology 615 or Archaeology 617 or a course in human osteology

b) A season of fieldwork or the equivalent

Doctor of Philosophy

a) Normally, four full-course equivalents in Archaeology

b) For those without a Master of Arts degree, normally five full-course equivalents

Note: The number of courses required of each student may vary according to each student's particular needs as determined by the supervisory committee. Unless previously satisfied, ARKY 615 and two of the following: ARKY 615 or ARKY 617 or
a course in human osteology will be required as determined by the student's evaluation committee.

c) Normally, the writing of one research paper of publishable quality, as judged by the supervisory committee
d) A research proposal approved by a committee consisting minimally of three members of his or her supervisory committee, and by the Graduate Coordinator. This must be submitted within twenty months of entering the program.
e) A reading ability in a foreign language acceptable to the Department. The student's supervisory committee will decide the manner of demonstrating this ability.
f) Normally, proficiency in statistics, acceptable to the Department. The student's supervisory committee will decide the manner of demonstrating this ability.

Requirements (a) through (f) must be completed before sitting the written and oral components of the candidacy examination.

g) Normally, two seasons of fieldwork. However, students specializing in laboratory-based topics, like physical anthropology, may substitute an approved program of laboratory work for one of the fieldwork seasons.

6. Additional Requirements
During the first two weeks in program, each student will undergo an evaluation. This is not an examination but an assessment of academic background. The specific regulations and procedures covering evaluations and examinations are on file in the Department Office and are available to students. It is the responsibility of every student to become familiar with these regulations. Fieldwork may be counted towards fulfillment of the full-time study and research requirement.

7. Credit for Undergraduate Courses
Normally only courses at the 500-level or higher may be taken for credit toward a graduate program.

8. Time Limit
Expected completion time is two years for the Master of Arts degree and four years for the Doctor of Philosophy degree. Maximum completion time is four years for the Master of Arts degree and six years for the doctoral degree.

9. Supervisory Assignments
The Department assigns an interim advisor to each student upon arrival. At any time before the end of the first year of studies, each student must select a faculty member to serve as supervisor. The interim advisor may become the supervisor. Doctoral supervisory committees may be appointed at any time during the first year of studies, but no later than three months after the appointment of the supervisor. The supervisor, in consultation with the student, selects the committee.

10. Required Examinations
Questions on the research proposal will not be included in the oral candidacy examination.

Final thesis oral examinations are open.

11. Research Proposal Requirements
Within twenty months of entering the program, the student, with the supervisor's advice, develops an thesis research proposal. This is then transmitted to the student's supervisory committee for agreement and to the Graduate Coordinator for approval and placed on file.

12. Special Registration Information
None.

13. Financial Assistance
Financial assistance in the form of research and teaching assistantships may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships must submit their applications to the Department by January 15th.

14. Other Information
The Department has laboratories equipped for anthropometric and osteological analysis, faunal analysis, and microbotanical and geoastronomical research. A number of teaching and comparative archaeological and zooarchaeological collections are maintained. Field equipment including survey, photographic and camping equipment is available.

15. Faculty Members/Research Interests
The active research interests of current faculty members can be found at http://humanity.ucalgary.ca/home/people.

Note: Individual specializations are also listed in the Department's Graduate Brochure, published annually, and available upon request from the Department.

Undergraduate Courses
Only where appropriate to a student's program may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses.

<tr>
<td>Archaeology 501</td>
<td>H(3-0)</td>
</tr>
<tr>
<td>Practical Problems in Archaeological Interpretation</td>
<td>Exercises in the analysis and interpretation of a variety of archaeological data sets. Prequisite: Archaeology 201 or 205 or consent of the Department.</td>
</tr>
<tr>
<td>Archaeology 503</td>
<td>H(3-0)</td>
</tr>
<tr>
<td>Gender in Prehistory</td>
<td>The theoretical background for feminist archaeology and some of the important advances in Old and New World gender studies. Topics include the relationship of gender hierarchy to the rise of the state; contrasts between the ideological representation of gender and culture practice; and an overarching theme of critical analysis relating the present to the past. Prequisite: Archaeology 451 or consent of the Department.</td>
</tr>
<tr>
<td>Archaeology 505</td>
<td>H(3-0)</td>
</tr>
<tr>
<td>Topics of Debate</td>
<td>Topics of debate in archaeology and human biology from a perspective that emphasizes philosophical, theoretical and methodological issues. Designed to hone students' critical, analytical, and debating skills, and as preparation for graduate studies. Prequisite: Archaeology 451. Note: Archaeology 505 should be taken in the final year of the program.</td>
</tr>
<tr>
<td>Archaeology 506</td>
<td>F(0-7)</td>
</tr>
<tr>
<td>Advanced Archaeological Field Techniques</td>
<td>As a continuation of Archaeology 306, students are offered training in the more advanced aspects of fieldwork. Prerequisites: Pure Mathematics 30; Archaeology 201 and 306. Note: Normally offered during the Spring and/or Summer Sessions.</td>

### Archaeology 623  H(3S-0)
**Reconstructing Plains Culture**
Archaeological and ethnographic Plains culture and the methodological and theoretical issues involved in the use of archaeological reconstructions of the past. Normally focus will be on the northern Plains.  
**Prerequisite:** Consent of the Department.

### Archaeology 625  H(3S-0)
**Hunter-Gatherer Adaptations**
Intensive study of contemporary and prehistoric hunter-gatherer social and economic adaptations.

### Archaeology 627  H(3S-0)
**Origins of Agriculture**
Intensive study of the origins of agriculture throughout the world.

### Archaeology 629  H(3S-0)
**Advanced Ceramic Analysis**
Studies in ceramic analysis, including typology, manufacturing techniques, use-wear, form/function and style.

### Archaeology 637  H(3S-0)
**Mesoamerican Archaeology and History**
Ancient history of Mesoamerica, emphasizing a conjunctive approach based on hieroglyphic, historical and ethnohistorical sources as well as on archaeological evidence.  
**Prerequisite:** Consent of the Department.

### Archaeology 639  H(3S-0)
**Stable Isotope Methods in Archaeology**
Methods and applications of stable isotope analysis to archaeological research. Topics to be covered include the use of light stable isotopes to determine past and present diet, the use of stable isotopes to document residence and migration, analysis of stable carbon isotopes in soils, stable isotope ecology for environmental reconstruction and paleoclimate studies.  
**Prerequisite:** Consent of the Department.

### Archaeology 701  H(3S-0)
**Special Topics in World Archaeology**
Archaeology of particular geographical areas such as Circumpolar, North America, Mesoamerica, South America, Africa, Oceania, and Europe and Near East.  
**MAY BE REPEATED FOR CREDIT**

### Archaeology 703  H(3S-0)
**Advanced Seminar in Selected Topics**
Prerequisite: Consent of the Department.  
**MAY BE REPEATED FOR CREDIT**

---

### ART 603 H(0-3T)
**History of Art I**
Individual study: In consultation with the instructor, the student will select a research topic in art history or art criticism.  
**Prerequisite:** Consent of the Department.

### ART 605 H(0-3T)
**History of Art II**
Individual study: In consultation with the instructor, the student will select a research topic in art history or art criticism.  
**Prerequisite:** Art 601 or consent of the Department.

### 1. Degrees and Specializations Offered
**Master of Fine Arts (MFA)**
- Specializations: sculpture, printmaking, photography, painting, drawing, inter-media, media art and technology, interdisciplinary work

### 2. Admission Requirements
In addition to Faculty requirements, the Department requires:
- A four-year Bachelor of Fine Arts degree or equivalent qualification
- A portfolio of 20 recent works presented in 35 mm slide format or CD/DVD
- A written statement of intent

### 3. Application Deadline
The deadline for the submission of complete applications is 15 January for September admission.

### 4. Advanced Credit
Not applicable

### 5. Program/Course Requirements
The program core for all Master of Fine Arts students is a minimum of three full courses. Within the first twelve months of the program each student must complete one full-course equivalent 600-level studio course; one half-course equivalent 600-level graduate seminar, and Art 601 and Art 605. One half-course equivalent 600-level graduate seminar must be completed in the second twelve months of the program. In some circumstances, the Department may require a student to complete more than the three mandatory full courses.

### 6. Additional Requirements
Additional requirements for the Master of Fine Arts degree include an exhibition of the student’s work, a supporting paper, and an oral examination.

### 7. Credit for Undergraduate Courses
Not applicable

### 8. Time Limit
Expected completion time for the Master of Fine Arts degree is two years. Maximum completion time is four years.

### 9. Supervisory Assignments
Each new student is assigned an interim advisor to assist in the planning of the academic program and in orienting the student to the Department’s physical and academic resources. A permanent supervisor is appointed by 1 January of the first academic year of registration. The approval of a permanent supervisor, by the Coordinator, is made after consultation with the student. Supervisors work closely with students in all phases of the program; they have the principal responsibility in assessing the student’s performance, and advising the Department Head of the student’s progress.

### 10. Required Examinations
Final thesis oral examinations are open.
Art History 617     H(3-0)

Thesis Development
A reading and conference course in the student's research area.
Prerequisite: Consent of the Department.

BIOCHEMISTRY AND MOLECULAR BIOLOGY

MDBC

Contact Info
Location: Health Sciences Centre, Room G329
Faculty number: (403) 220-8306
Fax: (403) 210-8108
E-mail address: bmbgrad@ucalgary.ca
Web page URL: http://www.ucalgary.ca/bmb

1. Degrees and Specializations Offered
Doctor of Philosophy (PhD)
Master of Science (MSc), thesis-based
Faculty members in the Department are affiliated with one or more of the Faculty of Medicine's Institutes and Centres. In addition, faculty research is grouped according to research streams: Molecular and Developmental Genetics, Molecular Biology of Disease, Genomics, Proteomics and Bioinformatics and Cell Signalling and Structure. All students will have the specialization “Biochemistry and Molecular Biology.”

All Master’s Theses and Doctoral students are considered full-time. In exceptional circumstances part-time status may be considered and must be approved.

Combined MD/Master’s and MD/PhD programs are offered under the title “Leaders in Medicine.”

2. Admission Requirements
In addition to Faculty of Graduate Studies requirements, the Department requires:

a) A minimum admission grade point average of 3.2 on a four point scale
b) For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 600 (written), 250 (computer-based) or 100 (internet-based) or an IELTS score of 7.50

International applicants are required to submit scores from the Graduate Record Examination (GRE). A competitive GRE score has usually been in the 90th percentile.

3. Application Deadline
Deadlines for submission of complete applications for students with international transcripts:
15 May for September admission
15 September for January admission
15 January for May admission

Students with Canadian or U.S. transcripts:
15 March for September admission
15 October for January admission
15 May for May admission

Students applying to the MD/Master’s or MD/PhD program must also apply to the Leaders in Medicine program by completing a supplementary application.

4. Advanced Credit
Advanced credit requests must be made by the applicant as part of the admission process. Any credit to be given for courses completed will be included in the departmental letter recommending the student’s admission to the Faculty of Graduate Studies.

5. Program/Course Requirements
In addition to Faculty requirements, an interim supervisory committee will determine the courses required for each student, based on the student’s previous academic background and proposed area of research. In general, Master’s students will be required to take at least two graduate level half-courses and doctoral students will be required to take at least three graduate level half-courses.

6. Additional Requirements
Each student is required to participate regularly in journal club and work-in-progress seminar programs administrated by the Research Group to which the student and his/her supervisor belong, and the student will present at least one journal club seminar and one work-in-progress presentation per year. Attendance at a Research Integrity Day workshop is required for all graduate students. Consult the program website for details.

7. Credit for Undergraduate Courses
Courses at the 500-level are not usually considered graduate courses. Students should register in 500-level courses only upon the recommendation of their supervisory committee. Credit will be given for 500-level courses appropriate to a student’s program as long as an equal or greater number of courses at the 600-level or above is included in the program.

8. Time Limit
Maximum completion time is four years for the Master of Science degree and six years for the Doctor of Philosophy degree.

Leaders in Medicine – Maximum completion time is six years for the MD/Master’s program, and eight years for the MD/PhD program.

9. Supervisory Assignments
The Biochemistry and Molecular Biology Graduate Program has an optional rotation program that may last up to six months. This allows the graduate student and the potential supervisor to learn more about each other’s research interests and available research projects. The student will spend two months in each laboratory of up to three faculty members. After the rotation program, the student will select a permanent supervisor. Alternatively, a student may begin the program with a permanent supervisor, if such arrangements have been made prior to arrival. Supervisory committees are required for both Master’s and doctoral students in the BMB Graduate Program. A permanent supervisory committee must be in place no later than 3 months after the appointment of the supervisor.

Students in the Leaders in Medicine program must have a supervisory committee constituted according to the regulations of the graduate program. In addition, these students are monitored by a Joint Liaison Committee of the Leaders in Medicine program.

10. Required Examinations
The doctoral candidacy examination has both a written and an oral component and is designed to test general and specific knowledge about various aspects of biochemistry and molecular biology. Four examination questions will be given to the student four weeks before the oral examination. The student will prepare a written paper for two of the examination questions and submit the two papers to all examiners one week before the oral examination. The supervisor is a non-voting observer at the doctoral candidacy examination.

Doctoral students are required to present a public
GRADUATE DEGREE PROGRAMS & COURSES

1. Degrees and Specializations Offered

Doctor of Philosophy (PhD)
Master of Science (MSC), thesis-based
Concentrations of Study include:
- Biomolecules, Cells and Microbes
- Ecology and Evolutionary Biology
- Organismal Biology

2. Admission Requirements

In addition to Faculty requirements, the Department requires:
(a) A minimum grade point average of 3.20 on a four point scale over the last two full years or equivalent
(b) For students required to provide proof of proficiency in English, a TOEFL score of 580 (written test), 237 (computer-based test) or 92 (internet-based test) or an IELTS score of 7.5
(c) A concise statement outlining the applicant's research interests and reasons for wishing to attend the University of Calgary

3. Application Deadline

Deadlines for submission of complete applications for students with Canadian or US transcripts:
- 1 March for May admission
- 1 October for January admission

Deadlines for submission of complete applications for students with international transcripts:
- 1 September for January admission
- 1 May for September admission

4. Advanced Credit

Not applicable.

5. Program/Course Requirements

In addition to Faculty of Graduate Studies requirements, the Department requires:
(a) Completion of a minimum of one full-course equivalent for both the Master of Science and doctoral programs. Students transferring to a doctoral program will be required to take a minimum of one half-course in addition to work completed before the transfer, and are expected to meet the 36-month deadline for the candidacy examination.
(b) Completion of the appropriate number of Biology 601 Research Seminar courses in addition to (a) above;
(c) Presentation of a Departmental Pre-Defense seminar on the results of the thesis research.

6. Additional Requirements

None.

7. Credit for Undergraduate Courses

At least one-half of a graduate student's coursework must be at the 600-level or higher. Only where appropriate to a student's program may graduate credit be received for courses numbered 500-599.

8. Time Limit

Expected completion time is two years for the Master of Science degree and four years for the Doctor of Philosophy degree. Maximum completion time is four years for the Master of Science degree and six years for the Doctor of Philosophy degree.

9. Supervisory Assignments

Applicants normally contact specific faculty members about possible supervision. The Department does not accept students unless at least one faculty member has indicated a willingness to act as supervisor. The supervisor, in consultation with the student, selects an Advisory Committee consisting of the supervisor and at least two other faculty members whose research area will be beneficial to the student's graduate program.

10. Required Examinations

Doctoral candidacy examinations have a written component followed by an oral component. Doctoral candidates are given three weeks to complete three substantive essays in answer to questions, which focus on the student's field of specialization, submitted by their candidacy committee. One week after the submission of the answers, the oral component will take place.

The oral candidacy exam will be based on the written essays and general research knowledge. Questions on the research proposal will not be included in the oral candidacy examination.

Final Thesis Examinations are required at both the Master of Science and doctoral level. A public "Exit" Seminar preceding the examination is required.

11. Research Proposal Requirements

Both Master of Science and doctoral students must present a written research proposal to their supervisory committees no later than twelve months after initial registration in program.

12. Special Registration Information

A request for transfer of program from the Master of Science program to the doctoral program may be made no later than twenty-four months after initial registration. Students who transfer will be required to take one additional half-course, regardless of course work completed before the transfer, and are expected to meet the 36-month deadline for the candidacy examination.

13. Financial Assistance

Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar. Students applying for the Open Scholarship Competition must submit their scholarship applications to the Department by 18 January.

14. Other Information

None.

15. Faculty Members/Research Interests

The research interests of current faculty members can be found at: http://bio.ucalgary.ca/research/index.html.
Biochemistry (BCEM)

Undergraduate Courses
See also the separate listing of graduate level Chemistry courses.

Biochemistry 543  H(3-0)
Enzymology
The structure, mechanisms and biological interactions of enzymes. Binding, catalysis, rates and regulation will be discussed with regard to chemical principles of kinetics and reaction. The principles of enzyme action will be considered in the context of the biological role that enzymes play.
Prerequisites: Biochemistry 393 or 443, and Chemistry 353 or 355.

Biochemistry 547  H(3-0)
Signal Transduction and Regulation of Metabolism
Principles of signal transduction with examples from prokaryotes and eukaryotes. Discussion of protein covalent modifications, inositol lipid signaling, structure and function of protein kinases and protein phosphatases and their role in regulating various aspects of cell function. Emphasis on metabolic pathways, cell cycle control, checkpoints, DNA damage response and epigenetics.
Prerequisites: Biochemistry 393 or 443.

Biochemistry 551  H(3-0)
Structural Biology
Applications of modern methods to structural studies of proteins and nucleic acids by NMR and X-ray crystallography with a comparison of the structural information derived from the two methods. Crystalization of macromolecules. Experimental and theoretical foundations of X-ray and NMR structure determination, and ligand binding. Non-invasive NMR studies of metabolism, and magnetic resonance imaging.
Prerequisites: One of Biochemistry 341 or 393, and one of Biochemistry 471 or Chemistry 371.

Biochemistry 555  H(3-1T-0)
Biomembranes
The material examines the structure and function of biological membranes with a strong emphasis on the role of membrane proteins. Topics may include the physical properties of lipid bilayers, isolation and purification of membrane proteins, preparation of membrane mimetic systems, ion and solute movement across membranes (transport and ion channels), membrane protein folding, assembly and structure, and protein secretion and translocation systems.
Prerequisites: Biochemistry 393 or 443.
Note: Prior or concurrent completion of Biochemistry 431 and 471 is strongly recommended.

Biochemistry 561  H(2-3T)
(formerly Biotechnology 561)
Applied Biochemistry and Biotechnology
An introduction to the language, materials, methods, concepts and commercial applications of biotechnology with emphasis on methodology: biocatalysts, bioreactor designs and operation, scale-up, instrumentation, product recovery, animal and plant cell culture, process economics.
Prerequisite: Biochemistry 393.
Note: Prior completion of Cellular, Molecular and Microbial Biology 411 or Biochemistry 401 is strongly recommended.

Biochemistry 575  H(3-2T-0)
Lipids
Structure and function of lipids including phospholipids, sphingolipids, and steroids. Topics include properties of lipids and bilayers, lipid-lipid and lipid-protein interactions, technological applications, biosynthesis and regulation, lipids as second messengers, intracellular trafficking, and lipids in physiology and disease. Literature review and student seminars are significant components of this course.
Prerequisite: Biochemistry 393 or 443

Biochemistry 577  H(3-4/2)
Biomolecular Simulation
Introduction to simulation and computer modelling methods commonly used in biochemistry and biophysics, with a focus on physical models to understand the behaviour of biomolecules. Topics include simulation methods, dynamics of proteins, DNA, and lipids; calculation of binding constants, protein-drug interactions, properties of ion channels as well as a number of recent literature topics.
Prerequisites: One of Biochemistry 341 or 393 and one of Biochemistry 471 or Chemistry 371.
Graduate Courses

Graduate Courses
Enrolment in any Graduate Course requires consent of the Department. 600-level courses are available with permission to undergraduate students in the final year of programs.

Biochemistry 641  H(3-0)
Selected Topics in Biochemistry
Selected topics in Biochemistry such as those which appear annually in the serial publication Annual Review of Biochemistry.
MAY BE REPEATED FOR CREDIT

Biochemistry 731  H(3-0)
Current Topics in Biochemistry
Contemporary methods of recombinant DNA technology will be combined with modern methods and strategies for expressing, secreting, purifying and characterizing proteins. This will include biophysical techniques, structural analysis and covalent modifications. Various modern ‘omics’ research approaches will also be discussed.

Biology (BIOL)

Note:
†Limited amounts of non-scheduled class time involvement will be required for these courses.

Undergraduate Courses

Biochemistry 501  H(3-0)  (Medical Science 501)
Principles and Mechanism of Pharmacology
Basic principles of pharmacology, with specific emphasis on receptor signaling mechanisms.
Prerequisites: Consent of the Department and Biochemistry 443, and one of Zoology 461, 463, or Medical Science 404.

Biological 503  H(3-0)  (Medical Science 503)
Pharmacology of Organ Systems
Pharmacology of the nervous, cardiovascular, renal and immune systems, as well as anti-cancer therapies. Principles of toxicology.
Prerequisite: Biology 501 (Medical Science 501) or consent of the Department.

Biology 505  H(3-0)
Medicinal Plant Biochemistry
This course deals with biochemical, molecular, and cellular aspects of plant metabolism, natural product diversity in the plant kingdom, and modern molecular and biochemical methods to understand plant metabolism. The focus of this course is on the metabolic pathways that are either unique to plants, or that exhibit unique features in plants. Several key plant pathways that produce plant-derived medicines will be discussed.
Prerequisites: Biology 331 and Biochemistry 393
Note: Credit for Biology 505 and Botany 503 will not be allowed.
Note: Enrolment in this course may be limited. See explanation in Program section of Calendar.

Biology 515  (Medical Science 515)  H(3-0)
Cellular Mechanisms of Disease
The cellular and molecular mechanisms underlying basic human disease processes and how these can be influenced by lifestyle and environmental factors. The ways in which this knowledge can be used in the laboratory diagnosis of disease.
Prerequisites: Biochemistry 443 and Biology 331.

Biology 520  F(3-3)
Field Course in Tropical Biology
An examination of biodiversity in a selected region of the tropics, including aspects of ecology of animals and plants, animal behaviour and an introduction to field techniques for observing and censusing selected taxa. Field studies will take place at forest and savannah sites with consideration of community-based conservation efforts.
Prerequisite: Consent of the Department.

Biology 551  H(3-0)
Systems Biology
An overview of theoretical concepts and high-throughput technologies in systems biology. Functional genomics, genetic circuits, gene-regulatory networks, and systems dynamics as applied to the control of development.
Prerequisite: Biology 331, Biochemistry 393, and Math 249 or 251 or 281.
Note: Prior completion of Computer Science 217 or 231, and Math 211 or 213 is strongly recommended.

Biology 553  H(3-0)
Molecular Biophysics
A comprehensive survey of modern biophysics covering the flow and processing of matter, energy and information in living systems. Equilibrium and non-equilibrium thermodynamics in biology. Molecular motors and facilitated proton transport. An integrative approach connecting atomistic theories to cellular processes.
Prerequisite: Biochemistry 341 or 393, and Biochemistry 471 or Chemistry 371.
Note: Prior completion of Biochemistry 555 is strongly recommended.

Biology 591  H(1-5)
Insect Biodiversity
A field course in the natural history and classification
of insects, one of the most diverse groups of organisms known, as they are encountered in their natural habitat. Course material will include: techniques for collection and identification of major groups of insects and related terrestrial arthropods; aspects of behaviour and ecology of local species; use of insects as indicators of environmental change; censusing/monitoring insect populations.

**Prerequisite:** Consent of the Department.

### Graduate Courses

Enrolment in any Graduate Course requires consent of the Department. (Only where appropriate to a student's program may graduate credit be received for courses numbered 500-599.) 600-level courses are available, with permission, to undergraduate students in the final year of programs.

<tr>
<td>Biology 603</td>
<td>H(3-1)</td>
<td>(Medical Science 603) Biology of Laboratory Animals The course is based on the Canadian Council on Animal Care Syllabus &quot;Basic Principles of Laboratory Animal Science for Research Scientists.&quot; In addition to the study of common, research, farm and exotic animals, topics to be covered include ethical considerations, regulation and legislation, animal models, animal facilities and husbandry, hazard control, surgery, anaesthesiology, euthanasia and post-mortem examinations. Practical sessions will provide experience in handling and restraint of specific laboratory animals, injections, blood collection, anaesthesiology and surgery. <strong>Note:</strong> Enrolment in this course is restricted in the first instance to graduate students who will do research utilizing animals.</td>
</tr>
<tr>
<td>Biology 607</td>
<td>H(3-3)</td>
<td>Special Problems in Biology Lectures, seminars, term papers and training in theoretical and/or laboratory methods. MAY BE REPEATED FOR CREDIT</td>
</tr>
<tr>
<td>Biology 609</td>
<td>H(3-0)</td>
<td>Advanced Statistical Applications in Biology This course explains and demonstrates the analysis of biological data with general linear models, generalized linear models, maximum-likelihood fitting of nonlinear models, and resampling techniques. Content is presented in a workshop format, so that students learn the application of computer analysis coincidentally with statistical concepts. <strong>Prerequisite:</strong> Familiarity with statistical inference, regression, and ANOVA-based experimental design (equivalent of Ecology 425) is required. <strong>Note:</strong> Offered in odd-even dated academic years.</td>
</tr>
<tr>
<td>Biology 619</td>
<td>H(3-0)</td>
<td>Advanced Evolutionary Biology The theory of organic evolution. Historical development of evolutionary ideas. Darwin’s contribution. The mechanism of natural selection; sexual, kin and group selection. The application of the theory in biogeography, ecology, ethology and other areas in biology. <strong>Note:</strong> Offered in odd-even dated academic years.</td>
</tr>
<tr>
<td>Biology 651</td>
<td>H(3-0)</td>
<td>Topics in Systems Biology In-depth discussions of the latest publications in systems biology, with emphasis on the fundamental principles of genome and cell function. <strong>Note:</strong> Offered in odd-even dated academic years.</td>
</tr>
<tr>
<td>Biology 653</td>
<td>H(3-0)</td>
<td>Topics in Functional Genomics Presentation and discussion of the primary literature in high-throughput methods for global functional and network analysis of genes and proteins (reverse genetics, microarrays, two hybrid, mass spectrometry and RNAi screening). <strong>Note:</strong> Offered in odd-even dated academic years.</td>
</tr>
<tr>
<td>Biology 703</td>
<td>H(0-6)</td>
<td>Recent Advances in Biology Lectures, seminars and/or laboratories on special advanced topics in biological sciences. Each student should seek consent of a departmental faculty member who will supervise the chosen study. MAY BE REPEATED FOR CREDIT</td>
</tr>
<tr>
<td>Botany 507</td>
<td>H(3-3)</td>
<td>Special Problems in Botany Lectures, seminars, term papers and training in theoretical and/or laboratory methods. <strong>Prerequisites:</strong> Successful completion of at least 9 full-course equivalents and consent of the department. <strong>Note:</strong> Students completing a typical course sequence in their program would normally be eligible to enroll in their 3rd or 4th year. After consultation with a departmental faculty member who will supervise the chosen problem, a permission form obtained from the department office or website must be signed by the course supervisor before a student can register. MAY BE REPEATED FOR CREDIT</td>
</tr>
<tr>
<td>Botany 519</td>
<td>F(0-6)</td>
<td>Independent Studies in Botany Original and independent thought, practical research and the completion of written and oral reports. <strong>Prerequisites:</strong> Completion of at least 15 full-course equivalents and consent of the department. <strong>Note:</strong> After consultation with a departmental faculty member who will supervise the chosen problem, a permission form obtained from the department office or website must be signed by the course supervisor before a student can register. MAY BE REPEATED FOR CREDIT</td>
</tr>
<tr>
<td>Botany 530</td>
<td>F(0-8)</td>
<td>Honours Research Project in Botany Research project under the direction of one or more faculty members in the Department of Biological Sciences. Formal written and oral reports must be presented on completion of this course. Open only to Honours Botany students or Honours Biological Sciences students. <strong>Prerequisites:</strong> Completion of at least 15 full-course equivalents and consent of the department. <strong>Note:</strong> After consultation with a departmental faculty member who will supervise the chosen problem, a permission form obtained from the department office or website must be completed before a student can register.</td>
</tr>
<tr>
<td>Botany 543</td>
<td>H(3-3)</td>
<td>Plant Developmental Biology Physiology, biochemistry, molecular and cellular aspects of plant growth and development. Emphasis on the coordinated regulation of gene expression, cell-cell communication, and signalling during development. Discussion on the methods used to study development, such as mutants of Arabidopsis and other model systems. <strong>Prerequisites:</strong> Botany 531 and Botany 403 or 403 or 503. <strong>Note:</strong> Offered in odd-even dated academic years. <strong>Note:</strong> Enrolment in this course may be limited. See explanation in Program section of Calendar.</td>
</tr>
<tr>
<td>Botany 555</td>
<td>F(0-6)</td>
<td>Current Topics in Plant Biology Lectures, discussions and student seminars on topics of current interest in plant biology. Topics will include functional genomics, advances in forward and reverse genetics, hormone signaling, plant-microbe and plant-environment interactions. <strong>Note:</strong> Senior undergraduate students in the Botany program are strongly encouraged to register this course. MAY BE REPEATED FOR CREDIT</td>
</tr>
<tr>
<td>Botany 633</td>
<td>H(3-0)</td>
<td>Dynamic Aspects of Plant Ultrastructure The ultrastructural and functional aspects of the cell, tissue, and organ systems of vascular plants. Analysis and interpretation of electron micrographs. Seminars on recent research development. <strong>Note:</strong> Offered in even-odd dated academic years.</td>
</tr>
</tbody>
</table>
Botanical Microtechniques
Principles and practice of preparation of plant tissues for light microscope study. Plastic embedding techniques, histochemistry, immunohistochemistry, quantitative cytometry, fluorescence microscopy, confocal laser scanning microscopy and photomicroscopy are included.
Note: Offered in odd-even dated academic years.

Cellular, Molecular and Microbial Biology (CMMB)

Undergraduate Courses

Note:

Prerequisites:

DNA, Genomes and RNA Function
An examination and comparison of the roles of DNA and RNA in the cell. Includes chromatin structure, transcriptional regulation, mechanisms of post-transcriptional regulation at the RNA level, and the diverse roles played by RNA, ranging from information molecules to structural scaffolds to ribozymes.
Prerequisite: Cellular, Molecular and Microbial Biology 411.

Cellular, Molecular and Microbial Biology 523 H(3-0)

DNA, Genomes and RNA Function

Independent Studies in Cellular, Molecular and Microbial Biology
Original and independent thought, practical research and the completion of written and oral reports.
Prerequisites: Completion of at least 15 full-course equivalents and consent of the department.
Note: After consultation with a department faculty member who will supervise the chosen problem, a permission form obtained from the department office or website must be signed by the course supervisor before a student can register.
MAY BE REPEATED FOR CREDIT

Cellular, Molecular and Microbial Biology 528 F(0-6)

Honours Research Project in Cellular, Molecular and Microbial Biology
Research project under the direction of one or more faculty members in the Department of Biological Sciences. Formal written and oral reports must be presented on completion of this course. Open only to Honours Cellular, Molecular and Microbial Biology students or Honours Biological Sciences students.
Prerequisites: Cellular, Molecular and Microbial Biology 411, completion of at least 15 full-course equivalents and consent of the Department.
Note: Students are required to register in CMMB 507.95 in the Winter term during which they are registered in CMMB 530. Failure to register as such will result in their removal from CMMB 530. After consultation with a department faculty member who will supervise the chosen problem, a permission form obtained from the department office or website must be completed before a student can register.

Cellular, Molecular and Microbial Biology 530 F(0-8)

Microbial Genetics
The structure and function of microbial genes and genomes will be analyzed with state-of-the-art bioinformatics programs. Advances in understanding of mechanisms of genetic exchange in bacteria and bacteriophages, including conjugation, transduction, transformation and lysogeny will be presented together with selected topics in microbial genetics.
Prerequisite: Cellular, Molecular and Microbial Biology 411.

Cellular, Molecular and Microbial Biology 549 H(3-0)

Environmental Microbiology
Focuses on understanding the interactions of microorganisms with their environment. Roles of microorganisms in nutrient cycling, biological control, and biodegradation will be discussed. The use of molecular approaches to identify and characterize microbial communities, and to understand the precise nature of microbial interactions with abiotic and biotic environments will be emphasised. Special topics will include plant-microbe and animal-microbe symbiosis, extreme environments and biotechnological applications of environmental microbiology.
Prerequisite: Cellular, Molecular and Microbial Biology 343 or consent of the Department.

Cellular, Molecular and Microbial Biology 561 H(3-0)

Cancer Biology
Advances in methodology and in theoretical concepts have permitted continuing breakthroughs in our understanding of the organismal, cellular and molecular biology of cancer cells, and in the development of novel strategies for cancer prevention, diagnosis and treatment. These advances will be presented in a comprehensive overview of cancer including issues of demographics and incidence, causation and detection, origins and progression and therapeutic approaches. Emphasis will be placed on the cell and molecular biology of cancer and on the interaction of the cancer cell with the host organism.
Prerequisites: Biology 331, Cellular, Molecular and Microbial Biology 411 and one of Biochemistry 401 or 443.

GRADUATE DEGREE PROGRAMS & COURSES

Botany 745 H(0-6)

Advanced Cell Biology
In-depth analysis of current literature in cell biology. Topics include the cytoskeleton, subcellular organization and dynamics, RNA and protein trafficking, and other aspects of eukaryotic cell biology.
Prerequisites: Biology 311, 331 and one of Biochemistry 401 or 443.

Cellular, Molecular and Microbial Biology 505† H(3S-0)

Advanced Developmental Biology
In-depth analyses of the current literature in developmental biology. Emphasis will be on the coordinated regulation of gene expression during development.
Prerequisites: Biochemistry 401 or 443, Cellular, Molecular and Microbial Biology 403.

Cellular, Molecular and Microbial Biology 507 H(3-3)

Special Problems in Cellular, Molecular and Microbial Biology
Lectures, seminars, term papers and training in theoretical and/or laboratory methods.
Prerequisites: Completion of at least 9 full-course equivalents and consent of the department.
Note: Students completing a typical course sequence in their program would normally be eligible to enroll in their 3rd or 4th year. After consultation with a department faculty member who will supervise the chosen problem, a permission form obtained from the department office or website must be signed by the course supervisor before a student can register.
MAY BE REPEATED FOR CREDIT

Cellular, Molecular and Microbial Biology 511 H(3-0)

Molecular Biology and Genetics
The concepts of molecular biology as they apply to genetics. Application of current methodology to the understanding of the genetics of prokaryotes, lower and higher eukaryotes (for example: fungi, yeasts, trypanosomes, plants and animals). Genomic organization and function of subcellular organelles such as mitochondria and chloroplasts will also be considered in detail. The mechanism(s) of regulation of gene expression will be discussed in relation to nuclear as well as organelle genomes.
Prerequisite: Cellular, Molecular and Microbial Biology 411.

Cellular, Molecular and Microbial Biology 519 H(3-0)

Microbial Genetics
The structure and function of microbial genes and genomes will be analyzed with state-of-the-art bioinformatics programs. Advances in understanding of mechanisms of genetic exchange in bacteria and bacteriophages, including conjugation, transduction, transformation and lysogeny will be presented together with selected topics in microbial genetics.
Prerequisite: Cellular, Molecular and Microbial Biology 411.

Cellular, Molecular and Microbial Biology 549 H(3-0)

Microbial Genetics
The structure and function of microbial genes and genomes will be analyzed with state-of-the-art bioinformatics programs. Advances in understanding of mechanisms of genetic exchange in bacteria and bacteriophages, including conjugation, transduction, transformation and lysogeny will be presented together with selected topics in microbial genetics.
Prerequisite: Cellular, Molecular and Microbial Biology 411.

Cellular, Molecular and Microbial Biology 561 H(3-0)

Cancer Biology
Advances in methodology and in theoretical concepts have permitted continuing breakthroughs in our understanding of the organismal, cellular and molecular biology of cancer cells, and in the development of novel strategies for cancer prevention, diagnosis and treatment. These advances will be presented in a comprehensive overview of cancer including issues of demographics and incidence, causation and detection, origins and progression and therapeutic approaches. Emphasis will be placed on the cell and molecular biology of cancer and on the interaction of the cancer cell with the host organism.
Prerequisites: Biology 331, Cellular, Molecular and Microbial Biology 411 and one of Biochemistry 401 or 443.
Graduate Courses
Enrolment in any graduate course requires consent of the Department. Only where appropriate to a student's program may graduate credit be received for courses numbered 500-599. 600-level courses are available with permission to undergraduate students in the final year of their programs.

Undergraduate Courses

Cellular, Molecular and Microbial Biology 637  H(3-3)

Advanced Topics in Molecular Microbiology.
Techniques and discussion of recent literature in molecular microbiology. Topics covered will vary from year to year, but could include bioinformatics, genomics, mutagenesis, advanced microscopy techniques, proteomics, vectors and cloning techniques, gene expression, and over-expression of proteins, as they relate to the study of prokaryotic systems. Course content will be tailored to the interests of the graduate students enrolled in the class in a given year.
MAY BE REPEATED FOR CREDIT

Ecology (ECOL)

†Limited amounts of non-scheduled class time involvement will be required for these courses.

Ecology 501  H(0-3)

Ecological and Evolutionary Applications
A class project course in which students apply their understanding of ecological and evolutionary concepts and their analytical skills to investigate selected problems in detail. Project topics vary from year to year and will include fundamental and applied problems. Formal written and oral reports will be presented as a necessary component of the course.
Prerequisites: Ecology 417, 425, 429 and completion of at least 12.5 FCE in the Ecology program.
Note: Prior or concurrent completion of Biology 401, Ecology 419 and 439 are strongly recommended. Ecology 501 is intended to draw on experience gained throughout the Ecology program, and should be taken by students in the final year of the program.

Ecology 507  H(3-3)

Special Problems in Ecology
Lectures, seminars, term papers and training in theoretical and/or laboratory methods.
Prerequisites: Completion of at least 9 full-course equivalents and consent of the department.
Note: Students completing a typical course sequence in their program would normally be eligible to enroll in their 3rd or 4th year. After consultation with a departmental faculty member who will supervise the chosen problem, a permission form obtained from the department office or website must be signed by the course supervisor before a student can register.
MAY BE REPEATED FOR CREDIT

Ecology 528  F(0-6)

Independent Studies in Ecology
Original and independent thought, practical research and the completion of written and oral reports.
Prerequisites: Completion of at least 15 full-course equivalents and consent of the department.
Note: After consultation with a departmental faculty member who will supervise the chosen problem, a permission form obtained from the department office or website must be signed by the course supervisor before a student can register.
MAY BE REPEATED FOR CREDIT

Ecology 530  F(0-8)

Honours Research Project in Ecology
Research project under the direction of one or more faculty members in the Department of Biological Sciences. Formal written and oral reports must be presented on completion of this course. Open only to Honours Ecology students or Honours Biological Sciences students.
Prerequisites: Completion of at least 15 full-course equivalents and consent of the department.
Note: After consultation with a departmental faculty member who will supervise the chosen problem, a permission form obtained from the department office or website must be signed by the course supervisor before a student can register.
Graduate Courses
Enrolment in any graduate course requires consent of the Department. 600-level courses are available with permission to undergraduate students in the final year of programs.

Ecology 603  H(3-0)

Advanced Behavioural Ecology
Current problems and recent research in areas of particular significance. Topics will vary from year to year.
Note: Offered in even-odd dated academic years.
MAY BE REPEATED FOR CREDIT

Ecology 607  H(0-6)

Limnology and Oceanography
Lectures, seminars and projects in the areas of limnology, aquatic ecology and oceanography.

Ecology 677  H(0-6)

Advanced Population Ecology
The theory and practice of the study of populations, methods of population estimation, factors affecting populations, and systems approaches to the modelling of populations.
MAY BE REPEATED FOR CREDIT

Ecology 731  H(3-0)

Advanced Plant Ecology
Current problems and recent research in areas of particular significance. Topics will vary from year to year.
MAY BE REPEATED FOR CREDIT

Ecology 527  H(3-1T)

Ecology of Fishes
The ecology of fishes with an emphasis on freshwater systems. Fish will be used as models for examining ecological principles and theory at various levels of organization including physiological, behavioural, population and community ecology. Topics covered include: morphology, systematics, foraging, bioenergetics, life history strategies, population dynamics and the role of fish in aquatic food webs.
Prerequisites: Biology 313, and one of Ecology 417 or Zoology 477.02.
Note: Offered in even-odd dated academic years.

Ecology 528  F(0-6)

Independent Studies in Ecology
Original and independent thought, practical research and the completion of written and oral reports.
Prerequisites: Completion of at least 15 full-course equivalents and consent of the department.
Note: After consultation with a departmental faculty member who will supervise the chosen problem, a permission form obtained from the department office or website must be signed by the course supervisor before a student can register.
MAY BE REPEATED FOR CREDIT

Ecology 530  F(0-8)

Honours Research Project in Ecology
Research project under the direction of one or more faculty members in the Department of Biological Sciences. Formal written and oral reports must be presented on completion of this course. Open only to Honours Ecology students or Honours Biological Sciences students.
Prerequisites: Completion of at least 15 full-course equivalents and consent of the department.
Note: After consultation with a departmental faculty member who will supervise the chosen problem, a permission form obtained from the department office or website must be signed by the course supervisor before a student can register.
MAY BE REPEATED FOR CREDIT

Zoology (ZOOL)

Undergraduate Courses
Only where appropriate to a student's program may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses.
†Limited amounts of non-scheduled class time involvement will be required for these courses.

Zoology 507  H(3-3)

Special Problems in Zoology
Lectures, seminars, term papers and training in theoretical and/or laboratory methods.
Prerequisites: Completion of at least 9 full-course equivalents and consent of the department.
Note: Students completing a typical course sequence in their program would normally be eligible to enroll in their 3rd or 4th year. After consultation with a departmental faculty member who will supervise the chosen problem, a permission form obtained from the department office or website must be signed by the course supervisor before a student can register.
MAY BE REPEATED FOR CREDIT

Zoology 528  F(0-6)

Independent Studies in Zoology
Original and independent thought, practical research and the completion of written and oral reports.
Prerequisites: Biology 315, completion of at least 15 full-course equivalents and consent of the department.
Note: After consultation with a departmental faculty member who will supervise the chosen problem, a permission form obtained from the department office or website must be signed by the course supervisor before a student can register.
MAY BE REPEATED FOR CREDIT

Zoology 530  F(0-8)

Honours Research Project in Zoology
Research project under the direction of one or more faculty members in the Department of Biological Sciences. Formal written and oral reports must be presented on completion of this course. Open only to Honours Zoology students or Honours Biological Sciences students.
Prerequisites: Biology 315, completion of at least 15 full-course equivalents and consent of the department.
Note: After consultation with a departmental faculty member who will supervise the chosen problem, a permission form obtained from the department office or website must be signed by the course supervisor before a student can register.
MAY BE REPEATED FOR CREDIT

Zoology 531  H(3-3)

Histology
Light and electron microscopic morphology of the basic tissues (epithelia, connective tissues, muscles and nerves) in the vertebrates; structural and functional associations of the basic tissues in the primary organs of the body.
Prerequisites: Biology 331 and one of Zoology 377 or 471.
Note: Offered in even-odd dated academic years.
Animal Behaviour
Offered from an evolutionary and ecological perspective. Development of ethological ideas; interaction of genotype and environment in ontogeny of behaviour; role of behaviour in dealing with environmental challenges.
Prerequisites: Biology 313 and one of Ecology 429, Zoology 375, 377 or 477.
Note: Credit for both Marine Science 546 and Zoology 567 will not be allowed.
Note: Offered in even-odd dated academic years.
Note: Enrollment in this course may be limited. See explanation in the Program section of this Calendar.

Palaeobiology of Vertebrates
Evolutionary trends in the major groups of vertebrates from both neontological and palaeontological viewpoints. The interpretation of palaeontological data and their applicability to our understanding of evolution, systematics and palaeoecology.
571.01 Dinosaurs, Birds and Mammals.
571.02 Fishes, Amphibians and Reptiles.
Prerequisite: Zoology 377.
Note: Prior completion of Zoology 477.01 or 477.02, and Geology 201 or 209 are strongly recommended. Courses can be taken in either order. Zoology 571.01 is offered in odd-even dated academic years. Zoology 571.02 is offered in even-odd dated academic years.

Advanced Embryology
Analysis of mammalian embryology including gametogenesis, fertilization, cleavage, gastrulation, and early organogenesis. Consideration of normal developmental patterns and abnormal events resulting in congenital malformations.
Prerequisite: Zoology 471.
Note: Credit for both Zoology 573 and Medical Science 607.02 will not be allowed.
Note: Offered in odd-even dated academic years.

Comparative Neuromuscular Physiology
Examination of the nervous and muscular systems of selected invertebrate animals spanning phyla from the Protozoa to the Echinodermata. Material will be selected that relates the behaviour to the nervous and muscular systems unique to each group. Specializations unique to various groups will be examined as well as the increasing complexity at various levels of organization. Instructional format includes lectures and student seminars.
Prerequisite: Zoology 461.

Principles of Endocrinology
General and molecular aspects of endocrine physiology. Topics will include the mechanisms of hormone action (receptor occupancy and transduction of signal), current techniques in endocrinology, synthesis and release of hormones, and the functional role of different endocrine organs.
Lectures will include examples from lower vertebrates and invertebrates to emphasize comparative aspects.
Prerequisite: Zoology 463.

1. Degrees and Specializations Offered
Doctor of Philosophy (PhD)
Master of Science (MSc)
Master of Engineering (MEng), thesis-based

The curriculum is designed for students with degrees in Engineering, Medicine, Physical Sciences, or Life Sciences. Background experience and qualifications, as well as areas of interest of the applicants will be taken into account at the time of admission. Students in the MSc and PhD degree programs are normally considered full-time. The MEng (thesis-based) will focus on Engineering Healthcare Systems Management, and is intended to be taken full time, although part-time schedules are available. Aspects of the Biomedical Engineering Graduate program are offered in collaboration with the University of Alberta.

2. Admission Requirements
For admission to the MSc and PhD Programs, students must apply to the department of the intended supervisor and complete a supplementary application to the Biomedical Engineering Graduate Program. For admission to the MEng (thesis-based) Program, students must apply to the Department of Civil Engineering and complete a supplementary application to the Biomedical Engineering Graduate Program. Students will be admitted to the Faculty of Graduate Studies on the recommendation of the department and an Admissions Committee for the Biomedical Engineering program. All students must meet the admission requirements of both the Faculty of Graduate Studies and the respective department (the “home department”), but students will immediately transfer to the Biomedical Engineering Graduate Program.
Additional Courses
1. Biomedical Engineering 605 – Research Seminars of Biomedical Engineering
2. Biomedical Engineering 607 – Research Seminars of Biomedical Engineering
3. Biomedical Engineering 609 – Anatomy and Physiology for Biomedical Engineers
4. Biomedical Engineering 619.XX – Special Problems in Biomedical Engineering

Additional Courses in Theme 1: Medical Imaging
1. Electrical Engineering 697 - Digital Image Processing
2. Medical Science 689.01 – Medical Imaging Techniques
3. Medical Science 689.02 – Advanced Magnetic Resonance Imaging
4. Medical Science 689.03 – Advanced Medical Image Processing
5. Medical Science 689.04 - Advanced Molecular Imaging
6. Medical Science 689.99 – Medical Imaging Project

Additional Courses in Theme 2: Cell and Tissue Engineering
1. Chemical Engineering 659 – Advanced Cell and Tissue Engineering

Additional Courses in Theme 3: Biomechanics
1. Biomedical Engineering 619.02 – Special Topics in Biological Tissue System Mechanics
2. Civil Engineering 651 – Finite Element Modeling
3. Civil Engineering 653 – Theory and Application of the Finite Element Method
4. Mechanical Engineering 653 - Continuum Mechanics
5. Mechanical Engineering/Kinesiology/Medical Science 663 - Advanced Biomechanics (Muscle)

Additional Courses in Theme 4: Biomedical Engineering
1. Electrical Engineering 623/519.11 - Biomedical Instrumentation
2. Electrical Engineering 663 - Numerical Electromagnetic Field Computation
3. Electrical Engineering 631 - System Identification and Parameter Estimation
4 Electrical Engineering 665 - Bioelectromagnetism

Additional Biomedical Engineering related courses may be listed under individual departmental listings. Courses are listed by theme, but students are not restricted to taking courses from within a theme. The supervisor and supervisory committee should be consulted for course selection. Courses not on the list require the approval of the Biomedical Engineering Graduate Program.

6. Additional Requirements
Not applicable.

7. Credit for Undergraduate Courses
Graduate credit may be given for 500-level courses. No more than one half-course of credit will be allowed in MSc/PhD or MEng program as approved by the supervisory committee, and the Biomedical Engineering Graduate Program.

8. Time Limit
According to Faculty of Graduate Studies regulations

9. Supervisory Assignments
A supervisory committee, approved by the Biomedical Engineering graduate coordinator, will be established by the supervisor immediately upon the MSc/PhD student’s entry to the program. Master of Engineering (thesis based) students will choose a supervisor in consultation with the Biomedical Engineering Graduate Program.

The committee will advise on course selection and research topic for the student. The supervisory committee will usually be cross-disciplinary, as required by the student’s research topic and deemed necessary by the supervisor in consultation by with the Biomedical Engineering Graduate Program coordinator. MSc and PhD students will follow the guidelines of their home department regarding supervision, frequency of committee meetings, course changes, thesis or project proposals, candidacy examinations, etc. Master of Engineering (thesis based) students will follow the guidelines of the Biomedical Engineering Graduate Program. Membership on candidacy and examination committees requires the approval of the Biomedical Engineering Graduate Program, and the student’s home department.

10. Required Examinations
The research proposal will be required before the oral candidacy exam can be completed. The oral candidacy examination may include questions related to the research proposal.

Final thesis oral examinations are open.

11. Research Proposal Requirements
MSc/PhD students must present a written research proposal to the supervisory committee no later than twelve months after initial registration. The proposal, with an approval form signed by all members of the supervisory committee, must be sent to the Biomedical Engineering Graduate Program to be placed in the student’s file.

12. Special Registration Information
According to home departmental regulations.

13. Financial Assistance
See individual home departmental listings.

14. Other Information
A Master of Science, Master of Engineering, or Doctor of Philosophy in Biomedical Engineering does not entitle graduates to a designation of Professional Engineer. The title of Engineer, or Professional Engineer, is restricted to those who are members of a Provincial engineering association.

15. Faculty Members/Research Interests
Faculty members in this program are based in the Schulich School of Engineering, and the faculties of Kinesiology, Medicine, Veterinary Medicine and Science. Many BME faculty are cross-appointed to the relevant faculties. Other topics will be covered on the home department’s website.

GRADUATE DEGREE PROGRAMS & COURSES

Biomedical Engineering 603 H(3-0)
Frontiers of Biomedical Engineering
An introduction to research in biomedical engineering, experimental design, preparation and review of research proposals, technical (oral and written) communication to diverse audiences.

Biomedical Engineering 605 Q(1.5S-0)
Research Seminars in Biomedical Engineering
Reports of studies of the literature or of current research
NOT INCLUDED IN GPA

Biomedical Engineering 609 H(3-3/2)
Anatomy and Physiology for Biomedical Engineers
Advanced instruction on human skeletal structure, types of connective tissues, structure of joints, muscle and organ structure and function, cardiac physiology, blood properties and flow, introduction to autonomous nervous system, and disorders of the musculoskeletal system. Other topics will be covered on the home department’s website.

Biomedical Engineering 619 H(3-1)
Special Problems in Biomedical Engineering
Designed to provide graduate students, especially at the PhD level, with the opportunity of pursuing advanced studies in particular areas under the direction of a faculty member. MAY BE REPEATED FOR CREDIT

Biomedical Engineering Graduate Program to be placed in the student’s file.

In addition to the Faculty of Graduate Studies regulations, the Biomedical Engineering Graduate Program, and the student’s home department.

1. Degrees and Specializations Offered
Master of Biomedical Technology (MBT), course-based
This interdisciplinary program involves several areas of Medical Science: genetics, biochemistry, cell biology, physiology, immunology, microbiology, and pharmacology. The Master of Biomedical Technology Graduate Program and the Haskelman School of Business offer a combined MBT/MBA program. Contact the Graduate Science Education Office for further information.

2. Admission Requirements
In addition to the Faculty of Graduate Studies requirements, the program requires:

a) Normally, a four year Bachelor of Science degree in biological sciences, or its equivalent

Contact Info
Location: Health Sciences Centre, Room G321
Fax: (403) 210-8109
E-mail address: mbtgrad@ucalgary.ca
Web page URL: http://www.biotech.ucalgary.ca/

1. Biomedical Engineering 601 H(3-0)
Fundamentals of Biomedical Engineering
An introduction to biology, biochemistry, anatomy, physiology, engineering fundamentals, and biostatistics for biomedical engineers. Detailed discussion on current biomedical engineering topics, including current local and international research and industry, with an emphasis on local strengths.

Biomedical Engineering 607 Q(1.5S-0)
Research Seminars in Biomedical Engineering
Reports of studies of the literature or of current research
NOT INCLUDED IN GPA
b) A minimum admission grade point average of 3.20 on a four-point scale over the last two full years or equivalent

c) For students required to provide proof of proficiency in English, a TOEFL score of 600 (written), 250 (computer-based) or 100 (internet-based)

d) A current resume and a personal statement (approx. 300 words) outlining career goals, and how the MBT program will help achieve them

3. Application Deadline
Deadline for the submission of completed applications for September admission:
30 April for applicants with Canadian or US transcripts
31 March for applicants with international transcripts

4. Advanced Credit
The applicant must make advanced credit requests as part of the admission process. In consultation with the graduate program coordinator, advanced credit may be requested in accordance with Faculty of Graduate Studies regulations.

5. Program/Course Requirements
The program consists of a minimum of nine half-courses, normally carried out from June to August. Students will be required to complete a twelve-week student practicum and successful completion of the final program course Medical Science 670.

6. Additional Requirements
Suggested prerequisites: Genetics (BIOL 311 or equivalent), Cell Biology (BIOL 331 or equivalent), Biochemistry or macro molecules (BCEM 393 or equivalent).

7. Credit for Undergraduate Courses
None.

8. Time Limit
This program may be completed in one year on a full-time basis. It may also be completed on a part-time basis. Maximum completion time is six years.

9. Supervisory Assignments
The graduate coordinator will serve as interim supervisor for all newly admitted students. Students must have a supervisor within two months. The selection of the supervisor must be by mutual agreement between the student and the faculty member concerned and approved by the MBT Graduate Coordinator.

10. Required Examinations
None.

11. Research Proposal Requirements
None.

12. Special Registration Information
None.

13. Financial Assistance
None.

14. Other Information
None.

15. Faculty Members/Research Interests
Course information can be found at http://wcm2.ucalgary.ca/biotech/faculty.

Contact the Graduate Science Education Office for more information.

CARDIOVASCULAR/RESPIRATORY SCIENCES MDCV

Contact Info
Location: Health Sciences Centre, Room G329
Faculty number: (403) 210-3937
Fax: (403) 210-8109
E-mail address: cvrgrad@ucalgary.ca
Web page URL:
http://www.ucalgary.ca/UofC/faculties/med/education/gse/Cardiovascular/

1. Degrees and Specializations Offered
Doctor of Philosophy (PhD)
Master of Science (MSc), thesis-based

Faculty members within the Department hold academic appointments in Biochemistry and Molecular Biology, Biology, Medicine, Medical Physiology and Biophysics, or Pharmacology & Therapeutics. Faculty members are affiliated with the Cardiovascular, Smooth Muscle and Respiratory Research Groups.

A joint MD/Master’s and MD/PhD program is also offered under the title “Leaders in Medicine.”

The Universities of Calgary and Alberta offer a joint Biomedical Engineering Program. Further information can be obtained from the separate listing in this Calendar.

Students in the MSc and PhD degree programs are normally considered full-time.

2. Admission Requirements
In addition to Faculty requirements, the Department requires:

a) A minimum grade point average of 3.20 on a four-point scale over the last two full years or equivalent
b) For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 600 (written test), 250 (computer-based test) or 100 (internet-based test)
c) Submission of Graduate Record Examinations (GRE) is encouraged, particularly for international applicants.

3. Application Deadline
Deadlines for submission of complete applications for students with international transcripts:
1 April for September admission
1 August for January admission
1 Dec for May admission

Deadlines for submission of complete applications for students with Canadian and US transcripts:
1 June for September admission
1 October for January admission
1 March for May admission

Students applying to the MD/Master’s or MD/PhD program must apply individually to each program and complete a supplementary application to the Leaders in Medicine program.

4. Advanced Credit
Advanced credit for previous course work is usually not given.

5. Program/Course Requirements
In addition to Faculty requirements, the Department requires:

a) The minimum course requirement is normally two half-courses for an MSc and an additional one half-course for a PhD program. At least one course for an MSc program and two courses for a PhD program should be from the list of recommended MDCV graduate courses. The amount of course work is determined by the student’s supervisory committee. However, it also must meet the departmental minimum requirements.
b) Students holding a completed MSc degree entering the PhD program are required to successfully complete a minimum of three half courses

c) Students holding a completed MSc degree in the same area of study entering the PhD program are required to complete a minimum of one half course provided that a minimum of two half courses were completed in their MSc program
d) Students transferring from the MSc program to the PhD program are required to complete a minimum of one additional half course.
e) Students holding a completed MSc degree in an unrelated field of studies entering the Ph.D. program are required to complete a minimum of three half courses unless otherwise agreed by the student’s supervisory committee.
f) Attendance at the seminar and journal club series organized by the student’s respective research group (Cardiovascular, Respiratory, or Smooth Muscle) and the presentation of at least one research-in-progress seminar annually. Students are also required to participate in the monthly MDCV student seminar program, which will include an annual presentation.

The minimum course requirement is normally two half courses for an MSc and an additional one half course for a PhD program. At least one course for an MSc program and two courses for a PhD program should be from the list of recommended MDCV graduate courses. The amount of course work is determined by the student’s supervisory committee; however, it also must meet the departmental minimum requirements.

6. Additional Requirements
Attendance at a Research Integrity Day workshop is required for all graduate students. Consult the program website for details at http://www.ucalgary.ca/UofC/faculties/med/education/gse/Cardiovascular/

7. Credit for Undergraduate Courses
Credit may be given for courses taken below the 600-level. At least one half of a graduate student’s course work must be at the 600-level or higher. Only under unusual circumstances and upon the recommendation of the supervisory committee and approval by the Graduate Coordinator may credit be received for courses numbered 500–599.

8. Time Limit
Expected completion time is four years for the Doctor of Philosophy program. Maximum completion time is four years for the Master of Science program and six years for the Doctor of Philosophy program. Expected completion time is four to five years for the MD/Master’s program and six to seven years for the MD/PhD program. Maximum completion time is six years for the MD/Master’s program and eight years for the MD/PhD program.
9. Supervisory Assignments
The selection of the supervisor must be by mutual agreement between the student and the faculty member concerned and approved by the MDCV Graduate Coordinator. The supervisor will be a member of the Cardiovascular, Respiratory or Smooth Muscle Research Groups. Every graduate student must have a supervisory committee named within eight months after initial registration. The final composition of the supervisory committee must be approved by the MDCV Graduate Coordinator.

Master of Science students in the Leaders in Medicine Program must have supervisory committees constituted according to the regulations of the graduate program. Both Master's and doctoral students will also be evaluated and advised by a Joint Liaison Committee composed of the Associate Dean (Graduate Sciences Education), Associate Dean (Undergraduate Medical Education), and the Associate Dean (Research) of the Faculty of Medicine.

10. Required Examinations
The rules for candidacy exams follow those outlined by the regulations of the Faculty of Graduate Studies but include modifications specific to MDCV. The major points are: (i) Doctoral students who enter the program with an MSc degree must attempt this examination NO LATER THAN 28 months after initial registration. (ii) Students who enter the Doctoral program with a BSc degree, or who transfer from MSc program to PhD program without obtaining their MSc degree must attempt this examination NO LATER THAN 36 months after initial registration, irrespective of any previous completed graduate degrees.

The doctoral candidacy examination consists of a comprehensive written examination that must be completed in three weeks, and an oral examination that follows one week later. The oral examination should focus on the background knowledge of students in their discipline, as well as their preparedness to do research of high quality in their particular fields of study. A program-approved research proposal must be a precursor to any candidacy exam. The oral examination will not include questions on the candidate's research proposal. The supervisor and co-supervisor are non-voting observers at the doctoral oral candidacy examination.

Final Thesis Oral Examinations consist of a public presentation followed by an open examination on the same day.

11. Research Proposal Requirements
A written research proposal must be prepared by every graduate student and presented to the supervisory committee within twelve months of initial registration.

12. Special Registration Information
None.

13. Financial Assistance
All students who are accepted into the Cardiovascular/Respiratory Science Graduate Program will receive a minimal stipend as reflected by current CIHR/AHFMR awards. Students are encouraged to apply to external agencies for financial support and scholarship awards. University of Calgary Scholarships are also available (see Awards and Financial Assistance section of this Calendar).

Students applying for University scholarships must submit their applications to the Department by 1 February.

14. Other Information
Courses in the Department of Cardiovascular / Respiratory Sciences are offered under the auspices of the Department of Medical Science. For information on course requirements please visit the graduate program’s webpage at http://www.ucalgary.ca/UofC/faculties/med/education/gps/Cardiovascular/

Detailed course descriptions are available at http://www.ucalgary.ca/pubs/calendar/ and timetabling information can be found through myuofc.ca.

15. Faculty Members/Research Interests
Faculty members and their research interests may be found at http://www.ucalgary.ca/UofC/faculties/med/education/gps/Cardiovascular/

CHEMISTRY CHEM
Contact Info
Location: Science A Building, Room 109
Faculty number: (403) 220-6252
Fax: (403) 284-1372
E-mail address: gradinfo@chem.ucalgary.ca
Web page URL: http://www.chem.ucalgary.ca/

1. Degrees and Specializations Offered
Doctor of Philosophy (PhD)
Master of Science (MSc), thesis-based
PhD and MSc programs are available for full-time study only.

These areas do not constitute formal divisions, and the thesis research may cut across the traditional lines.

2. Admission Requirements
In addition to Faculty of Graduate Studies admission requirements, the Department requires:

Master of Science
For applicants required to prove proficiency in English, a TOEFL score of 580 (written test), 237 (computer-based test) or 92 (internet-based test)

Doctor of Philosophy
For applicants with a Bachelor of Science (BSc) degree:
   a) A four-year Honours degree or its equivalent
   b) An admission grade point average of 3.7 or better on a four point scale
   c) For applicants required to prove proficiency in English, a TOEFL score of 580 (written test), 237 (computer-based test) or 92 (internet-based test)

For applicants with a Master of Science (MSc) degree:
   a) A Master of Science degree recognized by the Faculty of Graduate Studies
   b) An admission grade point average of 3.3 or better on a four point scale
   c) For applicants required to prove proficiency in English, a TOEFL score of 580 (written test), 237 (computer-based test) or 92 (internet-based test)

3. Application Deadline
Deadlines for submission of complete applications:
15 April for September admission
15 August for January admission
10 December for May admission

4. Advanced Credit
Advanced credit for graduate courses taken as an unclassified student or qualifying student may be given for courses in which the student obtains a grade of “B” or higher.

5. Program/Course Requirements
In addition to Faculty of Graduate Studies requirements, the Department requires:

Master of Science
Three half-course equivalents (500-level or above). Normally a minimum of two half-courses will be Chemistry courses

Doctor of Philosophy
a) Four half-course equivalents (500-level or above) for students entering with a four-year Honours BSc degree or equivalent. Normally, a minimum of three half-courses will be Chemistry courses;
   b) A minimum of one and a maximum of four half-courses for students entering with an MSc degree or equivalent. The number of half-courses will be determined by consultation between the student and the graduate coordinator.

Students who transfer to the doctoral program will be given credit for courses taken in the MSc program.

6. Additional Requirements
Each student must participate in the Department's CHEM 601 and CHEM 603 Research Seminars in each year he/she is registered in a graduate program.

A Master of Science student planning to apply for a transfer to a doctoral program must notify his/her supervisory committee at least one month before the committee meeting which takes place at the end of the student's first year in program.

7. Credit for Undergraduate Courses
At least one-half of a graduate student's course work must be at the 600-level or higher and only where appropriate to a student's program will credit be given for courses numbered 500-599.

8. Time Limit
Expected completion time is two years for the Master of Science degree and four for the Doctor of Philosophy degree. Maximum completion time is four years for the Master of Science degree and six years for the doctoral program.

9. Supervisory Assignments
Students are assigned an interim advisor (currently the graduate coordinator) upon first registration in a program and must choose a permanent supervisor before the fifth month in program.

10. Required Examinations
Doctoral students are required to complete written and oral candidacy examinations. Further details may be obtained from the Department's Handbook of Graduate Studies. Final thesis oral examinations are open.

11. Research Proposal Requirements
Students will submit a draft research proposal two to four months before the oral candidacy examination.
GRADUATE DEGREE PROGRAMS & COURSES

Within one week of receiving the proposal, the supervisory committee and one additional member of the Department will meet with the student to decide the sub-discipline on which the student will be examined during the candidacy exam. The written component will consist of the finalized version of the research proposal, which is to be submitted 30 days before the oral examination. The proposal is limited to 25 pages (10 on background, 10 on proposed work, and 5 on original extensions of the work). Feedback on the proposal will be provided to the student prior to the oral examination; however, the assessment of the candidate’s overall performance will be determined by the oral examination only.

12. Special Registration Information
None.

13. Financial Assistance
Financial assistance is normally available to all qualified students in the form of Teaching Assistantships (TA), Faculty of Graduate Studies Support (FGSS), and Trust funding. TA and FGSS are not normally available beyond twenty-eight months in a Master's program and fifty-two months in a doctoral program.

For further information on awards, see the Awards and Financial Assistance section of this calendar.

14. Other Information
None.

15. Faculty Members/Research Interests
The faculty members in the Department and their specific research interests can be found at http://www.chem.ucalgary.ca.

Undergraduate Courses
Only where appropriate to a student’s program may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses.

Chemistry 515 H(3-4)
Advanced Instrumental Analysis
Prerequisites: Chemistry 311 and 315.

Chemistry 531 H(3-1T)
Advanced Inorganic Chemistry I
Coordination and organometallic chemistry of the transition elements, incorporating the lanthanoids and actinoids. Fundamental and applied aspects, including characterization techniques, reaction mechanisms, catalysis and bioinorganic chemistry.
Prerequisites: Chemistry 333 and 353 or 355.

Chemistry 533 H(3-1T)
Advanced Inorganic Chemistry II
Chemistry of the s- and p-block elements. Interpretation of nuclear magnetic resonance, electron paramagnetic resonance, vibrational and mass spectra. Fundamental concepts and industrial uses of inorganic heterocycles and polymers, electron-deficient and organometallic compounds. Solid-state chemistry.
Prerequisites: Chemistry 333 and 353 or 355.

Chemistry 535 H(1-8)
Advanced Inorganic Laboratory
Advanced laboratory techniques for the synthesis and characterization of main group compounds, organometallics and solid-state materials using modern spectroscopic and structural methods. Includes a short project.
Prerequisites: Chemistry 333 and 453.
Note: Open to students in Chemistry programs and to others by consent of the Department.

Chemistry 551 H(3-1T)
Organic Synthesis
Concepts and strategies of synthesizing molecules with emphasis on carbon-carbon bond-forming reactions, protecting groups, chemo-, regio- and stereoselectivity.
Prerequisite: Chemistry 453.

Chemistry 553 H(3-1T)
Bio-organic Chemistry
Organic chemistry applied to the understanding of biomolecules: selected topics from carbohydrate, peptide/protein, lipid and nucleoside chemistry, enzyme inhibition and drug design.
Prerequisite: Chemistry 453.

Chemistry 555 H(1-8)
(formerly Chemistry 455)
Advanced Organic Laboratory
Advanced laboratory techniques: methods of purification and identification of products, purification of reagents, experimental design, working with air/moisture sensitive reagents. Includes a short research project.
Prerequisite: Chemistry 453.
Note: Open to students in Chemistry programs and to others by consent of the Department.

Chemistry 557 H(3-1T)
Natural Product Chemistry
The organic chemistry of important classes of natural products such as polyketides, terpenoids, alkaloids, and antibiotics; illustrating the biosynthetic processes involved in their production, and selected chemical transformations, and syntheses.
Prerequisite: Chemistry 453.

Chemistry 559 H(3-1T)
Organic Spectroscopy
The instrumentation, theory and practical aspects of spectroscopy (e.g. UV/vis, MS, IR, 1H and 13C NMR including 2D-techniques). The emphasis will be on the application for structural elucidation through a problem solving approach.
Prerequisite: Chemistry 351; Chemistry 353 or 355.

Chemistry 571 H(3-0)
Physical Chemistry of Interfaces
The chemical and electrical nature, as well as basic thermodynamics, of interfaces. Surface films and aqueous interfaces, including micelles and bilayers. Interfaces involving solids such as metals and semiconductors. Absorption phenomena and surface catalysis. Survey of experimental approaches for interfacial studies.
Prerequisites: Chemistry 371, 373 and consent of the Department.

Chemistry 573 H(3-0)
Nature of the Condensed Phase in Chemistry
Prerequisites: Chemistry 371, 373 and consent of the Department.

Chemistry 575 H(3-1T-3)
Advanced Electronic Structure Theory
A discussion of the theories of modern electronic structure illustrated by applications to molecular structure and bonding, electronic spectroscopy, as well as chemical reactivity and dynamics.
Prerequisites: Chemistry 371 and 373.

Chemistry 579 H(3-0)
Surface and Colloid Chemistry for Engineers
Introduces the fundamental and applied aspects of interfacial phenomena including capillarity, surface and interfacial tension, films, wetting and contact angles, adsorption, micellization, solubilization and emulsification. Examples drawn from colloids, foams, aerosols and macromolecules.
Prerequisites: Chemistry 209, 357 and Chemical Engineering 427.

Chemistry 599 H(3-0)
Selected Topics in Chemistry
Selected topics are offered based on the interests of Chemistry faculty and students.
Prerequisite: Consent of the Department.
MAY BE REPEATED FOR CREDIT

Graduate Courses
Advanced graduate level courses are listed below. Courses in certain areas are grouped under “Selected Topics” titles. The content and offering of these are decided annually by the Department to meet the requirements of graduate students in the program. A student may receive credit for several courses in a given selected topics area. Details of offerings and course outlines may be obtained from the Department on request.

Unless stated otherwise the prerequisite for entry to all courses at the 600 level and above is “consent of the Department.”

Chemistry 601 H(2S-0)
Research Seminar
Reports on studies of the literature or of current research. Required of all graduate students in Chemistry.
NOT INCLUDED IN GPA

Chemistry 603 H(2S-0)
Research Seminar
Continuation of Chemistry 601.
NOT INCLUDED IN GPA

Chemistry 613 H(3-0)
Electrochemical Fundamentals and Methodologies
Origin, significance, and thermodynamics of interfacial potential differences; structure of the
double layer; basic principles of electron transfer at interfaces, Butler-Volmer equation; mass transport control of electro-chemical reactions; controlled potential methods as applied to electrode surface reactions and homogeneous reactions coupled to electron-transfer processes.

Chemistry 615 H(3-0)

**Analytical Separations**
Theory and practice of resolving mixtures into separate components for analysis. Basic theory; liquid-liquid extraction; high performance liquid chromatography; gas-liquid, open bed, ion exchange and exclusion chromatography; electrophoresis.

Chemistry 617 H(3-0)

**Advanced Analytical Chemistry**
Consideration of principles and equilibria pertaining to aqueous and nonaqueous neutralization, redox, complexation, precipitation and potentiometric methods employed in analyses. Statistical considerations of analytical data and analysis.

Chemistry 619 H(3-0)

**Selected Topics in Analytical Chemistry**
Topics of current interest such as: properties of synthetic polymer membranes, advanced instrumental methods, developments in chemical sensors, speciation studies, environmental analytical chemistry.

**MAY BE REPEATED FOR CREDIT**

Chemistry 621 H(3-0)

**Organometallic Chemistry**
A detailed discussion of structure, bonding and preparative methods in organometallic chemistry including the industrial and synthetic applications of organometallic compounds.

Chemistry 623 H(3-0)

**Chemistry of the Main Group Elements**
The chemistry of electron-deficient, electron-precise, and electron-rich rings, inorganic polymers, and organometallic compounds of the main group elements; applications of spectroscopic techniques; industrial uses. Seminars on recent research developments.

Chemistry 627 H(3-0)

**Theoretical inorganic Chemistry**
Aspects of theoretical inorganic and organometallic chemistry including: quantitative and qualitative molecular orbital theory; the bonding and structure of molecules, clusters, and extended arrays; the fragments of organometallic species; orbital correlation diagrams in inorganic reactions; spectroscopic methods and their interpretation.

Chemistry 629 H(3-0)

**Selected Topics in Inorganic Chemistry**
Courses are offered to cover topics of current interest, such as bioinorganic chemistry, inorganic solution phenomena, and the inorganic chemistry of the solid state.

**MAY BE REPEATED FOR CREDIT**

Chemistry 653 H(3-0)

**Advanced Organic Spectroscopy**
Advanced spectroscopic techniques for the determination of organic molecular structure. Techniques include Nuclear Magnetic Resonance Spectroscopy (NMR), Infrared and Raman Spectroscopy, Ultraviolet and Visible Spectroscopy; (absorption, fluorescence, chiroptic), Mass Spectrometry, and an outline of the single-crystal X-ray diffraction method. Separation techniques will be covered, particularly those combining separations and spectroscopic analysis.

Chemistry 655 H(3-0)

**Advanced Organic Synthesis**
A review of modern synthetic reactions and methods in the field of organic chemistry with emphasis on the recent literature.

Chemistry 657 H(3-0)

**Theoretical Organic Chemistry**
Theoretical principles of organic chemistry including stereochemistry, molecular orbital calculations, pericyclic processes (Woodward-Hoffmann rules), and PMO theory.

Chemistry 659 H(3-0)

**Selected Topics in Organic Chemistry**
Courses are offered in major branches of organic chemistry, including: carbohydrate chemistry, steroids and terpenoids, semiochemistry, heterocyclic chemistry, biosynthesis of secondary metabolites, as well as other topics of current interest.

**MAY BE REPEATED FOR CREDIT**

Chemistry 669 H(3-0)

**Selected Topics in Applied Chemistry**
Courses are offered in such topics as electrochemistry, industrial catalysis, chemistry of energy sources, colloids and surface chemistry and polymer chemistry.

**MAY BE REPEATED FOR CREDIT**

Chemistry 681 H(3-0)

**Crystallography**
A general introduction to X-ray analysis of single crystals. Topics include: Geometry of the crystalline state; diffraction of X-rays; Fourier synthesis; methods of structure solution; accuracy and precision of derived parameters.

Chemistry 689 H(3-0)

**Selected Topics in Physical Chemistry**
Courses are offered in such topics as dielectric properties, kinetics, molecular vibrations, fluorescence spectroscopy, X-ray diffraction.

**MAY BE REPEATED FOR CREDIT**

Chemistry 701

**Independent Study**
Independent study outside a student's thesis area under the direction of a staff member and approved by the student's supervisor (or in the case of PhD students the supervisory committee) and Department Head. A report must be submitted on completion of the course.

**MAY BE REPEATED FOR CREDIT**

1. **Degrees and Specializations Offered**

**Doctor of Philosophy (PhD)**

Master of Arts (MA), thesis-based

Master of Communications Studies (MCS), course-based

The Doctor of Philosophy program offers a specialization in the Social Context of Information and Communications Technology.

---

2. **Admission Requirements**

Students applying for admission to the Master’s program require an undergraduate degree in communications or the equivalent, although students with Bachelor’s degrees in other areas will be considered. The doctoral program requires a Master’s degree in communications or the equivalent. Prerequisites for admission to the program which are additional to Faculty of Graduate Studies requirements are:

**Master of Arts (thesis-based)**

a) A written statement of intent (250-500 words)
b) Two samples of written work
c) A detailed curriculum vitae

**Master of Communications Studies (course-based)**

a) A written statement of intent (250-500 words)
b) Two samples of written or professional work
c) A minimum of three years work experience in a communications-related field
d) A detailed curriculum vitae

**Doctor of Philosophy**

a) A statement of research intent (500-1000 words)
b) Three samples of written work
c) A detailed curriculum vitae

---

3. **Application Deadline**

The deadline for the submission of complete applications is 15 January for September admission.

---

4. **Advanced Credit**

MCS applicants must request advanced credit at the time of admission for graduate level courses up to a maximum of one half-course equivalent. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Approval of the Director is required. Advanced credit is not available to MA applicants.

---

5. **Program/Course Requirements**

In addition to Faculty of Graduate Studies requirements, the Graduate Program in Communications Studies requires the following:

**Master of Arts**

a) Three full-course equivalents including core courses Communications Studies 601, Communications Studies 613, and Communications Studies 615.
b) One-half of the above course requirements may be chosen from courses in appropriate research-related areas. One half-course equivalent elective may be selected from other graduate programs;

---

69
one half-course equivalent elective may be Communications Studies 711 - Directed Studies.

Master of Communications Studies
a) Five full-course equivalents including core courses Communications Studies 601, Communications Studies 605 and Communications Studies 615. These courses are chosen between the program’s core and elective courses. One half-course equivalent elective may be selected from other graduate programs; one half-course equivalent elective may be Communications Studies 711 - Directed Studies.
b) Communications Studies 790 - Master’s Project; included as part of the five full course equivalent requirement.

Doctor of Philosophy
a) Six full-course equivalents at the 600 or 700 level in Communications Studies beyond the Bachelor’s degree, three at the Master’s level, and three at the doctoral level.
b) Three full-course equivalents at the 600 or 700 level in Communications Studies beyond the Master’s degree.
c) For students in the Social Context of Information and Communications Technology specialization, at least four half-courses in this area.

6. Additional Requirements
Not applicable.

7. Credit for Undergraduate Courses
Credit for undergraduate courses toward a Master’s program will be given only in the case of the course being developed for graduate level work. Students in the doctoral program will not be given credit for undergraduate courses.

8. Time Limit
Expected completion time is two years for the Master of Arts degree, two years of full-time study or three years of part-time study for the Master of Communications Studies degree, and four years for the Doctor of Philosophy degree. Maximum completion time is four years for the Master of Arts degree, and six years for the Master of Communications Studies and Doctor of Philosophy degrees.

9. Supervisory Assignments

Master of Arts
An interim advisor is assigned by the program in the first year. The student must choose a thesis supervisor by the beginning of the second year.

Master of Communications Studies
The Program Director or designate is the assigned interim advisor for the first two years of the student’s program for full-time and part-time students. The Program Director or designate is the supervisor for part-time students continuing past two years in the program. In the student’s COMS 790 project year, the project supervisor may or may not be the permanent supervisor of record.

Doctor of Philosophy
By April of the first year in program, the student must submit his/her proposed field of research and the name of his/her proposed supervisor for the approval by the program. The supervisory committee must be appointed no later than three months after the appointment of the supervisor.

10. Required Examinations

Doctor of Philosophy – Doctoral candidacy examinations have a written and an oral component. After completing the course work, within a period of ten calendar days, each student will take a three-hour written examination in each of the three fields of study. The student’s supervisory committee sets the examination questions. The oral candidacy examination is taken no later than 20 calendar days after the last written examination.

Final thesis oral examinations are open.

11. Research Proposal Requirements
Students whose research involves human subjects must receive approval from the Faculty of Communications and Culture Ethics Review Committee and the University of Calgary Conjoint Research Ethics Board before beginning data collection.

Master of Arts – Thesis supervisor must approve proposal.

Master of Communications Studies – Project supervisor(s) must approve proposal.

Doctor of Philosophy – In consultation with the supervisory committee, before the candidacy examinations, each doctoral student is required to submit a preliminary thesis proposal that may serve as an additional basis for questioning. A more detailed, Final Thesis Proposal (including an Application for Ethics Approval where relevant), approved by the supervisory committee must be submitted to the graduate coordinator within six months of the successful completion of the candidacy examination.

12. Special Registration Information
None.

13. Financial Assistance
Financial assistance may be available to qualified students. For information on Awards, see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships must submit their applications to the Graduate Programs Office by 1 February.

14. Other Information
Inquiries concerning specific questions about the program and degree requirements should be directed to: Faculty of Communication and Culture, Graduate Programs, Social Sciences 222, University of Calgary, 2500 University Drive NW, Calgary, Alberta, Canada T2N 1N4.

15. Faculty Members/Research Interests
The active research interests of current faculty can be found at http://www.comuc.ucalgary.ca/facultyresearch.

Note: Courses that are considered electives will be offered on the basis of student needs and contingent upon the availability of staff resources.

GRADUATE DEGREE PROGRAMS & COURSES

Graduate Courses

Communications Studies 601 H(3S-0)
Interdisciplinary Approaches to Communications Studies
A foundation seminar that provides an introduction to the field of communication theories and approaches.
Prerequisite: Consent of the Program Director.

Communications Studies 603 H(3S-0)
Critical Perspectives on Television and Film
A seminar that explores theories and perspectives with regard to television and film.
Prerequisite: Consent of the Program Director.

Communications Studies 605 H(3S-0)
Organizational Communication
An examination of the application of theory and methodology of administrative communication processes in complex organizations.
Prerequisite: Consent of the Program Director.

Communications Studies 609 H(3S-0)
Communication Law
An examination of the operation of Canadian law as it relates to the areas of telecommunications, broadcasting and other media.
Prerequisite: Consent of the Program Director.

Communications Studies 613 H(3S-0)
Communication Theory
An examination of the major perspectives in communication theory through a historical analysis of classic works and an overview of contemporary approaches and applications.
Prerequisite: Consent of the Program Director.

Communications Studies 615 H(3S-0)
Communication Research Methods
Designed to provide a fundamental understanding of empirical research in communication. Focus will be on published, data-based research.
Prerequisite: Consent of the Program Director.

Communications Studies 619 H(3S-0)
Communication and Cultural Industries: Policy and Development
An analysis of the governmental and social contexts which influence the current development of telecommunications, communications, cultural industries and new media in Canada.
Prerequisite: Consent of the Program Director.

Communications Studies 623 H(3S-0)
Social and Economic Impacts of Communication and Information Technologies
An examination of the social context of information and communication technologies with regard to patterns of knowledge, power and social relationships.
Prerequisite: Consent of the Program Director.

Communications Studies 625 H(3S-0)
Interpersonal and Small Group Communication
An examination of the theory and research concerning communication processes in face-to-face and small group interaction. Provides opportunities to develop effective practical skills.
Prerequisite: Consent of the Program Director.
GRADUATE DEGREE PROGRAMS & COURSES

Communications Studies 627 H(3S-0)

Mass Media and Democracy in North America
A discussion of how politicians use the media to campaign for office and retain power. Also considers the effects of communication technologies on the nature of democratic politics.
Prerequisite: Consent of the Program Director.

Communications Studies 629 H(3S-0)

Communication Management
An examination of communication management in business organizations. Looks at topics such as marketing, public relations and advertising in the context of rapidly changing business environments.
Prerequisite: Consent of the Program Director.

Communications Studies 641 H(3S-0)

Intercultural and International Communication
An examination of cultural/communication issues and practices in Canadian and international contexts. Examines the role of media systems in processes of culture, development and identity formation.
Prerequisite: Consent of the Program Director.

Communications Studies 711 H(3S-0)

Directed Studies
A research project under the direction of a faculty member.
Prerequisite: Consent of the Program Director.
MAY BE REPEATED FOR CREDIT

Communications Studies 717 H(3S-0)

Selected Topics in Communication
A variety of communication topics based on faculty expertise.
Prerequisite: Consent of the Program Director.
MAY BE REPEATED FOR CREDIT

Communications Studies 790 F(0-6)

Master's Project
A full year course required of all MCS students. Students develop a major research project under the supervision of a faculty member, on the basis of their particular interest.
Prerequisite: Consent of the Program Director.

COMMUNITY HEALTH SCIENCES MDCH

Contact Info
Location: Heritage Medical Research Building
Faculty number: (403) 220-4288/ 210-6689
Fax: (403) 210-8109
E-mail address: chsgrad@ucalgary.ca
Web page URL: http://www.ucalgary.ca/communityhealthsciences

The Department of Community Health Sciences offers a number of degrees and specializations. Details on the course-based Master's degrees are found in the Community Medicine Residency Training Program.

Further information on degree offerings can be obtained from the Department's website.

COURSE-BASED DEGREES

1. Degrees and Specializations Offered
a) Master of Community Medicine (MCM), a course-based degree available only to physicians registered in the Community Medicine Residency Training Program.

b) Master of Disability and Community Studies (MDCS), a course-based degree examines the intersection between community, disability, chronic illness, and marginalizing conditions within a social justice framework. The goal is to generate research, leadership, capacity, innovation, and partnerships. The graduate program attracts professionals across disciplines and sectors. The MDCS is offered in an alternate delivery format (combined face-to-face and online) and has a differential tuition fee.

Students wishing to charter as Counseling Psychologists should apply to the Division of Applied Psychology.

2. Admission Requirements
   a) MCM
      - Currently enrolled in the Royal College Residency Training Program in Community Medicine at University of Calgary
      - Hold an MD or equivalent degree
      - Meet the admission requirements of the Department of Community Health Sciences
   b) MDCS
      - Minimum admission grade point average of 3.0 on a four point scale over the last two full years or equivalent
      - Three years of experience in a field of practice in community rehabilitation
      - A written statement and professional profile of past education and work experience

3. Application Deadline
   a) MCM - 15 January for September admission
   b) MDCS - 15 August for January admission

4. Advanced Credit
   a) MCM - Applicable graduate courses may be considered.
   b) MDCS - A maximum of four half graduate courses, completed at a satisfactory level (minimum B+) and within three years of admission to the graduate program, may be credited toward a student's degree requirements.

5. Program/Course Requirements
   a) MCM
      - A minimum of twelve half-course equivalents, in combination with the Community Medicine Residency Program.
   b) MDCS
      - A minimum of twelve half-course equivalents.

   Course descriptions and detailed outlines of courses offered by the Department of Community Health Sciences are found on the departmental website at http://www.ucalgary.ca/communityhealthsciences/ They are also listed at the end of this Community Health Sciences Calendar entry.

6. Additional Requirements
   None

7. Credit for Undergraduate Courses
   The Department does not normally give credit for undergraduate courses.

8. Time Limit
   a) MCM - Expected completion time is within 6 years.
   b) MDCS - Expected completion time is 3 years (maximum 6 years).

9. Supervisory Assignments
   a) MCM - A Supervisor must be named as part of the admission process. The Supervisory Committee must be named prior to planning the MDCS 649.01: Practicum in Community Medicine, usually in the second term of the second year of the student's program.
   b) MDCS - A faculty member is assigned as a supervisor prior to the final project; supervisory committee is not required.

10. Required Examinations
    a) MCM - A final comprehensive written and oral examination with respect to the course content, plus a practicum evaluation.
    b) MDCS - A capstone project with a public presentation and paper will be required for completion of the degree. For further details, please see the department website.

11. Research Proposal Requirements
    a) MCM - A formal research proposal is not necessary, however a practicum proposal is required.
    b) MDCS – Not applicable.

12. Special Registration Information
    None.

13. Financial Assistance
    Financial assistance may be available to qualified students. For information on awards, please see the Awards and Financial Assistance section of this Calendar.

14. Other Information
    MDCS - Students are encouraged to produce an article for publication.

15. Faculty Members/Research Interests
    Current faculty and their areas of research can be found at: http://www.ucalgary.ca/communityhealthsciences/

THESIS-BASED DEGREES

1. Degrees and Specializations Offered
   a) Doctor of Philosophy (PhD)
   b) Master of Science (MSc)

   Within the thesis-based programs, the student must select a specialization in Biostatistics, Epidemiology, Healthcare Epidemiology, Clinical Epidemiology, Health Services Research, Population/Public Health or Community Rehabilitation and Disability Studies.
   c) Combined MD/Master's and MD/PhD programs are offered under the title "Leaders in Medicine"

   Descriptions of each specialization and its requirements are found on the Departmental website at: http://www.ucalgary.ca/communityhealthsciences/

2. Admission Requirements
   In addition to Faculty requirements, the Department requires:
   a) A BSc, BA, BCR, MD or equivalent degree for admission to the Master of Science program
   b) A Master's degree or equivalent for admission to the Doctor of Philosophy program
   c) A minimum admission grade point average of 3.20 on a four point scale over the last two full years or equivalent
   d) For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 600 (written test), 250 (computer-based test) or 100 (internet-based test)
   e) A statement outlining the applicant's interest and reasons for choosing the program
f) A letter from a faculty member of our Department indicating interest in supervising the applicant.
g) Work and/or research experience in the health system, community rehabilitation and/or disability studies is highly recommended.

3. Application Deadline
The deadline for the submission of complete applications is 15 January for September admission. Students applying to the MD/Master’s or MD/PhD program must apply individually to each program and complete a supplementary application for the Leaders in Medicine Program.

4. Advanced Credit
Open Studies Students may take courses before applying for admission to a graduate program. However, Open Studies Students are not eligible to enroll in the three core courses, Essentials of Biostatistics (MDSC 643.01), Fundamentals of Epidemiology (MDSC 647.01) and Health Research Methods (MDSC 659.02). A maximum of two half-credit courses, completed at a satisfactory level (minimum B+) and within three years of admission to the graduate program, may be credited toward a student’s degree requirements. Completing courses does not guarantee admission into the program.

5. Program/Course Requirements
In addition to Faculty requirements, the Department requires that all students complete two Block Week courses: “Introduction to Community Health Sciences” and “Determinants of Health.”

Master of Science
A minimum of six half-course equivalents (three core courses and three electives) for all specializations. The CRDS specialization requires a minimum of six CORE half courses. See departmental website for specific course requirements for each MSc specialization.

Doctor of Philosophy
A minimum of four half-course equivalents, in addition to the three core courses if not completed previously. The CRDS specialization requires a minimum of four CORE half courses. See departmental website for specific course requirements for each PhD specialization.

Brief course descriptions follow this section. Courses in CRDS specialization are only offered in block weeks. More detailed course schedules and outlines are found on the departmental website at: http://www.ucalgary.ca/communityhealthsciences/

6. Additional Requirements
In addition to the Faculty requirements, the Department requires that all students attend the two research seminars offered weekly and bi-weekly during the academic year. Some students (including CRDS) may be exempt from this requirement. Attendance at Research Integrity Day is required once during a student’s program.

7. Credit for Undergraduate Courses
The Department does not normally give credit for undergraduate courses.

8. Time Limit
Expected completion time is two to three years for the MSc program (maximum four years) and 4-5 years for the PhD program (maximum six years).

Leaders in Medicine
Expected completion time is four to five years for the MD/Master’s program (maximum six years) and six to seven years for the MD/PhD program (maximum eight years).

9. Supervisory Assignments
Applicants must secure a potential supervisor prior to applying for admission. During the second academic term of the first year of the program, each student must confirm a permanent Supervisor. The student and Supervisor complete and submit an Appointment of Supervisor form.

For thesis-based Master’s students, the Supervisory Committee is usually named at the same time as the confirmation of the Supervisor. For doctoral students, the Supervisory Committee must be appointed within three months of the confirmation of the Supervisor. The Supervisor, in consultation with the student and the Graduate Program Coordinator, recommends the Supervisory Committee.

Students in the Leaders in Medicine Program must also have a Supervisory Committee constituted according to the above regulations. Both Master of Science and doctoral students will also be evaluated and advised by a Joint Liaison Committee composed of the Associate Dean (Graduate Sciences Education), Associate Dean (Undergraduate Medical Education), and the Associate Dean (Research) of the Faculty of Medicine.

10. Required Examinations
Doctoral candidacy examinations consist of a written component followed by an oral examination. The student has three weeks to prepare written solutions to three questions. The student and his/her Supervisory Committee establish a concept map outlining the student’s study area and accompanying reading list to prepare for the exam. The Supervisory Committee develops three exam questions that meet the competency requirements as outlined by the department.

In both MSc and PhD programs final thesis oral examinations are open.

11. Research Proposal Requirements
The proposal is usually 12 to 15 single-spaced, typed pages. Appendices are permitted and should include the research instrument and, if the research involves agencies or institutions outside of the Department, their written permission to conduct the research. Doctoral students should include a complete literature review as an appendix.

After approval by the student’s Supervisory Committee and before commencement of data collection, all proposals are submitted to the Conjoint Health Research Ethics Board for ethical review, and most are submitted to the appropriate committee for impact review.

12. Special Registration Information
None.

13. Financial Assistance
Financial assistance may be available to qualified students. For information on awards, please see the Awards and Financial Assistance section of this calendar.

The Department’s deadline for applications to the Open Scholarship Competition is 15 January.

14. Other Information
Medical Science (MDSC) and Community Rehabilitation (CORE) Courses in Community Health Sciences are listed following this section.

15. Faculty Members/Research Interests
Current faculty and their areas of research are on the departmental website at: http://www.ucalgary.ca/communityhealthsciences/

COMMUNITY REHABILITATION COURSES (CORE)

Community Rehabilitation 603  H(2-3)

603.01 Foundations of Rehabilitation
603.02 Advanced Seminar – Assessment & Intervention for Families with Children with Special Needs
603.03 Advanced Seminar-Career Development & Adult Onset Disability
603.04 Community Rehabilitation & the Aging Process
603.08 Law in Community Rehabilitation
603.10 Social Construction & Inter-disciplinarity
603.11 Inter-professional Ethics

Community Rehabilitation 624  F(2-3)

624.15 Locating the Professional in Inquiry-Based Practice

Community Rehabilitation 641  H(3-0)

641 International Disability Research & Policy

Community Rehabilitation 676  F(2-3)

676 Consultation in Human Services & Systems

Community Rehabilitation 691  H(2-3)

Specialization Topics
691.04 Adapting Curriculum & Instruction from K - 12
691.32 Challenging Behaviours in the Classroom: Inclusive Education
691.33 Collaboration, Ethics, Management: Inclusive Education
691.36 Pro-Seminar in Disability, Community & Rehabilitation
691.39 Mental Health & Addictions
691.42 Health Research, Emerging Technologies & Marginalized Groups
691.44 Bioethics & People with Disabilities
691.45 Advocacy, Leadership & Innovation
691.49 Autism & Social Policy

MEDICAL SCIENCE COURSES (MDSC)

Medical Science 643  H(3-2)

Biostatistics
Focuses on the key methods necessary to understand and critically interpret results from common biostatistical analyses, as well as gaining hands-on experience analyzing data using statistical software. Medical Science 643.01 introduces the fundamental concepts of summarizing data and statistical inference, including graphical displays, hypothesis testing, p-values, confidence intervals, and sample size determination. Medical Science 643.02 extends the fundamental concepts to modeling health outcomes using modern regression analysis techniques. Logistic and linear regressions, and their extensions, are covered in detail. Medical
Science 643.03 broadens the techniques to include generalized linear models (GLM), generalized additive models (GAM), Poisson regression, generalized estimating equations (GEE), and proportional hazards regression. In all three courses, students gain hands-on experience analyzing data using statistical software.

643.01 Biostatistics I: Essentials of Biostatistics
643.02 Biostatistics II: Models for Health Outcomes
643.03. Biostatistics III: Models for Repeated Measures Studies and Time-to-Event Studies

**Prerequisites:** Medical Science 643.01 requires no formal prerequisites but good quantitative and mathematical skills are an asset. Medical Science 643.02 requires either 643.01 or a graduate-level introductory course in (bio)statistics. Medical Science 643.03 requires Medical Science 643.02.

**Note:** Admission to a graduate program in Community Health Sciences is normally required for enrolment in the Medical Sciences 643 courses; these courses are not available to Open Studies students.

**Medical Science 644**

**Community Health Sciences Overview**

These courses provide an overview of key foundation areas of research in Community Health Sciences.

644.01. Introduction to Community Health Sciences
644.02. Determinants of Health

**Prerequisite:** Consent of the Instructor.

**Note:** Admission to a graduate program in Community Health Sciences (or Community Medicine Residency Training Program) is required for enrolment in Medical Science 644 courses.

**Medical Science 645**

**Health Care**

The components of the health care system; the structure and function of the Canadian health care system and issues in the organization of health care delivery; environmental and psycho-socio-cultural factors in health, illness and health care; specific problems and issues in health care. Health services research is a multidisciplinary field of scientific investigation, both basic and applied, that studies how social factors, financing systems, organizational structures and process, health technologies and personal behaviours affect access to health care, the quality and cost of health care, and ultimately our health and well-being.

645.01. Systems of Health and the Health Care System
645.06 Health Protection
645.10. Leadership in Health Care Organizations
645.15. Health Policy: Policy Issues in the Canadian Health Care System
645.17. Introduction to the Legal and Ethical Framework of Health Care in Canada
645.18 Foundations of Health Services Research

**Prerequisite:** Consent of the Faculty.

**Note:** Medical Science 645.03: one or more field trips may be required outside regular class time.

**Medical Science 646**

**Seminars in Occupational Health and Medicine**

Current issues in occupational health and medicine; topics to be based on a pre-course survey.

**Prerequisite:** Consent of the Instructor.

**NOT INCLUDED IN GPA**

**Medical Science 647**

**Epidemiology**

Epidemiology is the study of the distribution of diseases in populations and of factors that influence the occurrence of disease. Courses focus on principles and methods of descriptive, analytic and experimental epidemiology, as well as epidemiological methods specific to certain health conditions and the preventive strategies available for various health conditions.

647.01. Fundamentals of Epidemiology
647.05. Epidemiology of Aging
647.07. Research in Infection Control and Hospital Epidemiology Research in Healthcare Epidemiology and Infection Control
647.09. Epidemiology of Chronic Diseases
647.10. Surveillance 1: Data Handling for Infection Control
647.11. Surveillance 2: Principles of Surveillance
647.12. Introduction to Population Health Surveillance
647.15 Clinical Epidemiology

**Prerequisites:** Medical Science 643.01 or consent of the Faculty.

**Note:** Admission to a graduate program in Community Health Sciences is normally required for enrolment in Medical Science 647.01; it is not available to Open Studies students.

**Medical Science 649**

**Practicum in Community Health Sciences**

Clinical or laboratory-based practicum for students enrolled in certain programs of the Department of Community Health Sciences.

**Prerequisite:** Consent of the Faculty.

**Medical Science 651**

**Population/Public Health**

The courses within the Population/Public Health family are intended to provide graduates the opportunity to gain the competencies required to become researchers, planners, and practitioners in fields that require a depth of understanding of the determinants of health, the values and philosophies of population and public health, behaviour change theory, and the role of the ecosystem in promoting and protecting the health of the public.

651.01. Health Promotion Planning
651.02. Health Promotion for Women
651.03. Community Interventions: Theory, Research and Practice
651.04. Fundamentals of Population/Public Health

**Prerequisite:** Consent of the Instructor.

**Medical Science 657**

**Telehealth and E-health**

These online courses explore many aspects of e-health, beginning with an initial focus on telehealth. They reflect a range of practice-based activities and research areas in e-health including business plan development, implementation and evaluation of clinical and learning applications.

657.02. e-Health Sustainability: From Business Case to Policy Development
657.03. Evaluation of e-Health Initiatives

**Prerequisite:** Consent of the Faculty.

**Note:** These are online courses.

**Medical Science 659**

**Methods in Health Research**

An introduction to research design, sampling, measurement, data collection and data analysis applied to health research including evaluation research.

659.02. Health Research Methods
659.03. Health Program Planning and Evaluation
659.04. Introduction to Clinical Trials
659.05. Qualitative Health Research
659.06. Decision Analysis in Health Economic Evaluation
659.07. Administrative Data Analysis Methodology

**Prerequisite:** Medical Science 643.01 or consent of the Faculty.

**Note:** Admission to a graduate program in Community Health Sciences is normally required for enrolment in Medical Science 659.02; it is not available to Open Studies students.

**Medical Science 660**

**On-line Basic Infection Control**

Provides novice Infection Control Professionals (ICPs) with the basic knowledge, tools and strategies needed to do Infection Control in a broad range of health care environments from health care institutions to the community. The purpose of this entry to practice course is 1) to identify and describe the scope of infection prevention and control problems and issues for novice ICPs and 2) to examine and integrate their current expertise with the basic knowledge, tools and strategies needed to examine problems and develop practical solutions in Infection Control.

**Prerequisite:** Consent of Instructor.

**Medical Science 661**

**Science Value and Philosophy**

Philosophical issues which fall into two categories: the Nature of Scientific Inquiry and Science and Moral Value.

**Prerequisite:** Consent of the Instructor.

**Medical Science 679**

**Health Economics I**

Applies basic concepts from economics to the examination of health and health care policy issues such as why we have the kind of health care system we have, various aspects of health care reform, promotion of health, and evaluation in interventions.

**Prerequisite:** Consent of the Faculty.

**Medical Science 705**

**Advanced Methods in Health Research**

Advanced health research designs (both quantitative and qualitative) and measurement techniques.

**Prerequisite:** Medical Science 659.02.

**Medical Science 709**

**Advanced Epidemiology**

Topics to include causal inference, epidemiologic measures, induction latent period, internal and external validity, control of confounding variables and interaction between study factors.

**Prerequisite:** Medical Science 647.01.
Doctor of Philosophy

For students applying with a Master of Science degree, all the requirements for a Master of Science (above) apply, plus a Master of Science degree from a recognized institution with a minimum GPA of 3.3. For exceptional students applying with a Bachelor of Science degree, all the requirements for a Master of Science (above) apply, plus a four-year Honours degree or its equivalent from a recognized institution with a minimum GPA of 3.7 and demonstrated research ability.

3. Application Deadline

Deadlines for the submission of complete applications:
1 February for September admission
1 May for January admission

4. Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

5. Program/Course Requirements

Graduate programs must be chosen in consultation with the supervisor and approved by the Computer Science Graduate Affairs Committee. In addition to the Faculty requirements, the Department requires:

Master of Science (thesis-based)

a) Course Requirements: Computer Science 699, plus
b) 4 additional half-course equivalents. At least two half-courses must be graduate-level computer science courses (labelled CPSC or SENG) and at most one half-course can be an undergraduate course numbered at the 500-level.

We recommend that students who are considering continuing on to a doctoral program or entering certain career paths, select courses that demonstrate some breadth across Computer Science (see PhD Breadth Requirements for courses).

c) Seminar Requirement: Students are required to give a department seminar presentation on a topic related to their graduate research.

6. Additional Requirements

None.
12. Special Registration Information
None.

13. Financial Assistance
Financial assistance may be available to qualified students. For information on awards see the Awards and Financial Assistance section of this Calendar. Successful applicants may be offered departmental teaching assistantships and/or research assistantships in their offer letter.

Students should contact the department for information on scholarship deadlines.

14. Other Information
None.

15. Faculty Members/Research Interests
Information on faculty research interests may be found at: http://www.cpsc.ucalgary.ca/Research/

Registration in all graduate courses requires the approval of the Department of Computer Science.

Computer Science (CPSC)

Graduate Courses

Computer Science 601 H(3-0)

Special Topics in Computer Science
A study of problems of particular interest to graduate students in Computer Science.

MAY BE REPEATED FOR CREDIT

Computer Science 605 H(3-0) (Medical Science 605)

Information Storage and Processing in Biological Systems
Examination of complex biological systems; concepts and fundamentals of biological solutions to information storage and processing; modelling and computer simulation of biological systems; information storage in biological molecules; genetic networks; hierarchical organization of biological information processing in signal transduction, development, evolution, and ecology; biological control systems.

Computer Science 607 H(3-0)

Biological Computation
Examination and modelling of biological networks; focus on the latest developments in biological computing and their theoretical backgrounds, such as: DNA computing; genomic algorithms; artificial chemistries; complex adaptive systems, chaos and fractals; immune system computing; gene regulatory networks; swarm intelligence systems.

Computer Science 609 H(3-0)

Foundations of Multi-Agent Systems
Modelling of agents and properties of multi-agent systems. Communication issues, including interaction and coordination concepts, forming and maintaining organizations, and competitive agent environments. Example systems; the implementation of a multi-agent system will be performed as the assignment.

Note: Credit for both Computer Science 609 and Software Engineering 697 will not be allowed for programs offered by the Department of Computer Science.

Note: Lectures may run concurrently with Computer Science 567.

Computer Science 610 H(3-0)

Compiler Code Generation and Optimization
Compiler code generation and optimization techniques, including register allocation, instruction selection, dataflow analysis, and code optimization techniques using intermediate representations. Implementation of special language features and tools for automated code generation.

Note: Lectures may run concurrently with the first semester of Computer Science 510.

Computer Science 611 H(3-0)

Complexity Theory
Deterministic and non-deterministic time and space complexity; complexity classes and hierarchies; NP-complete problems and intractable problems; axiomatic complexity theory.

Note: Lectures may run concurrently with Computer Science 511.

Note: Computer Science 413 or equivalent is recommended as preparation for this course.

Computer Science 613 H(3-0)

Program Specification, Proof and Transformation
Program proving techniques; approaches to partial and total correctness. Operational abstraction and data abstraction. Mechanical transformation of programs. Machine assisted proof.

Note: Computer Science 417 or 521 or equivalent is recommended as preparation for this course.

Computer Science 617 H(3-0)

Category Theory for Computer Science
Introduction to category theory with applications in computer science. Functors, natural transformations, adjoints and monads, initial and final algebras. Introduction to 2-categories and fibrations.

Note: Computer Science 417, 513, 521 or equivalent is recommended as preparation for this course.

Computer Science 619 H(3-0)

Quantum Computation
Quantum information, quantum algorithms including Shor’s quantum factoring algorithm and Grover’s quantum searching technique, quantum error correcting codes, quantum cryptography, nonlocality and quantum communication complexity, and quantum computational complexity.

Note: Lectures may run concurrently with Computer Science 519.

Computer Science 627 H(3-1T/2)

Computer Viruses and Malware
Study of computer viruses, worms, Trojan horses, and other forms of malicious software. Countermeasures to malicious software. Legal and ethical issues, and some general computer and network security issues.

Prerequisites: Computer Science 313 and 457 or equivalents and consent of the Department.

Note: Lectures may run concurrently with Computer Science 527.

**Computer Science 453 or 553 or equivalent is recommended as preparation for computer science students taking this course.**

**Computer Science 661**

**Algorithms for Distributed Computation**

Basic problems in distributed systems such as symmetry breaking, consensus, resource allocation, and synchronization. The impact of system characteristics, such as models of communication, timing and failure, and of solution requirements, such as correctness and complexity criteria and algorithmic constraints, on the computability and complexity of these problems. Techniques for solving problems under different models will be emphasized.

**Note:** Lectures may run concurrently with Computer Science 561.

**Computer Science 413 or equivalent is recommended as preparation for this course.**

**Computer Science 667**

**Computer Algebra**

Fundamental problems, classical and modern algorithms, and algorithm design and analysis techniques of use in computer algebra. Integer and polynomial arithmetic. Additional problems in computer algebra, possibly including problems in computational linear algebra, factorization, and concerning systems of polynomial equations will be considered as time permits.

**Note:** Lectures may run concurrently with Computer Science 518.

**Computer Science 413, 491 and Pure Mathematics 431, or equivalents, are recommended as preparation for this course.**

**Computer Science 669**

**Cryptography**

An introduction to the fundamentals of cryptographic systems, with emphasis on attaining well-defined notions of security. Public-key cryptosystems; examples, semantic security, One-way and trapdoor functions; hard-core predicates of functions; applications to the design of cryptosystems.

**Prequisites:** Consent of the Department.

**Computer Science 413 and Mathematics 321, or equivalents, are recommended as preparation for this course.**

**Computer Science 671**

**Database Management Systems**

Foundations of database applications and database systems, plus some advanced topics in data management systems will be introduced.

**Computer Science 673**

**Distributed Database Systems**

Introduction to distributed database systems. Topics covered include: architecture, data design, query processing, transaction management, multithreads, object-oriented databases and advanced system issues.

**Computer Science 675**

**Datawarehouse Systems**

Design, development and deployment of datawarehouses. Schemas, models, data organization, OLAP, tuning, data mining and architectural models may be discussed.

**Computer Science 681**

**Research Methods in Human-Computer Interaction**

Application of the theory and methodology of human-machine studies to real systems; theory and practice.

**Computer Science 481 or equivalent is recommended as preparation for this course.**

**Computer Science 683**

**Information Visualization: Theory and Practice**

The theory and development of interactive visual representations of abstract data for the purpose of amplifying cognition. Topics covered include representational issues, perceptual issues, visual literacy, spatial abstraction, and interaction issues.

**Computer Science 583 or equivalent is recommended as preparation for this course.**

**Computer Science 687**

**Computer Animation**

Principles of traditional animation, key framing, parametric and track animation, free form deformation, inverse kinematics, dynamics, spring mass systems, particle systems, numerical integration, Lagrangian constraints, space time constraints, collisions, human animation, behavioural animation, metamorphosis, implicit animation techniques, animating liquids, gases and cloth, motion capture.

**Computer Science 587.**

**Computer Science 689**

**Modelling for Computer Graphics**

**Computer Science 589.**

**Computer Science 691**

**Rendering**

**Computer Science 591.**
Computer Science 695  
H(3-0)

Geometric Algorithms in Geographical Information Systems and Applied Sciences
Examination of advanced geometric algorithms for representation, analysis, and visualization of Geographical Information Systems. Data structures such as progressive mesh, ROAM, multidimensional Delauney triangulation, quadtree and space partitioning. Basic techniques such as incremental, divide and conquer, sweep-plane, and dimension reduction. Algorithms for surface simplification, culling, quality measurement and error reduction. Applications in computer modelling, graphics, motion planning, visualization, and other areas.

Computer Science 697  
H(3-0)  
(formerly Computer Science 601.20)

Biometric Technologies

Computer Science 699  
H(3-0)

Research Methodology in Computer Science
An introduction to and survey of research areas and methods in Computer Science. Professional skills in computer science research such as reviewing, critical evaluation, and the preparation of research proposals.

Note: This course meets for one and one-half hours per week during the Fall and Winter Sessions. 
NOT INCLUDED IN GPA

Computer Science 701  
H(3-0)

Research Topics in Computer Science
In depth course on a focused current research topic in Computer Science. Involves a significant research component and requires substantial background knowledge.

MAY BE REPEATED FOR CREDIT

Computer Science 767  
H(3-0)

Advanced Topics in Multiagent Systems
An in-depth study of a selected subfield of multiagent systems including state-of-the-art research. This is a project-driven course.

Prerequisite: Computer Science 567 or 609.

Computer Science 771  
H(3-0)

Current Trends in Database Technology
Advanced topics chosen from Bioinformatics, Data mining, Mobile Databases, Spatial Databases and Web Databases. There is a large project component.

Computer Science 781  
H(3-0)

Advanced Topics in Human-Computer Interaction
The topics covered will change each year depending on current advances in human computer interaction.

Prerequisite: Computer Science 481 or equivalent. 
Note: Computer Science 581 or 681 or equivalent is highly recommended as preparation for this course.

Computer Science 785  
H(3-0)

Implicit Modelling
A detailed look at modelling using implicit and iso-surface techniques taken in depth review of the literature. Algebraic methods will be followed by skeletal models, field function design, modelling techniques, rendering and texture mapping. Polygonisation algorithms, ray tracing implicit, techniques for animation, meta-morphosis, precise contact modelling, deformation and warping. Algorithms and data structures and implementation details will be presented. Students will be expected to make a new contribution in their project and term paper.

Computer Science 789  
H(3-0)

Advanced Geometric Modelling
Current research topics including spline modelling, Subdivision Surfaces, multiresolution, wavelets, analysis of the subdivision surfaces and reverse subdivision.

Software Engineering (SENG)

Graduate Courses

Software Engineering 605  
Q(3-1)

Industrial Topics in Software Engineering
A study of practical approaches of industrial relevance to students specializing in Software Engineering.

Note: Consult Department (Computer Science or Electrical and Computer Engineering) for details regarding offerings in the upcoming academic year.

MAY BE REPEATED FOR CREDIT

Software Engineering 607  
H(3-1)

Special Topics in Software Engineering
A study of problems of particular interest to students specializing in Software Engineering.

Note: Consult Department (Computer Science or Electrical and Computer Engineering) for details regarding offerings in the upcoming academic year.

MAY BE REPEATED FOR CREDIT

Software Engineering 609  
Q(3-1)

Special Topics in Software Engineering
A study of problems of particular interest to students specializing in Software Engineering.

Note: Consult Department (Computer Science or Electrical and Computer Engineering) for details regarding offerings in the upcoming academic year.

MAY BE REPEATED FOR CREDIT

Software Engineering 611  
Q(3-1)

Requirements Engineering I
The elicitation, modelling, expression, and validation of requirements.

Software Engineering 613  
Q(3-1)

Requirements Engineering II
Applications of requirements engineering to the management of the lifecycle of software development from requirements elicitation through analysis, design, coding, testing, enhancement and reuse.

Prerequisite: Software Engineering 611.

Software Engineering 627  
H(3-1)

Software Engineering Decision Support
Provides methodological foundations of software engineering decision-making and how to apply them to make better decisions about processes, products, and resources as well as for selection of tools and techniques.

Note: Credit for both Software Engineering 625 and 627 will not be allowed.

Software Engineering 629  
Q(3-0)  
(formerly Software Engineering 609.17)

Software Engineering Standards and Models
Formal description of algorithms for current software engineering standards and models. Trends and future development in software engineering standardization.

Software Engineering 637  
H(3-2)

Dependability, Reliability, and Testing of Software Systems
Principles of software dependability techniques, and techniques to improve, to predict, and to test software reliability.

Note: Credit for both Software Engineering 637 and either Software Engineering 631 or 635 will not be allowed.

Note: Engineering 319, Software Engineering 511, and Software Engineering 421, or their equivalents, are recommended as preparation for this course.

Software Engineering 641  
H(3-1)  
(formerly Computer Science 601.33)

Modifiability of Large-Scale Software
Phenomena and approaches involved in the evolution and reuse of large-scale software, including design for modifiability and tool support. Strengths and weaknesses of industrially-current techniques as well as recent research results.

Prerequisite: Consent of the Department.

Note: Software Engineering 401 or equivalent is recommended as preparation for this course.

Note: Lectures may run concurrently with Software Engineering 531.

Software Engineering 651  
H(3S-0)

Half-Course Project
A project in either software development or software best practice and experience.

Note: Credit for both Software Engineering 651 and 652 will not be allowed.

Note: This course is only available to students registered in the course-based MSc in Computer Science with the Software Engineering Specialization.

Note: Students should register for this course in the semester when they will complete it.

Software Engineering 652  
F(3S-0)

Full-Course Project
A project in either software development or software best practice and experience.

Note: Credit for both Software Engineering 652 and either 651 or Electrical Engineering 698 will not be allowed.

Note: This course is only available to students registered in the course-based MSc in Computer Science with the Software Engineering Specialization or to MEng students with a specialization in Software Engineering.

Note: Students should register for this course in the semester when they will complete it.
GRADUATE DEGREE PROGRAMS & COURSES

Software Engineering 697 Q(3-0) (formerly Software Engineering 609.22)

Agent-Based Software Engineering
Principles and practices of engineering agent-based software systems.
Note: Credit for both Software Engineering 697 and Computer Science 609 will not be allowed for programs offered by the Department of Computer Science.

Continuing Education CTED

Contact Info
Location: Education Tower, Room 940
Faculty number: (403) 220-5675
Toll free in Canada: (877) 623-0292
Fax: (403) 282-3005
E-mail address: gder@ucalgary.ca
Web page URL: http://www.educ.ucalgary.ca/gder

1. Degrees and Specializations Offered
Applications for this program are not being accepted for 2009-2010. Interested prospective students are encouraged to review the “Workplace and Adult Learning” specialization in the Master of Education program in the Graduate Division of Educational Research.

The Faculty of Education offers graduate work leading to the Master of Continuing Education (MCE), with a choice of two specializations: Workplace Learning, or Leadership and Development.

2. Program/Course Requirements
Twelve half-courses will be required. Five of these will be program core courses, three will be specialization core courses, two will constitute the final project, and two will be approved electives.

Program Core Courses
Continuing Education 601 – Adults as Learners
Continuing Education 603 – Facilitating Individual Learning in the Workplace
Continuing Education 605 – Facilitating Development Projects
Continuing Education 607 – Theory of Groups
Continuing Education 609 – Research Methods
Specialization Core Courses for Workplace Learning
Continuing Education 613 – Learning, the Workplace and Society
Continuing Education 617 – Program Planning and Evaluation
Continuing Education 619 – Organizational Change and Learning
Specialization Core Courses for Leadership and Development
Continuing Education 621 – Leadership in Organizations
Continuing Education 625 – Leadership Development Examples of Elective Courses
Continuing Education 641 – Facilitating On-Line Learning
Continuing Education 643 – Career Development in Organizational Settings
Continuing Education 645 – Multicultural Issues in Adult Education
Continuing Education 647 – Evaluation in Organizations
Continuing Education 649 – Management Learning
Continuing Education 653 – Strategic Human Resource Management
Continuing Education 657 – Independent Study
Master's Project
Continuing Education 693/695 – Project I, II
Doctoral
Continuing Education 702 – Doctoral Seminar on Workplace Learning

3. Additional Requirements
The Master’s Project constitutes an integration of research, theory and practice. The student’s supervisor must approve a project proposal in advance. Normally, this project will be designed to improve workplace learning or leadership. The final written project report will include the purpose of the project, the means by which research, theory and practice were integrated, the sequential project study/action methods, presentation of results, analysis and discussions, and implications and recommendations for workplace learning or leadership.

4. Credit for Undergraduate Courses
Not applicable.

5. Time Limit
Typical completion time is three years, with a minimum of two years and a maximum completion time of six years.

6. Supervisory Assignments
Students are assigned an interim advisor when entering the program and must have an approved supervisor immediately following their second Spring or Summer Institute.

7. Required Examinations
The project and course work will be the subject of the final oral comprehensive examination.

8. Research Proposal Requirements
Not applicable.

9. Special Registration Information
None.

10. Financial Assistance
Financial assistance may be available to qualified students. For information on awards see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships must submit their application by 1 February.

11. Other Information
A program fee of $3,748 will be charged for each of Years 1 and 2. Each subsequent year the program fee will be $1,249. These program fees are in addition to the normal tuition fees charged for each course taken.

To participate in the program, it is necessary to have access to a computer running Windows or a Macintosh Plus (or higher), in addition to a modern (14,400 bps or higher).

12. Faculty Members/Research Interests
Faculty members and their research interests can be found at http://www.educ.ucalgary.ca

Graduate Courses
Continuing Education 693 H(3-0)

Master’s Project I
The project could involve an in-depth scholarly study, using secondary sources, of a chosen area of workplace learning. Alternatively, it could involve case study analysis of a specific workplace issue or problem. The project will enable the adult learner to develop and demonstrate competence in conducting an investigation at an organizational level. This phase of the master’s project typically involves the preparation and approval of a research proposal and an ethics application, if the research involves human subjects.

Prerequisite: Consent of the Faculty.
Note: Open only to students in the MCE degree program.

Doctoral
Continuing Education 693

NOT INCLUDED IN GPA

CULTURE AND SOCIETY CUSP

Contact Info
Location: Social Sciences Building, Room 222
Faculty number: (403) 220-6357
Fax: (403) 210-8164
E-mail address: gradprog@ucalgary.ca
Web page URL: http://www.comcul.ucalgary.ca/gradprograms

1. Degrees and Specializations Offered
Doctor of Philosophy (PhD)
Master of Arts (MA), thesis-based

2. Admission Requirements
In addition to Faculty of Graduate Studies requirements, the Graduate Program in Culture and Society requires:

Master of Arts
a) A written statement of intent (250-500 words)
b) A current curriculum vitae
c) Two samples of applicant’s written work
d) A completed baccalaureate degree

Doctor of Philosophy
a) A statement of research intent (500-1000 words)
b) A current curriculum vitae
c) Three samples of applicant’s written work
d) Completed baccalaureate and Master’s degrees

3. Application Deadline
The deadline for the submission of complete applications is 15 January for September admission.

4. Advanced Credit
Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Advanced credit is not available to MA applicants.
5. Program/Course Requirements
In addition to Faculty of Graduate Studies requirements, the Graduate Program in Culture and Society requires:

Note: Courses for both the MA and PhD degrees may be selected from graduate-level courses in Communications Studies or Culture and Society. One half-course equivalent elective may be selected from other graduate programs; one half-course equivalent elective may be Culture and Society 711: Directed Studies.

Master of Arts
Six graduate half-courses including core courses Culture and Society 601, Culture and Society 613, and Culture and Society 615

Doctor of Philosophy
Six graduate half-courses.

6. Additional Requirements
Not applicable.

7. Credit for Undergraduate Courses
Credit for undergraduate courses toward a Master's program will be given only in the case of the course being developed for graduate level work. Students in the doctoral program will not be given credit for undergraduate courses.

8. Time Limit
Expected completion time is two years for the Master of Arts degree and four years for the Doctor of Philosophy degree. Maximum completion time is four years for the Master of Arts degree and six years for the doctoral degree.

9. Supervisory Assignments
Master of Arts
An interim advisor is assigned by the program in the first year. The student must choose a thesis supervisor by the beginning of the second year.

Doctor of Philosophy
By April of the first year in program, the student must submit his/her proposed field of research and the name of his/her proposed supervisor for the approval by the program. The supervisory committee must be appointed no later than three months after the appointment of the supervisor.

10. Required Examinations
Doctor of Philosophy
Doctoral candidacy examinations have a written and an oral component. Each student will take a three-hour written examination in each of the three fields of study. This examination will take place over a period of ten calendar days. The student's supervisory committee sets the examination questions. The oral candidacy examination is taken no later than 20 calendar days after the last written examination.

Final thesis oral examinations are open.

11. Research Proposal Requirements
Students whose research involves human subjects must receive approval from the Faculty of Communications and Culture Ethics Review Committee and the University of Calgary Conjoint Research Ethics Board before beginning data collection.

Master of Arts
Thesis supervisor must approve proposal.

Doctor of Philosophy
In consultation with the supervisory committee, before the candidacy examinations, each doctoral student is required to submit a preliminary thesis proposal that may serve as an additional basis for questioning. A more detailed, Final Thesis Proposal (including an Application for Ethics Approval where relevant), approved by the supervisory committee must be submitted to the graduate coordinator within six months of the successful completion of the candidacy examination.

12. Special Registration Information
None.

13. Financial Assistance
Financial assistance may be available to qualified students. For information on Awards, see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships must submit their applications to the Faculty of Communication and Culture Graduate Programs Office by February 1.

14. Other Information
Inquiries concerning specific questions about the program and degree requirements should be directed to: Faculty of Communication and Culture, Graduate Programs, Social Sciences 222, University of Calgary, 2500 University Drive NW, Calgary, Alberta, Canada T2N 1N4.

15. Faculty Members/Research Interests
The active research interests of current faculty can be found at http://www.comuc.ucalgary.ca/facultyresearch

Note: Courses that are considered electives will be offered on the basis of student needs and contingent upon the availability of staff resources.

Graduate Courses

Culture and Society 601 H(3S-0)
Disciplinary Approaches to Culture and Society
An introduction to ways of studying culture and society from a variety of perspectives, including approaches rooted in traditional disciplines and those that have arisen in a more interdisciplinary climate such as cultural studies and critical discourse analysis. Specific problems in culture and society will provide the basis for course work.

Culture and Society 613 H(3S-0)
Cultural Theory
An examination of a wide range of critical social theories, including feminist theory, critical race theory and postcolonial theory will provide students with the analytical sophistication and critical thinking skills necessary to unpack complex cultural and social dynamics and to develop innovative approaches to vexing issues. Students will study a particular problem in culture from one specific point of view appropriate to their intended concentration, including aspects of law, cultural identity, personal identity, gender identity, and literary/artistic culture.

Culture and Society 615 H(3S-0)
Research Methods
Designed to provide a fundamental understanding of research methods appropriate to the study of culture and society.
5. Program/Course Requirements
In addition to Faculty of Graduate Studies requirements, the Department also specifies the following requirements:
All candidates must take a minimum of four full graduate courses, including Drama 605. All candidates must complete a thesis.
Courses required for specific areas are described below:
   a) Directing candidates must enrol in Drama 610, Drama 647 and Drama 649 in the first year.
   b) Design/Technical candidates must enrol in at least four of the decimalized series that includes Drama 623, Drama 625, Drama 627 and Drama 629. Candidates must complete, to the satisfaction of an examining committee, a portfolio and an oral review relating to their design work at the completion of the first three full courses. Details concerning the portfolio and procedures to be followed in case of failure are on file in the Department of Drama office.
   c) Playwriting candidates must enrol in Drama 671 and Drama 673 in the first year. Drama 647 and Drama 649 are also required courses.
   d) Theatre Studies candidates must enrol in Drama 647 and Drama 649 in the first year.
6. Additional Requirements
   a) For Directing candidates, the thesis will consist of the direction of a full-length play and a supporting paper that reflects critically on the production and on the process of its creation.
   b) For Design/Technical candidates, the thesis will consist of the design of a full-length production in two of the following areas: scene design, costume design, light design, sound design. Technical Direction may serve as one of the areas. Pictorial material and a supporting paper that reflects critically upon the production and the process of its creation are also required.
   c) For Playwriting candidates, the thesis will consist of a full-length play and a supporting paper that reflects critically on the play and the process of its creation.
   d) For Theatre Studies candidates, the thesis will be a substantial scholarly research paper that may be in some cases informed by a creative performance project.
7. Credit for Undergraduate Courses
The Department of Drama may give credit for undergraduate courses at the 500-level at the discretion of the supervisor and graduate committee. No more than half of a student's program may be done at the undergraduate level.
8. Time Limit
The Master of Fine Arts degree must be completed within five years.
9. Supervisory Assignments
The graduate committee assigns a supervisor after discussion with the student.
10. Required Examinations
Final thesis oral examinations are open.
11. Research Proposal Requirements
Research proposals are formulated by the student in consultation with the supervisor and approved by the graduate committee. The committee will follow the University's policies on ethical conduct in research in its review of proposals.
12. Special Registration Information
None.
13. Financial Assistance
Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships must submit their applications to the Department by 1 February.
14. Other Information
None.
15. Faculty Members/Research Interests
The interests and research specialties of the staff can be found at http://www.finearts.ucalgary.ca/drama/people

Undergraduate Courses
Only where appropriate to a student's program may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses.

Drama 517 H(2S-2)
Advanced Design for Theatre I
Advanced set, props, lighting, and costume design theory, process and technique for a variety of theatre forms and performance styles.
Prerequisite: Consent of the Department.

Drama 519 H(2S-2)
Advanced Design for Theatre II
Continuation of Drama 517.
Prerequisites: Drama 517 and consent of the Department.

Drama 531 H(2S-2)
Scene Painting I
Theory and technique of scene painting for a variety of theatre genres.
Prerequisite: Consent of the Department.

Drama 533 H(2S-2)
Scene Painting II
Continuation of theory and technique of scene painting for a variety of theatre genres.
Prerequisites: Drama 531 and consent of the Department.

Drama 540 F(4S-0)
Seminar in Drama III
Critical study at an advanced level of the dramatic metaphor as presented in the Department's season of plays; intensive focus on the historical period and theatrical genre of one or two of the season's plays especially.
Prerequisite: Drama 440 or consent of the Department.

Drama 560 F(2S-2)
Performance Creation III
Independent research, creation and facilitation of original solo or group performances.
Prerequisite: Drama 460 or consent of the Department.

Drama 564 F(2S-2)
Drama Education
Research into the nature and function of drama education across a variety of age levels and learning environments. Practical experience in structuring learning activities, developing classroom controls and facilitating creative process and performance may be included.
Prerequisite: Drama 460 or consent of the Department.

Drama 571 H(2S-0)
Directed Studies I
Prerequisite: Consent of the Department.
MAY BE REPEATED FOR CREDIT

Drama 572 F(2S-0)
Directed Studies II
Prerequisite: Consent of the Department.
MAY BE REPEATED FOR CREDIT

Drama 590 F(1S-10)
Professional Theatre Internship
Internship experience in acting; directing; design; dramaturgy; theatre, stage or production management with a local professional theatre organization.
Prerequisites: Fourth-year standing and consent of the Department.

Graduate Courses

Drama 605 H(4S-0)
Methods in Theatre Research
Methods in research in the four areas of specialization in the MFA Theatre program.
Note: Required of all students enrolled in the MFA Theatre program.

Drama 607 H(2S-2)
Director, Designer, and Mise-en-scene
Advanced collaborative methods and techniques for directors, designers and dramaturges, leading to the creation of a mise-en-scene for selected plays of varying styles and genres.

Drama 610 F(2S-3)
Selected Problems in Directing

Drama 623 H(2S-2)
Seminar in Scene Design
MAY BE REPEATED FOR CREDIT

Drama 625 H(2S-2)
Seminar in Costume Design
MAY BE REPEATED FOR CREDIT

Drama 627 H(2S-2)
Seminar in Lighting Design
MAY BE REPEATED FOR CREDIT

Drama 629 H(2S-2)
Seminar in Technical Direction
MAY BE REPEATED FOR CREDIT

Drama 647 H(3S-0)
Studies in Modern Drama I
Studies in the literature, history, theory and criticism of drama, theatre and performance from the late nineteenth century to the mid-twentieth century.
GRADUATE DEGREE PROGRAMS & COURSES

3. Application Deadline
Deadline for submission of complete applications is February 1 for September admission.

4. Advanced Credit
The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

5. Program/Course Requirements
In addition to Faculty requirements, the Department requires:

Master of Arts (thesis-based)

a) For students holding an Honours Economics degree with credits in Economics 395, Economics 389, Economics 387, Economics 495, Economics 497, Economics 557 and Economics 559 or their equivalents, the completion of three full graduate courses in Economics. Such students may be able to complete the degree in one year. In special cases the Department may allow students to substitute one full or two half-courses from a related discipline for one of the elective graduate courses in Economics.

b) For students without an Honours Economics degree or students whose Honours degree in Economics does not include the undergraduate courses specified in (a) or their equivalents, the completion of such courses as are required to raise their competence to the appropriate level. Graduate course requirements for such students are the same as in (a). Such students may be able to complete the degree in two years.

c) The completion of Economics 615, Economics 657, and Economics 659 unless one or more of them is explicitly exempted by the requirements for a specialization.

Master of Arts (course-based)

The departmental academic requirements for the course-based Master of Arts degree are comparable to those for the thesis-based Master of Arts specified above. The differences in the course-based program are:

a) The thesis requirement is replaced by two additional full graduate courses (making a total of five full courses).

b) The courses from a related discipline are increased to one and one-half of the elective graduate courses in Economics.

c) A research paper. The topic may be a limited empirical research project, a critical review of the literature in a particular area, or a critical analysis of a theoretical or important policy problem.

d) An exit requirement consisting of a research defence in an open conference and if unsuccessful a comprehensive written examination.

Master of Arts (thesis-based or course-based) with a Specialization in Health Economics

a) The completion of Economics 679 and Economics 681 as two of the six half-courses required in the thesis-based program, or as two of the ten half-courses required in the course-based program.

b) Students may be excused from the requirement that they take Economics 659. However, if they are contemplating continuing on to a doctoral program, they are cautioned that most doctoral programs will require a course that is equivalent to Economics 659.
The oral candidacy exam will include examination on
general research knowledge, information from the
written examinations and the research proposal.

Students who do not pass their oral candidacy
examination by the twenty-eighth month of their
program shall be required to withdraw from the
program.

11. Research Proposal Requirements
Doctoral students are required to have a thesis
proposal approved by the department before the
candidacy examination.

12. Special Registration Information
None

13. Financial Assistance
Financial assistance may be available to qualified
students. For information on awards, please see the
Awards and Financial Assistance section of this
Calendar. Students applying for scholarships must
submit their applications to the Department by
February 1.

To be eligible for funding beyond the first year, a
student must pass all comprehensive theory
examinations by the beginning of classes of their
second year. To be eligible for funding beyond the
Fall semester of the third year, a student must pass
their comprehensive field examination and their
oral candidacy examination by the beginning of Winter
semester courses in their third year.

14. Other Information
None

15. Faculty Members/Research Interests
The active research interests of the current faculty
can be found at http://econ.ucalgary.ca/people

Undergraduate Courses
Only where appropriate to a student’s program may
graduate credit be received for courses numbered
500-599, which are considered undergraduate
courses.

Economics 527  H(3-0)

World Oil Economics
Analysis of the world oil industry in the post war
period.
Prerequisites: Economics 301 or 309; and 303 or
313; or consent of the Department.

Economics 529  H(3-0)

Microeconomics with Applications
Intermediate microeconomic theory and welfare
economics with special emphasis on applications.
Topics include: demand theory and measurement;
production and cost theory and measurement; market
structure and pricing behaviour; pricing practices;
regulation; antitrust law; and capital budgeting.
Normally restricted to Master of Economics students.
Prerequisite: Consent of the Department. It is
recommended that Economics 521 be taken prior to
or concurrently with Economics 529.
Note: Credit for both Economics 529 and either 309 or
357 will not be allowed.

Economics 537  H(3-0)

Economic Growth
This is an advanced course in Macroeconomics
which explores why some countries are rich and
others are poor.

Economics 541  H(3-0)

Money Theory
A survey of recent work in monetary theory with
primary emphasis on financial issues.
Prerequisites: Economics 341 and 357 and 359; or
consent of the Department.
Prerequisite or Corequisite: Economics 315 or 395.

Economics 557  H(3-0)

Topics in Economic Theory I
Topics in microeconomic theory such as welfare
economics and general equilibrium theory.
Prerequisites: Economics 357 and 389; or consent of
the Department.

Economics 559  H(3-0)

Topics in Economic Theory II
Topics in macroeconomic theory such as
consumption and growth.
Prerequisites: Economics 315 or 359; and 359 and
389; or consent of the Department.

Economics 571  H(3-0)

Competition Policy
The law and economics of competition policy. An
examination of the economics, jurisprudence and
history of competition policy towards mergers, price
fixing, vertical restraints, and monopolization,
primarily in Canada and the United States.
Prerequisite: Economics 471.

Economics 599  H(3-0)

Selected Topics in Economics III
A decimalized course in which topics will vary from
year to year. Consult the timetable or the Department
for the topics available in a given year.
Prerequisites: Economics 357 and 395; or consent of
the Department.
MAY BE REPEATED FOR CREDIT

Graduate Courses
Students are required to have departmental consent
before registering in any of the following courses:

Economics 605  H(3-0)

Advanced Computational Optimization and
Economic Applications I

Economics 607  H(3-0)

Advanced Computational Optimization and
Economic Applications II
Prerequisite: Economics 505.

Economics 611  H(3-0)

Independent Study
MAY BE REPEATED FOR CREDIT

Economics 615  H(3-0)

Advanced Econometrics I

Economics 617  H(3-0)

Advanced Econometrics II
Prerequisite: Economics 615 or consent of the
Department
for further research. The Master of Education is a course-based professional degree.

Curriculum, Teaching and Learning
The specialization offers the opportunity to develop and integrate understandings, within a general curriculum framework, in a variety of fields of study, for example: Curriculum Studies, Gifted education, French education, Language and Literacy education, Mathematics, Science and Environmental education. This includes the study of subject matter, courses, programs, purposes and practices used to teach and learn in formal and informal educational settings. This specialization supports a broad range of quantitative and qualitative research methods and inquiry. (PhD, EdD, MSc, MA, MEd)

Evaluative Contexts
This interdisciplinary approach to education includes philosophy; sociology; comparative, global and cultural education; gender studies; and history. Educational Contexts serves students specializing in these areas who wish to complement the programs of students in all the specializations of GDER. Such interdisciplinary inquiry asks, for example: How do culture, spirituality, social class, gender, and ethnicity influence the perceptions, policies and practices of education as a process and as an institution? How do the language we use and the mental models we construct in order to interpret our world influence the way we make decisions and work with others? How do our histories and philosophies affect how we deal with the world and understand our own selves? Master’s and doctoral projects in the Educational Contexts specialization are based on sound research methodology from the chosen field, and are often interdisciplinary in nature. (PhD, EdD, MA, MEd)

Educational Leadership
This specialization draws upon the social sciences and humanities to prepare researchers and practitioners for the analysis and resolution of issues and problems related to educational policy and the direction and management of schools, school systems, other institutions, and governmental bodies concerned with public and private education. This specialization prepares graduates for administrative and research-related careers with an understanding of organizational change in the field of educational leadership. (PhD, EdD, MA, MEd)

Educational Technology
This specialization is addressed to two audiences:

a) Teachers who are interested in the application of technology in the classroom or who are interested in technology leadership positions;

b) Those who are interested in instructional development in settings outside elementary/secondary schools, e.g., instructional developers in colleges, institutes of technology and universities, military/industrial trainers, health educators, and private training consultants.

Students in this specialization have the opportunity to investigate a broad spectrum of instructional design and development techniques as they apply to newer technologies and to explore new directions in instructional design and development as they emerge in the literature. (PhD, EdD, MSc, MA, MEd)

Gifted Education
This specialization enhances knowledge of the many facets of giftedness and ways to identify and provide educational experiences for gifted individuals. A particular strength is the area of social and emotional development of gifted individuals. Coursework associated with gifted education reflects the most current guidelines of the National Association for Gifted Children and the Council for Exceptional Children regarding graduate programs in gifted education. (PhD, EdD, MA, MEd)

Higher Education Leadership
This specialization offers learners insight into local, national and international scholarly communities and graduates will understand issues in higher education governance and leadership, and analyze ethical and legal issues in leadership and administration, appreciate links between theory and practive, and gain career-enhancing executive preparation. (PhD, EdD, MA, MEd)

Interpretive Studies in Education
Within the Interpretive Studies in Education specialization, education may be understood broadly as a highly complex, contested and living human enterprise. Graduate level research in this specialization examines how aspects of education are socially and historically experienced in the world. This entails attending to the different meanings of teaching as practice and learning as experience, and to how and under what conditions—historical, cultural, linguistic, social and political—those meanings have come to be. Graduate work in Interpretive Studies in Education involves engaging in interpretive forms of inquiry, such as hermeneutics, phenomenology, feminist theory, critical theory, narrative theory, post-structuralism, historical inquiry, semiotics and cultural studies, so as to achieve a deeper, more critical understanding of teaching, learning and educational work more generally. (PhD, EdD, MSc, MA, MEd)

Learning and Teaching Languages is a multi-faculty initiative that includes the Faculties of Education, Humanities and Social Sciences, in an integrated approach to graduate education. It provides opportunities to engage in basic and applied research, to gain professional recognition, and/or an understanding of language and literary studies in English and other languages. In GDER two specialization areas fall under this initiative:

Second Language Teaching (SLT)
This specialization offers students the opportunity to develop and broaden their pedagogical and research skills in learning and teaching a second or additional language by enabling them to

a) pursue the study of topics relevant and, in some cases necessary, to teach in the contemporary educational climate, with courses in second language teaching and learning, multilingual and bilingual education, cultural diversity and technology.

b) seek a new career direction, such as administrators in educational settings that involves second language studies.

c) French teaching/Enseignement du français, allows students to acquire the same knowledge with the focus on French. (PhD, EdD, MA, MEd)
Teaching English as a Second Language (TESL)

This specialization aims to address practical, professional and theoretical interests in the area of Teaching English as a Second Language. This area will be of interest to:

a) University graduates intent on establishing new career directions in both local and international contexts.

b) Individuals seeking to upgrade their educational qualifications for professional recognition.

c) Individuals interested in conducting research under the guidance of a faculty member in this specialization (PhD, EdD, MA, MEd).

Workplace and Adult Learning

There are two routes in the Workplace and Adult Learning specialization:

a) The course-based Master’s program (MED) is an online program designed to provide practitioners with the knowledge and skills to take a leadership role in working with adults in a variety of contexts.

b) Thesis-based degrees (MA, EdD, PhD) in this specialization are commonly interdisciplinary in focus, e.g., adult learning theory, marketing higher education, learning in the workplace. The MA and PhD degrees are normally pursued on campus. The EdD degree is available on campus and online.

GDER Programs Online

The Graduate Division of Educational Research offers online graduate programs via the web and other multi-media components to local, regional, national, and international communities. Programs normally lead to the Master of Education (MED) in Curriculum, Teaching and Learning; Educational Contexts; Educational Leadership; Educational Technology; Gifted Education; Higher Education Leadership; Second Language Teaching; Teaching English as a Second Language; and Workplace and Adult Learning. The thesis-based Doctor of Education (EdD) in the specializations of Educational Leadership (K-12); Educational Technology; Higher Education Leadership; and Workplace and Adult Learning; are offered in direct response to the needs of working professionals in a variety of settings, including administrators, program directors, and deans in colleges and institutes of technology.

Contact: GDER at gder@ucalgary.ca or (403) 220-5675 or toll free in Canada (877) 623-0292.

2. Admission Requirements

In addition to the Faculty of Graduate Studies requirements, the Graduate Division of Educational Research requires:

Doctor of Philosophy (PhD)

A thesis-based Master’s degree in an appropriate field. Outstanding applicants holding Master’s degrees without thesis may be considered. A minimum grade point average of 3.50 on a four-point scale in a Master’s degree program

A written statement indicating the applicant’s reasons for wishing to pursue a graduate program in the Graduate Division of Educational Research

Where appropriate, candidates will be expected to have, or to obtain, relevant practical experience in their area of specialization

For applicants required to prove proficiency in English, a TOEFL score of 580 (written test), 237 (computer-based test) or 93 (internet-based test)

Doctor of Education (EdD)

a) A course or thesis-based Master’s degree in an appropriate field

b) A minimum grade point average of 3.50 on a four-point scale in a Master’s degree program

c) A written statement indicating the applicant’s reasons for wishing to pursue a graduate program in the Graduate Division of Educational Research

d) Candidates will be expected to have, or obtain, relevant practical experience in their area of specialization

For applicants required to prove proficiency in English, a TOEFL score of 580 (written test) or 237 (computer-based test), or 93 (internet-based test)

Admission Portfolio for Doctoral Applicants

Applicants to the Doctor of Philosophy and Doctor of Education programs are encouraged to submit an Admission Portfolio containing examples of their work. The purpose of the Admission Portfolio is to give applicants the opportunity to provide additional documentation that demonstrates their suitability and qualification for doctoral studies. The Admission Portfolio is particularly relevant for program applicants who do not hold a thesis-based Master’s degree.

The Doctoral Admission Portfolios must include a Table of Contents and an Executive Summary that outlines the contents of the Portfolio.

The Doctoral Admission Portfolio may contain the following:

- Thesis (if applicable)
- Reports
- Research grants or scholarships
- Articles
- Curriculum documents
- Non-print materials, e.g., multimedia
- Relevant prior learning (see below)
- Personal statement documenting research skills and interests (for PhD applicants)
- Personal statement documenting research and professional skills and interests (for EdD applicants)

Relevant Prior Learning Considerations

- Personal continuing education/training
- Results in these continuing education efforts
- Experience in a field related to the aspired degree
- Management of people, resources, finances, situations
- Increasing or varying responsible positions in organizations related to the aspired degree
- Work-related products, e.g., reports, programs of learning or training, handbooks, videos, manuals, workshops, seminars
- Evidence of personal growth in knowledge, understanding, management skills, and intellectual resources
- Evidence of innovation
- Evidence of leadership, co-ordination

Master’s Programs

General

a) A written statement indicating the applicant’s reasons for wishing to pursue a graduate program in the Graduate Division of Educational Research

b) For students required to prove proficiency in English, a TOEFL score of 580 (written test) or 237 (computer-based test), or 93 (internet-based test)

Curriculum, Teaching and Learning Specialization

a) Normally, an acceptable teaching certificate and teaching experience

Second Language Teaching Specialization

Teaching English as a Second Language Specialization

a. A minimum of two years teaching experience for the TESL specialization

b. Relevant instructional experience for the SLT specialization

c. A written statement and professional profile of past education and work experience

d. An introductory level of linguistics knowledge and/or second language theory

e. Knowledge of an additional language, preferred.

3. Application Deadline

MED – Online

Curriculum, Teaching and Learning; Educational Contexts; Educational Leadership; Educational Technology; Gifted Education; Higher Education Leadership; Second Language Teaching; Teaching English as a Second Language; Workplace and Adult Learning

1 February for July or September admission

15 August for January admission

EDD – Online

Educational Leadership; Educational Technology; Higher Education Leadership; Workplace and Adult Learning

1 February for July admission

15 August for January admission

MED – On-Campus

Curriculum, Teaching and Learning; Educational Contexts; Educational Leadership; Educational Technology; Gifted Education; Interpretive Studies in Education; Second Language Teaching; Teaching English as a Second Language; Workplace and Adult Learning

1 February for July or September admission

15 August for January admission

Thesis-Based On-Campus Degrees

PhD, EdD, MSc, MA

1 February for July or September admission

4. Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/program, or for courses taken to bring grade point average to a required level for admission.

5. Program/Course Requirements

For the most current program information, visit our website.

In addition to the requirements of the Faculty of Graduate Studies, the Faculty of Education requires:

Doctor of Philosophy, Doctor of Education

These degree programs may be completed on a full-time or part-time basis.

a) A minimum of one and one-half full-course equivalents, including Educational Research 700 (a full course) the first year of program.

The remaining required half-course is normally a course in research methods suited to the student’s area of research;
b) Additional graduate courses or seminars as determined by the supervisor in consultation with the student. The number of courses required for program completion must be approved by the Associate Dean of the Division and be finalized no later than the beginning of the second year of program.

**Master of Arts, Master of Science**

These degree programs may be completed on a full-time or part-time basis.

a) One full-course equivalent in research methods
b) One full-course equivalent in the student's area of specialization
c) Additional graduate courses or seminars as determined by the supervisor in consultation with the student. The number of courses required for program completion must be approved by the Associate Dean of the Division and be finalized no later than the beginning of the second year of program.

**Master of Education**

This degree may be done on a full-time or part-time basis on campus, or online.

a) A minimum of six full courses
b) One full-course equivalent in research methods
c) Two full-course equivalents in the student's area of specialization
d) Additional graduate courses or seminars as determined by the supervisor in consultation with the student and approved by the Associate Dean of the Division

**6. Additional Requirements**

None.

**7. Credit for Undergraduate Courses**

The Division does not normally accept undergraduate courses for credit toward graduate degrees.

**8. Time Limit**

Expected completion time for full-time students is two years in thesis-based Master's programs, three years in course-based programs and four years in doctoral programs. Maximum completion time is four years for thesis-based Master's programs, and six years for course-based Master's programs and doctoral programs.

**9. Supervisory Assignments**

A supervisor is normally appointed at the time of admission.

**10. Required Examinations**

Written Candidacy Process:

A written paper will be prepared by the student to demonstrate his/her knowledge of the Field of Study and preparedness to conduct research in this field. The paper will be a response to one written question normally selected by the student from two or three questions prepared by the supervisor with the assistance of the supervisory committee members. The questions are to take into consideration a list of readings agreed to by the supervisory committee and the student as defining the student's Field of Study. These questions must be approved by the GDER Associate Dean or designate before being presented to the student.

On the date assigned to begin the Written Paper, the student may pick up the questions from the Graduate Secretary. The student then has twenty-eight days to prepare, independently, the paper. The paper normally will be twenty-five to forty double-spaced pages in length, exclusive of references and should use the standard format normally used within a given Area of Specialization. The student will provide a copy of the question and the paper to each member of the examining committee at least two weeks in advance of the Oral Examination.

Final thesis oral examinations are open.

**11. Research Proposal Requirements**

Questions on research proposals are not examined during the oral candidacy examination. Doctoral thesis proposals must be approved before the candidacy examination.

**12. Special Registration Information**

None.

**13. Financial Assistance**

Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships must submit their applications to the Division by 1 February.

**14. Other Information**

For information about Graduate Certificates, Graduate Diplomas, and Continuing Professional Development opportunities on-campus and online, please visit our website.

**15. Faculty Members/Research Interests**

Current faculty members and their areas of interest can be found at [http://www.educ.ualberta.ca](http://www.educ.ualberta.ca)

GRADUATE DEGREE PROGRAMS & COURSES

Educational Research 781 H(3-0)

Conceptualizing Curriculum Research
Analysis of different approaches to curriculum research, especially assumptions, meaning frameworks, and views of the theory/practice relationship.
Prerequisite: Consent of the Division.
Note: Normally restricted to Doctoral students.

Educational Research 783 H(3-0)

Conceptualizing Instructional Research
Critical examination of various theoretical frameworks and representative studies in the literature of research on instruction.
Prerequisite: Consent of the Division.
Note: Normally restricted to Doctoral students.

Educational Research 785 H(3-0)

Advanced Study of Interpretive Curriculum Discourses
An advanced study of interpretive curriculum discourses focusing on cutting-edge examples of such work.
Prerequisite: Consent of the Division.
Note: Normally restricted to Doctoral students.

Educational Research 789 H(3-0)

Advanced Curriculum Study
Research and issues in the study of a variety of topics and areas concerning the school curriculum.
Prerequisite: Consent of the Division.
Note: Normally restricted to Doctoral students.
MAY BE REPEATED FOR CREDIT

Educational Research 797 Q(1.5-0)

Advanced Special Topics
Prerequisite: Consent of the Division.
Note: Normally restricted to Doctoral students.
MAY BE REPEATED FOR CREDIT

Educational Research 798 F(3-0)

Advanced Special Topics
Prerequisite: Consent of the Division.
Note: Normally restricted to Doctoral students.
MAY BE REPEATED FOR CREDIT

ENGINEERING PROGRAMS

Contact Info
Location: ENC202
Faculty number: (403) 220-5738
Fax: (403) 284-3697
E-mail address: schulich@ucalgary.ca
Web page URL: http://wcm2.ucalgary.ca/schulich/

1. Degrees and Specializations Offered
Doctor of Philosophy (PhD)
Master of Science (MSc)
Master of Engineering (MEng), thesis and course-based

Areas: Chemical and Petroleum, Civil, Electrical and Computer, Geomatics, and Mechanical and Manufacturing Engineering.

In addition, the Schulich School of Engineering offers PhD, MSc, and MEng degrees with interdisciplinary specializations in Environmental Engineering and Energy & Environment.

The University of Calgary and the University of Alberta offer a joint Biomedical Engineering Program. Further information on all programs and specializations is provided under individual separate listings in this Calendar.

Master's thesis and doctoral Graduate Students are normally admitted as full-time students. The Head of the Department or designate may however, approve requests for registration as part-time or transfer from a full-time to a part-time status.

2. Admission Requirements
The Schulich School of Engineering has established common minimum student admission requirements for all its graduate programs, with the exception of students with project management background entering the Manufacturing Engineering program. Departments and graduate programs may have additional requirements over and above those of the Schulich School of Engineering.

In addition to the Faculty of Graduate Studies requirements, the Schulich School of Engineering minimum requirements are as follows:

Master's Programs
a) BSc degree or equivalent
b) A minimum admission grade point average of 3.00 on a four-point scale or equivalent.
c) Holders of BSc or equivalent degrees in Science, Medicine, Kinesiology or other Engineering, if accepted, may be required to take additional senior undergraduate engineering courses. These courses will not be counted for credit toward their graduate program. Holders of Bachelor's degrees from disciplines other than Engineering, Science, Medicine or Kinesiology are required to complete a minimum of 10 make-up undergraduate engineering half-courses with a minimum GPA of 3.00 on a four-point scale before admission.

In exceptional circumstances, students who do not meet the entrance requirements (but have BSc degrees in the same or equivalent Engineering discipline and a GPA of at least 2.7) may be considered for admission after upgrading requirements have been met. These include a minimum of 6 make-up half-courses, or 3 make-up half-courses if they have acceptable industrial experience, with a minimum grade of 3.00 on a four-point scale in each course. At least 4 or 2 of these half-courses, respectively, must be graduate level courses.

Doctor of Philosophy
a) MSc degree, or transfer from MSc program, or, in exceptional cases, BSc degree or equivalent.
b) A minimum admission grade point average of 3.50 on a four-point scale or equivalent.
c) Transfer from MSc to PhD program is allowed only after the successful completion of all courses required for the MSc degree with a minimum GPA of 3.50.

Holders of MSc or equivalent degrees in Science, Medicine, Kinesiology or other Engineering, if accepted, may be required to take additional senior undergraduate Engineering courses. These courses will not count for credit toward their doctoral program.

3. Application Deadline
See departmental, program and specialization sections.

4. Advanced Credit
The applicant must make advanced credit requests as part of the admission process, in consultation with the proposed supervisor and the graduate coordinator. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Students who receive advanced course credit when admitted to a Master's program may be able to accelerate the completion of their degree. Fee credit will not be given for courses accepted for advanced credit. Please note that minimum program fees are in effect.

5. Program/Course Requirements
The Schulich School of Engineering has established common minimum program/course requirements for all its graduate programs. Departments and graduate programs may have additional requirements over and above those of the Schulich School of Engineering. In addition to Faculty of Graduate Studies requirements, the Schulich School of Engineering minimum requirements are as follows:

Master of Engineering (course-based)
A minimum of ten half-courses, of which at least six must be graduate courses.

Master of Engineering (thesis-based)
A minimum of four graduate half-courses.

Master of Science
A minimum of four graduate half-courses.

Doctor of Philosophy
A minimum of two graduate half-courses beyond the Master of Science course requirements. For students who transfer from an MSc program, 6 graduate half-courses beyond the BSc, or equivalent, degree.

All Degree Programs
After consultation with the supervisor and the graduate coordinator, courses outside the Department or the University may be approved towards the degree requirements.

6. Additional Requirements
None.

7. Credit for Undergraduate Courses
See Section 5.

8. Time Limit
Typical completion times are two years for full-time students in a Master's program and three to four years in a doctoral program. The Master of Engineering (course-based) can be completed in one year. Maximum completion times are four years for a Master of Science and a Master of Engineering (thesis-based), and six years for a Master of Engineering (course-based) or doctoral program.

9. Supervisory Assignments
Supervisors and supervisory committees are assigned according to the Faculty of Graduate Studies Handbook of Supervision and Examination and are approved by the Department Head or the graduate coordinator.

10. Required Examinations
MEng (course-based) Comprehensive Examination
None.
12. Special Registration Information

None.

13. Financial Assistance

Candidates are typically admitted either self-funded or with financial support provided by an interested supervisor or the department. For information on awards, see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships must submit their applications to the Department by 1 February.

14. Other Information

Students enrolled in any of the engineering graduate programs may opt, in addition to their normal required course load, to undertake an international project outside Canada. The duration of the project should be between 4 and 6 months. Upon successful completion (on a credit/fail basis) of ENGG 689, the statement “International Graduate Internship Project” will appear on the parchment. The course is not repeatable for credit.

15. Faculty Members/Research Interests

See departmental, program and specialization sections.

ENGINEERING, CHEMICAL AND PETROLEUM ENGINEERING

ENCH

Contact Info

Location: Schulich School of Engineering, Room B202
Phone number: (403) 220-4802
Fax number: (403) 284-4852
E-mail address: chemandpetenggrad@ucalgary.ca
Web page URL: http://www.eng.ucalgary.ca/

1. Degrees and Specializations Offered

Degrees:
Doctor of Philosophy (PhD)
Master of Science (MSc), thesis-based
Master of Engineering (MEng), thesis-based and course-based

The Department offers specializations in Chemical Engineering, Petroleum Engineering, Environmental Engineering and Biomedical Engineering. The Master of Engineering degree is also offered with specialization in Petroleum Reservoir Engineering, Petroleum Exploration Engineering and Reservoir Characterization (Interdisciplinary). For further information on the Reservoir Characterization (Interdisciplinary) and Energy and Environment (Interdisciplinary) specializations, see the separate listings in this Calendar.

The Universities of Calgary and Alberta offer a joint Biomedical Engineering Program. Further information can be obtained from the separate listing in this Calendar.

For registration status of thesis-based graduate students, see “Engineering Programs”.

2. Admission Requirements

In addition to the requirements of the Faculty of Graduate Studies and the Schulich School of Engineering, the Department requires:

Master of Engineering with Specialization in Petroleum Reservoir Engineering
• A Bachelor’s degree in Chemical, Oil and Gas, or Petroleum Engineering

Exceptionally, students with a Bachelor’s degree in another branch of Engineering and substantial experience in the petroleum industry may be considered for admission.

Doctor of Philosophy
• A Master’s degree in Chemical, Oil and Gas, or Petroleum Engineering

Applicants to a Master’s program who hold a Bachelor’s degree with Distinction may be considered for later transfer to the doctoral program.

3. Application Deadline

Deadlines for submission of complete applications for students with international transcripts:
15 March for September admission
15 July for January admission
15 November for May admission

Deadlines for submission of complete applications for students with Canadian and US transcripts:
15 July for September admission
15 November for January admission
15 March for May admission

4. Advanced Credit

See “Engineering Programs.”

5. Program/Course Requirements

See “Engineering Programs.”

6. Additional Requirements

The Department has established the following two graduate courses as required courses for the Master of Science and Doctoral degrees:

Experimental Design and Error Analysis (ENCH 701)
Advanced Mathematical Methods in Engineering (ENCH 705)

 Regardless of their specialization, all Master of Science students must take at least one of these two required courses while all doctoral students must take both required courses.

In addition, core courses have been established for the Chemical Engineering specialization: ENCH 613, 626, 629, 631 and 633; and for the Petroleum Engineering specialization: (ENCH 621, 629, 647, 657 and 677).

All Master of Science students in the Chemical Engineering and Petroleum Engineering specializations must complete at least one of the core courses of their specialization and all doctoral students must complete at least two of the core courses of their specialization. Requirements for other specializations are listed under the corresponding sections.

All Master of Science and Doctoral students (Chemical, Petroleum, and Energy & Environment specializations) are required to register and participate in the Research Seminar course (Chemical Engineering 601) for each of the first two terms of their degree program. Each student must also present one research seminar in ENCH 601. For more details, students must refer to the guidelines for the Research Seminar course. Requirements for other specializations are listed under the corresponding sections.

7. Credit for Undergraduate Courses

Not applicable.
### Graduate Degree Programs & Courses

#### Chemical Engineering 611 H(3-0)
**Advanced Topics in Fluid Mechanics**

#### Chemical Engineering 613 H(3-0)
**Advanced Topics in Mass Transfer**
Advanced concepts in mass transfer in multiphase systems. Mass transfer with simultaneous chemical reaction and heat transfer.

#### Chemical Engineering 615 H(3-32)
**Model Predictive Control**

#### Chemical Engineering 617 H(3-32)
**Modelling and Identification Advanced Control**

#### Chemical Engineering 619 H(3-0)
**Chemical Engineering 619**
Special Problems
Advanced studies on specialized topics in chemical, petroleum, biochemical and environmental engineering.

**Chemical Engineering 620 F(0-4)**
Graduate Project
Individual project in the student’s area of specialization under the guidance of a faculty member. A written proposal, one or more written progress reports, and a final written report are required. An oral presentation is required upon completion of the course. Open only to students in the MEng (course-based) program.

**Prerequisite:** Consent of the Department Head or Associate Head Graduate Studies.

**Note:** Credit for both Chemical Engineering 620 and 699 will not be allowed.

#### Chemical Engineering 621 H(3-0)
**Reservoir Simulation**
Enhanced recovery modelling (generalized black-oil models, compositional and miscible), well treatment, grid orientation. New developments in gridding, thermal models, naturally fractured reservoirs, modelling of induced fractures (hydraulic and waterflood), reservoir geomechanics, and practical aspects of conducting simulation studies.

**Prerequisite or Corequisite:** Petroleum Engineering 523 or equivalent.

### Chemical Engineering 623 H(3-0)
**Chemical Reactor Design**
Advanced study of design and operation of chemical reactors for both homogeneous and heterogeneous systems, batch, continuous flow stirred tank, tubular and multi-bed adiabatic reactors. Cold shot cooling in reactors. Optimal temperature gradients and yields. Catalyst effectiveness factors and optimal control with decaying catalysts. Analysis of sulphur plant reactor design including cost optimization.

#### Chemical Engineering 625 H(3-0)
**Advanced Topics in Heat Transfer**

#### Chemical Engineering 627 H(3-0)
**Chemical Process Simulation**
Object oriented programming applied to the design of a steady state chemical process simulator via the sequential modular approach and by the equation based approach. Material and energy balances for systems of process units.

#### Chemical Engineering 628 H(3-0)
**Secondary and Tertiary Recovery**

**Prerequisite:** Petroleum Engineering 525 or equivalent.

#### Chemical Engineering 631 H(3-0)
**Advanced Topics in Fluid Mechanics**

#### Chemical Engineering 633 H(3-0)
**Chemical Thermodynamics**
Advanced application of thermodynamic principles. Calculation of thermodynamic properties; ideal and non-ideal solution theory; calculation of phase equilibria; properties of reacting mixtures.

**Prerequisite:** Chemical Engineering 427 or equivalent.

#### Chemical Engineering 639 H(3-0)
**Applied Numerical Methods in Engineering**

**Prerequisite:** Engineering 407 or equivalent.

**Note:** Knowledge of a programming language is necessary.
Chemical Engineering 643 H(3-0) (Environmental Engineering 641)
Air Pollution Control Engineering
Introduction to air quality and air pollution. Impact of air pollution and greenhouse gases on health and climate change. Energy and air pollution. Fundamentals of fossil fuel combustion and related air pollution. Pre-combustion air pollution control strategies; fossil fuel cleaning/refinery, renewable energy (wind, solar, biomass, etc.), and alternative energy sources (hydrogen, etc.) in-combustion air pollution control. Post-combustion air pollution control. Industrial air pollution control. Control of particulate matter. Control of VOCs, SOx, and NOx. Adsorption and absorption of air pollutants. GHG emission control. Indoor air quality engineering. Recent advances on related topics.
Note: Credit for both Chemical Engineering 643 and Environmental Engineering 641 will not be allowed.

Chemical Engineering 645 H(3-0) (Environmental Engineering 661)
Industrial and Produced Wastewater Treatment
Sources and characterization of industrial wastewater. Treatment objectives and regulations. Unit and process design. Physical/chemical treatment including sedimentation, coagulation, filtration, adsorption, absorption, ion exchange, membrane processes, and pH adjustment.
Note: Credit for both Chemical Engineering 645 and Environmental Engineering 661 will not be allowed.

Chemical Engineering 647 H(3-0)
Thermal Recovery Methods

Chemical Engineering 649 H(3-0)
Naturally Fractured Reservoirs
Classification and characterization of naturally fractured reservoirs. Drilling and completion methods. Production characteristics. Tight gas reservoirs. Reserve estimation. Emphasis is placed on the relationship between geology, log interpretation, well testing, and primary-secondary recovery of hydrocarbons from naturally fractured reservoirs.

Chemical Engineering 651 H(3-0) (formerly Chemical Engineering 619.51)
Engineering Fuel Cells
Overview of Fuel Cells. Comparison of fuel cells with other energy technologies. Types of fuel cells; electrochemical reactions; materials and balance of plant.
Note: Credit for both Chemical Engineering 651 and Chemical Engineering 619.51 will not be allowed.

Chemical Engineering 653 H(3-0)
Horizontal Wells for Petroleum Production
Drilling and completion methods for horizontal wells; mathematical analysis of steady state flow to horizontal wells and well combinations; pseudo steady state and constant well bore pressure models; theoretical comparisons of predicted performance and coring behaviour of horizontal and vertical well patterns; performance in fractured reservoirs; potential for horizontal wells in heavy oil and bitumen production; basic conceptual ideas of steam-assisted gravity drainage.
Prerequisite: Petroleum Engineering 523 or equivalent.

Chemical Engineering 657 H(3-0)
Advanced Reservoir Engineering
Formulation and solution of reservoir-engineering problems including combination of variables, Laplace transform, approximate Integral methods, and solution methods of moving boundary problems. Examples from thermal processes (e.g., hot water flushing, SAGD), different recovery mechanisms (e.g., imbibition, expansion drive, solution-gas drive), well testing problems and naturally fractured reservoirs.
Prerequisite: Petroleum Engineering 523 or equivalent.

Chemical Engineering 659 H(3-0)
Advanced Cell and Tissue Engineering
Current challenges in tissue engineering. Focus on specific tissues. Course topics include a brief biology review, cell fate processes, stem cells, tissue microenvironments and mass transfer, biomaterials, bioreactors, and clinical delivery of tissue engineered constructs.
Prerequisite: Consent of the Instructor.

Chemical Engineering 661 H(3-0)
Geostatistics for Reservoir Characterization
Statistical/probability concepts, exploratory data analysis, spatial structural analysis, estimation theory (Kriging), integration of auxiliary information and conditional stochastic simulation. Special emphasis on reservoir characterization and the particular problems encountered in that area. The geostatistical methodology for reservoir characterization will be demonstrated on a fluvial reservoir example.
Prerequisite: Petroleum Engineering 523 or equivalent or consent of the Department.

Chemical Engineering 665 H(3-0) (Environmental Engineering 665)
Wastewater Issues for the Oil and Gas Industry
Note: Credit for both Chemical Engineering 665 and Environmental Engineering 665 will not be allowed.

Chemical Engineering 677 H(3-0)
Advanced Topics in Oil and Gas Production
Problems related to production of conventional oil, heavy oil and natural gas; analysis of the interactions of oil, water and gas, effects of fluid properties, rock structure and capillary, gravity and viscous forces acting on the reservoir system; application to the design of improved oil and gas recovery methods.

Chemical Engineering 687 H(3-0) (formerly Chemical Engineering 619.87)
Petroleum Economics
Economic principles and risk management practices in the petroleum industry. Project selection; investment ranking; budgeting; and portfolio development. Decision making under uncertainty and risk.
Note: Credit for both Chemical Engineering 687 and Chemical Engineering 619.87 will not be allowed.

Chemical Engineering 699 F(0-4)
Special Project
Project study conducted under the guidance of a faculty member and intended to expose the student to the tools, techniques and basic aspects of research. A written comprehensive report and one or more written progress reports are required.
Prerequisite: Consent of the Department Head or Associate Head Graduate Studies.
Note: Credit for both Chemical Engineering 699 and 620 will not be allowed.
Note: May be repeated once for credit.

Chemical Engineering 701 H(3-0) (Environmental Engineering 621)
Experimental Design and Error Analysis
Statistical analysis and design of engineering experiments. Random variables and sampling distributions; estimation and hypothesis testing; concepts of central tendency, variability, confidence level; correlation, regression and variation analysis; robust estimation; experiments of evaluation; experiments of comparison; factorial experiments (analysis of variance); experimental designs (including randomization, replication, blocking and analysis of covariance).
Note: Intended for MSc/PhD students. ME and students may be able to register with Instructor’s Permission. Credit for more than one of Chemical Engineering 701, Environmental Engineering 621, Chemical Engineering 619.45 and 619.82 will not be allowed.

Advanced Mathematical Methods in Engineering
Review of theory of linear algebra. Review of ordinary differential equations; linear, non-linear; series solutions; special exact solutions; applications. Partial differential equations; geometric interpretation; characteristic curves; separation of variables; the Sturm-Liouville problem and Fourier series;
### GRADUATE DEGREE PROGRAMS & COURSES

**Civil Engineering**

#### Areas of Study:
- Civil Engineering
- Biomedical Engineering
- Energy and Environment (Interdisciplinary)

#### Specializations include:
- Avalanche Mechanics
- Computational Mechanics
- Bituminous Materials
- Environmental Engineering
- Geotechnical Engineering
- Project Management
- Transportation Engineering
- Water Resources

#### 2. Admission Requirements

**Master's Programs**
- See "Engineering Programs."

**Doctor of Philosophy**
- See "Engineering Programs."

**Project Management Specialization**
- A minimum of five years industrial experience, except in thesis-based degrees

#### 3. Application Deadline

- Deadlines for submission of complete applications:
  - Canadian and Permanent Resident Applicants
    - 1 May for September admission
    - 1 September for January admission
    - 1 January for May admission
  - International Admissions
    - 1 April for September admission
    - 1 August for January admission
    - 1 December for May admission

#### 4. Advanced Credit

- The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Successful completion of "make-up" work does not guarantee admission. It is recommended that applicants discuss this option with the Departmental Graduate Student Advisor before taking any courses.

#### 5. Program/Course Requirements

**Note:** If the student does not consult the supervisor before selecting courses, Department approval may be withheld.

- **Master of Science**
  - a) A minimum of four and a maximum of eight half-courses
  - b) Research and thesis work as major components of the program

- **Master of Engineering (thesis-based)**
  - a) Five to eight half-courses
  - b) A thesis related to original analysis and/or design

- **Master of Engineering (course-based)**
  - a) Ten to twelve half-courses

**Doctor of Philosophy**
- a) A minimum of six half-courses beyond the baccalaureate
  - b) A minimum of two and a maximum of six half-courses beyond the Master's degree
  - c) A detailed research proposal

#### 6. Additional Requirements

- All full-time Master of Science and doctoral students, except for those registered in ENEN 601 or BMEN 605 or BMEN 607, are required to register and participate in the Research Seminar course Civil Engineering 601. Please note: These seminars are offered multiple times on different research topics and as such, Master of Science students are required to take ENCI 601 two times and doctoral students three times while in program.

- All graduate students who require access to Civil Engineering laboratories are required to complete a Workplace Hazardous Materials Information Systems (WHMIS) course and other required safety training courses before gaining access to the laboratories.

#### 7. Credit for Undergraduate Courses

- Not more than two of the half-courses required in the thesis-based programs and not more than four of the half-courses taken in the MEng program may be taken at the 500-level.

#### 8. Time Limit

- See "Engineering Programs."

#### 9. Supervisory Assignments

- See "Supervisors/Advisors" in the General Regulations section of this calendar.

#### 10. Required Examinations

- See "Engineering Program."

#### 11. Research Proposal Requirements

- Not applicable

#### 12. Special Registration Information

- Not applicable

#### 13. Financial Assistance

- Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar. Students applying for University of Calgary scholarships must submit their applications to the Department by 1 February.

#### 14. Faculty Members/Research Interests

- Information about faculty members and their research interests may be found at [http://www.eng.ucalgary.ca/Civil/Civil_grad_studies.html](http://www.eng.ucalgary.ca/Civil/Civil_grad_studies.html).

---

**Undergraduate Courses**

Only where appropriate to a student's program may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses.

**Civil Engineering 513**

#### Concrete Materials for Sustainable Construction

Production and use of concrete for sustainability. Fundamental and engineering properties of cements, aggregates, supplementary cementing materials, chemical admixtures, concrete and other ingredients used to improve the performance and sustainability of concrete structures. Methods to reduce energy consumption and environmental impact associated with materials production and construction are emphasized.

**Prerequisite:** Civil Engineering 413.

**Civil Engineering 523**

#### Soil Mechanics and Foundation Engineering

Earth embankments; sub-surface investigations; compaction; seepage analysis and slope stability; lateral earth pressures and retaining structures; shallow and deep foundations in sands and clays; bearing capacity and settlement of structures; selected laboratory, design exercises, solution to slope stability and other problems using computer programs.

**Prerequisite:** Civil Engineering 423.

**Civil Engineering 525**

#### Applied Geotechnical Engineering

Selected topics from: soil improvement; foundations in permafrost; machine foundation analysis and soil dynamics; tunneling; geotechnical aspects of mining engineering; deep foundations; retaining structures; computer applications.

**Prerequisites:** Civil Engineering 423 and 523.

**Civil Engineering 533**

#### Engineering Hydrology

Introduction to engineering hydrology; Meteorological factors in hydrology, radiation, temperature, humidity, wind; Physical hydrology, measurement and estimates of precipitation, evaporation and transpiration, groundwater flow, rainfall-runoff relation; hydrometry, stream flow measurement, stage-discharge relations; gauging stations; Linear theory of hydrological systems, hydrograph analysis, groundwater recession, unit hydrograph; Hydrology of floods, reservoir and river flood routing; Statistical hydrology, probability distributions, frequency analysis; Hydrological design, design storms, flow selection.

**Prerequisite:** Mechanical Engineering 341.

**Civil Engineering 535**

#### Open Channel Hydraulics

Review of basic concepts of fluid flow, types of flow, states of flow, equations of motion; Energy principle in open-channel flow, transition problem, specific energy, non-rectangular channel sections; Momentum equation in open-channel flow, hydraulic jump, specific force; Critical flow, critical flow applications, flow measurement; Uniform flow, formulae, Manning's n, uniform flow computations for prismatic and compound irregular cross-sections;
Design of channels for uniform flow, nonerodible channels, erodible channels; Gradually varied steady flow, classification and computation of flow profiles, the discharge problem, computer applications. Flow around bridge piers and flow through culverts; Storm sewer design: Unsteady flow, equations of motion, numerical solutions, kinematic wave approximation, the method of characteristics.

Prerequisite: Mechanical Engineering 341.

Civil Engineering 545 H(3-1) Theory of Structures I

Structural analysis’ role in design: idealized models. Review of analysis of statically determinate structures, Static indeterminacy; kinematic indeterminacy; principle of superposition; general methods for the analysis of statically indeterminate structures: the force (flexibility) method and the displacement (stiffness) method. Flexibility and stiffness matrices. Effects of moving loads. Strain energy and virtual work; calculation of displacements by virtual work. Use of computers for the analysis of plane frames and grids. Plastic analysis of continuous beams and frames. Visualization of deflection, bending moment and shear force diagrams; comparison with diagrams generated by computers.

Prerequisite: Civil Engineering 461.

Civil Engineering 547 H(3-1) Theory of Structures II

Prerequisite: Civil Engineering 545.

Civil Engineering 553 H(3-1) Structural Masonry Design

Component materials and their properties, masonry properties, quality control, plain and reinforced masonry, beams, walls, slender walls, columns, load-moment interaction curves, shear load distribution, shear walls, code provisions, building envelope, detailing, geometric walls, prestressed masonry.

Prerequisite: Civil Engineering 451.

Civil Engineering 555 H(3-1) Structural Concrete Design

Prerequisite: Civil Engineering 451. Corequisite: Civil Engineering 545.

Civil Engineering 557 H(3-1) Structural Steel Design

Prerequisites: Civil Engineering 451 and 545.

Civil Engineering 565 H(3-1) (formerly Civil Engineering 465) Engineering and Construction Management

Introduction to engineering and construction management; planning, scheduling, estimating, cost control; project organization, human resource management; specifications; construction processes; manpower requirements; disputes and their resolution, social, economic and environmental impacts; regulatory requirements; project completion and commissioning.

Prerequisite: Civil Engineering 471.

Civil Engineering 569 H(3-1) Design of Public Transit Systems

Role of public transport in a city; concepts of public and private benefits; economies of scale; main modes of urban public transport systems: rail, bus, van and other vehicles; mathematical analysis of mode of operation, route alignment, access, station & stop location, transfer protocols, time table, vehicle & fleet size, reliability; concepts of utility and value of time; detailed functional design & optimization of a bus route, rail line; introduction to design of bus and rail networks; and application of ITS concepts to public transport.

Prerequisite: Civil Engineering 473.

Civil Engineering 570 F(0-4) Group Design Project

A team design project applying engineering and project management principles to prepare a multidisciplinary design and bid document for a civil engineering project. Students are expected to consult with local industry and professors in the Department. Teams will prepare a final report and will present this report to a committee, comprising of representatives from the Department and industry. Proposals should document and discuss the project development, design and execution plan with an emphasis on the technical, human resources and business aspects of the project. Initial engineering design for all Civil Engineering design aspects including: Environmental, Geotechnical, Hydraulics, Materials, Structural and Transportation. Preparation of design documents and specifications and presentation of competitive bids.

Prerequisites: Civil Engineering 413, 423, 451, 461, 473, 481 or Department approval. Departmental approval will only be granted in exceptional cases if students are missing no more than two of the courses listed.

Civil Engineering 571 H(3-1) Introduction to Road Safety

Theory and evidence: accident analysis and prevention. Topics include: Haddon’s matrix, crash data analysis, traffic enforcement, road safety advertising, fleet safety, road safety audits, vehicle safety and program evaluation.

Prerequisites: Civil Engineering 473 and one of Biomedical Engineering 319 or Engineering 319.

Civil Engineering 573 H(3-1) Highway Engineering

Introduction to highway planning and engineering; human factors; road vehicle performance characteristics; highway capacity and level of service; highway classification; design consistency; alignment elements, cross section elements, intersections, interchanges, traffic barriers; road safety audits. Planning and design of bicycle facilities. Environmental impact of highways. Explicit evaluation of safety in road design.

Civil Engineering 575 H(3-1) Traffic Engineering and Operations

Introduction to traffic engineering, traffic stream components, traffic stream characteristics, traffic studies, data collection, speed, travel time and delay studies; speed limits and advisory speeds; accident studies, parking studies, traffic barriers, traffic noise, capacity and level of service, warrants for traffic control devices, principles of intersection signalization, actuated and pretimed signals, signal control systems, progression, traffic systems management, local area traffic management studies, intelligent transportation systems, road safety audits.

Prerequisite: Biomedical Engineering 319 or Engineering 319 or equivalent.

Civil Engineering 577 H(3-1) Modelling of Transportation Systems

Approaches to mathematical and computer-based modelling for transportation planning; trip generation models, trip distribution models, mode split processes, assignment models; direct demand models; discrete-choice behavioural models; simplified transportation demand models; use of models in design and evaluation.

Prerequisite: Civil Engineering 473.

Civil Engineering 579 H(3-1) Asphalt Pavement Design and Management

Planning, designing, constructing and maintaining asphalt pavements; physical parameters, economic considerations and governing specifications; optimum design based on: design loads, subgrade soil mechanics and aggregates; asphalt mix selection and preparation; construction methods; pavement failure mechanisms; prediction of long-term performance based on field and laboratory tests; performance criteria and the implementation of rehabilitation and recycling programs.

Prerequisites: Civil Engineering 423, Geology 471.

Civil Engineering 581 H(3-1) Water and Wastewater Engineering

Water and wastewater quantities and quality, water distribution and wastewater collection systems, hydraulic considerations, flow through pipes and networks, design of sanitary sewers, storm drainage systems, physical, chemical, and biological processes for water and wastewater treatment: aeration, coagulation, flocculation, sedimentation, single and multi-media filtration, disinfection, activated sludge system and trickling filter, design considerations, sludge processing and disposal.

Prerequisites: Civil Engineering 481 and Mechanical Engineering 341.

**GRADUATE DEGREE PROGRAMS & COURSES**

**Civil Engineering 587**

**Site Assessment and Remediation**

Environmental impact assessments, environmental audit protocols and plans, pre-assessment planning and preliminary assessment of contaminated sites, site investigation, field techniques and program implementation, remedial planning and design, cost and time analysis, physical, chemical and biological remediation techniques, land treatment, soil vapour extraction and solidification.

**Prerequisite:** Civil Engineering 481.

**Civil Engineering 589**

Air and Water Pollution

Sources of air and water pollution, acute and chronic health effects of pollution, environmental quality standards and compliance criteria, monitoring environmental quality, sampling techniques, fate and transport of pollutants in environmental media, particulates and gaseous pollutants in air medium, dissolved and suspended solids in water medium, air and water quality modelling, introduction to software.

**Prerequisite:** Civil Engineering 481.

**Civil Engineering 591**

Solid and Hazardous Waste Engineering

Integrated waste management, solid and hazardous waste characterization and classification, reduce, reuse, recycle, resource recovery and utilization, composting, thermal techniques of waste treatment, fundamentals of waste degradation and disposal, geo-environmental aspects of landfill design, leachate and gas management at landfills.

**Prerequisite:** Civil Engineering 481.

**Civil Engineering 595**

Special Topics

Current topics in Civil Engineering.

**Prerequisite:** Consent of the Department Head. MAY BE REPEATED FOR CREDIT

**Civil Engineering 597**

Civil Engineering Project I

Individual work on an assigned Civil Engineering topic under the supervision of a faculty member. The project will normally involve a literature review, theoretical and laboratory or field work. Submission of a mid-term progress report defended orally and a final report.

**Note:** Open to students who have completed the third year Civil Engineering program with a GPA of 3.00 or better and/or Department Heads approval.

**Civil Engineering 599**

Civil Engineering Project II

Individual project intended for students who have completed a suitable Civil Engineering Individual Project and wish to continue the assigned research project by completing a more extensive investigation. A comprehensive written report is required which is defended and presented orally in a Department seminar.

**Prerequisites:** Civil Engineering 597 and formal approval from the project supervisor and course coordinator(s).

**Graduate Courses**

Registration in all courses requires the approval of the Department of Civil Engineering.

Civil Engineering 637 H(3-0)
Behaviour and Design of Prestressed Concrete Members
Flexural analysis and design of prestressed and partially prestressed concrete members based on stresses, deflections and strength. Design of members subjected to shear, torsion, compression or tension. Fire resistance. Composite members. Bond and anchorage zones. Prestressing losses and time-dependent deformations. Discussion of current design standards.

Civil Engineering 639 H(3-0)
Structural Dynamics
Numerical analysis of simple systems; rigorous analysis of one-degree systems; lumped mass multi-degree systems and structures with distributed mass and load; approximate analysis and design methods; earthquakes, blast-resistant design, beams subjected to moving loads; calculation of results by analog and digital computer.

Civil Engineering 641 H(3-0)
Seismic Analysis and Design
Introduction to seismology, ground movements, typical accelerograms. Response spectra for linear and non-linear responses, role of damping and inelastic behaviour. Equivalent lateral load for design, code requirements. Structural design concepts to mitigate seismic effects. Design of steel structures for earthquake motions. Design of concrete frames and walls for earthquake motions.
Prerequisite: Civil Engineering 639.

Civil Engineering 643 H(3-0)
Structural Masonry Design
Component materials and their properties, masonry properties, quality control; plain and reinforced masonry, beams, walls, slender walls, columns, load-moment interaction curves, concentrated load bearing, shear load distribution, shear walls, code provisions, building envelope, detailing, differential movement, geometric walls, prestressed masonry, arches.
Note: Not open to students with credit in Civil Engineering 553 or 555.O5.

Civil Engineering 645 H(3-0)
Risk Analysis
The objective of this course in engineering risk analysis and risk assessment is to familiarize students with the principles and techniques of quantitative risk analysis. Key focus points are the treatment of uncertainties, the attitude of conservatism, risk perception, the careful use of quantitative risk measures, and a discussion of the dangers tasks facing risk-based decision makers. Includes: Hazards, risk, risk analysis, risk assessment; risk measures; probability, uncertainty modelling, stochastic variables; using and misusing data, reliability, tails; risk assessment frameworks, models in health and environmental risk analysis; models in engineering risk analysis; risk perception, risk comparison; and practical case studies.

Civil Engineering 647 H(3-0)
Structural Reliability Techniques
The concepts of risk and reliability, uncertainties, and engineering decision making. Focuses on both aspects of uncertain systems; mainly structures, but also soils and environments, namely analysis and design. Techniques for structural reliability-based design and optimization are discussed and supplemented by practical applications.

Civil Engineering 649 H(3-0)
Stochastic Dynamics
Basic topics in probability theory. Random processes: time and frequency domain characteristics, differentiation and integration, stationary and ergodic processes; review of basic structural dynamics; random structural vibrations on simple oscillators and multiple degree-of-freedom systems. Response of linear and nonlinear systems; examples; threshold crossing, extreme peaks, reliability; applications in earthquake and offshore engineering.

Civil Engineering 651 H(3-0)
Finite Element Modelling
Terminology. Conceptual framework of method; shape function; continuity at nodes; numerical integration; matrix assembly; solution methods; sources of error and poor performance; mesh sensitivity; element types, their selection and behaviour; use of software.

Civil Engineering 653 H(3-0)
Theory and Applications of the Finite Element Method
Theory of the finite element method with emphasis on applications to structural analysis. Scope of the method, use of basic equations of elasticity, displacement (stiffness) method of analysis, energy theorems applied to finite elements, element matrices; the isoparametric formulation; applications in structural analysis, heat conduction and other non-structural problems. Use of available finite element programs for analysis of space frames, plates subjected to in-plane forces, plates in bending, spatial structures and heat transfer.

Civil Engineering 655 H(3-0)
Numerical Methods for Modelling Geomechanical
Methods of theoretical analysis for solving partial differential equations associated with Geotechnical and Structural Engineering. Variational Principles, Principle of Virtual Work and Galerkin Method. Theory of finite element and focus on its computer implementation for analysis of engineering problems. Typical applications include two- and three-dimensional stress analysis, seepage flow, and coupled fluid flow-solid deformation problems. Advanced topics: numerical strategies for solving material and geometric non-linearities (plasticity and large deformations), poro-elasticity and plasticity, strain localization, and presentation of other numerical techniques such as finite difference, boundary element, discrete element methods.

Civil Engineering 665 H(3-0)
Fundamentals of Soil Behaviour
Principle of effective stress in saturated soil, unsaturated soil and clay. Engineering properties of soils. Soil strength and deformation characteristics of soils in static, cyclic, drained and/or undrained loading. Laboratory testing of soils. One-dimensional consolidation, poro-elastic deformation, swelling mechanism, time-dependent deformation and soil contamination in soils.

Civil Engineering 667 H(3-0)
Applied Rock Engineering
Engineering properties of intact rock and rock mass. Rock classification. Slope and underground excavation; groundwater flow in fractured rock; poro-elastic deformation analyses; hydraulic fracturing.

Civil Engineering 671 H(4-0)
Advanced Foundation Engineering

Civil Engineering 673 H(3-0)
Constitutive Laws for Geomatertials
Definition of a continuous medium. Description of deformable continuous media; concepts of stress, strain and their invariants. Constitutive equations geometrals as a generic for soil, rock and concrete materials in civil engineering. Review of elasticity theory. Introduction to yielding, plastic flow and failure phenomena in geomaterials. Limit analysis with applications to both geotechnical and structural engineering. Stress-strain behaviour for both cohesive and granular materials. Constitutive models based on critical state theory will be presented. Other topics such as strain localization and fracture phenomena may be included as appropriate.

Civil Engineering 689 H(3-0)
Advanced Project Management Practices and Principles
Advanced practices, tools and concepts in managing complex volatile or large projects. SMART™ project management based on best practices in diverse industries forms the basis of this course.
Prerequisites: Civil Engineering 691, 697 and consent of the Program Director.

Civil Engineering 691 H(3-0)
Advanced Project Management Practices and Principles
Application of management principles to the project environment; planning, control, scope, time and cost processes; project organization and human resource issues. Students review aspects of a current major capital project and submit and defend a project report.
Prerequisite: Consent of the Program Director.

Civil Engineering 693 H(3-0)
Project Management
Role of the engineering manager in the project management team. The engineering firm, its organization and function; project development, engineering project control; design control; scope and estimate control; engineering interfaces with procurement and construction; engineering responsibility in project commissioning start-up and operations.
Prerequisite: Consent of the Program Director.
Civil Engineering 695  H(3-0)
Project Construction Management
Role of the construction manager in the project management team; project options for the management of construction; managing the contractor’s business; labor relations; claims; contractor(s) responsibility in project commissioning start-up and operations.
Prerequisite: Consent of the Program Director.

Civil Engineering 697  H(3-0)
Project Planning and Control
Strategic and tactical planning; planning for scope, quality, time and cost; selection and implementation of project management information system; economic and risk analysis; planning for construction labor relations.
Prerequisite: Consent of the Program Director.

Civil Engineering 699  H(3-0)
Law for Project Managers
Legal issues related to the effective management of projects. Introduction to the legal system and processes; environmental, intellectual property, and contract law; strategic alliances; employment law; the builder’s lien act. Cases are reviewed and students are expected to complete a number of assignments requiring research into case law.
Prerequisite: Consent of the Program Director.
Note: This course may not be taken for credit towards the LLB or LLM degrees.

Civil Engineering 705  H(3-0)
Traffic Engineering
Traffic stream characteristics, related field surveys; advanced probability distributions of headway, flow and speed under peak, off-peak, platoon-flow conditions; analysis of density contours; the generalized car-following model, related macro-models of traffic streams, practical applications; Traffic incident analysis; Two-lane highways; actuated and pretimed traffic signals; two-way coordination of signals; introduction to network controls.

Civil Engineering 707  H(3-0)
Theory of Transport Demand Modelling
Modelling for transport planning; data in transport modelling; trip generation modelling; trip distribution modelling; modal split modelling; direct demand models; traffic assignment; equilibrium in transport modelling; discrete-choice models; specification and estimation of logit models; aggregation issues; simplified transport demand models; model updating and transferability.
Prerequisite: Consent of the Department.

Civil Engineering 709  H(2-4)
Practice of Transport Demand Modelling
Sample enumeration modelling; practical aspects of logit model estimation and calibration; disaggregate choice behaviour data; practical 4-step transport demand modelling using conventional software packages; application of computer-based network assignment models.
Prerequisite: Civil Engineering 707 or consent of the Department.

Civil Engineering 713  H(3-1)
Mountain Highway Engineering
Road vehicle performance in mountainous terrain; the slow moving vehicle problem; highway capacity and level of service; terrain classification; alignment elements, cross section elements, intersections, traffic barriers; planning and design of passing lanes, climbing lanes, truck escape ramps, turnouts, and low-volume roads; traffic management in avalanche zones; environmental impact of highways in mountainous terrain. Vehicle operating costs; engineering evaluation of mountain highway projects.

Civil Engineering 715  H(3-0)
Transport Economics
Economic characteristics of transport; movement and location; transport demand; direct costs of transport; the value of travel time; external costs of transport; shadow prices; pricing of transport services; containment of external costs of transport; private and public sector investment analysis in transport; transport and economic development; transport policy.
Prerequisite: Consent of the Department.

Civil Engineering 721  H(2-1)
Modelling for Water Supply and Distribution
Prerequisite: Civil Engineering 561 or consent of the Department.
Note: Not open to students with credit in Civil Engineering 619.52 or 719.

Civil Engineering 723  H(3-3)
Hydrological Theory and Design
Prerequisite: Civil Engineering 553 or equivalent.

Civil Engineering 741  H(3-0)
(Biological Processes for Wastewater Treatment
Specialized biological wastewater treatment processes for removal of impurities not effectively removed by conventional secondary wastewater treatment systems, such as nutrients (e.g. nitrogen and phosphorus), residual organics, residual solids, bacteria and viruses. Wetlands. Activated sludge modelling. Biological nutrient removal. Sludge management. Disinfection.
Note: Credit for both Civil Engineering 741 and Environmental Engineering 663 will not be allowed.

Civil Engineering 749  H(3-0)
Environmental Aspects of Waste Disposal Systems
Soil-chemical interactions and implications in waste disposal system design; landfill design principles; leachate production, leachate migration in the unsaturated/saturated zones; analytical and numerical solution of flow and transport equations; applications and case studies of groundwater contamination; design and construction of barrier systems; bioreactor landfills; landfill closure issues; greenhouse gas control systems.
Note: Credit for both Civil Engineering 749 and Environmental Engineering 651 will not be allowed.

Civil Engineering 747  H(3-0)
Contaminated Soil Remediation
Overview of soil remediation engineering. Contaminant partitioning in air, water and gas phases. Phases of site assessments, physical and chemical treatment processes, soil vapour extraction, air sparging, soil washing, thermal desorption and incineration, solidification and stabilization, vitrification, biological treatment processes, bioremediation kinetics, ex situ and in situ techniques. Liquid phase bioremediation as it pertains to soil remediation.
Note: Credit for both Civil Engineering 747 and Environmental Engineering 653 will not be allowed.

Civil Engineering 743  H(3-0)
Computational Methods for Environmental Engineering
Taylor series, numerical integration. Linear and nonlinear algebraic equations and solvers. Ordinary and partial differential equations. Finite difference methods: explicit, implicit and Crank-Nicholson methods. Finite difference, finite element or finite volume numerical approximations. Initial and boundary value problems. Boundary conditions, discretization considerations, and design of approximations, accuracy and error reductions. Applications in environmental engineering, such as pollutant dispersion and transport, will be discussed.
Note: Credit for both Civil Engineering 743 and Environmental Engineering 652 will not be allowed.
19. Faculty Members/Research Interests

The active research interests of individual faculty members can be found at http://www.enel.ucalgary.ca.

Undergraduate Courses

Only where appropriate to a student's program may graduate credit be received for courses numbered 15. Faculty Members/Research Interests

The active research interests of individual faculty members can be found at http://www.enel.ucalgary.ca.

Undergraduate Courses

Only where appropriate to a student's program may graduate credit be received for courses numbered
Current topics in electrical engineering.

Prerequisite: Consent of the Department.

Note: Consult Department for announcement of topics.

MAY BE REPEATED FOR CREDIT

Electrical Engineering 525 H(3-2)

Neuro-Fuzzy and Soft Computing

Neural networks: neuron models and network architectures; perceptrons; Widrow-Hoff learning and the backpropagation algorithm; associative memory and Hopfield networks; unsupervised learning. Fuzzy systems: basic operations and properties of fuzzy sets; fuzzy rule generation and defuzzification of fuzzy logic; fuzzy neural networks. Applications in areas such as optimization, signal and image processing, communications, and control. Introduction to genetic algorithms and evolutionary computing. Introduction to chaos theory.

Prerequisite: Electrical Engineering 327.

Electrical Engineering 527 H(3-2)

Design and Implementation of FPGA-Based DSP Systems

The design and implementation of digital systems for digital signal processing applications. Introduction to Hardware Design Languages. VHDL. Introduction to digital filter design and computational units for digital arithmetic. Interface standards. Interfacing to peripheral devices. Printed circuit board design and implementation. Design for testability.

Prerequisites: Electrical Engineering 453 and 471.

Electrical Engineering 529 H(3-1T-1)

Wireless Communications Systems

Overview of terrestrial wireless systems including system architecture and industry standards; propagation characteristics of wireless channels; modern for wireless communications; cells and cellular traffic; cellular system planning and engineering; fading mitigation techniques in wireless systems; multiple access techniques for wireless systems.

Prerequisites: Electrical Engineering 471 and one of Biomedical Engineering 319 or Engineering 319 or Electrical Engineering 419.

Electrical Engineering 541 H(3-1T-3/2)

Control Systems II

Introduction to sampled-data control systems, discretization of analog systems, discrete-time signals and systems, causality, time-invariance, z-transforms, stability, asymptotic tracking, state-space models, controllability and observability, pole assignment, deadbeat control, state observers, observer-based control design, optimal control.

Prerequisite: Electrical Engineering 441.

Electrical Engineering 559 H(3-2)

Analog Filter Design

This class deals with the theory and design of active filters, for audio-frequency applications, using op amps. It consists, basically, of two phases. Phase I deals with the realization of a given transfer function using cascade of first and/or second-order RC-op amps circuits. In phase II, the transfer functions of filters are studied in combination with frequency-response approximations such as Butterworth, Chebyshev, Inverse-Chebyshev, Cauer (or Elliptic) and Bessel-Thompson.

Prerequisites: Electrical Engineering 465 and 471.

Electrical Engineering 563 H(3-1T-2)

Biomedical Signal Analysis

Introduction to the electrocardiogram, electroencephalogram, electromyogram, and other diagnostic signals. Computer techniques for processing and analysis of biomedical signals. Pattern classification and decision techniques for computer-aided diagnosis. Case studies from current applications and research.

Prerequisite: Electrical Engineering 327.

Electrical Engineering 565 H(3-1T-3/2)

Digital Integrated Electronics

Semiconductor devices, modelling of CMOS switching, CMOS logic families, performance and comparison of logic families, interconnected, semiconductor memories, design and fabrication issues of digital IC’s.

Prerequisite: Electrical Engineering 465.

Electrical Engineering 567 H(3-1T-3/2)

CMOS VLSI Engineering

Introduction to CMOS very large-scale integrated (VLSI) circuit design. Review of MOS transistor theory and operation. Introduction to CMOS circuits. CMOS processing technology and design rules. Circuit characterization and performance estimation. CMOS circuit and logic design. VLSI design methods and tools. Basic concepts of design for testability. CMOS subsystem and system design.

Prerequisite: Electrical Engineering 465 or Computer Engineering 467.

Electrical Engineering 569 H(3-1T-3/2)

Electronics for Instrumentation

Prerequisite: Electrical Engineering 465.

Electrical Engineering 571 H(3-1T-3/2)

Digital Communications

Prerequisite: Electrical Engineering 471 and Biomedical Engineering 319 or Engineering 319 or Electrical Engineering 419.

Electrical Engineering 573 H(3-1T-1)

Telecommunications and Computer Communications

Fundamentals of telecommunication system and teletraffic engineering; transmission systems; switching networks and congestion control; characteristic of teletraffic; queueing theory; mathematical modelling of queueing systems; the birth and death process. Erlang loss and delay formulas. Engset loss and delay formulas. Computer communication networks; multiple access techniques.

Prerequisites: Biomedical Engineering 319 or Engineering 319 or Electrical Engineering 419.

Electrical Engineering 575 H(3-1T-3/2)

Radio-Frequency and Microwave Passive Circuits

Study and design of radio-frequency and microwave passive circuits such as filters, couplers, splitters, combiners, isolators, circulators; advanced transmission lines; network analysis; advanced topics.

Prerequisite: Electrical Engineering 475.

Electrical Engineering 577 H(3-1T-1)

Transmission Media

Transmission lines: characterization, analog and digital transmission. Terrestrial radio: very high frequency and ultra high frequency, frequency division multiplexing, microwave propagation. Satellite communication. System design; modulation requirements and error control.

Prerequisites: Electrical Engineering 471 and 475.

Electrical Engineering 579 H(3-1T-3/2)

Optical Fibre Communications

Prerequisites: Electrical Engineering 463 and 475.

Electrical Engineering 581 H(3-1T-3/2)

Renewable Energy and Solid State Lighting for Human Development

Introduction to solid state lighting (SSL) and renewable energy (RE) systems. Topics include: history of lighting, illumination standards, incandescent bulbs, fluorescent tubes, White LEDs their properties and measurement; photovoltaic, wind power, hydro power, human and animal power, thermoelectric, biomass energy, biodiesel, fuel cells and SSL system design. SSL project planning and financing, environmental and social impact assessments, carbon credits and SSL system metrics for the developing world.

Prerequisite: Electrical Engineering 489 or permission of the instructor.

Note: Credit for both Electrical Engineering 581 and Electrical Engineering 519.39 will not be allowed.

<td></td>
</tr>
</tbody>
</table>
Antennas
Foundations of theory and practice of modern antennas. Topics covered will include: theoretical background, antenna parameters, simple radiators, antenna array theory, wire antennas, broadband antennas, microstrip antennas, aperture radiators, base station antennas, antennas for mobile communications, antenna measurements. 
Note: Students registering in this course should have a background in electromagnetics and basic microwave engineering.

Electrical Engineering 629
H(3-1)

Advanced Logic Design of Electronic and Nanoelectronic Devices
Two-level and multi-level logic synthesis; flexibility in logic design; multiple-valued logic for advanced technology; multi-level minimization; Binary Decision Diagrams, Word-level Decision Diagrams, sequential and combinational equivalence checking; technology mapping; technology-based transformations; logic synthesis for low power, optimizations of synchronous and asynchronous circuits, logical and physical design from a flow perspective; challenges of design of nanoelectronic devices.

Electrical Engineering 631
H(3-1)
System Identification and Parameter Estimation
Prerequisite: Electrical Engineering 649.

Electrical Engineering 633
H(3-1)
Wireless Networks

Electrical Engineering 639
H(3-1)

Radio Frequency and Microwave Circuit Design
Circuit design via transmission line elements: special emphasis on microstrip circuits and effects of discontinuities (corners, Tees, and impedance steps). Analysis of passive impedance matching and filtering circuits using distributed and lumped elements. Narrow band matching and wide band matching techniques as well as wide band matching to a complex load. One and two port small signal amplifiers. Scattering parameter design methods: amplifier gain, input and output matching and stability. Computer aided design methods and broadband design methods. Large signal transistor amplifiers: device nonlinearities and design methodologies.

Electrical Engineering 643
H(3-1)
Fibre Optics Transmission
Fundamental theory of cylindrical optical waveguides by way of Maxwell's equation and the modal analysis of the slab waveguides, step-index and graded-index fibres, review of fibre chemistry and production techniques. Problem areas relating to measurement of fibre parameters. Optical transmitters, photodetectors and receivers, modulation and multiplexing techniques, splices and connectors. Multiterminal analog and digital system analysis and design. Optical switching and amplification, integrated optics.

Electrical Engineering 645
H(3-1)
(formerly Electrical Engineering 619.51)

Data Mining and Knowledge Discovery

Electrical Engineering 647
H(3-1)
Analog Integrated Circuit Design

Electrical Engineering 649
H(3-1)
(formerly Electrical Engineering 619.22)

Random Variables and Stochastic Processes
Axiomatic view of probability; continuous and discrete random variables; expectation; functions of random variables; conditional distributions and expectations; stochastic processes; stationarity and ergodicity; correlation and power spectrum; renewal processes and Markov chains; Markov and non-Markovian processes in continuous time.

Electrical Engineering 651
H(3-1)
(formerly Electrical Engineering 619.04)

Resource Management for Wireless Networks
Qualitative and mathematical formulation of the resource management problem in wireless networks; elements of radio resource management: power and Walsh code allocation and control. Call admission control, traffic load control, packet scheduling; radio resource management algorithms; fixed resource allocation, handover resource management, transmitter power management, dynamic resource allocation, and packet scheduling algorithms; quality-of-service (QoS) and resource management; joint radio resource management problem across heterogeneous wireless networks; applications and case studies: resource management in third generation (3G) and beyond 3G wireless Internet Protocol (IP) networks; open research challenges in resource management for wireless networks.

Electrical Engineering 653
H(3-1)
(formerly Electrical Engineering 619.23)

Theory & Practice Advanced DSP Processor Architecture
Architecture and capabilities of SISD, SIMD and VLIW processors; Developing high speed algorithms: code timing, reliability, background DMA activity, maintainability; Developing a personal software process appropriate for embedded systems.

Electrical Engineering 655
H(3-1)

Discrete Time Signal Processing

Electrical Engineering 657
H(3-1)
(formerly Electrical Engineering 619.73)

Detection of Signals in Noise
Detection of distorted and noise corrupted deterministic and random signals. Application to optimum statistical signal processing algorithms in data communications, GPS, radar, synchronization and image processing.
Prerequisite: At least one of Electrical Engineering 675, Electrical Engineering 649. Electrical Engineering 625 or permission from the instructor.

Electrical Engineering 659
H(3-1)
Active-RC and Switched-Capacitor Filter Design
The filter design problem; operational amplifier characteristics; cascade methods of RC-active filter design; filter design with the active biquad; active filter design based on a lossless ladder prototype. Switched-capacitor (SC) integrators; design of cascade, ladder, and multiple feedback SC filters; nonideal effects in SC filters; scaling of SC filters; topics in fabrication of SC filters.

Electrical Engineering 661
H(3-1)
(formerly Electrical Engineering 619.18)

Grid-Connected Inverters for Alternative Energy Systems
Analysis and design of grid-connected inverters fed by an alternative energy source. Switch mode converters, inverter topologies, harmonics, drive electronics, control methodologies, implementation techniques, course project.

Adaptive Signal Processing

Software Engineering (SENG)  

Graduate Courses  

Software Engineering 605 Q(3-1)  

Industrial Topics in Software Engineering  
A study of practical approaches of industrial relevance to students specializing in Software Engineering.  
Note: Consult Department (Computer Science or Electrical and Computer Engineering) for details regarding offerings in the upcoming academic year.  
MAY BE REPEATED FOR CREDIT  

Software Engineering 607 H(3-1)  

Special Topics in Software Engineering  
A study of problems of particular interest to students specializing in Software Engineering.  
Note: Consult Department (Computer Science or Electrical and Computer Engineering) for details regarding offerings in the upcoming academic year.  
MAY BE REPEATED FOR CREDIT  

Software Engineering 609 Q(3-1)  

Special Topics in Software Engineering  
A study of problems of particular interest to students specializing in Software Engineering.  
Note: Consult Department (Computer Science or Electrical and Computer Engineering) for details regarding offerings in the upcoming academic year.  
MAY BE REPEATED FOR CREDIT  

Software Engineering 611 Q(3-1)  

Requirements Engineering I  
The elicitation, modeling, expression, and validation of requirements.  

Software Engineering 613 Q(3-1)  

Requirements Engineering II  
Applications of requirements engineering to the management of the lifecycle of software development from requirements elicitation through analysis, design, coding, testing, enhancement and reuse.  
Prerequisite: Software Engineering 611.
requirement can be waived for students with prior experience and skills in technical report writing.

**Master of Engineering (course-based)**
See “Engineering Programs.”

**Master of Engineering (thesis-based)**

a) A minimum of five half-courses, of which at least three must be graduate courses
b) After satisfactory progress in the student’s own research work, enrollment in the ENGO 605 Research Seminar course
c) A thesis related to original engineering analysis or design

**Master of Science**

a) A minimum of five half-courses, of which at least three must be graduate courses
b) After satisfactory progress in the student’s own research work, enrollment in the ENGO 605 Research Seminar course
c) Attend 6 seminars [ENGO 605, 607, and/or 609] in total – a maximum of 4 of these in the student’s area of specialization and the remaining in other areas. One page report should be submitted for each seminar.
d) A thesis related to original engineering research

**Doctor of Philosophy**

a) A minimum of three graduate half-courses beyond the Master of Science course requirements. For students who transfer from a Master of Science to a doctoral program, a minimum of two graduate half-courses beyond the Master of Science course requirements.
b) After satisfactory progress in the student’s own research work, enrollment in the ENGO 607 and 609 Research Seminar courses, normally not to be taken in the same term.
c) Attend 6 seminars [ENGO 605, 607, and/or 609] in total – a maximum of 4 of these in the student’s area of specialization and the remaining in other areas. One page report should be submitted for each seminar.
d) A written and an oral candidacy examination based on the graduate course work
e) A thesis related to advanced original engineering research

**6. Additional Requirements**
None.

**7. Credit for Undergraduate Courses**
Only where appropriate to a student’s program may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses.

**8. Time Limit**
See “Engineering Programs.”

**9. Supervisory Assignments**
See “Engineering Programs.”

**10. Required Examinations**

**Master’s Programs**
See “Engineering Programs.”

**Doctoral Programs**

**Doctoral Candidacy Examination**
The candidacy examination has a written and an oral component. The student’s background knowledge in the field of Geomatics Engineering and in-depth knowledge in his/her chosen research specialization is examined. The written examination is an open book examination of one day’s duration. It consists of a comprehensive examination in the candidate’s field of specialization and of a general examination in at least one of the other graduate streams in Geomatics Engineering, referred to as major and minor parts in the following. The major part will usually be of three hours duration and will count for 2/3 of the mark of the written component. The minor part will last one-and–a-half hours and will count for 1/3 of the mark of the written component. Passing marks in both the major and the minor parts are required to pass the written examination. A recommended reading list for the written examination will be made available to the student upon request.

The oral examination will further test the candidate’s knowledge of his/her field of study in particular, and of geomatics in general, in addition to providing an opportunity to clarify, defend and extend answers in the written examination. Questions on the research proposal will not be included in the oral candidacy examination.

**Doctoral Final Oral Examination**
See “Engineering Programs.”

**11. Research Proposal Requirements**

**Master of Engineering (thesis-based)**
A preliminary thesis proposal, consisting of five to eight pages, accepted by the supervisor, is required no later than 16 months after initial registration. Contents of the thesis, reflecting an applied approach to a problem, should contain new elements of engineering principles and applications.

The thesis proposal should include the following:
1. Statement of the problem
2. Research objectives
3. Literature review
4. Methodology and procedures
5. Outline of thesis contents
6. Proposed time schedule
7. Bibliography and references

**Master of Science**
The Master of Science thesis proposal requirements, including the outline of the proposal’s contents, are the same as those for the Master of Engineering (thesis-based). The thesis topic, however, should deal with original theoretical or practical research in Geomatics Engineering.

**Doctor of Philosophy**
The doctoral thesis proposal requirements, including the outline of the proposal’s contents, are the same as those for the Master of Engineering (thesis-based). The thesis, however, must demonstrate the candidate’s ability to pursue original research at a high level and represent a distinct advance in knowledge on the subject. The research should be of the recognized standard of technical journals requiring critical review. The supervisor and supervisory committee will normally require progress reports every six months during the doctoral program.

**12. Special Registration Information**
None.

**13. Financial Assistance**
Candidates are not admitted unless self-funded or with financial support provided by an interested supervisor. For information on awards, see the Awards and Financial Assistance section of this Calendar.

Advanced Physical Geodesy

Note: Not open to students with credit in Geomatics Engineering 611 or 617.

Geomatics Engineering 623 H(3-0)

Inertial Surveying and INS/GPS Integration
Inertial sensors and their application in inertial navigation, existing inertial systems, new developments in strapdown technology. Practical aspects of inertial positioning definition of an operational inertial frame, inertial error models. Effect of inertial sensor errors on the derived navigation parameters, performance characteristics of inertial sensors, calibration of inertial sensors. Mechanization equations in different coordinate frames, step by step computation of the navigation parameters from the inertial sensor data introduction to Kalman filtering for optimal error estimation, modelling INS errors by linear state equations, practical issues for the implementation of update measurements (ZUPT, CUPT, Integrated systems), current research activities.

Geomatics Engineering 625 H(3-2)

Advanced GNSS Theory and Applications

Geomatics Engineering 629 H(3-0)

Advanced Estimation Methods and Analysis

Geomatics Engineering 633 H(3-0)

Atmospheric Effects on Satellite Navigation Systems
Theoretical and observed aspects of radio wave propagation in the ionosphere and troposphere, with an emphasis on L band (GPS) signals. Fundamentals of absorption, attenuation, depolarization, and defraction will be covered, in addition to characteristics and physical properties of the propagation medium and atmospheric constituents. The impact of such effects, and methods of mitigation, will be interpreted with respect to satellite navigation applications.

Geomatics Engineering 638 H(2.5-1)

GNSS Receiver Design
Global Navigation Satellite System signal structure, overview of receiver architecture, measurements, antenna design, receiver front-end, reference oscillator, sampling and quantization, phase lock loops, frequency lock loops and delay lock loops, tracking loop design and errors, signal acquisition and detection, interference effects.

Geomatics Engineering 639 H(3-0)

Advanced Topics in Digital Image Processing
Review of basic digital imaging; advanced topics in multispectral or hyperspectral analysis, multisensor analysis, image segmentation, image transform, data fusion, pattern recognition or feature matching; current research applications especially in Geomatics.

Geomatics Engineering 649 H(3-1)

Random Variables and Stochastic Processes
Axiomatic view of probability; continuous and discrete random variables; expectation; functions of random variables; conditional distributions and expectations; stochastic processes: stationarity and ergodicity; correlation and power spectrum; renewal processes and Markov chains; Markov and non-Markovian processes in continuous time.

Geomatics Engineering 655 H(3-0)

Advanced Remote Sensing
Advanced techniques for analysis and interpretation of remotely sensed imagery, with emphasis on data acquired from satellite and airborne platforms. Topics include: review of physical principles, including governing equations; imaging system geometries; radiometric corrections, including calibration and atmospheric correction; spatial filtering for noise removal and information extraction; geometric corrections, including rectification and registration; geophysical algorithms such as leaf area index and biomass and land cover classification algorithms.

Geomatics Engineering 658 H(3-0)

Geocomputation
Overview of the fundamental concepts, approaches, techniques, and applications in the field of Geocomputation: Geocomputation, Complexity theory, Computational intelligence, Cellular automata modelling, Multi-agent system modelling, Artificial neural network, Scale, Data mining and knowledge discovery, Post-normal science.
GRADUATE DEGREE PROGRAMS & COURSES

1. Degrees and Specializations Offered
   Doctor of Philosophy (PhD)
   Master of Science (MSc) thesis-based
   Master of Engineering (MEng), thesis and course-based

   Areas: applied mechanics, automation, control, robotics and nano MEMS, biomechanics, design, manufacturing systems, materials and manufacturing processes, thermo-fluids, energy systems and environment.

   In addition, the Department offers a Master of Engineering program (course-based or thesis-based) with specialization in Energy and Environment.

2. Admission Requirements
   In addition to the Faculty of Graduate Studies requirements and the Schulich School of Engineering’s minimum requirements, the Department’s requirements are as follows:

   Master’s Programs
   a) BSc degree or equivalent
   b) A minimum admission grade point average of 3.00 on a four-point scale or equivalent

   Doctor of Philosophy
   MSc degree, or transfer from MSc program with a BSc degree grade point average of 3.60 or higher on a four-point scale. Transfer from MSc to PhD program is allowed only after the successful completion of all courses required for the MSc degree with a grade point average of 3.50 or higher on a four-point scale.

3. Application Deadline
   Deadlines for submission of complete applications:
   15 April for September admission
   15 August for January admission
   15 December for May admission

4. Advanced Credit
   See "Engineering Programs".

5. Program/Course Requirements
   In addition to Faculty requirements, the Department requires:
   Master of Engineering (course-based)
   Ten half-courses, no more than four of which can be senior undergraduate courses

   Master of Engineering (thesis-based)
   (a) Five to six half-courses
   (b) Presentation of one research seminar when registered in ENME/ENMF 613

   Master of Science
   (a) Five to six half-courses of which two may be taken from outside the Department.
   (b) One course to be selected from Mechanical Engineering 631 - Numerical Methods for Engineers or Mechanical Engineering 633 - Mathematical Techniques for Engineers;
   (c) Presentation of one research seminar when registered in ENME/ENMF 613

6. Additional Requirements
   None.

7. Credit for Undergraduate Courses
   See Section 5 for details.

8. Time Limit
   See "Engineering Programs".

9. Supervisory Assignments
   See "Engineering Programs".

10. Required Examinations
    See "Engineering Programs".

11. Research Proposal Requirements
    None beyond Graduate Studies’ requirements.

12. Special Registration Information
    None.

13. Financial Assistance
    See "Engineering Programs".

14. Other Information
    See "Engineering Programs".

15. Faculty Members/Research Interests
    Active research programs and research interests of current faculty can be found at http://www.eng.ucalgary.ca/enme/research

Manufacturing Engineering (ENMA)

1. Degrees and Specializations Offered
   Doctor of Philosophy (PhD)
   Master of Science (MSc) thesis-based
   Master of Engineering (MEng), thesis and course-based

   Areas: applied mechanics, automation, control, robotics and nano MEMS, biomechanics, design, manufacturing systems, materials and manufacturing processes, thermo-fluids, energy systems and environment.

   In addition, the Department offers a Master of Engineering program (course-based or thesis-based) with specialization in Energy and Environment.

2. Admission Requirements
   In addition to the Faculty of Graduate Studies requirements and the Schulich School of Engineering’s minimum requirements, the Department’s requirements are as follows:

   Doctor of Philosophy
   (a) Seven to ten half-courses at the graduate level (up to two half-courses may be taken from outside the Department): one to be selected from Mechanical Engineering 631 or Mechanical Engineering 633, or two to six half-courses beyond the Master’s degree.
   (b) Presentation of one research seminar when registered in ENME/ENMF 713

   Note: Further details of Departmental requirements are listed in the Department’s Graduate Studies Guidebook.

   6. Additional Requirements
   None.

   Manufacturing Engineering 601 H(3-0)
   Artificial Intelligence Applications in Manufacturing
   Artificial intelligence; expert systems, system components and architecture, knowledge representation, search techniques, uncertainty; AI planning, problem representation, solution methods; programming languages and expert system shells for developing expert systems; introduction of neural networks, basic neuron model, multilayer perception, self organizing networks, adaptive resonance memory. Applications to design, manufacturing planning and robotics.

   Manufacturing Engineering 605 H(3-0)
   Planning and Control of Computer Integrated Manufacturing
   Advanced techniques for the design, planning, and control of integrated manufacturing systems. Course elements include: a framework for manufacturing planning and control; data flow and structured modeling methodologies; hierarchical models of manufacturing; cellular manufacturing organization; databases and communications; forecasting, demand management, capacity planning and master production scheduling; materials requirements planning, manufacturing resource planning, Just-in-Time manufacture, and Optimized Production Technology; control of independent demand inventory items; production activity control; shop floor control, scheduling, order release and dispatching; simulation in planning and control.

   Manufacturing Engineering 607 H(3-0)
   Total Quality Management
Manufacturing Engineering 609  H(3-0)

Design and Analysis of Experiments
Statistical Design of Experiments (DOE) techniques for efficient data collection, analysis and interpretation. Analysis of Variance (ANOVA), including blocking and confounding, in full and fractional factorial designs. Robust design, including classical response surface and Taguchi techniques. Applications to product and process improvement.

Manufacturing Engineering 611  H(3-0)

Multi-Agent Systems
Historical background; types and definitions of agents; knowledge representation and reasoning; agent theories, architectures and languages; possible world model and alternatives; symbolic, reactive and hybrid architectures; agent communication; coordination, cooperation, negotiation and planning; agent frameworks; example multi-agent systems are considered throughout the course.

Manufacturing Engineering 613  H(3-0)

Research Seminar I
Reports on studies of the literature or of current research. This course is compulsory for all MEng students and must be completed before the thesis defence. NOT INCLUDED IN GPA

Manufacturing Engineering 617  H(3-0)

Real-time Distributed Control Systems
Shop floor control systems. Programmable logic controller (PLC) concepts, languages and models (e.g., IEC 61131-3). Real-time distributed control models (e.g., IEC 61499, RT-UML). Intelligent control: real-time distributed control system design; safety-critical system issues; reconfiguration issues.

Manufacturing Engineering 619  H(3-0)

Special Problems in Manufacturing Engineering
Designed to provide graduate students, especially at the PhD level, with the opportunity of pursuing advanced studies in particular areas under the direction of a faculty member. Students would be required to consider problems of an advanced nature. MAY BE REPEATED FOR CREDIT

Manufacturing Engineering 621  H(3-0)

Optimization Methods with Robotics Applications
Designed for graduate and senior undergraduate students interested in advanced topics in robotics. Based on the students’ research topics, contents may vary. These include: fundamental theory in robotics, mathematical toolbox for optimization, differential kinematics, kinematics and actuation redundancy, optimal control, cooperating manipulators, redundancy in force sensing and sensor fusion.

Manufacturing Engineering 623  H(3-0)

CAD/CAM/CAE

Manufacturing Engineering 698  F(0-4)

Graduate Project
Individual project in the student’s area of specialization under the guidance of the student’s supervisor. A written proposal, one or more written progress reports, and a final written report are required. An oral presentation is required upon completion of the course. Open only to students in the MEng (courses only) program.

Manufacturing Engineering 713  H(0-3S)

Research Seminar II
Reports on studies of the literature or of current research. This course is compulsory for all PhD students and must be completed before the candidacy examination. NOT INCLUDED IN GPA

Mechanical Engineering 603  H(3-0)

Physical Fluid Dynamics
Physical phenomena of incompressible fluid motion for a variety of flows, e.g. pipe and channel flow, flow past a cylinder, and convection in horizontal layers. The derivation of the basic equations of fluid mechanics using Cartesian tensor notation. High and low Reynolds number flows including some solutions of the viscous flow equations, inviscid flow, and elementary boundary layer theory. Thermal free convective flows.

Mechanical Engineering 605  H(3-0)

Combustion Processes

Mechanical Engineering 607  H(3-0)

Mechanics of Compressible Flow

Mechanical Engineering 613  H(3-0)

Research Seminar I
Reports on studies of the literature or of current research. This course is compulsory for all MSc and thesis-route MEng students and must be completed before the thesis defence. NOT INCLUDED IN GPA

Mechanical Engineering 615  H(3-0)

Instrumentation
The main topics covered are commonly used techniques for the measurement of temperature, pressure, velocity, mass flow, concentration in binary and other mixtures, heat transfer rate and heat flux, calorific value of fuels, viscosity, thermal conductivity and diffusion coefficients. In addition, attention is given to flow visualization techniques and to the recording and handling of experimentally obtained data by various means including automatic recorders, high-speed photography and analog-to-digital data converters.

Mechanical Engineering 619  H(3-0)

Special Problems
Designed to provide graduate students, especially at the PhD level, with the opportunity of pursuing advanced studies in particular areas under the direction of a faculty member. Students would be required to consider problems of an advanced nature. MAY BE REPEATED FOR CREDIT

Mechanical Engineering 625  H(3-0)

Unsteady Gas Dynamics
Origins of unsteady flow; one-dimensional unsteady flow in pipes and ducts; simplified method of analysis, method of characteristics; boundary conditions for method characteristics analyses; graphical and numerical procedures for solving the characteristics equations; application of solution techniques for practical problems; pressure exchangers and other devices utilizing unsteady flow.

Mechanical Engineering 629  H(3-0)

Fuel Science and Technology

Mechanical Engineering 631  H(3-0)

Numerical Methods for Engineers
Introduction, mathematical modelling, sources of errors in the process of numerical analysis and solution methodolody; Elements of numerical analysis, Taylor series, round-off error, truncation error, concept of stability, consistency and convergence; Linear algebra, normal forms, Gauss elimination method, LU-decomposition, triangular systems of equations; iterative methods, Jacobi, Gauss-Seidel, SOR, SSOR methods, conjugate gradient methods and preconditioning and principles of the mult-grid methods; Elliptic “equilibrium” equation, Laplace and Poisson equations, finite difference and finite control volume concepts and stability analysis; Parabolic equations: explicit, implicit and Crank-Nicolson methods, time-splitting method, method of lines, Stability analysis; Hyperbolic equations; Introduction to other methods; future challenging problems.

Mechanical Engineering 633  H(3-0)

Mathematical Techniques for Engineers
Application of mathematical techniques to the solution of ordinary and partial differential equations arising in engineering problems. Methods that will be considered are: separation of variables, method of characteristics, transform methods and complex variable methods.

Mechanical Engineering 637  H(3-0)

Thermal and Cogeneration Systems
Fundamentals of thermodynamics, fluid mechanics and heat transfer; thermal and energy systems, heat exchangers, co-generation; Second law of thermodynamics and concept of entropy generation and thermo-economics; Environmental issues and pollution control; Renewable energy system, Co-generation design; Heat exchanger design; Energy storage systems; Optimization process.
1. Degrees and Specializations Offered

Doctor of Philosophy (PhD)
Master of Arts (MA), course-based and thesis-based

Areas: British, American, Canadian and International literatures in English
A Creative Writing option is available in the Master of Arts (thesis-based) and Doctor of Philosophy programs.

2. Admission Requirements

In addition to Faculty requirements, the Department requires:

Master of Arts (course-based and thesis-based)

a) A University of Calgary Honours degree or its equivalent in English (10 full courses in English)
b) A Statement of Intent
c) A sample of critical writing; for creative writing applicants, an additional 10-page sample of creative writing.
d) For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 600 (written test), 250 (computer-based test) or 100 (internet-based test)

Doctor of Philosophy

a) A Master of Arts Degree in English or its equivalent
b) A Statement of Intent
c) A sample of critical writing; for creative writing applicants, an additional 10-page sample of creative writing.
d) For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 600 (written test), 250 (computer-based test) or 100 (internet-based test)

3. Application Deadline

The deadline for the submission of complete applications is January 10 for September admission.

4. Advanced Credit

Application for advanced credit must be made to the Department Head at the time of admission.

5. Program/Course Requirements

In addition to Faculty requirements, the Department normally requires:

Master of Arts (thesis-based)

a) Three full-course equivalents in English at the 600 or 700 level beyond the Honours BA
b) English 696 or its equivalent
c) A reading knowledge of a language other than English

Master of Arts (course-based)

a) Four full-course equivalents in English at the 600 or 700 level beyond the Honours BA or equivalent
b) English 696 or its equivalent
c) A reading knowledge of a language other than English

Doctor of Philosophy

a) Six full-course equivalents in English at the 600, 700, or 800 level beyond the Honours BA or three full-course equivalents in English beyond the MA
b) English 696 or its equivalent
c) A reading knowledge of a language other than English

d) A Minor Field Examination
e) A Major Field Examination

6. Additional Requirements

All students must attend an orientation session.

Second Language Requirement

The Department of English requires, for both the MA and PhD, knowledge of one language other than English. Students are encouraged to establish competency in a language that contains a body of texts relevant to their program of study. This requirement can be met in the following ways:

a) A minimum grade of B in a full course or each of two half-courses at a senior (300) level
b) Passing the department reading exam. Computer-based courses in French (French 225 - French 237 and French 335 - French 337) and German (German 201 - German 213) are available and would be helpful in preparing for the department set exam.
c) Documentation establishing native proficiency in a language other than English

It is the responsibility of the student to supply evidence of native proficiency or evidence that course work in a language at another university meets the requirement spelled out in this guide. Students who do not meet the requirement upon entry should consult with the Associate Head (Graduate Program) no later than the week before classes begin about the best approach to take.

7. Credit for Undergraduate Courses

With the approval of the Department, all graduate students may take for credit up to one full-course equivalent at the 500-level (excluding English 504).

8. Time Limit

Expected completion time is two years for the Master of Arts (thesis-based), and four years for the Master of Arts (course-based) and Doctor of Philosophy degrees. Maximum completion time is four years for the Master of Arts (thesis-based) and six years for the Master of Arts (course-based) and Doctor of Philosophy degrees.

9. Supervisory Assignments

For the first seven months of the program, students are assigned an interim advisor to give them time to familiarize themselves with faculty members’ research before securing a permanent supervisor.

Master of Arts (thesis-based)

By 1 March of the first year, each student must submit a proposed field of research, and the name of a proposed supervisor to the Graduate Executive Committee for approval.

Master of Arts (course-based)

By 1 March of the first year of study, each student must submit the name of the proposed supervisor to the Graduate Executive Committee for approval (15 August for part-time students).

Doctor of Philosophy

By 1 April of the first year, each student must submit the name of the proposed supervisor and the proposed areas of the major and minor field examinations to the Graduate Executive Committee for approval. By 30 September of the second year, the supervisor, following consultation with the student, will submit the names of the proposed supervisory committee to the Graduate Executive Committee for approval.

10. Required Examinations

Doctoral Candidacy Examinations

Students are required to complete a Minor Field Examination and then a Major Field Examination that forms the basis of the candidacy oral examination.

The written Major Field Examination is based on one of the Department's Field Reading Lists. Prepared by the Supervisory Committee, the examination consists of three parts, each requiring the student to answer one of two questions (for a total of three of six questions). The Major Field Examination forms the basis of, and must be completed no less than ten working days before, the Candidacy Oral Examination.

The Candidacy Oral Examination is a formal oral examination scheduled by the Faculty of Graduate Studies no later than 28 months after the student's initial registration in the program (for those who entered the program with an M.A. degree).

This oral examination should address issues arising from the written examination. Examiners are asked to record their assessment of the written component by commenting on the use of relevant literature and techniques, organization, literary competence, originality, argumentation leading to the conclusions, and anything else they consider important.

At the end of the Candidacy Oral Examination, the examiners judge the student's performance, including written and oral components, Pass or Fail.

Consult the Department website for details. Final thesis oral examinations are open.

11. Research Proposal Requirements

Master of Arts (thesis-based)

By 1 May, no later than eight months after initial registration, each student must submit a thesis proposal on the form Registration of MA Thesis Topic to the Graduate Executive Committee. Further details are available from the department.

Doctor of Philosophy

By 30 September of the second year, each student must submit a thesis proposal on the form Initial PhD Thesis Research Proposal and Supervisory Committee to the Graduate Executive Committee. The student must submit a Final PhD Thesis Proposal and Bibliography form along with a final thesis proposal and bibliography to the doctoral supervisory committee within three months of successful completion of the candidacy examinations. Further details are available from the department.

12. Special Registration Information

Students must register for courses by the end of June. Continuing students and new students who are able to do so should consult the course instructors before they register. Other new students should consult the course instructors as soon as they arrive on campus. Final approval to enter a course is given by the Head or Associate Head of the Department.
13. Financial Assistance
Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships are advised to have their applications to the Department by 15 December.

14. Other Information
None

15. Faculty Members/Research Interests
Detailed information about faculty members and their research interests may be found at http://www.english.ucalgary.ca/faculty/index.htm.

GRADUATE DEGREE PROGRAMS & COURSES

NOT INCLUDED IN GPA

English 598 H(1-0)
English 698 F(2-1T-1)

Graduate Courses

English 612 F(3-0)
Studies in Medieval and Renaissance Literature
MAY BE REPEATED FOR CREDIT

English 618 F(3-0)
Studies in Restoration and Eighteenth-Century Literature
MAY BE REPEATED FOR CREDIT

English 676 F(3-0)
Studies in Canadian Literature
MAY BE REPEATED FOR CREDIT

English 680 F(3-0)
Studies in Literary Criticism
MAY BE REPEATED FOR CREDIT

English 684 F(3-0)
Special Topics
MAY BE REPEATED FOR CREDIT

English 696 F(1-0)
Studies in Bibliography, Research Methods, and Palaeography
Required of all graduate students who have not had an equivalent course.
NOT INCLUDED IN GPA

English 698 F(2-1T-1)
Studies in Creative Writing
Note: This course is double-numbered with English 598 (which will have separate and less strenuous student expectations). Though 598 and 698 may not both be counted for graduate credit, a student may take 598 as an undergraduate student and 698 as a graduate student in English.

Note: By mid-August, prospective students must submit a portfolio of their own work for evaluation before consent to register for this course will be given. Details of this procedure are available from the Department of English. MAY BE REPEATED FOR CREDIT

English 701 H(1-0)
Major Field
Required of all doctoral students. MAY BE REPEATED FOR CREDIT
NOT INCLUDED IN GPA

English 703 H(1-0)
Minor Field
Required of all doctoral students. MAY BE REPEATED FOR CREDIT
NOT INCLUDED IN GPA

ENVIRONMENTAL DESIGN EVDS

Contact Info
Location: Professional Faculties - 2182
Faculty number: (403) 220-6601
Fax: (403) 284-4399
E-mail address: evdsinfo@ucalgary.ca; and evdsphd@ucalgary.ca
Web page URL: http://www.ucalgary.ca/evds/

1. Degrees and Specializations Offered
Doctor of Philosophy (PhD)
Master of Environmental Design (MEDes), thesis-based
Master of Architecture (MArch), course-based

2. Admission Requirements
In addition to Faculty of Graduate Studies requirements, the Faculty of Environmental Design requires:

Doctor of Philosophy
a) For applicants required to prove proficiency in English, a TOEFL score of 600 (written test), 250 (computer-based test) including at least 5.0 on the Test of Written English (TWE); and a score of at least 50 on the Test of Spoken English (TSE); or 100 (internet-based test); or an IELTS score of 7.5
b) An admission grade point average (GPA) above 3.50 on a 4-point scale

c) A statement of interest that describes the nature of the thesis research the applicant expects to undertake. This is not a detailed thesis proposal, but will be used by an admissions committee as an indicator of the applicant’s ability to conduct doctoral level research and to determine if adequate supervisory and research funding resources are available to support the proposed program. Only if such resources are available will the student be admitted.
d) A qualified supervisor from the Faculty of Environmental Design will be identified once admission is recommended by an admissions committee and the student has been admitted by the Faculty of Graduate Studies.

Master of Environmental Design
In addition to Faculty of Graduate Studies requirements, the Faculty of Environmental Design requires:

Applicants for the Master of Environmental Design must provide:
a) a clear, well written, statement of intent which describes how the applicant’s specific educational background and professional or personal experience relates to Environmental Design as a field of study and the applicants’ future ‘vision’ for pursuing a graduate degree in Environmental Design (related to personal and professional goals and intentions)
b) a clear, well written and substantive statement of thesis research interests which informs the Admissions Committee of the applicant’s supervisory needs;
c) a ‘portfolio’ of the applicant’s work, as selected by the applicant, to include at least one example of the applicant’s previous academic or professional writing, such as a written essay, published research paper, major academic paper, design project or consulting report;
AND provides examples or illustrates the applicant’s design work, graphics, visual communication, creative thinking, community action, or creative ideas as related to the applicant’s statement of intent. If any of the work involves collaboration with others, please clearly identify what aspects of the work are from others. This portfolio should be submitted in digital form (pdf files) on a CD/DVD or in format easily downloaded to a CD or DVD

Master of Architecture
In addition to Faculty of Graduate Studies requirements, the Faculty of Environmental Design requires:

a) Prospective applicants are advised to use opportunities within their four year recognized university undergraduate degree studies to develop knowledge in design, the humanities, social sciences, arts, engineering, biological and/or physical sciences – including, wherever possible, studio, laboratory and collaborative learning experiences.

b) Applicants must demonstrate successful completion of 10 pre-requisite half course requirements in 4 areas: Design, Technology, Communications, and History/Theory (equivalent to the courses taken in the minor in Architectural Studies).

Applicants may be admitted to the M.Arch Foundation or qualifying year in order to complete these prerequisite requirements. An assessment of these prerequisite requirements will be made by an admissions committee and applicants will be informed in offers of admission which, if any, courses at the Foundation level will be required.

c) Applicants must provide evidence of original and/or creative work in any field or medium and demonstrate in writing the relevance of the skills shown by this work to the study of Architecture. This work should be presented in a compact form (box, envelope or binder in A4 metric [8.5’ x 11’] or 297 mm by 297 mm [11’ x 11’] format). If any of the work involves collaboration with others, please clearly identify what aspects of the work are from others.
3. Application Deadline
Doctor of Philosophy
Deadlines for the submission of complete applications for students with international transcripts:
a) 1 March for September admission
b) 1 April for September admission

Deadlines for the submission of complete applications for students with Canadian or US transcripts:
a) 1 March for September admission
b) 1 April for September admission

Master of Environmental Design & Master of Architecture
Applications are accepted from 1 December through 1 February for September admission. There is no January admission. Please note that new admissions to both Masters Degree Programs may be limited in number on an annual basis.

4. Advanced Credit
Applicants must make advanced credit requests as part of the admission process. Advanced credit will not be given for courses taken more than five years prior to admission application. Credit will not be given for courses taken to bring the grade point average to a required level for graduate studies admission.

5. Program/Course Requirements
In addition to Faculty of Graduate Studies requirements, the Faculty of Environmental Design requires:

Doctor of Philosophy
a) Students complete Environmental Design 711[EVDS711] (half-course), Environmental Design 702[EVDS702] (full course) and at least one other half-course (normally an additional three half-courses) recommended by the student’s interim advisor. The PhD Coordinator must approve these courses. Students admitted for 1 September 2009 must take and complete Environmental Design 702[EVDS702] and Environmental Design 711[EVDS711] in their first term. (Environmental Design graduates who have completed EVDS 702 will not be required to repeat that course).
b) Additional course work when recommended by the student’s interim advisor or supervisor. Fieldwork and research done off-campus may be counted towards fulfillment of the full-time study and research requirement.

Master of Environmental Design
An individual student Program of Study (POS) will be submitted by all students for approval by the MEDes Graduate Coordinator. The POS must include the following academic requirements:

Required Courses
EVDS 651.10 (HCE): Design Thinking Studio
EVDS 683.61 (HCE): Interdisciplinary Seminar
EVDS 751.10 (HCE): Thesis Research and Design Studio

International Experience: this requirement can be met through elective courses, such as thematic electives or studio, international project or studio courses or, participation in a research project through the EVDS Research Centre.

6. Additional Requirements

7. Credit for Undergraduate Courses
Doctor of Philosophy
Not given.

Master of Environmental Design
Only where appropriate to a student’s individual Program of Study may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses.

Master of Architecture
With the exception of Foundation year courses, only where appropriate to a student’s Program of Study may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses.

8. Time Limit
All PhD requirements must be completed within six registration years.

All MEDes and MArch requirements must be completed within four registration years.

9. Supervisory Assignments
Doctor of Philosophy
At the time of admission, each student will be assigned an interim advisor, who may or may not become the student’s thesis supervisor. The interim advisor, in consultation with the PhD Coordinator, will prepare a thesis proposal and propose a supervisor and the other members of a supervisory committee for approval by the PhD Coordinator.

Master of Environmental Design
Upon admission, each MEDes student will be assigned an interim Advisor appropriate to their admissions statement of intent and thesis research area who may assist with POS development and thesis proposal development. Within twelve months of first registration a Thesis Supervisor will be approved specific to the student’s approved thesis proposal.

Master of Architecture
Upon admission each MArch student will be assigned a Program Advisor to assist with POS development. As part of the MArch research studies in second year, research project advisor will be assigned to students on an individual interest basis.

10. Required Examinations
Doctor of Philosophy
Doctoral students are required to complete both a written and an oral candidacy examination. The written candidacy examination normally consists of a set of four questions set by the supervisory committee and taken in the second year of the program (or possibly the third year for students entering the program without a Master’s degree), after the completion of course work and after approval of the doctoral thesis proposal.
Design research studio proposals will be approved by the Master of Architecture, approved by an approved Supervisory committee. If circumstances require that they be dropped. Students are advised that some of the courses listed are specific to the Faculty of Environmental Design and members of that faculty.

11. Research Proposal Requirements

Doctor of Philosophy

Approval of the thesis proposal by the supervisory committee and the PhD Coordinator is required as noted in the “Supervisory Assignments” above. Thesis Proposals should clearly describe the project in terms of Title, Objectives, Background, Methodology and Results and must include an explicit interventionist or problem-solving component.

Master of Environmental Design

Thesis proposals will be presented and reviewed upon completion of first year thesis research design studio. Final thesis proposals will be individually approved by an approved Supervisory committee.

Master of Architecture

Design research studio proposals will be approved by Research Studio Project Advisors.

12. Special Registration Information

None.

13. Financial Assistance

Financial assistance may be available to qualified students but cannot be guaranteed. For information on admission and academic awards, see the Awards and Financial Assistance section of this calendar, the EVDS website and the Awards Data Base on the Faculty of Graduate Studies website.

14. Other Information

None.

15. Faculty Members/Research Interests

Current information about faculty members and research interests can be found at http://www.ucalgary.ca/evds/people/faculty/index.htm

Environmental Design (EVDS)

The following list of courses, offered by members of the Faculty of Environmental Design and members of other departments in the University, is specific to the 2008-2009 academic year. Students are advised that some of the courses listed below may not be offered in 2008-2009 if special circumstances require that they be dropped. Students should consult with their Faculty advisor before registering for any course.

Core Courses in Environmental Design are:

- Environmental Design 604, Conceptual Bases of Environmental Design
- Environmental Design 609, Environmental Design Practice
- Environmental Design 702, Advanced Environmental Design Practice
- Environmental Design 711, Theoretical Basis for Interdisciplinary Intervention and Design

See the online Graduate Calendar for a listing of new Graduate level courses in Environmental Design.

Undergraduate Courses

Only where appropriate to a student’s program may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses.

Environmental Design 533 H(3-0)

Introduction to Industrial Design

Historic and conceptual frameworks of industrial design; principles of ergonomics, materials and industrial production technologies; industrial design as technique and creative process; professional perspectives. Lectures and field work. Environmental Design 533 is a prerequisite or corequisite to Industrial Design studio courses.

Environmental Design 583 H(1.5-1.5T)

Special Topics in Environmental Design

Topics in architecture, environmental science, industrial design and planning.

MAY BE REPEATED FOR CREDIT

Environmental Design 597 Q(1.5-1.5T)

Special Topics in Environmental Design

Topics in architecture, environmental science, industrial design and planning.

MAY BE REPEATED FOR CREDIT

Graduate Courses

Environmental Design 604 H(4.5-0)

Conceptual Bases of Environmental Design

Conceptual frameworks for design intervention in the environment based on perspectives from the humanities, natural and social sciences of human relation to natural, social and built environments; theories and models of investigation and intervention; discussion of professional responsibilities and environmental design issues. Required course for all Environmental Design degree program students. Design Camp, for first year students, is part of the Environmental Design 604 core course.

Environmental Design 606 F(6-1)

Introduction to Environmental Science

Study of the nature, philosophy and research of environmental science professional practice. Examines project definition, research design, scoping, business management, and regulatory and policy issues in environmental science. There is an interdisciplinary problem solving studio component. Research design and proposal writing are developed.

Prerequisite: Normally open only to students in Environmental Design degree programs and required of MEDES Environmental Science students.

Note: Not open to students with credit in Environmental Design 603 or 683.13.

Note: Full course offered in single session.

Environmental Design 607 H(3-0)

(formerly Environmental Design 683.50)

Sustainable Development

Examines both the theoretical principles and practical applications of sustainable development, and provides a framework for understanding the past, present, and future sustainability issues and the challenges to making development truly sustainable.

Environmental Design 609 H(0-8)

Environmental Design Practice

Introduction to environmental design encompassing perspectives of architecture, industrial design, urban and regional planning and environmental science; communication and interdisciplinary approaches; environmental design as technique and creative process. Lectures, field and studio work.

Prerequisite: Open only to students in Environmental Design degree programs.

Note: Required of all MEDES and MArch degree program students.

Note: Graded on CR/C/F basis only.

Environmental Design 615 Q(1-3)

Introduction to Computer Visualization in Urban Design

Introduction to computer visualization techniques with emphasis on CAD studio project.

Environmental Design 617 H(3-0)

Statistical and Empirical Methods in Industrial Design

A broad interdisciplinary view of methods used to collect and interpret information necessary in the design and development of products. Areas dealt with include but are not limited to user needs and preferences, manufacturing processes and market investigations.

Environmental Design 619 H(3-1)

Ecological Design

Project oriented course focusing on interdisciplinary methods, process and theoretical foundations of ecological design and its applications in the built environment and urban and regional landscapes. Principles of landscape ecology, systems theory, technology design and transfer ecosystem science, landscape process form and function, environmental gradients, habitat, trophic organization and nutrient flows will be used in design of interventions for problem solving in built environment and urban-regional contexts including sustainable urban form, ecological infrastructure and ecosystem services,
urban environmental management and water management in urbanizing watersheds.

Environmental Design 621 H(3-1)

Health in the Built Environment
Concepts of health in an environmental context; historic approaches to preventative medicine; medical basis of building-related illness; case studies in indoor air quality; strategies for prescription and design of healthy indoor environments.

Sustainability in the Built Environment
The principle of sustainability recognizes people as temporary stewards of their environments, working toward a respect for natural systems and a higher quality of life. Examination of the built environment and the tools to achieve a stable and balanced and a regenerative ecosystem in a process of responsible consumption, wherein waste is minimized and the built environment interacts with natural environments and cycles. Healthful interior environments, resource efficiency, ecologically benign materials, renewable energies and social justice issues are examined.

Environmental Design 623 H(3-0)

Environmental Design of Wetlands and Inundated Areas
Wetland ecology, hydrology and biogeochemical processes will be applied to management issues and design opportunities afforded by wetlands and inundated landscapes. Relationships between land use and water quality lead to consideration of the effects of point source and non-point source pollutants on natural wetlands and receiving water bodies. The effectiveness and limitations of water treatment applications of designed wetlands. Local constructed wetland projects will be used to demonstrate design concepts, regulatory issues and site-specific opportunities. Lectures, student-led seminars and interactive class design study are included.

Note: Offered in odd-even dated academic years.

Environmental Design 625 H(3-0)

Environmental Design of Wetlands and Inundated Areas

Computer Literacy in Environmental Design
Basic computer literacy for Environmental Design students. Introduction to selected software packages of professional relevance to environmental designers.

Note: Graded on CR/C/F basis only.

Environmental Design 627 Q(1.5-1.5)

Community Development
Basic principles and practice of community development. A comprehensive approach to the field and discussion of a wide range of community development perspectives. Topics include community economic development, housing, tourism and cultural development.

Environmental Design 629 H(3-0)

Environmental Design 631 H(3-0)
Cities, International Development and Planning
Examines strategies for urban development within the context of a globalized economy. Competition for investment, global interdependence, technological change, growing income polarization, and environmental degradation are creating new challenges in the urbanizing world. Planning concepts and policies will be examined in different economic, institutional and cultural settings with an emphasis on economic, social and physical aspects of change. Selected best practices in North America, Western and Eastern Europe will illustrate different approaches to development and sustainability.

Note: Not open to students with credit in Environmental Design 683.91 or 723.

Environmental Design 633 H(35-0)
Environmental Reserves
Study of National Parks and equivalent reserves throughout the world, with emphasis on those occurring in North America; an examination of the purposes and functions of such areas in historical, cultural, ecological, legal, and future perspectives; analysis of selected planning and use situations and their related institutional structures.

Note: Offered in even-odd dated academic years.

Environmental Design 635 H(3-1.5)
Computer Applications for Industrial Design
Introduction to computer applications in Industrial Design, including computer-aided design (CAD), computer graphics, analytical and micro-computer applications. Conceptual and mathematical bases for two- and three-dimensional computer modelling. Hands-on experience with a range of CAD systems and other computer applications. Discussion of the role of computer systems in design processes.

Prerequisite: Pure Mathematics 30 or equivalent.

Environmental Design 637 H(3-0)
(formerly Environmental Design 683.99 or 683.35)
Housing and Neighbourhood Change
Recent developments in Canadian cities have indicated a need for planners and other urban professionals concerned with the provision of affordable housing in the context of urban growth management. This course provides both theoretical understanding and practical insights into these issues through assessment of the social, economic and spatial aspects of neighbourhood change. Practical work focuses on inner city neighbourhoods and planning strategies for unique transformation of brownfield sites, intensification, regeneration without displacement and building of sustainable communities.

Note: Not open to students with credit in Environmental Design 683.35 or 683.99.
Note: Offered in even-odd dated academic years.

Environmental Design 639 H(3-1)
Planning Theory
An introduction to planning theory. Develops a critical awareness of key historical, theoretical, and ethical frameworks; legal, political, and economic institutions; and an understanding of their implications for Canadian planning. An integrative normative procedural approach to planning is presented, one which is appropriate for a pluralistic liberal democratic society.

Environmental Design 641 H(3-3)
Applications of Plant Ecology to Environmental Management
Examines the principles of vegetation analysis, with an orientation towards natural resource assessment and environmental management. Included will be a consideration of sampling designs and field techniques, data handling, botanical diversity measures, the applied use of parametric and nonparametric statistical techniques, multivariate plant community classification and ordination techniques, and selected formal vegetation classification systems. An overview will be given of selected ecological land classification systems and evaluation methods. A compulsory weekend field trip will be part of the course.

Environmental Design 643 H(3-0)
(formerly Environmental Design 683.40)
Field Studies
Introduction to the architecture, urban landscape, planning issues, design culture and other relevant faculty topics in an international setting. Specific destination and itinerary in any given year are dependent on availability and interest. Through a week long field trip students will learn about the built and natural environment of the selected city and its context.

Prerequisite: Open only to students in Environmental Design degree programs.
Note: Not open to students with credit in Environmental Design 683.40

Environmental Design 647 H(3-0)
Historic Preservation: Principles and Practice
Introduction to the concepts, approaches and practice of historic preservation from both an urban planning as well as an architectural perspective. Building conservation, historic districts, historic site development, ecomuseums, commercial area and neighbourhood revitalization are analysed for both development, ecomuseums, commercial area and neighbourhood revitalization are analysed for both.

Note: Offered in odd-even dated academic years.

Environmental Design 649 H(3-0)
Impact Assessment
Biophysical, economic and social impact assessment will be reviewed in an integrated, interdisciplinary approach which will include lectures, studies of methodologies, theory and practical problems. Federal and various Provincial impact assessment policies and procedures will be considered.
Use and management problems are observed and synecology of some 450 plant species. Selected land emphasized using the taxonomy, autoecology and delineate functional, manageable ecosystem units is Canadian West Coast from the marine intertidal zone to acquaint students with the ecosystems of the-A two-week field course conducted in late Spring to.

Course

The Ecology of the Canadian West Coast - A Field Course

A two-week field course conducted in late Spring to acquaint students with the ecosystems of the Canadian West Coast from the marine intertidal zone through mesothermal forest ecosystems to alpine tundra ecosystems. The use of plant ecology to help delineate functional, manageable ecosystem units is emphasized using the taxonomy, autoecology and synecology of some 450 plant species. Selected land use and management problems are observed and discussed. A minimum enrolmentment for the course is required.

NOT INCLUDED IN GPA

Environmental Design 661 H(3-0)

Ecosystem Management and Planning

Natural resource managers and planners are realizing (and operationalizing) the need for concordance between the dynamic process-and-pattern view of nature and the complex social milieu that forms the context for resource planning and management. The emerging field of ecosystem management is the embodiment of the professional response to this need. Examines the interdisciplinary approach of ecosystem management as the intersection between conservation biology, social science of natural resource management and organizational theory. Case studies and readings will be chosen to highlight current ecosystem management ideas and practice.

Environmental Design 665 H(3-0)

Introduction to Policy Analysis

Introduces students to the major issues and policy responses to economic, social and environmental problems in Canadian communities. Provides an overall understanding of the political, societal, financial and institutional constraints that affect the processes of policy formation and implementation. Assists in the development of practical skills in the analysis, planning, monitoring and evaluation of public policies.

Environmental Design 667 H(3-0)

Learning and Management Planning

Reviews the history of wildlife management and the principles of effective planning, including scoping issues, dealing with constraints, goal setting, effective public involvement, conflict resolution, development and evaluation of alternatives, and applying science to evaluate management actions. The course begins with a series of introductory lectures on the fundamentals of wildlife management, history of wildlife management and policy, the need for science in management, and the changing context of public involvement in resource management. Lectures by professional practitioners provide insights into the practical world of resource management and planning. Assignments allow students to assess a wildlife issue, critically review selected wildlife management plans, and to write and present a strategic management plan.

Environmental Design 675 H(3-0)

Urban Design Theory

Intended to provide students with an introduction to theories, concepts, methods and contemporary issues in urban design. The course consists of lectures, case studies, seminars and a short project.

Environmental Design 676 H(3-0)

Multimedia for Environmental Design

Laboratory course allowing students the opportunity to develop an understanding of computer multimedia techniques used to create interactive presentations, educational CD-ROM titles and web documents. The elements covered by the course are: visual (still, video and animation techniques), sound (quality and integration), and the use of web-design software.

Environmental Design 655 H(3-0)

City and Neighbourhood Planning

Examines significant contemporary issues facing planning practitioners in city-wide and neighbourhood contexts. Topics can include downtown planning, transportation planning, urban sprawl and open space planning, etc. Normally a client-based project in an established neighbourhood provides students with an opportunity to employ public participation and problem-solving techniques.

Note: Not open to students with credit in Environmental Design 683.04 or 683.12.

Environmental Design 659 H(96 hours)

The Ecology of the Canadian West Coast - A Field Course

A two-week field course conducted in late Spring to acquaint students with the ecosystems of the Canadian West Coast from the marine intertidal zone through mesothermal forest ecosystems to alpine tundra ecosystems. The use of plant ecology to help delineate functional, manageable ecosystem units is emphasized using the taxonomy, autoecology and synecology of some 450 plant species. Selected land use and management problems are observed and discussed. A minimum enrolmentment for the course is required.

NOT INCLUDED IN GPA

Environmental Design 661 H(3-0)

Ecosystem Management and Planning

Natural resource managers and planners are realizing (and operationalizing) the need for concordance between the dynamic process-and-pattern view of nature and the complex social milieu that forms the context for resource planning and management. The emerging field of ecosystem management is the embodiment of the professional response to this need. Examines the interdisciplinary approach of ecosystem management as the intersection between conservation biology, social science of natural resource management and organizational theory. Case studies and readings will be chosen to highlight current ecosystem management ideas and practice.

Environmental Design 665 H(3-0)

Introduction to Policy Analysis

Introduces students to the major issues and policy responses to economic, social and environmental problems in Canadian communities. Provides an overall understanding of the political, societal, financial and institutional constraints that affect the processes of policy formation and implementation. Assists in the development of practical skills in the analysis, planning, monitoring and evaluation of public policies.

Environmental Design 667 H(3-0)

Geographic Information Systems for Environmental Design

Introduction to the use of GIS in urban planning and environmental management. Discussions on GIS modelling focus on population projection, location theory, land use modelling and environmental and ecological management. Case studies from both the public and private sector provide the basis of assignments. Emphasis given to developing a sensitivity to the application appropriate for specific GIS problems.
Computer Modelling of the Environment
Introduction to the use of computer modelling, animation and virtual reality in architecture and urban design. Professional CAD and rendering applications will be used to explore the aesthetic and technical aspects of design. Emphasis given to developing a sensitivity to the application appropriate to communicating three dimensional urban and natural form using computer generated images.

Environmental Design 679  H(3-0)

Environmental Ethics Seminar
Intended to provide the student with a thorough grounding in the theory and practice of environmental ethics. Particularly directed to students in Environmental Design and concerns itself primarily with philosophical and ethical issues facing environmental scientists, planners and designers. Includes such topics as animal rights, deep ecology, eco-feminism, environmental pragmatism and sustainable development.

Environmental Design 681  H(3-0)

Advanced Special Topics in Environmental Design
Topics in architecture, environmental science, industrial design and planning.

Note: Block courses labelled EVDB will be graded on a CR/F basis.

MAY BE REPEATED FOR CREDIT

Environmental Design 683  H(1.5-1.5T)

Industrial Design Clinic
The evaluation of new products and services with emphasis on the Industrial Design content. The goal of the evaluation exercise is to provide the client with advice.

Note: Offered in odd-even dated academic years.

Environmental Design 685  H(3-0)

Ergonomics for Environmental Design
Consideration of human physical, physiological, perceptual, and behavioural characteristics in the design of an object or environment for safe and effective use. Methods of obtaining human factors information, applying this information in a design process, and evaluating designs against human factors constraints and user performance criteria. Sources of information and factors affecting the validity of information. The scope of human factors, ergonomics, anthropometry, and related disciplines. Independent research in applications of individual interest.

Note: Offered in odd-even dated academic years.

Environmental Design 687  H(3-0)

Industrial Design Technology
Application of contemporary and developing technologies to industrial design. Content covers manufacturing processes and materials, with particular emphasis on metals and plastics. The course includes lectures, design exercises, seminar discussions, case studies and field trips.

Note: Offered in even-odd dated academic years.

Environmental Design 691  H(3-0)

History of Industrial Design
Review of the social, cultural and technical environment of Industrial Design; major personalities, design movements and achievements in the design of products since 1900; current and emerging trends.

Note: Offered in odd-even dated academic years.

Environmental Design 693  H(3-0)

People and Products
Seminar course exploring the interactions between people and products on their many levels and in their multifaceted complexity. Product perception, attitudes, meaning, semiotics, and psycho-social processes. Awareness of frameworks and concepts for understanding the interaction between people and products from industrial design, psychology, sociology, anthropology, ethnology, and other disciplines. Application of such frameworks, concepts, and methods to the design process.

Note: Offered in even-odd dated academic years.

Environmental Design 697  Q(1.5-1.5T)

Advanced Special Topics in Environmental Design
Topics in architecture, environmental science, industrial design and planning.

Note: Block courses labelled EVDB will be graded on a CR/F basis.

MAY BE REPEATED FOR CREDIT

Environmental Design 702  F(0-16)

Advanced Environmental Design Practice
Interdisciplinary training in environmental design practice at an advanced level, centred on case studies, information probing and analysis; culminates in a policy planning, design or management assignment and an environmental design presentation on a real world problem.

Prerequisite: Environmental Design 609 or 711 or permission of instructor.

Corequisite: Environmental Design 675 (Barcelona only).

Note: Offered in a single session.

Note: Graded on CR/C/F basis only.

Environmental Design 703  Q(0-3)

Directed Study in Environmental Design
Research, readings or a studio project in architecture, environmental science, industrial design or planning.

Prerequisite: Open only to Environmental Design students with consent of the Associate Dean (Academic).

MAY BE REPEATED FOR CREDIT

Environmental Design 707  H(0-8)

Ecological Management in Land Use Planning
A studio course in which a real land use problem with a major ecological management component is taken on by the class as a consulting team. Problem definition, proposal preparation and the complete study from regional biophysical and land use inventory through client presentations of interim and final results are completed within the term. The final report must include development recommendations and environmental management guidelines. Projects are drawn mainly from the resource development industry, although other potential clients are considered.

Environmental Design 709  H(3-0)

Product and Technology Assessment
Theoretical, legal, and practical aspects of assessing products and technologies for their environmental impacts (socio-economic, health, safety, and biophysical). Philosophy and theory of PATA, life cycle assessment, life cycle costing, risk assessment and management, green product endorsement and labelling, and purchasing guidelines are explored through lectures, seminar, and projects.

Environmental Design 711  H(0-8)

Theoretical Basis for Interdisciplinary Intervention and Design
Comparisons and contrasts among disciplinary, multidisciplinary and interdisciplinary intervention and research. Focus on interdisciplinary teamwork knowledge and skills, on the ability to integrate research into professional real world contexts and on the ability to communicate research results effectively. This course is open only to students registered in a PhD program and is a prerequisite to Environmental Design 702.

Environmental Design 725  H(3-0)

Topics in Wildlife Management and Resource Development
The practice of wildlife management combines the science of ecology with an understanding of human social and economic needs. It acknowledges that the root of environmental problems lies in the economy and human culture. Through a series of assigned readings, seminars and discussions, the course will examine current issues and methods in wildlife management practice, conservation biology, wildlife population management, community-based wildlife management, and environmental impact assessment.

Environmental Design 731  H(3-0)

Cultural Tourism
Designed to provide students with an introduction to the wide range of existing cultural tourism possibilities, while emphasizing the management design and planning dimensions of historic resources (historic sites, buildings, festivals, events and regional heritage initiatives). Case study approach whenever appropriate.

Note: Offered in even-odd dated academic years.
Environmental Design 744  F(0-16)

**Studio in Urban Design**
These urban design studios explore contemporary problems in urban development and design, and emphasize a concern for place over an extended period of time, human behaviour - built form relationships and environment conservation goals. The approach aims to produce urban design that is locale-specific and yet responsive to changes in the ways we live.

**Prerequisite or Corequisite:** Environmental Design 533.

**Note:** Full course offered in single session only.

**MAY BE REPEATED FOR CREDIT**

Environmental Design 747  H(36 hours in Fall or Winter Session)

**Management in Environmental Science**
Introduces students to Environmental Management Systems and a set of 22 environmental management tools, which can be used by corporations and institutions to reduce their adverse impacts on the environment and to conserve resources. Lectures and seminars will review current practice, theory and provide specific examples. Ways and means of controlling activities of institutions and corporations that affect the environment, rather than on managing the environment.

Environmental Design 749  H(3-1)

**Water Management**
A broad perspective on water management issues through lectures, seminars, case studies and extensive readings. Water quality, quantity, technology, aesthetics, recreation and in stream uses, biophysical and cultural characteristics of watersheds, watershed rehabilitation and restoration, with an emphasis on Canada and Western Canada in particular. A review of legislation and policy at municipal, provincial, federal and international levels.

Environmental Design 762  F(0-16)

**Advanced Studio in Environmental Design**
Topics vary from year to year, depending on such factors as current issues and contemporary problems. A number of studio topics may be offered to accommodate a variety of interests.

**Note:** Full course offered in single session only.

**MAY BE REPEATED FOR CREDIT**

Environmental Design 773  H(0-3)

**Directed Study in Environmental Design**
Research, readings or a studio project in architecture, environmental science, industrial design or planning.

**Prerequisite:** Open only to Environmental Design degree students with consent of the Associate Dean (Academic).

**MAY BE REPEATED FOR CREDIT**

Environmental Design 792  F(0-16)

**Studio in Industrial Design**
Professional experience in design principles and/or analytical methods, interdisciplinary approaches and specific skills. Topics vary from year to year, depending on such factors as current issues and contemporary problems. A variety of studios may be offered to accommodate the varied level of student development.

**Prerequisite or Corequisite:** Environmental Design 533.

**Note:** Full course offered in single session only.

**MAY BE REPEATED FOR CREDIT**

Environmental Design 793  H(0-8)

**Workshop in Industrial Design**
Instruction and supervised experience in the use of tools and equipment for the development of study models, prototypes and graphic material related to student projects. Field work and term projects.

**793.01. Workshop Skills for Architecture**
793.02. Workshop Skills for Industrial Design
793.03. Workshop Skills for Environmental Design.

**NOT INCLUDED IN GPA**

Environmental Design 799  H(3-0)

**Preceptorship**
A Preceptorship is a study and training arrangement made between a student and an employer or an equivalent supervisor which has specific educational objectives, a method of evaluation, and is an integral part of a student's Program of Studies. Preceptorships offer a number of benefits: acquiring skills and knowledge which may be better obtained outside the University; developing first-hand experience of professional design practice; preparing for more focused studies in the Faculty; and conducting research. An approved preceptorship assignment is equivalent to full-time studies. Preceptorships are not normally approved until a Program of Study is at least conditionally approved.

**MAY BE REPEATED FOR CREDIT**

Environmental Design Architecture (EVDA)

**Undergraduate Courses**

Only where appropriate to a student's program may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses.

Environmental Design Architecture 511  H(3-1)

**Building Science and Technology I**
Functioning of the building enclosure: demonstration of the behaviour of building elements and their sub-assemblies under differential temperature and pressure stresses; fundamentals of acoustics; nature and use of building materials; response of building materials to climatic cycles radiation, precipitation, heating and cooling.

**Note:** Credit for both Environmental Design Architecture 511 and Architectural Studies 449 will not be allowed.

Environmental Design Architecture 521  H(3-0)

**Introduction to Design Theories**
The contemporary cultural, social, and philosophical arenas in which architecture exists are examined through lectures, readings and seminars. The course runs in conjunction with Environmental Design Architecture 581.

**Note:** Credit for both Environmental Design Architecture 521 and Architectural Studies 445 will not be allowed.

Environmental Design Architecture 523  H(3-0)

**History of Architecture and Human Settlements**
A survey history of architecture and human settlement from the prehistoric times until the present. The first course addresses the premodern traditions of the major world cultures. The second course explores the traditions of the Western world from the beginning of the Italian Renaissance until the present. The courses will examine the changes in world view that have altered the course of architecture through the study of selected works of architecture and urbanism.

523.01. History of Architecture and Human Settlements I - Premodern Traditions of the World
523.02. History of Architecture and Human Settlements II - The Western Tradition 1400 to Present

**Note:** Credit for both Environmental Design Architecture 523 and Architectural Studies 457 will not be allowed.

Environmental Design Architecture 541  H(100 hours)

**Graphics Workshop I**
A skill building course with instruction and supervised experience in basic drafting, sketching and rendering; principles of perspective, drawing and presentation conventions. A variety of instruction may be offered to accommodate the varied level of student development.

**Note:** Credit for both Environmental Design Architecture 541 and Architectural Studies 451 will not be allowed.

Environmental Design Architecture 543  H(100 hours)

**Graphics Workshop II**
Instruction and supervised experience in drafting, sketching and rendering; drawing and presentation conventions. Builds on Environmental Design Architecture 541. A variety of instruction may be offered to accommodate the varied level of student development.

**Note:** Credit for both Environmental Design Architecture 543 and Architectural Studies 453 will not be allowed.

Environmental Design Architecture 561  H(3-0)

**Architectural Professional Practice I**
An overview of the structure, organization and changing roles of the design professions through history with emphasis on emerging patterns of practice. The procedures, constraints and opportunities of practice in its legal, ethical and technical dimensions will be analysed using a case study method.
Environmental Design Architecture 581  H(0-8)
Introductory Studio in Architecture
An introduction to architectural design. Through exercises in the manipulation and composition of space and form students will develop the foundation of basic design skills necessary to pursue more advanced architectural design studios.

Note: Credit for both Environmental Design Architecture 581 and Architectural Studies 443 will not be allowed.

Environmental Design Architecture 582  F(0-16)
Studio II in Architecture
An introduction to the application of ordering principles of architecture and to the numerous layers that contribute to the quality of inhabitation of place and space through design. Issues explored include the formal, the experiential and the theoretical concerns of architectural design in today's cultural context.

Note: Credit for both Environmental Design Architecture 582 and Architectural Studies 444 will not be allowed.

Note: Full course offered in single session only.

Graduate Courses

Environmental Design Architecture 611  H(3-1)
Building Science and Technology II
Theory and principles of structural, foundation and building service systems. Application of building science principles to building structure and enclosure, examination of the types and manufacture of building elements and the application of building components to specific problems in architecture.

Environmental Design Architecture 613  H(3-0)
Structures for Architects I
Advanced structural systems for buildings including: structural connections and composite structures; system characteristics and architectural intent; and case studies in contemporary building structures.

Environmental Design Architecture 615  Q(3-0)
Environmental Control Systems
Approaches to the design of heating, cooling, and ventilation systems for buildings. Issues in system design such as energy efficiency and indoor air quality.

Environmental Design Architecture 617  Q(3-0)
Architectural Lighting Design
Fundamentals of light and visual perception. Approaches to the design of non-uniform and uniform lighting systems for buildings. Issues in system design such as human satisfaction and performance and energy efficiency. Development of skills in the selection and design of lighting systems.

Environmental Design Architecture 619  H(3-0)
Structures for Architects II
Fundamentals of Structural Analysis including: the characteristics and performance of the various components of structures; the terminology and notation necessary for effective teamwork with structural engineering consultants; and basic design calculations for simple structures.

Environmental Design Architecture 621  H(3-0)
Formal Strategies in Architecture
The relationship between architectural intention and a syntactic knowledge of architecture. Precedents used as vehicles of investigation to clarify the ways meaning is 'contained' in form. The formal strategies utilized by the architect in the generation of architectural meaning through built form.

Environmental Design Architecture 655  H(3-0)
Computer-Aided Architectural Design
Three- and two-dimensional representation of designs. Issues in computer-aided architectural design such as consequences for conceptualization, experiential qualities of design with machines, new approaches to generation of designs, re-use of information, possibilities of new information technologies, and personal productivity.

Environmental Design Architecture 663  H(3-0)
Architectural Professional Practice II
The nature of the building industry, stakeholders and many of the participants and their responsibilities. Brings together the theoretical framework of the architect’s role in society with the practicality of managing a practice. Project management and office administration, trends, liabilities and systems for project control such as building economics, cost analysis and estimating techniques, and cost controls during design and construction.

Environmental Design Architecture 682  F(0-16)
Intermediate Architectural Design Studio
An intermediate design studio in which students work on projects defined by the instructor. Topics may vary from year to year. They are determined by the creative interests of the faculty assigned to the course. Enrolment may be limited.

Note: Full course offered in single session only.

Note: Normally open only to students in Faculty of Environmental Design programs.

MAY BE REPEATED FOR CREDIT

Environmental Design Architecture 782  F(0-16)
Senior Studio in Architecture
A research oriented design studio in which students collaborate with faculty in projects exploring contemporary themes in architecture. Topics vary from year to year and are defined by the current research interests of Faculty. Enrolment may be limited.

Note: Full course offered in single session only.

MAY BE REPEATED FOR CREDIT

Environmental Design Planning (EVDP)
Graduate Courses

Environmental Design Planning 601  Q(3-0)
Legal Planning Frameworks
Familiarizes students with the legal basis of planning, from the Constitution and property law to environmental and administrative law. Also considered are the Municipal Government Act and various legal planning tools such as Municipal Development Plans, Land Use By-Laws, Business Revitalization Zones, etc. Addresses the municipal development process related to land use redesignations, development permits, subdivision and appeals.

Environmental Design Planning 603  Q(3-0)
Spatial Analysis for Urban Planning
GIS and quantitative analysis techniques for evaluating demographic, distribution of jobs, housing, and other economic trends that establish the basis for discussion of appropriate planning policies. Develops an understanding of the historical growth patterns for the City of Calgary.

Environmental Design Planning 605  H(3-0)
Community Planning
Overall objective is to introduce students to land use planning and development issues in the suburban context. Addresses one of the most important urban challenges related to smart growth management. Provides a step-by-step introduction to community planning processes and essential planning policies to create development that is economically feasible, socially inclusive and environmentally friendly.

Environmental Design Planning 607  Q(3-0)
Economic and Fiscal Impact Analysis
Skill in quantitative analysis is developed in estimating the local impact of project development in terms of economic (income, expenditure, employment), demographic (population, households, housing units), and fiscal (revenue, expenditure, taxation) impacts.

Environmental Design Planning 609  Q(3-0)
Physical Planning
Execution of a major physical planning and design project. Skills development in drawing and in utilizing graphic conventions to describe and interpret built environment.

Environmental Design Planning 611  Q(3-0)
The Urban Development Framework
Critical examination of Canadian political, economic and legal institutions as the context of urban development. Exploration of administrative and regulatory alternatives. Financial analysis of private sector urban development.
Environmental Design Planning 613  Q(3-0)

Public Involvement
Provides students with an understanding of the principles and practice of public participation and community development. Various participation methods/approaches are analyzed in terms of their characteristics, advantages and limitations. How to develop and implement a public involvement plan also discussed.

Environmental Design Planning 615  Q(3-0)

Social Planning
Acquaints students with approaches to community building and social servicing in the context of economic and physical development that marginalizes social concerns. Introduces the empowerment model of planning, participatory problem-solving, social impact assessment and participatory action research in the context of neighborhood planning. Coursework explores social planning theories, theories of difference and diversity, and policy approaches for a range of social issues.

Environmental Design Planning 617  Q(3-0)

Environmental Planning
Focuses on the professional practice of environmental planning at the municipal and regional level. Basic terrestrial and aquatic ecological and environmental processes operating in regional ecosystem and landscapes will be presented in the context of municipal environmental policy, land use planning and development, performance zoning and standards and urban infrastructure development. Case examples and projects will be used to illustrate both current best practice, current practice and research issues in environmental planning within municipal and multi-jurisdictional frameworks.

Environmental Design Planning 639  H(3S-0)

Master's Degree Project in Planning: The Process
A seminar course to initiate the process of developing and designing the student's Master's Degree Project in Planning. At the completion of the course, the student is expected to have an approved MDP proposal and a research plan.

Note: Graded on CR/C/F basis only.
Note: Passing grades on any assignment or on the course does not necessarily imply that the Faculty must accept or approve the student's proposal.

Environmental Design Planning 641  H(3S-0)

Master's Degree Project Research in Planning
A seminar course to facilitate the timely preparation of the Master's Degree Project in Planning, including its preparation, writing and defense.

Prerequisite: Unconditionally approved Program of Study and successful completion of Environmental Design Planning 639.

Note: Passing grades on any assignment or on the course does not necessarily imply that the MDP Supervisory or Examining Committee must accept or similarly evaluate work submitted to it as part of the MDP.

Environmental Design Planning 711  Q(0-4T)

Advanced Practicum in Professional Planning Practice
Approved senior student work experience in professional planning practice. Offered in cooperation with practising professionals and the Alberta Association of the Canadian Institute of Planners.

Prerequisite: Conditionally approved Program of Study.
Note: Graded on CR/C/F basis only.
MAY BE REPEATED FOR CREDIT

Environmental Design Planning 713  H(0-4T)

Advanced Practicum in Professional Planning Practice
Approved senior student work experience in professional planning practice. Offered in cooperation with practising professionals and the Alberta Association of the Canadian Institute of Planners.

Prerequisite: Conditionally approved Program of Study.
Note: Graded on CR/C/F basis only.
MAY BE REPEATED FOR CREDIT

FRENCH, ITALIAN AND SPANISH  FISL

Contact Info
Location: Craigie Hall, Room D318
Faculty number: (403) 220-4001
Fax: (403) 284-3634
E-mail address: fisgrad@ucalgary.ca
Web page URL: http://fis.ucalgary.ca

1. Degrees and Specializations Offered
Master of Arts (MA), thesis and course-based routes, in French and Spanish.

Full-time and part-time studies are possible.

Areas: French Language Studies, French Literature from the Medieval to the Contemporary periods, French-Canadian Literature, Francophone Literatures and Film, Hispanic Language Studies and Literatures, Hispanic Cultures and Film, Comparative Literature, Literary Theory, Second Language Learning and Teaching (including computer-assisted language learning)

The Department also participates actively in interdisciplinary degree programs, such as Canadian Comparative Literature (with English) and Film.

2. Admission Requirements
Doctor of Philosophy (PhD)
Applicants wishing to undertake a doctoral program on a special case basis should contact the Department.

Master of Arts
In addition to Faculty requirements, the Department requires students:

a) To demonstrate a sufficiently high level of oral and written competence in the French or Spanish language
b) To have an adequate academic background in the discipline
c) To submit an example of the applicant's written work: a term paper, research paper or other writing, which the applicant considers representative of his or her best work. The paper must be in either French or Spanish, depending on the language of study.

d) A 250-word (minimum) statement of research interest including research topic and the reasons for wishing to pursue graduate work in this Department

3. Application Deadline
Deadlines for the submission of complete applications: 25 January for September admission (when accompanied by an Open Scholarship application http://grad.ucalgary.ca/funding/onlineapp

1 March for September admission (with no scholarship application)

Applications received later than the deadline will be considered for departmental funding, but chances of financial support are greatly reduced.

4. Advanced Credit
The applicant must make advanced credit requests as part of the admission process. Credit will not be granted for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

5. Program/Course Requirements
Master of Arts
Note: Normally no more than one half-course of Directed Reading may be taken for credit.
In addition to Faculty requirements, the Department normally requires:

Master of Arts (thesis-based)
Six half-course equivalents (including French 605 or Spanish 601, depending on the language of study)

Master of Arts (course-based)
Ten half-course equivalents (including French 605 or Spanish 601, depending on the language of study)

Applicants lacking the requisite background in language or literature may be admitted as qualifying students. In this case, extra course work is normally required. A qualifying oral examination based on set texts may be required before the students attain regular Master of Arts status. Courses taken as a qualifying student do not normally count as part of the student's course requirements.

6. Additional Requirements
Master of Arts
a) All students must attend an orientation session.
b) Both options have a knowledge areas requirement that must be satisfied before or after admission. Upon admission students will be advised of any specific course or other work needed to fulfill this requirement.
c) Before the end of their second year of study, MA Thesis students are required to make a departmental or external presentation relating to their research.
d) Students in the thesis-based and course-based programs are also expected to demonstrate their participation in university-wide research activities by attending at least five departmental or external scholarly presentations every year in their programs. Information on the presentations and a one page critical summary for each one must be submitted with the Annual Progress Report.
7. Credit for Undergraduate Courses

Master of Arts
Only in exceptional circumstances and where appropriate to a student’s program may graduate credit be received for courses numbered 500-599. No more than two half-courses can be at the 500 level.

8. Time Limit

Master of Arts
Expected completion time for full-time students is two years for a thesis program and three years for a course-based program. Maximum completion time is four years for a thesis program and six years for a course-based program.

9. Supervisory Assignments

Master of Arts
Newly admitted students begin their programs under the supervision of the departmental Graduate Coordinator. Students are expected to choose a permanent supervisor by the end of the second regular academic session after first registration (30 April for September registrants and 15 December for January registrants). Selection of a supervisor should be by mutual agreement between the student and the staff member concerned, approved by the Graduate Coordinator.

10. Required Examinations

Master of Arts
Oral comprehensive examination. (course-based)

The course-based program requires a comprehensive examination with a written and an oral component, taken after the completion of all course work and any other requirement such as the knowledge areas requirement. Students are required, as early as possible and, in any case, at least before registering for an eleventh semester to file the reading list on their chosen area of specialization with the Department’s Graduate Committee. The list should be drafted after consultation with the student’s supervisor and approved by that faculty member.

Special Case Doctor of Philosophy (PhD)
Candidacy Examination
Questions on the research proposal will not be included in the oral candidacy examination of special case doctoral degree students.

Final oral thesis examinations are open.

11. Research Proposal Requirements

Master of Arts
Thesis students are required to submit a written thesis proposal fourteen months after initial registration (31 October for September registrants and 21 February for January registrants.) This proposal should be approximately 1000 words in length and be accompanied by an abstract and an appropriately detailed preliminary bibliography. It should be drafted after consultation with the student’s supervisor and have his/her preliminary approval. These documents will be circulated to the departmental Graduate Committee for approval. Abstracts of proposals may be reproduced for information purposes.

12. Special Registration Information

None.

13. Financial Assistance

Master of Arts
Funding is available to qualified thesis-based students in the form of research and/or teaching assistantships. Students can expect to receive funding for a maximum of 20 months. Students applying for scholarships for the following academic year must submit their applications to the Department by 25 January. All students are strongly encouraged to seek external financial assistance throughout their program. For information on awards, see the Awards and Financial Assistance section of this Calendar.

14. Other Information

Master of Arts - Doctor of Philosophy
Prospective students are encouraged to consult either the Head of the Department or the Graduate Coordinator. Detailed information on our programs is also available at http://fis.ucalgary.ca

15. Faculty Members/Research Interests

Information about faculty members and their research interests may be found at http://fis.ucalgary.ca

French (FREN)

Undergraduate Courses
Only in exceptional circumstances and where appropriate to a student’s M.A. program may graduate credit be received for courses numbered 500-599.

Dans certaines circonstances exceptionnelles, les cours de niveau 500 pourront être crédités dans le cadre du programme de maîtrise.

French 511 H(3-0)
Théories critiques
Présentation de certaines théories contemporaines qui ont cours en études littéraires et culturelles. Le format et le contenu peuvent varier d’une année à l’autre.

Préalables: Trois demi-cours de français de niveau 400, ou autorisation du Département.

Remarque: Ce cours est obligatoire pour les étudiants inscrits au programme du baccalauréat spécialisé ("Honours") de français.

MAY BE REPEATED FOR CREDIT

French 539 H(3-0)
Étude spécialisée du Canada français
Séminaire sur des sujets avancés dans le domaine de la langue, de la littérature ou de la culture au sens large. Le format et le contenu peuvent varier d’une année à l’autre.

Préalables: Trois demi-cours de français de niveau 400 ou autorisation du Département.

MAY BE REPEATED FOR CREDIT

French 549 H(3-0)
Étude spécialisée de la francophonie
Séminaire sur des sujets avancés ayant trait à la langue, aux littératures ou aux diverses cultures de la francophonie. Le format et le contenu peuvent varier d’une année à l’autre.

Préalables: Trois demi-cours de français de niveau 400 ou autorisation du Département.

MAY BE REPEATED FOR CREDIT

French 557 H(3-0)
Littérature et culture françaises du 17e siècle
Etude de textes choisis du “Grand siècle”. Le format et le contenu peuvent varier d’une année à l’autre.

Préalables: Trois demi-cours de français de niveau 400 ou autorisation du Département.

MAY BE REPEATED FOR CREDIT

French 559 H(3-0)
Littérature et culture françaises du 18e siècle
Etude de textes choisis du Sûcle des Lumières en France. Le format et le contenu peuvent varier d’une année à l’autre.

Préalables: Trois demi-cours de français de niveau 400 ou autorisation du Département.

MAY BE REPEATED FOR CREDIT

French 599 H(3-0)
Études spécialisées de la langue, de la littérature ou de la culture
Séminaire sur des questions d’actualité ayant trait à la langue, à la littérature ou à la culture au sens large. Exemples de sujets traités: la littérature française du Moyen–Age, l’autobiographie, l’écriture des femmes de langue française, le créole dans les écrits de langue française, etc.

Préalables: Trois demi-cours de français de niveau 400, or autorisation du Département.

MAY BE REPEATED FOR CREDIT

Graduate Courses
Details of the specific topics to be taught in all 600-level courses in French will be announced in the Departmental Graduate Program Web page and, when possible, in the Master Timetable. All the following graduate courses may be repeated for credit.

Dans des cas considérés comme exceptionnels, le Département accordera des crédits au niveau du 2e cycle pour des cours de niveau 500. L’autorisation du Département sera alors indispensable. Le Department will give graduate credit at the MA level for 500 level courses in cases it deems exceptional. This option is subject to the approval of the Department.

French 605 H(3-0)
Problématiques littéraires et culturelles
MAY BE REPEATED FOR CREDIT

French 611 H(3-0)
Langue française
MAY BE REPEATED FOR CREDIT

French 615 H(3-0)
Images, textes, performance
MAY BE REPEATED FOR CREDIT

French 625 H(3-0)
Études cinématographiques
MAY BE REPEATED FOR CREDIT

French 635 H(3-0)
Le texte narratif
MAY BE REPEATED FOR CREDIT

French 641 H(3-0)
Littérature et culture avant 1800
MAY BE REPEATED FOR CREDIT
Prerequisites: may vary from year to year.

Spanish American Literature to 1900
A survey of Spanish American literatures in its cultural and historical context. Includes the study of indigenous voices, literature of the conquest, as well as the colonial period and the major authors of the nineteenth century. Format and content of course may vary from year to year.
Prerequisites: Spanish 405, 407, 421 and 423 or consent of the Department.

Spanish American Literature after 1900
Study of the major movements and authors of the twentieth century. Format and content of course may vary from year to year.
Prerequisites: Spanish 405, 407, 421 and 423 or consent of the Department.

Spanish 553
Uses of Spanish as a Second Language
Introduction to basic issues related to the teaching of Spanish as a second language. In special circumstances the theoretical component may be taught in English. The practical component may vary from year to year.
Prerequisites: Spanish 405, 407, 421 and 423 or consent of the Department.

Spanish 555
(formerly Spanish 433)

Spanish American Literature to 1900
A survey of Spanish American literatures in its cultural and historical context. Includes the study of indigenous voices, literature of the conquest, as well as the colonial period and the major authors of the nineteenth century. Format and content of course may vary from year to year.
Prerequisites: Spanish 405, 407, 421 and 423 or consent of the Department.

Spanish 559
Advanced Topics in Hispanic Studies
A specialized course for advanced students. Course may function as a seminar or as a directed readings course.
Prerequisites: Spanish 405, 407, 421 and 423 or consent of the Department.

Graduate Courses
Details of the specific topics to be taught in all 600-level courses in Spanish will be announced in the Departmental Graduate Program Web page and, when possible, in the Master Timetable.

All the following graduate courses may be repeated for credit.

Spanish 601
Literary and Cultural Theory
MAY BE REPEATED FOR CREDIT

Spanish 613
Critical Analysis of Medieval Texts
MAY BE REPEATED FOR CREDIT

Spanish 615
Golden Age Literature
MAY BE REPEATED FOR CREDIT

Spanish 617
Theatre and Performance in the 19th or 20th Centuries
MAY BE REPEATED FOR CREDIT

Spanish 619
Post-Francophone Literature, Art and Film
MAY BE REPEATED FOR CREDIT

Spanish 621
Art, Film and Literature in the Spanish Avant-Garde
MAY BE REPEATED FOR CREDIT

Spanish 623
Spanish American Literature and Culture to 1900
MAY BE REPEATED FOR CREDIT

Spanish 625
20th Century Spanish American Literature
MAY BE REPEATED FOR CREDIT

Spanish 627
Avant-Garde Movements in Spanish America
MAY BE REPEATED FOR CREDIT

Spanish 631
Popular Culture
MAY BE REPEATED FOR CREDIT

Spanish 633
Writings in Exile
MAY BE REPEATED FOR CREDIT

Spanish 635
Literature and the Visual Arts in Hispanic Culture
MAY BE REPEATED FOR CREDIT

Spanish 637
Identities and Post-Colonial Voices
MAY BE REPEATED FOR CREDIT

Spanish 639
Hispanic Female Voices
MAY BE REPEATED FOR CREDIT
In addition to Faculty requirements, the Department may bring the grade point average to a required level for given for course work taken as part of another program. Credit will not be awarded for courses taken as part of another program. Credit will not be awarded for courses taken as part of another program.

4. Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/ diploma or for courses taken to bring the grade point average to a required level for admission.

5. Program/ Course Requirements

In addition to Faculty requirements, the Department requires:

a) The completion of a minimum of two half-course equivalents for the Master of Science. For the degree of Doctor of Philosophy, the completion of a minimum of two half-course equivalents for those entering with an Master’s degree in a related subject and a minimum of three half-course equivalents for those entering with a Bachelor of Science or equivalent. Normally, one of these courses is MDSC 637.01. Exceptions, however, can be approved by the coordinator on the recommendation of the supervisor or the graduate education committee.

b) A supervisory committee

A written research proposal presented to the supervisory committee within twelve months of initial registration.

c) A seminar presentation once a year. Exceptions require recommendation by the supervisory committee and approval of the Graduate Coordinator.

d) For doctoral students, a comprehensive written examination completed no more than one month before the oral candidacy examination.

e) Regular attendance at the G I Sciences seminar program

6. Additional Requirements

None.

7. Credit for Undergraduate Courses

No credit given.

8. Time Limit

Expected completion time is two years for the Master’s program and four years for the doctoral program. Maximum completion time is four years for the Master’s program and six years for the doctoral program.

Expected completion time is four to five years for the MD/MSc program and six to seven years for the MD/PhD program. Maximum completion time is six years for the MD/MSc program and eight years for the MD/PhD program.

9. Supervisory Assignments

The various laboratories in the group assess students, and the laboratory that has a need/interest in the student will offer the student a placement. Master’s students in the Leaders in Medicine Program must have a supervisory committee constituted according to the regulations of the graduate program. Both Master’s and doctoral students will also be evaluated and advised by a Joint Liaison Committee composed of the Associate Dean (Graduate Science Education), Associate Dean (Undergraduate Medical Education), and the Associate Dean (Research) of the Faculty of Medicine.

10. Required Examinations

Doctoral students must pass a doctoral candidacy examination after completing all other requirements and within 28 months of entry into the program. The doctoral candidacy examination consists of a comprehensive written examination that must be completed in three weeks, and an oral examination that follows one week later. The object is to quantify the skills of the student to assimilate and discuss the literature in several areas related to gastrointestinal sciences. Students will be asked to select two questions out of four to answer. Questions on the research proposal will not be included in the oral candidacy examination. The supervisor is a non-voting observer at the oral candidacy examination. Final thesis oral examinations consist of a public presentation followed by a closed examination.

11. Research Proposal Requirements

This is usually a document outlining the objectives, rationale, background and methods to be used.

12. Special Registration Information

None.

13. Financial Assistance

Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships must submit their applications to the Department by 1 February.

14. Other Information

Please visit the Department of Gastrointestinal Sciences Website at http://www.ucalgary.ca/gisgp/ for additional information.

15. Faculty Members/ Research Interests

Current faculty research interests can be found at http://www.ucalgary.ca/gisgp/.
5. Program/Course Requirements
In addition to Faculty requirements, the Department requires the following:

Master of Geographic Information Systems
Ten half-courses, eight at the 600 level or higher, must be completed while in the program. These will include:

a) Three core courses in Geographic Information Sciences in the areas of Remote Sensing, Spatial Analysis and Geographic Information Systems: Geography 633 Research and Applications in Remote Sensing, Geography 639 Advanced Spatial Analysis and Modeling, Geography 647 Advanced Research and Applications in Geographic Information Systems.

Each course assumes that the student has two undergraduate courses in the areas of Remote Sensing, analytical methods in Geography (or statistical methods) and Geographic Information Systems, respectively.

b) Two research-based courses related to the area of Geographic Information Science:
   - Geography 681 GIS Project: Theoretical Issues
   - Geography 683 GIS Project: Application

These courses will be on a topic mutually agreed upon between the student and the supervisor. The first course will be concerned with gathering information and literature on the research topic and will provide a critical assessment of this literature. This will be written up as a course paper that will equate to the literature review chapter of a traditional thesis. The second research course will be concerned with carrying out a program of analysis in the chosen research area using the Geographic Information Science tools discussed in the core courses. The final paper produced for this course will equate to the analysis and discussion chapters of a traditional thesis.

c) Five additional half-courses chosen by mutual agreement between the student and the supervisor. These courses will support the student's chosen research project and understanding of the Geographic Information Sciences.

The MGIS program may be completed on a full-time or a part-time basis.

Master of Arts, Master of Science
Requirements for the MA and MSc degrees:

a) Four half-course equivalents in a two-year period, including History and Philosophy of Physical or Human Geography, at least one of the core Geography Graduate Seminars, and at least one Methods course.

b) An approved thesis proposal completed within the first year of the program.

Doctor of Philosophy
Requirements for the PhD degree:

a) Two half-course equivalents during the first two years in program, including at least one of the core Geography Graduate Seminars.

b) An approved thesis proposal completed within the first 18 months of the program.

c) A candidacy exam completed within the first 24 months of the program.

For detailed information on courses and program requirements please refer to:
http://www.geog.ucalgary.ca/index.cfm?page=content&stv=subsection&thc=2

Full time status is expected. In some situations thesis programs may be completed on a part-time basis with approval from the Graduate Coordinator.

6. Additional Requirements

For thesis programs: participation in the graduate research seminar series and the annual Department Conference.

For MGIS students: Participation in the annual graduate student Department conference (oral presentation or development of an academic poster of their project work for presentation/display).

Departures from regular departmental program/course requirements may be recommended on an individual basis by the interim advisor or supervisor with approval from the Graduate Coordinator.

7. Credit for Undergraduate Courses

No more than one-half of a regular thesis graduate student's coursework can be at the undergraduate level. Programs requiring a larger ratio of undergraduate courses must receive approval of the Dean of Graduate Studies at the time of admission. MGIS students are allowed a maximum of one full-credit course at the 500-level.

8. Time Limit

Expected completion time is two years in MA/MSc programs and four years in the PhD program. Maximum completion time is four years for MA/MSc programs and six years for the PhD program. For the MGIS Program, minimum completion time is one year and maximum completion time is six years.

9. Supervisory Assignments

Each graduate student has an interim advisor assigned—by mutual agreement—within the first term in program. For thesis students, the interim advisor may be appointed as supervisor upon successful defence of the Thesis proposal, when an Appointment of Supervisor Form must be filed with the Faculty of Graduate Studies. For PhD students, a supervisory committee should be appointed within the first 16 months of the program. For MGIS students, a supervisor must be appointed by the second term of the program.

10. Required Examinations

MGIS oral comprehensive examinations will be based on project and course work. MGIS students will be examined on their comprehensive understanding of course material and their integrated professional knowledge/conception of geographic information science. The examination committee will consist of at least three examiners, including the graduate student advisor, but with no requirement for an external examiner.

PhD candidacy examinations have a written and an oral component. Questions on the research proposal will not be included in the oral candidacy examination. Final thesis oral examinations are open.

11. Research Proposal Requirements

See Program/Course Requirements.

12. Special Registration Information

None

13. Financial Assistance

Department funding is available to highly ranked thesis students. Financial assistance may be available to qualified thesis students. For information on awards, see the Awards and Financial Assistance section of this Catalogue or check the Graduate Awards Database:
http://www.grad.ucalgary.ca/funding.

Unless otherwise stated, awards are made only to full-time students in thesis programs.

14. Other Information

None.

15. Faculty Members/Research Interests

Faculty members and their research interests can be found at http://www.geog.ucalgary.ca/index.cfm?page=people&style=1&mode=1.

Graduate Courses

Geography 603
(formerly Geography 699.33)

Remote Sensing: Basics and Beyond
Introduction to the theory and practice of remote sensing. Topics include physics of remote sensing, sensor systems, resolutions, geometric and radiometric correction, image analysis (enhancements, filtering, texture analysis, principal components, classification approaches and algorithms and accuracy). May include specific image acquisition systems and their methodological requirements. Emphasis is on fundamental concepts. Laboratory provides experience with fundamental image processing techniques.

Prerequisite: Consent of the Department.

Geography 605
(formerly Geography 699.39)

Statistical Analysis: Basics and Beyond
Introduction to applied statistics, particularly as they are used in geographical analysis. Topics include sampling design, summary statistics, probability theory, inferential statistics, and multivariate analysis. Laboratory exercises give students hands-on experience in computer-based statistical analysis.

Prerequisite: Consent of the Department.

Geography 607
(formerly Geography 699.47)

Geographic Information Systems: Basics and Beyond
Introduction to the world of Geographic Information Systems (GIS). Includes: representing reality in the digital realm, georeferencing, data structures, software history and comparison, and the full spectrum of analytical approaches associated with advanced GIS software. A major part of the work will be hands on. Software is used as a vehicle for taking the theory and concepts into a working reality.

Prerequisite: Consent of the Department.
**Department.**

**Based GIS.**

**Distributed GIS via the world wide web, and web-**

**With a GIS, data modelling, database management,**

**Including integration of enterprise database systems**

**Advanced topics in GIS and database systems,**

**Systems**

**Enterprise GIS and Database Management**

**History of spatial modelling in geography;**

**Advanced Spatial Analysis and Modelling**

**Research and Applications in Remote Sensing**

**Review of basic and advanced principles of image**

**Analysis; advanced laboratory techniques. Integration**

**of remote sensing with GIS; current research in**

**Remote sensing. Project organization; data sources**

**for remote sensing.**

**Prerequisite:** Consent of the Department.

**Active Microwave Remote Sensing**

**Theoretical and applied aspects of active microwave**

**Remote sensing for geophysical parameter**

**estimation. Discussion of sensor configuration,**

**Dielectric mixture modelling, microwave-surface**

**Interactions, microwave scattering (surface and**

**Volume) modelling and polarimetry. Laboratory work**

**includes field scatterometer use, computer modelling,**

**and polarimetric analysis.**

**Prerequisite:** Consent of the Department.

**Advanced Spatial Analysis and Modelling**

**History of spatial modelling in geography;**

**Comprehensive overview of GIS and remote sensing,**

**as used in the Department.**

**Prerequisite:** Consent of the Department.

**Advanced Research and Applications in**

**Geographic Information Systems**

**Focus on advanced GIS applications in core areas;**

**Methodological developments in GIS, and current**

**Research directions in GIS.**

**Prerequisite:** Consent of the Department.

**Enterprise GIS and Database Management**

**Advanced topics in GIS and database systems,**

**Including integration of enterprise database systems**

**With a GIS, data modelling, database management,**

**Distributed GIS via the world wide web, and web-**

**Based GIS.**

**Prerequisite:** Geography 647 or consent of the Department.

**Research and Applications in Remote Sensing**

**Review of basic and advanced principles of image**

**Analysis; advanced laboratory techniques. Integration**

**Of remote sensing with GIS; current research in**

**Remote sensing. Project organization; data sources**

**For remote sensing.**

**Prerequisite:** Consent of the Department.

**Geography 633** H(3-3)

**Research and Applications in Remote Sensing**

**Review of basic and advanced principles of image**

**Analysis; advanced laboratory techniques. Integration**

**Of remote sensing with GIS; current research in**

**Remote sensing. Project organization; data sources**

**For remote sensing.**

**Prerequisite:** Consent of the Department.

**Geography 635** H(3-3)

**(formerly Geography 699.35)**

**Active Microwave Remote Sensing**

**Theoretical and applied aspects of active microwave**

**Remote sensing for geophysical parameter**

**estimation. Discussion of sensor configuration,**

**Dielectric mixture modelling, microwave-surface**

**Interactions, microwave scattering (surface and**

**Volume) modelling and polarimetry. Laboratory work**

**Includes field scatterometer use, computer modelling,**

**And polarimetric analysis.**

**Prerequisite:** Consent of the Department.

**Geography 639** H(3-3)

**Advanced Spatial Analysis and Modelling**

**History of spatial modelling in geography;**

**Comprehensive overview of GIS and remote sensing,**

**As used in the Department.**

**Prerequisite:** Consent of the Department.

**Geography 647** H(3-3)

**Advanced Research and Applications in**

**Geographic Information Systems**

**Focus on advanced GIS applications in core areas;**

**Methodological developments in GIS, and current**

**Research directions in GIS.**

**Prerequisite:** Consent of the Department.

**Geography 649** H(3-3)

**Enterprise GIS and Database Management**

**Advanced topics in GIS and database systems,**

**Including integration of enterprise database systems**

**With a GIS, data modelling, database management,**

**Distributed GIS via the world wide web, and web-**

**Based GIS.**

**Prerequisite:** Geography 647 or consent of the Department.
c) For those students required to provide proof of proficiency in English, a minimum TOEFL score of 580 (written test), 237 (computer-based test) or 92 (internet-based test), or an IELTS score of 7.5

Doctor of Philosophy
a) Normally, a Master of Science degree or equivalent in geology or geophysics or a field related to geophysics, such as physics or mathematics
b) A concise statement outlining the applicant’s research interests and reasons for wishing to attend the University of Calgary
c) For those students required to provide proof of proficiency in English, a minimum TOEFL score of 580 (written test) or 237 (computer-based test) or 92 (internet-based test), or an IELTS score of 7.5

3. Application Deadline
Deadlines for complete applications:
1 February for September admission
January admission is considered on a case-by-case basis and applications must be received by 1 September.

4. Advanced Credit
Students must apply for advanced credit at the time of admission. Some graduate level courses taken as an unclassified student or as a student transferring from another university may be counted for credit, subject to departmental approval.

Credit for relevant courses taken during the Master of Science program may result in the reduction of the required four-course minimum for doctoral students. Credit may be granted for a maximum of three half-courses for students with Master of Science degrees from the Department of Geoscience at the University of Calgary, and two for students with Master of Science degrees from elsewhere. This will be determined by the Interim Advisor/Supervisor and the Graduate Coordinator or Department Head.

5. Program/Course Requirements
In addition to the Faculty requirements, the Department requires:

Master of Science (course-based)
a) Nine half-courses, five of which must be at the 600 level or higher (includes GLGY 701 or GOPH 701 research project)
b) Completion of a Research Project (GLGY 701 or GOPH 701). The student is required to present and defend the project in a one-hour defense once the written research report is in near-final form. The supervisor and two other members of the department assess the project. If a company is involved the company supervisor may also assess the project.
c) Completion of at least six half-courses in the first year of study by full-time students, and at least one half-course in the first academic session by part-time students. Following is a list of required courses for the two concentration areas that are offered.

Geology Course-based Concentration
a) Geology 707
b) At least seven additional geology or geophysics courses at the 500 or 600 level. At a minimum, three must be at 600-level. Up to four appropriate courses from another department may be substituted for a 500-level geology or geophysics course subject to program approval. Course-based students may receive credit for both Glgy 703 and Glgy 701. Courses are selected in consultation with the supervisor and with the approval of the graduate coordinator.

c) Geology 701. This course constitutes the research component of the degree and cannot be submitted and defended until after all other courses are completed.
d) Students with deficiencies may be required to take more than nine half-courses upon the advice of their supervisor.

Geophysics Course-based Concentration
a) Four of the following: Geology 707, Geophysics 547, Geophysics 551, Geophysics 557, Geophysics 647, Geophysics 657, Geophysics 659.
b) At least four other GOPH courses at the 600-level or higher, of which no more than three can be at the 500 level. One or two appropriate courses from another department may be substituted for a 500-level geology or geophysics course subject to program approval. Course-based students may receive credit for both Goph 703 and Goph 701. Courses are selected in consultation with the supervisor and with the approval of the graduate coordinator.

c) Geophysics 701. This course constitutes the research component of the degree and cannot be submitted and defended until after all other courses are completed.
d) Students with deficiencies may be required to take more than nine half-courses upon advice of their supervisor.

Master of Science (thesis-based)

a) Completion of a minimum of four half-courses in the first year of program
b) Students with deficiencies may be required to take more than four half-courses upon advice of their supervisor
c) An oral public presentation of thesis results

Doctor of Philosophy

a) Completion of four half-courses in the first year of program
b) Subject to supervisor and graduate coordinator approval, some credit may be granted for courses taken during a Master’s program, to reduce the course requirement
c) Students with deficiencies may be required to take more than four half-courses upon advice of their supervisor

7. Credit for Undergraduate Courses
The Department does not give graduate credit for courses taken below the 500-level.

8. Time Limit
Expected completion time is two years for students in thesis-based Master’s degree programs, two years for full-time students in a course-based Master’s program, and three or four years for doctoral students. Maximum completion time is four years for students in a thesis-based Master’s program, and six years for students in a course-based Master’s program and doctoral students.

9. Supervisory Assignments
Upon admission, a student is assigned an interim supervisor by the Graduate Coordinator. The interim supervisor is chosen from the research field the student has specified. Usually the interim supervisor becomes the permanent supervisor, but the Graduate Coordinator must approve the final selection before the thesis proposal is submitted. Supervisory committees for doctoral students are selected by consultation between the permanent supervisor and the student.

10. Required Examinations
Final thesis oral examinations are open with a public presentation on the same day.

Questions on the research proposal may be included in the oral candidacy examination. Students should contact their department for further details.

11. Research Proposal Requirements
Master of Science thesis-based students must file a thesis proposal by 15 March of the second session of study for September registrants and 1 July for January registrants. The thesis proposal must not be more than five pages of text long and include an abstract and a list of references cited in the text. The supervisor will assess the proposal in detail.

Ph.D. thesis students will submit a more substantial thesis proposal within 18 months of registration.

12. Special Registration Information
None.

13. Financial Assistance
Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this calendar. Students applying for scholarships must submit their applications to the Department by 1 February. No financial support will be given to students enrolled in the course-based Master’s program.

14. Other Information
The department requires all graduate students to file a comprehensive Annual Report. The report is due by December 15 and covers activities for the current calendar year. Recent September registrants are required to report activities for their first term of study only.

No office space will be provided to students enrolled in the course-based Master’s program.

Detailed information about the graduate program can be found at departmental web site.

15. Faculty Members/Research Interests
The current faculty research interests can be found at http://www.ucalgary.ca/geoscience/faculty.
Geology (GLGY)

Undergraduate Courses

Only where appropriate to a student’s program may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses.

Geology 503  H(3-3)

Aqueous Geochemistry
Theoretical and applied aspects of aqueous solution chemistry. Topics include: methods for collection and preservation of water samples in the field, laboratory analysis of waters, theory and application of aqueous thermochemical models.
Prerequisite: Geology 323 or 329 or 429.
Note: A weekend field excursion will be run in September.

Geology 505  H(3-3)

Contaminant Hydrogeology
Chemical and biological processes in surface water and groundwater systems. Topics include: water quality, contaminant transport and dispersal, fluid-sediment interactions, remediation of contamination. Techniques will include the use of thermochemical models, numerical modelling of contaminant migration, and examination of case studies.
Prerequisites: Geology 403 or 503, Geology 401 or 501 or 601.

Geology 527  H(3-1T-3)

Ore Deposits
Processes of formation of metallic ore and diamond ore deposits. Classification of ores based on petrologic association. Introduction to ore microscopy.
Prerequisite: Geology 433 or 443.
Note: Normally offered in even-odd dated academic years. However, this course may be offered in any year in which sufficient interest is indicated to the Department prior to November 1 of the preceding academic year.

Geology 531  H(3-1T-3)

Advanced Igneous Petrology
Mineralogical and chemical classifications of igneous rocks. Physics and chemistry of igneous rock formation. Laboratory includes hand specimen and microscopic petrology.
Prerequisites: Geology 341, 323 or 329 or 429, 433 or 443.

Geology 533  H(3-1T-3)

Metamorphism and Lithosphere Evolution
Application of metamorphic petrology to pure and applied problems in Earth science, especially lithosphere evolution. Integration of metamorphic petrology with structure, geochronology and tectonics. Interpretation of mineral assemblages; pressures and temperatures of formation of metamorphic rocks; rates and controls of metamorphic processes. Laboratory will consist of petrographic studies of rock suites, instrumental analysis (electron probe, XRD), and elementary use of phase equilibrium software packages.
Prerequisites: Geology 323 or 329 or 429, 433 or 443.

Geology 537  H(160 hours)

Field Methods III
Field study of geological problems using advanced methods. Field exercises will normally be conducted away from Calgary for about 10-12 days preceding the Fall Session or following the Winter Session.
Prerequisites: Geology 435 or 439, 433 or 443, 461. A minimum grade of B is required in Geology 435 or 439.
Note: This course occurs in rugged field conditions and varying weather, for which participants must be prepared and equipped. It may occur outside Canada. Students will be required to cover food and accommodation costs and to pay a surcharge to cover the costs of equipment and other resources.

Geology 541  H(3-1T-3)

Advanced Structural Geology
Structural features of complexly folded strata; simple statistical analysis of data; structural analysis in plutonic and metamorphic rocks; applications to exploration and exploitation.
Prerequisites: Geology 341 and completion of at least 15 full-course equivalents.
Note: Credit for both Geology 541 and 641 will not be allowed.

Note: There is a weekend field excursion during the session.

Geology 543  H(3-3)

Advanced Igneous and Metamorphic Petrology
Advanced study of igneous and metamorphic petrology, and application to problems in earth science. Includes use of microscopy and geochemistry, as well as possible application of instrumental methods.
Prerequisites: Geology 433 or 443.

Geology 555  H(3-3)

Global Geology
Global aspects of plate tectonics and regional geology through time. Application of fundamental stratigraphic and structural principles. Contributions of geophysics, geochemistry, experimental and theoretical petrology to the modern plate tectonic model. Analysis and interpretation of major structural provinces as they relate to plate boundary interactions.
Prerequisite: Geology 443 or Geophysics 457.

Geology 561  H(3-3)

Sequence Stratigraphy
Integrated approach to the study of genetic stratigraphic sequences and their bounding surfaces, linked to facies analysis of clastic and carbonate successions. Principles of sequence stratigraphy and applications to petroleum reservoirs.
Prerequisites: Geology 443 or 443 or 441, 461.

Geology 563  H(3-3)

Geological History of the Western Canadian Sedimentary Basin
Stratigraphic assembly, tectonic evolution and resources of the WCSB within the Precambrian crystalline basement to the Jurassic-Paleogene Foreland Basin succession in the subsurface and exposures in the Rocky Mountains.
Prerequisite: Geology 443 and 461; or Geophysics 457.

Geology 571  H(3-1T-3)

Engineering Geology
Application of geology to engineering problems with emphasis on the geologic aspects of site and environmental investigations. Characterization of rock masses and surficial deposits and examination of their behaviour; special mapping methods, air photo interpretation and the application of some geophysical techniques.
Prerequisites: Geology 341 and Geophysics 355.
Note: Completion of Geology 401 is highly recommended prior to taking this course. Students who have not completed Geology 401 are advised to attend the tutorial session of Geology 571, offered during January block week.

Geology 585  Q(3-3)

Biostratigraphy
Principles of applied biostratigraphy for siliceous and calcareous microfossils and conodonts with emphasis on their use in basin analysis, sequence stratigraphy, and economic resource exploration.
Prerequisite: Geology 391 or 491.
Note: Credit for both Geology 585 and 685 will not be allowed.

Geology 589  E(3-3)

Selected Topics in Petroleum Geology I
589.01. Aqueous Fluids
589.02. Petroleum Fluids
589.06. Professional Practice for Geoscientists
589.07. Analytical Techniques for Petroleum Geochemistry
589.08. Petroleum Generation and Migration
Prerequisites: Geology 449 or Geophysics 449, Geology 461 or Geophysics 457.
Note: Credit for both Geology 589 and 689 will not be allowed.

Geology 593  Q(3-3)

Selected Topics in Petroleum Geology II
593.02. Stratigraphy and Sedimentation of Clastic Rocks
593.08. Stratigraphy and Sedimentation of Carbonate Rocks
593.05. Ichnology
593.06. Professional Practice for Geoscientists.
Prerequisites: Geology 449 or Geophysics 449, Geology 461 or Geophysics 457.
Note: Credit for both Geology 593 and 689 will not be allowed.

Geology 595  H(3-3)

Selected Topics in Petroleum Geology III
595.01. Petroleum Geology III Core Examination
595.03. Reservoir Evaluation and Hydrocarbon Play Assessment
595.05. Basin Analysis
Prerequisites: Geology 449 or Geophysics 449, Geology 461 or Geophysics 457.
Note: students who have taken Geology 561 should take Geology 694.01, not 595.01.
Note: Credit for both Geology 595 and 694 will not be allowed.
**Graduate Degree Programs & Courses**

**Geology 596**  
F(3-3)  
Selected Topics in Petroleum Geology IV  
Courses are offered in specific topics related to Petroleum Geology. Topics may include subsurface mapping, play assessment, reservoir characterization, reservoir geology, reserves and resources, basin analysis, petroleum geochemistry.  
Prerequisites: Geology 449 or Geophysics 449, Geology 461 or Geophysics 457.  
Note: Credit for both Geology 596 and 696 will not be allowed.  
**MAY BE REPEATED FOR CREDIT**

**Geology 597**  
H(3-3)  
Geostatistics  
Statistical analysis of spatial data, multivariate data analysis, regression, variogram analysis, kriging, co-kriging and stochastic simulation.  
Prerequisites: Mathematics 253 or 263 or 283 or Applied Mathematics 219; Mathematics 221 or 211; completion of at least 15 full-course equivalents or consent of the Department.  
Note: Credit for both Geology 597 and 697 will not be allowed.

**Geology 599**  
H(3-3)  
Contemporary Topics in Geology  
Courses are offered in contemporary topics in areas such as geochemistry, hydrogeology, mineralogy, paleontology, petroleum geology, petrology, quantitative geology, sedimentology, structural geology, and surficial geology.  
Prerequisite: Consent of the Department.  
**MAY BE REPEATED FOR CREDIT**

**Graduate Courses**  
Graduate students are urged to read the Geoscience Department section in the Graduate Studies calendar. Only where appropriate to a student’s program may graduate credit be received for courses numbered 500-599. Courses numbered 600 are available to fourth-year students who obtain Departmental approval and who have credit for the prerequisite courses.

**Geology 601**  
H(3-3)  
Advanced Physical Hydrogeology  
An advanced treatment of topics covered in Geology 401.  
Prerequisite: Consent of the Department.  
Note: Credit for both Geology 601 and either 401 or 501 will not be allowed.

**Geology 603**  
H(3-3)  
Advanced Aquatic Geochemistry  
Advanced discussion of theoretical and applied aspects of aquatic geochemistry of natural waters. Topics include: methods for collection and preservation of water samples in the field, laboratory analysis of waters, theory and application of aquatic geochemical models to complex formation, solubility, stability of low temperature mineral assemblages, oxidation and reduction processes in natural environments and reaction path modelling. Applications of stable isotopes to low temperature geochemical processes may also be covered.  
Prerequisite: Geology 403 or 503, or Geophysics 457.

**Geology 605**  
H(3-3)  
Advanced Contaminant Hydrogeology  
An advanced treatment of topics covered in Geology 505.  
Prerequisites: Consent of the Department.  
Note: Credit for both Geology 505 and Geology 605 will not be allowed.

**Geology 607**  
H(3-3)  
Advanced Physical Hydrology  
Coverage of more advanced topics in the physical hydrology of surface and subsurface waters including land-atmosphere exchange, vadose zone processes, and watershed hydrology.  
Prerequisites: Mathematics 253 or 263 or 283 or Applied Mathematics 219, Geography 415, Geology 401; or consent of the Department.

**Geology 609**  
H(3-1T)  
Groundwater Flow and Transport Modeling  
Review of the partial differential equations and boundary conditions that describe groundwater flow and transport. Introduction to numerical methods. The course emphasizes the practical aspects of building groundwater and transport models using computer exercises and a groundwater modeling project.  
Prerequisites: Geology 401 or 601 or consent of the Department.

**Geology 611**  
H(3-1)  
Groundwater Resource Management  
Advanced topics related to groundwater resource development and management, including exploration methods, aquifer test analysis, aquifer-aquitard systems, groundwater recharge, and the role of models. Fundamental issues related to regional integrated management of water resources.  
Prerequisites: Mathematics 253 or 263 or 283 or Applied Mathematics 219, Geology 401 or Geography 415.

**Geology 613**  
H(3-1T-3)  
Flow in Porous Media  
Fundamentals of fluid flow in porous media: pore structure, capillarity, single phase flow, immiscible and miscible fluid flow; pore level modelling of porous media. Concepts applied to hydrocarbon reservoirs and fluid migration in soils including: characterization of pore space, single phase flow in porous media, capillarity, wettability, routine and advance core analysis, miscibility in porous media. Similarities and differences between hydrocarbon reservoirs and soils. Introduction to enhanced oil and gas processes.  
Prerequisite: Chemical Engineering 331 or Geology 401 or 429 or 423.  
Note: Credit for both Geology 613 and either 699.20 or Petroleum Engineering 513 will not be allowed.

**Geology 627**  
H(3-3)  
Advanced Topics in Ore Deposits  
A detailed study of ore occurrences with special emphasis on Canadian deposits. Laboratory: the study of comprehensive suites from deposits.  
Prerequisite: Geology 527.

**Geology 633**  
H(3-3)  
Advanced Igneous and Metamorphic Petrology  
Theoretical and applied problems in petrology, including some or all of: numerical techniques in petrology, phase equilibria, geothermometry and geobarometry, kinetics in petrology, physics and chemistry of magmatic processes. Laboratory will consist of petrographic study of rock suites.  
Prerequisite: Geology 433 or 443 or equivalent or consent of the Department.

**Geology 639**  
H(160 hours)  
Field Laboratory in Groundwater Hydrogeology  
The course entails a week at a hydrogeology field site on the Fraser River delta, British Columbia. Hydrogeology and geotechnical techniques will be demonstrated and will involve hands-on participation by students. After the field work, students will conduct extensive analysis and interpretation of data gathered during the field session, complete exercises and prepare a written report. Relative to Geology 441, Geology 639 requires more sophisticated analyses of data and additional exercises. Geology 639 normally runs for about three weeks following Winter Session Final Examinations.  
Prerequisites: Geology 401 or 601 and consent of the Department.  
Note: Credit for both Geology 441 and 639 will not be allowed.  
Note: This course has limited enrolment.

**Geology 641**  
H(3-3)  
Advanced Structural Methods  
Analysis of mesoscopic and megascopic structural data; the construction and analytical use of cross-sections, subsurface maps and 3-dimensional models; structural analysis of the Canadian Cordillera.  
Prerequisite: Consent of the Department.  
Note: Credit for both Geology 541 and 641 will not be allowed.  
Note: There is a weekend field excursion during the term.

**Geology 649**  
H(3-3)  
Advanced Petroleum Geology  
Applications of petrophysical well logs and their relation to cores, cuttings, fluids and seismicograms. Case studies applied to petroleum exploration and exploitation.  
Prerequisite: Consent of the Department.

**Geology 663**  
H(2-1)  
Applications of Stable Isotopes  
Applications in archaeology, biology, chemistry, engineering, geography, geology, medicine, meteorology, paleontology, physics and space sciences. Topics include hydrology, paleoclimates, ore deposits, geothermometry, fossil fuels exploration and recovery, pollutant tracing, food webs forensic investigations.  
Prerequisite: Consent of the Department.

**Geology 675**  
H(3-0)  
Advanced Topics in Dinosaur Paleontology  
Topics related to the paleobiology, paleoecology, and palaeoenvironments of the Dinosauria will be covered.  
Prerequisite: Consent of instructor or enrolment in a paleontology-based graduate program.

## Undergraduate Courses

- Open only to graduate students in the Department of Geoscience.
- May be repeated for credit.

## Geology 677 *Advanced Topics in Oil and Gas Production*

Advanced study of the problems related to production of conventional oil, heavy oil, and natural gas; analysis of interactions of oil, water and gas; the effects of fluid properties, rock structure and capillary, gravity and viscous forces acting on the reservoir system; application to the design of improved oil and gas recovery processes. New processes in oil and gas recovery.

**Prerequisite:** Petroleum Engineering 513 or Geology 613 or consent of the Department.

**Note:** Credit for both Geology 677 and either Chemical Engineering 619.26 or 677 will not be allowed.

## Geology 679 *Petroleum and Environmental Organic Geochemistry*

Origin of petroleum; sedimentation of organic matter and the carbon cycle; diagenesis of organic matter; hydrocarbon generation and migration; kinetic models; creosote contamination; methods; interpretation of geochemical data; applications of geochemical data to geological and environmental problems.

**Prerequisite:** Consent of the Department.

**Note:** Credit for both Geology 596 and 696 will not be allowed.

## Geology 685 *Advanced Biostratigraphy*

Advanced studies of the principles of applied biostratigraphy for siliceous and calcareous microfossils and conodonts with emphasis on their use in basin analysis, sequence stratigraphy, and economic resource exploration.

**Prerequisite:** Consent of the department.

**Note:** Credit for both Geology 585 and 685 will not be allowed.

## Geology 689 *Advanced Petroleum Geology I*

689.01. Aqueous Fluids
689.02. Petroleum Fluids
689.06. Professional Practice for Geoscientists
689.07. Analytical Techniques for Petroleum Geochemistry
689.08. Petroleum Generation and Migration

**Prerequisite:** Consent of the Department.

**Note:** Credit for both Geology 589 and 689 will not be allowed.

## Geology 693 *Advanced Petroleum Geology II*

693.02. Stratigraphy and Sedimentation of Clastic Rocks
693.03. Stratigraphy and Sedimentation of Carbonate Rocks
693.05. Ichnology
693.06 Professional Practice for Geoscientists

**Prerequisite:** Consent of the Department.

**Note:** Credit for both Geology 593 and 693 will not be allowed.

## Geology 694 *Advanced Petroleum Geology III*

694.01. Advanced Petroleum Geology III Core Examination
694.03. Reservoir Evaluation and Hydrocarbon Play Assessment
694.05 Basin Analysis

**Prerequisite:** Consent of the Department.

**Note:** Credit for both Geology 594 and 694 will not be allowed.

## Geology 696 *Advanced Petroleum Geology IV*

Courses are offered in specific topics related to Petroleum Geology and the application of techniques to case studies of petroleum systems.

**Prerequisite:** Consent of the Department.

**Note:** Credit for both Geology 596 and 696 will not be allowed.

**May be repeated for credit.

## Geology 697 *Advanced Geostatistics*

Advanced treatment of the topics covered in Geology 597 with special emphasis on reservoir characterization.

**Prerequisites:** Mathematics 253 or 263 or 283 or Applied Mathematics 219; Mathematics 221 or 211; or consent of the Department.

**Note:** Completion of Mathematics 331 and/or Statistics 357 or 327 is recommended prior to taking this course.

**Note:** Credit for both Geology 597 and 697 will not be allowed.

## Geology 698 *Reservoir Characterization for Field Development* (Chemical Engineering 698)

A team-based, integrated reservoir description experience working with geophysical, geological, petrophysical, and engineering data to produce a field development plan.

**Prerequisite:** Chemical Engineering 621, Geology 697, Human Resources and Organizational Dynamics 789 or equivalent.

**Note:** This course is intended for graduate students in the Master of Science in Reservoir Characterization program.

## Geology 699 *Selected Topics in Geology*

Courses are offered in specific topics in areas such as geochemistry, hydrogeology, mineralogy, paleontology, petroleum geology, petrology, quantitative geology, sedimentology, structural geology, and surficial geology.

**May be repeated for credit.

## Geology 701 *Advanced Independent Study*

A written research report based on laboratory and field studies is required.

**Note:** Open only to graduate students in the Department of Geoscience.

## Geology 703 *Readings in Geology*

**Note:** Open only to graduate students in the Department of Geoscience.
Geophysics 557  H(3-3)
**Geophysical Data Processing**
Geophysical signal analysis, digital processing methods applied to seismic and other geophysical data.
Prerequisites: Applied Mathematics 415, Geophysics 355.

Geophysics 559  H(3-3)
**Geophysical Interpretation**
Analysis and integration of geophysical and geological data. Qualitative and quantitative interpretation. Industrial case studies.
Prerequisite: Geophysics 355, Geophysics 457 or Geology 461 or 597.

Graduate Courses
Graduate students are urged to read the Geoscience Department section in the Graduate Studies calendar. Only where appropriate to a student’s program may graduate credit be received for courses numbered 500-599.

Courses numbered 600 are also available to fourth-year undergraduate students who obtain Departmental approval and who have credit for the prerequisite courses.

Geophysics 645  H(3-0)
**Seismic Wave Propagation**
Seismic body and surface waves, reflection, refraction, diffraction, anelasticity, anisotropy, ray methods, point and line source solutions to the equation of motion, finite-difference methods for seismic waves, additional topics depending on current research interests.
Prerequisite: Geophysics 551 or consent of the Department.

Geophysics 649  H(3-0)
(Geology 649)
**Advanced Petrophysical Techniques**
Application of petrophysical well logs and their relation to cores, cuttings, fluids and seismograms. Case studies applied to petroleum exploration and exploitation.
Prerequisite: Consent of the Department.

Geophysics 653  H(3-0)
**Electromagnetic and Induced Polarization Topics**
Topics in electromagnetic and induced polarization exploration as applied to the search for metallic minerals.

Geophysics 657  H(3-0)
**Seismic Signal Analysis**
Advanced methods of seismic data analysis in exploration and production geophysics. Topics include velocity analysis, polarization filtering, median filtering, migration, inversion and tomography.

Geophysics 659  H(3-3/2)
**Practical Seismic Modeling, Migration, and Inversion**
Concepts and techniques of seismic imaging (migration) are explored. Practical considerations such as algorithm characteristics and data geometry are emphasized; prestack and prestack migration and DMO methods are examined from the Kirchhoff, Fourier, and downward continuation perspectives.
Note: Some familiarity with seismic data and computer programming is assumed.

Geophysics 665  H(3-0)
**Theoretical Seismology**
Seismic ray theory, inverse theory, full-wave methods, matrix methods, numerical methods, additional topics depending on current research interests.

Geophysics 669  H(3-0)
**Global Seismology**
An introduction to theory and practice of global seismology. Topics include: seismograph systems, global wave propagation, moment tensors, shear-wave splitting, surface waves, receiver functions, seismic tomography and teleseismic receiver functions.
Prerequisite: Basic knowledge of seismic wave theory, Fourier analysis and vector calculus. Students should be enrolled in the graduate program in geophysics or receive consent of the instructor.

Geophysics 671  H(3-0)
**Inverse Theory and Applications I**
An introduction to the mathematical and numerical techniques of geophysical inversion. Topics include least squares, singular value decomposition, and Tikhonov regularization. Development of numerical codes to solve real inverse problems is stressed.
Prerequisites: Knowledge of linear algebra and vector calculus, and some familiarity with statistics. Also, students should be enrolled in the graduate program in geophysics or receive consent of the instructor.

Geophysics 673  H(3-0)
**Inverse Theory and Applications II**
Multidimensional real-world inverse problems, such as constrained seismic, gravity, or resistivity inversion. Fourier, maximum entropy, Bayesian approaches and iterative solution techniques such as Kaczmarz and conjugate gradient are covered.
Prerequisites: Geophysics 671 or consent of the instructor.

Geophysics 681  H(3-0)
(Geomatics Engineering 681)
**Advanced Global Geophysics and Geodynamics**
Elasticity, figure of the Earth, Earth structure and seismology, gravity and its temporal variations, isostasy, tides, Earth rotation and orientation, time, plate flexure, glacial rebound, continental drift, geodetic observation methods for geodynamics.

Geophysics 683  H(3-0)
**Dynamics of the Earth**
Fluid mechanics and Earth rheology, heat flow and mantle convection, magneto hydrodynamics and core dynamics, stresses, folding and diapirism, faulting and earthquake mechanism.

Geophysics 687  H(3-3)
**Theory of Seismic Imaging**
The theories of wave propagation in acoustic and elastic media are used to develop the major algorithms used in seismic imaging (migration). Green’s theorem, Huygen’s principle, Kirchhoff diffraction theory, raytracing, wavetracking, multidimensional Fourier analysis, and Radon transforms are explored.
Note: Elementary knowledge of vector calculus and partial differential equations is assumed.

Geophysics 699  H(3-3)
**Selected Topics in Geophysics**
Courses are offered in specific topics in areas such as seismology, environmental geophysics, potential methods, integrated geological studies, and geodynamics.

MAY BE REPEATED FOR CREDIT

Geophysics 701  H(0-6)
**Advanced Independent Study**
A written research report based on laboratory and field studies is required.
Note: Open only to graduate students in the Department of Geoscience.

Geophysics 703  H(0-6)
**Readings in Geophysics**
Note: Open only to graduate students in the Department of Geoscience.

GERMANIC, SLAVIC AND EAST ASIAN STUDIES  GSEA
Contact Info
Location: Craigie Hall, C Block, Room 205
Faculty number: (403) 220-5293
Fax: (403) 284-3810
E-mail address: gsea@ucalgary.ca
Web page URL: http://gsea.ucalgary.ca/

1. Degrees and Specializations Offered
Master of Arts degree (thesis-based) in German
The Department particularly solicits applications from students interested in pursuing a cross-disciplinary degree involving another department at the University of Calgary (e.g., English; History; Linguistics; Philosophy; French, Italian and Spanish). Applicants interested in an interdisciplinary doctoral program with a German Studies component on a special case basis should contact the Department.

The Department does not formally offer a part-time option – all students will be considered full-time.
2. Admission Requirements
In addition to the Faculty of Graduate Studies requirements, the Germanic, Slavic and East Asian Department requires:

a) a letter of intent outlining background, research interests, and goals for the program
b) an academic writing sample (of approximately 8-15 pages) in English or German

3. Application Deadline
Deadlines for the submission of complete applications:
1 February for September admission
1 September for January admission (discuss January admission with Department)

Late applications reduce the applicant’s chances of receiving funding

4. Advanced Credit
The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

5. Program/Course Requirements
In addition to the Faculty requirements, the Department requires:

a) Normally, three full-course equivalents for students who hold a baccalaureate degree
b) For some students, depending upon background preparation, a course in bibliography and methodology
c) Sufficient German language skills for the proposed program

6. Additional Requirements
None.

7. Credit for Undergraduate Courses
No more than one-half of a regular graduate student’s required program of course work can be at the undergraduate level. Programs requiring a larger ratio of undergraduate courses must receive the approval of the Dean of Graduate Studies at the time of admission. Only where appropriate to a student’s program may graduate credit be received for courses numbered 500-599.

8. Time Limit
Expected completion time is two years. Maximum completion time is four years.

9. Supervisory Assignments
The Graduate Program Coordinator is normally the interim supervisor for students entering the program, and will assist them in finding a supervisor within the first year. In the case of cross-disciplinary degrees, the choice of supervisor must be established upon application to the program.

10. Required Examinations
Final thesis oral examinations are open.

Questions on the research proposal will not be included in the oral candidacy examination of special case doctoral degree students.

11. Research Proposal Requirements
The department requires all graduate students to submit a written thesis proposal by the sixteenth month of the program. The required form is available on the department website. The proposal should be drafted after consultation with the student’s supervisor and have his/her preliminary approval.

12. Special Registration Information
None.

13. Financial Assistance
Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships must submit their applications to the Department by 1 February.

14. Other Information
None.

15. Faculty Members/Research Interests
Research faculty and the specific areas within which Master of Arts thesis supervision is offered may be found at http://grst.ucalgary.ca/graduate/faculty-members-german

</tr>
</tbody>
</table>
8. Time Limit
Students studying on a full-time basis are expected to complete the program in two years. Students in thesis-based Master's programs must complete their degrees within four years. Students in course-based Master's programs must complete their degrees within six years. For information on the PhD program, contact the department.

9. Supervisory Assignments
The Graduate Program Coordinator is normally the interim supervisor for a Master's student entering the program, and will assist the student to find a supervisor within eight months of entering the program. Doctoral students are expected to have a supervisor upon entry. The appointment of a supervisor is subject to approval by the Department Head.

10. Required Examinations
Final oral examinations are open.

Questions on the research proposal will not be included in the oral candidacy examination.

11. Research Proposal Requirements
A formal proposal is not required for the MA thesis. The student's thesis topic is defined in consultation with the supervisor, normally within 12 months of entry into the program. It should be referred to the Program Coordinator for approval. For information on the PhD contact department.

12. Special Registration Information
None

13. Financial Assistance
The department offers full or partial support through teaching assistantships and Faculty of Graduate Studies Support to selected applicants. The Faculty of Graduate Studies offers numerous awards listed in the Graduate Calendar (e.g. Open Scholarships) in a university-wide competition. Application forms are included in the admission application package and linked to the online admission application.

Various awards are available from other agencies (federal and provincial governments, private foundations, etc.).

Applicants are encouraged to seek funding vigorously. The department can offer advice on identifying sources.

Note: Faculty of Graduate Studies Support and university scholarships are normally awarded only to students in the thesis-based program.

14. Other Information
Enquiries should be addressed to: Graduate Program Coordinator, Department of Greek and Roman Studies, University of Calgary, 2500 University Drive NW, Calgary, Alberta, Canada T2N 1N4 (See http://grst.ucalgary.ca/contact).

15. Faculty Members/Research Interests
Details concerning the research areas of individual professors may be obtained from the department website at http://grst.ucalgary.ca/people

**GRADUATE DEGREE PROGRAMS & COURSES**

**Greek (GREK)**

**Undergraduate Courses**
Only where appropriate to a student's program may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses.

**Greek 525**
Topics in Greek Literature and Language
Prerequisite: Greek 401 or 413.
MAY BE REPEATED FOR CREDIT

**Greek 551**
Directed Studies in Greek Literature and Language
Prerequisite: Consent of the Department.
MAY BE REPEATED FOR CREDIT

**Greek and Roman Studies (GRST)**

**Undergraduate Courses**
Only where appropriate to a student's program may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses.

**Greek and Roman Studies 525**
Research Seminar
Research topics in Greek and Roman history, literature, art, and archaeology. Seminar discussions will require a high level of student participation.
MAY BE REPEATED FOR CREDIT

**Greek and Roman Studies 551**
Directed Research
Qualified students will undertake supervised research projects individually or in small groups.
Prerequisite: Consent of the Department.
MAY BE REPEATED FOR CREDIT

**Greek and Roman Studies 601**
Graduate Course
MAY BE REPEATED FOR CREDIT

**Greek and Roman Studies 603**
Graduate Seminar
MAY BE REPEATED FOR CREDIT

**Greek and Roman Studies 607**

1. Degrees and Specializations Offered
Doctor of Philosophy (PhD)
Master of Business Administration (MBA), course-based and thesis-based

Joint programs, offered with other Faculties:
Bachelor of Laws/Master of Business Administration (LLB/MBA)
Master of Social Work/Master of Business Administration (MSW/MBA)
Master of Biotechnology/Master of Business Administration (MBT/MBA)
Doctor of Medicine/Master of Business Administration (MD/MBA) "Leaders in Medicine" Program

Combined programs, offered with professional societies:
MBA-CMA Program

This is a combined initiative between the Haskayne School of Business and the Certified Management Accountants of Alberta. This program is intended for those with a strong undergraduate background and several years of relevant work experience. Students must complete the CMA pre-requisites and the CMA national entrance exam before being admitted to the MBA-CMA program. Students can complete the requirements for the Haskayne MBA and the CMA designation in three years of part-time study. For information and application materials for this program, please visit http://www.cma-alberta.com.

MBA-CGA Program

This is a combined initiative between the Haskayne School of Business and the Certified General Accountants of Alberta. Students accepted to the MBA program may complete several requirements of the CGA designation as part of their MBA program. For information check with the Haskayne MBA office or visit http://www.cga-alberta.org.

---

129
Master of Business Administration (course-based)
The course-based MBA program is designed for students who wish to pursue a career in management and is offered to students who possess a four-year degree or equivalent in any discipline. The program consists of required courses designed to create integrative business skills and elective courses where students have the opportunity to pursue areas of specialization. Students can complete the Haskayne MBA through full-time study that normally requires 20 months, or through evening study with completion in two to six years. Normally, combined programs (LLB/MBA, MSW/MBA, MBT/MBA, MD/MBA) must be completed on a full-time basis. Students in the Haskayne MBA program may choose a specialization in Finance, Entrepreneurship and Innovation, Marketing, Global Energy Management and Sustainable Development or Project Management. They may also elect not to have an area of specialization, or to create a custom specialization through special arrangements with the Associate Dean (MBA Program).

The Executive MBA is offered jointly by the University of Calgary and the University of Alberta on alternate weekends and periodic intensive weeks. It is designed for those who wish to participate in an intensive MBA study program while still continuing actively in their careers.

Master of Business Administration (thesis-based)
This program of studies is designed for students wishing to pursue a special research interest in the Haskayne School of Business. It is normally offered to students who possess a Bachelor of Commerce degree or its equivalent. The thesis program will admit only those students who can demonstrate a serious commitment to research, the ability to work independently in the production of a thesis, and a qualified supervisor who is interested in overseeing their research program.

Doctor of Philosophy
The Doctor of Philosophy program offers talented research-oriented students the opportunity to pursue an academic career in business-related subjects.

2. Admission Requirements

Master of Business Administration
In addition to the Faculty of Graduate Studies requirements, the MBA program requires:

a) A current résumé
b) A personal statement outlining the applicant's career goals and how the MBA program would help achieve those goals
c) For students required to prove proficiency in English, a minimum TOEFL score of 600 (written test), 250 (computer-based test) or 100 (internet-based test), or a score of 7.0 on the IELTS
d) Completion of the Graduate Management Admission Test (GMAT*) with a recommended minimum score of 550 for the Haskayne MBA with high scores on both verbal and quantitative subcomponents. Where GMAT is unavailable, the program will accept equivalent results on the Graduate Record Exam (GRE). It is recommended that students should place above the 70th percentile on overall test scores. A minimum GMAT score of 600 or an equivalent GRE is required for the thesis program.
e) For course-based programs only, the equivalent of at least 3 years of appropriate work experience
f) For applicants to the thesis-based program, normally a Bachelor of Commerce with a minimum grade point average of 3.3 on a four point scale
g) For applicants to the Executive MBA program, the equivalent of at least seven years of work experience, a number of years of which must have carried management or professional responsibility
h) An applicant to a combined MBA program (LLB/MBA, MSW/MBA, MBT/MBA, MD/MBA) must be admitted to the MBA program, and make separate application for admission to the other program. The respective Combined Program Committee will review each application. Normally, only a full-time student in the Haskayne MBA Program may take a combined program.

Please note that receiving admission to both individual programs does not guarantee admission to the combined program.

An applicant who has completed a Bachelor's degree with an admission grade point average (GPA) from 2.50 to 2.99 may be admitted to an MBA course-based program as a regular student on the basis of the following equivalent achievement score: [(GPA x 200) + GMAT] 1150.*

* Consult the Haskayne School of Business about the Graduate Management Admission Test.

Doctor of Philosophy
In addition to the Faculty of Graduate Studies requirements, the Haskayne School of Business requires:

a) Normally, an MBA degree or equivalent from a recognized institution with a recommended minimum admission grade point average of 3.5 on a four-point scale
b) Students with an undergraduate or Master's degree in an area other than business may be required to complete a qualifying period to gain a general business background before beginning the normal doctoral course requirements.

c) It is possible to enter the PhD program without an MBA or other Master's degree. Consult the Director of the PhD Program for further information.

b) A score of at least 600 on the Graduate Management Admission Test (GMAT) with high scores on both verbal and quantitative subcomponents; or equivalent results on the Graduate Record Exam (GRE). It is recommended that students should place above the 85th percentile on overall test scores. Most PhD applicants in the recent past have obtained above 650 on the GMAT, with many successful applicants having earned scores of 700 and above
c) For those students required to prove proficiency in English, a minimum TOEFL score of 600 (written test), 250 (computer-based test) or 100 (internet-based test), or a score of 7.0 on the IELTS
d) A personal statement outlining objectives, intent and commitment to a research program
e) Availability of a research-active supervisor and resources for the area in which the student wishes to study

Work experience in business or public organizations will be considered.

3. Application Deadline

Deadlines for the submission of complete applications to the Haskayne School of Business:

<table>
<thead>
<tr>
<th>Deadline</th>
<th>Decision made by*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Decision Round 1</td>
<td>15 Nov</td>
</tr>
<tr>
<td>Decision Round 2</td>
<td>15 Jan</td>
</tr>
<tr>
<td>Decision Round 3</td>
<td>1 March</td>
</tr>
<tr>
<td>Decision Round 4*</td>
<td>1 May</td>
</tr>
</tbody>
</table>

*Applications that are not accepted for admission or rejected may be held over for consideration in following decision rounds.

** Not open to international applicants.

PhD and MBA (thesis-based) programs
15 January for September admission - year-round admission assessment and decision possible for exceptional students with complete applications.

Combined programs
As separate application to applicable program is required, please see relevant program for deadlines.

4. Advanced Credit

The applicant must make advanced credit requests as part of the admission process to the MBA program. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

Course requirements for doctoral students will be based on the student's background and program needs. Credit for previous courses will be provided as appropriate.

5. Program/Course Requirements

Haskayne MBA
The MBA degree normally consists of twenty half-courses. Students may be granted exemption from first-year courses based upon prior academic preparation and with the approval of the Associate Dean (MBA Program). Students must complete a minimum of fifteen half-courses, of which a maximum of five half-courses may be transfer credit from another recognized graduate program, for the MBA degree.

First Year Courses
ACCT 601 Financial Accounting
ACCT 603 Management Accounting
FNCE 601 Managerial Finance
HROD 601 Managing Human Resources
MGIS 601 Management Information Systems
MGST 611 Managerial Economics
MGST 613 Managerial Decision Modelling
MKTG 601 Marketing Management
OPMA 601 Operations Management
SGMA 601 Strategic Management

Second Year Courses
The MBA degree requires two integrative courses:
MGST 715 Strategic Business Analysis
BSEN 777 Global Environment of Business

See the PhD program website http://www.haskayne.ucalgary.ca/programs/g Graduate/Phd for more information. Approved changes to the program standards and requirements will be posted on the website.
Areas of Specialization
Students must complete eight elective half-courses beyond the first year and integrative courses. Students may select an area of specialization normally consisting of four half-courses. Students wishing to specialize may choose from the following areas:

- Finance
- Entrepreneurship and Innovation
- Marketing
- Global Energy Management and Sustainable Development
- Project Management

Students who elect not to choose an area of specialization may choose instead from various graduate courses offered by the Haskayne School of Business. Subject to the approval of the Associate Dean (MBA Program) and the Faculty of Graduate Studies, graduate courses offered at the University of Calgary outside the Haskayne School of Business may also be taken.

Students may also create a customized specialization through special arrangements with the Associate Dean (MBA Program).

Combined LLB/MBA
A student admitted to the combined LLB/MBA program spends the first year doing core studies in one program and the second year doing core studies in the other program. The remaining years in the program combine Law and Business courses in a way that will allow the achievement of both degrees in four rather than five years (please consult the MBA office).

Combined MSW/MBA
A student admitted to the combined MSW/MBA program will require an undergraduate degree in Social Work (BSW) or equivalent. The MSW/MBA degree can be completed in two years of study (24 months) including fall/winter and spring/summer sessions (please consult the MBA office).

Combined MBT/MBA
A student admitted to the combined MBT/MBA program will require an undergraduate degree in Biological Sciences or equivalent.

Combined MD/MBA
A student admitted to the combined MD/MBA program will be required to hold an undergraduate degree and be admitted to both the MD and MBA programs. A program will be developed for each student under the guidelines of the Leaders in Medicine program (please consult the MBA office).

Executive MBA
The delivery format of the program is different from the Haskayne MBA program and requires more integrative types of sessions and activities. However, the program requires all of the same courses as are required in the Haskayne MBA program. In general, students in this program are expected to follow a general curriculum rather than electing an area-specific specialization. Only in rare cases will it be possible for students to do the latter. It is expected that all participants entering the program in a given year will complete the program requirements at the same pace, completing all of them over the same 20-month time frame.

MBA (thesis-based)
In addition to the requirements of the Faculty of Graduate Studies, the Haskayne School of Business requires:

a) A minimum of eight half-course equivalents selected by the student in consultation with his or her supervisor. Among these eight half-courses, a course in research methods (MGST 773, Multivariate Analysis in Management) and one Strategy and Global Management course BSEN 777, SGMA 70L or SGMA 795 are required. MBA Thesis students are also invited and encouraged to take one or more doctoral-level courses as part of their programs.

b) Approval of each individual’s program by the Director, MBA (thesis-based) Program.

Students who lack courses in one or more of the functional disciplines in management (i.e., accounting, finance, human resources and organizational dynamics, management information systems, operations management, marketing) may be required to take courses in those areas in partial fulfillment of their program either as part of, or in addition to, the normal eight half-course requirement.

Doctor of Philosophy
Each student will have four areas of study. The first area (Management Studies – MGST) will be an overview of management education, theory, and research methods. The second will be designated as the major area; the third as the minor; and the remaining area is analytical methods.

a) Management Studies Area – A number of half-courses, such as MGST 781, MGST 783, MGST 791, MGST 792, and MGST 793. Students who have not completed a research-based Master’s degree should take MGST 792 during the Spring/Summer Sessions between their first and second years.

b) Major area: The major area must be chosen from those offered within the Haskayne School of Business:

- Accounting
- Entrepreneurship and Family Business Management
- Environmental Management/Sustainable Development
- Finance
- Human Resources and Organizational Dynamics
- Management Information Systems
- Marketing
- Operations Management
- Risk Management and Insurance
- Strategy and Global Management
- Tourism Management

Students will be required to take three or four half-courses from the major area.

c) Minor Area – The minor area of study must complement the major area. It may be chosen from those areas offered within the Haskayne School of Business or from those offered from other faculties. Students will be required to take one or two half-courses in their minor area.

d) Analytical Methods – Research and Statistics/Methods: at least three half-courses offered within the Haskayne School of Business or by other Faculties.

The typical student will take six full-course equivalents over the first 20 months of the program.

GRADUATE DEGREE PROGRAMS & COURSES

6. Additional Requirements
Attendance at an orientation session is mandatory for all incoming students in all MBA program options and for all incoming doctoral students.

7. Credit for Undergraduate Courses
Credit for undergraduate courses taken prior to admission may be granted based on the approval of the Associate Dean (MBA Program).

8. Time Limit
Thesis-based Master: five years
Course-based Master: six years
Doctor of Philosophy: six years
MSW/MBA: seven years

9. Supervisory Assignments
Doctoral and MBA (thesis-based) students are required to select a permanent supervisor within the first twelve months of their program. For doctoral students, a supervisory committee reflective of the student’s research interests is required within three months after the permanent supervisor has been approved.

10. Required Examinations
Doctoral students are required to complete written candidacy examinations developed by the supervisory committee within twenty-eight months of commencing the program. These often combine take-home examinations and an oral examination completed within a period of one month. Questions on the research proposal may be included in the candidacy exam. The written candidacy examination format may differ depending on the major area and the supervisory committee. Students are advised to consult with their supervisors at least six months in advance of the candidacy examination dates.

MBA thesis and doctoral students will complete an oral thesis examination at the end of their programs.

Oral thesis examinations are open.

11. Research Proposal Requirements
Students whose research involves human subjects must receive approval from the Haskayne School of Business and from the University of Calgary Conjoint Faculties Research Ethics Board before beginning data collection. Doctoral students are required to have an acceptable research proposal before the doctoral candidacy examination. MBA (Thesis) students must secure approval from the supervisor before beginning thesis research.

12. Special Registration Information
None.

13. Financial Assistance
Financial assistance may be available to qualified students. For information on awards, please see the Awards and Financial Assistance section of this Calendar.

MBA Thesis and doctoral students applying for scholarships must submit their applications to the Program Director by 15 January
The Haskayne School of Business provides assistance for doctoral students in the form of Graduate Assistantships, Faculty of Graduate Studies Scholarships, the Robert Wilson Scholarship, and the Marion Janet and Ian Stormont Forbes Graduate Scholarship. Students should also enquire about scholarships available from the Faculty of Graduate Studies. All admitted full-time MBA students will be automatically considered for Business scholarships.

14. Other Information
Successful applicants will be required to confirm their acceptance of an offer of admission into the MBA program by sending a non-refundable $500 deposit to the Haskayne School of Business. The $500 will be credited toward fees upon registration.

15. Faculty /Research Interests
The active research interests of the faculty can be found at http://www.haskayne.ucalgary.ca/faculty/dir/faculty/

Managing Social and Environmental Issues in the Global Market Place

Canadian companies operating in the international arena find themselves faced with an increasingly complex array of social and environmental risks that threaten their strategic objectives. This course examines this new class of strategic corporate risks through a review of changes in international sustainable development policy initiatives, changes in communications, the emergence of an environmental and social activist sector, and the interaction of these factors to produce new international business risk challenges. The course uses lectures, cases, simulations and class discussion of theories and concepts.

Business and Environment 761  H(3-0)

Ethics and the Professional Manager

The role of values in business decision making; alternative moral codes and their principles; moral principles as decision tools, and reasoning through moral dilemmas; role of business in society; specific issues in business ethics; application through cases and exercises.

Business and Environment 777  H(3-0)

Global Environment of Canadian Business

Economic, political, social and legal factors affecting management decisions. Topics include Canada in the world economy, business and government relations, business ethics, legal environment for business. Develops knowledge and ability to analyze and deal with complexities of the business environment.
Corequisite: Strategy and Global Management 701 or consent of the Haskayne School of Business.

Business and Environment 789  H(3S-0)

Seminar in Business and Environment

Study and discussion of current research literature and contemporary issues on topics related to Business and Environment. MAY BE REPEATED FOR CREDIT

Business and Environment 793  H(3-0)

Legal Environment of Business

The study of the various areas of law which are particularly relevant to someone developing their business: contracts, patents and copyrights, product liability, incorporation, etc.
Prerequisites: Human Resources and Organizational Dynamics 601, Operations Management 601, Management Information Systems 601, Accounting 601 or equivalent.

Business and Environment 797  H(3S-0)

Advanced Seminar in Business and Environment

Prerequisite: Consent of the Haskayne School of Business. MAY BE REPEATED FOR CREDIT

Entrepreneurship and Innovation (ENTI)

Entrepreneurship and Innovation 781  H(3-0)

Introduction to Entrepreneurship

An experience based course covering the prestart-up stage of business development through group projects and case studies designed to provide experience based skill development in creativity, idea generation, and feasibility analysis.

Entrepreneurship and Innovation 783  H(3-1)

Opportunity Development

A project based course designed to explore concepts of opportunity development.

Entrepreneurship and Innovation 785  H(3-0)

Venture Development

A project based course designed around the formation of business concepts in the formalization of a business plan.
Note: Credit for both Entrepreneurship and Innovation 785 and Management Studies 797.81 will not be allowed.

Entrepreneurship and Innovation 787  H(3-0)

Applied Business Analysis

Approaches to advising new and existing ventures on effective venture development. Projects will involve the student conducting analysis of several ventures and providing advice to them.
Prerequisite: Marketing 601 or consent of the Haskayne School of Business.

Entrepreneurship and Innovation 791  H(3-0)(formerly Entrepreneurship and Innovation 797.01)

Technology Commercialization

The process of taking a technology product or service from development to the market, including market strategies, finding investors and potential early customers, the role of advisors, legal issues and the importance of the exit strategy for founders and early stage investors. Students will be required to complete a major project to write a feasibility study for a new technology or a case study of a successful technology venture.

Entrepreneurship and Innovation 793  H(3-0)(formerly Entrepreneurship and Innovation 797.03)

Technology and Innovation Management

The dynamics of innovation as the primary driving force within firms and modern industrialized economies. Innovation concepts such as incremental versus radical innovations, market-pull versus technology-push theories, dominant designs, technological trajectories, key factors for successful innovation. The emergence of new technologies; the importance of national and regional innovation systems; the role of science, regulations and social pressure in innovations dynamics; knowledge management; and implications for firms in rapidly changing industrial settings.

Entrepreneurship and Innovation 797  H(3S-0)

Advanced Seminar in Venture Development

797.02. Strategic Legal Planning for New Ventures
Prerequisite: Consent of the Haskayne School of Business.

Entrepreneurship and Innovation 799  H(3S-0)

Doctoral Seminars in Venture Development

799.01. Entrepreneurship: The State of the Art
799.02. Conceptual Models and Theories of New Venture Development
799.03. Special Topics in Entrepreneurship and Innovation
799.04. Advanced Topics in Entrepreneurship

Finance (FNCE)

Finance 601  H(3-1)

Managerial Finance

The major decision-making areas confronting modern financial managers today. Provides a general understanding of financial markets and how they can be used for personal finance. Covers traditional subjects such as capital budgeting, net present value, risk/return, capital structure and dividend policy. Topical areas covered are IPOs, mergers and acquisitions, derivatives and options. The course is integrated with current events from the financial world.
Prerequisite: Management Studies 609 or Accounting 601.

Finance 745  H(3-0)

Futures and Options

After presenting basic definitions, institutional details, and strategies, a general theory of derivative pricing based on the principle of No Arbitrage will be developed. This theory will then be applied to the basic derivative contracts (futures, forwards, put options and call options) as well as exotic options. Using the binomial model, as well as the continuous time model of Black Scholes, hedging and replication will also be examined.
Prerequisite: Finance 601.

Finance 751  H(3-0)

Advanced Topics in Financial Administration

Classical and contemporary topics in the theory and practice of financial management including capital structure, cost of capital, real options valuation, bankruptcy costs and debt holder-equity holder conflicts, corporate financial strategy, managerial incentives and financial decisions, information conveyed by financial decisions, and mergers and acquisitions.
Prerequisite: Finance 601.

Finance 753  H(3-1)

Problems in Financial Management

The application of financial management principles to actual problems mainly in the corporate sector, including such areas as working capital, management, short, intermediate and long-term financing problems, dividend policy and reorganization.
Prerequisite: Finance 601.

Finance 755  H(3-1)

Capital Budgeting

Capital investment policies, real options, required rate of return calculation, tax factors, risk analysis, buy versus lease, abandonment considerations.
Prerequisite: Finance 601.

Finance 757  H(3-0)

Management of Financial Institutions

Financial intermediaries such as banking and brokerage. Explains the risks faced by institutions and the integration through modern financial markets. Covers issues such as lending, trading, securitization, deposit insurance and the regulatory environment. Concludes with modern bank management from the shareholder value point of view.
Prerequisite: Finance 601.

**Human Resources and Organizational Dynamics 745**

Cross Cultural Leadership and Human Resources Management

Leadership of human resources in a cross-cultural and international context; the nature of cultural differences; influence on organizational processes and practices such as communication, leadership, decision-making, team dynamics, staffing, performance management and organizational design, and implications for those holding international managerial roles.

**Human Resources and Organizational Dynamics 789**

Seminar in the Management of Human Resources

Intensive study and discussion of current literature, research and issues with respect to selected topics in the management of human resources.

Prerequisite: Human Resources and Organizational Dynamics 601 or consent of the Haskayne School of Business.

MAY BE REPEATED FOR CREDIT

**Human Resources and Organizational Dynamics 793**

Business Negotiations

The major concepts and theories of negotiation; the dynamics of interpersonal and intergroup conflict; analysis of negotiation strategies and individuals styles. Application to a broad range of business negotiations. Use of simulations and written assignments.

Prerequisite: Human Resources and Organizational Dynamics 601.

**Human Resources and Organizational Dynamics 797**

Advanced Seminar in Human Resources and Organizational Dynamics

Prerequisite: Consent of the Haskayne School of Business.

**PhD Courses**

**Business Process Improvement and Creative Problem Solving**
Business process improvement and creative problem solving as critical components of competitiveness. The adjective "business" is used to indicate that the course emphasizes improvements in non-manufacturing processes (of relevance to all organizations) in such areas as development, distribution, financial accounting/planning, order entry, personnel, and purchasing. Topics covered include the relationship to Total Quality Management and Time-Based Competition, incremental versus radical improvement, selection of key processes for study (including bench-marking and the role of capacity constraints), process flow diagramming, Pareto analysis, cause-and-effect analysis, statistical control charts, affinity diagrams, and steps in creative problem solving. Team exercises and projects make up a substantial portion of the course.

**Prerequisite:** Operations Management 601 or equivalent.

**International Logistics**
The management functions of physical distribution, procurement and production are examined in a global context. Management of these activities must reflect the major structural changes taking place in the world. Increasing growth in international trade heightens the level of international purchasing and logistics activities, demanding that the future manager exploit global sourcing and production opportunities and configure a supply chain management system that provides excellent, cost-effective service on a world-wide basis. Both theoretical and practical approaches are applied to the wide array of topics in global manufacturing, sourcing and distribution.

**Prerequisite:** Operations Management 601 or equivalent.

**Global Energy Finance and Accounting**
Problems related to evaluating and financing energy enterprises. Financial and accounting principles applied to valuing and financing energy projects.

**Financial reporting, managerial control systems, theory of financing, valuation, and deal structuring. Focus on private sector energy enterprises.**

**Prerequisites:** Accounting 603 and Finance 601.

**Personal Financial Management in Canada**
Introduction to personal financial management in Canada. Goal setting, personal financial statements analysis, the time value of money, the Canadian personal income tax system, taxation issues for small businesses, risk management, an overview of investments, retirement planning and estate planning. Completion of a personal financial plan by the end of the course.

**Prerequisite:** Finance 601 or equivalent.

**Note:** May not be used as part of a student’s major in Finance.

**Multivariate Analysis in Management**
Multivariate Analysis in Management is concerned with the study of association among sets of measurements. This multivariate statistics course is intended primarily for PhD students in Management although MBA (Thesis) students pursuing an empirical-based thesis can also benefit. The objective of this course is to introduce graduate students to a variety of multivariate statistical techniques and methods to enable them to effectively carry out an empirical research study in management including the business, public, and not-for-profit sectors. Topics include: introduction to research design and multivariate methods, linear regression, logistic regression, analysis of variance and covariance, multivariate analysis of variance, discriminant analysis, principal components analysis, common factor analysis, and additional multivariate topics if time permits. The technical level of treatment would require basic understanding of matrix and linear algebra and at least one first level course in statistics. Such preliminary technical understanding will be helpful to appreciate the theory and intuition behind the multivariate techniques. A good blend of technical, conceptual, and practical aspects (using SPSS software) of the course will be maintained.

**Prerequisite:** Consent of the Haskayne School of Business.

**Philosophy of Science in Management Studies**
Historical and critical perspectives of classical issues in philosophy of science, nature of scientific explanation, confirmation of scientific theories, theories of truth, distinctions between science and non-science.

**Prerequisite:** Consent of the Haskayne School of Business.

**Advanced Research Methodology and Methods**
Research methodology relevant to examination and testing of theoretical and applied issues in management. The development and testing of research concepts; research operations, designs and analysis.

**Prerequisite:** Consent of the Haskayne School of Business.

**Management Education Seminar**
Curricular and course design, instructional techniques, instructional tools, teaching styles, career planning and professional ethics. Nature, role and function of universities, and business schools, business school relations.

**Prerequisite:** Consent of the Haskayne School of Business.

**Note:** Doctoral students whose supervisors are members of the Haskayne School of Business are required to register in this seminar in the second year of doctoral studies.

**NOT INCLUDED IN GPA**

GRADUATE DEGREE PROGRAMS & COURSES

Tourism and Hospitality Management (TOUR)

Tourism Management 741  H(3-0)
(formerly Tourism and Hospitality Management 741)

Policy Planning and Development in Tourism
Prerequisite: Consent of the Haskayne School of Business.

Tourism Management 745  H(3-0)
(formerly Tourism and Hospitality Management 745)

International Tourism
Prerequisite: Consent of the Haskayne School of Business.

PHD Course

Tourism Management 799  H(3S-0)
(formerly Tourism and Hospitality Management 799)

Doctoral Seminars in Tourism
799.01. General Fields in Tourism Management
799.02. Special Fields in Tourism Management
799.03. Tourism Policy and Strategy
799.04. Theory in Tourism

CONTACT INFO

History Department
University of Calgary

1. Degrees and Specializations Offered

Doctor of Philosophy (PhD)
Master of Arts (MA), course-based and thesis-based
Candidates should apply to the program of their choice, indicating the area of specialization (see section 5 below).

2. Admission Requirements

In addition to the requirements of the Faculty, the Department requires:

Master of Arts
a) Normally, a four-year undergraduate program with honours or a major in history. Usually this entails at least seven full-year History courses (or fourteen half-courses). Credit may be given for up to two half-courses in other disciplines, if appropriate for the proposed area of study.
b) A minimum admission grade point average of 3.40 on a four-point scale over the final 10 FCE of the undergraduate degree

c) A copy of a historical research paper, preferably graded, normally at the senior undergraduate level

d) A 250-word (minimum) statement of research interest including research topics in the major field and the reasons for pursuing a post-graduate degree in history

Doctor of Philosophy
a) Normally, a completed four-year undergraduate program with honours or a major in history and a completed Master's degree or the equivalent in history or in a related discipline
b) A grade point average of 3.70 on a four point scale in history at the graduate level
c) A detailed statement of research interests, career goals, and ideas for the thesis topic
d) A sample of written work, normally a Master's thesis chapter or a major research paper completed at the Master's level

3. Application Deadline

Deadlines for the submission of complete applications:
15 January for September admission and funding
15 April for September admission only

4. Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

5. Program/Course Requirements

In addition to the Faculty requirements, the Department requires:

Master of Arts (thesis-based)

a) A minimum of one year of full-time study at the University of Calgary
b) Three full-course equivalents (including History 690) in two semesters of course work. Masters students will complete their coursework through regularly offered History seminars.

Areas of specialization are: Canada, Europe, Latin America, United States, Britain, Imperial India, China, Atlantic History, History of Science, Intellectual History, Military-Diplomatic History, Political History, Popular Culture, Religious History, History of Gender and Sexuality, Social History, and Western Canada/Borderlands/Frontier.

Students in the Departments of History, Political Science, Religious Studies and the Centre for Military and Strategic Studies may choose an interdisciplinary specialization in Israel Studies. For further information on the Israel Studies (interdisciplinary) specialization, see the separate listing in this Calendar.

Students must take one half-course seminar in a field unrelated to the student's research interests. Students may, with permission of the chair of graduate studies, take one 500-level undergraduate seminar but on the understanding that extra course work will be required.

The Graduate Studies Committee may vote to allow students to enrol in History 691 directed reading courses after reviewing a written request from the student's supervisor.

c) A thesis of 80 to 150 pages, including notes, charts, tables and appendices, but excluding bibliography. Students begin thesis preparation as they undertake their course work and may fulfill the requirements for their Master of Arts degree in twelve months.
d) A demonstration of reading knowledge of a second language related to the major field of study prior to the oral thesis defence

Master of Arts (course-based)
There is no full-time requirement for this program.
a) A minimum of six full-course equivalents; two may be senior undergraduate courses at the 500-level, two must be graduate seminars and at least two are to be graduate seminars in a secondary field
b) Completion of History 690 in the first year and History 651 and History 653 in the final year of program
c) A 50–60 page research paper prepared in the final year and defended in an oral examination
d) A demonstration of reading knowledge of a second language related to the major field of study before the oral examination.
e) Completion of at least one-half course per semester

Doctor of Philosophy

a) A minimum of two years of full-time study at the University of Calgary
b) Three full-course equivalents at the 700-level, including courses in the major, minor and cognate fields. The course work will help the student to prepare a major field, a minor field and a cognate/thematic field. The fields will be defined in detail by the advisor and the student in consultation with the Supervisory Committee and must be approved by the Department Graduate Studies Committee. During the candidacy examination, the student will demonstrate a comprehensive understanding of each field as well as their particular area of research.

The minor field will be selected from an area of history outside of the major field. The cognate/thematic field will consist of either a non-history discipline or a thematic history field such as the ones listed below. The reading list for the minor and cognate/thematic fields will each be roughly half the size of the major field reading list. The reading list for a thematic history field will span three geographical areas. The availability of cognate/thematic fields will depend on faculty members' expertise. Each of a student's three fields must be taught by a different faculty member or as defined by the committee.

Major fields: Canada; Europe (Medieval/Early Modern); Europe (Early Modern/Modern); Britain; Latin America; United States; World; Military/Diplomatic; History of Science.

Minor Fields: (to be chosen from outside of Major Field); Canada: Beginnings to 1896; 1841 to the Present; Europe: Medieval, 500-1500; Early Modern, 1350-1789; Modern, 1750 to the Present; Britain: Early Modern, 1450-1832; Modern, 1688 to the Present; Imperial; Latin America: Colonial, 1482-1810; National, 1810 to the Present; United States: Beginnings to 1877; 1866 to the Present; World: China, 960 to the Present; India, 1700 to the Present; Military/Diplomatic: Military Diplomatic; History of Science: Scientific Revolution; Social Sciences, 1700
to the Present, Science and Religion, 1200-1759; or a field designed by the student and supervisor in conjunction with the supervisory committee and approved by the Graduate Studies Committee.

Cognate/Thematic Fields: The department prefers that students prepare a cognate field in a non-history discipline but, with the approval of the supervisory committee and the Graduate Studies Committee, students may prepare a thematic field in history appropriate to their work, such as Borderlands, Gender and Sexuality, Legal and Constitutional, Popular Culture, Intellectual, Environmental, Religious, or Atlantic.

The doctoral program consists of two terms of coursework relevant to the major, minor, and cognate fields. The second term comprises reading courses in each of the three candidacy fields. During the third and fourth terms, students read for the candidacy examinations. Four to five terms of thesis preparation will normally follow. Students who have not taken History 690 or its equivalent will be required to take it as part of their program in the first year and in addition to the requirements above.

6. Additional Requirements
None.

7. Credit for Undergraduate Courses
Students enrolled in the part-time course-based Master of Arts program may take two of the required six full-course equivalents at the 500-level. Students enrolled in the Master of Arts thesis program may apply for no more than one 500-level course for graduate credit, subject to the approval of the Department. Graduate students taking a 500-level course for graduate credit will be required to complete additional assignments.

8. Time Limit
Expected completion time is 12 to 20 months for the Master of Arts thesis program, and four years for the doctoral program. Maximum completion time is four years for the Master of Arts thesis program and six years for the course-based Master of Arts and doctoral programs.

9. Supervisory Assignments
Upon acceptance into the program, students are assigned an interim supervisor. Each student should select a permanent supervisor, subject to the consent of the faculty member, within three months of entering program. Admission to the Master’s and the doctoral programs is dependent upon the agreement of a faculty member to supervise in an interim capacity.

The supervisor establishes a doctoral supervisory committee in consultation with the student. The supervisory committee must be selected within three months of the supervisor’s appointment (no later than March of the first year of a program).

10. Required Examinations
Doctoral candidacy examinations have a written and an oral component and are taken upon completion of all course and language requirements. Each doctoral student takes a three-hour written candidacy examination within a period of ten calendar days in each of the three fields of study. The supervisory committee, in consultation with the student, sets the subjects. A level of general knowledge consistent with teaching an introductory survey course is expected for each field. The oral candidacy examination is taken no later than twenty calendar days after the last written examination. The department strongly urges candidates to complete their candidacy examinations within 20 months of their first date of registration; candidacy examinations must be taken within 28 months of first registration.

Final thesis oral examinations are open.

11. Research Proposal Requirements
In consultation with the supervisory committee, each doctoral student is required to submit a brief thesis proposal which will be discussed and, if necessary revised at a meeting of the supervisory committee no later than four weeks before the candidacy exam. The thesis proposal may serve as an additional basis for questioning during the candidacy exam.

12. Special Registration Information
Students should plan their courses in consultation with their supervisors, complete the Course Registration Form supplied by the department, obtain the supervisor’s signature, and bring their course program to the Graduate Coordinator for approval before registration.

13. Financial Assistance
Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships must submit their online applications to the Department by 15 January.

14. Other Information
Since resources are limited, the Department may, in any year, admit fewer applicants than those who are qualified to undertake graduate studies.

15. Faculty Members/Research Interests
The research interests of current faculty can be found at http://hist.ucalgary.ca/faculty.

Undergraduate Courses
Only where appropriate to a student’s program may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses.

The department prefers that students prepare a cognate field in a non-history discipline but, with the approval of the supervisory committee and the Graduate Studies Committee, students may prepare a thematic field in history appropriate to their work, such as Borderlands, Gender and Sexuality, Legal and Constitutional, Popular Culture, Intellectual, Environmental, Religious, or Atlantic.

The doctoral program consists of two terms of coursework relevant to the major, minor, and cognate fields. The second term comprises reading courses in each of the three candidacy fields. During the third and fourth terms, students read for the candidacy examinations. Four to five terms of thesis preparation will normally follow. Students who have not taken History 690 or its equivalent will be required to take it as part of their program in the first year and in addition to the requirements above.

6. Additional Requirements

Undergraduate Courses
Only where appropriate to a student’s program may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses.
History 508  H(3-0)

Topics in Twentieth-Century German History
Topics may include: thematic explorations and/or comparisons of dictatorial regimes (Nazi Germany and the German Democratic Republic); the history of the GDR; the two Germanies during the Cold War; memory and memorialization in popular culture; the contested formation of a multicultural society; and social protest in the post-WWII period. For further information on specific topics to be offered in any year, consult the History Department.
Prerequisite: One of History 307, 333, 375, 381, 383, 411.02, 413.02, 483, 485, 490, 491, or consent of the Department.

MAY BE REPEATED FOR CREDIT

History 509  H(3-0)

Religion, Politics, and Culture in Early Modern Europe
Topics may include the nature of late medieval religion, the social impact of the Reformation, religious violence and co-existence, and the nature and practice of royal absolutism.
Prerequisite: History 323 or 325 or 327, or consent of the Department.

MAY BE REPEATED FOR CREDIT

History 510  H(3-0)

Politics in Canada from 1896-1968
Canada from Laurier to Pearson
and the middle class, working class identity, radical modern and modern times: e.g., the rise of the gentry
Prerequisite: History 337 or 351 or consent of the Department.

History 511  H(3-0)

The Age of Enlightenment and the Era of Revolution and Napoleon
Enlightenment ideas and institutions, including the challenge to religious orthodoxy, the salons and early feminism, the new "universal" laws of the human sciences, and ideas of progress and the origins and course of the Revolution; the liberal and democratic revolutions; Terror and Virtue; failure of the Republic; the imperial saga in France and Europe. 511.01. The Age of Enlightenment 511.02. Revolution and Napoleon

History 512  H(3-0)

Topical and Problems of History
History 513  H(3-0)

Topics in Modern Russian and Soviet History
Topics may include: the establishment and dismantling of the imperial service state; the social, cultural, and economic transformation of late imperial Russia; women and gender; the experience of empire; the origins and fate of the Bolshevik Revolution; Stalinism; the Cold War.
Prerequisite: History 333 or 413.02 or consent of the Department.

History 515  H(3-0)

History of the Holocaust
Nazi persecution and destruction of the European Jews during World War II. Topics will include: the roots of modern anti-Semitism; Nazi policy towards the Jews of Germany in the 1930s; the Nazi "New Order" in occupied Europe; the technology of murder; Jewish resistance; the attitudes/actions of occupied peoples and Allied governments; the war crimes trials.
Prerequisite: History 333 or 413.02 or consent of the Department.

History 517  H(3-0)

Social and Political History of Modern Britain
Topics in social, cultural and political history in early modern and modern times: e.g., the rise of the gentry and the middle class, working class identity, radical ideology and two-party politics.

History 519  H(3-0)

Canada from Laurier to Pearson
Political developments in Canada from 1896-1968, with emphasis on the national scene.
Prerequisite: History 337 or 351 or consent of the Department.

History 520  H(3-0)

Canada and the First World War
Discussion topics will focus on the major themes in Canada's Great War military experience, including the Canadian Expeditionary Force's recruitment and training, leadership, tactical doctrine, and integration within the British Expeditionary Force, as well as developments in civil-military relations, conscription politics and the country's postwar military legacy.

History 521  H(3-0)

Canadian Biography
A thematic approach to Canadian personalities, emphasizing the biographer's method and changing interpretations of major Canadian figures, e.g., the prime ministers, prominent women, radicals, prophets, scientists, explorers, entrepreneurs, journalists and artists.

History 522  H(3-0)

Topics in Alberta History
Selected topics in Alberta history with emphasis upon the use of local archival sources.

History 525  H(3-0)

Topics in Canadian Intellectual History
Ideas of Canadian political, economic, and cultural theorists and social reformers in the late nineteenth and twentieth centuries.

History 526  H(3-0)

The Canadian Military in the Second World War
Through examination of topics such as leadership and adapting to warfare, this course will examine the Canadian military's ability to cope with the harsh realities of war. Emphasis will be placed on the political parameters imposed by the Canadian government on the military, the quality of Canadian leadership, and the "fit" between British forms of military organization and the fighting quality of Canadian soldiers, sailors and aircrew.
Prerequisites: History 349 or History 431 and consent of the Department.

History 527  H(3-0)

History of Canadian Foreign and Defence Policy from 1919 to the Cold War Era
Selected topics in Canadian foreign policy and defence policy from the end of World War I to the 1980's.
Prerequisite: One course in Canadian History and consent of the Department.

History 529  H(3-0)

Topics in Native History

MAY BE REPEATED FOR CREDIT

History 531  H(3-0)

Canadian Historiography
Major schools of historical writing in Canada: imperial, continental and nationalist interpretations; regional historiography of the Maritimes, central

History 533  H(3-0)

Gender, Race, Class and Women in Canada
The history of women's diverse experience in Canada will be examined through the study of aboriginal, immigrant, working-class and farm women.

History 535  H(3-0)

Topics in American History
Selected topics in the history of the United States from the colonial period to the present.
Prerequisite: History 359 or 361 or consent of the Department.

MAY BE REPEATED FOR CREDIT

History 537  H(3-0)

Great Awakenings: Revival Religion in U.S. History, 1720-1900
The origins and development of evangelical Christianity and its relationship to the American Revolution, Industrialization, the Civil War, and social reform movements.

History 541  H(3-0)

Topics in the History of Science
An exploration of selected themes in the history of science, e.g., the scientific revolution, science and religion in the seventeenth century, history of scientific methods, studies of individual scientists such as Galileo, Boyle, Newton, or Darwin. For further information on the specific topics to be offered in any year, consult the History Department.
Prerequisite: At least one of the following courses: History 371, 373, 477.01 or 477.02.

MAY BE REPEATED FOR CREDIT

History 543  H(3-0)

Topics in Great Power Diplomacy and Intelligence
An exploration of selected themes in the history of modern statecraft. Topics may include: theories of international relations, war origins, treaty-making, Fascist diplomacy, appeasement, wartime alliances, intelligence and policy, cold war diplomacy. A seminar in which primary sources will be used.
Prerequisite: One of History 483, 485, 499, 491.01, 491.02 or consent of the Department.

History 545  H(3-0)

Topics in Military History
An examination of selected problems in modern military history. Topics may include: military theory; guerrilla warfare from the 18th century to the 20th century; evolution of tactics in World War I; development of military medicine; innovation in European armies; colonial wars.
Prerequisite: One of History 349, 379, 381, 383, 431, 471, 481, 483, 485, 489, 491, or consent of the Department.

MAY BE REPEATED FOR CREDIT
History 551 H(3-0) (Political Science 551)

**Women in Canadian Politics**

A political history of women in Canada in the 20th and 21st centuries. Topics include campaigns for suffrage, legal personhood and equality rights, women’s political activism, the evolution of public policy concerning women, and the participation of women in public life.

**Prerequisite:** Political Science 321, or History 343, or consent of the Department.

History 553 H(3-0) (Archaeology 553)

**Circum-Caribbean Archaeology and History**

The prehistory and history of the indigenous peoples of the Caribbean from the first peopling of the islands to the early contact period.

**Prerequisite:** Consent of the Department.

**Note:** Not open to students with credit in Archaeology 531.61.

History 565 H(3S-0)

**Slavery in Latin America and the Caribbean, 1492-1888**

Themes may include the slave trade, plantation and urban slavery, resistance and rebellion, women, culture and religion, abolition, free people of colour in slave societies, and the post-abolition legacy.

History 567 H(3-0) (Political Science 567)

**United States Constitutional History**

History of constitutionalism in the U.S. from colonial times to the present. The process of constitutional development through judicial interpretation of the basic law.

History 569 H(3S-0)

**Latin America and the Outside World**

The Latin American nations in world affairs with special reference to their intellectual, economic, and political relations with Europe, North America, Africa, and the Pacific Rim. Themes will be drawn from the sixteenth to the twentieth centuries.

History 571 H(3S-0)

**Religion in History**

A thematic approach to religious beliefs, rituals, and behaviour in Europe and North America from the medieval era to the present.

History 583 H(3-0) (Political Science 583)

**The United States and the World since 1890**

A historical and analytical examination of the development of modern United States foreign policy from the late nineteenth century to the present. Topics include the institutional structure of foreign policy decision-making, including the role of the President, Congress, State Department, Pentagon, and public opinion, and the relationship between domestic politics and foreign policy. Historical dimensions include the turn to imperialism, World War I, the coming of World War II, the Cold War, Korea, Vietnam, Latin American relations, strategic arms limitations talks, and detente.

**Prerequisites:** Third or fourth year standing and one of History 361, Political Science 381 or consent of the Department.

History 591 H(3S-0)

**Directed Reading and Research**

The analysis of historical problems and the use of primary sources. The content of each course will reflect the interests of the instructor.

**Prerequisite:** Consent of the Department.

**Note:** May not be used to fulfill the 500-level requirement for a Major in history without the written consent of the Department.

**MAY BE REPEATED FOR CREDIT**

History 593 H(3-0)

**Selected Topics in History**

Topics will vary from year to year, and will be announced in advance.

**MAY BE REPEATED FOR CREDIT**

History 597 H(3-0)

**Honours Directed Reading**

Directed readings for Honours students in their third or fourth year.

**Note:** Not open to students with credit in History 596. Note: May be repeated for credit with consent of the Department.

**MAY BE REPEATED FOR CREDIT**

History 598 F(3-0)

**Honours Special Subject**

The Honours Essay for Honours students in their fourth year.

**Graduate Courses**

Only a limited number of these 600-level courses will be offered in any one year. Students may obtain further information from the Department.

History 601 H(3-0)

**Topics in Imperial History**

**MAY BE REPEATED FOR CREDIT**

History 603 H(3-0)

**Topics in Religious History**

**MAY BE REPEATED FOR CREDIT**

History 607 H(3-0)

**Topics in Western Canadian History**

**MAY BE REPEATED FOR CREDIT**

History 623 H(3-0)

**Topics in Canadian History**

An examination of crucial issues in Canada’s political, economic, social and cultural history.

**MAY BE REPEATED FOR CREDIT**

History 633 H(3-0)

1. Degrees and Specializations Offered

Doctor of Philosophy (PhD)
Master of Science (MSc), thesis-based

Area of Study: Immunology

Faculty members are affiliated with the Faculties of Medicine, Science, and Veterinary Medicine.

The Immunology Graduate Program is offered in collaboration with the above faculties, and the curriculum has been designed for students with undergraduate or MSc degrees in these faculties. Background experience, qualifications, and areas of interest of applicants will be taken into account at the time of admission.

A joint MD/Master's and MD/PhD program is also offered under the title "Leaders in Medicine."

The Universities of Calgary and Alberta offer a joint Biomedical Engineering Program. Further information can be obtained from the separate listing in this Calendar.

Students in the MSc and PhD degree programs are normally considered full-time.

2. Admission Requirements

In addition to Faculty of Graduate Studies requirements, this program requires:

(a) A baccalaureate degree or its equivalent from a recognized institution with a minimum grade point average of 3.2 (on a 4-point system; approximately equivalent to a B+) on the work of the last two undergraduate years.

(b) Proficiency in the English language. The Test of English as a Foreign Language (TOEFL) is required from applicants whose native language or language of instruction in the institution from which they obtained their degree was not English. Minimum acceptable score is 600.

(c) Endorsement by the Chairperson, Immunology Graduate Education Committee (IGEC) that the applicant is acceptable and that adequate supervision of the proposed program is available.

(d) An undergraduate course in immunology (CMMB 527 or equivalent). It will be possible for a student to take MDSC 639.01 during the first year of their program if he/she does not have an appropriate prerequisite course.

(e) Meeting the minimum admission criteria above does not guarantee acceptance into the program. Applications will be ranked according to academic excellence, prior research experience and commitment to the study of immunology.

3. Application Deadline

Deadlines for submission of complete applications for students with international transcripts:
1 April for September admission
1 August for January admission
1 December for May admission

Students applying to the MD/Master's or MD/PhD program must apply individually to each program and complete a supplementary application to the Leaders in Medicine program.

4. Advanced Credit

Applicants may request to receive credit for previously completed courses at the time of application. Where credit is to be given, it will be noted in the letter to the Faculty of Graduate Studies recommending the student’s admission.

5. Program/Course Requirements

In addition to Faculty requirements, the Immunology Graduate Program requires:

(a) Completion of a minimum of two half-courses for an MSc and three half-courses for a PhD. MDSC 639.02 or MDSC 639.04 is compulsory for all MSc students. Both courses are compulsory for PhD students. Optional courses for either degree can be drawn from any 600 level courses offered by the Faculty of Medicine in areas that are relevant to the student's research proposal, and approved by the supervisor and supervisory committee. Courses taken while a student is an Open Study student cannot be used as credits in either the MSc or PhD program.

(b) Participation in the seminar program of the Immunology Research Group (IRG). This will entail the annual presentation of a 30 - 50 minute Research Progress seminar, attendance at the weekly seminars and journal club.

(c) Presentation on the thesis project to the IRG around the time of the defence.

6. Additional Requirements

Attendance at a Research Integrity Day workshop is required for all graduate students.

Contributions to journals, relevant journal clubs and/or seminars are desirable.

7. Credit for Undergraduate Courses

No credit will be given for courses taken below the 600-level.

8. Time Limit

Expected completion time is 2.5 years for an MSc and 5 years for a PhD. Maximum completion time is 4 years for an MSc and 6 years for a PhD.

9. Supervisory Assignments

Individuals intending to apply for admission to the Immunology Graduate Program are encouraged to contact faculty members directly regarding the possibility of acting as a supervisor. If a potential supervisor has not been identified at the time of application, applications that meet or exceed the minimum criteria will be circulated to potential supervisors based on the indicated areas of interest (declared by candidates in the application). A supervisor and a source of funding (minimum of $18,750 per annum) must be identified for a student to be admitted to the Immunology Graduate Program. The supervisor, in consultation with the student, selects a Supervisory Committee. For MSc students, the Supervisory Committee consists of the supervisor plus 2 faculty members, at least one of whom must have completed the supervision of an MSc student. For PhD students, the Supervisory Committee consists of the supervisor plus a minimum of 2 faculty members. At least two members should be from the IRG, and at least two members must have completed the supervision of a doctoral graduate.

10. Required Examinations

Students in the PhD program must complete a candidacy examination, which consists of a written examination and a subsequent oral examination. Candidates will have three weeks in which to provide written answers to two out of four questions set by the candidacy committee. At least one question answered must be in the format of a grant proposal. The oral examination will take place one week after submission of the written answers and should focus on the background knowledge of students in their discipline, as well as their preparedness to do research of high quality in their particular field of study. A program-approved research proposal must be a precursor to any candidacy exam. However, the oral examination will not include questions on the candidate's research proposal. The candidate's supervisor will act as a non-voting observer at the candidacy examination.

Students who enter directly into a doctoral program after completion of an MSc in Immunology must attempt their candidacy examination within 28 months of initial registration in the program. Students who have transferred into a doctoral program from an MSc program must attempt the candidacy examination within 36 months of initial registration in the program.

All MSc and PhD students in the Immunology Specialization must complete a final thesis oral examination. Final thesis oral examinations consist of a public presentation followed by the examination.

Thesis Oral Examinations are open.

11. Research Proposal Requirements

MSc and PhD students must present a written research proposal to their supervisory committees no later than 12 months after initial registration in the program. The research proposal must be presented and defended before the supervisory committee.

12. Special Registration Information

A request for transfer of program from the MSc program to the doctoral program may be made no later than 24 months after initial registration in the program. The program, and its various structures, is designed to help students who wish to transfer. Students who request for transfer will be required to give a 45 minute seminar to the Immunology Research Group followed by a one hour oral examination based on the research proposal by the supervisory committee and one member of the IGEC. Approval of transfer will be determined by the examining committee. Written feedback on the performance will be provided to the student jointly by the supervisor and the IGEC member. The student will be required to submit a revised research proposal and complete the course requirements of the doctoral program. He/She must meet the 36-month deadline for the candidacy examination.
13. Financial Assistance

Applicants must identify a source of funding to be admitted into the Immunology Specialization. Graduate students are generally funded by their supervisor's operating grants, internal awards, and/or external awards. Possible sources of financial support are outlined in the Awards Guide of the Red Brochure of the Medical Sciences Graduate Education Program and are listed on the Faculty of Graduate Studies website: http://www.grad.ucalgary.ca/funding. These include Graduate Assistantships (Teaching), Faculty of Graduate Studies Scholarships, Dean’s Excellence Awards, Dean’s Entrance Awards, and the Faculty of Graduate Studies Open Scholarship Competition. Students applying to the Open Scholarship Competition must submit an application to the Faculty of Medicine. Funding for students in the Immunology Graduate Program is also available through the Canadian Institutes of Health Research (CIHR) Training Program in Immunology, Immunopathogenesis, and Inflammation.

14. Other Information

The Immunology Graduate Program offers the following four courses:
- MDSC 639.01: Principles of Immunology
- MDSC 639.02: Cellular and Molecular Immunology
- MDSC 639.03: Topics in Immunology
- MDSC 639.04: Inflammation

Information regarding the courses can be obtained at http://www.ucalgary.ca/irg/Education.

Detailed course descriptions are available at http://www.ucalgary.ca/pubs/calendar/ and timetable information can be found through myucalg.ca.

15. Faculty Members/Research Interests

The research interests of current IRG faculty members can be found at http://www.ucalgary.ca/irg/faculty

INTERDISCIPLINARY GRADUATE PROGRAM

IGP

Contact Info

Location: Professional Faculties Building, Room 3168
Faculty number: (403) 220-7209
Fax: (403) 210-8872
E-mail address: irg@ucalgary.ca
Web page URL: http://www.ucalgary.ca/irg

1. Degrees and Specializations Offered

Doctor of Philosophy (PhD)
Master of Arts (MA), thesis-based
Master of Science (MSc), thesis-based
All degrees are research and thesis-based and can be completed on a full-time or part-time basis.

Previously known as the Resources and the Environment Program, the Interdisciplinary Graduate Program can trace its founding back to 1968. The present name recognizes the breadth of the areas of interdisciplinary research undertaken in the program, which have always included studies of human and cultural resources and environments. The program emphasizes interdisciplinary research in areas not offered by other departmental and faculty programs. Over the years it has provided an intellectually enriching vehicle for many students and faculty members to pursue their research interests where these cross the limits of other program structures.
Final thesis oral examinations will be open notice of candidacy examination. Although the written paper forms the basis of the oral examination within one month of their submission. A student will defend the written papers during an oral candidacy form. The student will be asked questions established by the supervisory committee. The relationship between the supervisor and the student is the basis of the Master of Science and six years for the Master of Kinesiology. The Faculty offers a broad spectrum of research areas within the field of Kinesiology.

1. Degrees and Specializations Offered

Doctor of Philosophy (PhD) Master of Science (MSc), thesis-based

5. Program/Course Requirements

In addition to Faculty of Graduate Studies requirements, the Faculty of Kinesiology requires:

Master of Kinesiology
a) Two full courses, six half-courses and two quarter courses:
Core Courses (Required of all students): Kinesiology 606, Kinesiology 615, Kinesiology 617, Kinesiology 637, Kinesiology 673, Kinesiology 690, Kinesiology 715, Kinesiology 773, Kinesiology 775 and Kinesiology 785
b) A final oral presentation is considered the capstone event. This will be undertaken in conjunction with KNES 715.

Master of Science
a) One-half course in statistics at the graduate level
b) One-half course in research design at the graduate level
c) A maximum of three additional half-courses, determined by the supervisor according to the student’s background and research focus. When appropriate, students may enrol in courses offered by faculties other than Kinesiology

Doctor of Philosophy
A minimum of three graduate-level half-courses, approved by the supervisory committee

4. Advanced Credit

Advanced credit will be limited to two full course equivalents with a grade of B or higher for students admitted to the Master of Kinesiology program. The student must request advanced credit in writing at the time of application for admission to the Faculty of Kinesiology.

10. Required Examinations

Doctoral candidacy examinations have a written and an oral component. The written candidacy examination normally consists of a set of three questions established by the supervisory committee. The student has three weeks to complete the written candidacy papers. The student will defend the written candidacy papers during an oral candidacy examination within one month of their submission. Although the written form takes the oral examination form, questions may extend beyond the written papers to areas as outlined in the notice of candidacy examination.

Final thesis oral examinations will be open.

11. Research Proposal Requirements

A fully developed thesis proposal is required for admission. However, the thesis proposal may be modified in consultation with the supervisory committee.

12. Special Registration Information

IGP students register using the Student Centre accessible through the Portal at https://my.ucalgary.ca; however, course registration must be completed manually by completion of the Faculty of Graduate Studies Change of Registration form.

13. Financial Assistance

Limited financial assistance may be available to qualified full-time students. For information on awards, see the Awards and Financial Assistance section of this Calendar.

Students applying for scholarships must submit their applications to the Program by 15 January.

14. Other Information

Enquiries concerning the program should be addressed to the Program Administrator, Interdisciplinary Graduate Program, University of Calgary, Professional Faculties Building, Room 3168, Calgary, Alberta T2N 1N4.
The doctoral supervisory committee is selected according to Faculty of Graduate Studies procedures. The student meets with the supervisory committee within the first three months in program, then a minimum of once a year thereafter. The supervisory committee must be approved by the Associate Dean (Graduate) of the Faculty of Kinesiology.

10. Required Examinations

Doctoral candidacy examinations have a written and an oral component. The student and supervisor select one of the following:

a) The written component will be a closed book, six-hour examination in two three-hour blocks, administered by the supervisor. The examination is based on questions from the candidacy examination committee. The student will answer four out of five questions. The written answers are circulated to the candidacy examination committee immediately thereafter. The oral candidacy examination, based on the written examination, general knowledge and the thesis proposal, will take place seven days later, or

b) Five questions from the candidacy examination committee will be given to the student four weeks before the oral examination. The student will prepare a written paper for four of the questions and submit a copy of each paper to each examiner one week before the oral examination. Each paper should be a maximum of twenty double-spaced pages. The oral candidacy examination, based on the written examination, general knowledge and the thesis proposal, will take place seven days later.

Both the written and the oral components of the candidacy examination must be found acceptable in order to receive a passing grade.

Final thesis oral examinations are open.

11. Research Proposal Requirements

Students whose research involves human subjects must receive approval from the University of Calgary Conjoint Health Research Ethics Board before beginning data collection. Research with animals must receive approval from a University Animal Care Committee.

Each Master of Science student presents a thesis proposal to a thesis proposal committee before collecting data. Each doctoral student must prepare a research proposal, before sitting the candidacy exam: this is no later than twenty-four months after beginning the program.

The proposal consists of:

a) Background information from the scientific literature, including a critical evaluation of previous work;

b) A clear statement of the objectives of the proposed research program;

c) An analysis of the methodology to be used in the implementation of the proposal;

d) An indication of the contributions to scientific knowledge that should result from the candidate’s research.

The supervisory committee may limit the length of the proposal, and must officially approve it before it is submitted to the Associate Dean (Graduate) of the Faculty of Kinesiology.

12. Special Registration Information

None.

13. Financial Assistance

For Doctoral students, evidence of external financial support for their program must be provided before admission. It is expected that students will be funded through competitive scholarships or studentships or supported by their supervisors’ research funds.

Financial assistance in the form of Faculty of Graduate Studies Scholarships and Graduate Assistantships (Teaching) may be available to qualified students. For information on awards, please contact the Graduate Program in the Faculty of Kinesiology. Students are encouraged to seek external financial assistance for their programs because the Faculty of Kinesiology cannot guarantee financial assistance.

14. Other Information

Initial enquiries should be directed to the Graduate Program, Faculty of Kinesiology.

15. Faculty Members/Research Interests

Current faculty and their areas of research interest can be found at http://wcm2.ucalgary.ca/knes/facultycontact

15.1. Research Methods in Kinesiology

Basic concepts of statistical analysis as they apply to research methods used in various disciplines in kinesiology.

Prerequisite: Consent of the Faculty.

Note: Credit for both Kinesiology 609 and 603.84 will not be allowed.

15.2. Seminar in Applied Exercise Physiology

Lectures and seminar presentations, discussion and critique of current research in applied exercise physiology and related subjects.

Prerequisite: Consent of the Faculty.

15.3. Practicum

Prerequisite: Consent of the Faculty.

Note: Open to Exercise and Functional Fitness students only. If this choice is made, the student must select another approved graduate level half-course option.

MAY BE REPEATED FOR CREDIT

NOT INCLUDED IN GPA
Special Topics in Sport and Exercise Psychology
Kinesiology 695 H(3-0)
Prerequisite: Consent of the Faculty.
MAY BE REPEATED FOR CREDIT

MAY BE REPEATED FOR CREDIT

Special Topics in Neuromotor Psychology
Prerequisite: Consent of the Faculty.

Special Topics in Biomechanics
Kinesiology 661 H(3-0)
Prerequisite: Consent of the Faculty.
MAY BE REPEATED FOR CREDIT

Kinanthropometry
The quantitative study of size, shape, proportion, composition, and maturation of the human body in relation to gross motor function in sport, physical activity, and the work place.
Prerequisite: Kinesiology 355 or consent of the Faculty.

Kinesiology 669 H(3-0)
Prerequisite: Consent of the Faculty.
MAY BE REPEATED FOR CREDIT

Advanced Biomechanics
Theoretical and applied aspects of biomechanics in the acquisition and performance of sport skills.
Prerequisite: Consent of the Faculty.

Kinesiology 675 H(3-0)
Prerequisite: Consent of the Faculty.
MAY BE REPEATED FOR CREDIT

Exercise Physiology
Topics in exercise physiology will include the effects of exercise on muscle, metabolism, hormones, respiration, and the cardiovascular system. Nutrition, body composition, ergogenic aids, and environmental factors will also be examined.
Prerequisite: Kinesiology 473 or consent of the Faculty.

Kinesiology 697 H(3S-0)
Health and Exercise Psychology
An examination of applied psychological theories, research, and practices in promoting exercise adherence and in the development of optimal health through physical fitness.
Prerequisite: Consent of the Faculty.

Kinesiology 699 H(3S-0)
Applied Sport Psychology I
The examination and practice of mental training theory and skills in maximizing athletic performance.
Prerequisite: Consent of the Faculty.

Kinesiology 715 H(1-1S)
Seminar in Clinical and Applied Exercise Physiology
An advanced level of presentation and critical appraisal of research in applied physiology. Students will assume a leadership role in a seminar setting.
Prerequisite: Consent of the Faculty.

Kinesiology 751 H(3T-0)
Directed Study in Neuro-Motor Psychology
Individual study in a tutorial setting. An individual course is set for each student based on a mutually agreed upon topic. Students are required to read extensively in a specialist area of their choice.
Prerequisite: Kinesiology 651.

Kinesiology 773 H(3-3)
Integrative Exercise Physiology
The effects of exercise on the complex physiological interactions between different systems in the human body.
Prerequisite: Kinesiology 673 and consent of the Faculty.

Kinesiology 775 H(3-3)
Clinical Exercise Physiology
Exercise for clinical populations: exercise assessment and prescription for disease modification.
Prerequisite: Kinesiology 773 and consent of the Faculty.

Kinesiology 777 H(3-0)
Physiology of Skeletal Muscle
An in-depth study of the structural and contractile properties of skeletal muscle.
Note: Credit for both Kinesiology 777 and 675.85 will not be allowed.

Kinesiology 785 H(3-3)
Training Strategies for Health and Sport
The science of improving health and athletic performance with appropriate periodized stress and recovery.
Prerequisite: Kinesiology 773 and consent of the Faculty.

Kinesiology 799 H(3S-0)
Applied Sport Psychology II
An examination of further selected topics in applying psychological technique to athletic performance.
Prerequisite: Kinesiology 699.

Contact Info
Location: Murray Fraser Hall
Faculty number: (403) 220-8154
Fax: (403) 210-9682
E-mail address: law@ucalgary.ca
Web page URL: http://www.law.ucalgary.ca

1. Degrees and Specializations Offered
The Faculty of Law offers thesis-based and course-based Master of Laws (LLM) programs exclusively in the Faculty's areas of specialization: natural resources, energy and environmental law. Subject to government approval, the Faculty will also offer a Post Graduate Certificate in Natural Resources, Energy and Environmental Law. For more information on the Post Graduate Certificate, please see the Faculty of Law Calendar or website.

2. Admission Requirements
In addition to the requirements of the Faculty of Graduate Studies, the Faculty of Law requires, for both the thesis-based and course-based LLM degree programs:

a) A first academic degree in law
b) For applicants required to provide proof of proficiency in English, a minimum TOEFL Internet (IBT) score of 100, of which the reading, listening and writing component must total 75; or a minimum TOEFL score of 600 (paper-based) or 250 (computer-based) and a 6.5 IELTS score of 5.5; or the minimum IELTS overall band of 7.0, with a reading and writing band minimum of 7.0; or successful completion of a University of Calgary Faculty of Law Post Graduate Certificate.

c) Applicants to the LLM program must submit a brief statement of their proposed thesis and indicate their proposed supervisor. Forms and details are available from the Faculty.

3. Application Deadline

a) Thesis-based LLM applications are accepted for September admission only. The deadline for submission of completed applications is 15 December.

b) Course-based LLM and Post Graduate Certificate applications are accepted for September or January admission. The deadline for completed applications for September admission is 15 December and the deadline for completed applications for January admission is 15 July.

c) Deadlines are firm for international students, but may be flexible for Canadian students.

4. Advanced Credit
The applicant must make advanced credit requests as part of the admission process. Credit will not normally be given for courses taken as part of another completed degree/diploma/certificate or for courses taken to bring the grade point average to a required level for admission. Credit may be given for courses taken towards the Faculty of Law's thesis-based or course-based LLM degree program or as part of the Faculty's Post Graduate Certificate program when transferring between programs.

5. Program/Course Requirements
In addition to Faculty of Graduate Studies requirements, the Faculty of Law requires:

LLM (thesis-based)

a) Law 703: Graduate Seminar in Legal Research & Methodology

b) Law 705: Graduate Seminar in Legal Theory
c) At least two additional 600-level half-courses in the areas of natural resources, energy or environmental law or in a related area or from a related discipline with the approval of the Graduate Coordinator.
d) A substantial research thesis in the area of natural resources, energy or environmental law, approximately 100 to 125 pages (30,000 - 38,000 words) in length, exclusive of the bibliography, prepared under the supervision of a faculty member or other suitable person appointed by the Graduate Coordinator.
e) Two terms in residence, normally consecutive and normally from September to April. Students need at least 15 to 18 months from initial registration for thesis completion and defense.

LLM (course-based)
a) Law 703: Graduate Seminar in Legal Research & Methodology

b) An additional five half-courses in the areas of natural resources, energy or environmental law or in a related area or from a related discipline with the approval of the Graduate Coordinator. At least two of the five additional courses must be at the 600-level and at least two of them must have research paper evaluations. One of the additional courses may be Law 705, the Graduate Seminar in Legal Theory.

c) A major research paper, approximately 50 to 60 pages (15,000 – 18,000 words) in length, prepared under the supervision of a Faculty member or other suitable person appointed by the Graduate Coordinator and evaluated on a Pass/Fail basis.

Post Graduate Certificate Program
The completion of four courses in the area of natural resources, energy or environmental law or a related area, including at least one with a research paper evaluation and including at least two at the 600-level. All courses require the approval of the Graduate Coordinator. This program is still pending approval.

6. Additional Requirements
None.

7. Credit for Undergraduate Courses
Not applicable.

8. Time Limit
a) All requirements for the thesis-based LLM degree must be completed within three calendar years of initial registration.
b) All requirements for the course-based LLM degree must be completed within five years of initial registration. It is expected that full-time students will complete the program in one calendar year.
c) All requirements for the Post Graduate Certificate program must be completed within three calendar years of initial registration.

9. Supervisory Assignments
Contact the Faculty of Law Graduate Coordinator for information.

10. Required Examinations
Thesis oral examinations are open.

11. Research Proposal Requirements
The proposal submitted at the time of application must be in the area of natural resources, energy or environmental law.

12. Special Registration Information
None.

13. Financial Assistance
Financial assistance may be available to qualified students, although funding for course-based LLM and Post Graduate Certificate students will very rarely be provided. For information on awards, see the Awards and Financial Assistance section of this calendar or the Faculty of Law Calendar or website.

Students applying for scholarships must submit their scholarship applications to the Faculty of Law by the deadlines for completed admission applications.

14. Other Information
Attaining an LLM degree without a Canadian LLB degree will not qualify graduates to practice law in Canada. Inquiries on this issue must be addressed to the appropriate provincial governing body for the legal profession. In Alberta, contact the Law Society of Alberta.

15. Faculty Members/Research Interests
The active research interests of members of the Faculty of Law and the affiliated Canadian Institute of Resources Law (CIRL) can be found on the Faculty of Law website at http://www.law.ucalgary.ca

Graduate Courses

Law 601
Advanced Criminal Law
In depth examination of selected areas of criminal law with an emphasis on substantive issues. Topics may include: double jeopardy, police entrapment, conspiracy, corporate crime, theft and related offences, impaired driving and breathalyzer offences, plea negotiations, ethical aspects of practicing criminal law, mistake of law as a defence, juveniles and the criminal process. Reference is made to special evidential and procedural problems associated with the chosen topics.
Prerequisite: Law 511 or consent of the Faculty.

Law 603
Advanced Labour Law
Examines the process of resolving disputes arising out of the interpretation and application of collective agreements by way of grievance and arbitration procedures. Topics include pre-arbitration procedures, arbitrability, the arbitration tribunal and hearing, arbitral remedies, and the enforcement and judicial review of arbitration awards. Selected issues in grievance determination will be studied such as discipline, discharge, seniority, promotion, work assignment, contracting out, technology change and management rights.
Prerequisite: Law 517 or consent of the Faculty.

Law 605
Advanced Oil and Gas Law
Selected problems in oil and gas law including special industry contractual problems (farm out, joint operating and royalty agreements), and legislative and regulatory issues. In dealing with the latter, emphasis is laid upon the law and practice of the Alberta Department of Energy and Natural Resources, the Federal Department of Energy, Mines and Resources, the E.P.C.B., the Public Utilities Board and the N.E.B.
Prerequisite: Law 523 or consent of the Faculty.

Law 607
Advanced Legal Research
Advanced legal research including recent developments in technological and electronic legal research. The emphasis is on advanced legal research skills required for successful legal practice.

Law 609
Canadian Legal History
Selected topics in the history of the development of law and legal institutions in Canada, with particular reference to the Northwest Territories and the early legal history of Alberta. Topics are chosen to reflect the interests of the students, and course work includes research in the original court records.

Law 613
Conflict of Laws
An examination of the doctrines and rules governing the disposition of legal disputes which cut across provincial or national boundaries. Topics covered include jurisdiction, distinctions between substantive and procedural rules, the recognition and enforcement of foreign judgments, domicile, proof of foreign law and the choice of law rules relating to areas of private law - torts, contracts, property, succession and family law.

Law 619
Estate Planning
The elements of estate planning including: the use of trusts; the transfer of interests in businesses; planning for spouses, farmers, and disabled people. The impact of the Income Tax Act on estate planning will be considered.
Prerequisite: Law 527 or consent of the Faculty.

Law 629
Trial Evidence and Procedure
An examination of the particular problems and requirements of litigation with the focus on the trial and criminal law evidence; topics will include relevance; character evidence; self-serving evidence; the trial structure; witnesses and experts; examination-in-chief and cross-examination; documentary evidence; views; verdicts and judgments; costs and appeals.

Law 633
Advanced Contracts and Torts
An examination of the appropriate province of the law of contract and the law of tort, with special emphasis upon the historical development of contractual and tortious liability, the availability of contractual and tortious claims arising out of pre-contractual negotiations; the possibility of concurrent or alternative liability in contract and tort arising out of the performance of a contract; the advantages or disadvantages, and the effects, of claiming in contract or tort; and the encroachment of tort upon contract’s preserve.

**GRADUATE DEGREE PROGRAMS & COURSES**

**Law 635: Aboriginal Law**
A survey of issues in aboriginal law; topics include: law of aboriginal societies and recognition of aboriginal custom; self-determination and other applicable principles of international law; self-government; common law recognition of aboriginal title; treaties; the fiduciary duty of the Crown; constitutional encroachment of aboriginal and treaty rights; application of provincial law: Indian Act, land surrenders and exemptions from seizure and taxation; aboriginal justice systems.

**Law 637: Energy Law**
Selected legal issues related to the energy industry, including the stages of research and exploration, development and production, transportation, marketing and consumption. Emphasis is on the relevant fiscal systems and regulatory processes, particularly in the national and international context.

**Law 639: Trial Advocacy**
Simulated trial practice using various substantive law fields; discoveries and pre-trial settlement negotiations; supervised preparation of all trial documentation; filing requirements for trial; concludes with full trial moot.

**Note:** This course is graded CR, D or F.

**Law 643: Law and Contemporary Problems**
The impact of a variety of contemporary issues upon the law and legal institutions; law reform and the development of new legal structures to accommodate change in society.

**MAY BE REPEATED FOR CREDIT**

**Law 649: Law and Contemporary Problems**
The impact of a variety of contemporary issues upon the law and legal institutions; law reform and the development of new legal structures to accommodate change in society.

**MAY BE REPEATED FOR CREDIT**

**Law 651: Directed Research I**
A supervised research project involving the in-depth examination of a legal problem or area of concern not normally covered in a substantive or procedural course and which provides the basis for an article, research paper, brief, memorial, draft legislation, etc. Admission to this course depends on the availability of a Faculty member to supervise the particular projects.

**Prerequisite:** Consent of the Faculty.

**MAY BE REPEATED FOR CREDIT**

**Law 653: Directed Research II**
A supervised research project involving the in-depth examination of a legal problem or area of concern not normally covered in a substantive or procedural course and which provides the basis for an article, research paper, brief, memorial, draft legislation, etc. Admission to this course depends on the availability of a Faculty member to supervise the particular projects.

**Prerequisite:** Consent of the Faculty.

**MAY BE REPEATED FOR CREDIT**

**Law 655: The Legal Profession and Ethics**
The Canadian legal profession from sociological and legal perspectives, focusing on the roles lawyers play in our legal system. Conflicts between and among those roles, and conflicts between ‘official ethics’ and broader ethical values are explored.

**Law 657: Law and Medicine**
The focus is on legal aspects of frontier developments in medical practice including professional confidentiality, birth technology, prolongation of life, human experimentation, mental illness, determination of competency and fitness to stand trial, transplantation, genetics, rights of the unborn child and sterilization. The seminar format will involve a number of practitioners from both Law and Medicine.

**Law 659: Corporate Finance and Securities**
The financing of business entities, and their reorganization; particular emphasis on securities regulation.

**Prerequisites:** Law 509 and 535 or consent of the Faculty.

**Law 661: Advanced Business Transactions**
Selected topics relating to mergers and acquisitions, including the structure and regulation of take-over bids and plan of arrangement transactions.

**Law 663: Dispute Resolution**
Various dispute resolution processes and the role of lawyers. The focus is on mediation and arbitration, but hybrid processes (mediation/arbitration and mini-trials both private and judicial), pre-trial conferences, and the design of dispute resolution systems (preventative lawyering) are included. The seminar addresses ‘how’ and also ‘what’ is being done in dispute resolution. Political, social, and cultural dimensions of dispute resolution, and particularly mediation, will be introduced. Role playing and simulations will be used.

**Prerequisite:** Law 501 or consent of the Faculty.

**Law 665: International Trade Law**
The public law framework for international trade. Emphasis will be placed on the FTA, NAFTA, and GATT. Topics to be covered include basic principles of international trade law, anti-dumping and countrerval actions, and dispute resolution.

**Law 667: Advanced Constitutional Law**
Selected topics in constitutional law. Course content will vary, but will cover fundamental principles represented by sections 1, 7, 15, 24, and 52 of the Constitution Act, 1982.

**Law 669: Mooting and Clinical Studies**
Preparation for and participation in approved external competitive moots including the Gale Cup Moot and the Alberta Challenge Moot or participation in an approved clinical experience in an area not otherwise the subject of a clinical course.

**Prerequisite:** Consent of the Faculty.

**MAY BE REPEATED FOR CREDIT**

**Law 671: Advanced Environmental Law**
Selected topics in Environmental Law. Topics to be covered may include the law and practice of environmental impact assessment; the law of protected areas and protected species; sustainable development; biodiversity; global warming; command and control regulations vs. market based emissions control measures.

**Prerequisite:** Law 531.

**Law 673: Feminist Legal Theory**
A critical inquiry into the nature and function of law from a variety of different perspectives within feminist legal theory; the role of rights and of legal discourse, and the possibilities and limitations of law as a strategy for social transformation.

**Law 675: Jessup Moot**
Preparation for and participation in the Philip C. Jessup International Law Moot Court Competition.

**Prerequisite:** Consent of the Faculty.

**Law 677: Western Canada Trial Competition**
Preparation for and participation in the Western Canada Trial Competition.

**Prerequisite:** Consent of the Faculty.

**Law 679: Current Legal Problems**
The impact of a variety of contemporary issues upon the law and legal institutions; law reform and the development of new legal structures to accommodate change in society.

**MAY BE REPEATED FOR CREDIT**

**Law 681: Advanced Family Law**
Selected topic in Family Law such as division of pensions, international family law and the law relating to children (including regulatory aspects e.g. Child Welfare). Current developments in law reform and social policy change will be addressed. Short placements may be offered.

**Prerequisite:** Law 515 or consent of the Faculty.

### 3. Application Deadline

Students applying for university scholarships must submit their applications to the department by 1 February. All applications submitted by the university scholarship deadline will also receive full consideration for department scholarships and assistantships. We accept applications throughout the year. However, only applications received by 1 July will normally be considered for September admission, and financial support may be limited for applications received after 1 February. We strongly encourage individuals to apply as soon as possible.

### 4. Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

### 5. Program/Course Requirements

In addition to the Faculty requirements, the Department requires: Master of Arts  

- a) A departmental presentation relating to the student’s thesis research. Continuation in program is dependent upon this presentation being judged acceptable by the faculty members of the Linguistics Department.
- b) A minimum of six half-course equivalents, including Linguistics 611, 613 and Linguistics 697.
- c) Linguistics 600.
- d) A demonstrated knowledge of a language other than English. This requirement can be met in the following ways:
  - Having received credit for one full course equivalent in a language other than English at the undergraduate level.
  - Demonstrating a native or near native ability in a language other than English.
  - Demonstrating a strong reading knowledge of a language other than English.

Doctor of Philosophy

- a) Completion of four half-course equivalents in Linguistics beyond the MA, including Linguistics 711 and Linguistics 713. Course requirements are normally completed during the first two years.
- b) Linguistics 600.
- c) A reading knowledge of a commonly used world language. Acceptable languages for the reading language requirement are those in which a significant body of writing pertaining to theoretical linguistics exists. Such languages include, but are not limited to French, German, Russian, Chinese, and Japanese. This requirement can be met in the following ways:
  - Successful completion of at least one full-course equivalent at the senior level in the language.
satisfactory performance in an examination
given within this Department or evidence of
past schooling in which this was the language of
instruction.

- A working knowledge of a second language. Acceptable languages for the working knowledge requirement include all non-Indo-European languages and all lesser studied Indo-European languages. This requirement can be met in the following ways: *

- successful completion of a graduate level
course on the structure of the language;
- successful completion of at least one full-
course equivalent at the senior level in the
language;
- a demonstrated ability to conduct field work
with bilingual speakers of the language;
- satisfactory performance in an examination
given within this Department;
- evidence of past schooling in which a less
commonly used language was the language of
instruction.

- A working knowledge of statistics and
experimental design. This requirement can be met by passing one graduate-level half-course pre-approved by the department (for example, Psychology 615 or 617).*

*It is the responsibility of the student to supply
evidence that course work in a language and/or in
statistics and experimental design at another
university meets these requirements.

6. Additional Requirements
None.

7. Credit for Undergraduate Courses
At both the Master’s and the doctoral level, with the approval of the Graduate Coordinator and the Department Head, a student may take a maximum of two undergraduate half-course equivalents for credit. Normally, only 500-level courses are approved as acceptable, and students must provide evidence that such courses represent a necessary contribution to their program.

8. Time Limit
Expected completion time is two years for a Master’s degree and four years for a doctoral degree. Maximum completion time is four years for a Master’s degree and six years for a doctoral degree.

9. Supervisory Assignments

Master of Arts
A student is assigned an interim advisor (in most cases the Departmental Graduate Coordinator) when first registering in the program. Students must choose a thesis supervisor by the end of the second term of study (usually April). Selection of a supervisor should be by mutual agreement between the student and the faculty member concerned, in consultation with the Graduate Coordinator. It is normal practice for the student to approach an appropriate faculty member about thesis or program supervision, rather than vice versa. In cases where the student is unsure of how to select a supervisor, the help of the Graduate Coordinator, the Department Head, or another professor should be sought.

Doctor of Philosophy
Selection of a supervisor should be by mutual agreement between the student and the faculty member concerned, in consultation with the Graduate Coordinator.

Students are strongly advised to finalize their choice by the end of the second term of study, and must do so no later than the second annual registration. It is normal practice for the student to approach an appropriate faculty member about dissertation or program supervision, rather than vice versa. In cases where the student is unsure of how to select a supervisor, the help of the Graduate Coordinator, the Department Head, or another professor should be sought.

The supervisory committee should be constituted in consultation with the student and will normally consist of the supervisor and two members recommended by the Department Head, and approved by the Dean of Graduate Studies. One of the two members of this committee may be external to the department. It is desirable to have at least one committee member with supervisory experience at the doctoral level. The supervisory committee must be submitted to the Dean of Graduate Studies no later than three months after the appointment of the supervisor.

10. Required Examinations

Doctor of Philosophy
Doctoral candidacy examinations have a written and an oral component. The written candidacy examinations consist of two original research papers in different areas of linguistics that must be submitted no later than twenty-seven months after the first registration. Normally, one paper will be in the area of either syntax or phonology and a second in an area in which at least one faculty member in the department has expertise. An oral candidacy examination based on these papers and general knowledge of the relevant areas of research will take place no later than twenty-eight months after the first registration. Questions on the research proposal will not be included in the oral candidacy examination.

11. Research Proposal Requirements

Master of Arts
Students in the Master’s program must complete Linguistics 697.

Doctor of Philosophy
Students in the doctoral program must submit a written thesis proposal to their supervisory committee within twenty-eight months of the first registration, but not before the student has passed his/her oral candidacy examination. The body of the proposal (excluding bibliographic references) must not exceed ten pages in length.

12. Special Registration Information
None.

13. Financial Assistance
Financial assistance is normally available to qualified students. Funding is provided to full-time students only. Students are required to inform the department of any part-time employment. Failure to do so will result in revocation of departmental funding.

For information on awards, see the Awards and Financial Assistance section of this calendar. Students applying for scholarships must submit their applications to the Department by 1 February.

Students whose applications are complete by 1 February will automatically be considered by the Department for Graduate Research Scholarships and Graduate Assistantship support. In addition, college members of this Department may have special project funds for research assistantships.

Information on Departmental assistantships is available in the Department’s Graduate Handbook and on the Department’s Graduate Programs web page: http://ling.ucalgary.ca/graduate

14. Other Information

Students should consult the Departmental Graduate Handbook for further information and regulations governing the graduate program. Copies are available from the Department of Linguistics, SS 620; or may be downloaded from the Department’s graduate program web page: http://ling.ucalgary.ca/graduate

15. Faculty Members/Research Interests
Current faculty research interests can be found at http://ling.ucalgary.ca/graduate

Undergraduate Courses
Only where appropriate to a student’s program may graduate credit be received for courses numbered 500-599, which are undergraduate courses.

Graduate Courses
Admission to all 600-level courses is with the consent of the Department in addition to any other prerequisites that may be stated.

1. Degrees and Specializations Offered

Doctor of Philosophy (PhD)
Master of Science (MSc), course-based and thesis-based
Divisions: Applied Mathematics, Pure Mathematics and Statistics

2. Admission Requirements

In addition to Faculty requirements, the Department requires:

**Master of Science**

a) Normally, an Honours Bachelor’s degree, or its equivalent, in the subject of the division for which application is made

b) For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 600 (written test), 250 (computer-based test) or 100 (internet-based test); or minimum IELTS score of 7

**Doctor of Philosophy**

a) A Master’s degree or equivalent in the subject of the division to which application is made

b) For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 600 (written test) or 250 (computer-based test) or 100 (internet-based test); or minimum IELTS score of 7

c) Excellent students, admitted to the Master’s program, may be admitted after the first year to the PhD program with three completed half-courses with a 3.7 GPA and Divisional Graduate Committee approval. Such transfers are to be initiated by supervisors and are to include information about research ability.

3. Application Deadline

The deadline for submission of complete applications in 15 January for September admission. After this date, complete applications may be considered if space is available.

4. Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

5. Program/Course Requirements

In addition to Faculty requirements, the Department normally requires that:

Master of Science (thesis-based)

All students in Applied Mathematics, Pure Mathematics and Statistics take course work to the equivalent of an Honours Bachelor’s degree plus at least five half-course equivalents, or four half-course equivalents if completing program in one year (not counting the seminar course 621) at the graduate level. In addition:

a) Applied Mathematics students must include two of AMAT 605, AMAT 617, PMAT 607, PMAT 613 in their program; and, in each of the first two years of their program, the seminar course AMAT 621.

b) Pure Mathematics students must include two of AMAT 605, AMAT 617, PMAT 607, PMAT 613 in their program; and, in each of the first two years of their program, the seminar course PMAT 621.

c) Statistics students must include any three of STAT 701, STAT 703, STAT 721, STAT 723; and, in each of the first three years of their program, the seminar course STAT 621.

6. Additional Requirements

All MSc graduate students are required to register in one of the Seminar courses AMAT 621, PMAT 621, or STAT 621 in each of the first two years of their programs.

All PhD students are required to register in one of the Seminar courses AMAT 621, PMAT 621, or STAT 621 in each of the first three years of their programs.

The Seminar courses are not counted in the calculation of the number of required half-courses in each program.

7. Credit for Undergraduate Courses

Credit may be given for courses taken below the 600-level. At least one half of a graduate student’s course work must be at the 600-level or higher and only where appropriate to a student’s program may credit be given for courses numbered 500–599.

8. Time Limit

Expected completion time for full-time Master’s students is two years. The maximum completion time allowed for a thesis-based Master’s program is four years, and for a course-based Master’s program is six years. The expected completion time for a doctoral student is four years, and the maximum completion time is six years.

9. Supervisory Assignments

The Director of Graduate Studies, Department of Mathematics and Statistics assigns supervisors based upon the graduate student’s proposed program.
10. Required Examinations
Course-based Master’s students must pass an oral examination on the written report and within three months of the completion of all course-based requirements.

Doctoral students must pass written Preliminary Examinations during first year but no later than sixteen months from the beginning of their doctoral programs and before the oral candidacy examination.

Final thesis oral examinations are open.

Further details about the written and oral examinations may be obtained from the Department website: http://math.ucalgary.ca/gradstudies/programs

11. Research Proposal Requirements
At least three months before a PhD Oral Candidacy Examination, a research proposal (prepared by student and supervisor) will be submitted to the student’s Supervisory Committee. The Committee will inform the student of the material (topics, books, articles, etc) to be mastered for the Oral Candidacy Examination. The material will be based upon the proposal, and will be agreed upon with the student.

12. Special Registration Information
None.

13. Financial Assistance
Details for financial assistance can be obtained from the Department website: http://math.ucalgary.ca/student-finances.

Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships must submit their applications to the Department by 15 January.

14. Other Information
None.

15. Faculty Members/Research Interests
Information about current faculty and their research interests is available from the Department website: http://math.ucalgary.ca/gradstudies/research

Applied Mathematics (AMAT)

Undergraduate Courses
Only where appropriate to a student’s program may graduate credit be received for courses numbered 500-599, which are undergraduate courses.

Applied Mathematics 501 H(3-0)
Seminar in Applied Mathematics
Topics will be chosen according to the interests of instructors and students and could include analysis of optimization algorithms, approximation theory, control theory, differential equations, mathematical physics.
Prerequisite: Consent of the Division.
MAY BE REPEATED FOR CREDIT

Applied Mathematics 503 H(3-1T)
The Mathematics of Waves, Signal and Image Processing
Continuous and discrete Fourier transforms, the Fast Fourier Transform, wavelet transforms, multiresolution analysis and orthogonal wavelet bases, and applications.
Prerequisite: Applied Mathematics 491 or Computer Science 491.

Applied Mathematics 505 H(3-0)
Calculus on Manifolds
Integral and differential calculus on manifolds including tensor fields, covariant differentiation, Lie differentiation, differential forms, Frobenius’ theorem, Stokes’ theorem, flows of vector fields.
Prerequisites: Pure Mathematics 445 or 545; and one of Applied Mathematics 311 or 307; or consent of the Division.

Applied Mathematics 507 H(3-0)
Introduction to Relativity Theory
Prerequisites: Applied Mathematics 505 or consent of the Division.

Applied Mathematics 509 H(3-0)
Analytical Dynamics
Symplectic geometry, Hamilton’s equation, Hamilton-Jacobi theory, constraints and reduction.
Prerequisites: Applied Mathematics 505 or consent of the Division.

Applied Mathematics 581 H(3-0)
Advanced Futures and Options
Stochastic calculus and the dynamics of asset prices, martingale theory and risk-neutral valuation, interest rate models, energy and commodity markets, value-at-risk and risk management.
Prerequisites: Applied Mathematics 483 and Statistics 407.

Graduate Courses
In addition to the prerequisites listed below, consent of the Applied Mathematics Division is a prerequisite for all graduate courses in Applied Mathematics.

Applied Mathematics 601 H(3-0)
Topics in Applied Mathematics
Topics will be chosen according to the interests of instructors and students.
Prerequisite: Consent of the Division.
MAY BE REPEATED FOR CREDIT

Applied Mathematics 605 H(3-0)
Differential Equations III
Prerequisites: Applied Mathematics 411 and Pure Mathematics 445 or 545 or equivalents.

Applied Mathematics 613 H(3-0)
Partial Differential Equations II
Fundamental solutions, integral equations, eigenvalue problems, non-linear problems.
Prerequisite: Consent of the Division.

Applied Mathematics 617 H(3-0)
(Formerly Pure Mathematics 617)
Analysis IV
Analysis in abstract spaces. Function spaces.
Prerequisite: Pure Mathematics 545.

Applied Mathematics 621 Q(2S-0)
Research Seminar
Reports on studies of the literature or of current research.
Note: All graduate students in Mathematics and Statistics are required to participate in one of Applied Mathematics 621, Pure Mathematics 621, Statistics 621 each semester.
MAY BE REPEATED FOR CREDIT
NOT INCLUDED IN GPA

Applied Mathematics 643 H(3-0)
Perturbation Theory
Perturbation problems for ordinary differential equations, matrices and more general operators. Applications. Methods will be motivated by discussion of physical problems.
Prerequisite: Familiarity with complex variables, linear algebra and differential equations.

Applied Mathematics 671 H(3-0)
Numerical Linear Algebra
Iterative and elimination methods for linear systems of equations, determination of eigenvalues, linear and convex programming.
Prerequisites: Applied Mathematics 441 or Mathematics 411; and Applied Mathematics 491.

Applied Mathematics 673 H(3-0)
Approximation Theory
Existence, uniqueness of minimal solutions, Haar systems, characterization by alternation. Remes algorithm, monotone operators, spline approximation.
Prerequisites: Applied Mathematics 491; and Pure Mathematics 435 or 455.

Applied Mathematics 677 H(3-0)
Numerical Solution of Partial Differential Equations
Explicit and implicit methods for PDE, difference equations.
Prerequisites: Applied Mathematics 311 and 491.

In addition to the numbered and titled courses shown above, the department offers a selection of advanced level graduate courses specifically designed to meet the needs of individuals or small groups of students at the advanced doctoral level. These courses are numbered in the series 800.01 to 899.99. Such offerings are, of course, conditional upon the availability of staff resources.
GRADUATE DEGREE PROGRAMS & COURSES

Pure Mathematics (PMAT)

Undergraduate Courses
Only where appropriate to a student's program may graduate credit be received for courses numbered 500-599, which are undergraduate courses.

Pure Mathematics 501  H(3-0)
Integration Theory
Abstract measure theory, basic integration theorems, Fubini's theorem, Radon-Nikodym theorem, further topics.
Prerequisite: Pure Mathematics 545 or consent of the Division.
Note: Credit for both Pure Mathematics 501 and 601 will not be allowed.

Pure Mathematics 503  H(3-0)
Topics in Pure Mathematics
This course is offered under various subtitles. Consult Department for details.
Prerequisite: Consent of the Division.
MAY BE REPEATED FOR CREDIT

Pure Mathematics 505  H(3-0)
Toplogy I
Metric spaces. Introduction to general topology.
Prerequisite: Pure Mathematics 435 or 455 or consent of the Division.

Pure Mathematics 511  H(3-0)
Rings and Modules
Ring theory, and structure of modules. Application to Abelian groups and linear algebra. Additional topics.
Prerequisite: Pure Mathematics 431 or Mathematics 411 or consent of the Division.
Note: Credit for both Pure Mathematics 511 and 611 will not be allowed.

Pure Mathematics 521  H(3-0)
Complex Analysis
Prerequisite: Pure Mathematics 435 or 455 or consent of the Division.

Pure Mathematics 529  H(3-0)
Advanced Cryptography and Cryptanalysis
Probability and perfect secrecy. Provably secure cryptosystems. Prime generation and primality testing. Cryptanalysis of factoring-based cryptosystems. Discrete log based and elliptic curve cryptography and cryptanalysis. Other advanced topics may include hyperelliptic curve cryptography, other factoring methods and other primality tests.
Prerequisites: Pure Mathematics 429.

Pure Mathematics 545  H(3-0)
Honours Real Analysis II
Sequences and series of functions; theory of Fourier analysis, functions of several variables; Inverse and Implicit Functions and Rank Theorems, integration of differential forms, Stokes' Theorem, Measure and Lebesgue integration.
Prerequisite: Mathematics 455, or a grade of B+ or better in Pure Mathematics 445.

Graduate Courses
In addition to the prerequisites listed below, consent of the Pure Mathematics Division is a prerequisite for all Graduate Courses in Pure Mathematics.

Pure Mathematics 601  H(3-0)
Integration Theory
Abstract measure theory, basic integration theorems, Fubini's theorem, Radon-Nikodym theorem, further topics.
Prerequisite: Pure Mathematics 545 or consent of the Division.
Note: Credit for both Pure Mathematics 601 and 501 will not be allowed.
Note: Lectures may run concurrently with Pure Mathematics 551.

Pure Mathematics 603  H(3-0)
Conference Course in Pure Mathematics
This course is offered under various subtitles. Consult Department for details.
MAY BE REPEATED FOR CREDIT

Pure Mathematics 607  H(3-0)
Toplogy II
General topology, elementary combinatorial topology.
Prerequisite: Pure Mathematics 505 or consent of the Division.

Pure Mathematics 611  H(3-0)
Rings and Modules
Ring theory, and structure of modules. Application to Abelian groups and linear algebra. Additional topics.
Prerequisite: Pure Mathematics 431 or Mathematics 411 or consent of the Division.
Note: Lectures may run concurrently with Pure Mathematics 511.

Pure Mathematics 613  H(3-0)
Introduction to Field Theory
Field theory, Galois theory.
Prerequisite: Pure Mathematics 431 or consent of the Division.

Pure Mathematics 615  H(3-0)
Topics in Logic
MAY BE REPEATED FOR CREDIT

Pure Mathematics 621  Q(2S-0)
Research Seminar
Reports on studies of the literature or of current research.
Note: All graduate students in Mathematics and Statistics are required to participate in one of Applied Mathematics 621, Pure Mathematics 621, Statistics 621 each semester.
MAY BE REPEATED FOR CREDIT
NOT INCLUDED IN GPA

Pure Mathematics 627  H(3-0)
Topics in Computational Number Theory
Examines some difficult problems in number theory and discusses a few of the computational techniques that have been developed for solving them. Such problems include: modular exponentiation, primality testing, integer factoring, solution of polynomial congruences, quadratic partitions or primes, invariant computation in certain algebraic number fields, etc. Emphasis will be placed on practical techniques and their computational complexity.
Prerequisite: Pure Mathematics 427 or consent of the Division.

Pure Mathematics 629  H(3-0)
Elliptic Curves and Cryptography
An introduction to elliptic curves over the rationals and finite fields. The focus is on both theoretical and computational aspects; subjects covered will include the study of endomorphism rings. Weil pairing, torsion points, group structure, and efficient implementation of point addition. Applications to cryptography will be discussed, including elliptic curve-based Diffie-Hellman key exchange, El Gamal encryption, and digital signatures, as well as the associated computational problems on which their security is based.
Prerequisite: Pure Mathematics 315 or consent of the Division.

Pure Mathematics 631  H(3-0)
Algebraic Topology I

Pure Mathematics 633  H(3-0)
Algebraic Topology II
Cohomology operations, CW-complexes, introduction to homotopy theory.

Pure Mathematics 669  H(3-0)
(Coordinate Science 669)
Cryptography
An introduction to the fundamentals of cryptographic systems, with emphasis on attaining well-defined notions of security. Public-key cryptosystems; examples, semantic security. One-way and trapdoor functions; hard-core predicates of functions; applications to the design of cryptosystems.
Prerequisite: Consent of the Division.
Note: Computer Science 413 and Mathematics 321 are recommended as preparation for this course.

Pure Mathematics 685  H(3-0)
Topics in Algebra
The following topics are available as decilized courses: Algebraic Number Theory, Algebraic K-Theory, Algebraic Geometry, Representation Theory, Abelian Group Theory, Brauer Group Theory, Homological Algebra, Ring Theory, Associative Algebras, Commutative Algebra, Universal Algebra.
MAY BE REPEATED FOR CREDIT

Pure Mathematics 727  H(3-0)
Advanced Topics in Computational Number Theory
Depending on student demand and interests this could cover topics concerning efficient computation in various number theoretic structures such as number rings, finite fields, algebraic number fields and algebraic curves.
Graduate Degree Programs & Courses

Pure Mathematics 729  H(3-0)

Advanced Topics in Cryptography
Depending on student demand and interests this could cover topics in cryptography developed in diverse mathematical structures such as: finite fields, lattices, algebraic number fields and algebraic curves.

In addition to the numbered and titled courses shown above, the department offers a selection of advanced level graduate courses specifically designed to meet the needs of individuals or small groups of students at the advanced doctoral level. These courses are numbered in the series 800.01 to 899.99. Such offerings are, of course, conditional upon the availability of staff resources.

Statistics (STAT)

Undergraduate Courses
Only where appropriate to a student’s program will graduate credit be received for courses numbered 500-599.

Some 500- and 600-level statistics courses may have concurrent lectures. Extra work in these courses (e.g., extra assignments, advanced examination questions, a term project) will be required for credit at the 600-level.

Statistics 505  H(3-1T)

Time Series Analysis
Trend fitting, auto-regressive schemes, moving average models, periodograms, second-order stationary processes, ARCH models, statistical software for time series. Additional topics may include Bayesian analysis, spectral theory, Kalman filtering.

Prerequisite: Statistics 429 or consent of the Division.

Statistics 509  H(3-0)

Operations Research
Topics selected from: decision analysis, linear programming, dynamic programming, integer programming, probabilistic models of queues and inventories, project scheduling, systems reliability.

Prerequisite: Mathematics 323 or consent of the Division.

Note: Credit for both Statistics 509 and Actuarial Science 435 will not be allowed.

Statistics 517  H(3-1)

Practice of Statistics

Prerequisite: Statistics 429 or consent of the Division.

Note: Not open to students with Statistics 513 or 515.

Note: Prior or concurrent completion of Statistics 429 is strongly recommended.

Statistics 519  H(3-0)

Bayesian Statistics
Fundamentals of Bayesian inference, single and multiparameter models, hierarchical models, regression models, generalized linear models, advanced computational methods, Markov chain Monte Carlo.

Prerequisites: Mathematics 323 and 353 or consent of the Division.

Note: Statistics 421 is highly recommended as preparation.

Statistics 523  H(3-0)

Nonparametric Statistics

Prerequisites: Mathematics 323 and 353 or consent of the Division.

Note: May not be offered every year. Consult the department for listings.

Statistics 525  H(3-0)

Multivariate Analysis

Prerequisite: Statistics 421 or consent of the Division.

Note: May not be offered every year. Consult the department for listings.

Statistics 529  H(3-1)

Special Topics in Applied Statistics
Content of the course will vary from year to year. Consult the Statistics Division for information on choice of topics.

Prerequisite: Consent of the Division.

MAY BE REPEATED FOR CREDIT

Statistics 531  H(3-1)

Monte Carlo Methods and Statistical Computing

Prerequisite: Mathematics 323 or consent of the Division.

Note: Statistics 421 is highly recommended as preparation.

Graduate Courses
In addition to the prerequisites listed below, consent of the Statistics Division is a prerequisite for all graduate Courses in Statistics.

Note: Some 500- and 600-level statistics courses may have concurrent lectures. Extra work in these courses (e.g., extra assignments, advanced examination questions, a term project) will be required for credit at the 600 level.

Students are urged to make their decisions as early as possible as to which Graduate Courses they wish to take, since not all these courses will be offered in any given year.

Graduate Courses

Statistics 601  H(3-0)

Topics in Probability and Statistics
The content of this course is decided from year to year in accordance with graduate student interest and instructor availability. Topics include but are not restricted to: Advanced Design of Experiments, Weak and Strong Approximation Theory, Asymptotic Statistical Methods, the Bootstrap and its Applications, Generalized Additive Models, Order Statistics and their Applications, Robust Statistics, Statistics for Spatial Data, Statistical Process Control, Time Series Models.

MAY BE REPEATED FOR CREDIT

Statistics 603  H(3-1)
(formerly Statistics 601.14)

Applied Statistics for Nursing Research
Descriptive statistics; probability theory; statistical estimation and inference; power analysis; regression analysis; anova; logistic regression analysis; nonparametric tests; factor analysis; discriminant analysis; Cox’s Proportional Hazard Model.

Statistics 619  H(3-0)

Bayesian Statistics
Fundamentals of Bayesian inference, single and multiparameter models, hierarchical models, regression models, generalized linear models, advanced computational methods, Markov chain Monte Carlo.

Note: Lectures may run concurrently with Statistics 519.

Statistics 621  Q(2S-0)

Research Seminar
Reports on studies of the literature or of current research.

Note: All graduate students in Mathematics and Statistics are required to participate in one of Applied Mathematics 621, Pure Mathematics 621, Statistics 621 each semester.

MAY BE REPEATED FOR CREDIT

NOT INCLUDED IN GPA

Statistics 625  H(3-0)

Multivariate Analysis

Prerequisite: Lectures may run concurrently with Statistics 525.

Statistics 633  H(3-0)

Survival Models
Advanced topics in survival models such as the product limit estimator, the cox proportional hazards model, time-dependent covariates, types of censorship.

Statistics 635  H(3-0)

Generalized Linear Models
Exponential family of distributions, binary data models, loglinear models, overdispersion, quasi-likelihood methods, generalized additive models, longitudinal data and generalized estimating equations, model adequacy checks.

Statistics 637  H(3-0)

Nonlinear Regression
Topics include but are not restricted to selections from: linear approximations; model specification; various iterative techniques; assessing fit; multiresponse parameter estimation; models defined by systems of DEs; graphical summaries of inference regions; curvature measures.
Students in the Faculty of Medicine or the Departments of Anthropology and Archaeology may choose an interdisciplinary specialization in Biological Anthropology. For further information on the Biological Anthropology (Interdisciplinary) specialization, see the separate listing in this Calendar.

Combined MD/MSc and MD/PhD programs are offered under the title “Leaders in Medicine.”

The Universities of Calgary and Alberta offer a joint Biomedical Engineering Program. Further information can be obtained at the website [http://www.eng.ucalgary.ca/Biomedical/](http://www.eng.ucalgary.ca/Biomedical/).

2. Admission Requirements

In addition to Faculty requirements, the Medical Science Graduate Program requires:

a) A minimum admission grade point average of 3.20 on a four point scale, or equivalent

b) For applicants required to provide proof of proficiency in the English language, a minimum TOEFL score of 600 (paper based test), 250 (computer-based test) or 100 (internet-based test); specializations may have additional requirements

c) For admission to the Master of Science program with a specialization in surgery, prior admission to the surgery residency program is required. Students will normally apply to the Master of Science program in the third year of the surgery residency program. For admission to the Surgeon Scientist Program prior admission to the Medical Science Graduate Program is required.

3. Application Deadline

Students in thesis-based programs may be admitted for September, January, May, or July. Contact the Medical Science Graduate Program office for general application deadlines.

Students applying to the MD/MSc or MD/PhD program must apply individually to each program and complete a supplementary application for the Leaders in Medicine Program.

4. Advanced Credit

Advanced credit is not normally given in a thesis-based program.

5. Program/Course Requirements

In addition to Faculty requirements, the Department requires:

**Master of Science**

a) A minimum of two half-courses

b) Regular attendance and presentation at a journal club and a final seminar which precedes the thesis defence, although specific training programs may have additional requirements

**Doctor of Philosophy**

a) A minimum of three half-courses

b) Regular attendance and presentation at a journal club and a final seminar which precedes the thesis defence, although specific training programs may have additional requirements

6. Additional Requirements

Attendance at a one half-day Research Integrity Day seminar during their program. Students must attend this seminar before they are approved to defend their thesis.

7. Credit for Undergraduate Courses

Graduate credit may be given for 500-level courses. No more than one half-course of credit will be allowed in a two half-course program (e.g., if a 500-level full-course is taken, only one half-course credit is allowed toward the completion of program course requirements.)

8. Time Limit

Average completion time for students in the MSc program is 2.5 years, 4.5 years in the PhD program. Maximum completion time is four years in the MSc program and six years in the PhD program.

**Leaders in Medicine** - Expected completion time is four to five years in the MD/MSc program, six to seven years in the MD/PhD program. Maximum completion time is six years for the MD/MSc program and eight years for the MD/PhD program.

9. Supervisory Assignments

Students in thesis-based programs have identified a supervisor at the time of admission. In consultation with their supervisors, students must select a supervisory committee consisting of their supervisor plus two other faculty members (MSc) or three other faculty members (PhD) within three to six months of initial registration (depending on specialization). The Graduate Coordinator must approve the composition of the supervisory committee. Specializations may have additional requirements.

Master of Science students in the Leaders in Medicine program must have a supervisory committee constituted according to the regulations of the graduate program. Both MSc and PhD students will also be evaluated and advised by a Joint Liaison Committee composed of the Associate Dean (Graduate Sciences Education), Associate Dean (Undergraduate Medical Education), and the Director of Admissions and Student Affairs of the Faculty of Medicine.

10. Required Examinations

The doctoral candidacy examination has a written and an oral component. The written component must be completed before the oral component. Both the written and oral components must be acceptable to the candidacy committee in order to receive a passing grade. Questions on the research proposal will not be included in the oral candidacy examination. Exactly four weeks before the scheduled examination, the student will be given four questions. The student must prepare written papers for each of the four questions and submit a copy of each of the papers to each examiner one week before the oral exam. Each paper should not exceed 20 double-spaced pages. The supervisor is a non-voting observer at the doctoral candidacy oral examination.

11. Research Proposal Requirements

The student must present a written research proposal to the supervisory committee no later than twelve months after initial registration. The proposal, with an approval form signed by all members of the supervisory committee, must be sent to the Medical Science office to be placed in the student’s file.

12. Special Registration Information

None.
### Undergraduate Courses
Only where appropriate to a student’s program may graduate credit be received for courses numbered 500-599, which are considered undergraduate courses.

**Medical Science 604**  
*F*(3-3)  
**Integrative Human Physiology**  
Physiology is the study of how living organisms function and encompasses the integration of processes from molecules to the whole organism. Designed to provide the student with fundamental principles and concepts about the normal function of the major human organ systems. At the end of this course, the student should be well equipped to apply his/her acquired knowledge to solve complex physiological problems related to integrative human physiology.  
**Prerequisite:** Consent of the Faculty.  
**Note:** Lectures run concurrently with Medical Science 404.

**Medical Science 605**  
*H*(3-0)  
*(Computer Science 605)*  
**Information Storage and Processing in Biological Systems**  
Examination of complex biological systems; concepts and fundamentals of biological solutions to information storage and processing; modelling and computer simulation of biological systems; information storage in biological molecules; genetic networks; hierarchical organization of biological information processing in signal transduction, development, evolution, and ecology; biological control systems.  
**Prerequisite:** Consent of the Faculty.

**Medical Science 609**  
*H*(3-0)  
**Gene Expression**  
The flow of genetic information from DNA to final protein product. The subject will be covered in two courses offered in alternating years: gene structure and regulation of transcription, including gene structure and organization, chromatin structure, regulation of transcription and post-translational processing; and the activity of genes during development including stored messenger ribonucleoprotein particles and translational control in gametes, the switch from maternal to zygote genome control of development in early embryos and the molecular basis of morpogenesis and differentiation.  
609.02. Genes and Development  
**Prerequisite:** Medical Science 537 (Biochemistry 537) or equivalent and consent of the Faculty.  
**Note:** Credit for both Medical Science 609.01 and 609.02 will not be allowed.  
**Note:** Credit for both Medical Science 609.02 and 751.14 will not be allowed.

**Medical Science 612**  
*F*(3-15)  
**Medical Microbiology**  
The basic principles of medical microbiology and the pathogenesis of infectious disease and of clinically important microbial pathogens including bacteria, viruses, parasites and fungi. Recent concepts will be described and students will be expected to present and critically discuss research advances of their choosing from the current research literature.  
**Prerequisites:** Cellular, Molecular and Microbial Biology 241 and 343 or equivalent or consent of the Faculty.

**Medical Science 613**  
*H*(3-0)  
**Advanced Studies in Microbiology**  
Specialized topics including basic principles of infection; spread; prevention and control of infectious diseases; mechanisms of and approaches to study bacterial pathogenesis; mechanism, methodology and modelling of gene expression.  
613.01. Epidemiology of Infectious Diseases  
613.02. Pathogenesis of Microbial Disease  
613.05. Regulation of Gene Expression in Bacteria  
**Prerequisite:** Medical Science 612 or Cellular, Molecular and Microbial Biology 421 or 521 or consent of the Faculty.

**Medical Science 619**  
*H*(3-0)  
**Neurosciences**  
Introductory neuroscience courses covering aspects of cellular, molecular, and systems physiology, neuroanatomy, and neurodevelopment.  
619.01. Cellular and Molecular Neuroscience  
619.02. Systems Neuroscience  
619.03. Developmental Neuroscience  
619.04. Neuroanatomy  
**Prerequisite:** Consent of the Faculty.  
**Note:** Medical Science 619.02 is open only to graduate students registered in the Neuroscience graduate program or other graduate students approved by the course coordinator. Not open to undergraduates.

**Medical Science 621**  
*H*(3-0)  
**Principles of Drug Action**  
The action of chemicals and drugs on biological systems ranging from subcellular particles to the intact organism.  
621.01. Basic Principles of Pharmacology  
**Prerequisites:** Zoology 461 and Biochemistry 441 and 443 or consent of the Faculty.

**Medical Science 623**  
*H*(3-17)  
**Respiratory Science**  
Respiratory physiology; aspects of morphology, biochemistry and pharmacology necessary to an understanding of respiration.  
623.01. Pulmonary Mechanics and Gas Exchange  
623.02. Respiratory Muscle Physiology and Control of Breathing  
623.03. Respiratory Science: Basic  
623.04. Respiratory Science: Applied  
**Prerequisite:** Zoology 463 or 465 or consent of the Faculty.

**Medical Science 627**  
*H*(3-0)  
**Endocrinology**  
Normal endocrine physiology and biochemistry. Mechanisms and principles of departure from normal endocrine homeostasis.  
627.03. Selected Topics in Advanced Endocrinology  
**Prerequisite:** Zoology 597 or consent of the Faculty.  

**Medical Science 629**  
*H*(3-0)  
**Cardiovascular Dynamics**  
Includes topics such as basic physiologic mechanisms including excitation-contraction coupling, mechanics, energetics, and cardiovascular control; major diseases entities as a means of illustrating pathologic alterations in normal physiologic mechanisms; or a systematic in-depth examination of the chemicals that affect the cardiovascular system.  
629.01. Cardiovascular Physiology  
629.02. Cardiovascular Pathophysiology  
629.03. Cardiovascular Pharmacology  
**Prerequisite:** Consent of the Faculty.

**Medical Science 631**  
*H*(3-0)  
**Muscle Physiology**  
Contractile processes, excitation-contraction coupling, the control of contraction and energetics in smooth, cardiac and skeletal muscle. Molecular studies of the contractile process and of the process of excitation contraction coupling.  
**Prerequisite:** Consent of the Faculty.

**Medical Science 633**  
*H*(3-0)  
**The Kidney**  
Advanced courses detailing the functional organization of the kidney at all levels, from cell to intact organism. Topics encompass basic physiological principles and their relevance to experimental medicine and therapeutics, as well as the study of disease processes, which impact kidney function.  
633.01. Renal Physiology  
633.02. Renal Pathophysiology  
**Prerequisite:** Medical Science 604 or equivalent or consent of the Faculty.

**Medical Science 635**  
*H*(3-0)  
**Psychosocial Oncology**  
Focuses on developing the understanding in health care practitioners of the central concepts related to caring for cancer patients and their families. In doing so, makes use of lectures, readings, video tapes, case discussions, and current research.  
**Prerequisite:** Consent of the Faculty.  
**Note:** Credit for both Medical Science 635 and 645.14 will not be allowed.

**Medical Science 637**  
*H*(3-0)  
**Gastrointestinal Physiology**  
Physiology of the gastrointestinal (GI) tract at all levels from the cell to the intact system. Medical Science 637.01 has three components 1) An introductory series of lectures covering the basic physiological principles of the regulation of the GI tract and the individual organs that comprise it or are associated with it. 2) Extended directed tutorials conducted on-line through Blackboard. Topics will be selected to reflect the needs and interests of enrolled students. 3) A written term paper on a subject of the students’ own choice and pre-approved by the course coordinator that will also be presented orally to the class.  
637.01. Organization and Function of the GI Tract  
**Prerequisite:** Consent of the Faculty.

**Medical Science 638**  
*H*(3-0)  
**Mucosal Pathophysiology**  
An independent study course that focuses on the physiology and pathophysiology of the gastrointestinal tract, lung and other mucosal tissues. A particular emphasis will be placed on inflammatory processes in these tissues, and how they contribute to symptom generation and tissue dysfunction. Involves independent research on the part of the students, small group tutorials, written assignments and laboratory exercises. The course will be divided into three sections.  
**Note:** Medical Science 637.01 recommended.
Generalized linear models (GLM), broadens the techniques to include analysis techniques. Logistic and linear regressions, modelling health outcomes using modern regression and sample size determination. Medical Science 643.03. Genomics and metabolic genetics, mouse genetics, population genetics, and human and medical genetics. 641.01. Advanced Genetics I 641.02. Advanced Human Cytogenetics 641.03. Advanced Genetics II 641.04. Genomics Prerequisite: Consent of the Instructor.

Medical Science 641 H(3-0)

Genetics Advanced courses that provide in depth coverage of the research discipline of genetics, including the areas of cytogenetics, genomics, metabolic genetics, mouse genetics, population genetics, and human and medical genetics. 641.01. Advanced Genetics I 641.02. Advanced Human Cytogenetics 641.03. Advanced Genetics II 641.04. Genomics Prerequisite: Consent of the Instructor.

Medical Science 643 H(3-2)

Biostatistics Focuses on the key methods necessary to understand and critically interpret results from common biostatistical analyses, as well as gaining hands-on experience analyzing data using statistical software. Medical Science 643.01. Introduces the fundamental concepts of summarizing data and statistical inference, including graphical displays, hypothesis testing, p-values, confidence intervals, and sample size determination. Medical Science 643.02. Expands the fundamental concepts to modelling health outcomes using modern regression analysis techniques. Logistic and linear regressions, and their extensions, are covered in detail. Medical Science 643.03 broadens the techniques to include generalized linear models (GLM), generalized additive models (GAM), Poisson regression, generalized estimating equations (GEE), and proportional hazards regression. In all three courses, students gain hands-on experience analyzing data using statistical software. 643.01 Biostatistics I: Essentials of Biostatistics 643.02 Biostatistics II: Models for Health Outcomes 643.03. Biostatistics III: Models for Repeated Measures Studies and Time-to-Event Studies Prerequisites: Medical Science 643.01 requires no formal prerequisites but good quantitative and mathematical skills are an asset. Medical Science 643.02 requires either 643.01 or a graduate-level introductory course in (bio)statistics. Medical Science 643.03 requires Medical Science 643.02.

Note: Admission to a graduate program in Community Health Sciences is normally required for enrolment in the Medical Sciences 643 courses; these courses are not available to Open Studies students.

Medical Science 644 H(3-0)

Community Health Sciences Overview These courses provide an overview of key foundation areas in Community Health Sciences. 644.01. Introduction to Community Health Sciences 644.02. Determinants of Health I Prerequisite: Consent of the Instructor. Note: Admission to a graduate program in Community Health Sciences is required for enrolment in Medical Science 644 courses.

Medical Science 645 H(3-0)

Note: Medical Science 645.03: one or more field trips may be required outside regular class time.

Medical Science 646 H(35-0)

Seminars in Occupational Health and Medicine Current issues in occupational health and medicine; topics to be based on a pre-course survey. Prerequisite: Consent of the Instructor. NOT INCLUDED IN GPA

Medical Science 647 H(3-2)

Epidemiology Principles and methods of descriptive, analytic and experimental epidemiology. Epidemiological methods specific to certain health conditions and the preventive strategies available for various health conditions. 647.01. Fundamentals of Epidemiology 647.05. Epidemiology of Aging. 647.07. Research in Infection Control and Hospital Epidemiology 647.08. Epidemiology of Chronic Diseases 647.10. Surveillance 1: Data Handling for Infection Control 647.11. Surveillance 2: Principles of Surveillance 647.12. Introduction to Population Health Surveillance 647.15 Clinical Epidemiology Prerequisites: Medical Science 643.01 or consent of the Faculty.

Note: Admission to a graduate program in Community Health Sciences is normally required for enrolment in Medical Science 647.01; it is not available to Open Studies students.

Medical Science 649 H(1-3)

Practicum in Community Health Sciences Clinical or laboratory-based practicum for students enrolled in certain programs of the Department of Community Health Sciences. 649.01. Practicum in Community Medicine 649.02. Practicum in Hospital Epidemiology Prerequisite: Consent of the Faculty. NOT INCLUDED IN GPA

Medical Science 651 H(3-0)

Population/Public Health The courses within the Population/Public Health family are intended to provide gradates the opportunity to gain the competencies required to become researchers, planners, and practitioners in fields that require a depth of understanding of the determinants of health, the values and philosophies of population and public health, behaviour change theory, and the role of the ecosystem in promoting and protecting the health of the public. 651.01. Health Promotion Planning 651.02. Health Promotion for Women 651.03. Community Interventions: Theory, Research and Practice 651.04. Fundamentals of Population/Public Health Prerequisite: Consent of the Instructor.

Medical Science 657 H(3-0)

Telehealth and E-health These online courses explore many aspects of e-health, beginning with an initial focus on telehealth. They reflect a range of practice-based activities and research areas in e-health including business plan development, implementation and evaluation of clinical and learning applications, e-Health Sustainability: From Business Case to Policy Development 657.03. Evaluation of e-Health Initiatives Prerequisite: Consent of the Faculty. Note: These are online courses.

Medical Science 659 H(3-2)

Methods in Health Research An introduction to research design, sampling, measurement, data collection and data analysis applied to health research including evaluation research. 659.02. Health Research Methods 659.03. Health Programming and Evaluation 659.04. Introduction to Clinical Trials 659.05. Qualitative Health Research 659.06. Decision Analysis in Health Economic Evaluation 659.07. Administrative Data Analysis Methodology Prerequisite: Medical Science 643.01 or consent of the Faculty.

Note: Admission to a graduate program in Community Health Sciences is normally required for enrolment in Medical Science 659.02; it is not available to Open Studies students.

**Medical Science 701**

*Advanced Topics in Reproductive Health*

A series of topics, ranging from basic sciences to clinical topics (including ethical issues) to increase awareness and comprehension regarding current issues in reproductive health.

**Prerequisite:** Interest in reproductive health/biological science. Consent of course coordinator and student's supervisor, if applicable.

**Medical Science 703**

*Human Anatomy: Concepts, Exploration and Teaching*

Introductory course for graduate students with an interest in mammalian morphology to human cadaver dissection, human anatomy concepts and teaching strategies within the medical professional curriculum. Weekly lectures and discussions supplement a cadaver dissection-based course intended for students interested in pursuing an academic career in a medically related field.

**Prerequisite:** Should have some previous experience with dissection. Consent of the instructors.

**Medical Science 705**

*Advanced Methods in Health Research*

Advanced health research designs (both quantitative and qualitative) and measurement techniques.

**Prerequisite:** Medical Science 659.02.

**Medical Science 706**

*Theory and Practice of Family Therapy*

Overview of different family therapy approaches focusing on systemic assessment and systemic intervention through therapeutic interviewing. The development of student knowledge and skills in family therapy utilizing social constructionist, narrative, systemic, collaborative, and pro-feminist ideas while fostering the professional identity of the therapist.

**Prerequisite:** Medical Science 659.02

**Medical Science 707**

*Family Therapy Practicum*

The development of conceptual and experiential expertise in working therapeutically with families. 707.01. Family Therapy I

**Prerequisite:** Consent of the Faculty.

*NOT INCLUDED IN GPA*

**Medical Science 708**

*Theory and Practice of Interprofessional Psychosocial Oncology*

Provides graduate students with a multidisciplinary introduction to the field of psychosocial oncology. Emphasis will be placed on understanding and interpreting the experience of cancer informed by theory, evidence and illness narratives. Case-based learning in small interprofessional groups will allow students to explore a variety of key learning themes relevant to psychosocial oncology including distress assessment, depression, anxiety, adjustment and coping, sexuality, loss and grief. Attention to diversity will be integrated throughout the course.

**Prerequisite:** Consent of Instructor. Must have an undergraduate degree in a relevant domain (including, but not limited to, medicine, psychology, nursing, social work, spiritual care/theology).

**Note:** This is an online course.

**Medical Science 709**

*Advanced Epidemiology*

Topics to include causal inference, epidemiologic measures, induction latent period, internal and external validity, control of confounding variables and interaction between study factors.

**Prerequisite:** Medical Science 647.01.

**Medical Science 711**

*Systematic Reviews and Meta-Analysis*

Exposes students to all steps included in the conduct of a systematic review and meta-analysis.

**Prerequisite:** Medical Science 643.01, 643.02, 647.01 and 659.02, or consent of Instructor.

**Medical Science 713**

*Topics in Mountain Medicine and High Altitude Physiology*

A tutorial-based course focused on high altitude medicine and physiology. The aim of the course is to introduce the students to the physiological adaptations of and pathophysiology associated with the hypoxia of altitude. Students will be introduced to several diseases associated with the hypoxia of high altitude (i.e., Acute Mountain Sickness; High Altitude Pulmonary Edema, High Altitude Cerebral Edema), and the pathophysiology underlying these diseases.

**Prerequisite:** Consent of Instructor.

**Medical Science 717**

*Functional Genomics Technologies*

An intensive “hands-on” laboratory course supplemented with lectures that provide experience and theory underlying current techniques used in functional genomics research. Methods include DNA microarrays, bioinformatics analysis of DNA and protein sequences, retro-combinant screening, gene marker and mutation analysis, gene product interactions and yeast two-hybrid screens, site-specific mutagenesis, mammalian expression systems and in situ hybridization. More conventional molecular biology methods involving plasmid preparation, Northern and Southern blotting techniques, PCR technology, restriction digestions, subcloning of DNA fragments, and others are included.

**Prerequisites:** Registration in the Master of Biomedical Technology program or one of Medical Science 537, 609.01, 609.02. 613.05 or equivalent, and consent of the Faculty.

*Prerequisite or Corequisite:* Medical Science 537 (Biochemistry 537) or equivalent.

**Medical Science 721**

*Biochemistry and Molecular Biology*

Historical and recent developments in analysis of eukaryotic genomes and control of gene expression, chromosome structure, bioinformatics, sequencing, proteomics, regulatory networks, metabolomics and related technologies and their applications to the study of human disease.

**Medical Science 731**

*Medical Education*

The design, planning, teaching and evaluation of courses in the health science disciplines. Practical experience in teaching methods and curriculum development. Intended for graduate students, faculty and resident physicians, and approved for study credit by the College of Family Physicians of Canada.

**Prerequisite:** Consent of the Faculty.

**Medical Science 733**

*Research Design and Statistics in Medical Education*

Research design and statistical analysis including a broad overview of the variety of methods for research in medical education and related sciences. There is both a theoretical basis in lectures and seminars as well as applied approaches in laboratory exercises. A variety of research tools will be explored and utilized.

**Prerequisite:** Consent of the Instructor.

**Note:** Admission to the Medical Education specialization of the Medical Science graduate program is normally required for enrollment in this course.

**Medical Science 735**

*Teaching Methods in the Medical Sciences*

Examines traditional and innovative methods used in medical and science education and clinical teaching to enhance student and practitioner knowledge, skills and attitudes. Discussions and presentations will focus on the role of the teacher and teaching strategies that include the lecture, small group teaching, inquiry and problem-solving methods, reflective tools, simulation, surgical skills, computer-based instruction, bedside learning, one on one teaching and self-directed learning. The content will be presented within the context of contemporary research, practice and educational theory. Participants will be expected to identify, critique literature, and prepare instructional activities that link research and theory to practice.

**Prerequisite:** Consent of Instructor.
Medical Science 737  H(3-0)

Curriculum Design and Evaluation in the Medical Sciences

Presents an overview of the key elements of curriculum design and evaluation within the context of contemporary medical education research, learning and teaching theory, and teaching. Through classroom and electronic discussion, reading and assignments, participants will explore learning needs, objectives, the selection of teaching methods, the identification of resources, the implementation and monitoring of curriculum and evaluation.

Prerequisite: Consent of Instructor.

Medical Science 739  H(3-0)

Medical Education Measurement

Focuses on the assessment issues related to the measurement of student achievement, competency, and performance in educational settings. The principles of Classical Test Theory, Item Response Theory, and Generalizability Theory will be introduced and explored through both formal lectures and computer lab activities. Specifically, the course will focus on the measurement issues and concerns related to undergraduate and post-graduate medical education programs.

Prerequisite: Consent of Instructor.

Medical Science 751  H(3-0)

Topics in Medical Science

751.02. Cellular and Molecular Pathogenic Mechanisms of Diabetes
751.03. Biostatistics
751.07. The Physiological Development of the Fetus and Newborn
751.09. Ion Channel Diseases
751.18. Neural Control of Posture and Movement
751.30. Transdisciplinary Bone and Joint Health
751.31. Joint Injury and Disease Biomechanical Focus
751.41. Critical Perspectives in Proteomics

Prerequisite: Consent of the Faculty.

Medical Science 755  H(1-6)

Directed Study

Lectures, seminars, term papers or training in theoretical and/or laboratory methods at the advanced level in the medical sciences.

Prerequisite: Consent of faculty member who will supervise the chosen study.

MAY BE REPEATED FOR CREDIT

In addition to the numbered and titled courses shown above, the department may offer advanced level graduate courses specifically designed to meet the needs of individuals or small groups of students at the advanced doctoral level. These courses are numbered in the series 800.01 to 899.99. Such offerings are, of course, conditional upon the availability of staff resources.

COMMUNICATIONS

Medical Science 739  H(3-0)

Prerequisite:

monitoring of curriculum and evaluation.

identification of resources, the implementation of objectives, the selection of teaching methods, the availability of staff resources.

GRADUATE DEGREE PROGRAMS & COURSES

MICROBIOLOGY AND INFECTIOUS DISEASES  MDMI

Contact Info

Location: Health Sciences Centre, Room G329
Faculty number: (403) 220-2958
Fax: (403) 210-8109
E-mail address: mddgrad@ucalgary.ca
Web page URL: http://www.ucalgary.ca/microinfect/

1. Degrees and Specializations Offered

Doctor of Philosophy (PhD)
Master of Science (MSc) thesis-based. Combined MD/Master’s and MD/PhD programs are offered under the title “Leaders in Medicine.”

2. Admission Requirements

In addition to Faculty requirements, the Department requires:

(a) A minimum admission grade point average of 3.20 on a four point scale, or equivalent
(b) For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 963 (written test), 227 (computer-based test) or 92 (internet-based test)
(c) Applicants who do not meet the above requirements will be considered only in exceptional circumstances.

3. Application Deadline

Deadlines for the submission of complete applications:
15 May for September admission
15 September for January admission
15 January for May admission

Students applying to the MD/Master’s or MD/PhD program must apply individually to each program and complete a supplementary application to the Leaders in Medicine Program.

Students with international transcripts should contact the department for application deadlines.

4. Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will be not given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

5. Program/Course Requirements

In addition to Faculty requirements, the Department requires:

Master of Science
a) The completion of a minimum of one full course equivalent
b) The presentation of an annual seminar in the applicable research group

Doctor of Philosophy
a) The completion of a minimum of one and one-half full course equivalents
b) The presentation of an annual seminar in the applicable research group
c) The presentation of a seminar on the results of his/her thesis research

6. Additional Requirements

None.

7. Credit for Undergraduate Courses

No more than half a student’s program may be done at the 500-level.

8. Time Limit

Expected completion time is two years for students in the Master of Science program and four years for doctoral students. Maximum completion time is four years for the Master of Science program and six years for the doctoral program.

Leaders in Medicine - Expected completion time for the MD/Master’s program is four to five years, and for the MD/PhD program, six to seven years. The maximum completion time is six years for the MD/Master’s, and eight years for the MD/PhD program.

9. Supervisory Assignments

Students may interview several potential supervisors. The decision to establish a relationship is based upon mutual agreement between the student and the supervisor. Supervisory committees are established based upon the needs of the student and the expertise of the committee members, following discussions between the student and the supervisor.

The Graduate Coordinator approves supervisors and supervisory committees. Master of Science students in the Leaders in Medicine program must have a supervisory committee constituted according to the regulations of the graduate program. Both Master of Science and doctoral students will also be evaluated and advised by a Joint Liaison Committee composed of the Associate Dean (Graduate Sciences Education), Associate Dean (Undergraduate Medical Education), and the Associate Dean (Research) of the Faculty of Medicine.

10. Required Examinations

Doctoral candidacy examinations have a written and an oral component. The student has three weeks to prepare three written papers from a choice of five questions. The three papers are to be submitted to the examiners one week before the examination. One of the papers will normally be in the form of a grant proposal. Each paper will not exceed 20 double-spaced typewritten pages excluding references and figures.

The responses to the written examination questions, along with the research proposal, provide the basis for the candidacy oral examination.

11. Research Proposal Requirements

A written research proposal must be presented to the student’s supervisory committee no later than twelve months after initial registration as a full-time graduate student. The supervisory committee approves the research proposal after an oral presentation of the written proposal.

12. Special Registration Information

None.

13. Financial Assistance

The general policy of the Microbiology and Infectious Diseases Graduate Program is that all students shall be full-time and that all students will receive financial support for the entire period of their program.
14. Other Information
Courses in Microbiology and Infectious Diseases are offered under the auspices of the Department of Medical Science and are listed in this Calendar under that heading.

15. Faculty Members/Research Interests
The research interests of the faculty can be found at http://www.ucalgary.ca/microinfect/faculty.

MILITARY AND STRATEGIC STUDIES CMSS
Contact Info
Location: Library Tower, 7th floor
Faculty number: (403) 220-4038
Fax: (403) 282-0594
E-mail address: cmss@ucalgary.ca
Web page URL: http://www.cmss.ucalgary.ca

1. Degrees and Specializations Offered
Doctor of Philosophy (PhD)
Master of Strategic Studies (MSS), course-based (including the co-operative education option) or thesis-based

Students in the Master of Military and Strategic Studies program may choose an interdisciplinary specialization in Israel Studies. For further information on the Israel Studies (Interdisciplinary) specialization, see the separate listing in this Calendar.

2. Admission Requirements
In addition to the requirements of the Faculty of Graduate Studies, CMSS requires:

Master of Strategic Studies (MSS), course-based
a) A Bachelor's degree grade point average of at least 3.4 on a 4.0 point scale
b) A writing sample
c) Agreement to supervise from a potential supervisor
d) A research proposal from applicants to the thesis-based program

Doctor of Philosophy
Applicants will be admitted only if the CMSS Graduate Committee is satisfied that adequate supervision is likely to be available for the duration of their studies. Successful applicants should be aware that admission to the program does not imply a Centre commitment to provide supervision for all research interests they may have. Students are also advised to consult the Faculty of Graduate Studies Handbook of Supervision and Examination.

Prerequisites for admission to the PhD program are:
a) A completed Master’s Degree
b) A GPA of 3.7 on a four point scale over all completed graduate courses in the Master's program, 3.4 in the Undergraduate program over the last 20 half courses or two years of study.
c) A completed application to the Centre, along with supporting documentation.
d) A detailed statement of the proposed thesis research.
e) A representative piece of written work, normally a Master's Thesis chapter or major research paper.
f) The Centre requires a tentative agreement from a faculty member to supervise, so students need to contact potential supervisors at the beginning of the application process.

3. Application Deadline
Deadlines for the submission of complete applications:
15 January for September admission

4. Advanced Credit
In the course-based Master's program, advanced credit may be given for a maximum of two half-courses at the senior undergraduate (500) level. The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to the required level for admission.

5. Program/Course Requirements
Master of Strategic Studies
In addition to Faculty requirements, the Centre for Military and Strategic Studies requires:

a) That all Master’s students take, in any sequence, the following three core area half-courses: STST/HSTST 655 Classics of Strategy, POLI 681 Advanced Analysis of International Relations, POLI 685 Strategic Studies

b) That students take, in any sequence, two of the following core half-courses from the listed areas of concentration:
(1) Arctic Security
STST 661 Circumpolar Security
(2) Canadian Military Studies
STST/HSTST 613 Canada and the First World War
STST 611 Canadian Military Studies
(3) Defence Economics
ECON 611 Independent Study: Topics in Defence Economics
(4) Domestic Security/Hemispheric Security
PHIL 609 Topics in the History of Philosophy – Just War Theory
(5) Ethics and Morality in Conflict
POLI 619 War and Interpretation
(6) Intelligence and Security
STST 657 Intelligence, Information Operations and Command, Control, Communications and Computers
(7) Israeli Security Studies
ISST 601 Modern Israel
(8) Military Anthropology
ANTH 641 Graduate Seminar in Civil Military Relations
(9) Sea Power
STST 659 Sea Power
(10) Unconventional Warfare
POLI 689 Unconventional Warfare
POLI 675 Special Topics in Comparative Politics

That all students take one elective half-course: STST 651 Research Seminar I
Any other graduate course pertinent to the student’s thesis topic (with the approval of the Graduate Coordinator).

5. Program/Course Requirements
Doctor of Philosophy

a) Course Work:
Each student must normally take four half-course equivalents including three core courses:
• Political Science (POLI) 681: Advanced Analysis of International Relations
• POLI 685: Strategic Studies
• Strategic Studies (STST) 655: Classics of Strategy.

Students will have two major fields of study, one of these being strategic studies and the other the thesis area, and will be required to take one half-course in each, namely POLI 685 and an appropriate elective.

b) Written and oral candidacy examination
c) Doctoral thesis proposal
d) Written doctoral thesis
e) Oral thesis defence.

6. Additional Requirements
None.

7. Credit for Undergraduate Courses
Students enrolled in the thesis program may apply to take one 500-level half-course for graduate credit, but may be required to complete additional assignments for the course.

8. Time Limit
Expected completion time for the thesis-based and course-based Master of Strategic Studies is two years. Maximum completion time is four years for the thesis-based Master of Strategic Studies. Students in the course-based program may be required to complete additional assignments for the course.

9. Supervisory Assignments
Students must contact a possible supervisor before admission. Agreement from a supervisor must be included in the application package.

10. Required Examinations
Students in the course-based program are required to pass an oral comprehensive examination no later than six months after the completion of the course work. This examination is designed to test the student's mastery of the core requirements of the program as well as his/her chosen area of technical or specialized expertise.

All course work must be completed, the second language requirement met (if applicable), and a thesis proposal approved by the Supervisory Committee before the candidacy examination can be taken.
There will be two three-hour written examinations, one in each field, as well as the single oral examination covering the content and questions on both of the written exams. There will normally be two fields—a major field and a second field. The major field will always be strategic studies, while the second field will be in a area closely related to the student’s thesis research. Military and Strategic Studies is an interdisciplinary program, and our doctoral students will draw upon a wide variety of disciplines for their second field.

A candidacy examination consists of both written and oral components. CMSS requires that the written component be taken after the completion of course work and no later than 28 months of initial registration into the program, although completion within 16-20 months is encouraged by the Centre. For CMSS purposes, this component will consist of written examinations in the two major fields of study. The oral examination will be held no later than one month after the written examination.

Final thesis oral examinations are open.

11. Research Proposal Requirements
The thesis proposal is submitted to the members of the student’s Supervisory Committee, and the student defends the proposal in a meeting of that Committee. After the proposal is passed by the Committee, the student can go on to write his or her candidacy exams.

12. Special Registration Information
None.

13. Financial Assistance
Not applicable.

14. Other Information
None.

15. Faculty Members/Research Interests
Faculty members and their areas of interest may be found at http://www.cmss.ucalgary.ca.

Strategic Studies (STST)
Permission of the Graduate Coordinator is needed for enrolment in Strategic Studies 651, 653, 751 and 753.

Graduate Courses
Only where appropriate to a student’s program may graduate credit be received for courses numbered 500-599.

Strategic Studies 600 M(3-0)

MSS Co-operative Education
Strategic Studies Co-operative Education Work Placement
Prerequisite: Admission to the co-operative education option of the MSS program.

Strategic Studies 611 H(3-0)

Canadian Military Studies
Canadian military studies, excepting the two world wars. Topics will include the evolution of Canadian defence policy, past or present, the development and evolution of the Canadian Forces or any of its main elements (army, navy or air force), Canadian military operability with the military forces of Allied nations, and the relationship between Canadian foreign policy and the use of the Canadian military.

Strategic Studies 613 H(3-0) (History 613)
Canada and the First World War
Discussion topics will focus on the major themes in Canada’s Great War military experience, including the Canadian Expeditionary Force’s recruitment and training, leadership, tactical doctrine, and integration within the British Expeditionary Force, as well as developments in civil-military relations, conscription politics and the country’s postwar military legacy.

Strategic Studies 650 H(3-0)

Reading Seminar
Prerequisite: Permission of the Graduate Coordinator.
MAY BE REPEATED FOR CREDIT

Strategic Studies 651 H(3-0)

Research Seminar
Prerequisite: Permission of the Graduate Coordinator.
MAY BE REPEATED FOR CREDIT

Strategic Studies 655 H(3-0) (History 655)

Classics of Strategy
Strategic thought from Sun Tzu to Clausewitz, Mahan to Corbett. Analyzes the writings of classic strategic thinkers and then, by way of case studies, examines their theories as they pertain to military and political planners from the Peloponnesian War to the present.

Strategic Studies 657 H(3-0)

Intelligence: Information Operations; and “Command, Control, Communications and Computers”
An assessment of the history of intelligence, information operations, and command systems for military and diplomatic institutions as well as contemporary theory and practice related to these issues.

Strategic Studies 659 H(3-0)

Sea Power
The meaning of sea power and an assessment of how modern states use it. An analysis of the writings of major naval strategic thinkers and case-study examination of the application of those theories from Nelson to the present.

Strategic Studies 661 H(35-0)

Circumpolar Security
Assessment of the security environment of the Arctic region. This seminar will assess both the differing theoretical conceptualizations of security in the Arctic and the policies of the circumpolar states as they pursue Arctic security.

Strategic Studies 751 H(3-0)

Reading Seminar
Prerequisite: Permission of the Graduate Coordinator.
MAY BE REPEATED FOR CREDIT

Strategic Studies 753 H(3-0)

Research Seminar
Prerequisite: Permission of the Graduate Coordinator.
MAY BE REPEATED FOR CREDIT

163
3. Application Deadline
The deadline for the submission of complete applications for both Master’s and doctoral program is 15 January for September admission.

For students wishing to pursue a Master of Music in Performance, an audition of approximately thirty minutes will be arranged on an individual basis from 1 December to 15 April. Specific dates and times can be arranged by contacting the Graduate Administrator at (403) 220-5383.

For consideration for university scholarships, complete applications (including the audition and the required TOEFL score, if applicable) must be concluded by 15 January. Departmentally-administered funding (such as graduate teaching assistantships and research scholarships) will be decided after 15 April.

4. Advanced Credit
The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

5. Program/Course Requirements
In addition to the Faculty requirements, the Department, excluding qualifying courses, requires:

Master’s Degrees
Master of Music (Music Education): MUHL 603, MUHL 651 and three full approved graduate level courses

Master of Music (Composition): MUTC 671, MUHL 651, MUTC 691.01, MUTC 691 and two full approved graduate level courses

Master of Music (Performance): MUHL 603, MUHL 651, MUF 691, MUF 693, one half course at the graduate level in MUTC or MUHL and three other approved half course options.

Master of Music (Conducting): MUHL 603, MUHL 651, MUF 632 or MUF 634 and two full approved graduate level courses

Master of Arts (Musicology): MUHL 603, MUHL 651 and three full approved graduate level courses

Restrictions
No more than one full course for the Master of Music and Master of Arts degrees may be taken in an area other than Music.

Doctor of Philosophy
Students entering the PhD program will normally be required to complete at least six half-courses:

a) An interdisciplinary half-course designed by the student and supervisor

b) Five additional approved graduate level half courses. Students in the Doctor of Philosophy (Composition) program must take MUHL 651 unless this course (or its equivalent) has been completed as part of a Master’s degree.

6. Additional Requirements
Diagnostic examinations in music history and theory will be given to all entering students in order to determine if qualifying work in these areas is required.

Language
Master’s Programs
Master of Arts (Musicology) Applicants are required to demonstrate a reading knowledge of a language other than English—normally German. In practice, this requirement and any other linguistic competence that may be deemed necessary for the student’s proposed research area must be met before the thesis topic will be approved.

Other Master’s programs
While there are no formal second-language requirements for the various programs of the Master of Music degree, students may be required to attain proficiency in a language other than English where this is deemed appropriate for the proposed thesis/project.

Doctor of Philosophy
Doctor of Philosophy (Musicology) Candidates are required to demonstrate a reading knowledge of two languages other than English. German is recommended as one of the required languages.

Doctor of Philosophy (Composition) and (Music Education) Candidates are required to demonstrate a reading knowledge of one language other than English.

Performance
Graduate students in the MMus Performance program are required to participate in one of the large ensembles for the duration of their degree. Pianists are required to accompany two hours per week in a vocal or instrumental studio if they do not participate in an ensemble. Another option for pianists is to accompany a Junior or a Senior recital. The head of the performance area will make all ensemble or accompanying assignments. Students in graduate programs other than performance are not required to participate in an ensemble, although such participation is encouraged.

Thesis/Recital/Project
Master’s Programs
All Master’s degree programs require a thesis or recital or project equivalent (see below), prepared under the guidance of a supervisor and approved by the Graduate Studies Committee of the Department.

Master of Music (Performance)
The thesis is interpreted to be two public recitals featuring solo performances and chamber music. At least one Canadian work should be included in one of the recitals. The examining committee will evaluate the candidate’s performance in both of the recitals. Recital proposals are to be submitted to the Graduate Coordinator for approval by the Graduate Committee at least two months before each performance.

Master of Music (Conducting)
The thesis is interpreted to be two public performances, on or off campus, with University or community ensembles.

Master of Music (Composition) The thesis is interpreted to be a large-scale compositional project and an accompanying descriptive essay related to the project. Normally, the project will be presented in a public recital.

Doctor of Philosophy
Doctor of Philosophy (Composition) The thesis is interpreted to be a substantial creative project and an accompanying analytical/research paper approved by the supervisory committee.

7. Credit for Undergraduate Courses
Not applicable.

8. Time Limit
Maximum completion time is five years for the Master of Music programs and four years for the Master of Arts (Musicology). Maximum completion time is six years for the doctoral program.

9. Supervisory Assignments
The Graduate Coordinator will function as the interim supervisor for all newly admitted students during their first term. This arrangement will allow students to use their first term as an opportunity to meet with faculty and to secure a permanent supervisor.

10. Required Examinations
Master’s Degrees
Master of Arts (Musicology), Master of Music (Music Education) and Master of Music (Composition)
A comprehensive oral examination encompassing all areas of the chosen field is required. This examination will take place following the completion of coursework and must be satisfactorily completed before the submission of the thesis/project.

Master of Music (Performance) and (Conducting)
A comprehensive oral examination based upon the literature of the instrument and more extensively upon the repertoire of the approved recital programs is required. This examination must be satisfactorily completed at least four weeks before the date of the second public performance required for the degree.

Doctor of Philosophy
This degree requires a candidacy examination with a written and an oral component upon completion of course work, but no later than 28 months after initial registration.

Questions on the research proposal will be included in the oral candidacy examination.

Final thesis oral examinations of written theses are open.

11. Research Proposal Requirements
Research proposals must be submitted to and approved by the Department’s Graduate Studies Committee at least two months before the student intends to defend or perform. The proposal should include:

- A detailed description of the area of investigation,
- A clear statement of the approach to be taken and the research method to be utilized,
- An account of how the work will be presented,
- An indication of how the project will make an original contribution to the student’s field of study.
12. Special Registration Information
Students should consult the Graduate Coordinator before registering.

13. Financial Assistance
Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar. For scholarship applications, see Application Deadlines.

14. Other Information
International applications will not be considered unless the applicant has completed and passed the TOEFL examination (or equivalent) before the application or scholarship deadline. Students must apply for the Open Scholarship Competition by 15 January.

15. Faculty Members/Research Interests
Current faculty members and their areas of interest can be found at [http://www.ffa.ucalgary.ca](http://www.ffa.ucalgary.ca).

Music Education (MUED)

Undergraduate Courses
Only where appropriate to a student's program may graduate credit be received for courses numbered 500-599, which are undergraduate courses.

**Prerequisites:**
- Honours Project
- Consent of the Department.

- Detailed study of the harmonic materials of jazz.
  - **Music Theory and Composition**
  - H(3-0)

- Composition course or consent of the Department.
  - Contemporary music.

- Seminar in Theory and Composition
  - MAY BE REPEATED FOR CREDIT

- Composition course or consent of the Department.
  - Selected repertoire with an emphasis upon contemporary music.

- Selected topics in such subjects as: analysis of tonal or post-tonal music, rhythmic analysis, acoustics, critical approaches to music theory, electroacoustic music, orchestration, counterpoint and fugue.

- Graduate study of selected repertoire with an emphasis upon contemporary music.
  - **Music Theory and Composition**
  - H(3-1)

- Advanced creative and analytic approaches to the study of selected repertoire with an emphasis upon contemporary music.
  - **Seminar in Theory and Composition**
  - H(3S-0)

- Various topics (masters level).
  - **Selected Topics in Theory and Composition**
  - H(3-1)

- Refining ideas about music theory and its teaching, while developing and strengthening teaching skills.
  - **Pedagogy of Music Theory**
  - H(3-0)

- Individual study in a selected theory or composition area.
  - **Independent Study**
  - H(3-0)

- Minor project in theory or composition.

---

**2. Admission Requirements**

In addition to Faculty requirements, the Department requires:

(a) A minimum admission grade point average of 3.20 on a four point scale or equivalent.

(b) For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 580 (written test), 237 (computer-based test) or 92 (internet-based test).

---

**3. Application Deadline**

Deadlines for submission of complete applications for students with Canadian and U.S. transcripts:

- 15 May for September admission
- 15 September for January admission
- 15 February for May admission
- 15 April for July admission
Students with international transcripts should contact department for application deadlines.
Students applying to the MD/Master’s or MD/PhD program must apply individually to each program and complete a supplementary preliminary application for the Leaders in Medicine Program.

4. Advanced Credit
Not given.

5. Program/Course Requirements
In addition to the Faculty requirements, the Department requires:

Master of Science
a) Satisfactory completion of at least one of Cellular and Molecular Neuroscience (MDSC 619.01), Systems Neuroscience (MDSC 619.02), Developmental Neuroscience (MDSC 619.03), or Neuroanatomy (MDSC 619.04)

b) Participation in a seminar program and journal club, and presentation of research seminar.

Doctor of Philosophy
a) Satisfactory completion of at least two of Cellular and Molecular Neuroscience (MDSC 619.01), Systems Neuroscience (MDSC 619.02), Developmental Neuroscience (MDSC 619.03), or Neuroanatomy (MDSC 619.04). In some cases, where the supervisory committee agrees, one of the two core Neuroscience courses can be supplemented with an equivalent graduate level course in an area that is pertinent to the student’s thesis project.

b) Participation in a seminar program and journal club, and presentation of research seminars.

6. Additional Requirements
As determined by agreement with Supervisor and Supervisory Committee

7. Credit for Undergraduate Courses
Not given.

8. Time Limit
Expected completion time for students in a Master’s program is two years, four years for a doctoral program. Maximum completion time is four years in a Master’s program and six years for a doctoral program.

Leaders in Medicine - Expected completion time is four to five years for the MD/Master’s program, and six to seven years for the MD/PhD. Maximum completion time is six years for the MD/Master’s and eight years for the MD/PhD.

9. Supervisory Assignments
Supervisors must be identified and committed to support the student for the first two years, before admission is recommended. The decision should be by mutual agreement between the prospective student and the faculty member, and approved by the Graduate Coordinator. For relevant criteria and responsibilities of supervisors, see the Policies and Procedures of the Department of Neuroscience. A Supervisory Committee must be struck within three months of initial registration. The method of striking, composition and functions of the Supervisory Committee are detailed in the Policies and Procedures.

Master’s and PhD students in the Leaders in Medicine program must have a supervisory committee constituted according to the regulations of the graduate program.

10. Required Examinations
Doctoral candidacy examinations have a written and an oral component. The written component will consist of a grant proposal to be written over a period of three weeks and submitted to the examination committee one week before the Oral Candidacy Examination. The oral examination, normally two hours long, occurs one week after the submission of the written material. The oral examination will use the material written by the candidate as a basis for exploring the candidate’s knowledge of neuroscience. Both the written and oral components need to be satisfactory for successful completion of the exam. The supervisor is a non-voting observer at the doctoral oral candidacy examination.

For further information see the Policies and Procedures of the Department of Neuroscience at: http://www.ucalgary.ca/neuroscience

11. Research Proposal Requirements
Preparation and approval of a research proposal within twelve months of first registration.

12. Special Registration Information
None.

13. Financial Assistance
Financial assistance is available to qualified students through supervisor operating grants or competitive awards (a minimum stipend of $20,000 is recommended). For information on awards, see the Awards and Financial Assistance section of this Calendar, the Department of Neuroscience, the Faculty of Medicine Research Office and the education section of the Hotchkiss Brain Institute at: http://www.hbi.ucalgary.ca/research/sections.php?sid=5&cid=36

14. Other Information
Rather than study in “classical” disciplines such as anatomy or physiology, students are placed with a supervisor who is a member of a multidisciplinary research group. This multidisciplinary scheme greatly facilitates the development of individual research programs, especially with respect to collaborations involving different techniques and model systems. Students are encouraged to take advantage of such collaborations to enhance the scope and quality of their thesis research.

The purpose of the graduate program is to educate independent, reliable, and competent research neuroscientists. Although many holders of Master of Science and Doctor of Philosophy degrees find employment that does not directly involve research, having such degrees implies that an individual is able to pursue a research problem to a meaningful conclusion. The main role of the program is to provide a favourable environment both for creative research and for the acquisition of a basic body of knowledge in the neurosciences. The Master of Science and doctoral degrees are distinguished both in the degree of originality expected in the candidate’s research, and in the normal course load undertaken. Members of the Department of Neuroscience, other than the supervisor, have an important role to play in each student’s training.

Further information on applications and admission, and brochures describing the research interests of individual Department members may be obtained from the Graduate Program Administrator, Neuroscience Graduate Program, Graduate Science Education, Faculty of Medicine, University of Calgary, Room G329, Health Sciences Centre, 3330 Hospital Drive NW, Calgary, Alberta T2N 4N1. Faculty research interests can also be accessed on the Department of Neuroscience website (http://www.ucalgary.ca/neuroscience) or the Hotchkiss Brain Institute website at http://www.hbi.ucalgary.ca/index.php.

Courses in Neuroscience are offered under the auspices of the Department of Medical Science and are listed in this Calendar following the Medical Science heading.

15. Faculty Members/Research Interests
The research interests of the department can be found at either the Department of Neuroscience website (http://www.ucalgary.ca/neuroscience) or the HBI website http://www.hbi.ucalgary.ca/research/sections.php?sid=5&cid=36

NURSING - NURS

Contact Info
Location: Professional Faculties Building, Room 2279
Faculty number: (403) 220-6241
Fax: (403) 284-4803
E-mail address: nursgrad@ucalgary.ca
Web page URL: http://nursing.ucalgary.ca

1. Degrees and Specializations Offered
Doctor of Philosophy (PhD)
Master of Nursing (MN), course-based or thesis-based
Integrated Master of Nursing/Nurse Practitioner (MN/NP)
Post-Master’s Nurse Practitioner Diploma (NP)

The Doctor of Philosophy program is designed to educate professionals for excellence in nursing scholarship through original research related to specialized practice with identified client populations.

Master of Nursing programs prepare advanced nurse practitioners in specialized areas of practice. The course-based program prepares nurses with advanced skills; the thesis-based program offers supervised research experience.

A Post-Master’s Nurse Practitioner (PMNP) diploma program, with an adult health acute care focus, is offered. The PMNP can be achieved as a Post-Master’s program or through an integrated Master of Nursing/Nurse Practitioner (MN/NP) program. The Nurse Practitioner program or any of its courses will only be offered contingent on the availability of resources and a sufficient cohort of students. Further information on the integrated MN/NP program can be found at http://nursing.ucalgary.ca.

2. Admission Requirements
In addition to the Faculty of Graduate Studies requirements, the Faculty of Nursing requires that an applicant must:
Master of Nursing
a) Be a Registered Nurse holding a baccalaureate degree, normally in nursing
b) Be eligible for active nursing registration in Alberta (registrants in the program must provide proof of active CARNA registration or equivalent each year)
c) Hold CPR Certification at the Basic Rescuer or Basic Cardiac Life Support or “C” level
d) Have successfully completed one undergraduate half-course in research methodology equivalent to University of Calgary Nursing 309 or 539
e) Have successfully completed one undergraduate half-course in statistics
f) Normally have a minimum of two years’ (full-time or equivalent) clinical experience in the proposed area of study
g) Submit three references: specific instructions are included in the MN Program application package
h) Submit a minimum TOEFL score of 600 (written test), 250 (computer-based test) or 100 (internet-based test) if required to provide proof of proficiency in English
i) Have an interview(s) with a faculty member, if requested by the Faculty
A minimum of three years’ (full-time or equivalent) Registered Nurse practice experience in the proposed area of study is required for applicants to the MN/NP or the PMNP. These applicants must also provide commitment from the Health Region for practicum placement availability for the final practicum of the NP program (Nursing 650).

Any graduate student requesting transfer to the integrated MN/NP program must consult with his/her current supervisor prior to application.

Applicants to the MN/NP can be admitted on a part-time basis up to the commencement of the first NP practicum (Nursing 641) at which time a transfer to full-time studies must occur.

Doctor of Philosophy
a) Normally be a Registered Nurse
b) Normally hold CPR Certification at the Basic Rescuer or Basic Cardiac Life Support or “C” level
c) Submit a study plan outlining the areas of proposed concentration, goals in undertaking doctoral work, initial intentions regarding course work, and a statement of the preliminary plans for thesis research
d) Provide examples of the applicant’s written scholarly work such as publications, research reports, course assignments, etc.
e) Provide a curriculum vitae
f) Provide a letter of commitment from the identified supervisor indicating willingness to provide supervision throughout the program of studies and supporting the applicant’s study plan
g) Submit a minimum TOEFL score of 600 (written test), 250 (computer-based test) or 100 (internet-based test) for applicants required to provide proof of proficiency in English
h) Have successfully completed one graduate level half-course in quantitative methods, one graduate level half-course in qualitative methods, plus one graduate level half-course in statistics. Exceptions may be considered, but the onus will be on the applicant to provide sufficient evidence to warrant exception. Deficiencies must be successfully eliminated prior to or in the first year of the Doctoral Program.

Academic Accommodation Policy for Students with Disabilities
It is important for students with documented disabilities, who have met the admission criteria, to note that the Academic Accommodation Policy does not require the University to lower or substantially modify standards in order to accommodate students with disabilities. Adaptive technology and/or academic accommodations are available to facilitate learning, but they do not relieve students of their responsibilities to develop the essential skills and abilities expected of all other students.

3. Application Deadline
There are three application deadlines for submission of complete applications:
- 1 December (for the following September)
- 1 February (for the following September)
- 15 September (for the following January).

There are three application deadlines for the PMNP diploma program:
- 1 December and 1 February for admission in September if the prerequisite courses are completed
- If the prerequisite courses are not completed, applications must be submitted by 15 September for admission to the Winter, Spring, or Summer semesters as appropriate.

Applicants are highly encouraged to begin their application process early.

4. Advanced Credit
Applicants must include requests for advanced credit, accompanied by a rationale, when they apply for admission. For courses taken outside the University of Calgary, applicants must provide official transcripts and a copy of the course outline detailing the course description, objectives, assignments, readings, etc.

5. Program/Course Requirements
In addition to the Faculty of Graduate Studies’ requirements, the Faculty of Nursing requires the following:

Master of Nursing (course-based)
a) Successful completion of the following core courses: Nursing 605, Nursing 611, Nursing 621, Nursing 683, Nursing 691, Nursing 693, Nursing 695
b) One graduate level half-course in statistics
(Statistics 603)
c) Two graduate level half-course electives related to the student’s focus of study

Master of Nursing/Nurse Practitioner
d) Successful completion of the following core courses: Nursing 605, Nursing 611, Nursing 621, Nursing 661, Nursing 663, Nursing 665, Nursing 663, Nursing 691
b) One graduate level half-course in statistics
(Statistics 603)
f) Successful completion of the following core NP courses: Nursing 641, Nursing 644, Nursing 646, Nursing 650, Nursing 667

Post Master’s Nurse Practitioner Diploma
g) Successful completion of pre-requisite courses: Nursing 661, Nursing 663, Nursing 665
h) Successful completion of the following core NP courses: Nursing 641, Nursing 644, Nursing 646, Nursing 650, Nursing 667

Post Master’s Nurse Practitioner Diploma

For the Nurse Practitioner practicum component of the integrated MN/NP and for the PMNP, there are additional requirements:
Mandatory participation of NP students in all activities related to practicum courses. NP students’ practicum experiences may be scheduled at various hours, including evenings, nights and weekends. Practicum experiences may also extend outside of the normal academic term. Normally, a student will not be permitted to withdraw from a NP practicum course in order to avoid a failing grade in that course.

Master of Nursing (thesis-based)
a) At minimum successful completion of the following core courses: Nursing 605, Nursing 611, Nursing 621, Nursing 675, Nursing 683
b) One graduate level half-course in statistics
(Statistics 603)

Evaluation of nursing practicum will be weighted at 40% of the final grade across all of the practica in the MN course-based and MN thesis-based programs, with a weight of 60% for the seminar component.

Doctor of Philosophy
a) For students prepared at the Master’s level in nursing a minimum of six half-courses is required: Nursing 705, Nursing 769, two courses in advanced research methods, and two doctoral thesis seminars (Nursing 711 and Nursing 733)
b) Students in the doctoral program are required to take one of the 700-level advanced research methods courses offered in the Faculty of Nursing, either Nursing 721 or Nursing 783.
c) After completion of the student’s course work and approval of the thesis research proposal, a candidacy examination with a written and an oral component is required.

Baccalaureate and non-nursing Master’s prepared applicants must complete additional coursework beyond the six core half-courses listed in (a). Applicants are individually assessed. The number and types of additional courses required will vary according to the applicant’s academic, research and practice background as well as the proposed research plan.

6. Additional Requirements
None.

7. Credit for Undergraduate Courses
Under special circumstances, with the consent of the Faculty, students may take undergraduate courses, normally at the senior or 500-level, for the Master of Nursing degree.

8. Time Limit
Expected completion time for full-time students in the Master of Nursing program is two years. Maximum completion time is four years for the thesis-based program and six years for the course-based program including the MN/NP. The PMNP is one year, full-time study. Expected completion time for doctoral students is four years; maximum completion time is six years.

9. Supervisory Assignments
a) The supervisor for an MN thesis student must be determined by the end of the student’s first term in program.
b) In addition to normal regulations for assignment of supervisors in the MN program, a supervisory
committee must be struck for all MN thesis students by the end of the student’s second term in program (usually April).

c) Doctoral students require a Faculty of Nursing member to commit to their supervision as a condition of admission.

10. Required Examinations

Master of Nursing (course-based)
A comprehensive examination consists of a take-home written exam, designed according to the student's specialization, and an oral component. The written component must be completed within one week and constitutes the basis for a final oral examination two weeks later.

For the Nurse Practitioner component of the integrated MN/NP, all courses, with the exception of Nursing 650, must be completed prior to the MN comprehensive examination.

The final exam in the MN/NP and the PMNP includes an experiential practice component and an oral examination.

Master of Nursing (thesis-based)
The final oral thesis examination is open.

Doctor of Philosophy
The doctoral candidacy examination has a written and an oral component. The written component focuses on three areas:

a) the theory that defines existing knowledge in the student’s chosen area of nursing research;

b) the literature that defines existing knowledge in the student’s chosen area of nursing research;

c) the proposed research method and data analysis/management strategy chosen for the thesis. The student has three weeks to complete the written component. The candidacy committee has approximately two weeks to review the written submission before the oral examination.

The final doctoral oral thesis examination is open.

11. Research Proposal Requirements

Doctoral students must have their research proposals approved in principle by their supervisory committee prior to candidacy. Students must receive formal approval of their research proposals from the supervisory committee before proceeding to ethical review and implementation of the project. The approved proposal will be housed in the Research Office, Faculty of Nursing.

Students whose research involves human subjects must receive ethics approval from the University of Calgary Conjoint Health Research Ethics Board.

12. Special Registration Information

None.

13. Financial Assistance

Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar. Scholarship application packages will be available on the Faculty of Nursing Website prior to each competition deadline. The application deadline for internal scholarships is 1 February. Students admitted to the doctoral program are highly encouraged to seek external funding to support their studies and research. Please note that the deadlines for external funding applications may not coincide with the 1 February deadline.

14. Other Information

None.

15. Faculty Members/Research Interests

Current faculty and their research interests can be found at http://nursing.ucalgary.ca/directory

GRADUATE DEGREE PROGRAMS & COURSES

Nursing 641  H(24S-68 within 6-week block)
Nurse Practitioner Practicum I
Opportunity for students to acquire advanced knowledge and skills related to clinical decision-making and client management of commonly presented health problems.
Prerequisites or Corequisites: Nursing 661, 663 and 665 or equivalent, or consent of the Faculty, registration in Post-Master’s NP Diploma program or the integrated MN/NP program.
NOT INCLUDED IN GPA

Nursing 644  F(52S-180 within 6-week block)
Nurse Practitioner Practicum II
Diagnostic and management skills related to care of patients. Further development of skills in clinical history taking, physical assessment, and diagnostic testing.
Prerequisite: Nursing 641.
NOT INCLUDED IN GPA

Nursing 646  F(52S-180 within 6-week block)
Nurse Practitioner Practicum III
Learning opportunities and practice experience with emphasis on clinical diagnosis, diagnostic imaging, laboratory tests, differential diagnosis, and patient management.
Prerequisite: Nursing 644.
Note: Not open to students with credit in Nursing 648.
NOT INCLUDED IN GPA

Nursing 648  F(52S-180 within 6-week block)
Nurse Practitioner Practicum III (Neonatal)
Learning opportunities and practice experience in Neonatal Intensive Care and Special Care Nursery with emphasis on clinical diagnosis, diagnostic imaging, laboratory tests, differential diagnosis, and management of high-risk hospitalized infants. Open to Neonatal Nurse Practitioner students only.
Prerequisite: Nursing 644.
Note: Not open to students with credit in Nursing 646.
NOT INCLUDED IN GPA

Nursing 650  F(16S-292 within 8-week block)
Nurse Practitioner Practicum IV
Consolidation of components of NP role in specialty focus.
Prerequisites: Nursing 667 and one of 646 or 648.
NOT INCLUDED IN GPA

Nursing 661  H(3S-0 within 3-week block)
Advanced Pathophysiology and Therapeutics
Study of pathophysiological phenomena and therapeutics at an advanced level. Classes will be a combination of didactic presentations, seminars and case studies. Students are invited to explore morbidity and mortality in the Canadian population in general and in their area of focus in particular.
Prerequisite: Consent of the Faculty.

Nursing 663  H(3S-1)
Pharmacotherapeutics in Advanced Nursing Practice
Principles of drug action, pharmacokinetics and pharmacotherapeutics in the context of advanced nursing practice. Opportunity to investigate pharmacotherapies specific to student’s individual client populations.
Prerequisite: Consent of the Faculty.
Nursing 665  H(3SS-30 within 3-week block)
Advanced Health Assessment
Builds upon fundamental health assessment skills to provide a solid foundation for advanced assessment. Focuses on history taking physical examination, diagnostic reasoning and clinical judgement, as well as selected diagnostic skills necessary for advanced practice.
Prerequisite: Consent of the Faculty.

Nursing 667  H(3S-0 within 3-week block)
Nurse Practitioner Practice Issues and Role Integration
Systems aspects related to management of complex health problems in NP practice, medical-legal and role development in extended practice environment.
Prerequisite: Nursing 646 or 648.

Nursing 675  H(2S-1T-12)
Advanced Nursing Practice: MN Thesis and MN/NP
Application of advanced nursing knowledge to practice. Emphasis on evidence based assessment tools and intervention skills for advanced practice with individuals, families, or communities. Development of a conceptual framework that could be used to guide advanced nursing practice or the research project.
Prerequisites: Nursing 605 and 611.
Note: Not open to students with credit in Nursing 691.
Note: Open to MN Thesis and MN/NP students only.

Nursing 681  H(3S-0)
Families and Illness
Facilitates understanding of the reciprocity between illness and family dynamics. Emphasis is on the family dynamics when a family member is experiencing a chronic illness, life-threatening illness or a psychosocial problem.
Prerequisite: Consent of the Faculty.

Nursing 683  H(3S-0)
Health Research Methods: Qualitative Designs and Analyses
Exploration of research methods based primarily on inductive reasoning. Methods, issues and techniques of sampling, data collection, analysis, and interpretation will be explored. Experience will be provided in data collection, management, and analysis.
Prerequisite: Consent of the Faculty.

Nursing 685  H(3S-0)
Family Research
This interdisciplinary course addresses the conceptual and methodological research issues encountered when the family is the unit of measurement and analysis. The focus will be on critique of research addressing family variables in health care and illness.
Prerequisite: Consent of the Faculty.
Note: A graduate level research methods course is required.

Nursing 691  H(2S-1T-12)
Advanced Nursing Practice I
Application of advanced nursing knowledge to practice in student's area of specialty. Emphasis on applying and evaluating assessment and intervention skills for advanced practice with individuals, families, or communities. Beginning development of a conceptual framework for advanced nursing practice.
Prerequisites: Nursing 605 and 611.
Note: Not open to students with credit in Nursing 675.

Nursing 693  H(2S-1T-12)
Advanced Nursing Practice II
Extension and application of a conceptual framework for advanced practice in student’s specialty area. Further clinical practice in assessments, interventions, and evaluation with individuals, families, or communities.
Prerequisite: Nursing 691.

Nursing 695  H(2S-1T-12)
Advanced Nursing Practice III
Evaluation of how advanced nursing practice provides a new framework for leadership in the clinical and research areas. Development of strategies whereby advanced nursing practice enables clients, their families and communities, including organizations and regions, to design innovative responses across the continuum of care.
Prerequisite: Nursing 693.

Nursing 701  H(3-0)
Doctoral Special Topics
Prerequisite: Consent of the Faculty. MAY BE REPEATED FOR CREDIT

Nursing 705  H(3-0)
Philosophy of Science in Nursing
Exploration of major philosophical positions and their contributions to the generation and evaluation of knowledge. Examination of the development and evolution of nursing knowledge.
Prerequisite: Consent of the Faculty.

Nursing 707  H(39 hours)
Directed Study
Prerequisite: Consent of the Faculty. MAY BE REPEATED FOR CREDIT

Nursing 721  H(3-0)
(Formerly Nursing 701.02)
Advanced Quantitative Research Methods
Opportunities for developing nurse scientists and other health professional doctoral students to increase understanding of, and ability to utilize, quantitative research methods for scientific inquiry. Focuses on identifying issues/dilemmas arising during the research process and methods to address these challenges.
Prerequisite: Nursing 621 or equivalent.

Nursing 733  H(2S-0)
Doctoral Thesis Seminar
Opportunity for students to discuss development of their thesis proposal with a focus on the question, design, ethical considerations, and funding.
Prerequisites: Nursing 705 and one graduate level advanced research course. NOT INCLUDED IN GPA

Nursing 711  H(2S-0)
(Formerly Nursing 735)
Doctoral Scholarship in Nursing
Focus on development of a nurse scientist. Seminar discussions will address launching a viable and fundable program of research, grantmanship, managing multi-disciplinary research teams, and establishing a record of publication and dissemination.
Prerequisite: Consent of the Faculty. NOT INCLUDED IN GPA

Nursing 769  H(3-0)
Contemporary Issues in Health Care
Theoretical examination of concepts and research for increasing the availability and accessibility of health care. Appraisal of the relationships among leadership, policy and practice issues from a multidisciplinary perspective.
Prerequisite: Consent of the Faculty.

Nursing 783  H(3-0)
(Formerly Nursing 701.01)
Advanced Qualitative Research Methods
Exploration of the philosophical foundations and practice of qualitative research methods in health care inquiry. Emphasis on interpretive assumptions and practices relevant to the conduct of qualitative research.
Prerequisite: Nursing 683 or equivalent.

PHILOSOPHY  PHIL
Contact Info
Location: Social Sciences Building, Room 1248
Faculty number: (403) 220-5533
Fax: (403) 289-5898
E-mail address: philgrad@ucalgary.ca
Web page URL: http://www.phil.ucalgary.ca

1. Degrees and Specializations Offered
Doctor of Philosophy (PhD)
Master of Arts (MA), course-based (full and part-time) and thesis-based (full-time)
The Department also offers a Master of Arts degree with a specialization in the History and Philosophy of Science and a Master of Arts degree with a specialization in the Philosophy of Religion. These two degrees are offered in cooperation with the Departments of History and Religious Studies respectively.

2. Admission Requirements
In addition to the Faculty of Graduate Studies requirements, the Department requires a third letter of reference, and a sample of written work, such as a recent essay, written in English. Applications will not be considered without a sample of written work.

3. Application Deadline
The deadline for submitting complete applications is 15 January for September admission. Candidates applying for financial assistance should ensure that all documents relevant to their scholarship application reach the Department by 15 January. The Department makes its first round of decisions for financial support by the end of March. Although most applications are for September admission, January admission is also possible.

4. Advanced Credit
The Department does not normally give advanced credit for courses taken previously. However, in special circumstances, a request for advanced credit may be considered if it is made as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to raise the grade point average to a level required for admission.
Normally, advanced credit may be given for a maximum of three half-course equivalents.

5. Program/Course Requirements
Note: Normally, in both Master's and Doctoral programs, no more than one half-course of Directed Reading can be taken for credit.

In addition to Faculty of Graduate Studies requirements, the Department requires:

Master of Arts (thesis-based)
- a) A minimum of six half-course equivalents
- b) In the specializations History and Philosophy of Science or Philosophy of Religion, courses taken in History or Religious Studies, may, with departmental approval, count as fulfilling course requirements for the degree

Master of Arts (thesis-based) with Specialization in the History and Philosophy of Science
- a) Two half-course equivalents (two terms) in the philosophy of science
- b) Two half-course equivalents (two terms) in the history of science
- c) Two half-course equivalents (two terms) in the history and philosophy of science
- d) Proficiency in a second language or logic, depending on the department of enrolment

Master of Arts (course-based)
- a) A minimum of 10 half-courses, including at least two half-courses in the History of Philosophy and two half-courses in 20th Century or Contemporary Philosophy
- b) Students to remedy background deficiencies, if any, in a certain area or areas of philosophy by taking course work below the 500 level
- c) Students must complete at least one half-course in each annual registration period

Doctor of Philosophy
- a) Normally, a minimum of six half-courses for students with a Master of Arts degree
- b) Normally, a minimum of twelve half-courses for students entering directly from an honours undergraduate program
- c) Students to show competence in logic, which may be done by achieving a grade of B or better in Philosophy 379

6. Additional Requirements
None.

7. Credit for Undergraduate Courses
Normally, no undergraduate courses will be credited towards completion of course requirements in a graduate program.

8. Time Limit
Expected completion time for full-time students is two years in a Master's thesis program, three years in a Master's course-based program, and four years in a doctoral program. Maximum completion time is four years for a Master's thesis program, and six years for a Master's course-based or doctoral program.

9. Supervisory Assignments
Students are assigned an interim advisor until they have an opportunity to become acquainted with other members of the faculty. Each student must have a supervisor by the end of the second regular academic session after first registration (April for September registrants and December for January registrants) and well in advance of the student's determination of areas for the final examination. The choice of supervisor must be by mutual arrangement between the student and staff member concerned, and approved by the Department.

A supervisory committee at the Master's level is not normally appointed. When such a committee is deemed necessary, the Dean's approval must be obtained.

A doctoral student shall be under the general supervision of a supervisory committee. After consultation with the student, the supervisor will submit a list of possible members of the supervisory committee to the Graduate Studies Committee for approval. The supervisory committee should be established as soon as possible and no later than three months after the supervisor's appointment.

10. Required Examinations

Doctor of Philosophy

Departmental Preliminary Examinations
Students will be required to show competence in three of the following four areas:

| Area I – metaphysics and epistemology |
| Area II – history of philosophy |
| Area III – philosophy of language and logic |
| Area IV – moral and political philosophy |

The student chooses three areas. Competence in an area is shown by submitting a satisfactory essay or passing an examination. At least one area must be passed by either a sit-down or take-home examination. Exams are administered, and essays accepted, four times yearly. All three areas must be passed within 20 months of registration. Students who have not passed three areas within 20 months of registration will not normally receive further Departmental support.

Oral Candidacy Examination
After completion of required course work and preliminary examinations, the doctoral student must pass an oral candidacy examination prior to beginning the doctoral thesis. Before the examination, the student must submit a thesis proposal (approximately 20 pages) that will serve as the basis of discussion at the examination. The purpose of the examination is to ascertain whether the student's academic preparation and ability are adequate to pursue profitable research on the issues proposed. Questions on the research proposal will be included in the oral candidacy examination.

Master of Arts (course-based)

The course-based Master of Arts has a research constituent. This constituent is to be satisfied by passing all components, written and oral, of the final Master's examination.

A final Master's examination of overall competency is required after completion of all course work, consisting of written and oral components. Effective July 1, 2009, the Department of Philosophy will be monitoring and overseeing this examination.

- a) Details of the written component:
  i. The written component will consist of two three-hour written examinations. The written examinations are to be completed within one week.
  ii. The written component of the examination must be judged to be either acceptable ('Pass') or unacceptable ('Fail').

b) The student shall not be permitted to proceed to the oral component if the student does not secure a 'Pass' on the written component.

c) The oral examination will be held within two weeks following the written component. The oral examination will not be limited to the questions in the written examinations but will test the student's general knowledge of the areas selected for examination.

d) Details of the oral component:
  i. The oral examination is a formal examination, not informal discussion with the student.
  ii. All examiners must be given an opportunity to question the student early in the examination, e.g. by rounds of questioning.
  iii. The oral examination shall not exceed two hours. This does not include deliberation time of the committee.
  iv. The oral component of the examination must be judged to be either acceptable ('Pass') or unacceptable ('Fail').

e) Each examiner is required to submit a written assessment of the of the student's written examination performance, to be submitted to the Chair of the examination committee prior to the examination.

f) The result of the Final Master's Examination shall be either 'Pass' or 'Fail'. To secure a 'Pass', the student must obtain a 'Pass' on both the written component and the oral component of the examination. In the event of a failure, the examining committee may recommend that the student be given an opportunity to take the failed component of the examination again between two and six months from the date of the first attempt. No more than two attempts will be permitted.

Thesis Programs
The candidacy exam has a written component, the student's research proposal. This proposal must be submitted to all members of the candidacy examining committee at least two weeks before the examination. The candidacy oral can include questions on the research proposal. Thesis oral examinations are open.

11. Research Proposal Requirements
The research proposal is to be submitted in accordance with Faculty of Graduate Studies requirements.

12. Special Registration Information
Incoming students meet with the Department of Philosophy Graduate Director to discuss their programs and to decide which courses to take.

13. Financial Assistance
Most thesis students admitted to the program receive some level of financial support from the Department. Suitably qualified Master's students may be given a guarantee of financial support from September of their first year to the end of April of their second year. All doctoral students receive a guarantee of financial support for the four years of their program. For information on awards, see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships must submit their applications to the Department by 15 January.

14. Other Information
None.
PHYSICS AND ASTRONOMY

Contact Info
Location: Science B, Room 605
Faculty number: (403) 220-3617
Fax: (403) 289-3331
E-mail address: gradinfo@phas.ucalgary.ca
Web page URL: http://www.phas.ucalgary.ca

1. Degrees and Specializations Offered
Doctor of Philosophy (PhD)
Master of Science (MSc), course-based and thesis-based
Areas of specialization: Astrophysics, Medical Physics, Physics, Radiation Oncology Physics, and Space Physics
Post PhD Diploma in Radiation Oncology Physics

2. Admission Requirements
In addition to Faculty of Graduate Studies and Faculty of Science requirements, the Department requires:

a) A University of Calgary Honours background in Physics, Engineering Physics, Astronomy/Astrophysics, or equivalent
b) For some applicants, a satisfactory score on the Advanced Physics Graduate Record Examination

Master of Science
Applicants to the Master of Science program, whose background does not include the equivalent of an undergraduate honours degree in the proposed area of study, may require additional make-up courses. Such applicants should consult with the department regarding their admission status.

Doctor of Philosophy
For the Post-PhD Diploma program, applicants must possess a PhD from a CAMPEP accredited graduate program or equivalent and an appointment as an Associate Medical Physicist by the Alberta Cancer Board

3. Application Deadline
Deadlines for the submission of complete applications:
1: March for September admission
1 July for January admission
Late applications will be considered if any openings remain in the graduate program.

4. Advanced Credit
The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

5. Program/Course Requirements
In addition to Faculty of Graduate Studies and Faculty of Science requirements, the Department requires:

Post PhD Diploma
Eight half course equivalents including MDPH 711, 712, 721, 722, 731, 741 and two of HROD 793, HROD 741 or SGMA 797.01

6. Additional Requirements
None.

7. Credit for Undergraduate Courses
Credit for a maximum of two half-course equivalents may be given for courses taken at the 500-level.

GRADUATE DEGREE PROGRAMS & COURSES

15. Faculty Members/Research Interests
The faculty's main interests and specialties can be found at: http://www.phil.ucalgary.ca/people/

Graduate Courses
With the exception of Philosophy 590 and Philosophy 595, courses numbered 500-599 may be taken for credit in the Graduate program in Philosophy. Details of the specific topics to be taught in all 600-level courses in Philosophy will be announced in the Department brochure and, when possible, in the Schedule of Classes.

Topics in the Philosophy of Mind
Topics in Logic
Topics in Philosophical Logic and the Philosophy of Science
Topics in Philosophy of Religion
Topics in Metaphysics
Topics in the History of Philosophy
Philosophy 623 (formerly Philosophy 621)
Topics in Social and Political Philosophy
Topics in Epistemology
Philosophy 667
Topics in Philosophy of Science
Philosophy 671
Topics in Philosophical Logic and the Philosophy of Language
Philosophy 679
Topics in Logic
Philosophy 683 (formerly Philosophy 681)
Topics in the Philosophy of Mind
Philosophy 691
Topics in Philosophical Analysis

Post PhD Diploma
Eight half course equivalents including MDPH 711, 712, 721, 722, 731, 741 and two of HROD 793, HROD 741 or SGMA 797.01
8. Time Limit
Expected completion time is two years for full-time students in a thesis Master’s program, three years in a course-based program, four years in a doctoral program, and two years in the Post-PhD Diploma program. Maximum completion time is four years for a thesis Master’s program, and six years for a course-based Master’s or a doctoral program.

9. Supervisory Assignments
Newly admitted students will normally be supervised by the graduate coordinator or an interim supervisor in their field of interest during the first year in program. During this time students will normally complete all of the course work and have an opportunity to become acquainted with the research of potential supervisors within the department.

Students are responsible for securing a permanent supervisor from among the researchers within the department by the end of their first year in program. Registrants in the Post-PhD Diploma program are supervised by the Director of Medical Physics or designate, Tom Baker Cancer Centre.

10. Required Examinations
Master of Science (course-based)
Two weeks before the comprehensive oral examination, students must write a three-hour, closed-book comprehensive examination, prepared by the Departmental Graduate Affairs Committee in collaboration with the supervisor.

Doctor of Philosophy
Students are required to write a qualifying examination within their first year in program. This uniform examination, taken by all students, examines the student’s background in undergraduate physics at the honours level. The examination will normally be conducted during May or June, and again in December. Students who fail the examination the first time will retake it during the next sitting of the examination. A second failure will result in the withdrawal of the student from the doctoral program.

Students are required to complete the oral candidacy exam. This exam may include questions on the written examination, general research knowledge and thesis proposal.

Final thesis defence is required. The oral thesis defence is open.

11. Research Proposal Requirements
Students entering a doctoral program with a completed Master’s degree must submit a written thesis proposal within 24 months of initial registration. Students entering a doctoral program with a Bachelor’s degree, or who have transferred into the doctoral program from a Master’s program, must submit a written thesis proposal within 25 months.

12. Special Registration Information
Registration in the Post-PhD Diploma program is contingent upon employment by the Alberta Cancer Board as an Associate Medical Physicist.

13. Financial Assistance
Financial assistance may be available to qualified students. For information on awards, please see the Awards and Financial Assistance section of this Calendar.

GrADUATE DEGREE PROGRAMS & COURSES

Awards and Financial Assistance section of this Financial assistance may be available to qualified

13. Financial Assistance
Board as an Associate Medical Physicist.

Students applying for scholarships must submit their applications to the Department by February 1. Registrants in the Post-PhD Diploma program must hold an Associate Medical Physicist position, which is a paid appointment

14. Other Information
See the Department website.

Astrophysics (ASPH)

Undergraduate Courses
Only where appropriate to a student’s program may graduate credit be received for courses numbered 500-599, which are undergraduate courses.

Astrophysics 503 H(3-0)
The Interstellar Medium
Multimwavelengt observations of gas and dust in our Galaxy; distribution and physics of neutral atomic hydrogen and molecules; interstellar chemistry; physics of dust grains; HII regions; interstellar shocks; gas dynamics; star formation.

Prerequisite: Astrophysics 403.

Astrophysics 507 H(1-6)
Senior Astrophysics Laboratory
Lectures and laboratory sessions in observational astronomy. Modern methods of observation, data reduction, and analysis. Observations will be carried out at the Robeney Astrophysical Observatory and/or the main campus.

Prerequisite: Astronomy 213 or Astrophysics 213.

Prerequisite or Corequisite: Any 400-level Astrophysics course.

Astrophysics 509 H(3-0)
High Energy Astrophysics and Cosmology
Clusters of galaxies; microwave and X-ray background radiation; dark matter and dark energy; overview of cosmology; general relativistic considerations; large-scale structure and expansion of the universe; nucleosynthesis; gamma ray bursts and cosmic rays.

Prerequisite: Astrophysics 503.

Graduate Courses

Astrophysics 607 H(3-3)
Advanced Observational Astrophysics
Principles and tools of modern ground-based and space astronomy emphasizing ultraviolet, optical, infrared, and radio radiation. Data acquisition and reduction techniques for astrometry, photometry, spectroscopy, imaging, and interferometry. Use of astronomical data analysis software.

Astrophysics 611 H(3-0)

Radio Astronomy
Wave propagation, antennas, interferometry, aperture synthesis, radio receivers, and spectrometers. Applications to continuum and line radiation in stars, interstellar medium and extragalactic objects.

Astrophysics 621 H(3-0)

High Energy Astrophysics
Interaction of high energy particles with matter, propagation and origin of cosmic rays; structure of white dwarfs and neutron stars; the physics of jets and the accretion process onto compact objects; supernovae and supernova remnants; active galactic nuclei.

Astrophysics 699 H(0-9)
Projects in Astrophysics
Each student will select a project in consultation with a staff member. The project may be experimental or theoretical in nature. A written report and an oral presentation are required.

Medical Physics (MDPH)

Graduate Courses

Medical Physics 623 H(3-0)

Radiological Physics and Radiation Dosimetry
Photon and electron interactions, charged particle and radiation equilibrium, cavity theory, absolute and relative dosimetry, calibration protocols.

Prerequisite: Consent of the Department.

Medical Physics 625 H(3-0)

Radiation Oncology Physics
Clinical photon and electron beams, brachytherapy, treatment planning, radiation therapy devices, special techniques.

Prerequisites: Medical Physics 623 and consent of the Department.

Medical Physics 633 H(1-3)

Radiation Oncology Physics Laboratory
Absorption dose determination, dose descriptors, photon beam modeling, quality control.

Prerequisites: Medical Physics 625 and consent of the Department.

Medical Physics 637 H(3-0)

Anatomy and Statistics for Medical Physicists
Anatomy, physiology, probability, statistical inference, hypothesis testing, regression models, clinical trials, survival analysis.

Prerequisites: Medical Physics 623 and consent of the Department.

Medical Physics 639 H(3-0)

Radiobiology and Radiation Safety for Medical Physicists
Cell kinetics, cell survival curves, radiation pathology, fractionation, radiation safety, shielding calculations.

Prerequisites: Medical Physics 625 and consent of the Department.
GRADUATE DEGREE PROGRAMS & COURSES

<table>
<thead>
<tr>
<th>Medical Physics 711</th>
<th>H(0-8)</th>

</thead>
</table>

**Clinical Competency 1**
This three credit hour course extends over the first year of the diploma program and consists of rotations through areas of clinical physics under the supervision of adjunct faculty. Objectives are set, in conjunction with the student, at the commencement of the three rotations comprising this course. Student performance is evaluated by the course mentors at the conclusion of each rotation and by a final oral examination.

<table>
<thead>
<tr>
<th>Medical Physics 712</th>
<th>H(0-8)</th>
</tr>
</thead>
</table>

**Clinical Competency 2**
This three credit hour course extends over the second year of the diploma program and consists of rotations through more complex areas of clinical physics under the supervision of adjunct faculty. Objectives are set, in conjunction with the student, at the commencement of the three rotations comprising this course. Student performance is evaluated by the course mentors at the conclusion of each rotation and by a final oral examination.

**Prerequisite:** Medical Physics 711.

<table>
<thead>
<tr>
<th>Medical Physics 721</th>
<th>H(0-8)</th>
</tr>
</thead>
</table>

**Clinical Projects 1**
Two to three clinical projects are completed during this three credit hour course extending over the first year of the program. Projects have clearly defined objectives established by mutual agreement between the student and project supervisor. The project culminates in a written report. Student performance is evaluated against the objectives established at the commencement of the project.

<table>

**Clinical Projects 2**
Two to three clinical projects are completed during this three credit hour course extending over the second year of the program. Projects have clearly defined objectives established by mutual agreement between the student and project supervisor. The project culminates in a written report. Student performance is evaluated against the objectives established at the commencement of the project.

**Prerequisite:** Medical Physics 721.

| Medical Physics 731 | H(2T-0) |

**Radiation Oncology Physics Tutorials**
This three credit hour course requires the student to prepare written answers to 120 pre-set questions published by the Canadian College of Physicists in Medicine as part of the certification process in Radiation Oncology Physics. The course is conducted in a tutorial setting and the students are evaluated on the basis of their answers to a subset of the questions.

| Medical Physics 741 | H(0-4) |

**Treatment Planning**
This three credit hour course has three components and will be spread over the two years of the program to ensure that the student's increasing knowledge can be consolidated into a thorough understanding of radiation oncology physics. The first component is the observation of simulation and localization under the supervision of a radiation oncologist. The second component is an in-depth study of the physics behind the treatment planning of the main tumour sites. This component utilizes a web based tool and is led by adjunct faculty. The final component involves following ten patients through the entire radiation therapy process from immobilization through localization, treatment planning, treatment delivery to verification. The students' progress will be evaluated throughout the course with regular feedback to the student.

| Medical Physics 751 | H(0-4) |

**Physics (PHYS)**

### Undergraduate Courses

<table>
<thead>
<tr>
<th>Physics 535</th>
<th>H(3-0)</th>
</tr>
</thead>
</table>

**Computational Methods in Physics**
Solution of problems associated with the analysis of physical systems, using digital computers, high level programming languages, and mathematical computation systems (e.g., Maple, Maccyma).

**Prerequisites:** Physics 443 or Chemistry 373; Physics 455 and 499 or 381.

**Note:** A knowledge of a high level programming language (C, C++, Fortran or Pascal) is highly recommended.

| Physics 543 | H(3-0) |

**Quantum Mechanics II**
Theory of angular momentum and applications, perturbation theory and applications. Identical particles. Introduction to relativistic wave equations.

**Prerequisite:** Physics 443 or Chemistry 372.

| Physics 561 | H(2-1) |

**Stable and Radioactive Isotope Studies, Fundamentals**
A multidisciplinary course. Topics include nucleosynthesis, radioactive decay, isotope exchange phenomena, kinetic isotope effects, tracer techniques, molecular spectra and instrumentation.

**Prerequisite:** Consent of the Department.

| Physics 571 | H(3-0) |

**Laser Physics**
Theoretical aspects of lasing and lasers. Principles of operation of solid-state, liquid, and gas lasers.
Applications of laser systems to research, medical, and industrial projects.

**Prerequisites:** Physics 443, 455.

**Note:** Physics 449 is suggested but not required.

| Physics 573 | H(3-0) |

**Atmospheric and Environmental Physics**

**Prerequisite:** Physics 347 or 447 or Chemistry 371 or consent of the Department.

| Physics 575 | H(3-3) |

**Optics**

**Prerequisites:** Physics 325, 457, Applied Mathematics 413.

**Note:** Credit will not be allowed for both Physics 575 and 471.

| Physics 597 | H(1-6) |

**Senior Physics Laboratory**
Selected advanced experiments. Where possible, students may choose those experiments most suited to their interests. Development of technical and computer-based skills, technical writing and presentation skills.

**Prerequisite:** Physics 497 or Physics 325, 355, and 407.

| Physics 598 | F(0-6) |

**Research in Physics**
Research project in Physics.

**Prerequisites:** Physics 443, 449, 455 and consent of the Department.

**Physics 691**

**Electrochemistry**

Electrochemistry is a branch of chemistry that studies the relationships between electricity and chemical reactions. It is concerned with the study of the reversible chemical reactions occurring at the electrode/solution interface, and the electric currents generated or consumed in such processes. Understanding these interactions is crucial in various fields, including energy storage and conversion, biosensing, and material science. **Prerequisite:** Consent of the Department.
GRADUATE DEGREE PROGRAMS & COURSES

Political Science Department at the University of Calgary
- One of these courses must be POLI 791: Scope and Methods of Political Science
- A maximum of two half-courses may be reading courses
- Language courses will not be considered part of the six half-course requirement
b) PhD Students must demonstrate a basic knowledge of research methods equivalent to POLI 691. If students are required to take POLI 691, it will not be considered part of the six half-course equivalent.
c) A candidacy examination with written and oral components, normally completed within sixteen months of first registration.
d) A thesis proposal, defended within one month of the oral candidacy exam.
e) A demonstration of reading proficiency in a language other than English, as determined by the supervisory committee. Normally students without prior reading proficiency will be required to achieve a grade of at least B in one full-course equivalent in a second language.

6. Additional Requirements
None.

7. Credit for Undergraduate Courses
The department does not give graduate credit for courses taken below the 600-level, except in special cases.

8. Time Limit
Maximum completion time is four years for a Master’s program and six years for a doctoral program.

9. Supervisory Assignments
Master of Arts
Wherever possible, an incoming student should have a specific supervisor in mind when applying for the program and should initiate supervisory arrangements with this faculty member. A supervisor is determined as a result of consultations involving the student and the graduate coordinator (and/or Department Head), normally within the first term of the student’s program, but the supervisor must be appointed within 12 months of initial registration.

Doctor of Philosophy
Wherever possible, an incoming student should have a specific supervisor in mind when applying for the program and should initiate supervisory arrangements with this faculty member. Supervisory arrangements are normally completed within the first six months of the doctoral program, but the supervisor must be appointed within 12 months of initial registration. Where the matter of supervision is still under consideration, the graduate coordinator usually serves as interim supervisor until a final decision is made.

Supervisory committees for doctoral students are struck as the result of consultations amongst the student, supervisor, and graduate coordinator (and/or Head) and must be established as soon as possible and no later than three months after the supervisor’s appointment.
10. Required Examinations
The doctoral candidacy examination has a written and an oral component. The Department requires two written candidacy examinations, one in the student’s field of thesis research and the other in the student’s second chosen field of study. The examinations test the student’s general knowledge of the fields as well as specific topics within these fields. Examinations are usually three hours long and are scheduled in each of the fall and winter terms at suitably arranged times.

11. Research Proposal Requirements
Doctoral students must submit a written thesis proposal (no more than 20 pages in length) for approval by the supervisory committee.

12. Special Registration Information
None.

13. Financial Assistance
Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships must submit their applications to the Department by 15 January.

14. Other Information
None.

15. Faculty Members/Research Interests
Current departmental research interests can be found at: http://poli.ucalgary.ca/research. Individual faculty members’ areas of research can be found at: http://poli.ucalgary.ca/research

Courses numbered 600-799 are offered either as special reading courses or as seminars, as required. Students should consult the Department regarding enrollment in these courses.

The Department of Psychology offers graduate work leading to the Master of Science and Doctor of Philosophy degrees in psychology and in clinical psychology. These degree programs are described separately below.

Psychology (PSYC)

1. Degrees and Specializations Offered
   Doctor of Philosophy (PhD)
   Master of Science (MSc), thesis-based

2. Admission Requirements
   The Department accepts applicants who plan to remain full-time to the completion of their degree. The program does not offer a part-time option.

   In addition to Faculty requirements, the Department requires:
   a) A four-year undergraduate degree in Psychology or related discipline
   b) A minimum admission grade point average of 3.40 on a four-point scale over the last 20 half-courses
   c) An undergraduate course in statistics/experimental design
   d) An acceptable score on the Graduate Record Examination (Verbal, Quantitative, and Analytical) for students with an undergraduate degree in Psychology. Students not having an undergraduate degree in Psychology must also write the Advanced Subtest.
   e) For applicants required to prove proficiency in English, a TOEFL score of 600 (written test), or 250 (computer-based test), or 100 (internet-based test)

3. Application Deadline
   Deadlines for the submission of completed applications:
   15 January for May or September admission
   1 October for January admission
   The Industrial Organizational Program accepts applications for a September start date only.

4. Advanced Credit
   The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

5. Program/Course Requirements
   Master of Science
   Master’s students must take six half-courses, two of which must come from Psychology 611, Psychology 613, Psychology 615, Psychology 617, or Psychology 619, and two of which must come from Psychology 605, Psychology 621, Psychology 623, Psychology 625, Psychology 627, Psychology 629, Psychology 631, or Psychology 637 (these courses may be repeated for credit), over their 24-month program.

   Doctor of Philosophy
   Doctoral students shall take no fewer than six half-
courses while in the program. The Supervisor and the Director of Graduate Studies, Department of Psychology, must approve all courses. Incoming doctoral students must demonstrate that they have an adequate background in statistics and methodology (including computer applications). Those needing remedial work may be required by the Department of Psychology to take particular courses.

6. Additional Requirements
   None.

7. Credit for Undergraduate Courses
   Credit may be given for 500-level undergraduate courses.

8. Time Limit
   Expected completion time is two years for the Master of Science program and three years for the doctoral program. (Particular circumstances can be taken into account.)

9. Supervisory Assignments
   An interim supervisor is assigned to each student at the time of admission. In no case will a student be admitted if an appropriate supervisor is not expected to be available. The shift from interim to permanent supervisor formally takes place at the end of the first year. The Director of Graduate Studies, Department of Psychology, must approve the permanent supervisor.

10. Required Examinations
    A doctoral student will normally be required to take the candidacy examination within the first 17 - 20 months of the program. The candidacy examination has a written and an oral component. The written examination consists of a thesis research proposal that must be typed and 10 to 30 double-spaced pages (12 pt font, reference list extra). Students must consult with their supervisors. The Oral examination questions will be based on the written thesis proposal and the candidacy reading list.

    Final thesis oral examinations are open.

11. Research Proposal Requirements
    Students whose research involves human subjects must receive approval from the appropriate departmental or University Ethics Review Committee before beginning data collection.

    All Master of Science students must formally present a thesis proposal not more than 14 months (for Master’s level) after admission to the program. The proposal must be typed and 10 to 30 double-spaced pages (12 pt font, reference list extra). Students must consult with their supervisors. The supervisory committee must approve the thesis proposal.

12. Special Registration Information
    None.

13. Financial Assistance
    Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar.

   Students applying for scholarships are advised to submit their applications to the Department by 15 January.

14. Other Information
    Initial inquiries may be made to the Director of Graduate Studies, Department of Psychology.

15. Faculty Members/Research Interests
    The active research interests of the faculty can be found at http://www.psychology.ucalgary.ca.

Clinical Psychology (CPSY)

1. Degrees and Specializations Offered
   Doctor of Philosophy (PhD)
   Master of Science (MSc), thesis-based

   The purpose of the graduate program in Clinical Psychology is to prepare students for careers as doctoral-level clinical psychologists in research, academic, and applied settings. In the course of doctoral training students also are required to complete the Master of Science (MSc) degree. However, consistent with its goal of doctoral training, the program only admits students who wish to pursue the doctoral degree.

   Students registered in Master’s thesis-based and doctoral programs will be considered full-time. The program does not offer a part-time option.

2. Admission Requirements
   In addition to the Faculty requirements, the program requires:
   a) An honour’s degree in psychology (or equivalent) with a minimum grade point average of 3.6 on a four-point scale in the last 10 full courses to be considered for entry, although competition for the program is such that higher grade point averages are typical of students who are admitted
   b) Scores on the Aptitude (Verbal/Quantitative) dimensions of the Graduate Record Examinations (GRE). Please note that students with scores less than the 50th percentile on the Verbal and Quantitative subtests will not normally be admitted.
   c) A statement of research and professional interests, including the specification of prospective research supervisors from among current Program faculty.
   d) For applicants required to provide proof of proficiency in English, a TOEFL score of 600 (written test), or 250 (computer-based test), or 100 (internet-based test)

3. Application Deadline
   The deadline for complete applications is 7 January for September admission.

4. Advanced Credit
   Advanced credit may be given for up to two full-course equivalents of graduate work, if this work is consistent with the program’s requirements.
5. Program/Course Requirements

The Program outline is as follows:

Year 1
Psychology 650, Psychology 651, Psychology 653, Psychology 659, Psychology 660, Psychology 671, Psychology 673, Psychology 615, thesis work

Year 2
Psychology 601, Psychology 650, Psychology 681, Psychology 683, plus a graduate-level Psychology Statistics course or Methodology course (Psychology 617 or equivalent), completion of the thesis

Year 3
Psychology 750, Psychology 760, a graduate-level breadth course, elective, the Candidacy Examination, thesis work

Year 4
Psychology 750, Psychology 762, thesis work

Year 5
Pre-Doctoral Clinical Internship Psychology 798, and completion of thesis oral and written requirements

Breadth course requirements may be satisfied through Psychology 750 and courses offered by the Department of Psychology. A list of approved breadth courses is available through the Graduate Psychology Program Office.

The prerequisite for all Clinical Program courses (unless otherwise noted) is consent of the Program. Successful completion of years one and two, plus the Master of Science thesis, constitute the requirements of the Master of Science degree. Program students must formally apply and be approved by the program and the Faculty of Graduate Studies for admission to the doctoral program upon completion of Master of Science requirements.

6. Additional Requirements

Clinical suitability and professional conduct.

7. Credit for Undergraduate Courses

Credit for one breadth course may be given if the applicant has two senior undergraduate courses in that area. Credit for Psychology 601 may be given if the applicant has a senior undergraduate course in History and Systems of Psychology.

8. Time Limit

It is expected that students will complete the MSc thesis within two years. Students in the MSc program must complete all requirements within four registration years. Students who have taken three years to complete all requirements for the Master’s degree will normally not be admitted into the doctoral program.

9. Supervisory Assignments

Program students must have a research supervisor at all times. Supervisors are arranged by mutual consent of student and faculty member, and are consistent with the focus of the student’s research work. Master’s level students must have a supervisory committee consisting of at least three members, with at least one who is a member of the core clinical faculty. Doctoral candidates must have a supervisory committee of at least three members.

10. Required Examinations

In addition to course-specific written requirements, students must sit a written and oral doctoral candidacy examination in the third year of their program (i.e., the first year of doctoral studies).

The oral candidacy exam will focus on questions on general clinical psychology and research knowledge. Questions on the research proposal will not be included in the oral candidacy examination.

Final thesis oral examinations are open.

A thesis final defence is also required.

11. Research Proposal Requirements

Students in the program must complete both a Master’s thesis and doctoral thesis, according to the criteria set by the Faculty of Graduate Studies. These research projects typically involve the design of a research question and research project, the collection, analysis and interpretation of original data, and the preparation of a written document consistent with good scholarship. Students whose research involves human subjects must receive approval from the appropriate departmental or University Ethics Review Committee before beginning data collection.

12. Special Registration Information

Admission to this Program is normally only available in September of each year.

13. Financial Assistance

Financial assistance may be available to qualified students. Applicants and program students are strongly encouraged to apply for internal and external awards. For information on Awards, see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships must submit their applications to the Department by 15 January.

14. Other Information

The program subscribes to the scientist-practitioner model of clinical training as described in the Canadian Psychological Association’s requirements for program accreditation, and emphasizes the integration of course work, research, and clinical training. The program has been fully accredited by CPA for seven years (2004-2011).

15. Faculty Members/Research Interests

Research and clinical interests of the Program faculty can be found at http://psychology.ucalgary.ca/research/groups

Graduate Courses

Psychology 601 H(3-0)
History and Systems of Psychology
History of psychological concepts in Western culture, major theoretical systems of twentieth century psychology, foundational assumptions of theories in contemporary psychology.
Prerequisite: Consent of the Department.

Psychology 603 H(3-0)
Graduate Conference Course in Psychology
Offered under various subtitles. Consult Department for details.
Prerequisite: Consent of the Department.
MAY BE REPEATED FOR CREDIT

Psychology 604 F(3-0)
Graduate Conference Course in Psychology
Offered under various subtitles. Consult Department for details.

GRADUATE DEGREE PROGRAMS & COURSES
Psychology 621  H(3-0)

Advanced Topics in Sensation and Perception
An in-depth survey of classic findings and contemporary issues in visual and auditory processing, including attentional mechanisms and imaging research.
Prerequisite: Consent of the Department.
MAY BE REPEATED FOR CREDIT

Psychology 622  F(0-3)

Research in Sensation and Perception
Original project on a contemporary research problem in vision and/or audition. Specific project will vary with student and supervisor interest as well as available research facilities. Possible research areas include aspects of sight or hearing, speech perception, visual attention, and age-related changes in these functions.
Prerequisite: Consent of the Department.

Psychology 623  H(3-0)

Advanced Topics in Cognition
An advanced survey of some of the fundamental issues and recent developments in the cognitive sciences.
Prerequisite: Consent of the Department.
MAY BE REPEATED FOR CREDIT

Psychology 624  F(0-3)

Research in Cognition
Empirical research in cognition or cognitive development, conducted under the supervision of a faculty member.
Prerequisite: Consent of the Department.

Psychology 625  H(3-0)

Advanced Topics in Developmental Psychology and Aging
Prerequisite: Consent of the Department.
MAY BE REPEATED FOR CREDIT

Psychology 626  F(0-3)

Research in Development/Aging
Original faculty-supervised research project on a contemporary research problem in infancy, childhood, adolescence or adult aging. While specific project will vary with student and supervisor interest as well as available facilities, possible research areas include age-related differences or change in auditory, cognitive, language, moral, social, clinical or visual functioning.
Prerequisite: Consent of the Department.

Psychology 627  H(3-0)

Advanced Topics in Social/Personality Psychology
Prerequisites: An undergraduate course in social psychology and consent of the Department.
MAY BE REPEATED FOR CREDIT

Psychology 628  F(0-3)

Research in Social/Personality
Completion of an original research project in the areas of social and/or personality psychology.
Prerequisite: Consent of the Department.

Psychology 629  H(3-0)

Advanced Topics in Cognitive Development
An advanced survey of fundamental issues and recent developments in cognitive development.
Prerequisite: Consent of the Department.
MAY BE REPEATED FOR CREDIT

Psychology 631  H(3-0)

Advanced Topics in Behavioural Neuroscience
Prerequisites: Psychology 476, or equivalent and consent of the Department.
MAY BE REPEATED FOR CREDIT

Psychology 632  F(0-3)

Research in Behavioural Neuroscience
Behavioural neuroscience theory and techniques including behavioural analysis, electrophysiological recording and anatomical methods.
Prerequisite: Consent of the Department.

Psychology 637  H(3-3)

Topics in Engineering Psychology
Introduction to psychological principles, research and methods as they relate to human interaction and performance in work settings.
Prerequisite: Consent of the Department.

Psychology 638  F(0-3)

Research in Engineering Psychology
Original project on a research problem in the human factors, including human-computer interaction, driving behaviour, usability, and performance in work settings.
Prerequisite: Consent of the Department.
MAY BE REPEATED FOR CREDIT

Psychology 639  H(3-0)

Advanced Industrial and Organizational Psychology
Application of psychological principles, research and methods relating to human interactions and performance in work settings.
Prerequisite: Consent of the Department.

Psychology 641  H(3-0)

Advanced Topics in Health Psychology
Introduces students to current research issues in health psychology. Focuses primarily on issues related to the study of chronic illnesses and evaluates the role of psychological/behavioural factors in: the etiology of disease, disease prevention, adaptation to illness, and disease progression.
MAY BE REPEATED FOR CREDIT

Psychology 650  F(15-0)

Research Seminar in Clinical Psychology
An introduction to research and design issues in clinical psychology.
Note: Open only to students enrolled in the Clinical Psychology program.
MAY BE REPEATED FOR CREDIT

Psychology 651  H(3-0)

Adult Psychopathology
Current theory, issues, and research regarding the epidemiology, etiology, diagnosis, and prognosis of adult psychopathology. Implications for assessment and treatment.

Psychology 653  H(3-0)

Child Psychopathology
Current theory, issues, and research regarding the epidemiology, etiology, diagnosis and prognosis of child psychopathology. Implications for assessment and treatment. Topics include internalizing and externalizing disorders, risk and protective factors, and developmental continuities and discontinuities in psychopathology.

Psychology 659  H(3-0)

Ethics and Professional Issues in Clinical Psychology
Ethical and legal standards for clinical psychologists. An introduction to professional issues in contemporary clinical practice.
Note: Open only to students enrolled in the Clinical Psychology program.
MAY BE REPEATED FOR CREDIT

Psychology 660  F(0-14)

Summer Practicum in Clinical Psychology
Supervised training experience in an approved clinical setting. Provides exposure to basic issues and techniques in the practice of psychological assessment.
Note: Open only to students enrolled in the Clinical Psychology program.

Psychology 671  H(3-3)

Psychological Assessment of Adults
An overview of theoretical, professional, and ethical issues in the psychological assessment of adult clinical populations. Instruction in the administration and interpretation of assessment procedures for adults including interviews, behavioural assessments, and selected intellectual and personality tests. Supervised practical experience in the application of adult assessments in a relevant clinical setting.
Note: Open only to students enrolled in the Clinical Psychology program.

Psychology 673  H(3-3)

Psychological Assessment of Children
An overview of theoretical, professional and ethical issues in the psychological assessment of child clinical populations. Instruction in the administration and interpretation of child and family assessment procedures including interviews, behavioural assessments, and selected psychological tests. Supervised practical experience in the application of child and family assessments in a relevant clinical setting.
Note: Open only to students enrolled in the Clinical Psychology program.

</table>
### 1. Degrees and Specializations Offered

**Doctor of Philosophy** (PhD)  
**Master of Arts (MA), thesis-based**

The three study streams at the graduate level are Eastern Religions, Nature of Religion, and Western Religions. Feasibility of programs within these streams depends on available research resources and faculty expertise.

Research is supported in the following areas:

- **Eastern Religions** – Buddhist Studies; east Asian Religions; Hinduism; Indian philosophy
- **Nature of Religion** – Comparative religion; African religions; new religious movements; science and religion; women and religion; philosophy and religion; comparative philosophy of religion; hermeneutics; theory and method in the study of religion
- **Western Religions** – Ancient Israel; Hebrew Bible; Bible, myth, and literature; Second Temple Judaism; rabbinic Judaism; early Christianity; Islamic and Jewish philosophy; medieval Jewish-Islamic studies; radical Protestant groups (Anabaptism, German Pietism)

### 2. Admission Requirements

In addition to the Faculty requirements, the Department requires:

- **Master of Arts**
  a) An admission grade point average of 3.3 or higher on a four-point scale and a minimum of six full-course equivalents in Religious Studies (or their equivalents), usually including at least one full-course equivalent from each of the three streams (Eastern, Western, Nature), as determined by the graduate committee  
  b) A reading knowledge of a modern language other than English. At the time of admission, students must demonstrate a reading knowledge of at least two languages other than English.

- **Doctor of Philosophy**
  a) A degree comparable to the University of Calgary Religious Studies Master of Arts with a minimum grade point average of 3.5 on a four-point scale
  b) A reading knowledge of a modern language other than English or of a classical language appropriate to the thesis research. The language requirement normally should be met before admission to the Master’s program.

### 4. Advanced Credit

Applicants must make advanced credit requests when applying for admission. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission. Graduate course work completed before admission and not counted toward satisfying undergraduate degree requirements will be assessed by the Departmental Graduate Committee to determine course requirements.

### 5. Program/Course Requirements

**Note:** The Departmental Graduate Committee will determine the exact number and kinds of courses in each student’s program.

In addition to Faculty requirements, the Department normally requires:

- **Master of Arts (thesis-based)**
  a) Two and a half full-course equivalents, including RELS 609 and at least one half-course in each of the three streams of study, in addition to individualized requirements set by the Departmental Graduate Committee at the time of admission  
  b) A thesis proposal to be presented to the Graduate Studies Committee for evaluation and approval before the second annual registration.

- **Doctor of Philosophy**
  a) For students with a Master of Arts in Religious Studies, five half-courses are required in addition to individualized requirements set by the Departmental Graduate Committee at the time of admission:
    - Religious Studies 701 – Studies in Western Religions
    - Religious Studies 703 – Studies in Eastern Religions
    - Religious Studies 705 – Studies in the Nature of Religion
    - Religious Studies 707 – Topics in the Study of Religion
    - Religious Studies 709 - Advanced Critical Discourses in the Study of Religion
  b) For students with a BA Honours or for students transferring from the Master’s program, eight half-courses are required in addition to individualized requirements set by the Departmental Graduate Committee at the time of admission:
    - Religious Studies 601 – Studies in Western Religions
    - Religious Studies 603 – Studies in Eastern Religions
    - Religious Studies 605 – Studies in the Nature of Religion
    - Religious Studies 701 – Studies in Western Religions
    - Religious Studies 703 – Studies in Eastern Religions
    - Religious Studies 705 – Studies in the Nature of Religion
    - Religious Studies 707 – Topics in the Study of Religion
    - Religious Studies 709 - Advanced Critical Discourses in the Study of Religion

### 6. Additional Requirements

**PhD Language Requirements**

Before the written candidacy examination, doctoral students must demonstrate a reading knowledge of at least two languages other than English. At the discretion of the Department and upon recommendation of the Graduate Coordinator, competency in additional languages may be required. The foreign language requirement may be satisfied in two ways:

a) Successful completion (final grade of B or higher) at some stage of the student’s university program of at least two full-course equivalents in a first language other than English, and one full-course equivalent in a second language; or

b) Successful completion (grade of B or higher) of a language examination administered by the Department of Religious Studies or by another department on behalf of the Department of Religious Studies. When the test is administered by another department, it will consist of a passage or passages selected by the supervisor and/or any requirements that the other department may deem necessary; the test will be graded by the examiner(s) of the other department. When members of the Department of Religious Studies administer the test, the examination questions will be determined, administered, and graded by two members of the Department (one of whom normally will be the supervisor) who have expertise in the language under consideration. In the event that a second person with expertise in the required language is not available, the Department Head may seek an expert from outside the department.

**7. Credit for Undergraduate Courses**

Credit for undergraduate courses will be given only upon approval of the Departmental Graduate Committee.

**8. Time Limit**

Expected completion time for full-time students is two years in the Master’s program and four years in the PhD program. Maximum completion time is four years in the Master’s program and six years in the doctoral program.

**9. Supervisory Assignments**

The Departmental Graduate Committee makes interim supervisory assignments when applicants are recommended for admission to the Faculty of Graduate Studies. A regular supervisor must be assigned by the beginning of the second registration year.

**10. Required Examinations**

The doctoral candidacy examination includes two written components and one oral component. Each written candidacy examination focuses on one aspect of the student’s doctoral research in Religious Studies:

- Examination A – theory and method in the study of religion
- Examination B – religious beliefs and practices in context

The written examinations are based on a bibliography established by the candidate in consultation with the supervisory committee and must be taken no later than 26 months after admission to the program. The oral examination is based on the bibliography, the written examinations. Questions on the research proposal will not be included in the oral candidacy examination.

Final thesis oral examinations are open.
11. Research Proposal Requirements
The thesis proposal must be approved by each member of the student’s supervisory committee, acknowledged by individual signature and date on the front cover, and by the Departmental Graduate Committee, no later than 24 months after admission to the program with a completed Master’s degree. The proposal should be no more than 20 pages in length and must obtain all required approvals before the student is allowed to take the candidacy examination.

An approved thesis proposal is the basis of consensus on a candidate’s research program. When, as sometimes happens in the course of a research project, the research focus or methodology shifts markedly:

a) The candidate shall forward a letter to the supervisory committee to document the shift and the reason for the shift. The student also shall compose an addendum, to be appended to the initial proposal, detailing the new direction and supplying any necessary additions to the bibliography.
b) The supervisor, on behalf of the supervisory committee, will reply to the revised proposal indicating acceptability and/or required revisions.

Students should be aware that such shifts may entail revision of the supervisory committee structure.

12. Special Registration Information
None.

13. Financial Assistance
Financial assistance may be available to qualified students. For information on awards, see the Financial Assistance section of this Calendar or inquire of the Department.

Students applying for scholarships must submit their applications to the Department by 1 February.

14. Other Information
None.

15. Faculty Members/Research Interests
Current faculty research areas can be found at http://www.ucalgary.ca/rels/people

16. Degrees and Specializations Offered

Doctor of Philosophy (PhD)
Master of Social Work (MSW), course-based (full-time and part-time) and thesis-based

PhD
The PhD is a research-based degree and is intended to produce highly qualified social work researchers and teachers. The aim of developing such advanced scholarship and research skills is to equip doctoral students for future roles as leaders of the social work profession. Students complete 9 courses, a candidacy exam, and a thesis.

The Faculty of Social Work also offers a Post-Master’s Diploma in Advanced Studies in Social Work. For information on the Post-Master’s Diploma (PMD) in Advanced Studies in Social Work, consult the Student Services Office in the Faculty of Social Work.

MBA/MSW
The Faculty of Social Work and the Haskayne School of Business offer a combined program leading to the Master of Business Administration/ Master of Social Work (MBA/ MSW) degree.

The Master of Business Administration/ Master of Social Work (MBA/ MSW) program is designed to prepare students for competent and visionary management of human service organizations. This program is available only to full-time students in the Leadership in the Human Services specialization.

MSW
The Faculty of Social Work offers MSW programs in Calgary, Edmonton, and Lethbridge. The objective of the MSW program is to prepare students for advanced professional practice in social work. In all locations, students are required to choose a course-based or thesis route to the degree. The thesis route is appropriate for students who intend to proceed to doctoral studies and/or anticipate a career requiring advanced program evaluation or research skills.

16.1 Calgary Location
In Calgary, after selecting either a course-based or a thesis-based program, MSW students choose one of two specializations: Clinical Practice or Leadership in the Human Services (LEAD). Calgary thesis-based and course-based MSW students in both specializations also have the option of focused study in International Social Work, Child and Family Services, or Gerontology.

16.2 Edmonton Location
In Edmonton, the Faculty of Social Work offers the Clinical Social Work Practice specialization. Program delivery blends web-based and on-site formats, allowing students from Edmonton and throughout central and northern Alberta to continue working while pursuing graduate education. Students with a BSW complete the Clinical Specialization program in 2 years. Students with an undergraduate degree in other disciplines complete a Foundation program followed by the Clinical program, requiring a total of 4 years of study. Admission occurs in odd-numbered years (i.e., 2009, 2011, 2013, etc.).

16.3 Lethbridge Location
In Lethbridge, the Faculty of Social Work offers the Clinical Social Work Practice specialization to students with a BSW. Program delivery blends web-based and on-site formats, allowing students from Lethbridge and southern Alberta to continue working while pursuing graduate education. Students complete the program in 2 years. Admission occurs in odd-numbered years (i.e., 2009, 2011, 2013, etc.).

16.4 Distance Program
The MSW course-based program with a Leadership in the Human Services (LEAD) specialization is also offered as a distance program. Please consult the Faculty of Social Work website: http://fsaw.ucalgary.ca. One course is offered on campus for one week in July in both the first and second years of the program. Other courses are offered via distance delivery. The program is designed to be completed in two years of part-time study. Admission occurs in even-numbered years.

16.5 MBA/MSW Program
The MBA/MSW program is designed to be completed in two years of part-time study. Admission occurs in even-numbered years.
**GRADUATE DEGREE PROGRAMS & COURSES**

**Master of Social Work (course-based) for students with a BSW**

a) A minimum of ten half-course equivalents; Specialization and option courses are listed below. Social Work 696: Advanced Practicum extends for a full academic year and requires that students be in a field placement three days per week. It is advised that students be concurrently registered in the Theory and Methods courses.

**Master of Social Work (thesis-based) for students with a BSW**

a) A minimum of nine half-course equivalents. Specialization and option courses are listed below.

**Master of Social Work (course-based) for students without a BSW**

b) A minimum of nineteen half-course equivalents; b) Required Foundation courses to be completed prior to Specialization courses include:

- Social Work 637: Human Behaviour in the Environment (one half-course)
- Social Work 621: History and Foundation of the Profession (one half-course)
- Social Work 632: Social Policy and Social Justice (one half-course)
- Social Work 629: Communication and Interviewing (one half-course)
- Social Work 641: Models of Practice (one half-course)
- Social Work 645: Research and Evaluation (one half-course)
- Social Work 625: Practice with Individuals, Families and Groups (one half-course)
- Social Work 627: Practice with Organizations and Communities (one half-course)
- Social Work 633: Foundational Practicum (one half-course or 426 hours)

b) A minimum of six half-course equivalents in the MBA program

- Required MBA half-courses include:
  - Accounting 601: Financial Accounting
  - Accounting 603: Management Accounting
  - Finance 601: Managerial Finance
  - Human Resources and Organizational Dynamics 601: Managing Human Resources
  - Marketing 601: Marketing Management
  - Management Information Systems 601: Management Information Systems
  - Management Studies 611: Managerial Economics
  - Management Studies 613: Business Analysis
  - Management Studies 615: Strategic Business Analysis
  - Operations Management 601: Operations Management
  - Strategic and General Management 701: Strategic Management
  - Business and Environment 777: Global Environment of Business

And four elective courses in the student's area of interest.

**Doctor of Philosophy**

- A study plan outlining the applicant's educational goals, career expectations, and research interests; c) Substantial professional experience
d) Samples of written work including, for example, published and/or unpublished scholarly papers and/or professional reports

**Master of Business Administration/ Master of Social Work (Calgary Only)**

- A Bachelor of Social Work degree or completion of the MSW Foundation courses (described in Section 5 below). Applicants demonstrating academic excellence and prior human services experience may be considered for admission to the Foundation year.
- A study plan outlining the applicant's educational goals and career expectations. The study plan must indicate the applicant's intended area of specialization (Clinical Practice or Leadership in the Human Services).
- For applicants to the thesis-based program, an expanded application providing a rationale for selecting the thesis route and outlining the area of research interest.

**Leader in Social Work (Distance Delivery)**

- A Bachelor of Social Work degree
- A study plan outlining the applicant's educational goals and career expectations

**Application Deadline**

Final submission deadlines are as follows:

- PhD program: 31 January for September admission (in exceptional cases, applicants may be accepted for alternative admission dates).
- Calgary MSW programs (all Specializations; MSW/MSBA): 31 January for September admission.
- Edmonton and Lethbridge MSW programs: 31 January for September admission in odd-numbered years (2009, 2011, 2013, etc.).

**Advanced Credit**

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for coursework taken as part of another completed degree/diploma or for courses taken to raise the grade point average for admission purposes. For all Faculty of Social Work graduate programs, advanced credit may be granted for not more than the equivalent of three half-courses.

**Program/Course Requirements**

In addition to Faculty of Graduate Studies requirements, the Faculty of Social Work requires:

- Master of Business Administration/ Master of Social Work (course-based) for students with a BSW
- Master of Business Administration/ Master of Social Work (thesis-based) for students without a BSW
- Master of Social Work (course-based) for students with a BSW
- Master of Social Work (thesis-based) for students without a BSW
- Master of Social Work

(i.e., 2008, 2010, 2012, etc.). For information, consult the website or contact the Student Services Office in the Faculty of Social Work.

**2. Admission Requirements**

In addition to Faculty of Graduate Studies requirements, the Faculty of Social Work requires:

**Doctor of Philosophy**

a) A Master of Social Work or equivalent graduate degree with a minimum grade point average of 3.50 on a four-point scale
b) A study plan outlining the applicant's educational goals, career expectations, and research interests; c) Substantial professional experience
d) Samples of written work including, for example, published and/or unpublished scholarly papers and/or professional reports

**Master of Business Administration/ Master of Social Work (Calgary Only)**

a) A Bachelor of Social Work degree or completion of the MSW Foundation courses (described in Section 5 below). Applicants demonstrating academic excellence and prior human services experience may be considered for admission to the Foundation year.
- A study plan outlining the applicant's educational goals and career expectations. The study plan must indicate the applicant's intended area of specialization (Clinical Practice or Leadership in the Human Services).
- For applicants to the thesis-based program, an expanded application providing a rationale for selecting the thesis route and outlining the area of research interest.

**Master of Social Work**

a) A Bachelor of Social Work degree, or a four year Bachelor's degree from another discipline and the equivalent of two years of full-time paid or volunteer work in the human services field.
- A study plan outlining the applicant's educational goals and career expectations. The study plan must indicate the applicant's intended area of specialization (Clinical Practice or Leadership in the Human Services).
- For applicants to the thesis-based program, an expanded application providing a rationale for selecting the thesis route and outlining the area of research interest.

**Leadership in Human Services**

- Required Specialization courses and option courses are listed below.
- Required Foundation courses to be completed prior to Specialization courses include:
  - Social Work 637: Human Behaviour in the Environment (one half-course)
  - Social Work 621: History and Foundation of the Profession (one half-course)
  - Social Work 632: Social Policy and Social Justice (one half-course)
  - Social Work 629: Communication and Interviewing (one half-course)
  - Social Work 641: Models of Practice (one half-course)
  - Social Work 645: Research and Evaluation (one half-course)
  - Social Work 625: Practice with Individuals, Families and Groups (one half-course)
  - Social Work 627: Practice with Organizations and Communities (one half-course)
  - Social Work 633: Foundational Practicum (one half-course or 426 hours)

b) A minimum of six half-course equivalents in the MBA program

- Required MBA half-courses include:
  - Accounting 601: Financial Accounting
  - Accounting 603: Management Accounting
  - Finance 601: Managerial Finance
  - Human Resources and Organizational Dynamics 601: Managing Human Resources
  - Marketing 601: Marketing Management
  - Management Information Systems 601: Management Information Systems
  - Management Studies 611: Managerial Economics
  - Management Studies 613: Business Analysis
  - Management Studies 615: Strategic Business Analysis
  - Operations Management 601: Operations Management
  - Strategic and General Management 701: Strategic Management
  - Business and Environment 777: Global Environment of Business

And four elective courses in the student's area of interest.

**Note:** Timetables for programs are available on the website.
**Master of Social Work (Distance Delivery)**

**Leadership in Human Services**

a) A minimum of ten half-course equivalents

Required courses include:

- Social Work 655: Research I (one half-course)
- Social Work 659: Research II (one half-course)
- Social Work 667: Theory and Methods I (one half-course)
- Social Work 669: Theory and Methods II (one half-course)
- Social Work 676: Practicum (the equivalent of two half-courses or 600 hours)
- Social Work 675: Policy (one half-course delivered on campus)
- Social Work 679.04: Special Topics I – Transforming Human Services Organizations (one half-course)
- Social Work 679.05: Special Topics II – Community Capacity Building (one half-course)

b) A minimum of nine half-course equivalents

Required core courses include:

- *Social Work 741: Research Foundations: Epistemology and Professional Knowledge-Building (one half-course)
- Social Work 743: Social Work Theory, History, and Philosophy: Values, Ethics and Professional Beliefs (one half-course)
- *Social Work 745: Research Methods I: Quantitative (one half-course)
- *Social Work 747: Research Methods I: Qualitative (one half-course)
- *Social Work 749: Quantitative Data Analysis (one half-course)
- Social Work 721: Integrative Research Seminar (one half-course)

*Equivalent courses may be taken outside the Faculty with the approval of the Faculty of Social Work.

c) Three half-course options relevant to the student’s area of specialization. Option courses may be taken outside of the Faculty of Social Work, depending on the student’s needs and course availability. All courses taken external to the Faculty of Social Work must have prior approval from the Faculty of Social Work.

d) A thesis research proposal.

**6. Additional Requirements**

For all students: participation in an Orientation Session is recommended for incoming students held at the beginning of the Fall.

**7. Credit for Undergraduate Courses**

Credit for undergraduate courses will not be awarded.

**8. Time Limit**

Maximum completion time is four years for a thesis-based Master’s program, six years for a doctoral program or a course-based Master’s, and seven years for the MBA/MSW program.

Expected completion times are:

- (1) one 12-month year for full-time course-based MSW students with a BSW
- (2) two 12-month years for full-time course-based MSW students without a BSW
- (3) two 12-month years for the MBA/MSW
- (4) two years for a thesis-based MSW
- (5) four years for a PhD
- (6) two 12-month years for a part-time MSW with a BSW
- (7) four 12-month years for a part-time MSW without a BSW

**9. Supervisory Assignments**

Course-based MSW and MBA/MSW students select a faculty advisor no later than the end of the first semester in the program. A change of advisor initiated by the student or the faculty member, can occur at any time during the student's enrolment in the program. A change of advisor is most likely to happen once the student has settled on a substantive area and chooses a chair for the final comprehensive examination committee.

PhD, PMD and thesis-based MSW students are initially assigned an interim faculty advisor. Before the end of the first year, each student must designate a faculty member as permanent supervisor. In the doctoral program, the supervisor and student must then select a supervisory committee within three months of the appointment of the permanent supervisor. Supervisory committees typically consist of the supervisor and two other members, one of whom may be external to the Faculty of Social Work.

**10. Required Examinations**

Master of Social Work (course-based) and Master of Business Administration/Master of Social Work

The final comprehensive examination for the course-based MSW and for the MBA/MSW has a written and an oral component, both of which the student must complete to the satisfaction of his or her examining committee. Students should consult the Faculty of Social Work comprehensive examination guidelines for further detail.

Master of Social Work (thesis-based)

The final examination for the thesis-based MSW involves an oral defence of the thesis. The thesis examination is conducted by the student’s examining committee, which must be designated at least one month before the oral examination.

**Doctor of Philosophy**

The doctoral candidacy examinations are taken within 28 months of the student’s admission to the program and after all required course work has been completed. The examinations include a written and an oral component, both of which the student must complete to the satisfaction of his or her examining committee. Students must similarly defend their dissertation to the satisfaction of the examining committee. Questions on the research proposal will not be included in the Oral Candidacy Exam.

Students should consult the Faculty of Social Work candidacy examination guidelines for further detail.

Questions on the research proposal may be included in the oral candidacy examination.

**Thesis oral exams are open.**

**11. Research Proposal Requirements**

Students whose research involves human subjects must receive approval from the University of Calgary Conjoint Faculties Research Ethics Board before beginning data collection. A copy of the proposal becomes part of the student’s record within the Faculty of Social Work.

**12. Special Registration Information**

None.

**13. Financial Assistance**

Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this calendar, and consult with the Student Services Office in the Faculty of Social Work.

**14. Other Information**

All students in the Faculty of Social Work are expected to be proficient in and have access to email, internet searching, and word processing computer programs. Students may be expected to use technology in courses; video-conferencing, web-based tools, discussion boards, and chat rooms may be used in addition to or in lieu of class time.

The Master of Social Work program is accredited by the Canadian Association of Social Work Education. Requests for information should be directed to Student Services Office, Faculty of Social Work. Admission to all Faculty of Social Work graduate programs is competitive; therefore, not all qualified applicants may be admitted. Information on the Faculty of Social Work and its programs is available on-line at [http://www.fsw.ucalgary.ca](http://www.fsw.ucalgary.ca).

**15. Faculty Members/Research Interests**

Current faculty members and their research interests can be found at [http://fsw.ucalgary.ca/](http://fsw.ucalgary.ca/).
### GRADUATE DEGREE PROGRAMS & COURSES

**Graduate Courses**

Please note that not all programs/courses are offered every semester. The number of options will vary across the program locations.

Full-time and part-time students should consult the timetables available on the University website and the Master Timetable for suggested sequences and availability of courses.

11. Supervisory Assignments

An interim advisor is assigned to incoming students who have not already selected a supervisor. After two terms in the program, a student will make supervisory arrangements with a faculty member in the chosen area of research. In the case of doctoral students, the supervisor and student will select two other faculty members to serve on the student’s supervisory committee.

12. Time Limit

Expected completion time is 20-24 months for the Master of Arts and four years for the Doctor of Philosophy degree. Maximum completion time is four years for the Master of Arts and six years for the doctoral program.

13. Financial Assistance

Financial assistance may be available to qualified students. Information on departmental funding is available in the on-line Graduate Student Handbook. For further information on awards, please see the Awards and Financial Assistance section of this Calendar.

Students applying for scholarships through the Faculty of Graduate Studies must submit their applications to the Department by 1 February.

14. Other Information

Students should refer to the Department’s on-line information and the Graduate Student Handbook for further clarification and explanation of these regulations.

15. Faculty Members/Research Interests

The active research interests of the faculty can be found at http://soci.ucalgary.ca/people/faculty.

Prerequisite: Consult Department for assignment to Faculty member. MAY BE REPEATED FOR CREDIT

| Sociology 602 | Master’s Seminar in Professional Sociology | F(3/2S-0) | NOT INCLUDED IN GPA |
### Sociology 603
**Seminar in Sociology of Health and Illness**
Prerequisite: Consent of the Department.

### Sociology 611
**Social Statistics: The General Linear Model**
Multiple regression and correlation with applications to sociological research; regression diagnostics; extensions of linear regression such as nonlinear models, analysis of variance, analysis of covariance, and causal modelling.
Prerequisite: Consent of the Department. (Sociology 311 and 315 normally required.)

### Sociology 613
**Seminar in Quantitative Research Methods**
Prerequisite: Sociology 313 or consent of the Department.

### Sociology 615
**Seminar in Qualitative Research Methods**
Advanced study in the theory and practice of qualitative research methods. Topics may include participant observation, in-depth interviews, narrative analysis, conversation and discourse analysis, autoethnography, archival research, and feminist research methods.
Prerequisite: Sociology 313 or consent of the Department. Sociology 413 is recommended.

### Sociology 625
**Seminar on Deviant Behaviour**
Prerequisite: Sociology 325 or consent of the Department.

### Sociology 631
**Seminar in Sociological Theory**
Prerequisites: Sociology 331 and 333 or equivalents; or consent of the Department.

### Sociology 653
**Seminar on Urban Sociology**
Prerequisite: Sociology 353 or consent of the Department.

### Sociology 666
**Seminar on Social Stratification and Inequality**
Prerequisite: Consent of the Department.

### Sociology 667
**Seminar on Ethnic Relations**
Prerequisite: Sociology 375 or consent of the Department.

### Sociology 671
**Seminar on the Sociology of Families**
Prerequisite: Sociology 471 or consent of the Department.

### Sociology 677
**Seminar in Sociology of Gender Relations**
Prerequisite: Consent of the Department.

### Sociology 695
**Seminar in Work**
Prerequisite: Consent of the Department.

### Sociology 699
**Special Topics in Sociology**
Prerequisite: Consent of the Department. MAY BE REPEATED FOR CREDIT

### Sociology 701
**Doctoral Seminar in Sociology**
Seminar on selected topics. Consult Department for details.
Prerequisite: Consent of the Department. MAY BE REPEATED FOR CREDIT

### Sociology 702
**Doctoral Seminar in Professional Sociology**
Prerequisite: Consent of the Department. NOT INCLUDED IN GPA

### Sociology 705
**Selected Topics in Advanced Methodological Issues**
Prerequisite: Consent of the Department. MAY BE REPEATED FOR CREDIT

### Sociology 711
**Selected Topics in Advanced Quantitative Methods**
Prerequisite: Consent of the Department. MAY BE REPEATED FOR CREDIT

### Sociology 715
**Selected Topics in Advanced Qualitative Methods**
Prerequisite: Consent of the Department. MAY BE REPEATED FOR CREDIT

### Sociology 721
**Doctoral Seminar in Sociological Theory**
Prerequisite: Consent of the Department.

### Course Information: Sustainable Energy Development

**Contact Info**
Location: Haskayne School of Business, Room 457
Faculty number: (403) 220-3997
Fax: (403) 282-0095
E-mail address: CALGARY: sed@ucalgary.ca
QUITO: sed@usfq.edu.ec
Web page URL: http://www.ucalgary.ca/sustainableenergy/ and http://www.usfq.edu.ec/

1. **Degrees and Specializations Offered**
Master of Science (MSc) with a specialization in Sustainable Energy Development, course-based

The Master of Science in Sustainable Energy Development Program is an interdisciplinary program for professional individuals seeking a broad-based education in energy and sustainable development.

Instruction is offered by members of the Faculties of Environmental Design, Law, the Schulich School of Engineering and the Haskayne School of Business of the University of Calgary and from the Universidad San Francisco de Quito.

CALGARY, Alberta, Canada: The program is offered at the University of Calgary campus in Calgary, Alberta, Canada over a period of 16 months beginning in May of each year.

QUITO, Ecuador: In partnership with the Universidad San Francisco de Quito (USFQ) and the Latin American Energy Organization (OLADE), the program is offered at USFQ campus in Quito, Ecuador, South America, over a period of 16 months beginning in August of each year.

The Program is for high potential professionals who have demonstrated the ability to produce results, communicate effectively, and who have an interest in sustainable development. They will have an undergraduate degree from an internationally recognized university in any discipline (engineering, management, law, architecture, etc.) and preferably three years of work experience. Students enter with a broad range of educational and experience backgrounds, many from energy and environment organizations, including government agencies.

The objective of the Program is to provide students with a background in energy/environmental management such that they will be able to ensure sustainable energy development and minimize the impact of development on the environment.

2. **Admission Requirements**
In addition to Faculty of Graduate Studies and Haskayne School of Business requirements, the Program requires:
   a) Letter of intent outlining background, research interest and goal for the Program
   b) Curriculum Vitae
   c) Work experience (to be assessed by the Program director)
   d) Certificate of proficiency in the English language or TOEFL or IELTS [for International students whose mother tongue is NOT English]

3. **Application Deadline**
   CALGARY: Canadian Residents: 31 March for May admission
   Intl Students: 31 December for May admission
   QUITO: Residents not requiring a study permit: 30 June for August admission
   Canadian/International students: 30 April for August admission

4. **Advanced Credit**
The applicant must make advanced credit requests as part of the admission process.

5. **Program/Course Requirements**
In addition to the Faculty of Graduate Studies and Haskayne School of Business requirements, the Program requires:
   a) Successful completion of 14 graduate-level courses
   b) Attendance and participation in seminars, upgrade courses and field trips
   c) Attendance and participation in Recapitation session

QUITO only: Completion of English upgrading course (2-3 week duration) for non-native English students subject to the discretion of the program directors.
6. Additional Requirements
None.

7. Credit for Undergraduate Courses
The Program does not accept undergraduate courses for credit toward the graduate degree.

8. Time Limit
Expected completion time is 16 months. Maximum completion time is six years.

9. Supervisory Assignments
Not applicable.

10. Required Examinations
A final comprehensive oral examination is required upon completion of all course work. The purpose of the examination is to determine the student's ability to integrate and apply all interdisciplinary aspects of the Program. The examination will be based on content from the 14 courses and seminars. All students must successfully complete all course and seminar requirements before the comprehensive examination.

11. Research Proposal Requirements
Please refer to SEDV 625 course requirements.

12. Special Registration Information
Admission to the Program delivered in Calgary is only available in May of each year. Admission to the Program delivered in Quito, Ecuador is only available in August of each year.

13. Financial Assistance
Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar.

14. Other Information
CALGARY and QUITO:
All courses are instructed in English.
QUITO only:
Students are not required to speak Spanish for admission to the Program at USFQ. However it is strongly recommended that non-native Spanish speakers take the preliminary Spanish upgrade course that is part of the USFQ Program offering.

15. Faculty Members/Research Interests
See the website of the home department and home institution of the Faculty member.

Web page URL: http://vet.ucalgary.ca/graduate

**1. Degrees and Specializations Offered**

Doctor of Philosophy (PhD)  
Master of Science (MSc)

**2. Admission Requirements**

In addition to the Faculty of Graduate Studies requirements, the Faculty of Veterinary Medicine requires:

a) A minimum admission grade point average of 3.20 on a four-point scale, or equivalent  
b) For applicants required to provide proof of proficiency in English, a minimum TOEFL score of 580 (written test), 237 (computer-based test) or 92 (internet-based test).

**Note:** A Doctor of Veterinary Medicine (DVM) degree is not a requirement for entry into the MSc or PhD programs. Applicants who do not meet the above requirements will be considered only under exceptional circumstances.

**3. Application Deadline**

Complete applications will be considered at any time but will start being reviewed by:

1 February for September admission, and;  
1 August for January admission.

**4. Advanced Credit**

Advanced credit may be given for course work completed prior to entry into the program. The applicant must make requests for advanced credit as part of his or her application for admission.

**5. Program/Course Requirements**

In addition to Faculty of Graduate Studies requirements, all MSc and PhD students must take:

a) VMS 600 - Seminars in Veterinary Medical Sciences. Presentation of an annual seminar to the Faculty and a final seminar that precedes the thesis defence.  
b) VMS 601 - Professional Skills in Health Science Research. Series of one-day workshops focusing on skills essential for success in health science research - Research Integrity, Grants and Grant Writing, Verbal and Written Communication of Research Findings, Career Development, and Career Options in the Health Sciences;  
c) VMS 603/Biology 603 - Biology of Laboratory Animals;  
d) An entry-level biostatistics course (e.g. Medical Sciences 643 - Biostatistics);  
e) MSc students must take at least one PhD and PhD students must take at least two additional graduate level half-courses appropriate to their field of study and approved by their Supervisory Committee; and  
f) Post-graduate DVMs engaged in a residency program may be required to take additional courses to supplement their clinical training.

**6. Additional Requirements**

Contributions to the published research literature and presentations at scientific conferences are encouraged.

**7. Credit for Undergraduate Courses**

The student's Supervisory Committee may recommend credit for undergraduate courses provided they are relevant to the area of study.

**8. Time Limit**

Expected completion time for an MSc is two years with a maximum time of four years, for students in full-time study; students in PhD programs are expected to complete in four years but not longer than six years.

**9. Supervisory Assignments**

Students will normally have identified a supervisor at the time of admission. In consultation with their supervisor(s), a Supervisory Committee will be selected which includes a minimum of two additional faculty members (MSc) or three additional faculty members (PhD). In the case of the PhD, one member should come from outside the Veterinary Medical Sciences graduate program. The Graduate Program Coordinator will approve the composition of the committee within the first six months of enrolment.

**10. Required Examinations**

The doctoral candidacy examination will have a written and oral component and is designed to test the student's general and specific knowledge of the area relevant to the thesis topic. Examination questions, two in the form of a literature review and two in the form of a grant proposal, will be given to the student four weeks before the oral exam. The student will have three weeks to prepare written answers to one of the literature review and one of the grant proposal questions, each of which will not exceed 20 double spaced pages. The oral part of the candidacy exam will be based on the written answers as well as related material.

The final thesis defence for MSc and PhD degrees will consist of a public seminar followed by an open oral examination.

**11. Research Proposal Requirements**

MSc and PhD students must present a written research proposal to the Program Coordinator and have it approved by their Supervisory Committee no later than twelve months after initial registration in the program.

**12. Special Registration Information**

None.

---

**GRADUATE DEGREE PROGRAMS & COURSES**

**13. Financial Assistance**

Admission to the Program is conditional on demonstration of internal or external studentship support. Sources of financial support are described on the Faculty of Veterinary Graduate Education website (http://www.vet.ucalgary.ca/graduate_research_teaching_assistantships). Continuation of financial support through the VMS Graduate Program or the Faculty of Veterinary Medicine is conditional on completion of program requirements including supervisory committee meetings, submission of the research proposal, annual seminar etc.

**14. Other Information**

Outstanding students enrolled in the MSc program may request a change of registration status and transfer to the PhD program. The request must be done within the first two years of the program and supported in writing by the supervisor and formally recommended by the Supervisory Committee to the Graduate Program Coordinator.

**15. Faculty Members/Research Interests**

Faculty members and their research interests may be found at: http://www.vet.ucalgary.ca/about/faculty. Additional information can be obtained by calling the contact number listed for the VMS program or from the Administrative Office of the Faculty of Graduate Studies.

*See the online Graduate Calendar for a listing of new Graduate level courses in Veterinary Medicine*
1. Degrees and Specializations Offered
The University offers an interdisciplinary specialization in Biological Anthropology to students registered in an existing graduate program. The student will receive the degree offered by the home program:

- Doctor of Philosophy (PhD)
- Master of Science (MSc), thesis-based
- Master of Arts (MA), thesis-based

Specialization: Biological Anthropology

2. Admission Requirements
In addition to Faculty requirements, all applicants must meet the minimum standards of the home program. Admission to the specialization requires:

a) A Bachelor of Arts or Bachelor of Science degree (and Master of Arts degree for admission to the PhD program) in Anthropology, Archaeology, Biology, Zoology, Ecology, or Health Sciences with a GPA of at least 3.3 on a 4.0 point scale in the last two years of program or over the last ten full course equivalents
b) An example of the applicant’s written work: a term paper, research paper, Master of Arts, or honours thesis that the applicant considers representative of his or her best work. Published work authored by the applicant is also acceptable provided the applicant is the sole or senior author.
c) A concise statement setting forth the applicant’s academic interests and reasons for wishing to pursue graduate work in the specialization. The area of thesis research should also be specified.
d) An up-to-date curriculum vitae

3. Application Deadline
The deadlines for the submission of complete application is:
15 January for September admission and funding

4. Advanced Credit
The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

5. Program/Course Requirements
In addition to Faculty of Graduate Studies requirements, the Specialization requires:

Master of Arts / Master of Science
1. Five half-course equivalents, which shall include:
   a) Anthropology 603 (Thesis Development)
   b) Anthropology 635 (Primatological Theory), or
   c) Any two of the following: Medical Science 755 (Human Gross Anatomy), Archaeology 613 (Analysis of Human Skeletal Remains), Anthropology 635 (Primatological Theory), or Anthropology 605 (Professional Skills for Anthropologists), Anthropology 613 (Current Issues in Methodology in Primatology)
   d) One optional course relevant to the proposed research topic
   e) All students are expected to have proficiency in statistics. The supervisor and two other faculty members of the specialization, in concert with the applicant, will determine if additional course work is needed in statistics, depending upon the applicant’s background and proposed research area.

2. A season of fieldwork offering appropriate experience for the proposed research (for example, primate field study, archaeological excavation, or field research in human biology), to be approved by the supervisor. However, students specializing in laboratory-based topics (for example, morphological studies or bone chemistry) may substitute an approved program of laboratory work for the fieldwork requirement.

Doctor of Philosophy
1. Course Requirements:
   a) Anthropology 617 (Theory and its Application in Biological Anthropology)
   b) Anthropology 701  (Independent Studies)
   c) Any two of the following: Medical Science 755 (Human Gross Anatomy), Archaeology 613 (Analysis of Human Skeletal Remains), Anthropology 635 (Primatological Theory), or Anthropology 605 (Professional Skills for Anthropologists), Anthropology 613 (Current Issues in Methodology in Primatology)
   d) Two courses relevant to the proposed research topic

   The number of courses required of each student may vary according to his or her particular needs as determined by the Supervisory Committee. Statistics will be required in the event the student’s committee deems it necessary. The courses will be selected based on the student’s previous statistics training and the type of data analyses to be conducted in the research.

2. Two seasons of fieldwork offering appropriate experience for the proposed research topic (for example, primate field study, archaeological excavation, or field research in human biology), to be approved by the supervisor. Fieldwork may have been undertaken before entry into the specialization and may be counted toward the fieldwork requirement. Students specializing in laboratory-based topics (for example, morphological studies or bone chemistry), may substitute an approved specialization of laboratory work for the fieldwork requirement.

3. Submission to the supervisory committee of a paper that demonstrates an ability to research and write a paper at a professional level.
4. Proficiency in a second language

6. Additional Requirements
None.

7. Credit for Undergraduate Courses
Students may apply for no more than one 500-level course for graduate credit, subject to the approval of the Program Director. Graduate students taking a 500-level course for graduate credit will be required to complete additional assignments.

8. Time Limit
Expected completion time for the MA and MSc is two years and maximum completion time is four years. Expected completion time for the PhD is four years and maximum completion time is six years.

9. Supervisory Assignments
Students will be assigned a supervisor upon admission.

10. Required Examinations
Final thesis oral examinations are open.

Oral Candidacy Examinations
Following the completion of all course work, the research paper and the language requirement, doctoral students sit the Candidacy Examination. In the Biological Anthropology Graduate Specialization, the Candidacy Examination consists of two parts in sequence, as follows: (1) a written component and (2) an oral component.

The oral candidacy examination is required by University regulations and must be held no later than twenty-eight months following initial registration as a full-time graduate student in a Ph.D. program. Students entering the doctoral program with a Bachelor’s degree, or transferring into a doctoral program from a Master’s program before the Master’s program is completed, must attempt the candidacy examinations no later than 36 months after initial registration in the Faculty of Graduate Studies.
The Candidacy Examination in the Biological Anthropology Graduate Specialization consists of a written plus an oral examination administered by the Candidacy Examination Committee, composed of the Supervisory Committee plus two additional members, one of whom must be external to the Specialization if the external is not already a member of the Supervisory Committee.

In consultation with the student, the Supervisory Committee will determine three areas of knowledge for which the student will be responsible in his or her Candidacy Examination. These topics will be communicated in writing to the student, with copies to other members of the Supervisory Committee. These topics will also be communicated to the two other members of the Candidacy Examination Committee, who must be selected no later than eight weeks prior to the oral examination.

Members of the Candidacy Examination Committee will each submit one or two questions, so that there are at least two questions within each of the three areas. The supervisor will select six questions from those submitted, and provide them to the student at least five weeks prior to the Oral Candidacy Examination. The student will select one question from each of the three areas for a total of three questions. The student will have two weeks in which to prepare answers to these questions as a take-home, open-book exam. Each answer should be approximately 6000 words. Copies of the completed examination will be distributed to all members of the Examination Committee. The Committee will assess the written exam on a Pass/Fail basis and meet to finalize their decision no later than two days prior to the scheduled Oral Candidacy Exam. The oral examination is conducted in accordance with Faculty of Graduate Studies regulations.

In the oral component of the Candidacy Examination, the written examinations will serve as the basis from which the examination shall proceed, but examiners are not limited to the written component in framing the questions asked, and questioning may range into cognate areas, at the discretion of the Neutral Chair.

Students must pass both the written and oral exams in order to pass the candidacy exam.

11. Research Proposal Requirements
Within twenty months of entering the program, the student, with the supervisor's advice, develops a thesis research proposal. This is then transmitted to the student’s supervisory committee for agreement and to the Program Director for approval and placed on file.

12. Special Registration Information
None.

13. Financial Assistance
Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships must submit their applications to the home program by 2 January.

14. Other Information
Given the limited resources, the specialization may, in any year, admit fewer applicants than those who are qualified to undertake graduate studies.

15. Faculty Members/Research Interests
See the website of the home department of the faculty member.

CLINICAL RESEARCH – INTERDISCIPLINARY SPECIALIZATION
Contact Info
Location: Faculties of Kinesiology, Medicine, Nursing and Social Work
Faculty number: To be announced
Fax: To be announced
E-mail address: clinres@ucalgary.ca

1. Degrees and Specializations Offered
The University offers an interdisciplinary specialization in Clinical Research to students registered in an existing graduate program in the Faculties of Kinesiology, Medicine, Nursing and Social Work. The student will receive the degree offered by the home program:

- Doctor of Philosophy (PhD)
- Master of Nursing (MN)/Science (MSc)/Social Work (MSW)

Specialization: Clinical Research (Interdisciplinary)

The Clinical Research multidisciplinary program is offered in collaboration with the above Health Sciences faculties and the curriculum is designed for students with undergraduate or Master’s degrees in those faculties. Background experience and qualifications, as well as areas of interest of the applicants will be taken into account at the time of admission.

2. Admission Requirements
In addition to Faculty of Graduate Studies requirements, this multidisciplinary program requires:

a) A four-year Baccalaureate degree from a recognized institution with a minimum grade point average of 3.00 on a four-point scale over the last two full years or equivalent

b) For students required to provide proof of proficiency in English, a TOEFL score of 600 (written test) or 250 (computer-based test), an IELTS score of 7.50. Foreign students are encouraged to submit GRE scores, which should be in the 70th percentile in the analytical and quantitative sections.

c) A concise (one-page) statement outlining the applicant's research interests and reasons for wishing to take the Clinical Research interdisciplinary specialization

d) Indication on the application which home faculty the candidate is considering

3. Application Deadline
Deadline for submission of complete applications is 1 March for September admission.

4. Advanced Credit
Advanced credit requests must be made by the applicant as part of the admission process. Any credit to be given for courses completed will be included in the letter recommending the student's admission to the Faculty of Graduate Studies.

5. Program/Course Requirements
In addition to the Faculty requirements, the Specialization requires:

a) Completion of a minimum three full-course equivalents for the Master’s program and a minimum six full-course equivalents for the doctoral program. Students transferring from a Master’s program to the doctoral program will be required to take a minimum of 6 half-course equivalents in addition to work already completed. Please note that several graduate courses are required program components and that elective courses must be chosen in consultation with the supervisor and approved by the Graduate Coordinator. Course requirements may include courses offered by other departments.

b) For Master’s students, completion of practicum in year 1. For doctoral students, completion of practica in years 1 and 2 before being eligible for the doctoral candidacy examination

c) Completion of the appropriate number of Research Seminar courses in addition to (a) above

d) Presentation of a Departmental seminar on the results of the thesis research

6. Additional Requirements
Contributions to journals, relevant clubs and/or seminars are desirable.

7. Credit for Undergraduate Courses
Credit may be given for courses taken below the 600-level. At least one half of a graduate student's coursework must be at the 600-level or higher and only where appropriate to a student’s program may credit be received for courses numbered 500-599.

8. Time Limit
Expected completion time for a Master's degree is two years and maximum completion time is four years.

Expected completion time for a PhD is four years and maximum completion time is six years.

9. Supervisory Assignments
Applicants normally contact specific faculty members within their home faculty about possible supervision. The program does not accept students unless at least one faculty member has indicated a willingness to act as supervisor. The supervisor, in consultation with the student, selects a supervisory committee consisting of the supervisor and at least two other faculty members, one of whom must be from a faculty other than the student’s home faculty.

10. Required Examinations
Doctoral candidacy examinations have a written component followed by an oral component. Doctoral candidates are given three weeks to complete three substantive essays in answer to questions, which focus on the student’s field of study, submitted by their candidacy committee. One week after the submission of the answers, the oral component will take place. The supervisor is a non-voting observer at the doctoral candidacy examination.

Final thesis oral examinations are open.

11. Research Proposal Requirements
Master’s students must present a written research proposal to their supervisory committees no later than 12 months after initial registration in program. Doctoral students must present a written research
In cases where the student's proposed research area cannot be supported through a single academic program, and which would necessitate the combination of at least three academic areas, they may seek admission and earn the EES specialization through the Interdisciplinary Graduate Program (IGP) of the Faculty of Graduate Studies.

2. Admission Requirements
In addition to the Faculty of Graduate Studies' requirements, all applicants must meet the minimum admission requirements of the home graduate program. Admission to the specialization itself requires:

a) A sample of the applicant's written work: a term paper, research paper, or a Master's / honours thesis, that the applicant considers representative of his or her best work.

b) A concise statement (500 words maximum) of the applicant's academic interests and reasons for wishing to pursue graduate work in the EES specialization. A proposed area of thesis research should also be discussed.

c) A current curriculum vitae.

d) For students required to prove proficiency in English, a TOEFL score of at least 550 (written) or 213 (computer-based) or 80 (internet based), or an IELTS score of 7.0. However, if the graduate program to which the student is applying requires higher scores, then these must be met.

e) Submission of GRE scores are strongly encouraged but not required.

Applicants must indicate their intention of applying for the EES specialization to the home graduate program, and likewise inform the EES Program Office of their application status as per the instructions on the EES Web site.

Note that successful candidates must be approved for admission by both the home graduate program as well as by EES. Admission to a degree program does not guarantee entrance to the specialization.

3. Application Deadline
The deadlines for the submission of complete applications correspond to those of the respective home graduate program to which students are applying.

4. Advanced Credit
Requests for advanced credit must be made at the time of application. Credit will not be granted for course work taken as part of another completed degree / diploma or for courses taken to bring the admission GPA to the required level.

5. Program/ Course Requirements
In addition to the home graduate program's requirements, students undertaking the EES specialization must successfully complete the following:

EES Specialization at the Master's Level (thesis-based)

Required core courses:
- EES 601: Introduction to Energy and Environmental Systems
- EES 603: Project Course
- EES 605: Graduate Seminar
- EES 607: Tools for System Analysis (block week course)

Depending on their home program and area of study, students may take additional EES related courses in consultation with their research supervisor.

NOTE: In accordance with Faculty of Graduate Studies' regulations, students in thesis-based programs may obtain a reduction in course load. This may be appropriate in cases where there is overlap between EES courses and the home graduate program's course requirements. Such requests may be agreed to by the student's supervisor, and be submitted to and approved by the Graduate Coordinator of the home graduate program and the EES Program Director or designated EES Committee Member.

EES Specialization with MGIS Degree (course-based)

Students enrolled in the Master of Geographic Information Systems degree program who wish to earn the EES specialization will need to take three of the EES Core Courses (EES 601, EES 603, and EES 605). Students are not required to take GEOG 683, but must take the other core courses in the MGIS program (GEOG 647, GEOG 633, GEOG 639, and GEOG 681). Finally, students will still be required to fulfill the 10-half course requirement of the MGIS program, and can select the remaining three courses from GEOG optional courses or EES related courses. It is not recommended that students required to complete the MGIS upgrade courses undertake the EES specialization.

EES Specialization at the Doctoral Level

Doctoral students are required to take the same EES core courses that are required at the Master's level, if they have not previously completed the EES specialization. Doctoral students must also comply with requirements of their home graduate program. Students who have previously earned a Master's degree with the EES specialization have no other required EES courses. However, they may need to take courses relevant to their area of study as recommended by their thesis supervisor. Doctoral students may seek a reduction in course load as per the rules for thesis-based Master's students shown above.

EES Specialization with the Interdisciplinary Graduate Program (IGP)

The course curriculum for IGP students will be determined at the IGP admission seminar. Course requirements will normally include the EES core courses, but may also include other courses to ensure adequate coverage of the relevant disciplines involved. Changes to the student's curriculum after the admission seminar will require the approval of the Supervisory Committee, IGP Director, and the Faculty of Graduate Studies.

6. Additional Requirements
None.

7. Credit for Undergraduate Courses

Students are allowed to take only one 500-level course for graduate credit, subject to the approval of the EES Program Director. Graduate students taking a 500-level course for graduate credit will be required to complete additional assignments.

8. Time Limit

Expected completion time for a Master's degree is two years and the maximum completion time is four years. Expected completion time for the PhD degree is four years and the maximum completion time is six years.
9. Supervisory Assignments
Students must have a formal supervisor appointed to them within ten months of beginning the EES specialization. Supervisory arrangements must be approved by the EES Program Director.

10. Required Examinations
Final thesis orals follow the requirements of the Faculty of Graduate Studies and the home graduate program.

Students in doctoral programs must fulfill the written candidacy examination requirement of the home graduate program. All doctoral students must complete the candidacy oral examination in accordance with Faculty of Graduate Studies’ regulations.

11. Research Proposal Requirements
Doctoral students and thesis-based Master’s students must present a written and oral research proposal to their supervisory committees no later than twelve (Master’s) and twenty (PhD) months after initial registration. The research proposal must be submitted to the EES Program Director for approval and placed on file.

This requirement of research proposal approval does not apply to students pursuing the EES specialization through the Interdisciplinary Graduate Program, since the research proposal must be approved as part of IGP’s admission process.

12. Special Registration Information
None.

13. Financial Assistance
Financial assistance will be available to all qualified full-time graduate students. Students are also encouraged to seek funding opportunities through the Faculty of Graduate Studies’ Open Scholarship Competition (contact the home program for application deadlines), as well as external funding agencies.

14. Other Information
Given limited resources, the specialization may, in any year, admit fewer applicants than those who are qualified to undertake graduate studies.

15. Faculty Members/Research Interests
See the Web site of the home department of the faculty member.

For bio and research interests of those faculty directly associated with the Energy and Environmental Systems Group, visit http://www.ucalgary.ca/EES/People.

Graduate Courses

**Energy and Environmental Systems 601**  H(3-1T)

*Introduction to Energy and Environmental Systems*

The course provides a structured overview to the interactions of energy systems and the environment. The lectures are taught collaboratively by several EES faculty. The course aims to foster a unified, scientific understanding of energy flows and transformations in industrial society and the natural world; a scientific overview of some of the most important links between energy and environmental systems; and an introduction to the business, legal and regulatory systems that shape the interactions between energy and environment.

**Energy and Environmental Systems 603**  H(1-3T)

*Project Course*

Projects are applied interdisciplinary problem-solving courses in which students work as leaders or as members of project teams. Most course time is devoted to project management and presentations from students. The project course gives students experience working on weakly-structured, real-world problems that require teamwork and contributions from diverse disciplines. They are co-managed by students and faculty advisors and should be responsive to an external “client” or expert panel. Problem areas are abstracted from local, provincial and national situations and involve the interaction of energy systems, the environment and public policy. Oral and written presentations concerning the results of project studies are required.

**Energy and Environmental Systems 605**  H(0-25)

*Graduate Seminar*

The graduate research seminar fosters the development of presentation and communication skills as well as engagement in critical analysis and debate. Course time is primarily research presentations by faculty, research staff and students. All students must present their work.

**Energy and Environmental Systems 607**  H(3-0)

*Tools for System Analysis*

This intensive block week course provides an introduction to analytical methods and software tools that are most frequently used for research in energy and environmental systems. Analytical methods include, risk, uncertainty and decision analysis; an introduction to engineering economics; and an introduction to tools for environmental modeling. Software tools include Excel, and extensions such as Crystalball, general purpose systems such as Matlab and Mathematica; and GIS tools for non-specialists.

**Energy and Environmental Systems 619**  H(3-0)

*Special Topics*

Students will be provided with the opportunity to focus on advanced studies in specialized topics pertaining to energy system engineering, law, public policy or economics, or a combination of these issues.

**Energy and Environmental Systems 619**  H(3-0)

*Energy and Environmental Systems 619**  H(3-0)

# GRADUATE INTERDISCIPLINARY SPECIALIZATIONS

**ENGINEERING, ENERGY & ENVIRONMENT – INTERDISCIPLINARY SPECIALIZATION**

**Contact Info**

Location: Information & Communications Technology Building, Room ICT248
Faculty number: (403) 210-9892
Fax: (403) 210-9892
E-mail address: ceere@ucalgary.ca
Web page URL: http://www.schulich.ucalgary.ca/CEERE

The Centre for Environmental Engineering Research and Education (CEERE) in the Schulich School of Engineering (SSE) has the overall responsibility for the coordination and delivery of a comprehensive postgraduate program specialization in the multi-disciplinary field of energy & environment. All five engineering departments participate in delivering this SSE-wide specialization.

Applications for admission to the Faculty of Graduate Studies should be submitted to the engineering department that best matches the applicant’s undergraduate and/or postgraduate academic training.

**1. Degrees and Specializations Offered**

Degrees with an interdisciplinary specialization in Energy & Environment:
- Doctor of Philosophy (PhD)
- Master of Science (MSc)
- Master of Engineering (MEng)

**2. Admission Requirements**

In addition to the Faculty of Graduate Studies, SSE, and home department requirements, the Energy & Environment specialization requires:

**Master of Engineering and Master of Science**

A Bachelor’s degree in engineering

**Doctor of Philosophy**

A Master’s degree in engineering

Note: Transfer to the doctoral program without completing the Master’s degree may be approved for exceptional students.

**3. Application Deadline**

See departmental and program sections in this Calendar for deadlines regarding submission of complete applications for students with international transcripts or with Canadian and US transcripts.

**4. Advanced Credit**

See “Engineering Programs” in this Calendar.

**5. Program/Course Requirements**

**Master of Engineering (Courses Only Route)**

10 half-courses of which a minimum of six must be graduate half-courses. At least four courses must be selected from a list of courses related to Energy & Environment available from CEERE.

Students with non-engineering undergraduate degrees may be required to take additional prerequisite courses at the undergraduate level.
**GRADUATE INTERDISCIPLINARY SPECIALIZATIONS**

**Master of Engineering (Thesis Route)**
A minimum of four graduate half-courses. At least two courses must be selected from a list of courses related to Energy & Environment available from CEERE.

Students with non-engineering undergraduate degrees may be required to take additional prerequisite courses at the undergraduate level.

**Master of Science**
A minimum of four graduate half-courses. At least two courses must be selected from a list of courses related to Energy & Environment available from CEERE.

Students with non-engineering undergraduate degrees may be required to take additional prerequisite courses at the undergraduate level.

**Doctor of Philosophy**
For applicants with Bachelor of Science and Master of Science degrees in Engineering:

A minimum of two graduate half-courses. At least one course must be selected from a list of courses related to Energy & Environment available from CEERE.

For applicants with a Bachelor’s degree in Engineering, but without a completed Master’s degree:

A minimum of six graduate half-courses. At least three courses must be selected from a list of courses related to Energy & Environment available from CEERE.

Students with non-engineering undergraduate degrees may be required to take additional prerequisite courses at the undergraduate level.

**6. Additional Requirements**
Not applicable.

**7. Credit for Undergraduate Courses**
Not applicable.

**8. Time Limit**
Expected completion time is two years for the Master of Science degree, and three years for the Doctor of Philosophy. Maximum completion time is four years for the Master of Science and Master of Engineering (Thesis) degrees and six years for the Master of Engineering (Courses Only) and Doctor of Philosophy degrees.

**9. Supervisory Assignments**
All students are required to have a thesis supervisor before the second annual registration. For students in the Master of Science and Doctor of Philosophy degree programs, a supervisor is normally appointed at the time of admission.

**10. Required Examinations**
All final thesis oral examinations involve a public seminar/presentation before a closed oral examination.

**11. Research Proposal Requirements**
None.

**12. Special Registration Information**
None.

**13. Financial Assistance**
See “Engineering Programs.”

**14. Other Information**
See “Engineering Programs.”

**15. Faculty Members/Research Interests**
The current research interests of the faculty members can be found at http://www.schulich.ucalgary.ca/CEERE/ or from the various engineering departments.

**ENVIRONMENTAL ENGINEERING – INTERDISCIPLINARY SPECIALIZATION**

**Contact Info**
Location: Information & Communications Technology Building, Room ICT248
Faculty number: (403) 210-9892
Fax: (403) 210-9892
E-mail address: ceere@ucalgary.ca
Web page URL: http://www.schulich.ucalgary.ca/CEERE/

The Centre for Environmental Engineering Research and Education (CEERE) in the Schulich School of Engineering (SSE) has the overall responsibility for the coordination and delivery of a comprehensive postgraduate program specialization in the multidisciplinary field of environmental engineering. All five engineering departments participate in delivering this SSE-wide environmental engineering specialization.

Applications for admission to the Faculty of Graduate Studies should be submitted to the engineering department that best matches the applicant’s undergraduate and/or postgraduate academic training.

**1. Degrees and Specializations Offered**
Degrees with an interdisciplinary specialization in Environmental Engineering:
- Doctor of Philosophy (PhD)
- Master of Science (MSc)
- Master of Engineering (MEng)

**2. Admission Requirements**
In addition to the Faculty of Graduate Studies, SSE, and home department requirements, the Environmental Engineering specialization requires:

**Master of Engineering and Master of Science**
A Bachelor’s degree in engineering
**Note:** Applicants with applied science degrees may be considered, but additional undergraduate engineering courses may be required.

**Doctor of Philosophy**
A Master’s degree in engineering, preferably in environmental engineering or equivalent
**Note:** Transfer to the doctoral program without completing the Master’s degree may be approved for exceptional students.

**3. Application Deadline**
See departmental and program sections in this Calendar for deadlines regarding submission of complete applications for students with international transcripts or with Canadian and US transcripts.

**4. Advanced Credit**
See “Engineering Programs” in this Calendar.

**5. Program/Course Requirements**

**Master of Engineering (Courses Only Route)**
10 half-courses. ENEN 603 and 605 are normally required, together with at least one of ENEN 621, 623, 625 or 627. ENEN 601 is not required.

Students with non-engineering undergraduate degrees may be required to take additional prerequisite courses at the undergraduate level.

**Master of Engineering (Thesis Route)**
A minimum of five half-courses. ENEN 603 and 605 are normally required, together with at least one of ENEN 621, 623, 625 or 627. ENEN 601 is not required.

Students with non-engineering undergraduate degrees may be required to take additional prerequisite courses at the undergraduate level.

**Master of Science**
A minimum of five half-courses plus ENEN 601. ENEN 603 and 605 are normally required, together with at least one of ENEN 621, 623, 625 or 627.

Students with non-engineering undergraduate degrees may be required to take additional prerequisite courses at the undergraduate level.

**Doctor of Philosophy**
For applicants with Bachelor of Science and Master of Science degrees in Environmental Engineering:

A minimum of three half-courses plus ENEN 601. One of ENEN 621, 623, 625 or 627 is normally required.

For applicants with Bachelor of Science and Master of Science degrees in Engineering, but not Environmental Engineering:

A minimum of four half-courses and ENEN 601. ENEN 603 and 605 are normally required, together with at least one of ENEN 621, 623, 625 or 627.

For applicants with a Bachelor’s degree in Engineering, but without a completed Master’s degree:

A minimum of eight half-courses plus ENEN 601. ENEN 603 and 605 are normally required, together with at least two of ENEN 621, 623, 625 or 627.

**6. Additional Requirements**
All full-time Master of Science and Doctor of Philosophy students are required to register and participate in the Research Seminar course, Environmental Engineering 601, in each of the Fall and Winter terms.

**7. Credit for Undergraduate Courses**
Not applicable.
Environmental Engineering 605 H(3-0)  
**Environmental Chemistry and Microbiology**  
Note: Credit for both Environmental Engineering 605 and Chemical Engineering 619.19 will not be allowed.

Environmental Engineering 619 H(3-0)  
**Special Topics**  
New courses on specialized topics relevant to environmental engineering. It may also be offered to doctoral degree students to enable them to pursue advanced studies in particular areas under the direction of a faculty member, which must be arranged and approved prior to registration.  
MAY BE REPEATED FOR CREDIT

Environmental Engineering 621 H(3-0)  
(Chemical Engineering 701)  
**Experimental Design and Error Analysis**  
Statistical analysis and design of engineering experiments. Random variables and sampling distributions; estimation and hypothesis testing; concepts of central tendency, variability, confidence level; correlation, regression and variation analysis; robust estimation; experiments of evaluation; experiments of comparison; factorial experiments (analysis of variance); experimental designs (including randomization, replication, blocking and analysis of covariance).  
Note: Credit for both Environmental Engineering 621 and Chemical Engineering 619.45 will not be allowed.

Environmental Engineering 623 H(3-0)  
**Air Dispersion Modelling**  

Environmental Engineering 625 H(3-0)  
**Computational Methods for Environmental Engineering**  
Taylor series, numerical integration. Linear and nonlinear algebraic equations and solvers. Ordinary and partial differential equations. Finite difference methods: explicit, implicit and Crank-Nicholson methods. Finite difference, finite element or finite volume numerical approximations. Initial and boundary value problems. Boundary conditions, discretization considerations, and design of approximations, accuracy and error reductions. Applications in environmental engineering, such as pollutant dispersion and transport, will be discussed.  
Note: Credit for Environmental Engineering 625 and any of Chemical Engineering 639, Civil Engineering 743 or Mechanical Engineering 631 will not be allowed.

Environmental Engineering 627 H(3-0)  
**Contaminant Transport**  

Environmental Engineering 631 H(2-2)  
**Remote Sensing for Environmental Modelling**  
Application of geomatics technologies to monitoring, modelling and mitigation of environmental engineering problems. Remote sensing (RS) and Geographic Information Systems (GIS) for estimating parameters in earth systems modelling and land based processes including evapotranspiration, precipitation, snowmelt, temperature, and effects of El Nino. Monitoring of climate change and impacts of anthropogenic activities such as farming induced erosion and desertification. Science and engineering of water quality in inland, coastal and deep ocean environments and the use of RS and GIS to monitor and model eutrophication, sediment levels and temperature.

Environmental Engineering 633 H(3-0)  
**Fuzzy Logic for Environmental Engineering**  
Note: Credit for Environmental Engineering 633 and any of Civil Engineering 619.30 or 619.91 will not be allowed.

Environmental Engineering 635 H(2-2)  
(Chemical Engineering 635)  
**Environmental Modelling**  
Nature and purpose of environmental modelling; the top-down and the bottom-up approaches; typology of environmental models; definition of fundamental concepts; steps involved in designing and building a model; calibration, verification and validation of models; scale dependency; sensitivity analysis; characteristics, architecture and functioning of selected environmental models.
### Environmental Engineering 641 H(3-0) (Chemical Engineering 643)
**Air Pollution Control Engineering**
Introduction to air quality and air pollution. Impact of air pollution and greenhouse gases on health and climate change. Energy and air pollution.
Fundamentals of fossil fuel combustion and related air pollution. Pre-combustion air pollution control strategies: fossil fuel cleaning/refinery, renewable energy (wind, solar, biomass, etc.), and alternative energy sources (hydrogen, etc.). In-combustion air pollution control. Post-combustion air pollution control. Industrial air pollution control. Control of particulate matter. Control of VOCs, SOX, and NOX. Adsorption and absorption of air pollutants. GHG emission control. Indoor air quality engineering.
Recent advances on related topics.

### Environmental Engineering 643 H(3-0)
**Air Pollutant Sampling and Characterization**
Note: Credit for Environmental Engineering 643 and any of Mechanical Engineering 619.19 or 619.56 will not be allowed.

### Environmental Engineering 651 H(3-0)
**Geo-Environmental Aspects of Landfill Design**
Note: Credit for both Environmental Engineering 651 and Civil Engineering 619.80 will not be allowed.

### Environmental Engineering 653 H(3-0) (Civil Engineering 747)
**Contaminated Soil Remediation**
Overview of soil remediation engineering. Contaminant partitioning in air, water and gas phases. Phases of site assessments, Physical and chemical treatment processes, soil vapour extraction, air sparging, soil washing, soil flushing, thermal desorption and incineration, solidification and stabilization, vitrification, biological treatment processes, bioremediation kinetics, ex situ and in situ techniques. Liquid phase bioremediation as it pertains to soil remediation.
Note: Credit for both Environmental Engineering and Civil Engineering 747 or 619.62 will not be allowed.

### Environmental Engineering 655 H(3-0) (Civil Engineering 745)
**Hazardous Waste and Contaminated Site Management**
Note: Credit for both Environmental Engineering 655 and Civil Engineering 619.60 will not be allowed.

### Environmental Engineering 661 H(3-0) (Chemical Engineering 645)
**Industrial and Produced Wastewater Treatment**
Sources and characterization of industrial wastewater. Treatment objectives and regulations. Unit and process design. Physical/chemical treatment including sedimentation, coagulation, filtration, adsorption, adsorption, ion exchange, membrane processes and pH adjustment.

### Environmental Engineering 663 H(3-0) (Civil Engineering 741)
**Biological Processes for Wastewater Treatment**
Specialized biological wastewater treatment processes for removal of impurities not effectively removed by conventional secondary wastewater treatment systems, such as nutrients (e.g. nitrogen and phosphorus), residual organics, residual solids, bacteria and viruses. Wetlands. Activated sludge modelling. Biological nutrient removal. Sludge management. Disinfection.
Note: Credit for both Environmental Engineering 663 and Civil Engineering 619.21 will not be allowed.

### Environmental Engineering 665 H(3-0) (Chemical Engineering 666)
**Wastewater Issues for the Oil and Gas Industry**
Note: Credit for both Environmental Engineering 665 and Chemical Engineering 619.79 will not be allowed.

### Environmental Engineering 671 H(3-0)
**Energy and Environment**
A graduate seminar course. Lectures will alternate with discussion based on assigned reading. Topics will be selected to satisfy the interests of students from the following list. Energy overview from primary energy to end use including, quantities, fuels and prices; energetics of natural systems; formation, extraction, and transformations of fossil fuels; physics and engineering of nuclear power; modern renewables: biomass, solar and wind; electricity generation, transmission and economics; building energy systems; heat and power integration; overview of climate science: paleo-climatology, processes that determine climate, predictions and observations of anthropogenic climate change; technical options for reducing CO2 emissions.
Note: Credit for both Environmental Engineering 671 and Chemical Engineering 619.61 will not be allowed.

### Environmental Engineering 673 H(3-0) (Mechanical Engineering 637)
**Thermal and Cogeneration Systems**
Note: Credit for both Environmental Engineering 673 and Mechanical Engineering 619.13 will not be allowed.

### Environmental Engineering 681 H(0-6)
**Project in Environmental Engineering I**
A one-term half-course which allows course-based MEng degree students with the opportunity of pursuing advanced studies or a design project in environmental engineering under the direction of one or more faculty members, which must be arranged and approved prior to registration. A written proposal, progress reports, and a final report are required.
Note: Credit for Environmental Engineering 681 and any of Engineering 683, Engineering 685 or Environmental Engineering 682 will not be allowed.
Note: Available to course-based MEng degree students only. Cannot be taken following the completion of Environmental Engineering 682.

### Environmental Engineering 682 F(0-6)
**Project in Environmental Engineering II**
A two-term full-course which allows course-based MEng degree students with the opportunity to work on a comprehensive research or design project under the supervision of one or more faculty members, which must be arranged and approved prior to registration. A written proposal, progress reports, and a final report are required.
Note: Credit for Environmental Engineering 682 and any of Engineering 683, Engineering 685 or Environmental Engineering 681 will not be allowed.
Note: Available to course-based MEng degree students only. Cannot be taken following the completion of Environmental Engineering 681.

### Environmental Engineering 683 H(3-0)
**Environmental Policy Analysis**

### Environmental Engineering 691 H(3-0)
**Life Cycle Assessment**
Concepts of life cycle assessment. Consideration of environmental and economic impacts from the extraction of resources to the disposal of unwanted residuals. Review and evaluation of tools and frameworks (e.g. process, input-output, hybrid life cycle assessment). Relative merits of various methods for interpreting and valuing the impacts. Examples of applications in environmental engineering and the energy industry.

1. Degrees and Specializations Offered

The University offers an interdisciplinary specialization in Israel Studies to students registered in an existing graduate program. The student will receive the degree offered by the home program. Master of Arts (MA) Specialization: Israel Studies (Interdisciplinary)

2. Admission Requirements

In selecting students for the program, a broad range of disciplinary backgrounds will be considered as well as relevant experience. Upon application to an existing program students must contact the Israel Studies Program Director.

All applicants must meet the requirements of the Faculty of Graduate Studies and the home department. In addition applicant must send the Israel Studies Program:

a) A copy of a graded writing sample
b) A 250-word (minimum) statement of research interest including research topics in the field and reasons for pursuing a graduate degree with a specialization in Israel Studies

3. Application Deadline

The deadlines for the submission of complete applications correspond to the home program through which applicants have applied.

4. Advanced Credit

The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

5. Program/Course Requirements

In addition to the Faculty requirements, the Program requires:

Master of Arts

a) A minimum of one year of full-time study at the University of Calgary
b) Three full-course equivalents:
   - Israel Studies 601 (half-course)
   - One full-course equivalent in the student's disciplinary focus
   - One appropriate methods course in the focus discipline - for example, History 690 or Political Science 691 (half-course)

   • One full-course equivalent in Israel Studies options, to be chosen from:
     - English 607.14
     - English 607.17
     - History 515
     - History 691
     - Political Science 596.74
     - Political Science 675.01
     - Political Science 681
     - Religious Studies 601
     - Religious Studies 681
     - Strategic Studies 651 (topic focused on Israel)
     - Strategic Studies 653 (topic focused on Israel)

   Course selection will be made in consultation with the Director of the Program and in relation to the student's field of thesis research.

c) A demonstration of reading knowledge of Hebrew or a second language related to the major field of study before the oral thesis defence. Students may satisfy this requirement by successfully completing a language examination administered by the Program Director, by successfully competing Religious Studies 207 and 209, or by successfully completing equivalent language courses (e.g., in Arabic or Russian) should this be required by a student's area of concentration.

6. Additional Requirements

None.

7. Credit for Undergraduate Courses

Students may apply for no more than one 500-level course for graduate credit, subject to the approval of the Program Director. Graduate students taking a 500-level course for graduate credit will be required to complete additional assignments.

8. Time Limit

Expected completion time is two years. Maximum completion time is four years.

9. Supervisory Assignments

Students will be assigned a supervisor upon admission.

10. Required Examinations

Final thesis oral examinations are open.

11. Research Proposal Requirements

Within twenty months of entering the program, the student, with the supervisor's advice, develops a thesis research proposal to be submitted to the Program Director for approval and placed on file.

12. Special Registration Information

None.

13. Financial Assistance

Financial assistance may be available to qualified students. For information on awards, see the Awards and Financial Assistance section of this Calendar. Students applying for scholarships must submit their applications to the Program in accordance with the home department deadline.

14. Other Information

Given the limited resources, the Program may, in any year, admit fewer applicants than those who are qualified to undertake graduate studies.

Phone: (403) 220 - 4802
Fax: (403) 284 - 4852
Email Address: gradstud@ucalgary.ca
Web page URL: http://www.eng.ucalgary.ca/Chemical

Department of GeoScience

Location: Earth Sciences 118
Phone: (403) 220 - 3254
Fax: (403) 284 - 0074
Email Address: geosciencegrad@ucalgary.ca
Web page URL: http://www.geo.ucalgary.ca

1. Degrees and Specializations Offered

The University offers an interdisciplinary specialization in Reservoir Characterization to students registered in an existing course-based Master's program in the Departments of Chemical and Petroleum Engineering or GeoScience. The program integrates reservoir engineering, geology, geophysics, and reservoir characterization. The student will receive the degree offered by the home program:

Master of Engineering in Chemical and Petroleum Engineering (MEng), or
Master of Science (MSc) (Geology and Geophysics) Specialization: Reservoir Characterization (Interdisciplinary)

2. Admission Requirements

In addition to Faculty requirements, all applicants must meet the minimum standards of the home program.

Acceptance into the Master of Engineering program would normally require the completion of the equivalent of the Bachelor of Science in Oil and Gas Engineering degree offered by the University of Calgary. However, individuals with more diverse background and industry experience may be considered for admission.
GRADUATE INTERDISCIPLINARY SPECIALIZATIONS

Acceptance into the Master of Science program requires the completion of a Bachelor of Science in Geology and Geophysics plus ENPE 507 – Well Logging and Formation Evaluation, or equivalent.

Applicants with an undergraduate degree in geology must demonstrate acceptable proficiency in mathematics. It is an asset for geologists to have taken additional mathematics courses as technical electives during their undergraduate degree.

3. Application Deadline
See departmental listings for the deadlines for the submission of complete applications.

4. Advanced Credit
The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree/diploma or for courses taken to bring the grade point average to a required level for admission.

5. Program/Course Requirements
To address the broad background of students entering the Reservoir Characterization Interdisciplinary Specialization, there are three streams for completion: Geology, Geophysics and Engineering.

In addition to the Faculty of Graduate Studies and the home program requirements, the Specialization requires:

a) Students with undergraduate degrees in geology must take an applied mathematics course in the block week before the first term in program.

b) Students with undergraduate degrees in engineering and geophysics may also be required to take an applied mathematics course in the block week before the first term in program, at the discretion of their academic advisors and the specialization coordinator.

6. Credit for Undergraduate Courses
Equivalents from the following list of which at least 3 half course equivalents must be in geoscience:

- GLGY 699.16 – Geological History of the Western Canada Sedimentary Basin
- GOPH 559 – Geophysical Interpretation
- GOPH 671 – Inverse Theory and Methods

Geology Stream
Geology students must take 5 half-course equivalents from the following list of which at least 3 half-course equivalents must be in engineering:

- ENCH 619.87 – Petroleum Economics
- ENGG 407 – Numerical Methods
- ENPE 523 – Introduction to Reservoir Engineering, ENPE 525 – Waterflooding and Enhanced Oil Recovery
- ENPE 533 – Petroleum Production Engineering
- ENPE 543 – Geophysical Characterization of Oil and Gas Reservoirs
- GLGY 595.03 – Reservoir Evaluation and Hydrocarbon Play Assessment
- GLGY 613 – Flow in Porous Media
- GLGY 649/GOPH649 – Petrophysical Techniques
- GOPH 559 – Geophysical Interpretation

Geophysics Stream
Geophysics students must take 5 half-course equivalents from the following list of which at least 3 half course equivalents must be in engineering:

- ENCH 619.87 – Petroleum Economics
- ENGG 407 – Numerical Methods
- ENPE 523 – Introduction to Reservoir Engineering, ENPE 525 – Waterflooding and Enhanced Oil Recovery
- ENPE 533 – Petroleum Production Engineering
- ENPE 543 – Geophysical Characterization of Oil and Gas Reservoirs
- GLGY 595.03 – Reservoir Evaluation and Hydrocarbon Play Assessment
- GLGY 613 – Flow in Porous Media
- GLGY 649/GOPH649 – Petrophysical Techniques
- GOPH 559 – Geophysical Interpretation

Geology throughput
- GLGY 693.02 – Stratigraphy and Sedimentation of clastic rocks (Q)*
- GLGY 693.03 – Stratigraphy and Sedimentation of carbonate rocks (Q)*
- GLGY 693.04 – Geodynamic Flow in Porous Media
- GLGY 693.05 – Reservoir Evaluation and Hydrocarbon Play Assessment
- GLGY/GOPH 649 – Petrophysical Techniques
- GLGY 693.02 – Stratigraphy and Sedimentation of clastic rocks (Q) *

Each team is required to analyze and integrate seismic data, petrophysical logs, core analysis, well tests, DSTs, PVT data on reservoir fluids, well locations, well completion information and any production/pressure history data from a real field.

Each member of the team is expected to have proficiency on the software packages for geophysical interpretation, geological mapping, geostatistical modeling and reservoir flow modeling. The reservoir characterization will require the evaluation and assessment of a geostatistical model of the field that will be used for a successful history match and to propose future development. An economic evaluation will be included. The project will conclude with a formal presentation to experts from both academia and industry.

Successful completion of the Capstone Project is the exit requirement for the program.

6. Additional Requirements
None.

7. Credit for Undergraduate Courses
The applicant must make advanced credit requests as part of the admission process. Credit will not be given for course work taken as part of another completed degree or diploma program, or for courses taken to bring the grade point average to the required level for admission.

8. Time Limit
Expected completion time is two years and maximum completion time is six years.

9. Supervisory Assignments
Supervisors will be approved by the specialization coordinator.

10. Required Examinations
After the conclusion of the Capstone Project, there will be a comprehensive oral examination of each student before an examining committee that includes a faculty member from each of the three disciplines. Each student will be expected to express in-depth knowledge in his/her area of expertise (engineering, geology, geophysics), and to have a comprehensive knowledge of the significance of the other two areas in successful reservoir characterization.

11. Research Proposal Requirements
See description of the Capstone Project above.

12. Special Registration Information
None.

13. Financial Assistance
For information on awards, see the Awards and Financial Assistance section of this Calendar.

14. Other Information
None.

15. Faculty Members/Research Interests
See the website of the home department of the faculty members.
Awards And Financial Assistance For Graduate Students

The University of Calgary is very proud of its Graduate Student Awards program. In addition to recognizing academic achievement, scholarships are important in helping to bridge the gap between the rising cost of attending university and limited student income. Attracting top national and international students to the University of Calgary continues to be a very high priority.

We are extremely pleased that our donors share our commitment to graduate student awards, and we greatly appreciate the financial support offered by all of our valued donors.

Full-time students registered in a graduate degree program at the University of Calgary are eligible for awards and financial assistance.

Scholarship information, application forms and instructions are found through the searchable awards database on the web at [http://www.grad.ucalgary.ca](http://www.grad.ucalgary.ca). Additional information is available from your program. Because this Awards List is published a considerable time before the opening of the award season, the University reserves the right to make whatever changes circumstances may require, including cancellation or addition of particular awards.

I. University Assistantships

University Graduate Assistantships are governed by the Collective Agreement between the Governors of the University of Calgary and the Graduate Students’ Association. Each year teaching units have available varying numbers of graduate assistantships to be awarded on the basis of merit. Individuals interested in such appointments should contact the appropriate program administration about eligibility, application deadlines and procedures. The stipends indicated are subject to change without notice.

Appointments are available from most units in which graduate programs are offered. Categories of appointment include Graduate Assistantships (Teaching, Non-Teaching and Trust).

Graduate Assistantships (GA, Teaching/Non-teaching)

A Graduate Assistantship (Teaching) is an appointment made to assist with the instructional responsibilities of departments or faculties. GA(T)s are appointed to provide teaching or instructional service, which might encompass lecturing assistance, laboratory supervision, office hours, grading assignments, tutorial direction, assistance in preparation of demonstration and instructional aids, and other related academic duties.

A Graduate Assistantship (Non-Teaching) is an appointment made to assist departments and/or professors with non-teaching responsibilities. The duties of a GA(NT) may include, for example, collecting research data, interviewing research subjects, bibliographic work or general research services.

Remuneration paid to Graduate Assistants must comply with the Collective Agreement or the regulations of the agency providing the funds. The stipend is listed in the Collective Agreement.

Graduate Assistantships (Trust)

A graduate student is appointed to a Graduate Assistantships (Trust) to build academic experience in addition of particular awards.

Appointments are funded from the research support accounts held in trust for University staff who select and recommend graduate students for such appointments. The stipends vary. This type of support is arranged directly between graduate students and their prospective supervisors.

II. Project Employment

A Graduate Project Employee (GPE) is funded from a trust account to provide a direct service in connection with a faculty member’s research. This research is normally not related to the student’s program and/or area of research. The service provided is normally supervised by someone other than the student’s supervisor and is treated as regular employment. Graduate students employed as Graduate Project Employees are governed by the Project Employment Guide.

III. Sessional Instructorship

A department or faculty may appoint a graduate student as a Sessional Instructor to teach a course as Instructor of Record. Sessional Instructor appointments are Term Certain Appointments covered under the Collective Agreement between the Governors of the University of Calgary and the University of Calgary Faculty Association ([www.ucalgary.ca/HR/policies/academic.html](http://www.ucalgary.ca/HR/policies/academic.html)).

IV. Graduate Teaching Fellowships (GTF)

A Graduate Teaching Fellowship (GTF) is an award of merit to a doctoral student who has completed candidacy. A senior graduate student appointed as a Sessional Instructor may be recommended by the department for a GTF award of $3,000, in addition to the normal stipend for the sessional instructorship. Normally, a student may not be a Sessional Instructor for more than one half-course or one full course at any one time.

V. Dean’s Research Excellence (DREA) Awards

The Faculty of Graduate Studies offers Dean’s Research Excellence Awards (DREA) to students entering a Master’s or doctoral program with a major national scholarship won on a competitive basis (e.g., Natural Sciences and Engineering Research Council, Social Sciences and Humanities Research Council, or Canadian Institutes of Health Research). Students must be assessed full program fees and be registered full-time in the Faculty of Graduate Studies in a thesis program at the University of Calgary to be eligible for a Dean’s Research Excellence Award.

Doctoral Students may be eligible for a DREA on the first anniversary date of their registration in the program Students holding NSERC or SSHRC awards will receive the DREA upon presentation of their Payment Activation Form (PAF) to the Faculty of Graduate Studies Graduate Scholarship Office.

Students holding CHIR or other non-TriCouncil national awards must apply for the Dean’s Research Excellence Award by sending a letter with proof of the award and evidence of its competitive nature to the Graduate Scholarship Office, Faculty of Graduate Studies, Room 720, Earth Sciences Building, University of Calgary, 2500 University Drive NW, Calgary, Alberta T2N 1N4. Payment of the award is made in tandem with the student’s registration date only, and in accordance with the Faculty of Graduate Studies Payment Schedule.

VI. Dean’s Entrance Scholarships (DES)

Awarded to Canadian or international students with excellent academic records and potential who will be entering a doctoral program at the University of Calgary. Successful candidates must be registered full-time in the Faculty of Graduate Studies at the time of tenure. Students receiving this award must hold or apply for any awards from such funding agencies as: NSERC, SSHRC, CHIR, AHFMR, ICORE, and Alberta Ingenuity, if eligible.

VII. Faculty of Graduate Studies Scholarships (FGSS)

To be eligible for a Faculty of Graduate Studies Scholarship, students must be registered full-time in the Faculty of Graduate Studies in a thesis program at the University of Calgary. Graduate programs allocate these awards, and students should check with the program administrator for application procedures.

VIII. Graduate Students’ Association Bursaries

The Graduate Students’ Association makes available bursaries of up to $1,000 per year to students who at the time of tenure will be registered in a graduate program at the University of Calgary and can demonstrate financial need. Application forms are available from the Graduate Students’ Association, 350 MacEwan Student Centre, telephone (403) 220-5997, and application deadlines are in October and February. Contact the GSA office for further information.

IX. Government Financial Assistance

The provincial and federal governments make assistance available to students in the form of loans. Students must be Canadian citizens or Permanent Residents of Canada and provide sufficient evidence that financial assistance is essential to enable the student to continue her/his education. The amount of assistance varies. Students should contact their provincial funding office directly to obtain detailed information about the student loans, grants and bursaries offered through their province. Links to the out of province government loan websites are available from the Student Awards and Financial Aid website: [www.ucalgary.ca/awards/](http://www.ucalgary.ca/awards/).

X. International Students

International students planning to do graduate work at the University of Calgary should be aware that a number of Canadian scholarship programs require Canadian citizenship or permanent residence status. However, the Government of Canada does support a number of programs designed to assist individuals who wish to study in Canada on a Study Permit. These programs are usually organized through agencies of the individual’s own government, and prospective students are encouraged to explore these possibilities. International students may apply for Graduate Assistantships, Graduate Teaching Fellowships and FGS Scholarships.

XI. Awards Offered by Government, Industry and Others

Many foundations, companies, professional organizations and other agencies offer financial support to graduate students. A number of international, national and provincial organizations award scholarships and fellowships, tenable at this and other universities. Details about many of these awards are available from the Graduate Awards Database which is found through the MyUofC portal or at [http://www.grad.ucalgary.ca/](http://www.grad.ucalgary.ca/)

**XII. University Research Grants**  

*Committee Thesis Research Grants*  

The University Research Grants Committee recognizes that there are instances where the ordinary resources for thesis research available through a program or faculty may not be adequate to attend to certain special needs of a particular thesis research project or where unpredictable circumstances have made it impossible to provide funds from current budgets.

Thesis Research Grants are made to assist graduate students with the acquisition of special equipment, services or materials or for fieldwork essential to the conduct of their thesis projects. These awards are competitive. An application guide and the application form may be found at [http://www.ucalgary.ca/research/files/Thesis%20Research%20Guide%202009-01.doc](http://www.ucalgary.ca/research/files/Thesis%20Research%20Guide%202009-01.doc). Further information is available through the Office of Research Services, Main Floor, 3512 33St. NW, University Research Park Calgary, Alberta. Telephone (403) 220-6354.

**XIII. Conference Travel Grant**  

*Graduate Students*  

Graduate Student Travel Grants are made to assist graduate students in presenting the results of their thesis research at significant scientific or scholarly meetings, and equally, to provide students with an opportunity to gain experience in conference presentation and to meet colleagues in universities and industries who will be of importance to their future career. These awards are competitive. An application guide and the application form may be found at [http://www.ucalgary.ca/research/files/Grad%20Travel%20Guide%202009-01.doc](http://www.ucalgary.ca/research/files/Grad%20Travel%20Guide%202009-01.doc). Further information is available through the Office of Research Services, Main Floor, 3512 33St. NW, University Research Park Calgary, Alberta. Telephone (403) 220-6354.

**AWARDS & FINANCIAL ASSISTANCE**

<table>

</tr>
<tr>
<td>Awards over $10,000</td>
<td>Paid in equal monthly installments over twelve months</td>
</tr>
</tbody>
</table>

If a student has a successful final oral examination during the tenure of a scholarship, the award will be terminated at the end of the month in which the thesis is submitted to the Faculty of Graduate Studies, unless otherwise specified in the terms of reference of the award, or at the date of the termination of the award, whichever comes first.

No student can receive a total of more than the minimum tri-council scholarship value (currently $17,300) from awards made in the Open Scholarship competition, the Special Awards and Bursaries competitions, and Program Recommended Awards.

A student holding external awards with a total value equal to or greater than the minimum tri-council scholarship is not eligible for funding from the Open Scholarship competition (with the exception of an Honorary Izaak Walton Killam Doctoral Scholarship), for the Special Awards and Bursaries competition, or for Program Recommended awards.

A student who is awarded both a University of Calgary scholarship (or combination of awards) and an external award equal to or greater than the amount stated above must take up the external award at the earliest possible date and decline the University of Calgary scholarship(s) effective on that same date. In such a case, a student may include the offer of the forfeited award on a curriculum vitae.

The Dean's Entrance Scholarship (DES), Dean’s Research Excellence Awards (DREA), and Graduate Teaching Fellowships (GTF) are not subject to the limits just described. Similarly, funds awarded by programs from their Graduate Student Support allocation are not subject to this limit.

Before accepting other forms of awards or remuneration, especially those involving service, students must check with the Graduate Scholarship Office, to ensure that acceptance of the award does not affect the holder’s full-time registration status.

Students holding multiple year funding must submit a Scholarship Progress Report to the Faculty of Graduate Studies Scholarship Office not later than the end of the eleventh month of the registration year.

Full Terms of Reference and application documents for each award are available through the searchable database tool, found on the web at [http://www.grad.ucalgary.ca/](http://www.grad.ucalgary.ca/).

When required, complete application packages should be sent to:

Graduate Scholarship Office  
Faculty of Graduate Studies  
University of Calgary  
Earth Sciences 720  
2500 University Drive NW  
Calgary AB T2N 1N4

Important note: Scholarship payments cannot be made if the student has not registered for the upcoming academic year. Students who have been awarded scholarships and other awards should register as soon as possible to ensure timely payment.

Please note that the following lists of awards, although current at time of compilation, may change over the year. The searchable Graduate Awards Database is the most up-to-date and reliable source for available awards and their complete terms of reference ([https://pr1web.ucalgary.ca/UofC_FGSA/public/public home.aspx](https://pr1web.ucalgary.ca/UofC_FGSA/public/public home.aspx)).

Student Services

Student and Enrolment Services

"will enhance the student experience by providing high quality service and support for all aspects of student life at the University of Calgary, particularly for the educational priorities detailed in our Academic Plan, "Raising our Sights."

Associate Vice-Provost (Student Services): Jim Dunsdon, BED, MBA
Telephone: (403) 220-3922
Fax: (403) 210-3889

Acting Associate Vice-Provost (Enrolment) and Registrar: David Johnston, BA, MA
Telephone: (403) 220-7993
Fax: (403) 220-0762
Location: MacKinnie Library Block 117

Prospective Students Recruitment and Admissions

Director: Elaine Wong

The Recruitment and Admissions Office acts as the first point of contact for prospective students who are interested in attending an undergraduate program at the University of Calgary.

Services for prospective students include:
- Application and admissions advising
- Presentations at Canadian high schools
- Attendance at education or career fairs
- Hosting application and admission workshops.

Other services provided are:
- Centralized undergraduate application and admission services for both domestic and international applicants to programs offered by twelve faculties.
- Evaluation of domestic and foreign credentials for purposes of admission and transfer credit.
- Coordination and facilitation of requests for transfer credit agreements from other Alberta post-secondary institutions.
- Studywork/volunteer abroad resource library
- Selection for Student Exchange Programs and Group Study Programs (semester, spring and Summer)
- International student advising and support
- Bridging programs (bringing Canadians and international students together).

The Centre for International Students & Study Abroad (CISSA)

Director, Glynn Hunter, BA, MA

The Centre for International Students & Study Abroad (CISSA) provides support to international students related to their adjustment to the university and Canada, and promotes an understanding of international issues among Canadians by involving them in programs (study abroad, work and volunteer overseas), which develop a global experience.

Programs and services at CISSA include:
- Studywork/volunteer abroad resource library
- Selection for Student Exchange Programs and Group Study Programs (semester, spring and Summer)
- International student advising and support
- Bridging programs (bringing Canadians and international students together).
- Global Friends, Language Bank and International Week
- Volunteer opportunities on campus, in Canada and abroad
- Publication of handbooks for international students and study abroad students
- Provide orientations and workshops for students studying in Canada or preparing to go abroad

*Services are partially funded by Student and Enrolment Services and the Students’ Union

Telephone: (403) 220-8020
Fax: (403) 284-1755
E-mail: recruit@ucalgary.ca for employment services; coop@ucalgary.ca for Co-operative Education and Internship services

Centre for Community Service-Learning and Student Engagement

The Centre for Community Service-Learning and Student Engagement offers programs and services to support the institutionalization of service-learning and civic engagement and to link the university to the greater community. Programs seek to enhance the student experience in and out of the classroom. The Centre’s services include:
- Co-curricular service-learning programs including Calgary Serves Canada, an ‘alternative’ Reading Week project
- International service-learning programs
- Support to faculty developing service-learning courses
- Events to foster enhanced civic consciousness
- A place of contact for community organizations
- Peer Helper positions and a Peer Helper work space

Telephone: (403) 210-8509
Fax: (403) 210-3889
Location: 4th Floor, MacEwan Student Centre
Website: http://www.ucalgary.ca/servicelearning

Counselling Centre

Associate Director Wellness Centre (Counselling): Michael McKean, MSW, Registered Social Worker (Alberta)

The Counselling Centre is part of the newly launched Wellness Centre seeing the integration of Health Services, Counselling Centre and the Chaplaincy. Integration has created a culture of wellness on campus – a place where students can truly experience an opportunity to grow in health and wellbeing through partnership with Wellness Centre professionals.

The Counselling Centre offers the following services:
- Time-limited individual and couples counselling provided by well-qualified counsellors or counsellors-in-training
- A variety of workshops including managing time, stress and sleep; managing test anxiety; overcoming procrastination; making educational and career decisions;
- Career Clinic, drop-in times to assist with your educational and career decisions;
- Academic Clinic, appointment bookings to assist you with educational success strategies;
- Counsellor Training Program for provisionally registered psychologists and graduate level practicum placements; and
- Website information including FAQs, tip sheets and useful links to personal, academic and career information.

Telephone: (403) 220-5893
Fax: (403) 284-0069
Location: MacEwan Student Centre 375
Website: http://www.ucalgary.ca/counselling

Disability Resource Centre

Director: Johanne Tottle, PhD

- Advising and support for students seeking academic accommodations
- Arranging assistive services such as learning strategists, note-takers, and sign language interpreters
- Guidance and information regarding student funding
The Native Centre

Director: Shawna Cunningham, BA, MA

The Native Centre was established in 1972 by the University of Calgary to provide culturally sensitive support services and programs to Aboriginal students. It also provides an important venue for the support services and programs to Aboriginal students, the University of Calgary, and the aboriginal community at large. Below is a list of the programs and services:

Student Advisory Services
- Pre-admissions advising and program information
- Advice and Assistance with Applications to the University of Calgary
- Registration information and assistance with online services
- Program Advising for Open Studies
- Information and Referrals to Campus-wide services
- Advise and assistance with Post-secondary funding for Aboriginal Students
- Peer tutoring
- Personal counselling
- Cultural and Spiritual Advising
- Cultural Enrichment Lecture Series in partnership with International Indigenous Studies

Special Programs
- NAPI Ambassador Aboriginal Youth Outreach Program
- LYNX Aboriginal Student Career and Employment Program
- Program Assistant for Student Services program (PASS)
- Program for Social Events
- Student Volunteer Opportunities

Special Annual Events
- Pipe Ceremonies (each semester)
- Women’s Tea Ceremonies (monthly)
- Tipi Raising Workshop
- Annual Graduation Banquet and Powwow
- Native Awareness Days, hosted by the First Nations Student Association

Facilities
- The Red Lodge, Student Lounge
- First Nations Student Association Offices
- Computer Lab
- Study Space

In honour of the diversity of our campus community, The Native Centre is an open welcome space for all students, faculty, and staff. For more information, please contact us at:

Phone: (403) 220-6034
Fax: (403) 220-6019
Location: MacEwan Student Centre 390z
Website: www.ucalgary.ca/nativcr

Office of the Student Experience

Through exceptional campus-wide programming, service and research, the Office of the Student Experience supports the success and leadership development of students through the different stages of their university experiences. The OSE offers:

- Orientation and registration assistance (Summer Orientation, New Student Drop-in Centre and Fall Orientation Week)
- Online resources (discussion forums, Transition Guide, leadership resources)
- U of C Leadership Program (UCL); Personal, Team, and Community Leadership tiers;
- An Emerging Leaders Program for first-year students;
- The U of C Co-Curricular Record. Your Complete Student Experience. Documented.
- Ongoing workshops and communications (Student Success Seminars);
- Services for graduate students (Graduate Student Orientation, Graduate UCL sessions);
- Parent and family services (orientation, parent and family email)
- Volunteer and leadership opportunities (Peer Helper Program, Orientation Leaders);
- Research and program assessments.

Hours: Monday to Friday, 8:30 am - 4:30 pm

Residence Services

Director Residence Services: Joel Lynn

Living in residence offers a blend of academic and personal growth that makes a university education truly great! Residence students’ close proximity to class, to faculty, to peers and to study groups, facilitates an interactive, accessible and supportive university learning lifestyle. The University of Calgary has many kinds of accommodation available on campus for its diverse population of students including traditional style residences for first year students, apartment style residences for upper year undergraduate and graduate students and townhouses for students with families. Applications are available online at www.ucalgary.ca/residence.

STUDENT SERVICES

Single Student Housing

The single student residence complex, located on the southwest corner of the University Campus, consists of eight buildings and offers a variety of accommodation styles.

Rundle and Kananaskis Halls are traditional style residences accommodating approximately 650 students in double and single rooms (there is a limited number of single rooms available). Housing consists of single-gender and co-ed wings or floors to best meet the needs of individual students. Each floor has a Community Advisor available to respond to students’ needs and concerns. Laundry facilities, recreational lounges and academic lounges are all available for student use. Meal plans are required for students living in these buildings. More information on meal plans can be found at www.ucalgary.ca/foodservices/resdiningprogram.html

Cascade Hall, Norquay Hall, Brewster Hall and Olympic Hall accommodate approximately 600 students in furnished, self-contained studio, one bedroom (single occupancy), two bedroom and four bedroom apartments. These apartments are designated for new and returning undergraduate students. Each building has its own academic lounge and recreational lounge, and also has Community Advisors available to support each student’s residential experience.

Glacier Hall and Castle Hall are designated as graduate student apartment style buildings with the same services as our undergraduate buildings. Students who have specific accessibility, mobility or medical needs are asked to indicate these needs on their application. Residence Services will work with students to meet their specific needs where possible.

Students must apply online for residence accommodation at www.ucalgary.ca/residence. First-Year Undergraduate Students are guaranteed a space in Residence if their application is received prior to April 30 of each year. All other new students are encouraged to apply as soon as possible, as demand for space is high, and assignments are completed on a first-come, first-served basis. Returning students are assigned based on a lottery system, with applications due by February 29th.

Applications are available each year in January.

Telephone: (403) 220-3210
Email: rezserv@ucalgary.ca
Location: Dining Centre 018
Website: www.ucalgary.ca/residence

Student Family Housing

Student Family Housing consists of 250 townhouses, arranged in a garden court setting that is ideal for students with families. In addition to the facilities offered, Residence Life Staff facilitate programs to meet all family members’ needs, including community barbecues, homework help, summer camps and ESL conversation groups.

Space is limited in Student Family Housing, and the waitlist is processed based on date of application. To apply online or to learn more about student family housing, please visit our website.

Telephone: (403) 220-7227
Location: 3735 - 32 Avenue N.W., Calgary, Alberta T3B 2X1
Web Site: www.ucalgary.ca/residence
Student Awards and Financial Aid
Director: Claudia Barrett

Awards
Administers Scholarships and Bursaries:
- Awards for entering undergraduate students: University of Calgary Automatic Admission Scholarships, Dean’s Merit Admission Awards, High School Awards, Outstanding Achievement Awards, Seymour Schulich Scholarships and Awards, IB Diploma Scholarships

Student Loans
- Liaison between students encountering difficulties with their financial assistance and the appropriate government funding agencies
- Emergency loans and bursaries administration

For further information on financial aid, refer to the Awards and Financial Assistance section of this Calendar.

Telephone: (403) 210-7625
Fax: (403) 292-2999
Questions: www.ucalgary.ca/currentstudents/asktherock/
Location: MacKinnie Library Block 124
Website: www.ucalgary.ca/awards/

University Health Services
Wellness Centre Director: Debbie Bruckner

University Health Services offers the following services to the university community:
- Confidential health services from family physicians with extensive experience in collegiate health care- including walk-in services and family medicine
- Physician referrals to specialists as indicated
- Health promotion and education
- Immunization programs and flu vaccines
- Psychiatric services
- Chiropractic services
- Massage therapy
- Nutritionist services

We are working with the Chaplains and Counselling Centre to provide integrated wellness support for students!

Telephone: 220-5765
Fax: 292-5218
Location: MacEwan Student Centre 370
Website: http://www.ucalgary.ca/UofC/departments/UHS

Student Services

U of C Service Stop
Director: Alyson Woloshyn, BA

The U of C Service Stop assists students in carrying out their administrative requirements at the University of Calgary. The Service Stop provides front-line services for the Fees Office, Student Awards and Financial Aid, Admissions, and Registrations.

Enrolment Service Advisors are available to support students with any questions in these areas. Advisors can be accessed as follows:

- On the Phone – 1-403-210-ROCK (7625)*
- General student inquiries
- Fee/admission/registration inquiries
- Student award and financial aid inquiries

*Limited information and service can be provided on the phone due to the Freedom of Information and Protection of Privacy Act legislation

In-person
- On demand transcripts
- Proof of Enrolment letters (or forms signed) for undergraduate students (not necessary for in person as long as it is not for government loans)
- Fee payments
- Student loan inquiries
- Undergraduate registration issues
- Undergraduate adding/dropping/withdrawing from courses
- Undergraduate award/scholarship inquiries

The following online services are available 24 hours a day, 7 days a week:
- Request transcripts in advance
- Pay fees using MasterCard, Visa or online banking
- Add/drop/swap courses
- Update personal information
- Print T2202A tax receipt (available online only)
- Print Proof of Enrolment letters (not for government student loans)

Phone: 1-403-210-ROCK (7625)
Fax: 1-403-289-1253
Location: MacKinnie Library Block 117
Website: http://www.ucalgary.ca/registrar
Hours of Operation: Monday to Friday – 09:30-16:30, and Thursday – 10:00 – 16:30
*Service Stop may stop generating tickets prior to 4:30 depending on service demands

The Service Stop may experience temporary closures throughout the year for staff training and professional development. For current updates on closures and wait times please visit:
http://www.ucalgary.ca/currentstudents/serviceinformation

Bookstore

The Bookstore is proud to be owned and operated by the University. A portion of every dollar spent at the Bookstore is re-invested towards the improvement and maintenance of the campus community.

The main Bookstore is located centrally on campus, on the ground floor of the MacEwan Student Centre. We offer required and recommended textbooks for courses at the publisher’s list price and make every effort to obtain the least expensive options for students. We also provide a used textbook buyback service, a free online classified service, and a buyback alert service. In our digital world, books can be located from a variety of sources, however your campus Bookstore offers the advantage of having exactly the books you need, in stock for the beginning of classes, all with a hassle-free returns policy.

We are more than just textbooks! The main Bookstore carries one of Calgary’s largest selections of general reading books, and we can special order any book still in print. We are also pleased to offer University of Calgary clothing and souvenirs, Dinos merchandise, and a wide selection of stationery and art supplies. We also operate Seasons Card and Gift shop (one stop gift shopping!) and are proud to brew Starbucks coffee in our café.

The Bookstore has a secure online store that features the required and recommended textbook list each semester, online ordering for textbooks, clothing, gifts, and select general reading titles. Order your textbooks online, with the option of in store pick-up or delivery and avoid the back-to-school rush! Check out our site at www.calgarybookstore.ca.

The Bookstore operates 5 other satellite locations.

The Medical Bookstore located in the Health Sciences building serves the Faculty of Medicine and the general Medical community by offering textbooks, general medical reference, stethoscopes and other instruments, and electronic media. Stuffs Food and Convenience Store is located in the Dining Centre to serve the residency community. The Art Store is located in the Art Building, with easy access for all Art students. The Microstore is located across from the main Bookstore, and offers the campus community academic pricing on computer hardware and software. The Loft, located on the 4th floor of MacEwan Student Centre, is a comfortable gathering point with wireless internet and includes a Café that brews Starbucks coffee.

Hours:

Main Bookstore: 09:00 to 18:00 Monday to Friday, 10:00 to 17:00 on Saturdays
Seasons Card and Gift Shop: 08:00 to 18:00 Monday to Friday, 10:00 to 17:00 on Saturdays
Medical Bookstore: 09:00 to 17:00 Monday to Friday
Microstore: 09:00 to 17:00 Monday to Friday
Art Store: 09:00 to 14:00 Monday to Thursday, September to April

Stuffs Convenience Store: 08:00 to 21:00 Monday to Friday, 12:00 to 21:00 Saturday, 12:00 to 18:00 Sunday

The Loft: 09:00 to 20:00 Monday to Friday
The Racquet Centre
As Calgary's largest racquet facility, it features 12 international squash and 4 international racquetball courts; 6 to 10 badminton courts; and 4 outdoor tennis courts. Computerized and on-line web booking services allow students and members to book 3 courts up to 21 days in advance. There are no court fees. The Racquet Centre provides instructional lessons for all levels of players.

The Aquatic Centre
This centre features an Olympic size pool and diving facility. Aquatic instruction and certification is available for both adults, and children and youth. Programs include Red Cross and Royal Life Saving Society.

The Outdoor Centre
The Outdoor Centre offers the broadest possible range of outdoor recreational opportunities.

Equipment Rental: Features over 10,000 items of quality outdoor equipment. Members and non-members may rent this equipment. Equipment is available for both summer and winter activities.

Programs: Courses are available to get you started in a variety of outdoor pursuits. There are also hundreds of trips, ranging from day hikes or skiing in Kananaskis County to week-long sea kayak tours along the B.C. Coast. There are hundreds of adventures outings to choose from.

Indoor Climbing: The climbing wall is specifically designed for climbing instruction. There are a variety of routes to satisfy all climbing abilities. Orientation sessions are required and instruction is available. An on-line web booking service allows participants to look climbing times.

Programs

Intramural Sports
The intramural sports program provides the opportunity to participate in team sports through a variety of leagues and tournaments. Participants can register as a team or as an individual. Most sports are offered at both competitive and recreational levels, allowing all skill levels the ability to participate and compete.

Sport Clubs
The Campus Recreation Sport Club program provides opportunities for instruction, competition, and social affiliation in a variety of activities not always offered in traditional intramural or adult sport instruction programs. All levels of skill are welcome.

Adult Instruction
The Health & Recreation Centre offers a wide variety of general interest recreation programs and certifications. Instruction is offered in fitness, first aid and CPR, pre-hospital care, skating, swimming, and court sports.

Active Kids
Throughout the year, the Active Kids program offers gymnastics, swimming, skating, court sports, outdoor activities and Karate programs for all ages from pre-school to teens.

Camps for Kids
The University of Calgary hosts a huge range of summer camp programs for kids. These include:

Mini-University PHD Program: an educational program designed to give participants a practical experience in a fun, creative and discovery-based environment. Participants that will be going into grade 2 through 10 will experience a taste of University life in 3 distinctive themes (Science, Social Science and Fine Arts). All three themes involve structural physical activity that maximizes a child's Pedagogical and Health Development (PHD). Mini-University is run in conjunction with 20 faculties and departments on campus. Instructors are graduate and senior undergraduate students and are assisted by a faculty advisor. This program runs in two-week full-day sessions throughout the summer.

STUDENT SERVICES

Minds in Motion: a series of 1 week camps in the fields of engineering and science.

Computer Camps and Gifted Education SUCCESS Camps.

Dinosaur Development Camps for Junior and Senior High School students.

Outdoor Camps that range from multi-activity camps for younger children to single activity camps for teens and an Outdoor Leaders in Training Program.

English for Academic Purposes
Interim Director: Dr. Anuradha Sengupta

The English for Academic Purposes Program enables students who qualify for a degree program to meet the University’s English language proficiency requirement.

The program has also developed specialized seminars for non-native English speaking graduate students, post doctoral scholars and researchers, as well as visiting professors. EAP Graduate seminars help individuals with academic/scholarly writing and several core aspects of academic oral communication and dissertation, thesis and proposal writing. These seminars have been approved by the Faculty of Graduate Studies.

For more information please contact the EAP Office or see our website.

Food Services
Senior Director: Jan Morel

The University of Calgary's Food Services operated by Chartwells Education Dining Services is dedicated to exceeding the expectations of our customers through product and service excellence. Food Services is responsible to provide the majority of retail, dining plan and catering services to the campus community.

Food Services operates 14 retail food operations in 11 different buildings on campus. The Alberta Room in the Dining Centre offers the greatest choice of any operation and is available to the entire campus community. Each operation is distinct in menu offerings, operating hours, service style and atmosphere. The Dining Plan Program offers convenience and flexibility to Students at any of our operations through use of The Campus Card. Our Impressions Catering, servicing the campus is available to provide any type of catering service required. Catering consultants can be reached at 220-5541.

Telephone: (403) 220-5541
E-mail: food.services@ucalgary.ca
Location: Dining Centre 110

Healthy U of C

Health and Wellness is a key focus of the University of Calgary Human Resources’ People Strategy; it contributes to the University’s goal of being an employer that successfully attracts and retains valued staff. A commitment to organizational and individual health and wellness will lend to a supportive environment where faculty and staff feel valued and are proud of their achievements and their contributions to the University’s organizational goals. The University of Calgary promotes a healthy learning and work environment for students and University staff members. We offer services and facilities that will help you with your physical, social and mental well-being. When you feel well, you are more resilient and better able to do your best in your studies, work and life.

Healthy U of C coordinates health promotion events throughout the year. Information can be found at [www.ucalgary.ca/HealthyUC](http://www.ucalgary.ca/HealthyUC).

The Wellness Guide is an online resource for students with everything you need to know about academic success, and emotional, spiritual, physical and social stuff. Visit [www.ucalgary.ca/wellnessguide](http://www.ucalgary.ca/wellnessguide).

2008 was the formal launch of a new Wellness Centre and the integration of Health Services (family physicians, chiropractors, massage therapists, nutritionist, psychiatrists), Counselling and the Chaplaincy. Integration will create a culture of wellness on campus – a place where students can truly experience a commitment to improving health and wellbeing.

Smoking Reduction Policy

With its Smoking Reduction Policy, the University strives to provide a safe and healthy work, learning and living environment for all staff, faculty, students and visitors. As a champion of health and wellness, the University believes that a reduction in smoking on campus is beneficial to all. Smoking is not permitted indoors nor within five metres of building entrances and air intake vents. As of January 1, 2009, tobacco product sales will be prohibited on campus in compliance with provincial legislation, the Alberta Tobacco Reduction Act. Please respect everyone’s right to clean air and a healthy environment. See the Smoking Reduction Policy at the following website for details – [https://pr1web.ucalgary.ca/UofCPandPA_R1/Forms/MainHome.aspx](https://pr1web.ucalgary.ca/UofCPandPA_R1/Forms/MainHome.aspx).

Scent-Free Initiatives

The Scent Free Awareness Campaign “We Share the Air” asks for your support in limiting or eliminating the use of scented personal care products whenever possible. Please see the website [www.ucalgary.ca/scentfree](http://www.ucalgary.ca/scentfree) for information about the health effects related to scented personal care products and alternatives that you can choose.

Thank you for helping make the University of Calgary campus a healthy environment for everyone.

The University of Calgary was honored to receive the Calgary Chamber of Commerce Gold level H.E.A.L.T.H. (Helping Employees Achieve LifeTime Health) award in 2005 for our workplace health initiatives. We believe that the quality of our workplace influences the quality of student experience.

The University of Calgary is the proud recipient of the Premier’s Award for Healthy Workplaces (2006), and received the highest accolade as the recipient of the Award of Distinction for employers with greater than 3,000 employees. This award recognizes Alberta employers who demonstrate commitment to improving the health of employees and provide healthy workplace programs that encourage employees to make healthy eating choices and live an active lifestyle to remain healthy at work and beyond.

Healthy U of C recognizes that health and wellness is a shared responsibility between the organization and its people. Health, Safety and Wellness is one of the thirteen portfolios in the Campus Sustainability Plan, and the Sustainability Stewardship Working Group is an interdisciplinary team coordinating initiatives designed to actively engage the campus community in promoting a healthy campus culture. The portfolio’s mission is to further understand the interrelationships between quality of life and sustainability, and seek local and global solutions; to enhance awareness of the interrelationships between the built environment, health, and wellness; and to enhance the quality of life on campus and in the community at large. As a post-secondary institution, we have a special responsibility to create a healthy community that enhances the student experience and models healthy choices.

Use of Alcohol Policy

The Use of Alcohol policy deals with the consumption of alcoholic beverages on the campus and at University functions. No one may bring or consume liquor on campus except as permitted under the University’s Institution License from the Alberta Gaming and Liquor Commission. Details regarding the University’s liquor policy may be obtained from Ancillary Services.

ID Card Office (Campus Card)

The Campus Card gives members of the University community (faculty, staff, and registered students) access to a wide variety of information services and technologies. Card holders who are not part of the academic community may also be entitled to some of these privileges. The Campus Card is an identification card and can also serve as a library card, campus recreation membership card, electronic door access card and debit card (for food, photocopying and laser printer copies).

The Campus Card is issued by the ID Card Office/Campus Security, located in MacEwan Student Centre, Room 260. The office is open Monday to Friday 08:30-16:30 with extended hours (until 18:00) at the beginning of the fall and winter terms. Please check this web site for extended hours of operation: [www.ucalgary.ca/security](http://www.ucalgary.ca/security).

To report a lost or stolen card please phone (403) 220-7290.

All financial/debit functions of the Campus Card are handled by the Campus Card Office, located in the Dining Centre, Room 01, telephone: (403) 220-4922.

For more information on these services please check this website: [www.ucalgary.ca/campuscard](http://www.ucalgary.ca/campuscard).

---

STUDENT SERVICES

Information Technologies

Student Centre * E-mail * Web Publishing * Internet * High Performance Computing * Computer Labs * Multimedia * Wireless * Course Management (Blackboard - Elluminate)

University of Calgary Information Technologies (UCIT) [http://www.ucalgary.ca/it](http://www.ucalgary.ca/it) is responsible for providing computing and networking support to U of C students in their learning and research needs via pc computers, Unix and high performance computing facilities.

As a student, you may use UCIT-supported PC and Unix workstation laboratories across campus. Particularly important is the Information Commons [http://library.ucalgary.ca/services/informationcommons](http://library.ucalgary.ca/services/informationcommons) on the second floor of the MacKinnie Library Block, where you will find over 250 PCs, printing/scanning facilities, extensive technical and reference assistance, collaborative work rooms, basic instruction in use of the library catalogue, article indexes, and Microsoft Word, PowerPoint, and Excel, etc. The Information Commons also has access to AirUC (U of C’s wireless network) and provides wireless printing. In addition to the IC, the Elbow Room (Room 142 Science Theatres), a “drop-in” microcomputer lab with UCIT staff available to offer technical assistance. It too is a wireless environment with printing available to the student. As well, there are several teaching labs which offer drop in access when not scheduled for credit instruction. For more information, please see [http://www.ucalgary.ca/itlabs](http://www.ucalgary.ca/itlabs).

Every student is entitled to a UCIT computing account on the central computing system. More information on getting an account and the benefits of an UCIT account can be found at: [http://www.ucalgary.ca/it/getaccount](http://www.ucalgary.ca/it/getaccount). You can use this account for Internet access, Web-storage (Webdisk), access to software via the web (Webware), E mail, Web page publishing, course information (Blackboard), wireless access and many other applications. To register online for a UCIT account, go to [http://www.ucalgary.ca/it/register](http://www.ucalgary.ca/it/register).

Students also have access to many web-based applications through the U of C portal, a designated, single sign-on, personalized “desktop”. Applications such as, the Student Center and Blackboard are found in the portal. To access these applications, log in to the MyUCalgary portal with your eID. To register for an eID online, go to [https://my.ucalgary.ca](https://my.ucalgary.ca).

UCIT supports many academic applications including Blackboard, Elluminate, Breeze, database management, graphics, printing and e mail, Web tools, statistical analysis, simulation, a comprehensive range of programming languages and scientific applications, and text processing. Documentation, consulting, and non credit courses on software and hardware are also available.
UCITs Com/Media unit provides audio-visual, portable computing and other communications media support for teaching and learning activities. A wide range of educational media technology is available by contacting any of the Com/Media cross campus booking and service centres. Equipment is then scheduled, delivered, set-up and made ready for the class. If you have special media requirements then Com/Media can meet these needs with consulting services for complex integrated video, audio, and control systems, and non credit training in the use of media technology. See http://www.ucalgary.ca/commedia for more information.

Hardware repairs and service for your own computer can be done through UCIT's authorized service centre located in the basement of Math Sciences (057056) http://www.ucalgary.ca/it/repairs.

For information on purchasing hardware & software (Microsoft Office 2007), through the University’s partnership with Dell or Apple, consult the Student Laptop & Software Purchase Program. To purchase Dell desktops, go to http://www.ucalgary.ca/buyadell/UCIT also coordinates site-license agreements and volume discounts for specialized software. For more information, go to http://www.ucalgary.ca/it/software. UCIT distributes site-licensed anti-virus software for detecting, removing and preventing computer viruses. Go to http://www.ucalgary.ca/it/virus for more information or a free download.

To provide you with on line access, UCIT operates the campus network with connections to the Internet and the World Wide Web. Additional networking services include: AirUC (the U of C wireless network) available throughout the campus. For more information about wireless service please go to http://www.ucalgary.ca/wireless; and RezNet – U of C's high-speed network for students living on campus. Browse the Web, check your e-mail, work online from almost anywhere in your campus home. For more information, please see http://www.ucalgary.ca/резенет.

Dialup service provides you with dialup access to University services and the Internet. See http://www.ucalgary.ca/dialup. You can also get high-speed access to our services via Shaw Internet (http://www.shaw.ca) or Telus Velocity ADSL (http://www.telus.com).

Get help from: IT Support Centre: (403) 220-5555 E-mail: itsupport@ucalgary.ca Location: 7th Floor, Math Sciences Building

For more information on all Information Technology Services go to: www.ucalgary.ca/it/services

Parking and Traffic Services

The University has approximately 8,600 parking stalls on campus. A flat rate per entry applies most days and evenings. Hourly parking is also available for short-term visitors. Arrangements can be made to purchase a lot assignment by the year or session. In addition to the on campus facilities, parking capacity for some 700 cars is available just south of the campus at McMahon Stadium.

Further information and applications for parking assignments can be obtained from Parking Services. Lot locations and costs can be found on the Parking Services website.

Before you consider driving to campus, check out our sustainable options at www.ucalgary.ca/parking.

Telephone: (403) 220-6771 or (403) 220-6772 E-mail: parking@ucalgary.ca Location: Olympic Volunteer Centre (OVC), North end of McMahon Stadium Hours of operation: 07:30 – 17:00 Monday to Friday Website: www.ucalgary.ca/parking

Student Legal Assistance (SLA)

Run by law students, Student Legal Assistance (SLA) is a registered charity that delivers a range of free legal assistance and representation to undergraduate students at the University of Calgary, as well as those in the Calgary area who are unable to afford a lawyer.

Graduate students may be eligible for services of the SLA if they meet the SLA financial guidelines. A one-time nominal dispenser charge applies. (Undergraduate students are exempt from this charge.)

SLA operates a legal clinic on the University campus four evenings per week during the school year, and on a full-time basis throughout the summer months.

SLA can assist in most matters at the Provincial Court of Alberta, as well as some Administrative Tribunals. Most common areas SLA assists with include:
- Student Appeals (Academic and Non-Academic)
- Landlord Tenant Issues
- Employer Disputes
- Traffic Violations
- Bylaw Infractions
- Criminal Law
- Contract Issues
- Family Matters

For appointments call: (403) 220-6637 Fax: (403) 282-0473 Location: Murray Fraser Hall 3390

University Child Care Centre (UCCC)

Our mandate is to provide and promote childcare services for the children of students, faculty and staff that make up the University of Calgary Community.

At the UCCC we believe that play is imperative during the early years of life. Our goal is to provide an exemplary inclusive program that supports and encourages the unique potential within each child. We do this by promoting the natural process of play in an enriched setting that provides optimal conditions for each child to grow at their own pace.

The Centre is open from 07:30am to 5:30pm Monday thru Friday. We are closed on all statutory holidays, two professional days per year as well as the week between Christmas and New Years.

Admission to UCCC

Applicants are prioritized within each age group on the basis of their waiting list application date. At our Main Campus location the order of priority placement is first given to University of Calgary full time students followed by University of Calgary faculty, and staff, with the exception of children who have a sibling attending the UCCC, in which case sibling placement takes priority. At our new West Campus location, staff and faculty have priority over full time students. To be on our waiting list you must turn in a completed waiting list application form accompanied by a non-refundable registration fee and confirmation or your University Affiliation. Being placed on the Wait List does not guarantee you a spot at the centre. On average, most children are on the waitlist 1 to 3 years.

For more information please call us at (403) 220-3303 or email us at waitlist@ucalgary.ca.

University Library

... connecting people and information

The University Library provides a vast range of information resources, services and research expertise to support the diverse information needs of students and faculty in all disciplines.

Ranked among the largest research libraries in Canada, our collection includes in excess of seven million books, journals and microforms; plus; maps, airphotos, audio recordings, music scores, film, video, CDs, DVDs, purchased digital images, slides, architectural and literary archives, electronic full-text, image and data files. The digital resource base is expanding rapidly and includes over 600 databases, more than 48,000 unique electronic journal titles, and close to 600,000 electronic books.

MacKimmie Library (the ‘main library’) is located at the centre of campus. Four branch libraries are situated near the faculties or departments that use their services most frequently; Gallagher Library of Geology and Geophysics, Health Sciences Library, Bennett Jones Law Library, and the Business Library.

The Information Commons is the focal point on campus for information services. It is an integrated learning environment in which information resources and technologies are combined with expert staff who provide research consultation, information navigation, and technological assistance to support scholarly use and production of recorded knowledge. For student convenience, there is 24-hour access (Sunday-Thursday, during term, on Fridays and Saturdays the hours are the same as the rest of the Library) to this state-of-the-art facility, 2nd floor MacKimmie Library.

The University Library is open 90 hours each week, offering access to the resource materials as well as reference assistance, specialized information consulting and instruction in the skills and process of information retrieval and management to equip independent learners for success in the knowledge era.

Library resources and services are also ‘delivered to your desktop’ via our online information system, featuring the Library catalogue, an extensive selection of networked databases, electronic information resources and services for distance learning.

Telephone: (403) 220-5962 E-mail: libinfo@ucalgary.ca Web: library.ucalgary.ca
The Writing Centre
The Writing Centre offers free half-hour individual writing tutorials for students at all levels who want to improve their writing. In a Writing Centre tutorial, students can:
• Discuss their writing process and learn strategies to write more effectively
• Review returned papers to understand how to improve their written assignments
• Get information on writing papers, book reviews, or other assignments

• Get advice on how to use and document sources
• Work with an instructor on an ongoing basis to improve essay structure, paragraph development, sentence structure and style, grammar, and punctuation
• Get help with English as a Second Language
• Prepare for the Effective Writing Test by getting feedback on practice essays

Note that Writing Centre instructors will give general advice on papers being prepared for credit courses; however, they will not proofread student papers.

To book a half-hour Writing Centre appointment, please visit [http://efwr.ucalgary.ca](http://efwr.ucalgary.ca).
For Writing Centre help via e-mail, write to [wconline@ucalgary.ca](mailto:wconline@ucalgary.ca), describing your writing assignment, questions, and concerns in detail.

Telephone: (403) 220-7255

Location: Social Sciences 106
Effective Writing Office: SS 110
Website: [http://efwr.ucalgary.ca](http://efwr.ucalgary.ca)
The University of Calgary is a comprehensive research university that, in its short 43-year history, has grown to take its place among the finest institutions in Canada. Combining the best of long-established university traditions with the City of Calgary’s vibrant energy and diversity, the university aims to provide a research and scholarly foundation for students eager to acquire the knowledge and skills essential for a successful personal and professional life.

Our 213-hectare campus provides a beautiful and dynamic setting for scholars in 16 faculties. Our 2,600 faculty members are actively engaged in research and scholarship. With more than 2,900 support staff, the university is Calgary’s fifth largest employer. More than 27,600 students, including over 2,000 international students from 100 countries, are enrolled in undergraduate, graduate and professional degree programs. The U of C has more than 130,000 alumni living in 130 countries.

Research and Education
As one of Canada’s top seven research universities, innovation, discovery and learning are at the heart of all that we do. Our relentless pursuit of quality in our teaching and research programs is guided by our mission to contribute to the well being of the people of Alberta, Canada and the world. Thanks to the sustained efforts of U of C faculty, students, postdoctoral researchers, and staff, the U of C’s research funding totals $252.2 million. Research brings significant benefits provincially, nationally and internationally, and is the foundation of Alberta’s economic and social vitality. Interdisciplinary research is core to the university’s teaching and research mandate.

The university offers quality undergraduate education that is characterized by the synthesis of research, teaching and learning. We mean to enhance the undergraduate learners’ experience by using a student-centred focus that maximizes opportunities to provide a distinctive learning experience that fully integrates the features of a research university. The university is broadening opportunities for students to take inquiry-based courses that lead to greater critical thinking skills, increased exposure to undergraduate research and greater access to leading edge scholars. The university also offers students a variety of experiential, or hands on learning opportunities, including internships, international travel, coop placements and directed research.

The U of C is the first university in Canada to offer a four-year graduation guarantee to students embarking upon four-year degree programs in the institutes of the university include, the Kananaskis Field Stations, located a short drive from the city on the eastern slopes of the Rocky Mountains, the Rothney Astrophysical Observatory, located in the foothills south of the city and a campus in Doha, Qatar, offering internationally accredited nursing degrees to students in the Middle East. Development of the university’s west campus is currently taking place, and is the site of the new Alberta Children’s Hospital.

The University of Calgary features some of the finest athletic facilities in the country, featuring Canada’s only covered speedskating oval and home to the fastest ice in the world. The Oval also houses the Canadian Sport Institute, a high-performance training centre and two Olympic-sized rinks where the reigning women’s gold medal hockey team trains. There are also tennis courts, a triple gymnasium, a U of C dining hall and residences for single students and students with families.

Our efforts have raised our global profile, enhanced the quality of our undergraduate and graduate programs, promoted innovation and excellence in scholarly activity and provided significant returns and tangible benefits to our community and economy.

Facilities
The MacEwan Student Centre is a hub of activity at the university. There is also a museum and arts gallery, four performance theatres, a childcare centre and residences for single students and students with families.

The U of C is pursuing the biggest single capital expansion in its history. The university has embarked upon a plan to add capacity for more students and more of new teaching and research activities. These major developments, including the Taylor Family Digital Library, a downtown campus, International House and the new Energy, Environment and Experiential Learning building, are fulfilling distinct academic strategies and creating progressive learning environments.

The Faculty of Medicine is located on the south campus adjacent to the Foothills Hospital. Satellite institutes of the university include, the Kananaskis Field Stations, located a short drive from the city on the eastern slopes of the Rocky Mountains, the Rothney Astrophysical Observatory, located in the foothills south of the city and a campus in Doha, Qatar, offering internationally accredited nursing degrees to students in the Middle East. Development of the university’s west campus is currently taking place, and is the site of the new Alberta Children’s Hospital.

The University of Calgary is committed to preparing its students for life in an increasingly global economy and society. An International Component will be part of every undergraduate student’s degree program at the University when the current curriculum changes are finished, and are already a requirement of many programs. An International Component will provide students with an understanding of international relationships and issues with a particular view to the benefits and challenges of interaction of peoples, cultures and environments around the globe. It provides opportunities to develop an awareness of international, multicultural or aboriginal perspectives.

All students are encouraged to enrich the international component in their program in one or more of the following ways:

By participating in a term-abroad, field school, credit travel study, or student exchange experience in another country. Students should contact their faculty or the Centre for International Students and Study Abroad (CISSA). Visit the CISSA website for more information (www.ucalgary.ca/UofC/students/CISSA).

By including in their program a Major or Minor that focuses on international, aboriginal, or multicultural issues:

- African Studies
- Anthropology
- Chinese
- Development Studies
- East Asian Studies
- East Asian Language Studies
- French
- Geography
- German
- International Indigenous Studies
- International Relations
- Italian
- Japanese
- Latin American Studies
- Russian
- South Asian Studies
- Spanish

The Students’ Union and the Graduate Students’ Association provide for the administration of the affairs of students and the promotion of their general welfare.

Contact the Centre for International Students and Study Abroad (CISSA) for suggestions.

**About the University**

The University of Calgary combines the best of long-established University traditions with Calgary's frontier spirit of originality and innovation. Our logo was designed to reflect that spirit. The logo has two components: the Coat of Arms (including the escroll with our motto) and the wordmark. The coat of arms represents and respects our historical roots while the more contemporary wordmark reflects our focus on the future and leading edge.
The Postal Outlet provides a full range of Canada UPass sticker distribution. Lottery Services. This outlet is also the location for Student Centre) provides tickets for events on and off campus recreation membership card, electronic door access card and debit card (for food, photocopying and printing).

The Campus Card is issued by the ID Card Office, located in MacEwan Student Centre, Room 260. The office is open Monday to Friday 08:30-16:30 with extended hours (until 18:00) at the beginning of the fall and winter terms. Please check their website for extended hours of operation. To report a lost or stolen card, please phone (403) 220-7290.

The Campus Ticket Centre (2nd Floor, MacEwan Student Centre) provides tickets for events on and off campus, ticket printing services, phone cards (cell and long distance) and complete Ticket Master and Lottery Services. This outlet is also the location for UPass sticker distribution.

The Postal Outlet provides a full range of Canada Post retail services (located in MacEwan Student Centre, 1st floor). Telephone: (403) 220-7101 E-mail: sausten@ucalgary.ca Administration Location: Olympic Volunteer Centre www.ucalgary.ca/specialevents

Environment, Health and Safety
The University of Calgary is a leader of educational institutions in Alberta by meeting and exceeding expectations of any applicable piece of health, safety and environmental legislation, as set by the various government agencies. Environment, Health and Safety is a key resource for all members of the University community for any safety related matters or concerns at the University of Calgary.

Students leaving the University of Calgary will take with them the knowledge and behaviours that integrates and accepts good health and safety practices as a value in their everyday activities.

The Environment, Health and Safety website provides information on legislation; policies and procedures; safety courses and on-line registration; as well as other health and safety related information and guidance.

Environment, Health and Safety can be contacted at: Telephone: (403) 220-6345 Website: www.ucalgary.ca/safety

Libraries and Cultural Resources
Libraries and Cultural Resources combines the expertise and services of the University's information providers - the University Archives and Special Collections, the Library, the Nickle Arts Museum, and the University of Calgary Press - to assure provision of full access to the best recorded knowledge and creativity in a variety of formats and media.

The University Archives
The University Archives' mission is to acquire, preserve and provide access to the institutional, administrative, research and cultural heritage of the University of Calgary. In pursuit of this mission, the Archives is responsible for the management of two related programs described below.

The Archival Program ensures the preservation of the academic, cultural and research heritage of the University. Under this program the Archives acquires and maintains all records of permanent value created and received by the various governing bodies of the university and its officials. In addition to the institutional records of the University of Calgary, the Archives selectively acquires private records which pertain to areas of research pursued on campus. Included amongst these are the political development of Western Canada and post-secondary education in Southern Alberta.

Through its Information Management Program (IMP) the Archives provides leadership in record-keeping literacy, and develops record-keeping rules that ensure the creation, management and preservation of reliable records which are trustworthy as evidence. The Information Management Program also provides advice on and develops electronic record-keeping strategies for the University of Calgary community.

The University Archives' Reading Room is located on the 2nd floor of the MacKinnie Library Tower. Reference services are available Monday to Friday, from 10:00 AM to 4:30 PM.

Telephone: (403) 220-7271 Website: www.ucalgary.ca/archives

Visual Resources Centre
The Visual Resources Centre provides educational media and image collections and services in support of teaching, learning and research for all University of Calgary programs, including provision of bookable viewing facilities and assistance in identifying and using these resources.

The VRC is comprised of the Media Library, which has a multi-disciplinary collection of over 10,000 DVD/VHS/Film titles and the Image Library, with a collection in excess of 250,000 slides and 50,000 digital images addressing subject areas from prehistoric civilization to modern gardens. These educational collections can be used by individuals or in classroom situations.

E-mail: vrc@ucalgary.ca Location: MacKinnie Library Block 040, Lower Level (downstairs from U of C Service Stop) Website: www.library.ucalgary.ca/services/visualresourcescentre

University Press
Established in 1981, University of Calgary Press (UC Press) is a non-profit, scholarly publisher committed to producing high-calibre academic and trade books and journals on a wide range of subjects.

It seeks to: publish works that give voice to the heartland of the continent; publish works that are innovative, experimental, and offer alternative perspectives; publish works that offer diverse views on international themes; help new writers break into academic and trade markets and nurture their careers; and link the creation and dissemination of new knowledge.

University of Calgary Press is particularly proud of its role as a regional publisher for Alberta and the West. As one of only a handful of western Canadian university presses, UC Press fills an important role in publishing titles that focus on the history, politics, economy, and culture of the prairies, mountains, and northern regions. Aboriginal topics are a related and inextricable piece of this component of our mandate. UC Press also publishes in such subject areas as: media and cultural studies, political studies and economics, environmental studies, philosophy, women's studies, Latin American studies, and African studies.

UC Press offices are located in the basement of the MacKinnie Library Block. Usual business hours are 8:30 am to noon and 1:00 to 4:30 pm Monday to Friday.

Telephone: (403) 220-7578 Fax: (403)282-0085 E-mail: ucppress@ucalgary.ca Website: www.ucdpress.com

The Nickle Arts Museum
The Nickle Arts Museum (The Nickle) is an outstanding centre for object based learning, academic research and aesthetics. Located on the west campus next to MacEwan Hall, the Nickle offers a full program of exhibitions and events expressing compelling social, historical and contemporary cultural topics. Arguably one of the finest and largest exhibition spaces of any Canadian university museum, the Nickle was built from a bequest to the University of Calgary by the late Calgary oilman Samuel C. Nickle. The later donation by his son, Dr. Carl Nickle, created the base of the museum's exceptional numismatic collection.

The museum promotes critical thinking, visual literacy, and experiential learning through provocative exhibitions, tours, lecture series and symposia. The Nickle’s programming is centred on contemporary Canadian art, numismatics, carpets and textiles and extends to historic and international art, indigenous heritage, archaeology, anthropology, history, and popular culture.

The Nickle Arts Museum is home to outstanding public collections of art, numismatics and textiles. The permanent collection of art concentrates on Western Canadian art of the twentieth century and extends to artists of national importance. The numismatic collection now comprises approximately 16,000 items, the majority of which are from the ancient Mediterranean region, but also include ethnographic numismatic items from around the continent;
The Reeve Theatre
The Reeve Theatre is the Department of Drama’s primary research and public performance facility, a strategic site of experiential learning for both undergraduate and graduate programs in Drama. This facility is an experimental theatre laboratory, a unique concept combining the requirements of performance with responsibilities for experimental instruction in the dramatic arts. The Reeve Theatre is not available for community booking.

Boris Roubakine Recital Hall
The Boris Roubakine Recital Hall is a 200-seat lecture theatre converted to provide performance facilities for small music recitals, film presentation, slide shows and similar events. It is available for both academic and community use.

University of Calgary Alumni Association
When university students graduate, they officially join a family of alumni—fellow graduates who share similar experiences and memories of a profound time of their lives. At the University of Calgary, we think of all of our students as part of this growing family; after all, undergraduates are alumni in the making.

And it is a growing family. The U of C’s Alumni Association now counts among its members 125,000 graduates who make remarkable contributions to the business, health, social, cultural and political life of Calgary and many other communities around the world.

In fact, in addition to the two-thirds of University of Calgary alumni who stay in Calgary to live and work after their university experience, our alumni are found in more than 125 countries, expanding the U of C’s global reach every year.

The Alumni Association’s role is to keep our alumni connected to the university, to each other and to their communities; to support them in their pursuits throughout their lives; and to celebrate their achievements, large and small.

Over the years, the Alumni Association has recognized the contributions of 29 of its graduates through the Distinguished Alumni Award and the Graduate of the Last Decade (GOLD) Award, known jointly as the Arch Awards and the highest honour for our 125,000 alumni.

In 2007, we recognized Dr. Ken Storey, BSc’71, one of the world’s most frequently-cited biologists whose ambitious research is leading to innovations in areas ranging from organ transplants to reducing diabetes complications, with the Distinguished Alumni Award.

Ravinder Minhas, BSc’05, co-founded several highly-successful businesses by the age of 25. Bestowed the 2007 GOLD award, Minhas is a strong supporter of socially responsible causes—a pioneer in the beer and liquor industry, he introduced warning labels to raise awareness of fetal alcohol syndrome.

Membership in the alumni family has its practical benefits, from preferred rates for home and auto insurance, to career services, to savings on goods and services from university partners. Other exclusive offers include invitations to one-of-a-kind events and free subscriptions to U, the U of C’s flagship magazine, and to Arch-E, our monthly alumni newsletter.

Perhaps the greatest benefit of the alumni family, though, is being connected to a network of people who share a love of knowledge and a desire to see our graduates succeed.

Kananaskis Field Stations
In Fall 2006 President Weingarten announced an ambitious plan that by 2010 the University of Calgary would have 50% of its graduating class having a study abroad experience. All undergraduate programs provide an international component to the program which may include study abroad (Student Exchange, Groups Study Programs, research, practicum, Internships or independent study). Enhance your academic program, employment prospects and personal growth by studying abroad for a term or year. International experience is a desirable notation on a graduate's transcript.

The University of Calgary offers a variety of study abroad options in more than 35 countries including: Student Exchange Programs for a term or full year; Semester Abroad Programs in China, India, Czech Republic, Spain and Thailand with U of C courses taught on site; Field Schools to selected sites which offer intensive study opportunities abroad with U of C faculty members during Spring and Summer Sessions and Block Weeks. Students may also use their initiative to design their own program of study.

Studying abroad is a valuable intellectual experience but is also demanding, particularly where a student is exposed to a different culture and another language. While some study programs require knowledge of a language other than English, not all the U of C exchange partners expect a student to be fluent in order to participate. It is possible to combine study abroad with language learning. A number of university departments collaborate to offer ‘International Studentships’ (grants of $500 - $2000) to support U of C students including an international study experience in their program.

Students unable to study abroad may get involved with international activities on campus: volunteering with international offices or taking part in events to promote discussion and an international understanding: refer to “Make Your Degree More International” section of University Calendar for more information.

The U of C has over 250 international alliances that include collaborative research, joint academic and scientific studies, collaborative degrees and student exchanges, training programs, internships and practicums. These include participation in: Program for North American Mobility in Higher Education.

North American Mobility in Higher Education: North American Scholars Program
“Designing a Professional Practice Curriculum for Cross-Cultural Mobility and Community Engagement” (2003) EVDS
Canada-European Community Program for Co-operation in Higher Education & Training
A Multidisciplinary, Distributed, Cooperative Education Initiative in Software Engineering
Canadian-European Cooperation on Regulatory Issues in National Resources, Environmental and Energy Studies
Biotechnology and Managed Biodiversity in Agriculture and the Environment

The University of Calgary opened its first branch campus “UofC Qatar” in Fall 2007. Initially it will offer a Bachelors of Nursing and post degree diploma programs to residents of the Gulf region.
U of C offers study abroad opportunities in the following countries (2009/10):

**Americas**
- Antigua
- Argentina
- Belize
- Brazil
- Chile
- Ecuador
- Mexico
- Cuba
- Peru
- United States

**Africa/Middle East**
- Ghana
- South Africa
- Turkey

**Asia/Pacific**
- Australia
- China
- Hong Kong (SAR)
- India
- Japan
- New Zealand
- Republic of Korea (S. Korea)

**Europe**
- Austria
- Belgium
- Czech Republic
- Denmark
- Finland
- France
- Germany
- Greece
- Iceland
- Ireland
- Italy
- The Netherlands
- Norway
- Spain
- Sweden
- Switzerland
- United Kingdom

The University’s International education, international development, international business, student exchange and study abroad programs involve many countries around the world. For further details consult the International Directory available at www.ucalgary.ca/international.

UC Global is headed by Dr. Tim Goddard, Vice Provost International
http://www.ucalgary.ca/provost/international/

**Highlights**
- The Faculty of Medicine has Health Exchange Programs with Faculty, students or research trainees in: Kuala Lumpur, Malaysia; Zamboanga, Philippines; Harbin, China; Sapporo and Takamatsu, Japan; Concepcion, Chile; Bangkok, Thailand; Vientiane, Laos; and South Korea.
- Education students at the University of Calgary and the Hokkaido University of Education in Japan engage in exchange visits to learn about the education system in the host country.
- Agreements with universities in Australia will permit Student Exchanges in Adelaide, Brisbane, Melbourne, Perth, Sydney and Newcastle.
- A variety of short- and long-term English as a Second Language programs are offered at the University of Calgary
- Curriculum redesign requires every undergraduate program at the University of Calgary to include an international component.
- The University of Calgary has developed a Master’s program in energy and the environment offered in Quito, Ecuador.
- Student groups such as AIESEC or Engineers Without Borders are active on campus.

Schulich 1, the U of C Solar Car, has participated in competitions in USA and Australia.

The Student Refugee Committee of the Students’ Union sponsors one new refugee student at the University of Calgary each year through World University Services of Canada (WUSC).

New student orientation programs assist International students to become comfortable with their new environment.

The University of Calgary’s Co-op program offers a limited number of placements in European institutions.

A term abroad in Barcelona, Spain is offered annually to EVDS and Fine Arts students.

Each year, International Week on campus highlights international issues and opportunities.

UC Qatar offers Bachelor of Nursing degree to residents of the Gulf region.

The University of Calgary offers Semester Abroad programs in India, China, the Czech Republic, Spain, and Thailand.

In 2007, more than 1000 University of Calgary students studied abroad as part of their degree programs. Many participate in spring or summer schools abroad.

1900 international students for 100 countries are registered at the University of Calgary.

ABOUT THE UNIVERSITY

C  Stampede Park is the site of the Greatest Outdoor Show on Earth, "The Calgary Stampede", which takes place every year in early July. It is also the site of the Pengrowth Saddledome, which is the home of our National Hockey League team, the Calgary Flames.

D  The Calgary Zoo, Botanical Gardens and Prehistoric Park is a world class zoological institution filling roles in public education, wildlife conservation, research, captive breeding of endangered species and public recreation.

E  Heritage Park Historical Village is Canada’s largest living historical village. Turn of the century town, team trains and vintage vehicles. Ride the stern-wheeler “S.S. Moyie” around the waters to the Glenmore Reservoir.

F  Mount Royal College. Calgary’s community college offers an innovative blend of educational opportunities including diplomas, certificates, degrees and university transfer programs.

G  SAIT. The Southern Alberta Institute of Technology is known worldwide for its quality technical education and hands-on training. The Alberta College of Art and Design is also on this site.

H  Fort Calgary Site, the historic origins of the city. It is now a 40-acre riverside park.

I  Canada Olympic Park. Capture the Olympic spirit and visit the ski jump tower or the Olympic Hall of Fame. Day and evening skiing is available. Check out the bobsled run.

J  The Golf Dome at Fox Hollow. This year-round golf driving range has two levels.

K  The Southern Alberta Jubilee Auditorium is a multipurpose performance space opened in 1957 to commemorate Alberta’s 50th anniversary as a province.

L  The Glenbow Museum houses exhibition space as well as an archive and library. It has permanent displays of Western Canadian history.

M  Alberta Science Centre. Learn about the wonders of science and visit the Discovery Dome.
ACADEMIC STAFF
2009/2010

A
Abdalla, M.J.; MEd (AKU), BA Ed (UDSM); Adjunct Instructor (Faculty of Education)

Abdel-Kerim, M.A.; FRCP, MB BS (Alexandria), MRCP (Alexandria); Clinical Assistant Professor (Psychiatry)

Abdullah, A.; FRCP, LMCC, MABP, MD (Baghdad); Clinical Assistant Professor (Pathology & Laboratory Med)

Abdul-Rahaman, A.S.; CGA, CPA, BSc (UG), MMS (Waikato), PhD (Waikato); Associate Professor (Haskayne School of Business)

Abedi, J.; PEng (APEGGA), BSc (Abadanistan), MSc (UofT), PhD (UofT); Associate Professor (Chemical & Petroleum Eng)

Abelseth, G.A.; FRCPC, BEng (Chemical & Petroleum Eng)

Abedi, J.; PEng (APEGGA), BSc (APEGGA), MSc (UofC), PhD (UofC); Adjunct Assistant Professor (Biological Sciences)

Adegbesan, K.K.O.; PEng, MEng (McMaster), BSc (UNB), PhD (UofC); Adjunct Professor (Chemical & Petroleum Eng)

Adrian, C.H.D.; BSc, FRCP, MD; Clinical Lecturer (Psychiatry)

Agarwal, J.; MBA (CAU), BComm(Hon) (Calcutta), PhD (GATECH); Associate Professor (Haskayne School of Business)

Agarwal, S.G.; FRCP, MD (UofT); Clinical Assistant Professor (Department of Medicine), Clinical Assistant Professor (Cardiac Science)

Aghajari, F.; CCFP, MD (S.B.U.); MSc (UofT); Assistant Professor - Medicine (Family Medicine)

Agopian, E.E.; MM (Juilliard), BMus (UofT); Professor (Department of Music)

Aguilera, R.; PEng (APEGGA), MEng (Mines), PhD (Mines); Professor (Chemical & Petroleum Eng), Conoco Phillips Indl Rsch Ctr (Chemical & Petroleum Eng)

Ahmad, A.; MBBS; Clinical Assistant Professor (Department of Medicine)

Ahmed, S.B.; MMS (Harvard), BSc (Queen’s); MD (UofT); Assistant Professor - Medicine (Department of Medicine)

Ainslie, M.D.; FRCP, MD (Queen’s); Clinical Assistant Professor (Department of Medicine)

Aiiken, E.M.; BSc (UBC), MLIS (UWO); Associate Librarian (Libraries & Cultural Resources)

Aiiken, S.E.; MD, Clinical Assistant Professor (Paediatrics)

Akierman, A.R.; DABP, FRCP, LMCC, MB BS (UWO); Associate Professor - Medicine (Paediatrics)

Alakija, P.; CNBME, DABP, FCAP, FRCP, LMCC, MD (UofC); Assistant Professor - Medicine (Pathology & Laboratory Med)

Alcantara, J.A.; BSc, MSc, PhD; Adjunct Assistant Professor (Microbiology & Infect Disease)

Alderson, K.G.; PhD (UofA), BA (UofC), MSc (UofC); Adjunct Associate Professor (Psychology), Associate Professor (Faculty of Education)

Alexander, S.M.; BComm (UofA), MSc (UofC), PhD (UofC); Associate Professor (Geography)

Ali, Z.; BSc(Hons) (McMaster), MSc (UWO), PhD (UofC); Adjunct Associate Professor (Biochem & Molecular Biology)

Alladin, A.; MSc (Leicester), PhD (Manchester), BSc(Hons) (UofLondon); Adjunct Assistant Professor (Psychology), Adjunct Associate Professor (Psychiatry)

Allen, M.; MSc (CWRV), PHD (CWRV), BN (UNB), MSc (UWO); Adjunct Professor (Faculty of Nursing)

Altabbaa, G.; BA, FRCP, MD (Dalhousie); Clinical Assistant Professor (Department of Medicine)

Althouse, N.R.; BA (AU), MBA (UofC); Instructor (Haskayne School of Business)

Altiere, C.A.; PhD; Research Assistant Professor (Physiology & Biophysics)

Alto, M.H.; MSc (UofC), PhD (UofC), BSc (UofM); Adjunct Assistant Professor (Civil Engineering)

Alvarez, A.M.N.; BA, FRCP, MD; Clinical Associate Professor (Department of Medicine), Clinical Associate Professor (Cardiac Science)

Alvarez, G.F.; MSc (UNSW), FRCP (UWO), BSc (UofM); FRCP (UofM), MD (UofM); Clinical Assistant Professor (Critical Care Medicine)

Amadala, S.L.; FRCP, MB BS, MRCPsych, MD (Nairobi), Diploma (USAFSAM); Clinical Lecturer (Psychiatry)

Ambagaspitiya, R.S.; MSc (McMaster), PhD (McMaster), BSc (Sri Lanka); Associate Professor (Mathematics & Statistics)

Amendigno, S.O.; BA (Montpellier), MA (Montpellier), PhD (Montpellier); Assistant Professor (French Italian & Spanish)

Amerdy, U.; MD (FreeUBeIn); Clinical Assistant Professor (Radiology)

Amin, H.J.; DCH, FRCP, MRCP, MB BS (UofLondon); Associate Professor - Medicine (Paediatrics), Asst Dean (Post Grad Med Ed) (Paediatrics)

Amirault, K.J.; BA (MTA), MA (Ottawa), PhD (UofC); Adjunct Assistant Professor (Faculty of Kinesiology)

Amrein, M.W.; BSc (SIT), PhD (SIT), Dr Habil (WWU); Associate Professor - Medicine (Cell Biology & Anatomy), Associate Professor - Medicine (Pathology & Laboratory Med)

Anand, J.R.; FRCSC, MB BS; Clinical Lecturer (Surgery)

Andersen, M.A.; MD, Clinical Associate Professor (Pathology & Laboratory Med)

Anderson, I.B.; FRCP, MD (McGill), BSc(Hons) (UNB); Clinical Assistant Professor (Surgery)

Anderson, J.S.; PhD (McGill), BSc (UMICH); Adjunct Assistant Professor (Biological Sciences), Assistant Professor (Compar Biol & Experim Medicine)

Anderson, K.S.; BSc, FRCP, MD; Clinical Lecturer (Psychiatry)

Anderson, R.A.; FRCP, MD (McGill), BSc (SFU), Clinical Associate Professor (Oncology), Clinical Associate Professor (Paediatrics)

Anderson, T.J.; ABIM, FRCP, LMCC, MD (UofC); Professor - Medicine (Department of Medicine), Professor - Medicine (Cardiac Science)

Andre, J.D.; BA (Hons) (UofS), MA (Waterloo); Senior Instructor (Communication & Culture)

Andrews, C.N.; A-level, FRCP, MBS (MayoClinic), BSc (MayoClinic), BSc(Hons) (McGill), MD (McMaster); Assistant Professor - Medicine (Department of Medicine)

Andrews, J.J.; BA (UVIC), MA (U); Associate Professor (Drama)

Andrews, J.J.W.; BEd (Queen’s), BA (UWO), MED (UofA), PhD (UofA); Professor (Faculty of Education)

Andrews, S.W.; BSc (UofA), MD (UofA); Clinical Assistant Professor (Pathology & Laboratory Med)

Andrus, D.L.; DAA (NAIT), PhD (Strathclyd), MA (UWO), BComm (UofA); Assistant Professor (Haskayne School of Business)

Anilgan, C.; PEng (APEGBC), BSc (Queen’s), MSc (UBC), BSc (Waterloo); Assistant Professor (Civil Engineering)

Angus, D.R.; FRCP, LMCC, MD (UofA); Clinical Associate Professor (Psychiatry)
Brown, D.W.; Adjunct Assistant Professor (Physics & Astronomy)
Browne, J.A.; FRCPC, MD (UWO), BSc (Waterloo); Clinical Assistant Professor (Pathology & Laboratory Med)
Brown, J.C.; MSEE (Queen’s), BSc (UofA), PhD (UofC); Assistant Professor (Physics & Astronomy)
Brown, J.L.S.; MSc (Columbia), MArch (Texas), BSc (UofM); Professor (Environmental Design), Assoc Dean (Research) (Environmental Design)
Brown, J.S.; Cert. DMA (OSU), MM (U of R), BM (WSU); Professor (Department of Music)
Brown, K.; BA (PSU), MA (PSU), PhD (PSU), Diploma (UB); Professor (French Italian & Spanish)
Brown, L.N.; BA (Uvic), MSc (UofC), PHD (UofC), Adjunct Assistant Professor (Clinical Neurosciences)
Brown, T.G.; PEng (APEGGA), BSc (Hons) (Edinburgh), MEng (McGill), PhD (UofC); Professor (Civil Engineering)
Browne, P.J.; BSc (Adelaide), MSc (Findlers), PhD (Findlers); Adjunct Professor (Mathematics & Statistics)
Brownell, A.K.W.; FRCPC, MD (Queen’s); Professor - Medicine (Clinical Neurosciences), Professor - Medicine (Department of Medicine)
Bruce, C.J.; PhD (Cambridge), MA (Carleton), BA (Hons) (Uvic); Professor (Economics)
Brudnyi, A.; BSc, MSc(H), PhD (TilTech); Associate Professor (Mathematics & Statistics)
Bruecks, A.K.; FRCPC, MD; Clinical Assistant Professor (Pathology & Laboratory Med)
Bruen, A.; BSc (TCD), MSc (TCD), PhD (UofT); Adjunct (Electrical & Computer Eng)
Brunet, W.G.; MD (Queen’s); Clinical Assistant Professor (Radiology)
Bruton, L.T.; PEng (APEGGA), MEng (Carleton), PhD (UNCL), BSc(Hons) (UofLondon); Faculty Professor (Electrical & Computer Eng)
Bryant, T.J.; BA (Hons) (Laurentian), MBA (Ubc), PhD (Ubc); Associate Professor (Haskayne School of Business)
Bryce, T.L.; BSc, FRCPC, MD; Clinical Assistant Professor (Anaesthesia)
Brydges, B.J.; MLS (UofA), BA (UofC), MA (UofC); Associate Librarian (Faculty of Education)
Brzezinski, W.; FRCSC, MD; Clinical Lecturer (Surgery)
Buckley, K.L.; Diploma, MA (UofC), BA (UofT); Associate Archivist (Libraries & Cultural Resources)
Buckley, R.E.; FRCPC, BSc (UofC), MD (UofC); Clinical Assistant Professor (Surgery)
Budiman, R.A.A.; PEng (APEGGA), BSc (UofT), MASc (UofT), PhD (UofT); Associate Professor (Mechanical & Manufacturing Eng)
Bugar, J.M.; FRCPC, LMCC, BSc (Ubc), MD (UBC); Clinical Lecturer (Department of Medicine)
Buie, W.D.; DABS, FACS, FRCPG, BSc (UofA), MA (UofA), MSc (UofA), BSc (UofC); Associate Professor - Medicine (Oncology), Associate Professor - Medicine (Surgery)
Bulanda, C.S.; BSc, MD; Clinical Associate Professor (Surgery)
Bullard, J.C.; BN (UofC), MN (UofC); Clinical Associate (Faculty of Nursing)
Bulloch, A.G.M.; BA (Hons) (Cambridge), MA (Cambridge), PhD (Wales); Professor - Medicine (Physiology & Biophysics), Professor - Medicine (Psychiatry)
Bultz, B.D.; BA (SGWU), MA (UC), PhD (UC); Adjunct Professor (Psychology), Adjunct Professor (Oncology), Adjunct Professor (Psychiatry), Adjunct Professor (Surgery)
Buntain, B.J.; DABVP, DAVCP, DVM (CSU), BSc (UH), MSc (UH); Professor (Community Health Sciences), Asst Dean(Gov’t &Internal Rel) (Ecosystem & Public Health), Professor (Ecosystem & Public Health)
Burak, K.W.; FRCPC, MSc (UofC), BSc (UofS), MD (UofS); Associate Professor - Medicine (Department of Medicine)
Burbank, D.C.; FRCPC, MD (UofS); Clinical Assistant Professor (Department of Medicine)
Buret, A.G.; BSc (UNINE), Diploma (UNINE), MSc (UofC), PhD (UofC); Professor (Biological Sciences), Adjunct Associate Professor (Pharmacology & Therapeutics)
Burger, J.M.; BA (OSU), MEd (UofA), PhD (UofA); Adjunct Associate Professor (Faculty of Education)
Burgess, E.D.; DABIM, FRCPC, FSMB, LMCC, MD (UofM); Professor - Medicine (Department of Medicine)
Burgess, I.R.; BA (UofM), MD (UofM); Clinical Associate Professor (Paediatrics)
Burgess, J.J.; Clinical Associate Professor (Cardiac Science), Clinical Associate Professor (Surgery)
Burkart, B.C.; FRCSC, MD; Clinical Assistant Professor (Surgery)
Burke, M.D.; PhD (Carleton), BSc (Concordia), MA (York); Professor (Mathematics & Statistics)
Burke, R.C.; MD; Clinical Associate Professor (Surgery)
Burness, R.J.; RN, BN (UofC), MN (UofC); Clinical Associate (Faculty of Nursing)
Burrowes, P.W.; MD; Clinical Associate Professor (Radiology)
Busby, P.; FRAI, MRAIC, BArch (UBC), BA (UofT); Adjunct Associate Professor (Environmental Design)
Busche, K.D.; BSc (McGill), MD (UWO); Clinical Assistant Professor (Clinical Neurosciences)
Butterwick, D.J.; MSc (Indiana), MMus (MSU), BAMus (UA), MSt (UA); Associate Librarian (Libraries & Cultural Resources)
Buttner, J.E.; FRCPC, BSc (HSc), MD (UVA); Professor - Medicine (Paediatrics)
Caetano Da Silveira, G.J.; BBA (UFRGS), MEng (UFRGS), PhD (Warwick); Associate Professor (Haskayne School of Business)
Cai, W.C.; BA, MA (BSU), PhD (NUS); Assistant Professor (German Slavic East Asian St)
Caird, J.K.; MSc (CU), PhD (UJ); Professor (Psychology), Adjunct Professor (Anaesthesia)
Cairns, S.L.; CPSYCHOL, MA (UofM), PhD (UofM), BA (Hons) (UofW); Associate Professor (Faculty of Education)
Caldwell, L.H.; MD; Clinical Associate Professor (Psychiatry)
Calhoun, A.J.; Msw (UH), PhD (UH), Bsw (Uvic); Associate Professor (Faculty of Social Work), Assoc Dean & Head, CNAR (Faculty of Social Work)
Calhoun, L.E.; MLS (Indiana), Mmus (MSU), BAMus (UA), MSt (UA); Associate Librarian (Libraries & Cultural Resources)
Callaghan, R.T.; PhD (UofA), MD (UofM), BA (Hons) (UofW); Associate Professor (Archaeology)
Cameron, A.; Bsc. ccpp, Md; Clinical Lecturer (Family Medicine)
Cameron, E.; BA (Hons) (Durham), DipArtHist (UofLondon); Professor (Department of Art), University Professor (Department of Art)
Cameron, G.I.; MLit (StAndrew’s), PhD (StAndrew’s), BA (Hons) (Uon); Associate Professor (Political Science)
Campbell, E.A.D.; FRCPC, MD (UofC), Clinical Assistant Professor (Surgery)
Campbell, L.M.; BL, PhD (berkeley), BA (ubc), LLVM (ubc), MA (UofT); Assistant Professor (Communication & Culture)
Campbell, N.R.C.; DABIM, FACP, FRCPC, LMCC, BMSc (Mun), MD (mun); Professor - Medicine (Community Health Sciences), Professor - Medicine (Department of Medicine), Professor - Medicine (Pharmacology & Therapeutics)
Campbell, T.; Bsc (Concordia), PhD (McGill); Assistant Professor (Psychology), Adjunct Assistant Professor (Oncology)
Campbell, V.C.; BA (UofT); Assistant Professor (Department of Drama)
Campbell, W.G.; Ccpp, Md (UofA), Bsc (UofC), Msc (UofC); Clinical Associate Professor (Family Medicine)
Candido, C.L.; BSc (UofA), MSc (UofC), PhD (UofC); Adjunct Assistant Professor (Psychology)
Cannon, C.K.; BA (Hons) (Queen’s), MA (Queen’s), PhD (Queen’s); Adjunct Assistant Professor (Psychology)
Academic Staff

Delgado Espinoza, F.; PhD (PITT), BA (Texas); Adjunct Assistant Professor (Archaeology)

Delon, S.; BA (Finders), MA (Finders), PhD (UofA); Adjunct Assistant Professor (Community Health Sciences)

Delong, K.G.; BAMus (Acadia), AM (Stanford), PhD (Stanford), BMus (UofM); Professor (Department of Music)

Demchuk, A.M.; LMCC (MCC), FRCP(C) (RCPSC), MD (UofS); Associate Professor - Medicine (Clinical Neurosciences), Associate Professor - Medicine (Radiology)

Demetrick, D.J.; FRCP(C), BSc (UBC), PhD (UofC), MD (UofC); Associate Professor - Medicine (Biochem & Molecular Biology), Associate Professor - Medicine (Medicine Genetics), Associate Professor - Medicine (Oncoology), Associate Professor - Medicine (Pathology & Laboratory Med)

De Milie, C.N.; MA (Trent U), BSc(Hons) (UofC), PhD (UofC); Adjunct Assistant Professor (Archeology)

Demjen, S.; BA (Concordia), MSc (UofC), PhD (UofC); Adjunct Assistant Professor (Psychiatry)

Demong, T.; Clinical Lecturer (Surgery)

Denesuk, A.M.; BMSc, MD; Clinical Lecturer (Family Medicine)

Denzinger, J.; Diploma (TUKL), Dr Habil (TUKL), DrRtNat (TUKL); Associate Professor (Computer Science)

De Pass, C.M.; BA (UWI), MA (UofC), PhD (UofC); Adjunct Assistant Professor (Electrical & Computer Eng)

Desautels, J.E.L.; MD (Ottawa), Cert (RCFSC), BSc (UdeM); Adjunct Professor (Electrical & Computer Eng)

Descoteaux, J.G.; FRCP(C), MA (Laval), MD (Ottawa); Associate Professor - Medicine (Surgery)

De Souza, F.K.; BSc, FRCS(C), MD, MSc; Clinical Lecturer (Surgery)

Desreux, M.; BSc, FRCP(C), MD; Clinical Lecturer (Department of Medicine)

Deur, F.; BSc (UofC), MSc (UofC); Instructor (Computer Science)

De Villiers, A.S.; MB BS (Pretoria), MOM (SUN); Clinical Assistant Professor (Community Health Sciences)

Devine, H.; BEd (UofA), MED (UofA), PhD (UofA); Associate Professor (Communication & Culture), Adjunct Associate Professor (Faculty of Social Sciences)

Deviney, R.P.; BA (UC), PhD (UC); Associate Professor - Medicine (Microbiology & Infect Disease)

De Visscher, A.A.H.; PEng (APEGGA), MSc (UGent), PhD (UGent); Assistant Professor (Chemical & Petroleum Eng), Tier II CRC-Air Quality & Poll (Chemical & Petroleum Eng)

Devin, S.M.; BSc, FRCP(C), MD; Clinical Assistant Professor (Department of Medicine)

Devries, J.D.; MD, Clinical Assistant Professor (Psychiatry)

De Waal, D.P.F.; CCPF, MB BS (SUN); Clinical Lecturer (Family Medicine)

Dewald, J.R.; PEng (APEGGA), BSc(Eng) (UofA), MBA (UofA), PhD (UofC); Assistant Professor (Haskayne School of Business), Adjunct Assistant Professor (Environmental Design)

Dewey, D.M.; PhD (UofC), BA (Hons) (UofS), MA (UofS), MSc (Waterlo); Professor - Medicine (Community Health Sciences), Professor - Medicine (Paediatrics), Adjunct Professor (Faculty of Kinesiology)

Deyholos, M.; CCPF, BN (UofC), MD (UofC), MSc (UofC); Clinical Lecturer (Family Medicine)

Diao, X.; BComm (HIT), MSc (SJTU), PhD (UBC); Assistant Professor (Haskayne School of Business)

Dias, V.C.; BSc, MSc, PhD; Adjunct Associate Professor (Pathology & Laboratory Med)

Dibartolo, M.L.; BSc (McGill), BSc (UofM), MD (UofM); Clinical Assistant Professor (Paediatrics)

Dicker, F.P.; BSc, FRCP(C), MD; Clinical Assistant Professor (Paediatrics)

Dicken, J.P.; PhD (UofA), BA (UofC), LLB (UofC), MA (UofC); Professor (Communication & Culture)

Dickinson, J.A.; CCPF, PhD (Newcastle), MB BS (UQ); Professor - Medicine (Community Health Sciences), Professor - Medicine (Family Medicine)

Dickson, R.A.; BSc, FRCP(C), MD; Clinical Associate Professor (Psychiatry)

Di Francesco, L.M.; FCAP, LMCC (MCC), FRCP(C) (RCPSC), BN (UofC), MD (UofC); Assistant Professor - Medicine (Oncology), Assistant Professor - Medicine (Pathology & Laboratory Med)

Di Martino, E.; PhD (Milano), MSc (PolitecMil); Assistant Professor (Civil Engineering)

Dimtrov, V.S.; BSc (TU-Sofia), PhD (TU-Sofia); Associate Professor (Electrical & Computer Eng)

Dinh, T.N.; BA (UofC), MSc (UofC), PhD (UofC); Instructor (Mathematics & Statistics)

Di Nino, V.L.; Clinical Assistant Professor (Family Medicine)

Dipalma, R.A.P.; Clinical Lecturer (Family Medicine)

Diserens, M.; FRCP(C), MD (McGill); Clinical Assistant Professor (Anaesthesia)

Dixon, E.D.; FRCP(C), MSc (Harvard), BSc (UofC), MD (UofM); Assistant Professor - Medicine (Community Health Sciences), Assistant Professor - Medicine (Oncology), Assistant Professor - Medicine (Surgery)

Djurjevic, M.; BSc (UNS), MSc (UNS), PhD (UNS); Instructor (Chemistry)

Dobberthien, M.T.; BMSc, FRCP(C), MD; Clinical Assistant Professor (Anaesthesia)

Dobrinski, I.; PhD (Cornell), DVM (HCMV), GradVet (HCMV), MVSc (UofS); Professor (Compar Biol & Experim Medicine), Department Head (Compar Biol & Experim Medicine)

Dobson, D.J.G.; MA (UWO), PhD (UWO), BA (Hons) (Waterlo); Adjunct Associate Professor (Psychology), Adjunct Associate Professor (Psychiatry)

Dobson, G.M.; FRCP(C), MB BS (McGill); Associate Professor - Medicine (Anaesthesia), Associate Professor - Medicine (Surgery)

Dobson, K.S.; CPSYCHOL, MA (UWO), PhD (UWO), BA (UofA); Professor (Psychology), Department Head (Psychology)

Docksteader, B.R.; FRCP(C), MD (Queen's); Clinical Associate Professor (Obstetrics & Gynecology)

Docktor, B.L.; FRCP(C), MD (McMaster), BSc (UofC); Clinical Assistant Professor (Radiology)

Doctor, J.A.; MD (UofC); Clinical Assistant Professor (Department of Medicine)

ACADEMIC STAFF

Dodd, C.M.; BSc, FRCP(C), MD; Clinical Assistant Professor (Anaesthesia)

Doepel, L.S.; BSc (UofA), PhD (UofA); Assistant Professor (Production Animal Health)

Doig, C.J.; FRCP(C), MSc (UofC), MD (Dist) (UofS); Associate Professor - Medicine (Community Health Sciences), Associate Professor - Medicine (Department of Medicine), Associate Professor - Medicine (Critical Care Medicine)

Doll, C.M.; BSc, FRCP(C), MD; Clinical Assistant Professor (Oncology)

Donaghy, J.J.; BA, MB BS; Clinical Assistant Professor (Surgery)

Donais, P.E.; BSc, FRCP(C), MD; Clinical (Anaesthesia)

Donaldson, C.R.; PhD (Abderdeen), BA (Hons) (UON), MSc (Yale); Research Professor (Community Health Sciences)

Donev, J.M.; BSc (UCSC), MSc (UW), PhD (UIW); Instructor (Physics & Astronomy), Instructor (Physics & Astronomy)

Dong, M.T.; PEng (APEGGA), MSc (UofPetro), BASc (NWU), PhD (Waterlo); Professor (Chemical & Petroleum Eng)

Dong, W.; FRCP(C), MD, MSc, PhD; Clinical Assistant Professor (Pathology & Laboratory Med)

Donihee, J.P.; BSc(Hons) (Carleton), LLB (Dalhousie), LL (UofC), MESS (York); Adjunct Assistant Professor (Environmental Design)

Donley, J.K.; Cert, BA (UofS), BED (UofS), LLB (UofS), MED (UofS), PhD (UofS); Associate Professor (Faculty of Education), Interim Assc Dean (Faculty of Education)

Donley, L.B.; BComm (UofC), MBA (UofC); Senior Instructor (Haskayne School of Business)

Donnelly, B.J.; BA, BSc(Hons), FRCP(C), MB BS, MBCHBAO, MSc (UofA); Clinical Assistant Professor (Surgery)

Donnelly, J.K.; PEng (APEGGA), BSc (UofA), PhD (UofA); Adjunct Professor (Chemical & Petroleum Eng)

Donnelly, T.T.; BSc(Nur) (Dalhousie), MSN (UBC), PhD (UBC); Associate Professor (Faculty of Nursing)

Donnon, T.L.; BSc (UBC), BED (UofC), MEd (UofC), PhD (UofC); Assistant Professor - Medicine (Community Health Sciences)
Elhajj, R.S.; MSc (Bilkent), PhD (Engineering); Assistant Professor (Civil Engineering)

El-Hacha, R.; PEng, BSc (BAU), MSc (Concordia), PhD (Queen’s); Professor - Medicine (Psychiatry)

Eggermont, J.J.; DSc (Leiden), MSc (Leiden); Professor (Psychology), Associate Professor - Medicine (Community Health Sciences), Associate Professor - Medicine (Department of Medicine)

Eggermont, M.J.; BA (UofC), BFA (UofC), MFA (UofC); Senior Instructor (Mechanical & Manufacturing Eng)

Ellers, P.F.; BSc(Hons) (UBC), PhD (UBC); Associate Professor (Mathematics & Statistics)

Eigl, B.J.; FRCP, BSc(Hons) (McMaster), MD (McMaster); Assistant Professor - Medicine (Department of Medicine), Assistant Professor - Medicine (Oncology)

Einsiedel, E.F.; MA (CSU), PhD (Indiana), BSc (UP); Professor (Communication & Culture), University Professor (Communication & Culture)

Eiserman, J.R.F.; BA (McGill), MA (McGill), PhD (UofC), BFA (UofR); Associate Professor (Department of Art)

El-Badry, M.; PENG, PEng (APEGA), BSc(Hons) (Cairo), MSc (UofC), PhD (UofC); Professor (Civil Engineering)

Elder, B.; Executive in Residence (Haskayne School of Business)

Elera, C.G.; BA (PUCP), PhD (UofC); Adjunct Curator (Libraries & Cultural Resources)

Elgersma, V.; BMSc (UofA), MD (UofA); Clinical Lecturer (Family Medicine)

el-Guebaly, N.A.; Cert, ASAM, DFAPA, FACP, FAPA, FRCP, LMCC, Diploma (Alexandria), MB BS (Cairo), Dipl Psych (Ottawa); Professor - Medicine (Psychiatry)

El-Hacha, R.; PEng, BSc (BAU), MSc (Concordia), PhD (Queen’s); Assistant Professor (Civil Engineering)

Elhajj, R.S.; MSc (Bilkent), PhD (Bilkent), BSc (METU); Professor (Computer Science)

Eliasson, J.B.; APEPGA, PEng, BComm (UofA), BASc (UofT), MAsc (Waterloo); Instructor (Haskayne School of Business)

Eliaszw, M.; BSc(Hons) (UWOU), MSc (UWO), PhD (UWO); Associate Professor - Medicine (Community Health Sciences)

Elkin, B.T.; BSc (UofS); Adjunct Assistant Professor (Ecosystem & Public Health)

Ellard, J.H.; BA (UofA), MA (Waterloo), PhD (Waterloo); Associate Professor (Psychology)

Elliott, A.S.; BSc(Hons), FRCP, MD; Clinical Assistant Professor (Paediatrics)

Elliott, C.D.; PhD (Carleton), BA (Hons) (UofC), MA (UofC); Assistant Professor (Communication & Culture), Adjunct Assistant Professor (Faculty of Kinesiology)

Elliott, G.E.; BSW (UofC), MSW (UofC), BA (Hons) (Waterloo); Instructor (Faculty of Social Work)

Elliott, J.F.; MD; Clinical Assistant Professor (Psychiatry)

Elliott, P.D.; MD; Clinical Associate Professor (Radiology)

Elliott, R.J.; DSc (Cambridge), PhD (Cambridge), BA (Oxford), MA (Oxford); Adjunct Professor (Mathematics & Statistics), Professor (Haskayne School of Business), Royal Bank Professorship (Haskayne School of Business), Adjunct Professor (Electrical & Computer Eng)

Ellis, C.L.; MD; Clinical Assistant Professor (Family Medicine)

Ellis, J.R.; BA (UNB), BSc (UNB), MA (UNB), PhD (York); Associate Professor (Department of English)

Elofson, W.M.; PhD (Oxford), BA (Hons) (UofC); Professor (History), Department Head (History)

Elabrouhy, Y.; BSc (Alexandria), MSc (UofC); Instructor (Mathematics & Statistics)

Elbayadi, S.; ABIMM, FRCP, MD (Queen’s), BSc (UWO); Adjunct Associate Professor (Microbiology & Infect Disease)

El-Shemy, N.M.; PEng, BSc (ASU), MSc (ASU), PhD (UofC); Tier II CRC-2MG Systems (Geomatics Engineering), Professor (Geomatics Engineering), Department Head (Geomatics Engineering)

Emery, C.A.; BSc(Hons) (Queen’s), PhD (UofA), MSc (UofC); Assistant Professor (Faculty of Kinesiology)

Emery, J.C.H.; BA (Queen’s), MA (UWO), PhD (UWO), BPE (UofC); Professor (Faculty of Kinesiology)

Emes, C.G.; MA (UO), PhD (UO), BPE (UofC); Professor (Faculty of Kinesiology)

Emmett, J.O.; MD; Clinical Assistant Professor (Family Medicine)

Engle, J.M.; BM (Juilliard), MScM (Juilliard), MA (NYU); Professor (Department of Music)

Enns, E.; MD (UofC), Clinical Lecturer (Family Medicine)

Enns, R.A.; 87th (MBCC), PhD (UofA), BA (UofM), MA (UofM), MSW (UofM); Assistant Professor (Faculty of Social Work)

Enns, S.T.; PEng, PhD (UW), BSc(AgEng) (UofM), MBA (UofM); Associate Professor (Mechanical & Manufacturing Eng)

Epstein, M.; PEng, MSc (TiiTech), PhD (TiiTech), BSc (UBA), BA (UofC); Professor (Mechanical & Manufacturing Eng), University Professor (Mechanical & Manufacturing Eng), Adjunct Professor (Department of Kinesiology)

Epstein, M.J.; BA (Hons) (UW-Madison), MA (UofT), PhD (UofT); Assistant Professor (Communication & Culture)

Erdogmus, H.; BSc, Cert, MSc (McGill), PhD (UQC); Adjunct Associate Professor (Computer Science)

Ereshefsky, M.F.; BA (Berkeley), MA (UW-Madison), PhD (UW-Madison); Professor (Department of Philosophy)

Eschen, G.M.; BSc, FRCP, MD; Clinical Assistant Professor (Anaesthesia)

Eskin, D.; BSc (BMTU), MSc (BMTU), PhD (MUCTR); Adjunct Professor (Mechanical & Manufacturing Eng)

Eslinger, D.H.; BSc (UofC), MSc (UofC); Adjunct Assistant Professor (Environmental Design)

Eslinger, L.M.; MA (McMaster), PhD (McMaster), BA (UofC); Professor (Dept of Religious Studies)

Estale, R.; BSc (McMaster), MSc (Queen’s); Adjunct Lecturer (Oncology)

Este, D.C.; BA (Hons) (Carleton), BA (McGill), MSW (UofT), PhD (WLU), MA (Waterloo); Professor (Faculty of Social Work)

Estefan, A.; BN, MN, PhD, DNEd (SOTON); Assistant Professor (Faculty of Nursing)

Evans, S.M.; Adjunct Professor (Geography)

Everett, J.S.; CGA, Diploma (SAIT), BComm (UofC), PhD (UofC), MNRM (UofM); Associate Professor (Haskayne School of Business)

Eves, N.D.; BA (Hons) (Exeter), MSc (UofA), PhD (UofA); Assistant Professor - Medicine (Department of Medicine), Assistant Professor (Faculty of Kinesiology)

Ewa, I.V.; MRCP, MB BS (Benn), CCFP (UofC); Clinical Lecturer (Family Medicine)

Ewashes, C.J.; DNEd (FoothillsH), BEd (UofC), MN (UofC), PhD (UofC); Associate Professor (Faculty of Nursing), Assoc Dean (Graduate Progr) (Faculty of Nursing)

Ewen, A.; ChB, FRCA, FRCP, MB; Clinical Assistant Professor (Anaesthesia)

Exner, D.V.; FRCP, MPh (JHU), BEd (UofC), MS (UofD), MS (UofS); Associate Professor - Medicine (Cardiac Science)

Eystathioy, T.; BSc (UofC), MSc (UofC), PhD (UofC); Research Assistant Professor (Department of Medicine)

Ezzat, W.; BS MD (Aberdeen), MD (Scotland); Clinical Assistant Professor (Pathology & Laboratory Med)

F

Facchin, P.J.; BSc (UofT), PhD (UofT); Professor (Biological Sciences), Tier II CRC-Plant Metabolic Pr (Biological Sciences)

Fahlim, N.M.; FRCPC, MD (UofS); Clinical Assistant Professor (Department of Medicine)

Falk, V.G.; FRCP, FRCP, MRCPATH, MOM (SUN), MB BS (UCT); Associate Professor - Medicine (Pathology & Laboratory Med)

Falk, D.W.; MD; Clinical Lecturer (Family Medicine)

Falkenberg, L.E.; MBA (Queen’s), PhD (UI), MA (USA), BEd (UofC); Associate Professor (Haskayne School of Business)

Falkenstein, R.J.; MD; Clinical Assistant Professor (Anaesthesia)

Faml Samavati, F.; BSc (SUT), MSc (SUT), PhD (SUT); Associate Professor (Computer Science)

Fanning, J.W.; MD; Clinical Assistant Professor (Family Medicine)
Fanti, J.; BA (Brandheis), MA (Brown), PhD (Brown); Assistant Professor (Department of Philosophy)

Fapojouw, A.O.; MIEE, PEng (APEAGGA), BEng (Nigeria), MSc (McGill), PhD (McGill); Associate Professor (Electrical & Computer Eng)

Far, B.; FJAERI, FS&TA, PEng, PhD (Chiba), BSc (Teheran), MSc (Teheran); Associate Professor (Electrical & Computer Eng)

Farah, I.; BA (Karachi), MA (Karachi), MA (Kent), PhD (PENN); Adjunct Professor (Faculty of Education)

Farfan, P.; BFA (Concordia), MA (McGill), PhD (NU); Professor (Department of English), Professor (Department of Drama), University Professor (Department of Drama)

Faris, P.D.; BSc (UVIC), MSc (UofC), PhD (UofC); Adjunct Assistant Professor (Community Health Sciences)

Famalll, R.B., MD; Clinical Assistant Professor (Psychiatry)

Farouq Ali, S.M.; BSc(Hons) (Birmingham), BEng (Karachi), MSc (PSU), PhD (PSU); Clinical Professor (Chemical & Petroleum Eng)

Farran, R.P.; DVM, MD; Clinical Assistant Professor (Anaesthesia)

 Farrell, G.A.; DCH; Clinical Associate Professor (Paediatrics)

Fattouche, M.T.; PEng (APEAGGA), BSc (ASU), BASc (Cairo), MASc (UofT), PhD (UofT); Professor (Electrical & Computer Eng)

Fawcett, A.; MD; Clinical Assistant Professor (Psychiatry)

Fear, E.C.; PEng (APEAGGA), MASc (UVIC), PhD (UVIC), BASc (Waterloo); Associate Professor (Electrical & Computer Eng)

Fedak, P.W.; FRCP, SpecCompe (RCPSG), BSc (UofT), MD (UofT), PhD (UofT); Assistant Professor - Medicine (Cardiac Science), Assistant Professor - Medicine (Surgery)

Feder, D.L.; Bsc (Concordia), Msc (McMaster), PhD (McMaster); Associate Professor (Physics & Astronomy)

Federico, P.; CScN, FRCPC, BSc(Hons) (UofC), MD (UofC), MSc (UofC), PhD (UofC); Assistant Professor - Medicine (Clinical Neurosciences)

Federico, S.; PEng, BSc (Catania), MSc (Catania), PhD (Catania); Assistant Professor (Schulich School of Engineering), Assistant Professor (Mechanical & Manufacturing Eng)

Federoff, P.A.; Adjunct Assistant Professor (Faculty of Kinesiology)

Federigian, L.M.; BA (Texas), MA (Texas), PhD (Texas); Professor (Anthropology), Tier I CRC-Primatology (Anthropology)

Feehan, R.; BA (UofA), BSc (UofC), MSW (WLU); Instructor (Faculty of Social Work)

Fehr, L.; RSW, BSc (UofC), MSW (UofC); Instructor (Faculty of Social Work)

Feldman, Z.; BSc, MD; Clinical Lecturer (Surgery)

Fell, C.D.; ABIM, FRCP, BSc (UofC), MSc (UBC), MD (UofT); Clinical Assistant Professor (Department of Medicine)

Felske, L.W.; BA (UofC), MA (UofC), PhD (UofC); Assistant Professor (Communication & Culture)

Feng, P.S.T.; BASc(Hons) (McMaster), MSc (RPI), PhD (RPI); Assistant Professor (Communication & Culture)

Feng, X.; FRCP, MD, MSc; Clinical Assistant Professor (Department of Medicine)

Fenyvesi, C.M.; BSc(Hons) (UofA), MSc (UofA); Senior Instructor (Mathematics & Statistics)

Ferber, R.; MS (UO), Ph.D (UO), BPE (UofC); Assistant Professor (Faculty of Nursing), Adjunct Assistant Professor (Faculty of Kinesiology), Adjunct Assistant Professor (Faculty of Kinesiology), Assistant Professor (Faculty of Kinesiology)

Ferguson, R.J.; BSc (UofC), MSc (UofC), PhD (UofC); Associate Professor (Department of Geoscience)

Ferland, A.; FACCP, FRCP, MD; Clinical Associate Professor (Department of Medicine), Clinical Associate Professor (Critical Care Medicine)

Fenoll, D.; BA, FRCP, LMCC, MD; Clinical Assistant Professor (Anaesthesia)

Fernandes, J.L.; BSc, MD, MSc; Clinical Lecturer (Family Medicine)

Fernandez, N.J.; DACVP, BSc (Dalhousie), DVM (PEI), MVS (UofS); Assistant Professor (Vet Clinical & Diagnostic Scie)

Ferraz, J.G.P.; MD, PhD; Clinical Associate Professor (Department of Medicine)

Ferrer, A.M.; MA (BU), PhD (BU), BA (Madrid); Assistant Professor (Economics)

Ferris, J.R.; BA (Hons) (UofA), MA (UofT), PhD (UofT); Professor (History)

Fewell, J.E.; BA (UA), PhD (UAMS), BSc (UCA); Professor - Medicine (Physiology & Biophysics)

Fick, G.H.; FRSS, BSc (UofT), MSc (UofT); Professor - Medicine (Community Health Sciences)

Field, J.C.; BSc (UA), Med (UVIC), PhD (UVIC); Associate Professor (Faculty of Education)

Field, S.K.; ABIM, FRCP, LMCC, BSc (McGill), MD (McGill); Clinical Professor (Department of Medicine)

Fields, K.; BA (UC), PhD (UC); Adjunct Associate Professor (Computer Science), Associate Professor (Faculty of Fine Arts), Tier1 CRC/Telemedia Arts (Faculty of Fine Arts)

Fierheller, E.E.; DACVS, DVM (UofS), MSc (UofS); Assistant Professor (Vet Clinical & Diagnostic Scie)

Filipchuk, N.G.; ABIM, FRCP, MD, MSc; Clinical Associate Professor (Department of Medicine)

Filyk, M.C.; BA (UofC), MD (UofC); Clinical Lecturer (Psychiatry)

Finn, P.J.; BA (McGill), PhD (UVIC); Adjunct Associate Professor (Department of Drama)

Fiorillo, L.; MD; Clinical Assistant Professor (Paediatrics)

Fisher, D.A.; FRCP, BSc (Carleton), MD (UWO); Clinical Assistant Professor (Department of Medicine)

Fisher, J.A.; BSc, FRCP, MD; Clinical Assistant Professor (Paediatrics)

Fisher, J.E.; FRCP, MB, MRCPsych; Clinical Associate Professor (Psychiatry)

Fisher, M.J.; BA, BSc, FRCP, MD, MSc; Clinical Assistant Professor (Department of Medicine)

Fisher, R.A.; MA (Auckland), BA (Massey), PhD (UBC); Adjunct Professor (History)

Fitch, K.A.; BA (Hons), FRCP, MD; Clinical Assistant Professor (Psychiatry)

Fitch, L.A.; BSc (UofC); Adjunct Associate Professor (Environmental Design)

Fitzgerald, A.A.; FRCP, BSc(Hons) (UofA), MD (UofA); Associate Professor - Medicine (Department of Medicine)

Flanagan, T.E.; MA (Duke), PhD (Duke); Clinical Professor (Political Science), University Professor (Political Science)

Flemons, W.; FRCP, LMCC, BMSc (UofA), MD (UofA); Clinical Professor (Department of Medicine)

Flessati, E.W.; MA (UBC), PhD (UBC), BSc(Hons) (UofC); Adjunct Assistant Professor (Psychology), Adjunct Lecturer (Psychiatry)

Fletcher, W.A.; FRCP, MD (UofM); Professor - Medicine (Clinical Neurosciences), Professor - Medicine (Surgery)

Flores-Dinorin (Sarnat), L.; MD (UNAM); Research Professor (Clinical Neurosciences)

Fluker, S.C.; LLB (UVIC), BComm (UofA), LLM (UofC); Assistant Professor (Faculty of Law)

Flynn, A.P.; BA (SUNY), MD (Wesleyan); Professor (Faculty of Kinesiology)

Flynn, D.M.; BA (Hons) (Ontario), MA (Ontario), PhD (UBC); Assistant Professor (Linguistics)

Fodor, F.; PhD (Auburn), MSc (SZEU); Adjunct Associate Professor (Mathematics & Statistics)

Foley-doll, C.; Dip Nurs P (MHSNurse), BSc(Nur) (UofA); Instructor (U of C Qatar Campus)

Foley, M.W.; PEng, BSc(Hons) (Queen's), PhD (Queen's), MSc (UofA); Associate Professor (Chemical & Petroleum Eng)

Fong, C.T.; FRCP, BSc (UofM), MD (UofM); Professor - Medicine (Radiology)

Fong, P.W.L.; PhD (SFU), BMath(Hon) (Waterloo), MMath (Waterloo); Associate Professor (Computer Science)

Forsica, K.; MSc (Brunel), PhD (NIACاردs), BSc(Hons) (Reading); Adjunct Associate Professor (Microbiology & Infect Disease)

Foolen, C.H.; MD (UofC), BSc (UofC), MD (UofC); Adjunct Associate Professor (Surgery)

Foran, M.L.; BEd (UofC), MA (UofC), PhD (UofC); Professor (Communication & Culture)

Ford, B.; BSc, FRCCS, Clinical Lecturer (Surgery)

Ford, G.T.; ABIM, FACP, FACC, FRCP, LMCC, MD (UofC); Professor - Medicine (Department of Medicine)
Goldstein, S.G.; BSc, FRCSC, MD; Clinical Assistant Professor (Surgery)  
Gomez-Moriana, R.; MArch (Berkeley), Diploma (Jac), BArch (Waterloo), BES (Waterloo); Adjunct Associate Professor (Environmental Design)  
Gonzalez, F.M.; MA (BU), PhD (BU), BA (UAM); Associate Professor (Economics)  
Good, C.A.G.; PEng (APEGGA), PhD (UofC), BSc (Waterloo), MSc (Waterloo); Adjunct Professor (Mechanical & Manufacturing Eng)  
Goodhart, D.M.; BMSc, FRCPC, MD; Clinical Associate Professor (Cardiac Science)  
Goodyear, B.G.; BSc (MUN), PhD (UWO), MSc (Waterloo); Assistant Professor (Electrical & Computer Eng), Assistant Professor - Medicine (Clinical Neurosciences), Assistant Professor - Medicine (Radiology)  
Gordon, D.V.; PhD (UBC), BA (UofL), MA (UofS); Professor (Economics)  
Gorecki, M.A.; FRCPC, MD, PhD; Clinical Assistant Professor (Pathology & Laboratory Med)  
Gorombey, S.J.; MD (Debrecen); BSc (UWO); Clinical Assistant Professor (Pathology & Laboratory Med)  
Gosin, R.G.; CCFP, LMCC, MMS (Birmingham), BSc (UofA), MD (UofA); Clinical Associate Professor (Community Health Sciences), Clinical Associate Professor (Family Medicine)  
Gough, J.C.; BSc, FRCPC, MB BS; Clinical Professor (Pathology & Laboratory Med)  
Gour, G.; BSc (HUI), MSc (Racahinst), PhD (Racahinstit); Assistant Professor (Mathematics & Statistics), Adjunct Associate Professor (Physics & Astronomy)  
Gowender, T.; BA, MBBS; Clinical Associate Professor (Paediatrics)  
Goyal, M.; MB BS (AIIMS), MD (AIIMS); Clinical Professor (Radiology)  
Grash, C.R.; MD; Clinical Lecturer (Famil Music)  
Graham, C.M.; BSc (UofC), PhD (UofC); Instructor (Biological Sciences)  
Graham, H.R.; BSc, FRCPC, MD, MS; Clinical Assistant Professor (Paediatrics)  
Graham, J.R.; MA (Queen’s), BA (UofT), MSc (UofT), PhD (UofT); Professor (Faculty of Social Work), University Professor (Faculty of Social Work)  
Graham, J.S.; FRCPC, BSc (UofA), MD (UofA); Clinical Assistant Professor (Surgery)  
Grant, G.E.; FRCPC, MD (Ottawa), BSc (UWO); Clinical Assistant Professor (Paediatrics)  
Grant, N.R.; BA (Hons) (University of Toronto), PhD (University of Toronto); Assoc Adjunct (Faculty of Social Sciences), Assistant Professor - Medicine (Radiology)  
Greener, S.; BSc (King’s Col), PhD (OHU); Assistant Professor - Medicine (Biochem & Molecular Biology), Assistant Professor - Medicine (Oncology)  
Grierson Weiler, T.J.; LL.M (Ottawa), LL.M (UMICH), LL.B (UWO), MA (UWO), BA (Hons) (Waterlooll); Adjunct Senior Instructor (Faculty of Law)  
Grimman, S.E.; MD, Clinical Assistant Professor (Department of Medicine)  
Gruber, R.; BSc (Harvard), MD (UBC), PhD (UBC), MPhil (UON); Assistant Professor (Faculty of Education)  
Gurevitch, D.; Diploma, BA (UWO), BSc (UWO); Clinical Lecturer (Surgery)  
Gurevitch, J.; ACFAS, Dip Psych; Clinical Lecturer (Surgery)  
Guthrie, N.G.; Diploma (UofA); Adjunct Lecturer (Department of Medicine)  
H  
Ha, D.V.; FRCPC, BSc (UofS), MD (UofS); Clinical Assistant Professor (Anaesthesia)  
Haber, R.M.; FRCPC, MD (UofT); Associate Professor - Medicine (Department of Medicine), Associate Professor - Medicine (Paediatrics)  
Habib, A.F.; BSc (Cairo), MSc (Cairo), MSc (OSU); PhD (OSU); Professor (Geomatics Engineering)  
Habib, A.N.; BA (Concordia), PhD (UWO), MA (UofC); Assistant Professor (Department of Philosophy)  
Graff, C.R.; MD; Clinical Lecturer (Family Medicine)  
Graham, A.J.; FRCPC, MhSc (UBC), MSc (UofA), BSc (UofT), MD (UofT); Clinical Associate Professor (Community Health Sciences), Clinical Associate Professor (Oncology), Clinical Associate Professor (Surgery)  
Graham, S.G.; BSc, FRCSC, MD; Clinical Assistant Professor (Surgery)  
Graff, C.R.; MD; Clinical Associate Professor (Environmental Design)  
Gonzalez, F.M.; MA (BU), PhD (BU), BA (UAM); Associate Professor (Economics)  
Goodhart, D.M.; BMSc, FRCPC, MD; Clinical Associate Professor (Cardiac Science)  
Goodyear, B.G.; BSc (MUN), PhD (UWO), MSc (Waterloo); Assistant Professor (Electrical & Computer Eng), Assistant Professor - Medicine (Clinical Neurosciences), Assistant Professor - Medicine (Radiology)  
Gordon, D.V.; PhD (UBC), BA (UofL), MA (UofS); Professor (Economics)  
Gorecki, M.A.; FRCPC, MD, PhD; Clinical Assistant Professor (Pathology & Laboratory Med)

Gurevitch, D.; Diploma, BA (UWO), BSc (UWO); Clinical Lecturer (Surgery)  
Gurevitch, J.; ACFAS, Dip Psych; Clinical Lecturer (Surgery)  
Guthrie, N.G.; Diploma (UofA); Adjunct Lecturer (Department of Medicine)  
H  
Ha, D.V.; FRCPC, BSc (UofS), MD (UofS); Clinical Assistant Professor (Anaesthesia)  
Haber, R.M.; FRCPC, MD (UofT); Associate Professor - Medicine (Department of Medicine), Associate Professor - Medicine (Paediatrics)  
Habib, A.F.; BSc (Cairo), MSc (Cairo), MSc (OSU); PhD (OSU); Professor (Geomatics Engineering)  
Habib, A.N.; BA (Concordia), PhD (UWO), MA (UofC); Assistant Professor (Department of Philosophy)
Habibi, H.R.; BSc(Hons) (Birmingham), PhD (Birmingham); Professor (Biological Sciences), Adjunct Professor (Pharmacology & Therapeutics)

Hader, W.J.; FRCP, LMCC, BSc (Mercyhurst), MD (UofS), MSc (UofS); Assistant Professor - Medicine (Clinical Neurosciences), Assistant Professor - Medicine (Paediatrics)

Hadi, H.; FAAP, FCCPM, LMCC, BSc (Brandon), MD (UofT); Clinical Assistant Professor (Paediatrics)

Hadley, D.L.; CCFP, MBBS, BSc (UBC), MBA (UBC), MD (UBC); Clinical Lecturer (Family Medicine)

Hadley, M.A.; BA (UofC), MA (UofC); Instructor (Department of English)

Haffenden, A.M.; MA (UWO), PhD (UWO), BSc(Hons) (UofC); Adjunct Assistant Professor (Psychology), Adjunct Assistant Professor (Clinical Neurosciences)

Hagel, B.E.; PhD (McGill), BPE (UofC), MSc (UofC); Assistant Professor - Medicine (Community Health Sciences), Assistant Professor - Medicine (Paediatrics), ACH Fdn Prof, Child Health & W (Paediatrics)

Hagen, G.R.; LLB (Dalhousie), LLM (Ottawa), BA (UBC), MA (UBC), PhD (UWO); Assistant Professor (Faculty of Law)

Hagen, N.A.; FRCP, MD (UofA); Professor - Medicine (Clinical Neurosciences), Professor - Medicine (Department of Medicine), Professor - Medicine (Oncology)

Hagens, J.E.; CCFP, BA (Hons) (TWU), BSc (TWU), MD (UofC); Clinical Assistant Professor (Family Medicine)

Hahn, L.J.; MSc (Warsaw), PhD (Warsaw); Adjunct Associate Professor (Radiology)

Haider, S.; MD (Marmara); Clinical Assistant Professor (Radiology)

Haigh, J.D.; MD, Clinical Assistant Professor (Anaesthesia)

Haines, V.A.; PhD (UNC), BA (UofC), BSc (UofC), MA (UofC), MEDes (UofC); Professor (Sociology)

Haji, I.H.; BA (SFU), MA (SFU), PhD (UM); Professor (Department of Philosophy)

Hak, H.C.; MD (SUU); Clinical Assistant Professor (Paediatrics)

Hala, S.M.; MA (UBC), PhD (UBC), BA (UVIC); Associate Professor (Psychology)

Hall, B.L.; MSW (UofT), PhD (UofT), BA (Waterloo); Professor (Faculty of Social Work)

Hall, C.A.; FRCP, MD (UofC); Clinical Lecturer (Family Medicine)

Hall, D.C.; MSc (Cornell), MSc (Edinburgh), PhD (TAMU), BSc (UofG), DVM (UofG); Associate Professor (Ecosystem & Public Health)

Hall, L.C.; BLISc (UofA), MA (UofC), MCom (UofC), PhD (UofO), BA (UofS); Instructor (Department of English)

Hall, W.C.; FRCP, MD; Clinical Assistant Professor (Anaesthesia)

Hall, W.G.; Clinical Associate Professor (Family Medicine)

Hall-Beyer, M.; BA (Middlebury), PhD (Sherbrooke), MSc (UofA); Associate Professor (Geography)

Hallgrimsson, B.; MA (UC), PhD (UC), BA (Hons) (UofA); Adjunct Associate Professor (Archaeology), Sr Assoc Dean (Education) (Cell Biology & Anatomy), Associate Professor - Medicine (Cell Biology & Anatomy), Adjunct Associate Professor (Compar Biol & Experim Medicine)

Hallworth-Duez, A.M.; BA (Hons) (UofC); Instructor (French Italian & Spanish)

Halpeny, D.G.; MD/ChM; Clinical Assistant Professor (Anaesthesia)

Halpern, F.; MA (Brown), PhD (Brown), BA (Harvard); Assistant Professor (Department of English)

Hamel, C.; BSc (CSU), MArch (McGill), ERArch (PSU), BScArch (PSU); Associate Professor (Environmental Design)

Hamid, S.; DPM, MB BS; Clinical Lecturer (Psychiatry)

Hamilton, G.D.; MD; Clinical Assistant Professor (Surgery)

Hamilton, M.G.; FRCP, MD (McGill), BSc (UofT), Associate Professor - Medicine (Clinical Neurosciences), Associate Professor - Medicine (Paediatrics), Associate Professor - Medicine (Surgery)

Haminka, L.A.; LMCC, MABP, FPN (McGill), BS MD (UofM), BSc (UofM), FRCPc (UofM), MD (UofM); Assistant Professor - Medicine (Paediatrics)

Hamming, J.A.; BSc, FRCPC, MD; Clinical Assistant Professor (Anaesthesia)

Hamnett, J.L.; BA (UofC), MCS (UofC); Instructor (Communication & Culture)

Hanley, D.A.; FRCPC, LMCC, BA (UofA), MD (UofT), Professor - Medicine (Community Health Sciences), Professor - Medicine (Department of Medicine), Professor - Medicine (Oncology)

Hardy, P.J.; LMCC, MABMS, MRCP, MBBCHBAO (NUI), FRCPc (UofM); Professor - Medicine (Department of Medicine)

Hanna, E.; MB BS; Clinical Lecturer (Family Medicine)

Hanna, M.G.; BA (Hons) (McGill), PhD (UofC), MA (UofM); Adjunct Associate Professor (Archaeology)

Hannah, K.J.; Diploma, BSc(Nur) (MCG), MSN (MCG), PhD (UofA), RN (VichospNur), DNEd (Windsor); Adjunct Professor (Community Health Sciences)

Hannigan, C.J.; MRCVS, BVMS (Glasgow); Adjunct Assistant Professor (Environmental Design)

Hanson, D.D.; BSc (UofA), PhD (UofA); Assistant Professor (Biological Sciences)

Hansen, H.C.; MSc (DTU), PhD (Lund); Adjunct Assistant Professor (Biochem & Molecular Biology)

Hansen, J.L.; Clinical Associate Professor (Department of Medicine), Clinical Associate Professor (Cardiac Science)

Hanson, A.J.; FRCP, LMCC, BSc (McMaster), MD (Ottawa); Clinical Assistant Professor (Clinical Neurosciences)

Hanson, J.C.; RN (SktnHosp), BA (UofC), BN (UofC), MN (UofC); Adjunct Assistant Professor (Faculty of Nursing)

Hao, D.; ABIM, FRCPC, BA (Queen’s), MD (Queen’s); Assistant Professor - Medicine (Department of Medicine), Assistant Professor - Medicine (Oncology)

Harake, A.S.; Diploma (Cambridge), PhD (JIAST), BSc (RU), MSc (RU); Instructor (Electrical & Computer Eng)

Harabor, A.; MD (CDGM), Unknown (UCBL); Clinical Assistant Professor (Paediatrics)

Harrar, M.F.; BSc, FRCP, MD; Clinical Assistant Professor (Family Medicine)

Harasym, P.H.; BEd (UofA), BSc (UofA), Med (UofA), PhD (UofA); Professor - Medicine (Community Health Sciences)

Harder, J.A.; BSc, FRCPc, MD; Clinical Associate Professor (Surgery)

Harper, T.L.; MCIP, MSc (CMU), BA (UofC); Professor (Environmental Design)

Harries, C.J.; DNEd (FoothillsH), BN (UofC), MN (UofC); Clinical Associate (Faculty of Nursing)

Harrison, S.W.; BS MD (UofA), MD (UofA); Clinical Lecturer (Family Medicine)

Harrop, A.R.; FRSCC, MD, MSc, Clinical Assistant Professor (Surgery)

Harra, D.A.; PhD (MSU), BA (NMU), BSc (UofC); Associate Professor (Medicine (Department of Medicine), Associate Professor - Medicine (Paediatrics), Associate Professor - Medicine (Surgery))

Haque, A.S.; Diploma (Cambridge), PhD (JIAST), BSc (RU), MSc (RU); Instructor (Electrical & Computer Eng)

Harabor, A.; MD (CDGM), Unknown (UCBL); Clinical Assistant Professor (Paediatrics)

Harrar, M.F.; BSc, FRCP, MD; Clinical Assistant Professor (Family Medicine)

Harasym, P.H.; BEd (UofA), BSc (UofA), Med (UofA), PhD (UofA); Professor - Medicine (Community Health Sciences)

Harder, J.A.; BSc, FRCP, MD; Clinical Associate Professor (Surgery)
Hassan, Q.; BSc(Eng) (BU), MSc(Eng) (Malaya); Assistant Professor (Geomatics Engineering)

Hassay, D.N.; MBA (McMaster), BBA (UNB), PhD (UofM); Assistant Professor (Haskayne School of Business)

Hatfield, J.M.; Cert, MASC (Glasgow), BA (Hons) (Reading), PhD (UofC); Adjunct Assistant Professor (Faculty of Health Sciences)

Haydren, K.A.; BSc (Queen's), MSc (UofA), PhD (UofC); Associate Professor (Chemical & Petroleum Engineering)

Haydn-Jones, C.; MA (Liege), Diploma (Edinburgh), MSc (UofS), PhD (UofT); Alan Publishing Group Editor (Academic)

Heyman, R.D.; Cert (Columbia), EdD (Cornell), Diploma (UofC), MSc (UofT); Adjunct Professor - Medicine (Faculty of Medicine)

Heyne, B.J.M.; BEd (Liegé), BSc(Hons) (Liegé), PhD (Liegé); Assistant Professor - Chemistry

Hickie, J.P.; BSc, CCPF, MD, MSc; Clinical Lecturer (Faculty of Medicine)

Hicks, R.B.; BSc(Hons) (UofM), PhD (UofM); Associate Professor - Medicine (Faculty of Medicine)

Hiebert, B.A.; Med (UofA), PhD (UofC), Professor - Faculty of Education

Hiebert, M.S.; MA (Carleton), BA (Hons) (UofC), BSc (UofT); Assistant Professor (Communication & Culture)

Hiemstra, L.A.; BMSc, BSc, FRCSC, MD; Clinical Lecturer (Surgery)

Hiew, M.K.; FRCP, BSc (UM), MD (UofA); Clinical Assistant Professor (Anaesthesia)

Higham, L.; PhD (UBC), BSc (UofA), Diploma (UofA), MSc (UofA); Instructor - Medicine (Faculty of Medicine)

Hilderbrand, A.R.; PhD (UA), BSc (UNB); Associate Professor - Department of Medicine

Hiller, H.H.; PhD (McMaster), BDiv (Evergreen), MSc (Waterloo); Associate Professor (Chemical & Petroleum Engineering), Tier II Zandmer/CRC Hy & Catal (Chemical & Petroleum Engineering)

Hill, M.D.; FRCP, BSc (McGill), MD (UofC); Associate Professor - Medicine (Faculty of Medicine)

Hill, A.A.; Post Gradu. BA (Hons) (Cambridge), DRUS (Cambridge), MA (Cambridge), PhD (Cambridge); Associate Professor (History)

Hill, D.C.; MD; Clinical Assistant Professor (Clinical Neurosciences)

Hill, J.M.; PEng (APEGGA), PhD (UW-Madison), BASc (Waterloo), MASC (Waterloo); Associate Professor - Medicine (Faculty of Medicine)

Hilz, E.A.; BSc (UofS), LD (UofS), DSC (UofT); Associate Professor - Medicine (Faculty of Medicine)

Hilton, J.; BSc (UofS), BEng (UofS); Associate Professor (Mechanical Engineering)

Hillmann, L.; PhD (UofC), Diploma (UofC), MSc (UofC); Adjunct Assistant Professor (Chemical Engineering)

Hinds, C.M.; BSc(Hons) (UofC), MSc (UofC), PhD (UofC); Professor (Department of Geoscience)

Hindson, H.H.; FRSC, MA (StonyBrook), PhD (StonyBrook), BA (Hons) (UofC), Professor (History)

Hirsch, D.; MD; Clinical Assistant Professor (Surgery)

Hirte, S.K.; BSc(Hons) (Queens), MSc (Queen's), MD (UofC); Assistant Professor - Medicine (Faculty of Medicine)

Hofstra, E.; PhD (UofC), MSc (UofC); Assistant Professor (Chemical Engineering)

Hofstra, W.; MD (UofC), BSc (UofC), PhD (UofC); Professor - Medicine (Faculty of Medicine)

Högger, M.P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Hohendorf, A.; BSc (UofS), MSc (UofC), PhD (UofC); Assistant Professor (Chemical Engineering)

Hojo, K.; BSc (UofS), MSc (UofC), PhD (UofC); Associate Professor - Medicine (Faculty of Medicine)

Hollander, J.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Hollander, W.; BSc (UofS), MSc (UofC), PhD (UofC); Associate Professor - Medicine (Faculty of Medicine)

Holle, F.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holm, J.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holmberg, L.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holmgren, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holt, B.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holt, C.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzer, G.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holtz, D.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzer, G.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)

Holzmann, P.; BSc (UofS), MSc (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Faculty of Medicine)
Hillsden, R.J.; FRCP, MSc (UofC), MD (UofS); Associate Professor - Medicine (Community Health Sciences), Associate Professor - Medicine (Department of Medicine)

Hirnan, A.S.; PhD (UofA); BSc (UofL); Senior Instructor (Chemistry)

Hirst, S.P.; MSc (Edinburgh), BSc(Nur) (Ottawa), RN (SMNS), PhD (UofA); Associate Professor (Faculty of Nursing)

Hiscock, C.A.; BSc, CCFP, MD; Clinical Lecturer (Family Medicine)

Hitchcock, D.J.; BMSc, CCFP, MD; Clinical Lecturer (Faculty of Medicine)

Hittel, D.H.; PhD (Carleton), BSc (UofC), MSc; Assistant Professor (Biochem & Molecular Biology), Assistant Professor (Faculty of Kinesiology)

Ho, C.S.; BSc, FRCPC, MD, MSc; Professor (Paediatrics)

Ho, D.S.; Clinical Associate Professor (Paediatrics)

Ho, J.; FRCP, LMCC, BSc (UWO), MD (UWO), MSc (UofC); Assistant Professor - Medicine (Paediatrics)

Ho, M.; FRCP, BSc (McMaster), MSc (UofLondon), MD (UofT); Professor - Medicine (Department of Medicine), Professor - Medicine (Microbiology & Infect Disease)

Ho, S.M.S.; Adjunct Assistant Professor (Civil Engineering)

Hobill, D.W.; Diploma (BSC), PhD (Uvic), MSc (UofC), BSc (WPI); Associate Professor (Physics & Astronomy)

Hodges, Y.A.; Cert, BEd (UofC), Diploma (UofC), MEd (UofC); Instructor (Faculty of Education)

Hodgins, D.C.; CPSYCHOI, BA (Hons) (Carleton), MA (Queen’s), PhD (Queen’s); Professor (Psychology), Adjunct Professor (Psychiatry)

Hodsman, P.M.; MDCM; Clinical Assistant Professor (Family Medicine)

Hoener, S.V.; PhD (UBC), BA (UofC), MA (UofC); Instructor (Germanic Slavic East Asian St)

Hoffman, N.R.; MLS (UofA), BA (UofC); Assistant Librarian (Libraries & Cultural Resources)

Hofmeister, M.L.; BA (UofC), MA (UofC), PhD (UofC); Adjunct Associate Professor (Community Health Sciences)

Hogan, D.B.; DABIM, SpecCompe, MD (Dalhousie), FRCP (RCPCSC); Professor - Medicine (Community Health Sciences), Professor - Medicine (Department of Medicine), Brenda Strafford Chr Geriatric (Department of Medicine)

Hogg, L.M.; CCFP, FRCP, LMCC, BSc (Uvic), MSc (UofA); Clinical Lecturer (Psychiatry)

Hokanson, M.R.; FRCP (Conversion), MD (UofS); Clinical Assistant Professor (Anaesthesia)

Hodden, W.N.; LLB (UWO), BA (UofC), ME (UofC), PhD (UofC); Assistant Professor (Geography)

Hollaar, G.L.; FRCP, BSc (CC), MPH (JHU), MD (UofA); Assistant Professor - Medicine (Community Health Sciences), Assistant Professor - Medicine (Surgery)

Holland, D.; BSc (UofC), MSc (UofC), PhD (UofC); Senior Instructor (Mathematics & Statistics)

Holland, D.R.; MD; Clinical Assistant Professor (Department of Medicine), Clinical Assistant Professor (Oncology)

Hollingshead, R.M.; FRCP, MBBS, MOM; Clinical Assistant Professor (Paediatrics)

Hollenberg, M.D.; PhD, MD (JHU), PhD (Oxford), BSc(Hons) (UofM), MSc (UofM); Professor - Medicine (Department of Medicine), Professor - Medicine (Pharmacology & Therapeutics)

Holroyd-Leduc, J.M.; BSc (Ottawa), MD (UofT); Assistant Professor - Medicine (Community Health Sciences), Assistant Professor - Medicine (Department of Medicine)

Hollins, A.M.; MA (Cambridge), MA (UofT), PhD (UofT); Associate Professor (Economics)

Holroyd-Leduc, J.M.; BSc (Ottawa), MD (UofT); Assistant Professor - Medicine (Community Health Sciences), Assistant Professor - Medicine (Department of Medicine)

Holtten, D.L.; BSc (UofA), License (UofA), MD (UofA), FRCP (UofC), SpecCompe (UofM); Associate Professor - Medicine (Department of Medicine)

Horns, R.B.; ABIM, FRCP, MD (Queen’s), Clinical Associate Professor - Department of Medicine

Hopper, A.R.; CCFP, BSc(Hons) (UBC), MD (UofC), ME (UofC); Assistant Professor - Family Medicine

Horbulyk, T.M.; PA, MA (Queen’s), PhD (Queen’s), BSc(Agr) (UBC); Associate Professor (Economics)

Horton, J.M.; MD; Clinical Assistant Professor (Family Medicine)

Hovhants, J.K.; Dip(MAeqv), Dip(BAeqv); Associate Professor (Department of Music)

Hosain, S.I.; FRCP, BS MD (UofM), BSc (UofM), MD (UofM); Clinical Lecturer (Psychiatry)

Hoshowsky, B.O.; MD, Clinical Lecturer (Surgery)

Hoskins, P.W.O.; PhD (ANU), BSc(Hons) (Auckland), DrHabil (Freiburg), Associate Professor (Department of Geosciences)

Howard, J.J.; FRCP, BEng (MUN), BMSc (MUN), MD (MUN); Clinical Assistant Professor (Faculty of Kinesiology)

Howard, A.G.; FRCP, BSc(Hons) (Queen’s), MD (UofC), PhD (UofA); Associate Professor - Medicine (Department of Medicine), Assistant Professor - Medicine (Cardiac Science)

Hawk, S.D.; CCFP, BSc (UofM), MD (UofM); Clinical Lecturer (Family Medicine)

Howlett, A.A.; FAAP, FRCP, LMCC, MD (UofT); Clinical Associate Professor (Paediatrics)

Howlett, J.; Clinical Professor (Department of Medicine), Clinical Professor (Cardiac Science)

Hoyer, P.C.; BSc (SDU), MSc (SDU), PhD (SDU); Assistant Professor (Computer Science)

Hoyte, K.M.; FRCP, MD, Clinical Associate Professor (Clinical Neurosciences)

Hrycak, N.R.; RN (ReginaHosp), BSc(Nur) (UofA), PhD (UofC), MEd (UofT); Associate Professor (Faculty of Nursing)

Hryniew, P.; BMus (UofC), MMus (UofC); Professor (Dept of Music)

Hu, B.; MD (Laval), MD (SNDMC); Professor - Medicine (Clinical Neurosciences), University Professor (Clinical Neurosciences), Professor - Medicine (Cell Biology & Anatomy)

Hu, R.W.C.; FRCP, BMSc (MUN), MD (MUN); Clinical Associate Professor (Clinical Neurosciences), Clinical Associate Professor (Surgery)

Hu, W.Y.; BMSc, FRCP, MD; Clinical Associate Professor (Clinical Neurosciences), Clinical Associate Professor (Radiology)

Hu, Y.; PEng (APEGGA), PhD (UWO), BSc (XJTU), MSc (XJTU); Assistant Professor (Electrical & Computer Eng)

Huan, S.D.; BSc, MD; Clinical Associate Professor (Department of Medicine)

Huang, B.; PhD (CAS), MSc (ITC), BEng (WTUSM); Adjunct Associate Professor (Geomatics Engineering)

Huang, C.; FRCP, MD (UofT), PhD (UofT); Assistant Professor - Medicine (Paediatrics)

Huang, J.T.; MD; Clinical Associate Professor (Surgery)

Huang, P.T.; FRCP, BMSc (UofA), MD (UofA); Clinical Professor (Surgery)

Huang, S.; Diploma (Zurich), MD (Zurich), PhD (Zurich); Associate Professor (Biological Sciences)

Hubble, S.M.; BSc (UofA), MSc (UofA), Assistant Professor (Department of Geosciences)

Huber, R.E.; PhD (UC), BSc (UofA), MSc (UofC); Faculty Professor (Biological Sciences)

Huddleston, W.R.; BSc (UofC), MSc (UofC); Instructor (Biological Sciences)

Hudson, M.; BSc, FRCP, MD; Clinical Assistant Professor (Clinical Neurosciences), Clinical Assistant Professor (Radiology)

Hudson, S.; Diploma, BA (Hons) (BrightonPol), MBA (CSU), PhD (Surrey); Professor (Haskayne School of Business)

Huebert, R.N.; MA (Carleton), BA (Hons) (Dalhousie), BA (Hons) (UofM); Associate Professor (Political Science)

Hughes, A.; MA (Indiana), PhD (Indiana), BA (Hons) (UofA); Associate Professor (Dept of Religious Studies)

Hughes, L.A.; PhD (Indiana), BA (UofA), MA (UofA); Assistant Professor (Dept of Greek & Roman Studies)

Hughson, E.A.; PhD (UofA), BA (UofC), MSc (UofC); Associate Professor - Medicine (Faculty of Medicine)

Hugo, R.J.; PEng (APEGGA), MSc (ND), PhD (ND), BSc(Hons) (UofC); Associate Professor (Mechanical & Manufacturing Eng), Department Head (Mechanical & Manufacturing Eng)

Hui, A.K.; FRCP, LNCICL, MD (UofC); Clinical Assistant Professor (Surgery)
Jovančević, N.E.A.; MA (Carleton), BA (Ottawa), PhD (SFU); Assistant Professor (History)
Jans, R.G.; MD, MSc; Clinical Assistant Professor (Surgery)
Jarzen, E.D.; MVSc (Melbourne), BA (UofS), DVM (UofS); Professor (Production Animal Health), Asst Dean (Production Animal Health)
Janzen, E.P.; MD; Clinical Assistant Professor (Department of Medicine)
Janzen, J.A.; MD; Clinical Assistant Professor (Anaesthesia)
Jaques, L.E.; BA (UofA), MA (UofA), PhD (UofC); Associate Professor (Faculty of Social Work)
Jarand, J.M.; BSc, MD; Clinical Assistant Professor (Department of Medicine)
Jardine, D.W.; BA (Hons) (McMaster), MA (McMaster), PhD (UofT); Professor (Faculty of Education)
Jardine, P.G.G.; BA (McMaster), MSc (UofC), PhD (UofC), BA (Hons) (UofG), BEd (UofT); Associate Professor (Faculty of Education)
Jarell, J.F.; FSOGC, Diploma (ABOG), MSc (McGill), MD (Queen's), FRCP (RCPC); Professor - Medicine (Obstetrics & Gynecology)
Jarvis, K.D.; BN (MUN), MN (MUN); Instructor (U of C Qatar Campus)
Jeje, A.A.; PEng (APEGGA), MSc (MIT), PhD (MIT), BSc ( Purdue); Assoc Dean (Teaching & Learning) (Schulich School of Engineering), Professor (Chemical & Petroleum Eng)
Jenkins, D.A.; FRCP, BMSc (UBC), MD (UofC); Clinical Assistant Professor (Department of Medicine), Clinical Assistant Professor (Oncology)
Jenkins, D.H.; BArch (UBC); Adjunct Associate Professor (Environmental Design)
Jenkins, J.; MA (Queen's), BA ( Trent U), PhD (UWO); Associate Professor (Department of English)
Jennings, P.L.; MFA, MA (NYU), BA ( Oberlin), PhD (Plymouth); Adjunct Assistant Professor (Computer Science)
Jensen, B.W.; MD; Clinical Assistant Professor (Family Medicine)
Jensen, D.F.N.; PhD (UofA), BA (UofC), BEd (UofC), MEd (UofC); Assistant Professor (Faculty of Education)
Jensen, J.L.; BSc (Birmingham), PhD (Texas), MSc (UH); Adjunct Professor (Faculty of Science), Professor (Chemical & Petroleum Eng), Schulich Chair Res Eng Geo (Chemical & Petroleum Eng)
Jergeo, G.F.; MCSCE, PEng (APEGGA), BSc (Baghdad), MSc (Lboro/UG), PhD (Lboro/UG); Professor (Civil Engineering)
Jericho, M.C.; MD (UWO), BSc (UofC); Clinical Lecturer (Psychiatry)
Jerome, M.L.L.; BSW (UofM), MSW (UofM); Instructor (Faculty of Social Work)
Jeske, S.; BSc(Nur) (UofS); Instructor (Faculty of Nursing)
Jette, N.; Cert (Columbia), FACP (Columbia), BSc(Hons) (McMaster), MSc (McMaster), FRCP (Ottawa), MD (Ottawa); Assistant Professor - Medicine (Clinical Neurosciences), Assistant Professor - Medicine (Community Health Sciences)
Jhandir, F.; MBBS; Clinical Assistant Professor (Department of Medicine)
Jiang, L.; BSc (AAN), MSc (AAN), PhD (UofT); Adjunct Professor (Mechanical & Manufacturing Eng)
Jiang, X.Y.; MD, MSc; Clinical Assistant Professor (Pathology & Laboratory Med)
Jibb, N.E.; MD; Clinical Assistant Professor (Department of Medicine)
Jirk, F.R.; FRCP, BSc (UBC), MD (UBC), BSc (UVIC); Professor - Medicine (Biochem & Molecular Biology), Tier I CRC-Transgene Research (Biochem & Molecular Biology)
Johns, B.W.; BArch (TUNS); Adjunct Associate Professor (Environmental Design)
Johnson, D.R.; FRCP, LMCC, MSc (Dalhousie), BSc (UofC), MD (UofC); Clinical Lecturer (Surgery)
Johnson, D.W.; MD (Dartmouth), BA (Oberlin); Professor - Medicine (Paediatrics), Professor - Medicine (Pharmacology & Therapeutics)
Johnson, E.A.; MSc (UNH), BSc (UW-Madison), PhD (UofS); Professor (Biological Sciences)
Johnson, J.M.; CFMF, BSc(Hons) (UofT), FRCP (UofM), LMCC (UofM); MD (UofM); Professor - Medicine (Obstetrics & Gynecology)
Johnson, J.S.; MArch (AASA), BArch (BSU); Assistant Professor (Environmental Design)
Johnson, K.N.; CCFP, LMCC, BA (Dartmouth), MD (Queen's); Clinical Assistant Professor (Family Medicine)
Johnson, N.A.M.; FRCP, LMCC, BSc (McGill), MSc (McGill), MD (McMaster); Clinical Assistant Professor (Paediatrics)
Johnson, S.E.; MA (Texas), PhD (Texas), BA (UC); Assistant Professor (Anthropology)
Johnston, C.R.; PEng (APEGGA), BSc (UofA), MSc (UofA), PhD (UofC); Senior Instructor (Mechanical & Manufacturing Eng)
Johnston, D.E.B.; BA (Hons) (MUN), MA (UofC), PhD (UofC); Instructor (Communication & Culture)
Johnston, D.W.; BA (UofC), MA (UofC); Adjunct Lecturer (Paediatrics)
Johnston, J.A.; BA (AC), MSc (PSU), PhD (PSU); Assistant Professor - Medicine (Faculty of Kinesiology)
Johnston, K.D.; MD (UofA), BSc(Hons) (UofC); Clinical Lecturer (Surgery)
Johnston, R.N.; PhD (Stanford), BSc (UVIC); Professor - Medicine (Biochem & Molecular Biology), Professor - Medicine (Oncology)
Johnston, R.V.; MDCM; Clinical Associate Professor (Family Medicine)
Jones, A.R.; ABIM, FACP, FRCP, LMCC, BSc (McGill), MD/CHM (McGill); Professor - Medicine (Department of Medicine), Professor - Medicine (Oncology)
Jones, C.A.; FRCP, BSc (McGill), MD (McGill), MD (UofC); Associate Professor - Medicine (Community Health Sciences), Associate Professor - Medicine (Department of Medicine)
Jones, D.C.; EdID (UBC), MEd (UBC), BEd (UVIC); Professor (Faculty of Education)
Jones, L.K.; CCFP, BSc(Hons) (UofA), MD (UofC); Clinical Assistant Professor (Family Medicine)
Jones, M.P.; BSc (UofC), MD/Des (UofC), Adjunct Assistant Professor (Environmental Design)
Jones, S.H.; CA, BSc (Wales), PhD (Wales); Associate Professor (Haskayne School of Business)
Jones, V.J.; BA (UBC), MBA (UBC), PhD (UBC); Professor (Haskayne School of Business), Assoc Dean (Grad Programs) (Haskayne School of Business)
Jordan, W.S.; AM, PhD (FSU), BMus (UGA); Professor (Department of Music), Department Head (Department of Music)
Jorge, J.A.P.; BSEE, MSc (RPI), PhD (RPI); Adjunct Associate Professor (Computer Science)
Jorgensen, G.S.; MD; Clinical Lecturer (Family Medicine)
Jose, T.A.; MA (Ateneo), BSc (UST), PhD (UofA); Adjunct Associate Professor (Psychology)
Joseph, C.; Diploma, MA (Gandhi), BA (Kerala), MA (UOF), PhD (York); Associate Professor (Department of English)
Joseph, J.T.; MD (Harvard), PhD (Harvard), BSc (UNH); Professor - Medicine (Clinical Neurosciences), Professor - Medicine (Pathology & Laboratory Med)
Joughin, K.E.; BSc, FRSCC, MD, MSc, PhD (UQ); Clinical Associate Professor (Surgery)
Joughin, V.E.; FRCP, BSc (UofS), MD (UofS); Clinical Assistant Professor (Surgery)
Joy, M.; PhD (McGill), MA (Ottawa), BA (USYD), DEdPostGrad (USYD); Professor (Dept of Religious Studies), University Professor (Dept of Religious Studies)
Jubas, K.; MEd (UBC), BA (York), MEd (York); Assistant Professor (Faculty of Education)
Jun, H.S.; BSc (Chosun), MSc (Chosun), PhD (Chosun); Adjunct Assistant Professor (Microbiology & Infect Disease)
Jung, M.A.; MD; Clinical Assistant Professor (Cardiac Science)
Juzwishin, D.; BA (UofA), MA (UofA); Adjunct Associate Professor (Community Health Sciences)

K
Kalaydjian, E.; BSc (Concordia), DDS (McGill); Clinical Associate Professor (Surgery)
Kaler, K.V.I.; PEng (APEGGA), BSc(Hons) (Wales), PhD (Wales); Professor (Electrical & Computer Eng)
Kallos, M.S.; BSc (UofC), PhD (UofC); Associate Professor (Chemical & Petroleum Eng)
Kainy, M.T.; Clinical Assistant Professor (Paediatrics)
Kamaludeen, M.S.; MRCP, MD (UNOM); Clinical (Paediatrics)
Kanani, R.S.; ABIM, FRCPC, MD (McMaster), BSc(Hons) (UofA); Clinical Assistant Professor (Cardiac Science)
Kanashiro, J.; FRCSC, MD; Clinical Assistant Professor (Surgery)
Kanani, R.S.; ABIM, FRCPC, MD (McMaster), BSc(Hons) (UofA); Clinical Assistant Professor (Cardiac Science)
Kanta, A.; FEng (APEGGA), DEng (AUTH), MASC (Waterloo), PhD (Waterloo); Professor (Chemical & Petroleum Eng), Tier II CRC-Energy & Imaging (Chemical & Petroleum Eng)

Kao, C.P.; BSc, FRCP, MD; Clinical Assistant Professor (Paediatrics)

Kaplan, B.J.; MA (Brandheis), PhD (Brandheis), BA (UC); Adjunct Professor (Psychology), Professor - Medicine (Community Health Sciences), Professor - Medicine (Paediatrics)

Kaplan, G.; MPH (Harvard), BSc (McMaster), MD (UofC); Assistant Professor - Medicine (Paediatrics)

Kapoor, M.; BSc (Delhi), MSc (Delhi), PhD (UofM); Adjunct Professor (Biological Sciences)

Kapur, P.; Cert, BA (UCL); Instructor (U of C Qatar Campus)

Kargacin, G.J.; BSc (MSU), MSc (MSU), PhD (UW); Professor - Medicine (Paediatrics)

Karim, G.A.; FEng (APEGGA), BSc(Hons) (Durham), Diploma (ICSTM), BSc (UofLondon), PhD (UofLondon); Professor (Mechanical & Manufacturing Eng)

Kassab, J.; FRSC, MD; Clinical Lecturer (Surgery)

Kassam, K.A.; MPhil (Cambridge), MSc (LSE), BA (UofC); Adjunct Associate Professor (Physiology & Biophysics)

Kastelic, J.P.; DACT, MSc (UW-Madison), PhD (UW-Madison), DVM (UofS); Adjunct Professor (Production Animal Health)

Kattan, L.; BEng (AUB), MSc(Eng) (AUB), PhD (UofC); Assistant Professor (Civil Engineering)

Katz, L.; BSc (UofC), MSc (UofC), PhD (UofC); Professor (Faculty of Kinesiology)

Katzenberg, M.A.; BA (UC), MA (UC), PhD (UofT); Professor (Archaeology), University Professor (Archaeology)

Kauffman, S.A.; BA (Dartmouth), BA (Oxford), MD (UC); Adjunct Professor (Department of Philosophy), Professor (Biological Sciences), ICORE Chair (Biocomplexity Infrntc (Biological Sciences), Professor (Physics & Astronomy)

Kaur, D.R.; BSc, BSc, FRCP, MD, Clinical Assistant Professor (Radiology)

Kavanagh, K.M.; Cert (ABIM), LMCC (MCC), BMSc (MUN), BSc (MUN), MD (MUN), Cert (RCPCSC); Associate Professor - Medicine (Department of Medicine), Associate Professor - Medicine (Cardiac Science)

Kawallak, C.; BGS (AU), Med (UofC), PhD (UofC); Assistant Professor (Faculty of Education), Asst Dean (International) (Faculty of Education)

Kawamura, L.S.; BA, MA (Kyoto), MA (RU), PhD (UofS); Professor (Dept of Religious Studies), Numata Chair, Buddhist Studies (Dept of Religious Studies)

Kawash, J.Y.; BSc (AUB), MSc (BUC), PhD (UofC), Instructor (Computer Science)

Kawchuk, G.N.; BSc (UofC), MSc (UofC), PhD (UofC); Adjunct Assistant Professor (Cell Biology & Anatomy), Adjunct Assistant Professor (Faculty of Kinesiology)

Kay, I.; MCCPM (CCPM), PhD (UofC), BSc (UofT), MSc (UofT); Assistant Professor - Medicine (Oncology)

Kazmi, A.A.; MA (Dalhousie), PhD (MIT), BA (PU), MA (Panjab); Associate Professor (Department of Philosophy), Department Head (Department of Philosophy)

Keay, B.A.; BSc(Hons) (Waterloo), PhD (Waterloo); Professor (Chemistry), Department Head (Chemistry)

Keegan, D.A.; SpecCompe, CCFP (CFPC), BMSc (MUN), MD (MUN); Associate Professor - Medicine (Family Medicine)

Keeler, J.F.; MA (Stanford), PhD (Stanford), BA (Hons) (UofM); Associate Professor (Political Science)

Keenan, T.P.; MSc (CIPS), BA (Columbia), EdD (Columbia), MA (Columbia), MSc (Columbia); Adjunct Professor (Computer Science), Professor (Environmental Design)

Keith, D.W.; PhD (MIT), BSc (UofT); Professor (Chemical & Petroleum Eng), Tier I CRC-Energy&Environment (Chemical & Petroleum Eng), Adjunct Professor (Environmental Design)

Kellner, B.L.; BSc(Nur), FRCP, MD, MSc, Clinical Associate Professor (Department of Medicine), Clinical Associate Professor (Paediatrics)

Kellner, J.D.; LMCC (MCC), FRCP (RCPCSC), BSc (UofA), MD (UofC), MSc (UofT); Professor - Medicine (Community Health Sciences), Professor - Medicine (Microbiology & Infect Disease), Professor - Medicine (Paediatrics), Department Head (Paediatrics)

Kelly, B.R.; MBBS, Clinical Assistant Professor (Paediatrics)

Kelly, M.M.; FCPath(SA), FRCP, LRCSE, LRCSPG, PhD (McMaster), MB BS (Zimbabwe); Assistant Professor - Medicine (Pathology & Laboratory Med), Assistant Professor - Medicine (Physiology & Biophysics)

Kelly, R.W.; Med (UVIC), BA (UWO), BEd (UWO); Associate Professor (Department of Art)

Kennedy, C.A.; BA (MUN), MSc (MUN), Cert (Oxford), MSc (Oxford), PhD (Oxford); Research Assistant Professor (Community Health Sciences)

Kennedy, R.J.; MD, Clinical Assistant Professor (Department of Medicine)

Kelly, B.G.; BASc (Queen’s), PhD (UofC), MASC (Waterloo); Adjunct Assistant Professor (Haskayne School of Business)

Kent, D.A.; BMSc, BSc, FRCP, MD, Clinical Assistant Professor (Anaesthesia)

Keough, N.G.; BEng (MUN), MSc (UofC), PhD (UofC); Assistant Professor (Environmental Design)

Keown, L.A.; BA (UofC), MA (UofC), PhD (UofC); Adjunct Assistant Professor (Sociology)

Khera, M.; BMSc, BSc (Ottawa), MSc (UofT); Clinical Assistant Professor (Oncology)

Keren, M.; BA (HUJ), PhD (UM); Professor (Communication & Culture), Tier I CRC-Comm/Cult/Civil Soc (Communication & Culture), Professor (Political Science), Tier I CRC-Comm/Cult/Civil Soc (Political Science)

Keren, S.; BA (HUJ), PrTeachCt (HUJ), MA (UM), PhD (UM); Associate Professor (History)

Kerzner, A.E.; AM (Harvard), PhD (Harvard), BA (UofT); Professor (Department of English), Assoc Dean (Faculty of Graduate Studies)

Kertzer, A.E.; AM (Harvard), PhD (Harvard), BA (UofT); Professor (Department of English), Assoc Dean (Faculty of Graduate Studies)

Khalifa, M.N.; FRCP, MB BS, MSc; Clinical Assistant Professor (Pathology & Laboratory Med)

Khan, A.; FRCP, MD (Queen’s), BSc (UofT), MSc (UofT); Assistant Professor - Medicine (Medical Genetics), Assistant Professor - Medicine (Paediatrics)

Khan, L.; BSc (Karachi), DCH (Karachi), MBBS (Karachi); Adjunct Assistant Professor (Faculty of Medicine)

Khan, R.F.; Diploma, PhD (McMaster), BSc (PU), MSc (PU), MSc (QA); Adjunct Assistant Professor (Physics & Astronomy), Assistant Professor - Medicine (Oncology)

Khan, S.A.; MB BS, MD; Clinical Lecturer (Psychiatry)

Khour, T.I.; CEng, MIOM, BSc(Hons) (Brunel), PhD (Cambridge); Professor (Mechanical & Manufacturing Eng)

Kherani, A.; FRCP, BMSc (UofA), MD (UofA); Clinical Assistant Professor (Surgery)

Kherani, F.; FRCP, BSc (UofA), MD (UofA); Clinical Assistant Professor (Surgery)

Khoja, S.R.A.; MBBS (AKU), MSc (UofC), PhD (UofC); Adjunct Assistant Professor (Community Health Sciences)

Khour, M.; BA (Hons) (Carleton), MA (Carleton), PhD (McGill), BA (Hons) (York); Associate Professor (Communication & Culture)

Kidd, W.T.; MD, Clinical Assistant Professor (Cardiac Science), Clinical Assistant Professor (Surgery)

Kiddle, C.E.; BSc (UofC), PhD (UofC); Adjunct Assistant Professor (Computer Science)

Kiefen, G.N.; MD; Clinical Associate Professor (Surgery)

Kilb, B.L.; BPE (UofA), MA (UofA); Senior Instructor (Faculty of Kinesiology)

Kim, H.M.; MSc (Carleton), PhD (Carleton), BSc (SWU), MSc (SWU); Assistant Professor (Mathematics & Statistics)

Kim, J.W.; PhD (OSU), BSc (Yonsei), MSc (Yonsei); Associate Professor (Geomatics Engineering)

Kime, M.; MA (SIT), BA (UofC); Instructor (Faculty of Education)
Kim, S.; PhD (Dalhousie), BSc (UofA), MSc (McGill); Assistant Professor - Medicine (Biochem & Molecular Biology), Tier II CRC in Cancer (Biochem & Molecular Biology), Assistant Professor - Medicine (Clinical Neurosciences)

Kinch, J.L.; PhD (McMaster), MSN (D’Youville), RN (UBC), BSc(Nurs) (McMaster), Diploma (WGHSN); Assistant Professor (Faculty of Nursing)

King, K.M.; BSc(Nurs) (McMaster), MN (UofA), PhD (UofA); Professor (Faculty of Nursing)

King, M.C.; BA (Delaware), PhD (McGill); Adjunct Professor (Psychology), Adjunct Associate Professor (Faculty of Medicine)

King-Talley, C.; MSN (MGIHH), BA (Vassar); Senior Instructor (Faculty of Nursing)

Kinnear, S.E.; FRCP, BSc MD (UofM), MD (UofM), BSc (UofW); Clinical Lecturer (Department of Medicine)

Kinniburgh, D.; BSc, MSc, PhD; Adjunct Associate Professor (Pharmacology & Therapeutics)

Kirby, A.S.; FRCP, MSc (Harvard), BSc (UofT), MD (UofT); Clinical Associate Professor (Critical Care Medicine)

Kirch, V.G.; FRCP, Diploma (BCIT), MD (UofC); Associate Professor - Medicine (Paediatrics)

Kirk, G.E.M.; FRCS, MD; Clinical Associate Professor (Surgery)

Kirkpatrick, A.W.; DABS, FACS, FRCP, MD (Ottawa), MSc(UBC), Cert (UofT); Associate Professor - Medicine (Critical Care Medicine), Associate Professor - Medicine (Surgery)

Kerton, C.A.; FRCP, BSc(Hons) (Queen’s), MD (Queen’s), MSc (UofC), Cert (UofT); Assistant Professor - Medicine (Clinical Neurosciences), Assistant Professor - Medicine (Paediatrics)

Kish, M.Y.; MD; Clinical Lecturer (Family Medicine)

Kiss, Z.; FRCP, MD (Ottawa), PhD (UofT); Associate Professor - Medicine (Clinical Neurosciences)

Klassen, B.D.; FRCP, BSc (UofS), MD (UofS), MSc (UofS); Clinical Assistant Professor (Clinical Neurosciences)

Klassen, J.; DNBNM, FRCP, Cert (CPSC), BSc (UofM), MD (UofM); Professor - Medicine (Department of Medicine), Professor - Medicine (Pathology & Laboratory Med)

Kleffner, A.E.; BBA (Creighton), MA (PENN), PhD (PENN); Associate Professor (Haskayne School of Business)

Klein, E.; BSc (McGill), MSc (McGill), PhD (RU), MA (Stanford); Professor (Haskayne School of Business)

Klein, G.M.K.; FRCP, BA (Hons) (Oxford), MA (Oxford), MB BS (UofLondon); Clinical Associate Professor (Clinical Neurosciences)

Kline, D.W.; MA (USC), PhD (USC), BA (UofC); Professor (Psychology), Professor - Medicine (Surgery)

Kline, G.A.; FRCP, LMCC, MD (UWO); Clinical Assistant Professor (Department of Medicine)

Kline, T.J.B.; BSc (UWoshkosh), MSc (UofC), PhD (UofC); Professor (Psychology)

Klotetzl, M.J.; BA (Swarthmore), MFA (UCR), MA (UM); Associate Professor (Program of Dance)

Kloiber, R.; MB BS; Clinical Professor (Radiology)

Klukas, R.W.; Peng (APEGGA), Diploma (SAIT), BSc (UofC), MSc(Eng) (UofC), PhD (UofC); Adjunct Assistant Professor (Geomatics Engineering)

Klym, K.A.; BMSc, BSc, FRCP; Clinical Assistant Professor (Paediatrics)

Kneebone, R.D.; BA (Hons) (McMaster), MA (McMaster), PhD (McMaster); Professor (Economics)

Knoll, P.J.; LLB (Dalhousie); Professor (Faculty of Law)

Knopf, R.; BA (Hons) (McMaster), MA (UofT), PhD (UofT); Professor (Political Science)

Knowles, N.J.; MA (Queen’s), BA (Hons) (UWO), PhD (York); Adjunct Assistant Professor (History)

Knudsen, D.J.; PhD (Cornell), BSc (ISU); Associate Professor (Physics & Astronomy)

Knudtson, M.L.; FRCP, BSc (UofA), MD (UofC), Professor - Medicine (Department of Medicine), Professor - Medicine (Cardiac Science)

Kodeeswaran, T.; FRCP, BSc (McMaster), MD (McMaster), Clinical Assistant Professor (Paediatrics)

Koehler, P.A.; CCFP, MD (UofA), BEd (UofT), BSc (UofL), Clinical Assistant Professor (Family Medicine)

Kohlhammer, M.; MSA (CMU), Conversion (Conversion), BSc(Nur) (UofS); Clinical Associate (Faculty of Nursing)

Kohl, J.; FRCP, BSc (UofC), MSc (UofC), MD (UofC); Clinical Assistant Professor (Neurosciences)

Kolacevic, B.R.; MABPath, MDS (Harvard), PhD (Harvard); Associate Professor (Environmental Design), Haworth Chair, Integ Design (Environmental Design)

Kolb, J.C.; PhD (DSK), MA (UofC), BA (USC); Associate Professor (Faculty of Kinesiology)

Koles, S.L.; BSc(Hons) (Queen’s), MSc (UofA), MD (UofC), Clinical Assistant Professor (Radiology)

Koltunsky, L.; MALS (UofA), BEd (UofC), Associate Librarian (Libraries & Cultural Resources)

Konert, C.A.; BA (Hons) (SFU), MA (USC), PhD (UofC); Associate Professor (Psychology)

Konnert, M.W.; BA (UofC), MA (UofC), Professor (History)

Konrad, N.A.; BA (UofC), MA (UofC); Instructor (French Italian & Spanish)

Kooistra, L.; BA (RUG), MA (RUG), PhD (Dutch); Adjunct Associate Professor (Clinical Neurosciences)

Koopmans, H.S.; BA (Harvard), PhD (UC); Professor - Medicine (Physiology & Biophysics)

Koot, D.; BSc (UVIC); Instructor (History)

Koyouman, B.P.; PhD (Otago), BA (Hons) (UofC), MA (UofC), Professor (Archaeology), Department Head (Archaeology)

Kopciuk, K.A.; BSc(Hons) (UofC), MMath (Waterloo), PhD (Waterloo); Adjunct Associate Professor (Oncology)

Kopp, G.D.; BEd (UofC), MSc (UofC), BSc (UofC); Assistant Professor (Faculty of Education)

Korley, R.E.; BSc (McGill), MD (McGill), Clinical Lecturer (Surgery)

Korbee, J.B.; FRCP, BSc (UofA), MD (UofA); Professor - Medicine (Critical Care Medicine), Professor - Medicine (Surgery), Department Head (Surgery)

Korzieniewski, P.A.; MD; Clinical Assistant Professor (Anesthesiology)

Koshan, J.S.; LL.M (UBC), BSc (UofC), LLB (UofC); Associate Professor (Faculty of Law)

Koslowsky, I.L.; MSc (UofA), BSc (UofT); Adjunct Assistant Professor (Radiology)

Kostash, M.A.; BSc (UofA), MD (UofA); Clinical Associate Professor (Anaesthesia)

Kostyniuk, R.P.; MFA (UW-Milwaukee), MS (UW-Milwaukee), BA (UofS), BEd (UofS); Professor (Department of Art)

Kothandaraman, M.; BSc, MD; Clinical Assistant Professor (Department of Medicine)

Kowal, E.G.; BSc, FRSC, MD; Clinical Lecturer (Surgery)

Kraay, H.; PhD (Texas), BA (UofT), MA (UofT); Associate Professor (History)

Kraft, S.; FRCP, MD, MSc (MUN), BSc (UofS); Clinical Assistant Professor (Clinical Neurosciences)

Khan, J.L.; BComm (UofC), PhD (UofC); Assistant Professor (Haskayne School of Business)

Kramer, A.H.; DABIM, FRCP, MSc (UVA), MD (UofM), BSc (UofW); Clinical Assistant Professor (Clinical Neurosciences), Clinical Assistant Professor (Critical Care Medicine)

Krause, F.F.; BSc (KU), MSc(H) (KU), PhD (UofC); Professor (Department of Geosciences)

Krause, R.D.; BSc(Hons) (UofA), MSc (UofA), PhD (UofA); Adjunct Assistant Professor (Pathology & Laboratory Med)

Krause, V.S.; BSc(Hons), FRCP, MD; Clinical Assistant Professor (Oncology)

Krebs, E.S.; MSc (UBC), BSc (UofA), PhD (UofA), Assoc Dean (Research & Acad) (Faculty of Science), Professor (Department of Geosciences)

Krebs, G.D.; DVM (UofS); Instructor (Vet Clinical & Diagnostic Scie)

Kreitner, L.M.; BSc (MSCD), MSw (UofC), PhD (UofC), Cert (UofLondon); Assistant Professor (Faculty of Social Work)

Kremmer, R.C.; BSc (UofC), MSc (UofC), PhD (UofC), Associate Professor (Computer Science)

Krenz, R.A.; Peng (APEGGA), BSc (UofC), Phd (UofC); Assistant Professor (Chemical & Petroleum Eng)
Kreutl, D.W.S.; CCFP (CFPC), FELLOW (CFPC), LMCC (MCC), MD (UofA), BA (UofS), BSc (UofS); Associate Professor - Medicine (Family Medicine)

Krishnamurthy, D.; MEng (Carleton), PhD (Carleton), BEng (MKU); Assistant Professor (Electronic & Computer Eng)

Kroll, I.T.; FRCPC, MD; Clinical Associate Professor (Psychiatry)

Kubik, S.J.M.; MD; Clinical Lecturer (Family Medicine)

Kuhn, S.M.; FRCPC, LMCC, BMSc (UofA), MD (UofA), MSc (UofC); Associate Professor - Medicine (Department of Medicine), Associate Professor - Medicine (Paediatrics)

Kuhnel, B.; PhD (ISREC); Adjunct Professor (Biochem & Molecular Biology)

Kulaga, A.; FRCPC, MD; Clinical Assistant Professor (Pathology & Laboratory Med)

Kulchitsky, J.D.; BComm (UofA), PhD (UofA), Assistant Professor (Haskayne School of Business)

Kurien, E.C.; BSc(Hons), FRCPC, MBBS; Clinical Assistant Professor (Electrical & Computer Eng)

Kurwa, H.A.; FRCPC, MBBS; Clinical Associate Professor (Department of Medicine), Clinical Associate Professor (Oncology), Clinical Associate Professor (Surgery)

Kurz, E.U.; BSc (Queen’s), PhD (Queen’s); Assistant Professor - Medicine (Pharmacology & Therapeutics)

Kusalk, P.G.; MSc (UBC), PhD (UBC), BSc (UofL); Professor (Chemistry)

Kutz, S.J.; DVM (UofS), PhD (UofS); Adjunct Associate Professor (Biological Sciences), Associate Professor (Ecosystem & Public Health)

Kwak, D.Y.H.; MEng (UofT), BEng (UofT); Clinical Assistant Professor (Department of Medicine)

Kwan, S.; MD; Clinical Assistant Professor (Anaesthesia)

Lachapelle, G.L.; ALS, PEng (APEGA), LH (Helsinki), BSc (Laval), MSc (Oxford), PhD (Uni-Graz); Professor (Geomatics Engineering), Tier I CRC-Geomatics Engineering, Tier II CRC-Geomatics Engineering, iCORE Rsrch Chair (Geomatics Engineering)

Lambert, T.W.; MSc (UofA), PhD (UofA), BEng (UofC), PhD (UofC); Associate Professor (Paediatrics)

Lamoureux, H.J.H.; CMed, JUDGE, MFC, LLB (UofA); Adjunct Assistant Professor (Community Health Sciences)

Lamoureux, M.P.; MD (Montreal), BSc (UofC); Adjunct Assistant Professor (Clinical Neurosciences)

Lanctot, A.; MSc (UofC), PhD (UofC); Assistant Professor (Clinical Neurosciences)

Lancaster, P.; FRSC, PhD (NUS), BSc (ULiverpool), MSc (ULiverpool); Faculty Professor (Mathematics & Statistics)

Landwehr, R.; Dip Nurs P, Cert (UBC), MAS (UBC), BSc(Hons) (UofC); Assistant Archivist (Libraries & Cultural Resources)

Lane, A.M.; MD (UofT), BSc (UofT); Assistant Professor (Family Medicine)

Lau, D.C.; ABIM, FRCP, LMCC, BSc (UofT), MD (UofT), PhD (UofT); Professor - Medicine (Biochem & Molecular Biology), Professor - Medicine (Family Medicine)

Lau, H.Y.; FRCP, MD; Clinical Associate Professor (Oncology)

KREUTL, D.W.S.; CCFP (CFPC), FELLOW (CFPC), LMCC (MCC), MD (UofA), BA (UofS), BSc (UofS); Associate Professor - Medicine (Family Medicine)

KREUTL, D.W.S.; CCFP (CFPC), FELLOW (CFPC), LMCC (MCC), MD (UofA), BA (UofS), BSc (UofS); Associate Professor - Medicine (Family Medicine)

Krsnacag, D.; MSc (UBC), BSc (UofL); Professor (Chemistry)

Kutz, S.J.; DVM (UofS), PhD (UofS); Adjunct Associate Professor (Biological Sciences), Associate Professor (Ecosystem & Public Health)

Kwak, D.Y.H.; MEng (UofT), BEng (UofT); Clinical Assistant Professor (Department of Medicine)

Kwan, S.; MD; Clinical Assistant Professor (Anaesthesia)
MacLaurin, B.J.; BSW (UofC), MSW (UofC), BA (UofO); Assistant Professor (Faculty of Social Work)

MacLean, A.R.; FRCP, BSc (Dalhousie), MD (Dalhousie), Cert (UofT); Clinical Associate Professor (Surgery)

MacLean, C.; CCFP, FCCPM, BSc (Dalhousie), MD (Dalhousie), MBA (SMU), MSc (UWO); Professor - Medicine (Family Medicine), Department Head (Family Medicine)

MacLeod, D.B.; MD, Clinical Associate Professor (Family Medicine)

MacMillan, C.; FRCPC, MD (UofA), MD (UofA); Associate Professor - Medicine (Psychology), Adjunct Assistant Professor (Archaeology)

Magliocco, A.M.; FCAP, FRCPC, MD (UofA), BSc (UofT), Associate Professor - Medicine (Oncology), Associate Professor - Medicine (Pathology & Laboratory Med)

Mahal, F.; APAG, FRCPC, MD (UofA), MD (UofA); Associate Professor - Medicine (Paediatrics)

Makhlouf, H.; BSc, FRCPC, MD (Dalhousie), MD (Dalhousie), Cert (UofT); Clinical Associate Professor (Surgery)

Macleod, T.R.; DNEd, BN (UofC), Pathophysiology (Biochem & Biology), Tier II CRC-Medicine (Biochem & Molecular Biology), Assistant Professor - Medicine (Biochem & Molecular Biology), Professor - Medicine (Medical Genetics)

MacDonald, I.M.; MA (QMUL), BA (UofC), PhD (UofC); Adjunct Assistant Professor - Medicine (Psychology), Adjunct Assistant Professor (Department of English)

MacDonald, D.L.; MA (QMUL), BA (UofT), PhD (UofT); Associate Professor - Medicine (Surgery)

MacKinnon, J.A.; MD; Clinical Assistant Professor (Surgery)

MacKay, T.J.; BSc, FRCPC, MD; Clinical Assistant Professor (Psychiatry)

MacKenzie, J.R.; FRCP, BSc (UofA), MD (UofA); Clinical Lecturer (Surgery)

MacKinnon, J.A.; MD, Clinical Assistant Professor (Oncology)

MacLaurin, B.J.; BSW (UofC), MSW (UofC), BA (UofO); Assistant Professor (Faculty of Social Work)

MacLean, A.R.; FRCP, BSc (Dalhousie), MD (Dalhousie), Cert (UofT); Clinical Associate Professor (Surgery)

MacLean, C.; CCFP, FCCPM, BSc (Dalhousie), MD (Dalhousie), MBA (SMU), MSc (UWO); Professor - Medicine (Family Medicine), Department Head (Family Medicine)

MacLeod, D.B.; MD, Clinical Associate Professor (Family Medicine)

MacMillan, D.; BSc (Dalhousie), MLS (Dalhousie); Associate Librarian (Libraries & Cultural Resources)

MacMillan, K.R.; PhD (McMaster), BA (Hons) (Nipissing), MA (Queen’s); Associate Professor (History)

MacMillan, M.G.M.; PhD (NUL), RN (SSMN), BA (Hons) (UofO), MA (UofO); Associate Professor (Political Science)

Macnab, C.J.B.; PEng (APEGGA), BEng (RMC), PhD (UofT); Assistant Professor (Electrical & Computer Eng)

MacNaughton, W.K.; BSc (Queen’s), MSc (Queen’s), PhD (Queen’s); Professor - Medicine (Physiology & Biophysics)

MacNeil, C.; FRCP (MD) (Dalhousie), BSc (UNB); Assistant Professor (Paediatrics)

MacPherson, J.; FRCP, MD; Clinical Assistant Professor (Paediatrics)

MacQueen, G.M.; FRCP, BSc(Hons) (MTA), MD (McMaster), PhD (McMaster); Professor - Medicine (Psychiatry), Department Head (Psychiatry)

Macleod, J.F.; BSc(Hons) (UofC), PhD (UofC); Adjunct Assistant Professor (Psychology)

MacPherson, J.; FRCP, MD; Clinical Assistant Professor (Paediatrics)

MacRae, J.M.; MCIP, BSc (McGill), FRCP(C) (UBC), MD (UofC), MSc (UofC); Assistant Professor - Medicine (Department of Medicine), Assistant Professor - Medicine (Cardiac Science)

MacRae, M.E.; FRCP, BPE (UofT), MD (UofT); Clinical Associate Professor (Clinical Neurosciences)

MacRae, M.E.; FRCP, BPE (UofT), MD (UofT); Clinical Associate Professor (Clinical Neurosciences)

MacRae, M.E.; FRCP, BPE (UofT), MD (UofT); Clinical Associate Professor (Clinical Neurosciences)

Mahoney, M.A.; BSc (Dalhousie), MSc (UofC), PhD (UofC); Adjunct Assistant Professor (Psychology)

Mahoney, H.; MSc (UO), Cert (UofA), BPE (UofM); Associate Professor (Faculty of Education)
Meyer, R.O.; BA (Lawrence), MSSG (MSU), PhD (UofC); Senior Instructor (Department of Geoscience)

Michaud, G.F.; DEA (AixMarseille), BA (Laval), MA (Laval), PhD (Laval); Associate Professor (History)

Midgley, J.P.; BA (Hons) (Cambridge), MA (Cambridge), MB BS (Oxford), DCH (RCP), MRCP (RCP), Cert (UofT); Associate Professor - Medicine (Department of Medicine), Associate Professor - Medicine (Paediatrics)

Midha, R.; FRCP, MD (UofT), MSc(Adm) (UofT); Professor - Medicine (Clinical Neurosciences)

Miettunen, P.M.H.; FAAP (AAP), FRCPC (Dalhousie), MD (McMaster), FRCPC (UBC), BA (UofT); Assistant Professor - Medicine (Paediatrics)

Migotti, M.H.; BA (Hons) (Queen’s), MPhil (Warwick), PhD (Yale); Associate Professor (Department of Philosophy)

Mihalicz, P.A.; BSc, FRCPC, MD; Clinical Assistant Professor (Paediatrics)

Mikaelian, E.A.; Adjunct Professor (Comar Biol & Experin Medicine)

Mildward, H.B.; MA (OSU), PhD (OSU), BA (UK); Adjunct Professor (Faculty of Social Work)

Miles, J.J.; CPSYCHOL, MSc (UC), BSc (UNE), PhD (UofC); Sr Counsellor (Professorial) (Student and Enrolment Services)

Millar, K.; FRCPC, MD (UWO), BSc (UofT); Assistant Professor - Medicine (Paediatrics)

Miller, B.A.; MA (ASU), Cert (InternDiR), BSc (PSU), Cert (SprachFrei), PhD (UM); Associate Professor (Geography), Adjunct Associate Professor (Environmental Design)

Miller, J.; PEng (APEGGA), BSc (Strathclyd), PhD (Strathclyd); Adjunct (Electrical & Computer Eng)

Miller, L.J.; BA (Carleton), MA (Carleton), PhD (York); Associate Professor (Sociology)

Miller, S.D.; BSc, FRCSC, MD; Clinical Associate Professor (Surgery)

Milone, E.F.; BA (Columbia), MSc (Yale), PhD (Yale); Faculty Professor (Physics & Astronomy)

Milton, L.P.; PhD (Texas), BSc(Hons) (UofA), MSc (UofA), MBA (UofC); Associate Professor (Haskayne School of Business)

Mintchev, M.P.; PEng, BSc (TU-Sofia), MSc (TU-Sofia), PhD (UofA); Professor (Electrical & Computer Eng), Adjunct Professor (Physiology & Biophysics)

Mintz, M.J.; FRCPC, BSc(Hons) (Concordia), MD (UofC), Diploma (Vanier); Clinical Assistant Professor (Department of Medicine)

Mish, J.; CCFP (UofC), MD (UofC); Clinical Lecturer (Family Medicine)

Mitchell, D.B.; PhD (McGill), MA (UBC), BA (Uvic); Professor (Communication & Culture), Assoc Dean (Research) (Communication & Culture)

Mitchell, I.; DCH, FRCPC, MRCP, MB BS (Edinburgh), MA (MedColMod); Professor - Medicine (Paediatrics)

Mitchell, J.R.; PhD (UWO), BSc (UofR), MSc (UofR); Associate Professor - Medicine (Clinical Neurosciences), Associate Professor - Medicine (Radiology)

Mitchell, K.S.; MD; Clinical Assistant Professor (Paediatrics)

Mitchell, L.B.; FRCPC, BSc (UofC), MD (UofC); Professor - Medicine (Department of Medicine), Professor - Medicine (Cardiac Science), Department Head (Cardiac Science)

Mitchell, P.C.; MD; Clinical Assistant Professor (Surgery)

Mitchell, R.J.; FRCPC, MD (UofA); Clinical Assistant Professor (Surgery)

Mitchell, V.L.; BSc (FSU), MBA (FSU), PhD (FSU), BSc (OU); Associate Professor (Haskayne School of Business)

Miyachi, D.K.; FRCPC, MD (UofA); Clinical Professor (Psychiatry)

Mladenova, O.M.; PhD (BAS), BA (Bucharest); Associate Professor (Germanic Slavic East Asian St)

Moazzan-Ahmedi, N.; BSc (Ferdowsi), MSc (UNT), PhD (UNT); Professor (Physics & Astronomy)

Mochrie, R.W.; License (UMCS); Instructor (Program of Dance)

Mocquais, P.A.; DEA (UFC), DEUG (UFC), MEIL (UFC), PhD (UWO); Professor (French Italian & Spanish)

Moody, C.H.; ABIM, FRCPC, LMCC, MD (Queen’s); Professor - Medicine (Department of Medicine), Professor - Medicine (Microbiology & Infect Disease)

Moehrensclager, A.; PhD (Oxford), BSc(Hons) (UofA); Adjunct (Biological Sciences)

Mohamed, A.; PEng (APEGGA), BSc(Eng) (Baghdad), MSc(Eng) (Baghdad), PhD (Purdue); Professor (Mechanical & Manufacturing Eng)

Mohamed Ismail, I.S.; CSN, FRCP, LMCC, MABP, MABPN, MBBS (Alexandria); Assistant Professor - Medicine (Clinical Neurosciences), Assistant Professor - Medicine (Paediatrics)

Mohdali, N.G.H.; FRCPC, LMCC, MSc (McMaster), MD (UofC); Clinical Professor (Surgery), Clinical Professor (Faculty of Kinesiology)

Mollin, R.A.; PhD (Queen’s), BA (Hons) (UWO), MA (UWO); Professor (Mathematics & Statistics)

Molnar, C.P.; MD; Clinical Assistant Professor (Radiology)

Mond, D.; BA (Carleton), BA (Hons) (Carleton); Associate Professor (Program of Dance)

Monroy Cuadros, F.M.; BS MD (CMRD), MB BS (CMRD), FELLOW (UofC); Assistant Professor - Medicine (Surgery)

Monteros, M.A.; MA (UCLA), BFA (Utah); Associate Professor (Program of Dance)

Montes Garces, E.; MA (KU), PhD (KU), BA (UPN); Associate Professor (French Italian & Spanish)

Monteyne, D.P.; BA (UBC), MA (UBC), PhD (UM); Assistant Professor (Environmental Design)

Montgomery, M.D.; FRCP, LMCC, BMSc (UofA), MD (UofA); Clinical Associate Professor (Paediatrics)

Moore, A.M.; MA (CGU), PhD (CGU), BA (Hons) (UofC), MA (UofC); Senior Instructor (Dept of Religious Studies)

Moore, M.C.; PhD (Cambridge), BSc (HSU), MSc (UCDavis); Professor (VP (Research & International))

Moore, M.H.; BSc (UofA), Med (UofA), PhD (UofA); Adjunct Assistant Professor (Faculty of Social Work)

Moore, R.A.; BSc, PhD; Adjunct Assistant Professor (Microbiology & Infect Disease)

Moore, R.D.; FRCPC, MSc(UofA), BSc(UofS), MD(UofS); Assistant Professor - Medicine (Surgery)

Moore, R.G.; PEng (APEGGA), BSc (UofA), PhD (UofA); Professor (Chemical & Petroleum Eng), University Professor (Chemical & Petroleum Eng)

Moore, The Hon., W.K.; BA (UofA), LLB (UofA); Clinical (Faculty of Law)

Moorehead, G.B.; BSc(Hons) (Queen’s), PhD (Queen’s); Professor (Biological Sciences)

Mooreni, V.; MD (Bombay); Clinical Assistant Professor (Radiology)

Moorman, B.J.; BSc (Carleton), PhD (Carleton), MSc (UofC), Professor (Department of Geoscience), Professor (Geography), Department Head (Geography)

Mork, D.W.; BSc (UofC), PhD (UofC), DVM (UofS); Professor (Biological Sciences), Professor (Compar Biol & Experin Medicine)

Morye Sorrentino, R.S.; BEd, MSc (UofC), PhD (UofC); Adjunct Assistant Professor (Faculty of Kinesiology)

Morgan, J.C.; FACP, FCCPM, FRCPC, MD (Queen’s); Clinical Assistant Professor (Cardiac Science)

Morrell, J.F.; PEng, BEng (Carleton), MSc (Waterloo), PhD (Waterloo); Adjunct Professor (Environmental Design)

Morris, D.G.; BSc(Hons) (Queen’s), MSc (Queen’s), PhD (Queen’s), FRCPC (UofC), MD (UofC); Associate Professor - Medicine (Department of Medicine), Associate Professor - Medicine (Oncology)

Morris, G.L.; BSc, FRCPC, MD, MSc; PhD; Clinical Assistant Professor (Department of Medicine)

Morris, R.D.; BSc, CCFP, MD; Clinical Lecturer (Family Medicine)

Morris, H.F.; MD; Clinical Professor (Radiology)

Morris, W.F.; BSc, FRCPD, MD, MOM; Clinical Assistant Professor (Clinical Neurosciences), Clinical Assistant Professor (Radiology)

Morrison, C.L.; BSc(Nur) (Dalhousie), DNEd (VicHospNur); Instructor (Faculty of Nursing)

Morrison, D.; CSPQ, DPS, MD; Clinical Associate Professor (Psychiatry)

Morrison, G.D.; BSc (BYU), MSc (UofC), PhD (UofC); Adjunct Professor (Computer Science)

Morrison, S.L.; CCFP, MD (UofC), BSc (Uvic), BSc(Hons) (Uvic); Clinical Assistant Professor (Family Medicine)

Morrow, L.H.L.; MLS (UofA), BA (York); Associate Professor (Psychology)

Morris, A.L.; MSc (York), PhD (York); Associate Professor (Philosophy)

Mort, I.L.; BSc (UofC), PhD (UofC); Adjunct Professor (Psychology)

Mortara, E.; BA (Columbia), MSc (Yale), PhD (Yale); Assistant Professor (Physics & Astronomy)

Morin, D.C.; FRCP, MSc, MD (UofC); Clinical Assistant Professor (Radiology)

Morin, J.; FRCP, MSc, MD (UofC); Clinical Assistant Professor (Radiology)

Mortis, G.P.; FRCPC, MD, BSc (UofC), Unknown (UofC); Clinical Assistant Professor (Department of Medicine)
ACADEMIC STAFF

Morton, F.L.; BA (CC), MA (UofT), PhD (UofT), Professor (Political Science)
Moscovitch, A.; BSc, FRCP, MD; Clinical Associate Professor (Psychiatry)
Moslow, T.F.; MSc (Duke), BSc (SOTON), PhD (USC), Adjunct Professor (Department of Geoscience)
Moss, M.; BEd (UofC), M.ED (UofC), Assistant Professor (Program of Dance)
Mothersill, K.J.; MA (UWO), PhD (UWO), BA (Hons) (Waterloo); Adjunct Associate Professor (Psychology)
Mouat, A.F.; BA (UBC), MFA (Utah); Associate Professor (Program of Dance)
Mouules, N.J.; Diploma (Foothills), BN (UofC), MN (UofC), PhD (UofC); Associate Professor (Faculty of Nursing)
Mourali, M.M.; BBA (Concordia), MSc(Adm) (Concordia), PhD (Concordia); Assistant Professor (Haskayne School of Business)
Moussavi, M.; PhD (ULouvian), Post Grad (ULouvian), MSc(Eng) (UofC), BSc (shirazu); Senior Instructor (Electrical & Computer Eng)
Mozol, V.J.; BSc (Uvic), MSc (UofA), PhD (UofC), Instructor (Chemistry)
Mrkonjic, L.A.; FRCPC, MSc (UWO), BSc(Hons) (UofA), MD (UofA); Clinical Assistant Professor (Community Health Sciences), Clinical Assistant Professor (Surgery)
Muelling, C.K.; MD (Freenie), DVM (Freie); Professor (Compar Biol & Experim Medicine), Assoc Dean, Curriculum (Compar Biol & Experim Medicine)
Muench, D.G.; PhD (UofA), BSc (UofS), MSc (UofS); Professor (Biological Sciences)
Muir, D.; Clinical Lecturer (Psychiatry)
Mulder, K.B.; BSc (UofA), MSc (UofA), PhD (UofA); Assistant Professor - Medicine (Cell Biology & Anatomy), Assistant Professor - Medicine (Surgery)
Muller, L.R.; PhD (UC), BSc (UofC), MDes (UofC); Assistant Professor (Environmental Design)
Mulroy, R.H.; FRCPC, LMCC, BSc (UBC), MD (UofC); Clinical Associate Professor (Surgery)
Mulvey, M.R.; BSc (UofM), PhD (UofM); Adjunct Associate Professor (Microbiology & Infect Disease), Adjunct Associate Professor (Pathology & Laboratory Med)
Mungan, N.; PEng, BA (Texas), BSc (Texas), MSc (Texas), PhD (Texas); Clinical (Chemical & Petroleum Eng)
Murdock, D.D.; PhD (McGill), BA (Hons) (UofG); Adjunct Professor (Psychology)
Murphy, J.E.; BA (Hons) (Carleton), Grad Dip (York), MA (York), MES (York), PhD (York); Assistant Professor (Anthropology)
Murphy, L.; CCFP, MB BS, Clinical Lecturer (Oncology)
Murphy, M.; FRCPC, LMCC, MB BS (SUN), MOM (SUN); Clinical Assistant Professor (Obstetrics & Gynecology)
Murray, W.F.; BA, FRCPC, MD; Clinical Associate Professor (Clinical Neurosciences)
Murray, A.J.; CCFP, MPH, MD (Ottawa), BA (Queen’s); Clinical Assistant Professor (Family Medicine), Clinical Assistant Professor (Oncology)
Murray, A.M.; PEng (APEGGA), PhD (QUnBelf), BSc (Wolverhamp); Adjunct Professor (Mechanical & Manufacturing Eng)
Murray, D.F.; BArch (UofT); Adjunct Assistant Professor (Environmental Design)
Murray, M.A.; Clinical Lecturer (Family Medicine)
Murray, R.W.; PhD (Munich), BA (SFU), MA (SFU); Professor (Linguistics)
Muruve, D.A.; FRCPC, BSc (UofM), MD (UofM); Associate Professor - Medicine (Department of Medicine)
Musacra, M.N.; MSc, PhD, BSc (UBA); Adjunct Assistant Professor (Pharmacology & Therapeutics)
Musiani, M.; LEcoBioHnr (Siena), PhD (UofC); Assistant Professor (Environmental Design)
Mustata, S.; MD (Bucharest), Diploma (UofLondon), FRCPC (UofT); Assistant Professor - Medicine (Department of Medicine), Assistant Professor (Faculty of Kinesiology)
Musto, R.J.; MD; Clinical Associate Professor (Community Health Sciences)
Mydlarski, R.P.; MD (UofC), DABD (UofT), FRCP (UofT), LMCC (UofT); Assistant Professor - Medicine (Medical Genetics), Assistant Professor - Medicine (Pathology & Laboratory Med), Assistant Professor - Medicine (Pathology & Laboratory Med)
Myers, R.P.; BSc (McMaster), FRCPC (RCPS), MD (UWO); Assistant Professor - Medicine (Department of Medicine)
Mythe, D.L.; CCFP, MD (UofA); Associate Professor - Medicine (Family Medicine), Assoc Dean (Dist Learn & RI) (Family Medicine)
Nagar, S.; BSc (UofC), MD (UofC); Adjunct Assistant Professor (Microbiology & Infect Disease)
Nakanishi, K.; BA (Kyoto), PhD (PENN); Assistant Professor (Linguistics)
Naldrett, D.L.; MSc (Ottawa), PhD (Ottawa), BSc(Hons) (Queen’s); Adjunct Assistant Professor (Geography)
Nandi, A.; Adjunct Professor (Electrical & Computer Eng)
Nanji, G.M.; ChB, MB; Clinical Assistant Professor (Anesthesia)
Nasiri, R.; Diploma (QAU), MA (QAU), MA (Sorbonne), MPhl (Sorbonne), PhD (Sorbonne); Assistant Professor (Faculty of Education)
Narendran, A.; PhD (ASU), MSc (Bath), MD (McMaster), BSc(Hons) (UEL); Assistant Professor - Medicine (Oncology)
Nasseer, M.A.; MB BS; Clinical Lecturer (Psychiatry)
Nash, C.L.; BSc(Hons), FRCP, MD, Clinical Assistant Professor (Department of Medicine)
Nasserden, M.D.; Cert (UBC), MLS (UBC), BFA (UofC); Librarian (Libraries & Cultural Resources)
Natale, D.R.C.; BSc(Hons) (UWO), PhD (UWO); Assistant Professor (Compar Biol & Experim Medicine)
Nation, J.G.; LMCC, FRCP (RCPS), BSc (UofA), MD (UofA), SpecCompe (UofM); Professor - Medicine (Obstetrics & Gynecology), Professor - Medicine (Oncology)
Nault, B.R.; BComm (McGill), PhD (UBC); Professor (Haskayne School of Business), University Professor (Haskayne School of Business)
Naylor, J.; Clinical Assistant Professor (Psychiatry)
Neary, S.E.; MLS (UBC), BA (UVIC); Librarian (Libraries & Cultural Resources)
Nechka, A.A.; MLS (UBC), BEd (UofC), Cert (UofC); Librarian (Libraries & Cultural Resources)
Neil, S.G.; CCh, FRCP, MB; Clinical Associate Professor (Anesthesia)
Nelson, D.L.; BSc, FRCP, MD, PhD; Clinical Assistant Professor (Paediatrics)
Nelson, F.A.; PhD (UofA), BA (Hons) (UofC), MA (UofC); Associate Professor (Communication & Culture), Adjunct Associate Professor (Sociology)
Nesca, M.; BA (Hons) (UofA), MA (UofM), PhD (UofM); Adjunct Assistant Professor (Psychology)
Nettel-Aguirre, A.; BSc (UNAM), MSc (UofC), PhD (UofC); Assistant Professor (Paediatrics)
Neu, D.E.; CA, PhD (Queen’s), BBA (WLU), MBA (York); Professor (Haskayne School of Business), Future Fund Professor in Acctg (Haskayne School of Business)
Neuhauser, E.K.; Dr Habil (TUM), PhD (TUM); Adjunct (Dept of Religious Studies)
Neumann, N.F.; BSc (UofA), PhD (UofA); Adjunct Assistant Professor (Microbiology & Infect Disease)
Newton, R.; BSc (UofLondon), PhD (UofLondon); Associate Professor - Medicine (Cell Biology & Anatomy)
Ng, K.K.; PhD (Stanford), BSc(Hons) (UofC), MSc (UofC); Associate Professor (Biological Sciences), Adjunct Associate Professor (Biochem & Molecular Biology)
Ngihm, L.X.; PEng (APEGGA), BASc (PolyMtl), PhD (UofA), MASC (Waterloo); Adjunct Professor (Chemical & Petroleum Eng)
Ngugi, A.; Med (AKU), BEd (Kenyatta), Diploma (Nairobi); Adjunct Instructor (Faculty of Education)
Nguyen, M.D.; PhD (McGill), BSc (UdeM), Diploma (UdeM); Assistant Professor - Medicine (Biochem & Molecular Biology), Assistant Professor - Medicine (Clinical Neurosciences), Brenda Stafford Investigator (Clinical Neurosciences), Assistant Professor - Medicine (Cell Biology & Anatomy)
Nicholas, D.B.; BSW (UofC), MSW (UofC), PhD (UofT), MDiv (Wycliffe); Associate Professor (Faculty of Social Work)
Nixon, J.A.; FRCPC, BSc (UofC), (Department of Art), Department BEd (UofL); Associate Professor Medicine (Paediatrics) (UofS); Associate Professor - FAAP, FRCPC, MBA (UofC), MD

Nijssen-Jordan, C.L.D.; Diploma, Professor (Surgery), Professor & Manufacturing Eng), Adjunct (SIT); Adjunct Professor (Mechanical Engineering)

Nigg, B.M.; Diploma (SIT), DrScNat Insurance & Risk Mgmt (Haskayne School of Business), chr

Nielsen, J.S.; PhD (Ottawa), MASc (UofT); Associate Professor (Electrical & Computer Eng)

Nielson, N.; BSc (NWMSU), MA (PENN), PhD (PENN); Professor (Haskayne School of Business), chr

Nieman, P.; MB BS (SUN); Clinical Assistant Professor (Paediatrics)

Nigg, B.M.; Diploma (SIT), DrScNat (SIT); Adjunct Professor (Mechanical & Manufacturing Eng), Adjunct Professor (Surgery), Professor (Faculty of Kinesiology)

Nijssen-Jordan, C.L.D.; Diploma, FAAP, FRCPC, MBA (UofC), MD (UofS); Associate Professor - Medicine (Paediatrics)

Nishimura, A.H.; Diploma (NAIT), BEd (UofL); Associate Professor (Department of Art), Department Head (Department of Art)

Nixon, J.A.; FRCPC, BSc (UofC), MD (UofC); Clinical Assistant Professor (Surgery)

Nixon, L.L.; BEd (UBC), BSc (UBC); Clinical Associate Professor (Family Medicine)

Nkemdirim, L.C.; BSc (UofL), PhD (UofL); Professor (Geography)

Nordstokke, D.W.; BA Ed (UBC), MSc (UBC); Assistant Professor (Faculty of Education)

Norman, A.; BSc (UofC), MSc (UofC), PhD (UofC); Associate Professor (Physics & Astronomy)

Norman, S.A.; PEng (APEGGA), BSc (Queen’s), MSc (Stanford), PhD (Stanford); Assoc Dean (Student Affairs) (Schulich School of Engineering), Senior Instructor (Electrical & Computer Eng)

Norrie, W.C.; BSc, FRCP, MD; Clinical Assistant Professor (Anaesthesia)

Nosal, M.; DMath (Charles), PhD (Charles); Professor (Mathematics & Statistics)

Noseworthy, T.W.; ABIM, Cert.CCHSE, FACP, FCCP, MPH (Harvard), BMSc (MUN), MD (MUN), FRCP (RCPSC), MSc (UofA), Professor - Medicine (Community Health Sciences), Department Head (Community Health Sciences)

Noskov, S.; BSc (IFSU), MSc (IFSU), PHD (RAS); Adjunct Professor (Biological Sciences)

Notman, H.G.; MSc (Oxford), BA (Hons) (Queen’s), PhD (UofC), Adjunct Assistant Professor (Anthropology)

Nourelldin, A.M.; BSc (Cairo), MSc (Cairo), PhD (UofC); Adjunct Associate Professor (Geomatics Engineering)

Novak, L.; Adjunct Associate Professor (Environmental Design)

Nowicki, E.P.; PEng (APEGGA), BSc (UofT), MASc (UofT), Phd (UofT); Associate Professor (Electrical & Computer Eng)

Nowrouzian, B.; BSc (Aya Mehr), DIC (ICSTM), MSc (ICSTM), PhD (ICSTM); Adjunct Professor (Electrical & Computer Eng)

Numerow, L.M.; MD; Clinical Assistant Professor (Radiology)

Nguyen, A.; PEng (APEGGA), MSc (KTH), PHD (Rice), MSc (UH); Assistant Professor (Electrical & Computer Eng), Adjunct Assistant Professor (Physiology & Biophysics)

Oakander, M.A.; MD; Clinical Assistant Professor (Psychiatry)

Oakleaf, D.A.; BA (UofT), MA (UofT), PhD (UofT); Associate Professor (Department of English)

Oakley, B.C.; BES (UofT), MArch (UofT); Adjunct Assistant Professor (Environmental Design)

O’Beire, M.; CCFP, MD (UofC), PhD (UofC), BSc (UofC), MSc (UofT); Associate Professor - Medicine (Family Medicine)

Oberle, K.M.; BSc(Nur) (UofA), MN (UofA), PhD (UofA), Reg. Nurse (UofA); Adjunct Professor (Faculty of Medicine), Professor (Faculty of Nursing)

O’Brien, M.G.; BA (OSU), MA (Texas), PhD (UW-Madison); Assistant Professor (Germanic Slavic East Asian Sl)

Oddie, S.D.; MSc (UofC), PhD (UofC), BSc (UofL); Adjunct Associate Professor (Psychology)

Oddone Paolucci, E.; BA (Hons) (UofC), MSc (UofC), PhD (UofC); Adjunct Assistant Professor (Community Health Sciences), Adjunct Assistant Professor (Surgery)

Odermo, L.; PhD (Leeds), BEd (Nairobi), MPhil (NorWTA); Adjunct Instructor (Faculty of Education)

Oetelaar, G.A.; Cert (Ottawa), MA (SFU), PhD (SIU); BA (UofC); Professor (Archaeology)

Ogilvie, T.R.; FRCPC (RCPSC), MD (UofS); Assistant Professor - Medicine (Pathology & Laboratory Med)

O’Grady, J.K.; AA (OCAD), MBA (OSU), MA (RCA), PhD (UofC), BA (UofC); Associate Professor (Environmental Design)

O’Keefe, K.P.G.; PEng (APEGGA), BSc(Hons) (UBC), BSc (UofC); Associate Professor (Physics & Astronomy)

Okoniewski, M.; PEng (APEGGA), MSc (Gdansk), PhD (Gdansk); Professor (Electrical & Computer Eng), Tier II CRC-App Electromagnet (Electrical & Computer Eng), Alvin Libin Chr-Biomed Eng (Electrical & Computer Eng)

Obey, C.W.; BA (UofC), MA (UofC); Instructor (Department of English)

Ollert, L.A.; Clinical Lecturer (Family Medicine)

Olson, B.J.; FRCPC, MD; Clinical Assistant Professor (Anesthesia)

Olson, J.D.D.; Diploma (NAIT), MLA (UofT); Adjunct Associate Professor (Environmental Design)

Oluboka, O.J.; FRCPC, BSc (UofL), MSc (UofL); Clinical Assistant Professor (Psychiatry)

Oluja, M.; Med (AKU-IED), BEd (Kenya); Adjunct Instructor (Faculty of Education)

Oluwadairo, S.A.; MSc, MB BS (Ibadan); Clinical Assistant Professor (Anaesthesia)

Oluwatola, S.O.; MSc, MB BS (Ibadan); Clinical Assistant Professor (Anaesthesia)

Ortiz-Neira, C.L.; MD; Clinical Assistant Professor (Radiology)

Owre, M.; Med (AKU), BEd (Kenya); Adjunct Instructor (Faculty of Education)

Oyschak, A.F.; MD, MSc; Clinical Assistant Professor (Pathology & Laboratory Med)

Osborn, G.D.; BA (UC), PhD (UC); Professor (Department of Geoscience)

Oiler, M.; MA (Indiana), PhD (Indiana); BA (Swarthmore); Adjunct Professor (Department of Philosophy), Professor (History)

Osman-Ahmed, A.H.; BSc (Cairo), MSc (Cairo), PhD (UofC); Adjunct Assistant Professor (Electrical & Computer Eng)

Osthoff, H.D.; MSc (UofA), PhD (UofA), BS(Hons) (Victoria); Assistant Professor (Chemistry)

Ottmann, J.; BEd (UofC), MEd (UofS), Assistant Professor (Faculty of Education)

Ousman, S.S.; PhD (McGill), BS(Hons) (Queen’s), MSc (Queen’s); Assistant Professor - Medicine (Clinical Neurosciences)

Ouyed, R.; MSc (McMaster), PhD (McMaster); Associate Professor (Physics & Astronomy)

Ovenden, M.E.; BMSc, FRCP, MD; Clinical Assistant Professor (Paediatrics)

Owen, J.; PhD (Carleton), BSc (UBC); Instructor (Department of Geoscience)

Oxoby, R.J.; BSc (SCU), MA (SJSU), PhD (UC); Associate Professor (Economics)

Oyo, S.; Med (Leeds), PhD (MON), BEd (UON); Adjunct Assistant Professor (Faculty of Education)

P

Paasuke, R.T.; FRCP, MD/ChM, BSc (McGill); Clinical Assistant Professor (Anaesthesia)

Pablo, A.L.; PhD (Texas), MBA (UI), BA (Wellesley); Associate Professor (Haskayne School of Business)

Pacaud, D.; FRCP (RCPSC), MD (UdeM); Associate Professor - Medicine (Paediatrics)

Pachet, A.; MSc (PUC), PhD (PUC), BA (UofC); Adjunct Assistant Professor (Psychology)

Paczuski, M.; BSc (MIT), MSc (MIT), PhD (MIT); Professor (Physics & Astronomy)
ACADEMIC STAFF

Pierce, T.G.; MD; Clinical Associate Professor (Cardiac Science)

Pierce, T.M.; FRCP (Ottawa), MD (Ottawa); Associate Professor - Medicine (Cardiac Science), Associate Professor - Medicine (Surgery)

Prince, T.A.; MD; Clinical Associate Professor (Paediatrics)

Pringsheim, T.M.; BSc, FRCP, MD; Clinical Assistant Professor (Neurosciences)

Prior, T.I.; Ph.D (Cambridge), BSc(Hons) (UofC), MD (UofC); Clinical Associate Professor (Psychiatry)

Prociuk, T.J.; MD (UofM), PhD (UofM), BA (UofS); Adjunct Professor (Psychology)

Proud, D.; BSc (Essex), PhD (Essex); Professor - Medicine (Physiology & Biophysics), Tier I CRC-Inflamn Airway Dis (Physiology & Biophysics)

Prowse, C.E.; BSc (UofC), MA (UofC), PhD (UofC); Adjunct Assistant Professor (Anesthesiology)

Prusinkiewicz, C.A.; FRCP, MD, BSc (UofC); Clinical Assistant Professor (Anesthesia)

Prusinkiewicz, P.; MSc (PW), PhD (PW); Professor (Computer Science), University Professor (Computer Science)

Prynce, C.E.; MN (UofC), BSc(Nur) (UofT); Adjunct Assistant Professor (Faculty of Nursing)

Puloski, S.; MD (UWO), BSc (Waterloo); Clinical Lecturer (Surgery)

Punja, K.G.; BA, BSc (UofA); Clinical Lecturer (Surgery)

Purdy, A.C.; BSc(Hons), FRCP, MD, MSc; Clinical Assistant Professor (Department of Medicine)

Pynch, T.; EdD (UBC), BA (UofA), MA (UofA); Professor (Faculty of Social Work)

Pytyka, S.; BSc, FRCP; Clinical Associate Professor (Anaesthesia)

Q

Qi, W.; MD, PhD; Research Assistant Professor (Physiology & Biophysics)

Qual, P.B.; BAO, MBBS; Clinical Assistant Professor (Family Medicine)
Ribble, C.S.; BSc (UBC), PhD (UofG), DVM (UofS), MSc (UofS); Professor (Ecosystem & Public Health)

Ricento, T.K.; BA (Gettysburg), PhD (UC), MA (USC); Professor (Faculty of Education); Chair English as an Add Lang (Faculty of Education)

Rich, T.A.; Cert (CFPC), MBBS (UBC), MD (UBC); Clinical Assistant Professor (Family Medicine)

Richer, J.; PhD (Paris), BA (Hons) (UdeM), MA (UdeM), PhD (UdeM); Assistant Professor (French Italian & Spanish)

Richter, M.M.; Dr Habil (EKUT); DrRNat (Fribourg); Adjunct Professor (Computer Science)

Ricker, D.L.; BComm (UofC), MBA (UofC); Senior Instructor (Haskayne School of Business)

Rickhi, B.G.; MB BS; Clinical Associate Professor (Psychiatry)

Riediger, C.L.; MSC (UBC), BSc(Hons) (Waterloo), PhD (Waterloo); Professor (Department of Geoscience)

Rigby, I.J.; FRCP, BSc(Hons) (UofA), MD (UofC); Clinical Assistant Professor (Family Medicine)

Rigby, R.S.; CCFP, BSc (UofM), MD (UofM); Clinical Lecturer (Family Medicine)

Riley, Y.; BA (Ottawa), BA (Hons) (Selj; MA (Selj); Senior Instructor (Germanic Slavic East Asian St)

Rinke, K.D.; PEng (APEGGA), PhD (NCSU), BSc (UA); Associate Professor (Chemical & Petroleum Eng); Associate Professor - Medicine (Physiology & Biophysics)

Rios, C.; MSc (UM), PhD (UM); Assistant Professor (Mathematics & Statistics)

Roux, K.P.; FRCP, MD (UofC), PhD (UofC), BSc (UofS); Assistant Professor - Medicine (Department of Medicine); Assistant Professor - Medicine (Microbiology & Infect Disease)

Ritchie, J.R.B.; BSc(Hons) (Queen’s), MSc (Queen’s), PhD (UWO); Professor (Haskayne School of Business); Prof of Tourism, Hosp & Enter (Haskayne School of Business)

Ritter, E.A.; PhD (MIT), BComm(Hon) (Queen’s); Associate Professor (Linguistics)

Ro, D.K.; BSc(Agr) (Korea), PhD (UBC), Assistant Professor (Biological Sciences)

Robbins, S.M.; PhD (UBC), BSc(Hons) (York); Associate Professor - Medicine (Biochem & Molecular Biology); Associate Professor - Medicine (Oncology); Tier II CRC-Molec Genet/Cancer (Oncology)

Roberge, K.L.; Cert (CFPC), BSc (McGill), MD (UofC); Clinical Assistant Professor (Family Medicine)

Roberts, C.A.; MEDes (UofC); Adjunct Assistant Professor (Environmental Design)

Roberts, J.K.; ME (Queen’s), PhD (Queen’s), BA (Hons) (Waterloo); Associate Professor (Economics); Tier II CRC in Economics Org (Economics)

Roberts, R.; BA (UW), MArch (UW); Adjunct Associate Professor (Environmental Design)

Robertson, D.F.; FRCP, MD, MSc; Clinical Assistant Professor (Paediatrics)

Robertson, H.L.; MLIS (UofA), BA (UofC); Associate Librarian (Libraries & Cultural Resources)

Robertson, L.H.; BSc, FRCP, MD; Clinical Assistant Professor (Department of Medicine)

Robertson, M.A.; BSc, FRCP, MBBS; Clinical Assistant Professor (Paediatrics)

Robertson, S.E.; CPSYCH (CAP), BED (MTA), BSc (MTA), MEd (UofA), PhD (UofA); Professor (Faculty of Education)

Robinson, E.L.; BA Ed (Ryan), MD (UofT); Clinical Assistant Professor (Paediatrics)

Robinson, J.W.; MSc (UofC), PhD (UofC), BSc(Hons) (York); Adjunct Associate Professor (Psychology), Adjunct Associate Professor (Oncology)

Robinson, M.J.; MBA (UWO), PhD (UWO), BMath (Waterloo); Associate Professor (Haskayne School of Business), Assoc Dean (Exequ Prog) (Haskayne School of Business)

Robinson, R.W.; Adjunct Professor (Psychology)

Robinson Vollman, A.L.; MA (Ottawa), PhD (Ottawa), BSc(Nurs) (UofS), RN (UofS); Adjunct Associate Professor (Community Health Sciences)

Rock, M.J.; BA (Hons) (McGill), PhD (McGill), MSW (UofT); Adjunct Assistant Professor (Anthropology), Assistant Professor - Medicine (Community Health Sciences), Adjunct Assistant Professor (Faculty of Social Work)

Rodrigues, L.O.; MARC (MIT), BArch (McGill), BSc (McGill); Adjunct Assistant Professor (Environmental Design)

Roesler, R.; PhD (Bremen), MSc (UBB); Associate Professor (Chemistry)

Roesingh, H.; Ed (UofC), MA (UofC), PhD (UofC); Assistant Professor (Faculty of Education)

Rogers, C.A.; BSc(Nut) (McMaster), MHSc (McMaster); Associate Professor (Faculty of Nursing)

Rogers, P.; PEng (APEGGA), BA (Hons) (Cambridge), MA (Cambridge), MENg (Cambridge); Associate Professor (Mechanical & Manufacturing Eng)

Rogers, S.M.; PhD (Laval), BSc (UNB), MSc (UBN); Assistant Professor (Biological Sciences)

Roggensack, A.M.; FRCP (RCPC), BMSc (UofA), MD (UofA); Clinical Assistant Professor (Obstetrics & Gynecology)

Rohleder, T.R.; MBA, PhD, BS (UM), PhD (UM); Professor (Haskayne School of Business), Assoc Dean (Research) (Haskayne School of Business)

Rohman, E.M.; BA (UofA), MA (UVA), PhD (UVA); Assistant Professor (Dept of Religious Studies)

Rokne, A.S.; BEd (UofC), MEd (UofC); Instructor (Faculty of Education)

Rokne, J.G.; MSC (UofA), PhD (UofC); Professor (Computer Science)

Roland, B.; DABMG, FCCMG (C McGill), MSC (Laval), BSc(Hons) (Queen’s), MD (UofC), Associate Professor - Medicine (Clinical Genetics), Associate Professor - Medicine (Pathology & Laboratory Med)

Rollin, O.; BEd (UofC), MA (UofC); Instructor (French Italian & Spanish)

Romanchuk, K.G.; FRCPC, MD (UofS); Professor - Medicine (Surgery)

Romano, C.C.; MD; Clinical Associate Professor (Radiology)

Ronsky, J.L.; PEng (APEGGA), PhD (UofC), BSc (Waterloo); Professor (Mechanical & Manufacturing Eng); Tier II CRC-Biomedical Eng (Mechanical & Manufacturing Eng), Professor (Faculty of Kinesiology)

Rook, J.; BA, MDiv (McMaster), PhD (Oxford); Adjunct Assistant Professor (Faculty of Social Work)

Rostad, O.P.; FRCPC, LMCC, PhD (McGill), BSc (UBC), MD (UBC); Professor - Medicine (Department of Medicine)

Rosal, J.L.; MOC (UC), PhD (UC), DVM (UP); Research Assistant Professor (Biochem & Molecular Biology)

Rose, K.J.; BA (Hons) (UWO), MA (UWO), Ph.D (UWO); Adjunct Assistant Professor (Psychology)

Rohseh, W.D.; PEng (APEGGA), BSc (Waterloo), MA Sc (Waterloo), PhD (Waterloo); Professor (Electrical & Computer Eng)

Rosen, W.S.; BA, FACs, FRCsc, MD; Clinical Assistant Professor (Surgery)

Rosengarten, A.M.; Clinical Associate Professor (Obstetrics & Gynecology)

Ross, B.C.; BSc, FRCP, MD; Clinical Assistant Professor (Paediatrics)

Ross, G.A.; MSc (Cornell), MENg (UC), PhD (UC), BSc (UofA); Adjunct Associate Professor (Environmental Design)

Ross, M.J.; BSc, MD; Clinical Lecturer (Family Medicine)

Ross, S.A.; FRACP, MBBS, MRACP, Clinical Professor (Department of Medicine)

Ross, S.J.; BSc(Hons) (Aberdeen), MPhi (Aberdeen), PhD (Aberdeen), MBA (Glasgow), Professor - Medicine (Obstetrics & Gynecology)

Rostom, A.; FRCP, BSc (Ottawa), MD (Ottawa), MSc (Ottawa); Associate Professor - Medicine (Community Health Sciences), Associate Professor - Medicine (Department of Medicine)

Roth, S.H.; BSc (UofA), MSc (UofT), PhD (UofT); Professor - Medicine (Anaesthesia), Professor - Medicine (Pharmacology & Therapeutics)

Rothery, M.A.; MSW (UBC), BA (UofS), PhD (UofT); Professor (Faculty of Social Work)

Rothschidl, J.M.; MB BS; Clinical Associate Professor (Cardiac Science)

Rothwell, B.C.; MD; Clinical Assistant Professor (Surgery)

Rottger, P.J.; BAO, MBBS, Clinical Lecturer (Faculty of Medicine)

Roughley, R.A.; BEd (Brook), MEd (Queen’s); Instructor (Teaching & Learning Centre)

ACADEMIC STAFF
Shantz, D.H.; MA (WTS), MA (Education) (Seneca), BA (Hons) (UWO), BEd

Shannon, R.; MA (SMU), Cert Social Work

Associate Professor (Faculty of Medicine)

Shankar, J.; MPhil (NIMHANS), Associate Professor (Microbiology & Molecular Biology)

MSc (UofA), PhD (UofA); Adjunct Professor (Pathology & Laboratory Med)

Shaffer, E.A.; Diploma, FRCP, MD, (Queen’s); Professor - Medicine (Department of Medicine)

Shah, M.A.; FRCP, MD; Clinical Assistant Professor (Anesthesia)

Shahradabi, M.S.; DVM (Teheran), Assistant Professor (Anaesthesia)

Shahrabadi, M.S.; DVM (Teheran), Assistant Professor (Anaesthesia)

Shah, M.A.; FRCP, MD; Clinical Assistant Professor (Pathology & Laboratory Med)

Shaffer, E.A.; Diploma, FRCP, MD, (Queen’s); Professor - Medicine (Department of Medicine)

Shah, M.A.; FRCP, MD; Clinical Assistant Professor (Anesthesia)

Shahradabi, M.S.; DVM (Teheran), MSc (UofA), PhD (UofA); Adjunct Associate Professor (Microbiology & Infect Disease)

Shankar, J.; MPhil (NIMHANS), MSW (TSS), PhD (USYD); Associate Professor (Faculty of Social Work)

Shannon, R.; MA (SMU), Cert (Seneca), BA (Hons) (UWO), BEd (UWO); Instructor (Faculty of Education)

Shantz, D.H.; MA (WTS), MA (Waterloo), PhD (Waterloo), BA (Hons) (Wheaton); Professor (Dep’t of Religious Studies)

Shantz, H.L.; BSc(Nur) (UBC), MN (UofC), DNEd (VicHospNur); Clinical Associate (Faculty of Nursing)

Shapiro, A.H.; CPSYCH, BA (SGWU), MA (Waterloo), PhD (Waterloo); Adjunct Assistant Professor (Faculty of Social Sciences)

Shapiro, B.L.; BA (Hons) (UW), MEd (UW), PhD (UofA); Professor (Faculty of Education)

Share, S.L.; MB BS, Clinical Associate Professor (Radiology)

Sharan, A.; PhD (University of Manchester), Associate Professor - Medicine (Department of Medicine), Professor - Medicine (Pharmacology & Biophysics)

Shashidhra, R.; BSc(Hons) (JNCASR), MSc (JNCASR), PhD (JNCASR); Assistant Professor (Microbiology & Infect Disease)

Sharma, N.; BSc (GNDU), MSc (GNDU), PhD (GNDU); Adjunct Lecturer (Biology & Molecular Biology)

Shaw, W.J.D.; PEng (APEGGA), BSc (UofS), MSc (UofS), PhD (UofS); Post Gradu (UofS); Professor (Mechanical & Manufacturing Eng)

Shearer, J.; BPHE (Queen’s), BSc (Queen’s), Diploma (UofG), PhD (UofG); Assistant Professor - Medicine (Biology & Molecular Biology), Assistant Professor (Faculty of Kinesiology)

Sheldon, R.S.; PhD (CU), FRCP (RCPCS), BSc (Ukishop), MD (UofT); Professor - Medicine (Medical Genetics), Professor - Medicine (Department of Medicine), Professor - Medicine (Cardiac Science)

Shellain, B.S.; DNEd (FoothillsH), BN (UofC), MSc (UofC); Adjunct Professor (Faculty of Nursing)

Shemano, C.S.; PhD (Dundee), BSc (UofA), MSc (UofA); Assistant Professor (Biological Sciences)

Shemateke, G.; BMEd (Uganda), MSc (UofA); Adjunct Associate Professor (Faculty of Education)

Shervin, P.D.; BA (UB), MSc (UofL), PhD (UofL); Professor - Research Assistant Professor (Pharmacology & Therapeutics)

Sheppard, B.L.; Cert, BA Ed (MUN), MEd (MUN), PhD (Ottawa); Adjunct Associate Professor (Faculty of Education)

Scherer, P.D.; BA (UB), MSc (UW-Madison), PhD (UW-Madison); Assistant Professor (Haskayne School of Business)

Sharma, A.; PhD, BS Ed (SFU), MEd (UNBC), Grad Dip (UofA); Professor (Faculty of Education)

Sherman, E.M.; BA, MSc, PhD; Adjunct Associate Professor (Clinical Neurosciences), Adjunct Associate Professor (Paediatrics)

Shi, Y.; BSc(Hons) (Soochow), MSc (Soochow), PhD (UWO); Assistant Professor (Chemistry)

Shi, Y.; MSc (Iowa), PhD (Iowa), MD (SMU); Assistant Professor - Medicine (Biology & Molecular Biology), Assistant Professor - Medicine (Microbiology & Infect Disease), Tier II CRC-Immune Regulation (Microbiology & Infect Disease)

Shiell, A.M.; BSc(Hons) (QMUL), PhD (USYD), MSc (York); Professor - Medicine (Community Health Sciences)

Shimizu, G.K.H.; BSc (UofW), PhD (Windsor); Professor (Chemistry)

Shimony, Y.; MSc, PhD; Adjunct Associate Professor (Physiology & Biophysics)

Shing, M.; FRCP, BS MD (UofM), BSc (UofM), MD (UofM); Clinical Assistant Professor (Anesthesia)

Sherkoer, M.O.; DABP, FCAP, FRCP, LMCC, MD (Dist) (UofS); Clinical Assistant Professor (Pathology & Laboratory Med)

Sherry, L.; BSc(Nur) (Ryanest), DNEd (SelkirkCom); Instructor (Faculty of Nursing)

Shirazi, N.G.; MSc, PhD; Assistant Professor (Anesthesia)

Shia, M.A.; FRCP, BSc (McGill), MSc (McGill); Clinical Assistant Professor (Anesthesia)

Shull, D.; BMSc, FRCP, MD (UBC), MSc (UofA); Clinical Assistant Professor (Paediatrics)

Sick, G.A.; MSc (UBC), PhD (UofC), BSc(Hons) (UofC), MSc (UofT); Professor (Haskayne School of Business)

Sicotte, P.; BSc (UdeM), MSc (UdeM), PhD (UdeM); Associate Professor (Anthropology)

Sideris, M.G.; PEng (APEGGA), Diploma (NTU), MSc (UofC), PhD (UofC); Professor (Geomatics Engineering), Assoc Dean (Faculty of Graduate Studies)

Sidwell, K.C.; BA (Cambridge), MA (Cambridge), PhD (Cambridge); Adjunct Professor (Dept of Greek & Roman Studies)

Siepert, J.D.; PhD (ASU), BSc (UofC), MSc (UofC); Professor (Faculty of Social Work)

Sigal, R.J.; Cert, License, MMCC, LCPsA (CPSA), License (CPSO), MPH (Harvard), BSc(Hons) (McGill), FRCP (RCPCS), SpecCompe (RCPCS), MD (UofC); Associate Professor - Medicine (Community Health Sciences), Associate Professor - Medicine (Department of Medicine), Associate Professor - Medicine (Cardiac Science), Associate Professor (Faculty of Kinesiology)

Sigalet, D.L.; FRCP, MD (UofC), MSc (UBC) (UofA); Professor - Medicine (Surgery), ACH Professor (Paediatric Surg (Surgery)

Sigismund Nielsen, H.; PhD (Aarhus), BA (KU), MA (KU); Associate Professor (Dept of Greek & Roman Studies), Department Head (Dept of Greek & Roman Studies)

Sikes, D.S.; MSc (MSU), BSc (UC), PhD (UC); Adjunct Assistant Professor (Biological Sciences)

Silverman, R.P.; BSc (Bath), PhD (Bath); Adjunct Associate Professor (Computer Science)

Silver, E.A.; DSc (MIT), BEng (McGill); Faculty Professor (Haskayne School of Business)

Slyius, J.L.; FRCP, LMCC, BA (Hons) (Oxford), MD (UofA); Clinical Associate Professor (Department of Medicine)

Simmins, G.; MA (UofT), MPhil (UofT), PhD (UofW); Assoc Dean (Rsrch&Planning) (Faculty of Fine Arts), Professor (Department of Art), Adjunct Professor (Environmental Design)

Simmonds, R.W.; BSc (Bath), PhD (Bath); Adjunct Associate Professor (Computer Science)

Simmons, C.V.; BA (St.Thomas), MSc (UH), PhD (UH); Associate Professor (Haskayne School of Business), Assoc Dean (Prior & Plan (Haskayne School of Business)

Simmons, N.M.; BA (CMC), MSc (CU), PhD (UofA); Adjunct Associate Professor (Environmental Design)

Simon, J.E.; FRCP, BSc (StAndrew’s), MD (UofC), PhD (Wales); Associate Professor - Medicine (Oncology), Associate Professor - Medicine (Psychiatry)

Silverman, J.; FRCP, MD; Clinical Assistant Professor (Anesthesia)

Sinclair, B.R.; BSc (UofC), MArch (UofC), MSc (UofC); Professor (Environmental Design)

Shirazi, N.G.; MSc, PhD; Assistant Professor (Anesthesia)
Singer, A.R.; BSc, MSc, PhD; Adjunct Assistant Professor (Psychiatry)

Singh, N.J.; MB BS; Clinical Assistant Professor (Psychiatry)

Singh, R.R.; MBBS, Clinical Associate Professor (Department of Medicine)

Singhal, N.; MB BS (AIIMS), MD (Kanpur); Professor - Medicine (Paediatrics)

Siray, B.L.; MD; Clinical Assistant Professor (Family Medicine)

Sivak, C.D.; FRCP, MD; Clinical Lecturer (Radiology)

Sjogren, D.B.; MSc (UofA), BSc (UofS); Associate Professor (Faculty of Science), Associate Professor (Geography)

Skone, S.H.; BSc (UofA), Cert (UofA), MSc (UBC), MD (UBC); Associate Professor (Geomatics Engineering)

Skov, C.M.B.; MD; Clinical Lecturer (Surgery)

Slater, D.M.; PhD, BSc(Hons) (Coventry); Assistant Professor - Medicine (Pharmacology & Therapeutics)

Smits, H.; BA (UofA), Med (UofA); Associate Professor (Faculty of Education), Assoc Dean (Div Teach Prep) (Faculty of Education)

Smitsman, J.J.; BSc(Hons) (Cambridge), MSc (Warsaw), PhD (Warsaw); Professor (Mathematics & Statistics)

Smith, D.M.; MA, PhD; Adjunct Assistant Professor (Community Health Sciences)

Smith, D.W.; PEng (APEGGA), BSc (CSU), PhD (KU), MSc (JSSJU); Adjunct Professor (Civil Engineering)

Smith, E.E.; MRCP, MPh (Harvard), BSc (McGill), MD (McGill); Assistant Professor - Medicine (Clinical Neurosciences), Assistant Professor - Medicine (Radiology)

Smith, F.G.; BScHons (UNSW), PhD (UNSW); Professor - Medicine (Paediatrics), Professor - Medicine (Physiology & Biophysics)

Smith, G.B.; BA (MTA), BEd (MTA), BFA (UofC), MA (UofT); Assoc Dean (Faculty of Fine Arts), Professor (Department of Drama)

Smith, H.M.; BSc, FRCP, MD, MSc; Clinical Assistant Professor (Anaesthesia)

Smith, H.P.; MA (Carleton), MSc (RIT), BSc (UWIC), PhD (UofC); Adjunct Assistant Professor (Psychiatry)

Smith, L.B.; DSc, MSc; Clinical Assistant Professor (Paediatrics)

Smith, M.R.; PEng (APEGGA), BSc(Hons) (Hull), PhD (UofC), BA Ed (UofC); Professor (Electrical & Computer Eng), Adjunct Professor (Radiology)

Smith, M.R.; BSc(Hons) (UBC), FRCP, MD, MDC; SpecCompe (UBC); Assistant Professor - Medicine (Surgery)

Smith, P.R.; CCFP, LMCC, RN, BSc (UofC); Clinical Assistant Professor (Family Medicine)

Smith, S.S.; MD; Clinical Assistant Professor (Surgery)

Smith, T.C.; MD, Clinical Lecturer (Family Medicine)

Smeeuw, N.J.; MSc(Eng) (Delft), PhD (TUM); Adjunct Associate Professor (Geomatics Engineering)

Snaitalcy, J.Z.; BA (Hons) (Cambridge), MSc (Warsaw), PhD (Warsaw); Professor (Mathematics & Statistics)

Smid, B.R.; CMA (SMAO), MBA (UofC), BBA (WLU); Instructor (Haskayne School of Business)

Snowdon, L.R.; PhD (Rice), BSc (UofC); Adjunct Professor (Department of Geoscience)

Snyder, F.F.; FCCM, CMG (CCMG), MSc (McMaster), BSc (UofA); Professor - Medicine (Biochem & Molecular Biology), Professor - Medicine (Medical Genetics)

So, C.B.; MB BS; Clinical Assistant Professor (Radiotherapy)

Sokol, P.A.; PhD (OregGhltSc), BSc (UC); Professor - Medicine (Microbiology & Infect Disease)

Sorasham, A.S.; CFNM, DNaSilBrdPed, MB BS (PondiU), MD (PondiU); Assistant Professor - Medicine (Paediatrics)

Soksa, M.A.; BSc, FRCP, MD; Clinical Assistant Professor (Anaesthesia)

Sosnowski, M.K.; MD; Clinical Assistant Professor (Family Medicine)

Sowa, B.J.; MB BS (UG), FRCP (UofA); Clinical Professor (Psychiatry)

Spencer, R.J.; BA (CU), PhD (UC); Assistant Professor (Psychology)

Spier, S.; BSc(Hons) (McGill), MD (McGill), MS (McGill), FRCP (RCPSC); Associate Professor - Medicine (Paediatrics)

Spiewak, S.A.; MSc (PW), PhD (PW); Associate Professor (Mechanical & Manufacturing Eng)

Spilia, M.V.; BSc(Hons) (UofA), PhD (UofA); Instructor (Department of Geoscience)

Spivak, M.H.; FRCP, LMCC, BSc (McGill), MD/CHM (McGill); Clinical Lecturer (Psychiatry)

Spolidi, E.; BEd (StMilan); Instructor (French Italian & Spanish)

Spiro, C.; MD, Clinical Lecturer (Department of Medicine)

Spratt, D.A.; FGAC, PG (APEGGA), MA (JHU), PhD (JHU), BSc (U of R); Professor (Department of Medicine)

Srivastava, A.; PhD (McMaster), BA (Waterloo), MA (Waterloo); Associate Professor (Department of English)

Stacey, S.F.; FRCP, BSc(Nurs) (McMaster), MD (UofC); Clinical Assistant Professor (Anaesthesia)

Stahnisch, F.W.; PhD, MSc (Edinburgh), MD (FreeUberlin), BA (JWGU); Associate Professor (History), Associate Professor - Medicine (Community Health Sciences), AMF/Hannover Professor (HOM) (Community Health Sciences)

Stalker, M.A.; BA (Hons) (Queen's), LLB (Queen's); Professor (Faculty of Law)

Stallard, J.; BSc (UofA), MSc (UofC); Instructor (Mathematics & Statistics)

Stam, H.J.; MA (Carleton), PhD (UofC); BA (Hons) (SPatsCol); Professor (Psychology)

Stang, A.S.; FAAP (AAP), BSc (Brown), MBA (McGill), MD (McGill), FRCP (RCPSC); Assistant Professor - Medicine (Paediatrics)

Stanezlet, C.A.; FRCP, MD; Clinical Assistant Professor (Paediatrics)

Starrevel, Y.P.; BSc(Hons) (Brown), MD (Queen's), PhD (UWO); Assistant Professor - Medicine (Clinical Neurosciences)

Stassen, K.C.; CCFP, MB BS (SUN); Clinical Lecturer (Family Medicine)

Stastna, J.; PhD (CTU), DRN (Charles); Adjunct Professor (Civil Engineering)
Stefanyszyn, D.J.; Peng (APEGGA), PhD (UofC), BEng (UofS); Adjunct Associate Professor (Mechanical & Manufacturing Eng), Associate Professor (Faculty of Kinesiology).

Stein, S.M.; BA (BC), PhD (UofC); Senior Instructor (Environmental Design).

Stelfox, J.B.B.; BSc (UofA), PhD (UofA); Adjunct Associate Professor (Environmental Design).

Stellox, T.; ABIM, FACP, FRCPC, FIBMS, (CMU), MD, PhD (UofA); Assistant Professor - Medicine (Department of Medicine).

Stell, W.K.; BA (Swarthmore), MD (UC), PhD (UC); Professor - Medicine (Cell Biology & Anatomy), Professor - Medicine (Surgery).

Stephen, R.; DVM (UofS), PhD (UofS); Associate Professor - Medicine (Community Health Sciences), Associate Professor (Ecosystem & Public Health).

Stephenson, B.D.; BSc (Hons) (UWO), Cert (UWO), PhD (UWO); Instructor (Computer Science).

Stephure, D.K.; FRCPC, BSc (UofC), MD (UofC); Associate Professor - Medicine (Paediatrics).

Stermer, J.A.; MD (UofC), MSc (UofC); Adjunct Associate Professor (Pathology & Laboratory Medicine).

Stewart, B.G.; CCFP, LMCC, BSc (UofC); Adjunct Assistant Professor (Family Medicine).

Stewart, B.; MD (UofC), MSc (UofC); Adjunct Associate Professor (Family Medicine).

Stewart, C.M.; BSc (UofC), MD (UofC); Clinical Assistant Professor (Family Medicine).

Stewart, D.A.; FRCPC (RCPC), BSc (UofA), MD (UofA); Professor - Medicine (Department of Medicine), Professor - Medicine (Oncology), Professor - Medicine (Clinical Neurosciences).

Stewart, D.K.; BA (Hons) (Acadia), MA (Acadia), PhD (UBC); Professor (Political Science), Department Head (Political Science).

Stewart, J.; BSc, FRCS, MD; Clinical Lecturer (Surgery).

Stewart, R.R.; PhD (MIT), BSc (Hons) (UofT); Adjunct Professor (Department of Geoscience).

Stier, T.J.; FRCPC, BSc (UBC), MD (UC), Clinical Assistant Professor (Anaesthesia).

Stil, J.M.; MSc (Leiden), PhD (Leiden); Assistant Professor (Physics & Astronomy).

Stilling, L.S.; MD; Clinical Assistant Professor (Anaesthesia).

Stinson, S.M.; EdD (Columbia), MD (UM); BScN (UofA); Adjunct Professor (Faculty of Nursing).

Stocking, J.R.; BA (Grinnell), MAT (Harvard), MA (UCB); Professor (Department of Art).

Stokes, P.; BA, MB BS, MMRC; Clinical Lecturer (Psychiatry).

Stone, J.A.; FRCPC, MD (Queen's), PhD (UofC); Clinical Associate Professor (Department of Medicine), Clinical Associate Professor (Cardiac Science).

Stone, P.J.; MD; Clinical Assistant Professor (Paediatrics).

Stoodley, R.; BSc (UBC); Instructor (Chemistry).

Storek, J.; ABIM, MD (Charles), PhD (Charles); Associate Professor - Medicine (Department of Medicine), Tier II CRC - Immunology (Department of Medicine), Associate Professor - Medicine (Microbiology & Infect Disease), Associate Professor - Medicine (Oncology).

Storey, D.G.; PhD (Ottawa), BSc (UBC), MSc (UWO); Professor (Biological Sciences), Adjunct Professor (Microbiology & Infect Disease).

Storr, M.A.; MD (McGill), PhD (McGill), MD (TUM); Associate Professor - Medicine (Department of Medicine).

Stortz, P.J.; BA (LU), MA (UBC), PhD (UofT), BA (Hons) (York); Assistant Professor - Medicine (Oncology), Assistant Professor (Communication & Culture).

Stowel, L.R.; BA (MUN), BEd (MUN), MA (MUN); Instructor (Communication & Culture).

Strack, M.; BSc (Hons) (McMaster), PhD (McMaster); Assistant Professor (Geography).

Straus, S.E.; FRCPC (RCPC), SpecCert (RCPC), BSc (Hons) (UWO), MD (UofT), MS (UofT); Adjunct Associate Professor (Community Health Sciences).

Strehl, O.; MD; Clinical Assistant Professor (Department of Medicine), Clinical Associate Professor (Cardiac Science), Clinical Associate Professor (Radiology).

Strother, M.L.; BSc (CMU), PhD (UofA); Adjunct Associate Professor (Environmental Design).

Strother, R.T.; CCFP, LMCC, BA (Texas), MD (UofA); Adjunct Associate Professor (Faculty of Kinesiology).

Strzelczyk, F.; PhD (UBC); Associate Professor (Germanic Slavic East Asian St).

Stuiver, R.; BA (UNB), DSc (UWO), MD (UofM); Adjunct Associate Professor (Department of Medicine).

Stuiver, D.Y.; BSc, PhD; Adjunct Assistant Professor (Department of Medicine).

Sylvestre, E.; BSc (UOF), MD (UofC), FACP; Professor - Medicine (Oncology), Professor - Medicine (Surgery).

Sudak, L.; BA (UBC), MD (UBC); Clinical Assistant Professor (Mechanical & Manufacturing Eng).

Suffel, J.B.B.; CPSYCH, MA (Carleton), PhD (Carleton), BSc (Vanderbilt); Adjunct Assistant Professor (Psychology).

Sullivan, R.; MA (Carleton), PhD (McGill), BA (Hons) (UofT); Associate Professor (Communication & Culture).

Sundermuller, F.S.; BSc (UofA), MD (UofC); Instructor (Germanic Slavic East Asian St).

Sun, J.; MSSE (KobeCity), PhD (Nagoya), BScEng (Shandong); Research Assistant Professor (Department of Medicine).

Sun, Q.; PhD (SJTU), MSc (SJTU), PhD (UofC); Associate Professor (Mechanical & Manufacturing Eng).

Surette, M.G.; BSc (CMU), PhD (UWO); Tier II CRC-Microbial Gene Exp (Biochem & Molecular Biology), Professor - Medicine (Biochem & Molecular Biology), Professor - Medicine (Microbiology & Infect Disease).

Suter, E.; Diploma (SIT), DrScNat (SIT); Adjunct Assistant Professor (Faculty of Social Work).

Sutherland, C.T.; MA (McGill), BA (Oxford), Diploma (Oxford), MA (Oxford); Professor (Communication & Culture).

Sutherland, F.R.; BSc (UofC), FRCPC (UofC), MD (UofC); Professor - Medicine (Oncology), Professor - Medicine (Surgery).

Sutherland, G.R.; FRCPC, BSc (UofM), MD (UofM); Professor - Medicine (Clinical Neurosciences).

Sutherland, L.R.; ABIM, FACP, FRCPC, MD/ChM (McGill), BA (UNB), DSc (UNB), MSc (UofC); Professor - Medicine (Community Health Sciences), Professor - Medicine (Department of Medicine).

Sutherland, R.F.; BA (UofC), MSc (UofC); Instructor (Communication & Culture).
Sutherland, T.C.; BSc (SFU), PhD (UVIC); Assistant Professor (Chemistry)

Svenson, L.W.; Diploma, BSc (UofA); Adjunct Associate Professor (Community Health Sciences)

Svilpis, J.E.; BA (UofG), MA (UofT), PhD (UofT); Associate Professor (Department of English)

Sveczek, W.Y.; PEng (APEGBC), BSc (UofA), PhD (UofA); Faculty Professor (Chemical & Petroleum Eng)

Swaddle, T.W.; FCIC, FRSC, PhD (Leicester), BSc(Hons) (UofLondon); Faculty Professor (Chemistry)

Swain, M.G.; FRCPC, BSc(Hons) (Queen's); MD (Queen's), MSc (Queen's); Professor - Medicine (Department of Medicine)

Swaine, F.B.; FRCPC, MBA, MD; Clinical Assistant Professor (Pathology & Laboratory Med)

Swamy, G.; FRCPC, MD (UBC); Clinical Assistant Professor (Surgery)

Swann, D.R.; CCFP, FRCPC, BMSc (UofM), MA (UofC); Adjunct Professor (Community Health Sciences)

Sweet, B.A.; FRCPC, BSc (UBC), MD (UBC); Clinical Assistant Professor (Anaesthesia)

Swenson, D.S.; PhD (ND), BA (Ottawa), MA (UofC); Adjunct Assistant Professor (Sociology)

Swischuk, A.; DSc (NASU), MSc (NASU), PhD (NASU); Associate Professor (Mathematics & Statistics)

Syed, N.I.S.; BSc(Hons) (Karachi), MSc (Karachi), PhD (Leeds); Professor - Medicine (Cell Biology & Anatomy), Department Head (Cell Biology & Anatomy), Professor - Medicine (Physiology & Biophysics)

Syme, D.A.; PhD (UC), BSc (UofG), MSc (UofG); Associate Professor (Biological Sciences)

Syms, E.L.L.; Cert, PhD (UofA), BA (UofM), MA (UofM); Adjunct Professor (Archaeology)

Szekrenyes, J.W.; FRCPC, BSc (UofA), MD (UofA); Clinical Assistant Professor (Pathology & Laboratory Med)

Sztukowski, I.; BMSc, FRCPC, MD; Clinical Assistant Professor (Paediatrics)

T

Taenzer, P.A.; BSc (McGill), PhD (McGill); Adjunct Assistant Professor (Department of Medicine)

Tam, C.; MA (NUS), PhD (Waterloo); Assistant Professor (Communication & Culture)

Tam, J.R.; BComm (UofC), BSc (UofC), MSc (UofC); Instructor (Computer Science)

Tambasco, M.; PhD (UWO), BSc (UofT), MSc (Windsor); Assistant Professor - Medicine (Oncology)

Tan, Z.C.; PEng (APEGBC), BSc (THU), MSc (THU), PhD (UI); Assistant Professor (Mechanical & Manufacturing Eng)

Tang, P.A.; FRCPC, BSc (UofA), MD (UofA); Assistant Professor - Medicine (Oncology), Assistant Professor - Medicine (Oncology)

Tang, K.N.; CCFP, FRCPC, BSc (UBC), MD (UBC); Clinical Associate Professor (Anesthesia)

Tarlo, B.; BSc, FRCPC, MD; Clinical Lecturer (Surgery)

Taras, D.; BA (SGWU), MA (UofT), PhD (UofT); Professor (Communication & Culture), University Professor (Communication & Culture)

Taras, D.G.; MA (Duke), MBA (UofC), PhD (UofC), BA (Hons) (York); Professor (Haskayne School of Business), Assoc Dean (Research) (Haskayne School of Business)

Tarle, J.M.; MArch (SCI-Arc), BArch (UC); Assistant Professor (Environmental Design)

Tarr, P.R.; MD (UBC), PhD (UofC), BA (UC); Associate Professor (Faculty of Education)

Taube-Schock, C.R.; BSc (UofC), MSc (UofC); Instructor (Computer Science)

Tay, R.S.; BA, PEng (APEGBC), PhD (Purdue), MSc (Stanford), BSc (TTU); Professor (Civil Engineering)

Taylor, A.S.; MD, Clinical Assistant Professor (Family Medicine)

Taylor, M.S.; PhD (Queen's), BA (UofC), MA (UofC); Professor (Economics), Tier I CRC-Int Energy/Evr Econ (Economics)

Taylor, M.T.; PhD (Princeton), BA (Utah); Assistant Professor (Germanic Slavic East Asian St)

Taylor, R.A.; MSc (UBC), PhD (UBC), BSc(Hons) (UWO); Professor (Physics & Astronomy), Department Head (Physics & Astronomy)

Tchuyap, A.; BA, Diploma, MA, PhD (Queen's); Adjunct Associate Professor (French Italian & Spanish)

Temple, W.J.; FACs, FRCPC, MD (Queen's); Professor - Medicine (Oncology), Professor - Medicine (Surgery)

Tenove Brummitt, S.C.; RN (CalGenHosp), BSc(Nur) (UofA), MEd (UofA), PhD (UofA); Associate Professor (Faculty of Nursing)

Teoh, D.A.; FRCPC, MD (Queen's), BSc (UofC), MOM (UofC); Clinical Assistant Professor (Anaesthesia)

Tepperman, C.E.; MA (Carleton), PhD (UC), BA (Hons) (UofT); Assistant Professor (Communication & Culture)

Ter Keurs, H.E.D.; Cert (Leiden), MD (Leiden), PhD (Leiden); Professor - Medicine (Department of Medicine), Professor - Medicine (Cardiac Science), Professor - Medicine (Physiology & Biophysics)

Terror, T.R.; PhD (King's Col), BSc (UofC), MA (UofC); Arthur Child Foundation Chair (Faculty of Social Sciences), Associate Professor (Political Science)

Teskey, G.C.; BSc(Hons) (UWO), MSc (UWO), PhD (UofW); Professor (Psychology)

Teskey, W.F.; MALSA, MCIS, PEng (APEGBC), DEng Sc (Stuttgart), MSc (UNB), BSc (UofA); Professor (Geomatics Engineering)

Thaell, J.F.; MD, Clinical Assistant Professor (Department of Medicine)

Thangadurai, V.; PhD (IISC), Dr Habil (Keil), BSc (UNOM), MSc (UNOM); Assistant Professor (Chemistry)

Thelwall, R.; Diploma (Edinburgh), BA (Hons) (Oxford), PhD (Ulster); Adjunct Associate Professor (Anthropology)

Then, K.L.; Cert, RN (FoothillsH), PhD (UofA), BN (UofC), MN (UofC); Professor (Faculty of Nursing)

Theodor, J.M.; PhD (UC), BSc (UofC); Associate Professor (Biological Sciences)

Therien, F.; Adjunct Assistant Professor (Department of Geoscience)

Thomson, M.A.; FRCPC, BSc (McGill), MD (McGill); Assistant Professor - Medicine (Medical Genetics)

Thomas, R.E.; CCFP, MRCGP, BA (Hons) (Cambridge), MD (McMaster), PhD (Yale); Professor - Medicine (Family Medicine)

Thompson, A.D.; FRCP (UofC), CCFP (UofM), MD (UofS); Clinical Assistant Professor (Pathology & Laboratory Med)

Thompson, A.H.; BA (UofC), MSc (UofC), PhD (UofLondon); Adjunct Professor (Community Health Sciences)

Thompson, G.C.; BSc(Hons), FRCPC, MD (UWO); Assistant Professor - Medicine (Paediatrics)

Thornton, R.I.; ProfPhy (CAP), BSc(Hons) (UBC), PhD (UofT); Associate Professor (Physics & Astronomy)

Thornton, R.J.; PhD (McMaster), BSc(Hons) (Queen's); Assistant Professor - Medicine (Clinical Neurosciences), Assistant Professor - Medicine (Cell Biology & Anatomy)

Thompson Isherwood, R.A.; BN (McGill), RN (NSN), Med (UofC); Associate Professor (Faculty of Nursing)

Thomson, M.B.; FRCPC, MD, MSc; Clinical Assistant Professor (Paediatrics)

Thorne, W.E.R.; PEng, BASc (UBC), MEdes (UofC); Adjunct Assistant Professor (Environmental Design)

Thornton, G.M.; PEng (APEGBC), PEng (APEGGA), MSc (MIT), BSc (UofA), PhD (UofC); Assistant Professor - Medicine (Surgery)

Thornton, L.E.; Med (UNB), BN (UofM); Instructor (U of C Qatar Campus)

Thornton, N.G.; BSc(Nur), MSc, DNeD (St.Michael); Clinical Associate Professor (Faculty of Nursing)

Thorp, T.A.; BSc(Agr) (ALLDUNIV), MSc (UC), PhD (UC); Faculty Professor (Biological Sciences)

Thundathil, J.C.; BVSc (Kerala), MVSc (Kerala), PhD (UofS); Adjunct Assistant Professor (Biological Sciences), Assistant Professor (Production Animal Health)

Thuride, K.B.; PhD (Dalhousie), BSc(Hons) (St Mary's); Associate Professor (Chemistry)

ACADEMIC STAFF

Thomas, M.A.; FRCPC, BSc (McGill), MD (McGill); Assistant Professor - Medicine (Medical Genetics)

Thomas, R.E.; CCFP, MRCGP, BA (Hons) (Cambridge), MD (McMaster), PhD (Yale); Professor - Medicine (Family Medicine)

Thompson, A.D.; FRCP (UofC), CCFP (UofM), MD (UofS); Clinical Assistant Professor (Pathology & Laboratory Med)

Thompson, A.H.; BA (UofC), MSc (UofC), PhD (UofLondon); Adjunct Professor (Community Health Sciences)

Thompson, G.C.; BSc(Hons), FRCPC, MD (UWO); Assistant Professor - Medicine (Paediatrics)

Thornton, R.I.; ProfPhy (CAP), BSc(Hons) (UBC), PhD (UofT); Associate Professor (Physics & Astronomy)

Thornton, R.J.; PhD (McMaster), BSc(Hons) (Queen's); Assistant Professor - Medicine (Clinical Neurosciences), Assistant Professor - Medicine (Cell Biology & Anatomy)

Thompson Isherwood, R.A.; BN (McGill), RN (NSN), Med (UofC); Associate Professor (Faculty of Nursing)

Thomson, M.B.; FRCPC, MD, MSc; Clinical Assistant Professor (Paediatrics)

Thorne, W.E.R.; PEng, BASc (UBC), MEdes (UofC); Adjunct Assistant Professor (Environmental Design)

Thornton, G.M.; PEng (APEGBC), PEng (APEGGA), MSc (MIT), BSc (UofA), PhD (UofC); Assistant Professor - Medicine (Surgery)

Thornton, L.E.; Med (UNB), BN (UofM); Instructor (U of C Qatar Campus)

Thorton, N.G.; BSc(Nur), MSc, DNeD (St.Michael); Clinical Associate Professor (Faculty of Nursing)

Thorp, T.A.; BSc(Agr) (ALLDUNIV), MSc (UC), PhD (UC); Faculty Professor (Biological Sciences)

Thundathil, J.C.; BVSc (Kerala), MVSc (Kerala), PhD (UofS); Adjunct Assistant Professor (Biological Sciences), Assistant Professor (Production Animal Health)

Thuride, K.B.; PhD (Dalhousie), BSc(Hons) (St Mary's); Associate Professor (Chemistry)
Walker, R.E.A.; FRCP, MD (UoF); Clinical Assistant Professor (Radiology)
Walker, R.J.; BSc (UBC), MSc (UBC), PhD (UBC); Associate Professor (Computer Science)
Walker, R.L.; BSc (Alma), MSc (MSU), PhD (MSU); Senior Instructor (Biological Sciences)
Walker, S.; Diploma (ExeterCol), Diploma (ICSTM), BSc (Leeds), PhD (Leeds), MDES (RCA); Professor (Environmental Design), Assoc Dean (Res & Int'l) (Environmental Design)
Wall, A.J.; BA (Hons) (McMaster), MA (McMaster), PhD (Queen's), DEA (UMB); Professor (French Italian & Spanish), University Professor (French Italian & Spanish)
Wallace, C.J.; BSc (UoA), MD (UoA); Clinical Associate Professor (Clinical Neurosciences), Clinical Associate Professor (Radiology)
Wallace, E.M.; FRCPC, LMCC, BSc(Nur) (UoA), MD (UoC); FELLOW (UoT); Clinical Assistant Professor (Psychiatry)
Wallace, J.E.; PhD (Iowa), BA (UoC), MA (UoC); Adjunct Professor (Psychology), Professor (Sociology), Adjunct Professor (Department of Medicine)
Wallace, J.L.; BSc (Queen's), MSc (Queen's), PhD (UoT); Professor - Medicine (Pharmacology & Therapeutics), Tier I CRC-Inflammation Rsrch (Pharmacology & Therapeutics), Professor - Medicine (Physiology & Biophysics)
Walker, A.B.; MLS (UBC), BSc (UoC); Librarian (Libraries & Cultural Resources)
Walley, A.; DVM (UofS), PhD (UofS); Clinical Assistant Professor (Family Medicine)
Walsh, M.J.L.; BSc, MD; Clinical Assistant Professor (Family Medicine)
Walsh, M.P.; BSc (NUi), PhD (UoM); Professor - Medicine (Biochem & Molecular Biology), Tier I CRC-Vasc Smooth Mus Rsr (Biochem & Molecular Biology)
Wan, R.G.; Dipl. ING (Lyon), MASc (Ottawa), DEUG (UCleFe), PhD (UoA); Professor (Civil Engineering)
Wang, B.; MD, FRCPC (UoC), MSc (UoC); Clinical Assistant Professor (Anaesthesia)
Wang, H.; MD, PhD; Research Assistant Professor (Physiology & Biophysics)
Wang, J.H.; FRSC, PhD (ISU), BSc (NTU); Clinical (Biochem & Molecular Biology), Research Professor (Biochem & Molecular Biology)
Wang, J.L.; BSc (HRBMU), MMS (HRBMU), PhD (UoC); Assistant Professor - Medicine (Community Health Sciences), Associate Professor - Medicine (Psychiatry)
Wang, M.; BSc(Hons) (UoMf), MSc (UoT), PhD (UoT); Assistant Professor (Computer Science)
Wang, X.C.; Bsc (NWU), MSc (NWU), PhD (UoR); Assistant Professor (Geomatics Engineering)
Wang, Y.; PENG (APEGGA), PhD (NTU), BSc (STU); Professor (Electrical & Computer Eng)
Wanner, R.A.; MSc (UW-Madison), PhD (UW-Madison), BSc (UW-Milwke); Professor (Sociology)
Wardell, R.W.; BA (Hons) (Waterloo), MSc (Waterloo), PhD (Waterloo); Associate Professor (Environmental Design)
Ware, A.F.; BA (Hons) (Oxford), MA (Oxford), PhD (Oxford); Associate Professor (Mathematics & Statistics)
Warnica, J.W.; FAC; FACP, FRCPC, MD (UofM); Professor - Medicine (Department of Medicine), Professor - Medicine (Cardiac Science)
Warren, A.L.; DACVP, BSc (UQ), DVM (UQ); Assistant Professor (Vet Clinical & Diagnostic Sev)
Warren, D.C.; MLS (Dalhousie), BA (Hons) (MTA); Librarian (Libraries & Cultural Resources)
Warren, V.M.; BSc (UoA), MD (UoA); Clinical Lecturer (Family Medicine)
Warsame, H.A.; CGA, BSc (SNJ), MBA (UC), PhD (UoC); Associate Professor (Haskayne School of Business)
Warshawski, S.J.; MD, Clinical Lecturer (Surgery)
Waslen, G.D.; MD, Clinical Assistant Professor (Surgery)
Wasserman, P.R.; FRCPC, BSc (UofS), MD (UofS); Clinical Assistant Professor (Anaesthesia)
Wassill, D.B.; MD, Clinical Assistant Professor (Anaesthesia)
Watson, E.J.; BA (Hons) (Queen's), MLS (UBC); Associate Librarian (Libraries & Cultural Resources)
Watson, G.D.; MD, Clinical Professor (Psychiatry)
Watson, L.A.; RN (HolyCross), PhD (UA), BN (UoC), Med (UoC); Associate Professor (Faculty of Nursing),Assoc Dean (Undergrad Program) (Faculty of Nursing)
Watson, N.C.; BS, MB; Clinical Assistant Professor (Anaesthesia)
Watson, S.B.; Bsc (McGill), MSc (McGill), PhD (UoC); Adjunct Assistant Professor (Biological Sciences)
Watson, T.W.J.; BSc, FRCPC, MD; Clinical Assistant Professor (Clinical Neurosciences)
Watson Hamilton, J.W.; LLM (Columbia), LLB (Dalhouse), BA (UoA); Associate Professor (Faculty of Law)
Watt, D.E.L.; BED (Queen's), BA (York), BA (hons) (York), MA (York), PhD (York); Associate Professor (Faculty of Education)
Way, J.C.; FRSCC, MD; Clinical Assistant Professor (Surgery)
Wayman, T.E.; BA (Hons) (UBC), MFA (UCC); Associate Professor (Department of English)
Weaver, S.L.; CPIM, MBA (UoC), BAsc(Hons) (UoT), BED (UoT); Instructor (Haskayne School of Business)
Webb, A.; DVM (UofS), PhD (UoF); Assistant Professor (Compar Bio & Experim Medicine)
Webber, C.F.; PRTeachCt, Med (UO), PhD (UO), BED (UoT); Professor (Faculty of Education), Assoc Dean (Grad Div Ed Res) (Faculty of Education)
Webster, L.L.; BA (UBC), MA (UoC); Adjunct Assistant Professor (Environmental Design)
Webster, M.A.; FRCPC, LMCC, PhD (McMaster), BSc (Ottawa), MD (Ottawa); Clinical Assistant Professor (Oncology)
Wedel, R.J.; CCFP, MD, Clinical Associate Professor (Family Medicine)
Weedens, G.A.; RN (FoothillsH), BSc(Nur) (UoA), MSc (UoF); Clinical Associate Faculty of Nursing
Weiss, S.; Bsc (McGill), PhD (UoC), Diploma (Vanier); Professor - Medicine (Cell Biology & Anatomy), Professor - Medicine (Pharmacology & Therapeutics)
Welikovitch, L.; BSW (McGill), MD (McMaster), FRCPC (RCFSC), SpecCert (RCFSC); Associate Professor - Medicine (Cardiac Science)
Welling, M.J.; BMus (CU), PhD (Texas), MMus (UW-Madison); Assistant Professor (Department of Music)
Welsh, C.N.; BA (UoIC), Bsc (UoC), MBA (UoIC); Instructor (Haskayne School of Business)
Welsh, D.G.; MSc (UBC), BPE (UoC), PhD (UoF); Associate Professor - Medicine (Physiology & Biophysics), Tier II CRC-GAP JRVC (Physiology & Biophysics)
Welsh, T.N.; MSc (McMaster), PhD (McMaster), BPHE (UoT); Assistant Professor (Faculty of Kinesiology)
Wen, J.A.; BA (Hons) (Carleton), MA (Carleton), PhD (Queens); Associate Professor (Economics)
Werle, J.R.; BSc, FRSCC, MD; Clinical Lecturer (Surgery)
Wertzl, W.F.; CCFP, MBBS, BA (UoA), MD (UoC); Clinical Assistant Professor (Family Medicine)
Westell, M.E.; BA (McMaster), MA (UWO), MLS (UWO); Librarian (Libraries & Cultural Resources)
Westra, H.J.; BA (UBC), MA (UoT), PhD (UoT); Professor (Dept of Greek & Roman Studies)
Westwick, D.T.; PENG (APEGGA), PhD (McGill), BSc(UBC), MScEng (UNB); Associate Professor (Electrical & Computer Eng)
Wetherell, D.G.; PhD (Queen's), BA (Hons) (UoF), MA (UoF); Adjunct Associate Professor (Communication & Culture), Adjunct Professor (History)
Whaley, L.M.A.; PEng (APEGGA), BSc (MUN), PhD (UNB); Adjunct Professor (Chemical & Petroleum Eng)

Wheeler, J.L.; MLIS (UofA), BA (UofC); Librarian (Libraries & Cultural Resources)

Wheeler, S.; BEng, FRCP, MBA, MD, Clinical Assistant Professor (Anaesthesia)

Whelan, P.J.; PhD (UofA), BSc(Hons) (UofG), PhD (UofG); Associate Professor - Medicine (Clinical Neurosciences), Associate Professor - Medicine (Physiology & Biophysics), Associate Professor (Compar Biol & Experim Medicine), Adjunct Associate Professor (Faculty of Kinesiology)

Whidden, P.G.; BSc, FRSC, MD, Clinical Lecturer (Surgery)

White, A.M.; BA (Laurentian), MA (UofC), PhD (UofC); Instructor (Dept of Religious Studies)

White, C.A.; MSc (CSU), PhD (UBC), BSc (UM); Adjunct Associate Professor (Environmental Design)

White, C.M.; BSc, FRCP, MD, Clinical Associate Professor (Clinical Neurosciences)

White, D.E.; Diploma (StJohn), BSc(Nur) (UofA), MN (UofA), PhD (UofA); Associate Professor (Faculty of Nursing), Assoc Dean (Research) (Faculty of Nursing)

White, K.J.; BA (SFU), PhD (UBC), MA (Waterloo); Adjunct Associate Professor (Psychology), Associate Professor (Haskayne School of Business)

White, M.E.; MA (McGill), BA (UMICH), MLS (UofT); Librarian (Libraries & Cultural Resources)

White, N.G.; BSc (UofA), MD (UofC); Clinical Assistant Professor (Family Medicine)

White, W.D.; FRCP, BA (Davidson), MD (UofC), MSc (VCU); Assistant Professor - Medicine (Psychiatry)

Whiteside, D.P.; BSc(Hons) (UofG), DVM (UofG), PhD (UofG); Adjunct Associate Professor (Biological Sciences), Adjunct Assistant Professor (Ecosystem & Public Health)

Whitestone, B.W.; MRCD, DDS (UofT); Clinical Assistant Professor (Surgery)

Wickson, R.D.; PhD (UBC), BSc(Hons) (UofC), PhD (UofC); Clinical Assistant Professor (Anesthesia)

Whitestone, B.W.; MRCDC, DDS Professor (Ecosystem & Public Sciences), Adjunct Assistant Associate Professor (Biological DVM (UofG), PhD (UofG); Adjunct (Psychiatry)

Wilk, D.M.; BSc (UofC), MD (UofC); Professor - Medicine (Community Health Sciences), Professor - Medicine (Paediatrics)

Wilding, W.C.; PhD (Amsterdam), BSc (RUG), MSc (RUG); Assistant Professor (Biological Sciences), Research Assistant Professor (Physiology & Biophysics)

Wildin, R.P.; BSc (McGill), MA (UofC), MD (UofC); Clinical Assistant Professor (Family Medicine), Associate Professor (Faculty of Kinesiology)

Wilkes, T.C.R.; MRCP, MRCPsych, BSc(Hons) (Birmingham), MB BS (Birmingham), MPhil (Edinburgh); Associate Professor - Medicine (Paediatrics), Associate Professor - Medicine (Psychiatry)

Wilkinson, R.P.; BMSc, FRCS, MD, Clinical Assistant Professor (Surgery)

Williams, D.A.; MA (Carleton), DEA (EHES), PhD (EHES), MBA (UWO), BA (UofC); Instructor (Faculty of Social Sciences)

Williams, H.C.; BSc(Hons) (Waterloo), MMath (Waterloo), PhD (Waterloo); Professor (Mathematics & Statistics), CORE Chair (Mathematics & Statistics)

Williams, J.J.; FRCP, MD (MUN), BSc (Queen’s); Clinical Assistant Professor (Department of Medicine)

Williams, M.C.; BSc (Salford), PhD (Swansea), BSWS (UofC); Associate Professor (Faculty of Social Work)

Williams, R.G.; BSc (UofC), MD (UofC); Clinical Assistant Professor (Surgery)

Williams, T.W.; BSEE, PhD (CSU), MA (SUNY, Bing); Adjunct Professor (Computer Science)

Williamson, C.L.; PhD (Stanford), BSc(Hons) (UofS); Professor (Computer Science)

Willemt, J.H.; MA (UofG), EdD (UofT), BA (Hons) (Waterloo); Associate Professor (Faculty of Education)

Willsie, W.R.; MD, Clinical Assistant Professor (Anesthesia)

Wilkman, E.A.; MA (UMICH), PhD (UMICH), BA (UoM); Professor (Economics)

Wilson, B.N.; MSc (BU), BSc (UofA), Diploma (UofA); Clinical (Paediatrics)

Wilson, D.P.M.; BSc (Brandon), MSc (UofC), BSc (UofC); Research Assistant Professor (Biochem & Molecular Biology)

Wilson, J.M.; MD, Clinical Assistant Professor (Family Medicine)

Wilson, M.G.; BA (UofA), MA (UofC), PhD (UofT); Professor (Faculty of Social Work), Assoc Dean (Academic) (Faculty of Social Work)

Wong, M.J.; BSc(Hons) (PEI), MEdes (UofC), PhD (UofC); Adjunct Assistant Professor (Environmental Design)

Wilson, R.D.; BSc (UBC), FRCP (UBC), MD (UofC); Clinical Assistant Professor (Family Medicine), Professor - Medicine (Medical Genetics), Professor - Medicine (Obstetrics & Gynecology)

Wong, R.J.A.; PhD (Glasgow), BSc(Hons) (Sussex); Associate Professor - Medicine (Physiology & Biophysics)

Wilson, S.R.; FRCP, MD (UofA); Clinical Professor (Radiology)

Wilson, W.J.F.; BSc (UBC), PhD (UofC), MSc (Waterloo); Senior Instructor (Physics & Astronomy)

Wong, W.M.; MA (CU), PhD (CU), BA (WLU); Associate Professor (Archaeology)

Wong, W.C.; BSc (Hons) (Waterloo), BA (Hons) (Waterloo); Professor (Mathematics & Statistics)

Winston, B.W.; FRCP, LMCC, MD (UofA), BSc (UofC); Associate Professor - Medicine (Critical Care Medicine)

Winters, S.; MA (OSU), PhD (OSU), BA (Pomona); Assistant Professor (Linguistics)

Wiseman, D.A.; MD, Clinical Associate Professor (Radiology)

Wisheart, I.M.; CCPP, DABIM, FRCP, BSc(Hons) (UofA), MD (UofA); Clinical Assistant Professor (Family Medicine)

Wisheart, P.M.; BSc, MA, MD; Adjunct Assistant Professor (Surgery)

Wissmann, A.; PhD; Adjunct Assistant Professor (Biochem & Molecular Biology)

Woolf, P.; Diploma (Dortmund), PhD (Dortmund); Assistant Professor (Computer Science)

Woolf, B.L.; Diploma, Cert (Gr MacEwan), MAS (UBC), BA (Hons) (UofC), Associate Archivist (Libraries & Cultural Resources)

Woleshyn, J.M.; MBA (HSE), MA (PenN), PhD (UNB); Associate Professor (Haskayne School of Business)

Wolbring, G.A.; Diploma (EKT), PhD (Frankfurt); Assistant Professor - Medicine (Community Health Sciences)

Wong, A.L.; MB BS, MSc, Clinical Associate Professor (Surgery)

Wong, A.O.; MD, MSc, Clinical Assistant Professor (Oncology)

Wong, B.E.; FRCP, MD, Clinical Assistant Professor (Paediatrics)

Wong, J.; BMSc (UofA), MD (UofA); Clinical Assistant Professor (Surgery)

Wong, J.H.; FRCP, BSc(Hons) (UofA), MD (UofA), BSc (UofA); Assistant Professor - Medicine (Clinical Neurosciences)

Wong, J.K.; BSc (UofC), MD (UofC), MSc (UofC), Clinical Assistant Professor (Radiology)

Wong, L.; BSc (McGill), MA (UofC), PhD (York); Associate Professor (Sociology)

Wong, M.; MA (Concordia), PhD (Concordia), BA (Hons) (McGill); Adjunct Assistant Professor (Psychology)

Wong, M.D.; BSc, FRCP, MD, Clinical Assistant Professor (Department of Medicine), Clinical Assistant Professor (Oncology)

Wong, M.P.; BSc, FRCP, MD, Clinical Lecturer (Department of Medicine)

Wong, N.C.W.; FRCP, BSc (UofC), MD (UofC), MSc (UofC); Professor - Medicine (Biochem & Molecular Biology), Professor - Medicine (Department of Medicine)
